Service Needed

CalRecycle recognizes the critical role and commitment of California Native American tribes (Tribes) in advancing climate solutions. Composting is a proven practice to reduce the GHG emissions from landfilling of organic waste. Compost is a valuable resource often used as a component of systems and treatments designed for carbon sequestration, food production, green space development, erosion control, fire remediation, stormwater management, and other uses. CalRecycle is launching the Tribal Composting Needs Assessment and Permitting Guide to understand the priorities and resources needed by Tribes related to developing and operating composting facilities to divert materials from landfills and to help foster climate resilience.

Under a separate contract for Small/Medium Composting Project Permitting, DR23044 (Phase 1), CalRecycle hired a Contractor to:

- Develop Best Management Practices (BMPs) for siting, permitting, designing, and operating small to medium composting activities.
- Develop tools and resources to help local government entities and facility proponents identify appropriate locations for small to medium sized compost operations;
- Outline potential pathways for permitting;
- Collect, compile, analyze, and report data and information related to local and state land use, regulatory oversight across applicable regulatory agencies, regulations and infrastructure requirements related to the proper development, design, and operations of small and medium compost activities;

- Identify regulatory challenges regarding siting, permitting, and associated costs across applicable regulatory agencies; and
- Provide solutions and guidance to assist with the development, design, and operation of small and medium composting activities.

In Phase 2, this Tribal Composting Needs Assessment and Permitting Guide contract will supplement Phase 1 by conducting a Needs Assessment for Tribes to develop, site, permit, build, and operate composting facilities, as well as a Permitting Guide to help Tribes identify permitting requirements specific to tribal lands. Both Phase 1 and Phase 2 contracts support the implementation of the 30x30 Pathways and Natural and Working Lands Climate Smart Strategies and execute the Governor's nature-based solution agenda as called for in Executive Order N-82-20, consistent with Chapter 258, Statutes of 2021 (Senate Bill 155).

The Contractor shall conduct a Needs Assessment to determine what composting tools and resources are needed by Tribes and create a Permitting Guide to help Tribes identify permitting requirements specific to tribal lands.

Refer to the Sample Standard Agreement in the Attachments of this document for a complete description of the Scope of Work.

Contract Budget

This Contract is valid and enforceable only if sufficient funds are made available by the Budget Act of the appropriate fiscal year for the purposes of this program. In addition, this Contract is subject to any additional restriction, limitations or conditions enacted by the Legislature, which may affect its provisions, terms, or funding.

Subject to availability of funds and approval by CalRecycle, there is a current maximum budget of \$156,318.89.

Contract Amendment

CalRecycle reserves the right to amend the Agreement for additional time as required for completion of work, or to increase funding, in accordance with Exhibit B, Budget Detail and Payment Provisions of the resulting Agreement.

Any contract amendments require CalRecycle and contractor to execute a Std. 213A, and approval by DGS, if required. The contract awarded pursuant to this RFP may be amended in compliance with the State Contracting Manual Volume 1, including but not limited to section 3.09 and 5.81.

Payment Withhold

The provisions for payment under this contract shall be subject to a ten percent (10%) withholding per task. The withheld payment amount will be included in the final payment to the Contractor and will only be released when all required work has been completed to the satisfaction of CalRecycle.

Contract Term

The term of this Agreement will span approximately 15 months and is expected to begin in June 2024. CalRecycle reserves the right to amend the term of this Contract as needs arise.

Any such requests must include the current language, the proposed revised language, and the justification for the proposed revision. Any revisions are at the sole discretion of CalRecycle and will only be made under very limited circumstances in which the revisions apply to all Proposers and benefit or enhance the Contract.

Small Business (SB) Participation

CalRecycle encourages a minimum of twenty-five percent (25%) of the project services to be contracted to a California OSDS certified SB that performs a commercially useful function.

This goal can be achieved by a combined effort of the prime and/or any Subcontractors, which includes:

- If the Proposer is a certified OSDS SB, as defined in Section V Definitions and Terms, the Bidder Declaration form (link in Required Forms section of this document) shall be completed and submitted with the Proposal.
- If the Proposer has identified Subcontractors to be utilized to meet this goal, the Bidder Declaration form (link in Required Forms section of this document) shall be completed and submitted with the Proposal.

SB and non-SB may receive preference as set forth below.

For purposes of this RFP, references to "Small Business" or "SB" include "Microbusiness" unless contrary to law. SB certification of "SB-PW" (public works) cannot be used to fulfill the SB/Non-SB Preference Program(s).

Small Business (SB) Preference Application

Any Proposer competing in this process as a California certified SB, or as a non-SB certifying to subcontract a minimum of 25% of the total contract services to a California certified SB, will receive a five percent (5%) preference. Certification must be provided by DGS, OSDS.

Each listed certified small business must perform a "commercially useful function" in the performance of the contract as defined in Government Code Section 14837(d)(4).

The required list of California certified small business subcontracts must be attached to the bid response and must include the following: 1) subcontractor name, 2) address, 3) phone number, 4) a description of the work to be performed and/or products supplied, 5) and the dollar amount or percentage of the net bid price (as specified in the solicitation) per subcontractor. Use the Bidder Declaration form (link in Required Forms section of this document) to report this information.

Questions regarding certification should be directed to the OSDC at (916) 375-4940. In no event shall the SB preference or non-SB subcontracting preference exceed \$50,000 in any single bid.

CalRecycle will apply the preference as described below.

For award based on high score, the preference is applied by calculating the "earned" score for all Proposers: If the highest scored Proposal is from a non-certified SB, then:

1. Calculate five percent (5%) of the highest responsible Proposer's total score.
2. Add the amount calculated in Step 1 above to the score of each of the Proposals eligible for the SB preference to obtain the new total scores for the eligible Proposals.

Application of the preference shall not displace an award to a SB with a non-SB.

A copy of the Proposer's and or/ SB subcontractor's SB certification shall be included with the Proposal.

If the Proposer makes a commitment to achieve SB participation, then the Proposer, if awarded this contract, must within 60 days of receiving final payment under this Agreement (or within such other time period as may be specified elsewhere in this Contract) report to the awarding department the actual percentage of SB participation that was achieved (Govt. Code § 14841). Refer to the Small Business Enterprise Subcontractor Payment Certification form (Attachment A) to fulfill this requirement.

Disabled Veteran Business Enterprise (DVBE) Participation

The DVBE participation requirement is being waived for this solicitation, however the DVBE incentive is available to those bidders meeting participation goals.

CalRecycle encourages a minimum of three percent (3%) of the project services to be contracted to a California OSDS certified DVBE that performs a commercially useful function.

This goal can be achieved by a combined effort of the prime and/or any Subcontractors, which includes:

- If the Proposer is a certified OSDS DVBE, as defined in Section V, Definitions and Terms, the Bidder Declaration form (link in Required Forms section of this document) shall be completed and submitted with the Proposal.
- If the Proposer has identified Subcontractors to be utilized to meet this goal, the Bidder Declaration form (link in Required Forms section of this document) shall be completed and submitted with the Proposal.
- Proposers claiming the DVBE incentive must complete and return the Disabled Veteran Business Declarations (DGS PD 843) (link provided in the Required Forms section of this document).

After being awarded, Contractor shall use the DVBE subcontractors or suppliers proposed in the bid to the State unless a substitution is requested and approved. Contractor shall request the substitution in writing to CalRecycle and receive approval from both the CalRecycle and DGS in writing prior to the commencement of any work by the proposed subcontractor or supplier. A DVBE subcontractor may only be replaced by another DVBE subcontractor. Changes to the scope of work that impact the DVBE subcontractor(s) identified in the bid or offer and approved DVBE substitutions will be documented by contract amendment.

The Contractor shall report and certify DVBE subcontractor payments to CalRecycle by completing and submitting an accurate Prime Contractor's Certification – DVBE Subcontracting Report STD 817 upon contract completion. CalRecycle will withhold \$10,000 from the final payment, or the full final payment if less than \$10,000, until the Contractor complies with the reporting and certification requirements above. A Contractor that fails to comply with the reporting and certification requirement shall, after written notice, be allowed to cure the defect. Notwithstanding any other law, if, after at least 15 calendar days but not more than 30 calendar days from the date of notice, the prime contractor refuses to comply with the certification requirements, CalRecycle shall permanently deduct \$10,000 from the final payment, or the full payment if less than \$10,000.

A person or entity that knowingly provides false information shall be subject to a civil penalty for violation (M&VC § 999.5(d); GC § 14841). Contractor agrees to comply with the rules, regulations, ordinances, and statutes that apply to the DVBE program as defined in Section 999 of the M&VC, including, but not limited to, the requirements of Section 999.5(d). (PCC § 10230.)

Disabled Veteran Business Enterprise (DVBE) Incentive Application

Any Proposer competing in this process as a California certified DVBE, or as a non-DVBE certifying to subcontract a minimum of 3% of the total contract services to a California certified DVBE, will receive an incentive. The incentive amounts for DVBE participation percent are as shown below:

- Five percent (5%) or more participation will receive five percent (5%) incentive calculation.
- Four percent (4%) participation will receive two percent (2%) incentive calculation.
- Three percent (3%) participation will receive one percent (1%) incentive calculation.

Certification must be provided by DGS, OSDS. The incentive is available to a non-DVBE claiming a minimum of three percent (3%) California certified DVBE subcontractor participation. If claiming the non-DVBE subcontractor incentive, the bid response must include a list of the DVBE(s) with which you commit to subcontract in an amount of at least three percent (3%) of the net bid price with one or more California certified DVBEs. Each listed certified DVBE must perform a "commercially useful function" in the performance of the contract as defined in Government Code Section 14837(d)(4).

The required list of California certified DVBE subcontracts must be attached to the bid response and must include the following: 1) subcontractor name, 2) address, 3) phone number, 4) a description of the work to be performed and/or products supplied, 5) and the dollar amount or percentage of the net bid price (as specified in the solicitation) per subcontractor. Use the Bidder Declaration form (link in Required Forms section of this document) to report this information.

Questions regarding certification should be directed to OSDC at (916) 375-4940.

CalRecycle will apply the incentive as follows:

The incentive is applied during the evaluation process and is only applied for responsive bids from responsible bidders proposing the percentage(s) of DVBE participation for the incentive(s) specified above.

For award based on high score, the incentive is applied by calculating the "earned" score for all bidders. If the highest scored Proposal is from a non-certified DVBE then:

1. Calculate five percent (5%) of the highest responsible Proposer's total score.
2. Add the amount calculated above to the score of each of the Proposals eligible for the DVBE incentive according to the participation levels to obtain the new total scores for the eligible Proposals.

Application of the incentive shall not displace an award to a DVBE with a non-DVBE.

A copy of the Proposer's DVBE certification should be included with the Proposal Package.

If awarded, the Proposer who has made a commitment to achieve disabled veteran business enterprise (DVBE) participation, must within 60 days of receiving final payment under this Agreement (or within such other time period as may be specified elsewhere in this Agreement) certify in a report to the awarding department: (1) the total amount the prime Contractor received under the contract; (2) the name and address of the DVBE(s) that participated in the performance of the contract; (3) the amount each DVBE received from the prime Contractor; (4) that all payments under the contract have been made to the DVBE(s); and (5) the actual percentage of DVBE participation that was achieved. A person or entity that knowingly provides false information shall be subject to a civil penalty for each violation (Military & Veterans Code (M&VC) § 999.5(d)). Refer to the Disabled Veteran Business Enterprise Subcontractor Payment Certification form (Attachment B) to fulfill this requirement.

SB/DVBE Reporting Requirement

In compliance with GC 14841, the awarded Contractor shall, upon completion of an awarded contract for which a commitment to small business subcontractors, report to CalRecycle the actual percentage of small business participation that was achieved.

In compliance with M&VC § 999.5(d) and 999.7, awarded Contractor shall, upon completion of an awarded contract for which the Contractor entered into a subcontract with a DVBE, certify to CalRecycle all the following:

1. The total amount the prime contractor received under the contract.
2. The name and address of the DVBEs that participated in the performance of the contract and the contract number.
3. The amount and percentage of work the prime contractor committed to provide to one or more DVBEs under the requirements of the contract and the amount each DVBE received from the prime contractor.
4. That all payments under the contract have been made to the DVBE. Upon request by the awarding department, the prime contractor shall provide proof of payment for the work.

After being awarded, Contractor shall use the DVBE subcontractors or suppliers proposed in the bid to the state unless a substitution is requested and approved. The contractor shall request the substitution in writing to CalRecycle and receive approval from both CalRecycle and DGS in writing prior to the commencement of any work by the proposed subcontractor or supplier. A DVBE subcontractor may only be replaced by another DVBE subcontractor. Changes to the scope of work that impact the DVBE subcontractor(s) identified in the bid or offer and approved DVBE substitutions will be documented by contract amendment.

If for this contract, Contractor made a commitment to achieve the DVBE participation goal, CalRecycle will withhold \$10,000 from the final payment, or the full final payment if less than \$10,000, until the Contractor complies with the certification requirements above. A Contractor that fails to comply with the certification requirement shall, after written notice, be allowed to cure the defect. Notwithstanding any other law, if, after at least 15 calendar days but not more than 30 calendar days from the date of notice, the prime Contractor refuses to comply with the certification requirements, the CalRecycle shall permanently deduct \$10,000 from the final payment, or the full payment if less than \$10,000.

A person or entity that knowingly provides false information shall be subject to a civil penalty for violation (M&VC § 999.5(d); GC § 14841). Contractor agrees to comply with the rules, regulations, ordinances, and statutes that apply to the DVBE program as defined in Section 999 of the M&VC, including, but not limited to, the requirements of Section 999.5(d). (PCC § 10230.)

Refer to the Disabled Veteran Business Enterprise Subcontractor Payment Certification form (Attachment B) to fulfill this requirement.

Target Area Contract Preference Act (TACPA)

If the budget for services outlined in this announcement exceeds \$100,000, CalRecycle provides the optional TACPA preference for TACPA qualified Proposers. Proposers are not required to apply for this preference. Denial of the TACPA preference request is not a basis for rejection of the Proposal. The Proposer shall provide reasonable demonstration of contract labor hours and certify that they will comply with the requirements of the TACPA. The TACPA workplace and workforce preferences will be evaluated for this solicitation. California-based companies seeking TACPA preferences

will need to complete and submit preference request forms with the bid/offer. The following webpage contains required preference request forms and an interactive map to determine if a business is located within a TACPA qualified zone: [Request a Target Area Contract Preference](#). If the Proposer is qualified for this preference, the TACPA Preference Request Form (STD 830) and the [DGS/PD 526 Bidders's Summary of Contract Activities and Labor Hours](#) must be included in the Proposal submittal.

Rules for Award

Preference programs for TACPA or the non-SB subcontracting preference cannot displace a direct award to a certified SB. In the event of a tie between a SB and a firm that is SB and DVBE, the award shall be made to the firm that is SB and DVBE.

Section IV Cost Proposal Submittal

Evaluation

The Contractors Cost Proposal submittal will be evaluated based on whether the cost breakdown is sufficiently detailed to determine if the proposed expenses are reasonable.

Cost Breakdown

Attachment C, Cost Proposal Sheet, must be completed, specifying the total cost, and including detailed project costs and subcontractor commitments, identified by each task and dollar amount. The awarded Proposer's invoices must be itemized as shown in the submitted Cost Proposal Sheet.

With the exception of travel expenses, the cost of food and beverage purchases is not reimbursable. All travel must be itemized in Attachment C, under Column 6. For further travel information read the following section, Travel and Per Diem.

The costs identified in Attachment C should consider the contract length, rise in salaries and overhead costs.

If fringe benefits and/or overhead are not specifically itemized in Attachment C and if the Proposer inserts a \$0, the Proposer must explain on Attachment C why these line items are not itemized. A blank space for either fringe benefits or overhead will be grounds for immediate disqualification.

Failure to include on the Cost Proposal Sheet budgeted costs for all tasks included in the Scope of Work will be grounds for disqualification.

The Cost Proposal Sheet is a self-contained document for the purpose of calculating cost points and evaluating whether all information required by the RFP has been submitted. Therefore, all information (such as explanations of \$0 instead of itemized costs) must be included. Reference by incorporation to the Proposal is not acceptable.

The amount identified in Attachment C may not be changed and will remain in effect for the life of the Contract.

Travel and Per Diem

All travel must be pre-approved by the Contract Manager. Only the least costly travel method (for example, personal car, rental car, or air travel) will be reimbursed. When determining the least costly travel method, the Contractor should take into consideration not only direct expenses, but also the time billed. If the Contractor is unsure what least costly method may be, he or she shall consult with the Contract Manager. All travel will be reimbursed at the excluded employee travel rates in accordance with the California Code of Regulations Title 2, Division 1, Chapter 3, Subchapter 1, Article 2, Section 599.615.1 et seq. At the time of the RFP release, the rates listed below apply. However, they are subject to change and the Contractor will be held to the State per diem rates in

effect at the time of travel. Per diem (lodging, meals, and incidentals) will not be reimbursed for travel within 50 miles of Contractor's headquarters.

- Lodging (receipts required) per day:

- Meals (actual expense) (up to \$13 for breakfast, \$15 for lunch and \$26 for dinner) – up to a maximum of \$54 per day.
- Incidentals – up to a maximum of \$5 per day.
- Coach airfare, mid-size/economy rental cars, parking, and fuel – actual costs verified by bills or receipts. Expenses for rental car insurance, fuel for rental cars purchased from the rental car company, and additional air travel expenses such as preferred boarding, will not be reimbursed. First Class or Business Class air travel is not allowed. Airport parking must be at the most economical rate. Expenses for one-way rental car expenses (i.e., charges for returning a rental car to a location other than that from which it was rented) will only be reimbursed if preapproval is given by the Contract Manager prior to the expense being incurred.
- Personal Vehicle Use for travel is reimbursed at \$0.67 per mile; however, fuel will not be reimbursed if a personal vehicle is used.

If the Contractor is unable to obtain lodging at the excluded employee rate, the Contractor shall request preapproval from the Contract Manager for lodging rates that exceed the allowable rates. Preapproval of excess lodging rates requires the Contractor to complete and submit CalRecycle form 151. The form requires a written justification and supporting documentation including a minimum of three lodging quotes to validate the excess lodging rate. The Contract Manager will notify the Contractor of their decision. Excess lodging that is not preapproved will not be reimbursed.

Section V Evaluation and Selection

Introduction

CalRecycle will perform a Pre-Qualification Evaluation process to ensure that the Proposer has included all required documentation in the Proposal submittal. Each Proposal will first be reviewed to ensure the following items: Proposal is received by date and time specified; Proposal contains all the required documents (see Proposal Completion Checklist); and that the Proposal meets the format requirements specified.

If a Proposal package does not meet all the requirements set forth in this RFP, it will be considered non-responsive and rejected from further competition.

The Proposer's submittals that pass this review will be forwarded to the evaluation team.

Selection Process

The evaluation team will individually and/or as a team review, evaluate and numerically score all Proposals passing the Pre-Qualification Evaluation, utilizing the following scoring system to assign points. Following this chart is a list of the considerations that the evaluation team may consider when assigning individual points to a technical Proposal.

Points	Interpretation	General Basis for Point Assignment
0	Inadequate	Proposal response (i.e., content and/or explanation offered) is inadequate or does not meet CalRecycle's needs/requirements or expectations. The omission(s), flaw(s), or defect(s) are significant and unacceptable.
1	Barely Adequate	Proposal response (i.e., content and/or explanation offered) is barely adequate or barely meets CalRecycle's needs/requirements or expectations. The omission(s), flaw(s), or defect(s) are inconsequential and acceptable.
2	Fully Adequate	Proposal response (i.e., content and/or explanation offered) is fully adequate or fully meets CalRecycle's needs/ requirements or expectations. The omission(s), flaw(s), or defect(s) are inconsequential and acceptable.
3	Excellent or Outstanding	Proposal response (i.e., content and/or explanation offered) is above average or exceeds CalRecycle's needs/requirements or expectations. Minimal weaknesses are acceptable. Proposer offers one or more enhancing feature, method or approach that will enable performance to exceed our basic expectations.

In assigning points for individual rating factors, the evaluation team may consider issues including, but not limited to, the extent to which a Proposal response:

1. Is lacking information, lacking depth or breadth, or lacking significant facts and /or details, and or;
2. Is fully developed, comprehensive and has few, if any, weaknesses, defects, or deficiencies, and or;
3. Demonstrates that the Proposer understands CalRecycle's needs, the services sought, and/or the Contractor's responsibilities, and/or;
4. Illustrates the Proposer's capability to perform all services and meet all scope of work requirements, and/or;
5. If implemented, will contribute to the achievement of CalRecycle's goals and objectives, and/or;
6. Demonstrates the Proposer's capacity and/or commitment to exceed regular services.

Responses which only restate, or paraphrase information found in the RFP will receive 0 or 1 points.

Below are the point values for each rating category that will be scored.

- 1) Each subcategory of a proposal, excluding the Cost section, will be scored on a scale of 0 to 3. The overall rating categories and their point values are shown below. Some subcategories are weighted, and the scores for those subcategories will be multiplied by a weighting factor shown in Attachment D. For individual subcategory descriptions refer to Attachment D.

<u>Rating Category</u>	<u>Maximum Points</u>
Approach	15
Methodology	24
Qualifications/Resources	24
Work References	12
Rating Total	75
Cost Points	32
Maximum Total	107

- 2) CalRecycle will consider a proposal technically deficient and non-responsive if the proposal earns an overall score that is less than 53 points of the 75 points of the Rating Total.

The Proposal Evaluation criteria listed specifies the total number of points available for each requirement. Using the Scoring Methodology, the evaluation team will determine the number of points to be awarded to each requirement and multiply that by the multiplier for that requirement to determine the score.

Only those Proposals that receive a score of at least the minimum requirement identified on the Scoring Sheet will be ranked.

Cost Points

Cost points account for approximately 30% of the total points available (see Proposal Scoring Sheet). Proposers will be awarded Cost Points as follows:

- 1) Lowest cost Proposal is awarded the maximum cost points.
- 2) Other Proposals are awarded cost points based on the following calculation:

Other Proposer's Cost Points = (factor*) X maximum cost points

* factor is the Lowest Proposer's cost divided by Other Proposer's cost

EXAMPLE

Lowest Proposer's cost = \$10

Other Proposer's cost = \$12

Maximum cost points = 30 cost points

factor = \$10 ÷ \$12 = .83

Cost Points Calculation for Other Proposer's Cost

.83 X 30 cost points = 25 cost points

Final Cost Points Awarded

Lowest cost Proposal receives 30 cost points

Other cost Proposal receives 25 cost points

Grounds for Rejection

All Proposals may be rejected whenever the determination is made that the Proposals received are not competitive, when the cost is not reasonable, or when the cost exceeds the amount expected.

Additionally, a Proposal may be rejected if any of the following apply:

- It is received after the due date and time for submittal
- The cost submittal is unsigned
- The proposal cost is not prepared as required by the RFP
- The Proposer has been prohibited from contracting with the State by the Department of Fair Employment and Housing
- The Proposer has received a substantive negative contract performance report from the State
- Any items required by the RFP are not included with the submittal

No Proposal may be rejected arbitrarily or without reasonable cause.

Award of Contract

Award of this Contract will be to the highest-ranking responsible Proposer meeting all the RFP requirements.

In the event of a tie, CalRecycle may utilize a tiebreaker to determine the winning Proposer. The tiebreaker will be determined based on which Proposer has the most SB and DVBE participation identified in the Proposal package.

CalRecycle reserves the right not to award a Contract.

Notice of Intent to Award

CalRecycle will post a notice of intent to award this Contract five (5) working days prior to the award being made.

Notice of the intent to award will be posted on CalRecycle's website at <https://www2.calrecycle.ca.gov/Contracts/Current/> and at the headquarters building noted in Section I. It is the Proposer's responsibility to check one of these locations for a copy of the Notice of Intent to Award.

Rejection of Award

If the Proposer fails to enter into a satisfactory Contract within a reasonable timeframe after the award is made CalRecycle may deem that the Proposer has rejected the award.

CalRecycle reserves the right to disqualify the awardee and award the Contract to the next highest ranked Proposer.

Protest of Award

A Proposer may protest the proposed award by filing an official protest with the Department of General Services. The protest must be filed after the notice of intent to award the contract, but before the actual award.

Within five (5) calendar days of the initial protest filing, the Proposer must submit a detailed written statement with information that supports that the Proposer would have been awarded the contract and the grounds for that position.

The Contract will not be awarded until a decision has been made on the filed protest.

The protest documents should be sent via registered mail or electronically to the following two parties:

- 1) Department of Resources Recycling and Recovery
Attn: Contracts Unit

3. Background

Development of the Tribal Composting Needs Assessment and Permitting Guide advances CalRecycle’s effort towards implementation of the 30x30 Pathways and Natural and Working Lands Climate Smart Strategies and to execute the Governor’s nature-based solution agenda as called for in Executive Order N-82-20, consistent with Chapter 258, Statutes of 2021 (Senate Bill 155). CalRecycle recognizes the critical role and commitment of California Native American tribes (Tribes) in advancing climate and waste management solutions. Composting is a proven practice to reduce the GHG emissions from landfilling of organic waste. Compost is a valuable resource often used as a component of systems and treatments designed for carbon sequestration, food production, green space development, erosion control, fire remediation, stormwater management, and other uses.

- A. Under a separate contract for Small/Medium Composting Project Permitting, DR23044 (Phase 1), CalRecycle hired a Contractor to:
 - 1) Develop Best Management Practices (BMPs) for siting, permitting, designing, and operating small to medium composting activities.
 - 2) Develop tools and resources to help local government entities and facility proponents identify appropriate locations for small to medium sized compost operations;
 - 3) Outline potential pathways for permitting;

- 4) Collect, compile, analyze, and report data and information related to local and state land use, regulatory oversight across applicable regulatory agencies, regulations and infrastructure requirements related to the proper development, design, and operations of small and medium compost activities;
 - 5) Identify regulatory challenges regarding siting, permitting, and associated costs across applicable regulatory agencies; and
 - 6) Provide solutions and guidance to assist with the development, design, and operation of small and medium composting activities.
- B. In Phase 2, this Tribal Composting Needs Assessment and Permitting Guide contract will supplement Phase 1 by developing a Needs Assessment for Tribes to develop, site, permit, build, and operate composting facilities, as well as a Permitting Guide to help Tribes identify permitting requirements specific to tribal lands. Both Phase 1 and Phase 2 contracts support the implementation of the 30x30 Pathways and Natural and Working Lands Climate Smart Strategies and execute the Governor’s nature-based solution agenda as called for in Executive Order N-82-20, consistent with Chapter 258, Statutes of 2021 (Senate Bill 155).

4. Work To Be Performed

- A. The Contractor shall conduct a Needs Assessment to determine what composting tools and resources are needed by Tribes, and a Permitting Guide to help Tribes identify permitting requirements specific to tribal lands. The Contractor shall work closely with the CalRecycle Contract Manager (Contract Manager) and other CalRecycle staff to ensure tasks are completed with high-quality deliverables that meet the objectives of the contract. Any edits or revisions to deliverables required by the Contract Manager must be completed by the Contractor and resubmitted to CalRecycle within fourteen (14) days of written notification.

5. Tasks Identified:

 - i) Tribal engagement and lessons learned from community composting projects and other tribal composting efforts, including any permitting challenges Tribes have experienced while developing composting projects.
 - ii) Identification of additional technical assistance and resources that would be beneficial for the development of composting facilities on tribal lands.
- 3) The Contractor shall document the results of the Tribal Needs Assessment in a Tribal Needs Assessment Results Report.

C. Task 3: Develop Permitting Guide for Composting Facilities on Tribal Lands

- 1) The Permitting Guide shall include an overview of current permitting requirements specific to tribal lands.
