## Updated: May 2018

Note: Containers that produce the Containers per Segregated Pound (CPP) in column (A) vary in size, volume, and weight. The refund value is \$0.05 for some containers (<24 oz.) and \$0.10 for others (>24 oz.). Therefore, you can't just multiply the CPP average by either refund value to get the Refund Value per Segregated Pound rates, column (C).
