

## **Waste Reduction Awards Program (WRAP)**

### **WRAP Winners Listing for 2007**

---

The Waste Reduction Awards Program (WRAP) was administered by CalRecycle (formerly the California Integrated Waste Management Board) from 1993-2011. WRAP provided an opportunity for California businesses and nonprofit organizations to gain public recognition for their outstanding waste reduction efforts and lets the community know the business takes waste reduction seriously. WRAP evaluated the waste reduction, procurement, and education activities in the internal business practices of the applicant, not its services or products.

#### **WRAP Winners Statewide during 2007**

##### **20th Century Fox Film Corp**

20th Century Fox Film Corporation is a leading developer, producer and distributor of feature film and television content. This world wide corporation, with over 7,000 employees, is headquartered at the iconic Fox Studios in Los Angeles, California. Fox strives to reduce its waste from all sources. Additionally, Fox has undertaken a world-wide energy reduction and conservation initiative, dubbed "Cool Change," with the ultimate goal of being the 1st carbon neutral media company by the year 2010. Fox's successful waste management programs have diverted 2,400 tons of solid waste from the land fill. This number is expected to continually rise as "Cool Change" is implemented throughout the company.

Years Awarded: 2011, 2010, 2009, 2007, 2001, 2000, 1999, 1998, 1997, 1994

10201 W Pico Blvd MS 99/531  
Los Angeles, CA 90035

##### **3M Optical Systems - Petaluma, CA**

3M Optical Systems Division, a 3M facility in Petaluma, California employs approximately 140 people and manufactures a variety of products including 3MTM Privacy Filters to offer privacy protection for desktop and laptop computers, Vikuiti™ Video Screens and Films that use a unique microbead technology to provide a bright, sharp picture at all angles and lighting conditions, VanGard™ lenses for improved wide angle side and rear viewing, and Press OnR Optic lenses which provide a simple, therapeutic, and inexpensive way to correct several visual disorders. 3M Petaluma recycled over 400 tons of material between 2006-2007 that could have otherwise been landfilled or incinerated. In late 2006 and early 2007, 3M Petaluma has completed several pollution prevention projects focusing on waste reduction using Lean Six Sigma practices and tools. These projects saved approximately \$400,000 in material and reduced over 13 tons of waste. 3M Petaluma will continue to identify opportunities for waste reduction and implement projects to reuse, recycle, and eliminate waste. 3M Petaluma is a charter member of the U.S. Environmental Protection Agency - National Environmental Performance Track (NEPT) Program. The NEPT program is a public/private partnership that encourages environmental excellence, community involvement, and focuses on measurable results. 3M Petaluma joined the NEPT program in 2001. The Petaluma facility has completed a three-year commitment meeting the goals established. A complete copy of the report is available online at: <https://yosemite.epa.gov/opei/ptrack.nsf/vaMembersSortPages/faMembersByFacilityName>. 3M Petaluma has recently submitted a renewal application for another three-year commitment to further reduce hazardous waste, non hazardous waste, energy, and water consumption through 2010.

Years Awarded: 2008, 2007, 2006, 2005, 2004, 2000, 1993

1331 Commerce St  
Petaluma, CA 94954

##### **3M Unitek**

3M Unitek committed to reduce energy usage, solid waste volumes, and total water use over a period of two years; 2004 to 2006. The 2005 performance report indicates that energy consumption was reduced 9.1%, recyclable plastic waste was reduced 17.7%, solid waste to landfill was reduced by 22.1%, and total water use was reduced by 6.3%. In addition to Performance Track, 3M Unitek has continued to make valuable contributions to 3M's overall environmental performance. Specifically, under the corporate-wide program "Pollution Prevention Pays" (3P), 3M Unitek has submitted 1 project that was recognized by the company. The result was the elimination of 24% of machine coolant waste, which represents a reduction of over 40,000 gallons of hazardous liquid waste per year. On a corporate basis, 3P has generated more than 6,000 projects that have resulted in the abatement of over 2.5 billion pounds of pollution and a savings of more than \$1 billion to the company.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

2724 S Peck Rd  
Monrovia, CA 91016-5097

##### **AB&I Foundry**

AB&I Foundry is the largest manufacturer of cast iron soil pipe and fittings in the the Western United States. Last year AB&I

recycled over 60,000 tons of scrap iron to produce soil pipe, fittings, and custom castings (stove pan carriers, automotive castings, etc.). The amount of waste produced remained constant while production in 2007 increased from 64,500 tons of product to 76,500 tons (an 18.5% increase). AB&I diverted 6,010 tons of landfill waste sand for recycling and saved \$50,000 in disposal fees and transportation costs. AB&I future projects include installing a new fume emission control system and replacing the older sodium vapor lamps in the plant with long-lasting fluorescent lights.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1995, 1994

7825 San Leandro St  
Oakland, CA 94621-2515

### **Adobe Systems Incorporated**

Adobe Systems Incorporated helped launch the desktop publishing revolution in 1982 and today is one of the largest PC software companies in the world. Adobe Towers in San Jose, California is the company's headquarters and currently houses approximately 2,300 employees. Over the past six years, Adobe has embarked on a program to reduce energy and related resource use, create a healthier, more attractive work environment for its employees, and increase the sustainability of its operations. During this period of time, Adobe has spent approximately \$1.4 million on a total of 64 energy and related conservation projects, received rebates from PG&E, the State of California, and the City of San Jose totaling \$389k, and is realizing almost \$1.2 million per year in savings.

Adobe has effectively reduced electricity use by 37%, natural gas use by 43%, domestic water use by 22%, and irrigation water use by up to 76%. Adobe has been diverting an average of 83% of its solid waste from landfill through a combination of composting and recycling, approximately 1,475 tons of solid waste diverted from landfill. Adobe is currently working to enhance this program and hopes to achieve 93% to 95% diversion by the end of this year. It has reduced its total pollution from all sources by 26% and CO2 emissions by 17%; 22.3% including green energy certificate purchases. Adobe currently has another eleven conservation projects pending and is constantly searching for more possibilities.

Years Awarded: 2010, 2008, 2007, 2006

345 Park Ave  
San Jose, CA 95110

### **Agilent Technologies**

Agilent Technologies is a leading manufacturer of high performance test and measurement equipment and is a technological leader in communications, electronics, life sciences, and chemical analysis. Agilent is committed to conducting its business in an environmentally responsible manner with respect to its operations, products and services. Employees and managers of the company support these policies in accordance with their roles and responsibilities in the organization. Agilent has ISO 14001 certification and operates under a company-wide Environmental, Health and Safety Management System. Agilent also requires its suppliers to adopt their Environmental and Social Responsibility (ESR) Expectations to establish or maintain a business relationship with the company. In keeping with their policy to minimize the environmental impact of their products, Agilent will take back their product from a customer, when it is no longer needed, for re-use or to ensure it is properly recycled. During 2006, Agilent experienced a significant improvement to their landfill diversion program. Agilent operations in Santa Rosa, California, diverted over 1029 tons of solid waste. This is an 85% diversion rate of solid waste from landfill, more than a 5% improvement from 79.2% in 2005. As a result, Agilent saved \$143,095 in landfill fees for 2006. Agilent is proud of the success of these programs and policies in waste reduction and recycling and is committed to continual improvement of these practices.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000

1400 Fountaingrove Pkwy  
Santa Rosa, CA 95403

### **Agilent Technologies Inc**

The Agilent Technologies, Inc. Santa Clara site has two main manufacturing operations. The first manufacturing operation is DNA Micro-arrays for the Biotechnology Industry and the second manufacturing operation is Precision Motion Control devices. The company is a leader in the management of solid waste and has implemented a highly successful reuse and recycling program for solid waste materials that would otherwise go to a landfill. The company has established on-site recycling centers that are staffed by our recycling contractor, OneSource. The recycling centers provide support and space for a major desk-side and manufacturing by-product recycling program that makes it very easy for employees to recycle materials. During 2006, Agilent operations at the Santa Clara site diverted over 505 tons of solid waste from the local landfill. These diversions generated a savings of over \$289,000 for the company. The company also donates surplus materials, including office equipment, to qualified local non-profit organizations. Agilent is proud of the success achieved thus far in its waste reduction and recycling efforts and intends to continually improve upon its performance and be an industry leader in this area.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2002

5301 Stevens Creek Blvd  
Santa Clara, CA 95051-8059

### **Allergan, Inc.**

Allergan, with headquarters in Irvine, California, is a global specialty pharmaceutical company that develops and commercializes innovative products for the eye care, neuromodulator, skin care and other specialty markets. In addition to its discovery-to-development research programs, Allergan has global marketing and sales capabilities in over 100 countries that deliver value to

their customers, satisfy unmet medical needs and improve people's lives. For the last 12 years, Allergan has successfully recycled materials from offices, laboratories, and manufacturing sites worldwide. In 2006, Allergan recycled approximately 2,848 tons of material and had a recycling rate of approximately 60% worldwide. This represents average annual savings of approximately \$1,132,528 by diverting recyclable materials away from the landfill. There is also a savings associated with the decrease in hauling expenses to transport the waste materials to a landfill. Allergan Corporate Headquarters in Irvine, California recycled approximately 161 tons of waste materials in 2006.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

2525 Dupont Dr  
Irvine, CA 92612

### **ALZA Corporation**

ALZA Corporation, a wholly owned subsidiary of Johnson & Johnson, produces oral time-release (OROS®) tablets, transdermal patch (D-TRANS®) systems and electronic transdermal patch (E-TRANS®) medication delivery products. Since 2003, ALZA Vacaville reduced CO2 emissions by 49% through energy conservation measures, green electricity purchases, and CO2 emissions reduction credit purchases. In 2006, they diverted 75% of all non-hazardous waste (857,000 pounds) into recycling streams, which resulted in a cost savings of approximately \$28,000 and generated \$14,000 revenue to use for community outreach efforts. A new thermal oxidizer was installed which has eliminated 150,000 lbs of hazardous carbon waste and 175,000 lbs of hazardous Methylene Chloride waste annually and a new wastewater treatment plant was installed that uses technology to treat Active Pharmaceutical Ingredients and avoids 1.6 million gallons of wastewater shipped for offsite treatment annually. A one-megawatt solar installation in September 2007 will provide approximately 33% of peak electricity demand.

Years Awarded: 2011, 2007

700 Eubanks Dr  
Vacaville, CA 95688

### **American Honda Motor Co Inc**

American Honda Motor Inc., Co. is the U.S. sales, marketing, and distribution arm for Honda and Acura automobiles, Honda motorcycles and all-terrain vehicles, marine engines, and power equipment. American Honda's comprehensive waste reduction program includes regular donations of surplus and used equipment to nonprofit organizations. American Honda has also been successful with a recycling program that collects used office paper from each associate's desk throughout the organization. Through the dedicated efforts of its associates and the company's long-standing commitment to the environment, American Honda recycled 605 tons of paper and cardboard, 119 tons of wood pallets, 124 tons of metal, 3.4 tons of aluminum cans/plastic/glass, and 215 tons of green waste for a total of 1,066 tons at the Torrance, CA facility in 2006. That same year (January 2006 - December 2006), American Honda Motor Co., Inc., saved an estimated \$36,000 in disposal charges. An additional \$30,000 was saved through the reuse of wood pallets. The recycling efforts, and other environmental friendly changes that have been made within the company, have saved American Honda Motor Inc. approximately \$1,000,000.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999

1919 Torrance Blvd MS 540-1N-3A  
Torrance, CA 90501-2746

### **American Licorice Company**

The American Licorice Company is a medium-sized candy manufacturing company that produces the best-selling confectionary brands Red Vines, Sour Punch, Super Strings, and Snaps. In 2006, American Licorice reduced waste destined to be land filled by 1,638.3 tons, and saved \$31,200 in hauling fees from unmarketable candy that is picked up and used as animal feed. Approximately \$13,532 was accumulated from the sale of this cattle feed, and over \$7,300 was generated from the plant's recycling program (incorporating plastic, paper, and metal). American Licorice achieved these results by educating employees in waste reduction, modifying the manufacturing process to use fewer materials, reusing surplus supplies and equipment, and selling recyclable materials. American Licorice Company also donates surplus materials to non-profit organizations, churches and schools. In addition, we received a \$75,000 rebate from Pacific Gas & Electric Company for energy savings generated with new more energy-efficient equipment, for a total savings of over \$127,000 in 2006.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002

2477 Liston Way  
Union City, CA 94587

### **Amici's East Coast Pizzeria**

Amici's East Coast Pizzeria Restaurants offer traditional East Coast style pizzas complemented by a casual Italian menu featuring freshly made pastas and salads. As part of its comprehensive recycling program, Amici's has successfully encouraged neighboring businesses to share its recycling facilities. Staff are trained to aid customers in choosing appropriately sized meals so as to minimize the amount of food waste generated. Between June 2006 and June 2007, Amici's East Coast Pizzeria Restaurants recycled approximately 207 tons of waste destined for disposal in landfills. Between June 2006 and June 2007, Amici's East Coast Pizzeria Restaurants saved an estimated \$46,000 through their recycling efforts and energy saving measures.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

69 E. Third Avenue  
San Mateo, CA 94401  
*Multiple locations for this applicant*

#### **Anheuser-Busch InBev - Los Angeles Brewery**

The Anheuser-Busch, Inc. Los Angeles Brewery located in Van Nuys, California is the world's third largest brewery; manufacturing and packaging 12 million barrels of various malt beverages annually. The brewery's operations are, and continue to be, designed to integrate pollution prevention methodology into every process. As a result, the Los Angeles Brewery recycled over 99.5% (approximately 270,000 tons), of its solid waste and by-products in the year 2006. The brewery also utilizes a Bioenergy Recovery System (BERS), which has reduced the facility's wastewater biological oxygen demand (BOD) by over 75% and fossil fuel dependency by 20%. BERS treats approximately 3.5 million gallons of wastewater daily. Consequently, BERS reduces on-site fuel needs and saves 6-8 million dollars annually in city sewer charges and offsets 1 million dollars in natural gas purchases by using biogas in the boilers. As Anheuser-Busch grows globally, the company will continue to find innovative ways to conserve limited resources now, and in the years to come.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2002, 1998, 1995, 1994, 1993

15800 Roscoe Blvd  
Van Nuys, CA 91406-1379

#### **Anheuser-Busch, Inc., Fairfield Brewery**

The Anheuser-Busch, Inc. Fairfield Brewery brews, packages, and ships over 4 million barrels of malt beverages annually. The brewery, located in Fairfield, California believes pollution prevention is extremely important to the business. In 2006, the Fairfield Brewery recycled 99.1% of the brewery's waste and by-products, but was also able to reduce the total amount of waste products generated by 309 tons compared to 2005. The facility reclaimed or recycled 91,907 tons of materials in 2005, thus saving over \$2,000,000 in disposal costs. These achievements have been made possible by the commitment Anheuser-Busch, Inc. has made to the tradition of quality, innovation, continuous improvement and responsible conduct. As stated by August A. Busch, IV in Anheuser-Busch Companies, Inc. Environmental, Health, and Safety Policy, "Environmental, health, and safety excellence is good corporate citizenship; it is also good business".

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

3101 Busch Drive  
Fairfield, CA 94534

#### **Apple, Inc.**

Apple's Elk Grove, California operations facility has consistently maintained an efficient and effective recycle/reuse program since their start-up in 1995. Apple, Elk Grove has won numerous WRAP awards, which is representative to this outstanding achievement. They have consistently diverted materials from the landfills with respectable numbers including diverting 87.84 % of waste materials generated by their operational processes this past year. They have an outstanding recycle program, a 3rd-party recycle team, management support and volunteer teams throughout the campus.

Years Awarded: 2011, 2010, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

2511 Laguna Blvd  
Elk Grove, CA 95758

#### **Auburn Printers & Integrated Marketing**

Auburn Printers is a medium sized commercial, full-service printer, celebrating its 60th year in business. One of the more unique recycling policies at Auburn Printers is buying their employees lunch! With the money received from recycled metal plates used for printing (approximately 100 lbs. per week), Auburn Printers provides a restaurant take-out lunch to its employees as often as it can. Money from recycled cans and bottles also goes into this fund. Auburn Printers recycled approximately 55 tons of paper last year, saving an estimated \$3,000.

Years Awarded: 2011, 2010, 2009, 2007, 2006, 2005, 2004, 2002, 1999, 1998, 1997, 1996

13020 Earhart Ave  
Auburn, CA 95612

#### **Bentley Prince Street**

"Mission Zero" is the Bentley Prince Street promise to the planet. Every creative, manufacturing and building decision they make will move them closer to eliminating any negative impact the company may have on the environment by the year 2020. Bentley Prince Street is rapidly becoming recognized for its industry-leading sustainability practices in addition to its design-leading products. Bentley Prince Street's continuing journey to provide sustainable commerce means examining, improving, and innovating every area of the business, including manufacturing processes and product design. "Mission Zero" is more than surface appearance; it is a belief that is built into Bentley Prince Street's business model as an underlying corporate value ensuring business decisions will be weighed against their potential environmental, economic, and societal impacts.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2000, 1999

14641 Don Julian Rd  
City of Industry, CA 91746

**Black Mountain Ranch LLC**

Black Mountain Ranch LLC is the award-winning developer of Del Sur, San Diego's new 3,050-home master-planned community showcasing heritage, craftsmanship and the environment. Its innovative, highly-acclaimed community-wide construction recycling program has resulted in the successful diversion of 5,112.6 tons - over 92% - of construction waste during 2006, and is being used as a new model for sustainable building in the region. Construction recycling has saved \$219,841 in landfill fees alone. Significant energy and water saving appliances and practices, installed in nearly every home at Del Sur, reduce the community's demand on local natural resources not only today, but well into the future. The 20% minimum Del Sur homeowners using solar power will annually save more than \$58,000 collectively in utility bills, and water savings are estimated at 40,000 gallons per home, per year. The Ranch House community information center, the showpiece of the Del Sur vision, is in queue to receive San Diego's first Platinum LEED designation by the US Green Building Council, and slated to be named one of the most environmentally-progressive buildings in California.

Years Awarded: 2007

16010 Camino Del Sur  
San Diego, CA 92127

**BriarPatch Co-op**

BriarPatch Co-op Natural Foods Community Market in Grass Valley took its waste diversion program to another level as it built its new store, which opened May 30. With the goal of U.S. Green Building Council "green building" certification, the store's construction set a new standard for rural Nevada County, utilizing renewable and recycled-content materials, as well as recycling 75% of its construction waste. BriarPatch Co-op Natural Foods Community Market also emphasizes waste diversion in its operations, as the grocery store recycled an estimated 192,000 pounds of materials last year, which saved the cooperative an estimated \$27,764.

Years Awarded: 2007, 2005, 2004, 2003, 2002, 2001

290 Sierra College Dr  
Grass Valley, CA 95945

**Byers LeafGuard Gutter Systems**

Byers' LeafGuard Gutter Systems is a full service, custom-fit gutter contractor that provides a "no clog guarantee" to their customers. They work with a firm that picks up the scrap metal gutters they remove from their client's homes and delivers it all to a large recycling plant. An impressive 91 tons of metal, scraps and cardboard are diverted from Nevada County's limited and precious landfill. Recent acquisitions of new machinery have allowed us to convert recycled material into useful products, thus saving many thousands of dollars while keeping a large quantity of scrap from the waste stream.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

11773 Slow Poke Ln  
Grass Valley, CA 95945

**Cagwin & Dorward, Landscape Contractors**

Winner of water management and environmental awards, Cagwin & Dorward landscape contractors provide services throughout Northern California. Recycling is essential to their operations, as they generate and recycle over 25,000 cubic yards of green waste, 900 gallons of used motor oil, and 1,200 pounds of paper products annually. Cagwin & Dorward provides their customers with water conservation and management programs, including water reclamation conversions for irrigation systems. Additionally, the company is focused on using and developing electronic media such as website work order forms and e-mail for customer correspondence. These efforts save Cagwin & Dorward over \$144,000 annually, and their customers up to several thousand dollars in water expenses.

Years Awarded: 2008, 2007, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996

1565 S Novato Blvd Ste B  
Novato, CA 94947

*Multiple locations for this applicant*

**Cal Poly Corporation, Campus Dining**

Cal Poly Corporation Campus Dining provides 13,000 meals each day for students, faculty and staff in over a dozen locations on the Cal Poly campus. Recycling efforts began almost two decades ago with a cardboard recycling program, which has expanded to include glass, metal, plastic, vegetable scraps and coffee grounds. This total waste reduction program strives to balance cost savings from waste stream reduction with the costs of purchasing recycled and recyclable products. Trash hauling has been reduced by more than 50% yielding some cost savings. The primary focus is to employ source reduction, recycling and purchasing recycled products to reduce total waste without increasing overall costs.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

Dining Hall Receiving Dock  
San Luis Obispo, CA 93407-0466

**Cardinal Health**

Cardinal Health is a worldwide wholesale distributor and manufacturer of various Healthcare products. In 2006, approximately

\$645,000 dollars in surplus and slightly damaged inventory was donated by the Cardinal Health Ontario CA. Distribution Facility to various non-profit charitable organizations. In addition, the Ontario facility earned \$49,500 dollars in recycling revenue and saved \$70,500 dollars in disposal fees. This figure represents 1,336,000 pounds of material that was diverted from the landfill. This does not include approximately 140,000 pounds of various medical supplies and equipment donated to charity and the 45,000 pounds of Green Waste that was diverted from the landfill to a composting facility. Total savings from the 2006 waste reduction efforts were \$119,951.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

4551 E Philadelphia St  
Ontario, CA 91761

#### **CH2M Hill, Redding**

In accordance with CH2M HILL's mission to "make technology work to help its clients build a better world," the Redding office remains committed to helping achieve the California Integrated Waste Management Board's goal of a "Zero Waste California." Employees embrace this commitment in the workplace and at home. CH2M Hill has saved more than \$19,000 through waste reduction, reuse, and recycling - diverting more than 44,000 pounds of refuse from the landfill. The Redding office of CH2M HILL has reduced the amount of waste generated by more than 50 percent since implementing its waste reduction program in 2000, and its employees are proud of their three-time recognition for achievement in waste reduction. This year, CH2M Hill implemented a few new programs: Techno Trash receptacles for both office and home technology-related waste; a battery recycling program, (again for business- and home-generated waste); and a facility management, waste reduction and reuse program where employees reuse or recycle facility-related materials, such as metal plumbing fixtures and soap bottles.

Years Awarded: 2008, 2007, 2006, 2003, 2000

2525 Airpark Dr  
Redding, CA 96001

#### **Chevron Business and Real Estate Services**

This Richmond Technology center provides petroleum research for Chevron Corporation's down stream companies. Chevron Business and Real Estate Services manages the Richmond Technology Center's on-site Recycle center which sorts out all recyclable waste from non-hazardous industrial and office waste. In 2006, they recycled almost 400 tons of material such as: paper, cardboard, aluminum cans, plastic, metals, glass and copper wire thereby reducing the amount of material going to the landfill by 65% and saving approximately \$100,000/year.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

100 Chevron Way  
Richmond, CA 94802-0627

#### **Chevron EI Segundo Refinery**

Since 1911, the Chevron EI Segundo Refinery has been producing a variety of petroleum products, which today includes gasoline, jet fuel and diesel. Initiating a recycling program at the refinery was a unique challenge in that the business is a 24-hour operation and nearly 2,000 employees and contractors are spread out over 1.5 square miles. The refinery's Recovery and Recycle division was formed to address this challenge. The efforts of the Group and the enthusiastic participation of employees have increased the diversion rate from 3% to over 86% today. In 2006, the refinery diverted nearly 55,000 tons of material from disposal at an estimated saving of over \$4,425,000.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2005, 2004, 2003, 2002, 2001, 2000, 1998, 1997, 1996, 1995, 1994

324 W EI Segundo Blvd  
EI Segundo, CA 90245

#### **Church & Dwight Co., Inc.**

Under the familiar Arm & Hammer brand, Church & Dwight Co., Inc. manufactures innovative feed ingredients that impact each phase of a cow's life cycle. As part of the Animal Nutrition Group, the Madera, CA plant manufactures Megalac® Rumen Bypass Fat, a high-quality feed ingredient for the dairy industry. Aggressive recycling efforts along with improved manufacturing efficiencies have allowed Church & Dwight Co., Inc. to divert 60 tons of material from the landfill at a savings of \$20,000. Church & Dwight Co., Inc. is proud to do its' part to help reduce waste in California.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006

31266 Ave 12  
Madera, CA 93638

#### **Cisco Systems, Inc.**

Cisco Systems, Inc. is the worldwide leader in networking for the Internet. Cisco hardware, software, and service offerings are used to create Internet solutions that allow individuals, companies, and countries to increase productivity, improve customer satisfaction and strengthen competitive advantage. Cisco applies these same solutions to create efficient processes that help maintain corporate recycling and waste reduction programs. During 2006, the Waste Reduction and Recycling program recycled 71% of its waste stream. This achievement kept over 3,600 tons of material out of the landfill; saving \$550,000 in landfill disposal fees. Cisco kicked off the City of Milpitas' first commercial food waste program last year. The impact of this accomplishment is far reaching.

They were able to divert 37,000 pounds of food waste from landfill within the first few months. Cisco's best-in-class recycling initiatives are highlighted by the success of pilot programs such as this.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2004, 2003, 2002, 2001, 2000, 1994

10 West Tasman Drive  
San Jose, CA 95134

#### **Clark Construction Group - California, LP**

Clark Construction Group, California-LP, one of the largest general contractors in California, has made waste management a priority on its projects. Clark has enacted company wide - Green Initiative that creates guidelines for waste management and reduction on jobsites as well as empowers employees to implement sustainable practices in the workplace. By minimizing the generation of paper, they also estimate a related overall savings in excess of \$100,000 in processing costs. In addition, creative design ideas have allowed them to utilize products with high recycled content during the construction of projects, and select energy efficient building practices and sustainability. Clark Construction is proud to be a leader in the industry regarding waste management initiatives.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

3100 Bristol St Suite 100  
Costa Mesa, CA 92626

#### **Coca-Cola North America - Ontario Syrup Plant**

The Coca-Cola North America Ontario Syrup Plant (Facility) manufactures syrup for use by fountain soft drink vendors, and bottlers and canners of Coca-Cola Company brands. Operations at the Facility consist of receiving and processing food-grade raw materials to manufacture beverage syrups, which are packaged and shipped to restaurant distribution centers, as well as various bottling and canning plants for final beverage preparation. Between January and December 2006, the Facility diverted more than 469 tons of corrugated cardboard, plastic drums, office paper, and lawn waste from landfill disposal through various recycling efforts. The facility has been recognized for its Environmental efforts by being named as the first beverage facility in the country to be a member of the United States Environmental Protection Agency's National Environmental Performance Track Program.

Years Awarded: 2007, 2006, 2005, 2004

1650 S Vintage Ave  
Ontario, CA 91761

#### **Community Hospital of San Bernardino**

Community Hospital of San Bernardino (CHSB) has been serving the Inland Empire community since 1910 and has developed a reputation for delivering excellent care. Environmental stewardship is one of CHSB's core values, which has been clearly demonstrated through their policies and procedures. Employee training, Earth Day activities, rewards for recycling suggestions, rideshare incentives, and improvements in technology are just a few of the methods used by CHSB to become more planet-friendly this year. One of the hospital's most successful waste reduction practices was the implementation of the "Cook-Chill System" which allows food to be prepared in advance, chilled, and re-heated when needed. Thanks to this initiative the system has increased quality control, and reduced labor and food waste. In Fiscal Year 2006, CHSB diverted a total of 417,798 pounds of materials from landfills, and saved more than \$43,352 through waste prevention, reuse and recycling.

Years Awarded: 2011, 2010, 2007, 2002, 2000, 1999, 1998

1805 Medical Center Dr  
San Bernardino, CA 92411

#### **ConocoPhillips Company Los Angeles Refinery, Wilmington Plant**

Since 1919, ConocoPhillips Company's Los Angeles Refinery has been transforming crude oil into valuable energy resources vital to California's economy. Operating 24 hours a day, 7 days a week, 365 days a year, ConocoPhillips Los Angeles Refinery supplies more than 140,000 barrels a day (each barrel equals 42 gallons) of clean burning transportation fuels and other energy products for jets, trucks and automobiles. ConocoPhillips Los Angeles Refinery consists of two refinery facilities, the facility in Wilmington and another in Carson. The ConocoPhillips Wilmington facility sits on 424 acres while their Carson facility covers 235 acres.

ConocoPhillips currently employs about 600 people between the two sites. The employees of ConocoPhillips Los Angeles Refinery are more than engineers, operators, finance, and maintenance personnel. They are also parents, community leaders and residents of Southern California. In fact, one third of the employees live in the local community! ConocoPhillips cares about the environment and demonstrates their concern in a number of ways. Whenever possible, the Los Angeles Refinery donates surplus equipment and materials to nonprofit organizations and schools. In 2006, the Wilmington refinery helped reduce waste sent to landfills by recycling or re-using over 2,750 tons of materials, such as scrap white paper, catalyst fines, construction debris, oily sludges, recovered used oil, spent filters and spent precious metal catalysts.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000

1660 West Anaheim St  
Wilmington, CA 90744

#### **Conservation Corps North Bay**

The Marin Conservation Corps (MCC) is the nation's first non-profit local Conservation Corps chapter, founded in 1982. MCC provides recycling and reuse education to thousands of students and volunteers, and assists with numerous restoration and conservation programs throughout the county. MCC also provides recycling collection services to Marin's public land agencies and maintains over 300 locations. Since 1997, MCC has recycled more than 2 million pounds of materials from Marin County. MCC corps members and junior corps members have constructed over 110 recycling bins from recycled plastic lumber in the past 4 years for use with MCC's park recycling program. Recycling services and education are provided free of charge to the community of Marin through a grant from the California Department of Conservation, Division of Recycling.

Years Awarded: 2011, 2010, 2009, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

27 Larkspur St  
San Rafael, CA 94949

*Multiple locations for this applicant*

#### **Crown Poly, Inc**

Based in California, Crown Poly Inc. has taken a proactive approach to environmentally responsible business practices. Crown Poly continues to incorporate high-density polyethylene scrap into its product content, specifically to reduce raw materials usage and energy consumption. In 2007, Crown Poly inc. recycled 2,856,000 lbs. of its scrap material, diverting it from the landfill and saving \$185,000.00 in the process. Additionally, Crown Poly Inc. printed a source reduction message on its corrugated cartons and packaging products to give visibility to this important, yet often ignored, environmental initiative. The company will be using their website as a vehicle to educate the general public on how they too can make a difference by integrating source reduction into their daily lives as well. Crown Poly also achieved a Superior rating, the highest rating to be granted, under the Environmentally Preferred Rating (EPR) Accredited program sponsored by the California Film Extruders and Converters Association (CFECA). Crown Poly Inc., through its actions internal to the corporation and externally through the public, supports the three R's of waste management: Reduction, Reuse, and Recycling.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1998

5700 Bickett St  
Huntington Park, CA 90255

#### **Cupertino Electric, Inc.**

Since its inception in 1954, Cupertino Electric, Inc. (CEI) has continually been one of the top ten electrical contractors in the nation. From voluntarily reducing energy usage during peak demand through PG&E's Demand Response Program to donating seven vehicles, furniture and other office supplies to local non-profit organizations, CEI is going the extra mile to implement environmentally-conscious practices into their business everyday. Looking into the future, CEI has put into motion, plans to install a solar photovoltaic system and become a LEED Certified building. In 2006, CEI diverted an estimated 375 tons of materials and saved over \$600,000 through a combination of recyclables, donations, reduced energy and material usage, and reusing office supplies and packaging products.

Years Awarded: 2011, 2010, 2009, 2008, 2007

1132 North Seventh Street  
San Jose, CA 95112

#### **DNC Parks & Resorts at Yosemite**

DNC Parks & Resorts at Yosemite is a medium size company which is under contract with the National Park Service to operate facilities in Yosemite National Park. In 2006 DNC recycled 661 tons and diverted another 771 tons, which represents about 40.5% of the waste generated from their facilities. DNC's waste diversion programs incorporate reuse, recycling, organic waste diversion, educational programs, and green purchasing practices. Cost savings from waste diversion efforts were \$96,000 in 2006. DNC's waste diversion program has made it possible for Yosemite National Park and DNC P&R at Yosemite to become leaders in waste reduction.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

9000 Village Dr  
Yosemite, CA 95389

#### **Dominican Hospital/CHW**

Dominican Hospital is a full-service community hospital in Santa Cruz, CA. Dominican Hospital has diverted approximately 183 tons of material from disposal, and saved \$71,000 through waste prevention, reuse and recycling efforts. Excess and obsolete medical supplies and equipment generated by the hospital are used overseas by the "Flying Docs" organization. The hospital's 4,000 square foot garden is complemented by a brand new greenhouse, and an 8 foot x 10 foot worm bin which will provide rich compost for over 30 garden beds. These beds will, in turn, provide the cafeteria patrons with healthy vegetables, herbs and edible flowers.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

1555 Soquel Dr  
Santa Cruz, CA 95065

#### **Econco**

Econco rebuilds electron tubes for commercial broadcasters, the United States Government, international broadcasters, and

industrial users at a considerable cost savings to new tubes. Rebuilding a worn out tube by reusing and replacing parts as needed is not only cost effective, it is environmentally sound. Econco also recycles the valuable natural resources used in manufacturing, saving \$400,000 and diverting approximately 45 tons of material from disposal in the past year.

Years Awarded: 2011, 2010, 2009, 2007, 2006, 2005, 2004, 2003

1318 Commerce Ave  
Woodland, CA 95776

### **EDCO**

EDCO Waste and Recycling Services is a family-owned and operated company that provides waste and recycling services throughout Southern California. EDCO promotes waste prevention, waste reduction, recycling and buying recycled products through its newsletter, The Environmental Times, which is widely distributed to residential customers, commercial businesses and EDCO employees. EDCO continues to develop useful programs internally and recently has established an employee web-site that provides on-line ordering of products as well as the ability for filling out reports by supervisors, thereby eliminating paper requests and filing. Within the last year, EDCO and its family of companies have diverted approximately over 262 tons from landfills. Through expanded reuse and recycling programs EDCO has been able to substantially reduce office waste.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

224 S. Las Posas Road  
San Marcos, CA 92078

*Multiple locations for this applicant*

### **Electronic Recyclers International**

Electronic Recyclers is not only the largest recycler of electronic waste in California, but the first and only facility in the state to de-manufacture, recycle and crush cathode ray tubes found in computer monitors, televisions and other types of video equipment. Electronic Recyclers has "practiced what it preaches" by going above and beyond regulated requirements for waste reduction by replacing all incandescent lights with fluorescent bulbs, exchanging every propane forklift with an electric forklift, and purchasing Toyota Camry Hybrids for our entire sales force. Electronic Recyclers is deeply committed to the proper disposal of waste - both as our line of business and in our day-to-day operations.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006

2860 S East Ave  
Fresno, CA 93725

### **F & F Multiprint**

F&F Multiprint, Yolo County's premier print and graphic design center, has been awarded the WRAP award for eight years in a row. During its 28 years in operation, F&F Multiprint has been a waste reduction pioneer in their community. Last year alone, F&F Multiprint diverted over 700 lbs of paper waste, corrugated cardboard, and polystyrene peanuts from the landfill. As part of its ongoing program to involve the community in its environmental policies, F&F Multiprint has an exchange program that allows anyone to bring their single-sided paper waste to be converted to scratch pads at no charge. F&F Multiprint has also employed an online proofing system that allows their clients to approve designs online rather than having them printed on paper. Customers are encouraged to bring their empty ink and toner cartridges into F&F Multiprint to be recycled as well.

Years Awarded: 2011, 2010, 2007, 2002, 2001, 2000, 1999, 1998, 1997, 1996

414 4th Street, Suite E

### **F. Korb & Bros. Inc.**

Established in 1882, Korb Champagne Cellars has been producing California méthode champenoise champagne and fine brandy for more than 120 years. Today, Korb, known for its best-selling premium champagne in America, also owns three additional Sonoma County wineries - Kenwood Vineyards, Valley of the Moon Winery and Lake Sonoma Winery. Everything from waste oils, solvents, paint and laboratory processing chemicals to all metals of various types, including aerosol cans are recycled. Plant process water is reclaimed for vineyard frost protection and irrigation. With all their efforts over a ten-year period, they have been able to reduce their large container refuse to landfill costs by 50 percent.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

### **Fabric Banners**

Fabric Banners is the leader in "green" technology for digital fabric printing. The company's founders have promoted the concept of environmental consciousness since receiving a patent in 1993 for their environmental concepts in the digital printing industry. Over the course of 10 years, the company has donated more than a football field of fabric to nonprofits throughout the Bay Area. Fabric Banners is very proud to be associated with green products, educational support and environmental protection.

Years Awarded: 2010, 2009, 2008, 2007, 2006

828 West Ahwanee Avenue  
Sunnyvale, CA 94089

### **Flair Cleaners**

Family owned and operated for over 40 years, Flair Cleaners is a leader in the dry cleaning industry with unmatched quality and service. At Flair, they not only clean clothes, but also help keep the environment clean too. With state-of-the-art equipment, they have met and exceeded clean air and water standards. Flair has a reputation within the industry for its hangers and poly bag recycling program. Flair also has the new, environmentally friendly, DF 2000 petroleum cleaning machines at all five of their locations. Flair has totally phased out the use of Perc as a cleaning agent.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

4060 Laurel Canyon Blvd  
Studio City, CA 91604-2017

### **Forever Resorts**

A leader in luxury houseboat vacation rentals, Forever Resorts is committed to the standard of their corporate environmental policy through continually improving business operations and endeavors in a manner that protects human health and the environment. Forever Resorts has operated properties in national parks, recreation areas, national forests, and other vacation destinations since 1981, and encompasses 63 properties worldwide. Forever Resorts was the first multi-site marina, hospitality, and lodging operator in the United States to have their environmental management system, Forever Earth, certified by the International Organization for Standardization, ISO 14001:2004 for all its domestic operations. By 2007, 24 Forever Resorts properties, including its corporate headquarters, were also accepted into the EPA National Environmental Performance Track program by demonstrating their environmental excellence. In 2006, Forever Resorts California Properties successfully diverted 133.6 tons of waste from the landfill. This saved approximately \$33471.00 in tipping fees alone.

Years Awarded: 2010, 2009, 2008, 2007

45810 State Hwy 3  
Trinity Center, CA 96091  
*Multiple locations for this applicant*

### **Frito-Lay**

Frito-Lay's Kern County manufacturing facility provides a wide variety of salty snack products for both Central and Southern California. By following their Environmental Policy, and by aggressively pursuing internally and externally generated recycling opportunities, the Bakersfield manufacturing facility has significantly minimized its impact on local landfills. Methods include the recycling of cardboard shipping cases, recycling finished food waste into animal feed, and the recycling of starch as glue and paper ingredients. Kern's waste reduction and recycling programs have allowed them to prevent the addition of approximately 1000 tons annually to local landfills, generating annual savings of almost \$300,000.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

22801 Hwy 58  
Bakersfield, CA 93314

### **Genentech**

Genentech is a global leader in the biotechnology field. With its success comes a recognized responsibility to encourage and foster programs, which better the environment. The company has embarked on an aggressive program that will reduce the impact its operations have on the environment. This program, "Green Genes," is a play on words with a serious mission - reduce the amount of materials sent to landfill, set up aggressive policies for purchasing recycled products, and, most importantly, train and educate its workforce in "best practices" to reduce, reuse and recycle materials. Through Green Genes' aggressive recycling efforts, Genentech diverted over 390,000 pounds from the landfill, saving approximately \$22,000 in landfill fees.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 1999

1000 New Horizons Wy  
Vacaville, CA 95688

### **Golden Acorn Casino**

Golden Acorn Casino and Travel Center, located in Eastern San Diego County, recycled 306 tons of food-contaminated waste, cardboard, plastic containers, tin, color, and clear glass, grass and newspaper in the last year (January 2005 to January 2006). Golden Acorn Casino donates surplus equipment and material to nonprofit organizations and schools. Food and Beverage have utilized a local pig farmer in utilizing food and cooking oil waste to haul for processing at his farm. Because of the Casino's recycling efforts, they have saved over \$28,000. The Golden Acorn Casino and Travel Center is a vital link to increased economic prosperity for the tribe, providing jobs, revenue and financial security for many programs and initiatives. With the Casino as a critical element of economic development, the Campo people will move ahead toward a brighter future for themselves and their children.

Years Awarded: 2007, 2006, 2005, 2004, 2003

1800 Golden Acorn Way

Campo, CA 91906-2301

#### **Golden Rain Foundation**

Laguna Woods Village®, Laguna Woods, an active adult retirement community of approximately 18,000 residents, is located in Orange County, California. Since 1987, Laguna Woods Village® has been an innovator in waste reduction and recycling efforts through its successful green waste composting operation; newspaper, glass, aluminum, construction debris, and metals recycling programs; as well as the initiation of new landscaping techniques that source reduce the amount of green yard waste produced. As a result, in 2006 Laguna Woods Village® achieved a solid waste diversion rate of 62% or 16,632 tons. In county landfill tipping fees alone, approximately \$449,064 was saved through these recycling efforts, and revenues of over \$143,402 were received and an approximate \$222,129 loss avoided through green waste re-use.

Years Awarded: 2010, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1998, 1997, 1996, 1995, 1994

24351 El Toro Rd  
Laguna Woods, CA 92637

#### **Grass Valley USA , LLC**

Grass Valley, a business within Thomson, is a global organization and a market leader. They offer a rich portfolio of award-winning solutions to the world's media and entertainment companies, including broadcasters, video professionals, film studios, and post-production professionals-as well as to emerging content creators, distributors, and technology users, including those in broadband, telecommunications, and transmission services. Whether you're watching the evening news or sporting-event highlights-and whether you're watching them on your television or your mobile phone-you're watching their technologies at work. Between January 1 2006 and December 31 2006, Grass Valley diverted 329,136 pounds of waste from the landfill. These numbers are derived from measurements of materials sold, donated to charities and/or employees, and given to local businesses for reuse. Total estimated savings from the waste diversion program is projected at \$28,185.52. In the year 2006 the Grass Valley business continued with the worldwide product return program. This applies to all Grass Valley branded products, anywhere in the world. Additionally Grass Valley and Allegiant Global have entered into a Zero Waste contract and progress is expected to be achieved in 2007 - 2008.

Years Awarded: 2011, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 1993

400 Providence Mine Rd  
Nevada City, CA 95959-7900

#### **Hewlett-Packard (RN)**

Hewlett-Packard (HP) is a worldwide manufacturer of computers, printers and related equipment. HP has designed and implemented a very successful solid waste management program - one which has realized the recycling and reuse of an outstanding 97 % of the total refuse generated at the HP RN, CA facility. This program carries out the recycling of cardboard, paper products, polyethylene, and wood pallets, as well as the reuse of bubble wrap. HP is also a leading recycler of E-waste by promoting the HP "E-Scrap" recycling process to customers and businesses.

Years Awarded: 2007, 2006, 2005

8855 Washington Blvd  
Roseville, CA 95747

#### **Hewlett-Packard (Woodland)**

Hewlett-Packard (HP) is a worldwide manufacturer of computers, printers, and related equipment. HP has designed and implemented a very successful solid waste management program - one which has realized the recycling and reuse of 78.2% of the total refuse generated at its Woodland, CA facility. This program carries out the recycling of cardboard, paper products, polyethylene, and wood pallets, as well as the reuse of bubble wrap. HP is also a leading recycler of E-waste by promoting the HP "E-Scrap" recycling process to customers and businesses.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002

2222 East Beamer St  
Woodland, CA 95776

#### **Hitachi Automotive Products, Los Angeles**

Hitachi Automotive Products (USA), Inc., Los Angeles Plant is in the business of remanufacturing automotive components including alternators, distributors, engine control units, mass airflow sensors, and starters. As an ISO-14001 certified company, Hitachi strives for continuous improvement in its environmental management system. Last year, the company's core return program diverted more than 2,447 tons of materials from disposal and saved an estimated \$1,000,788 by remanufacturing used cores.

Years Awarded: 2008, 2007, 2006, 2005, 2004, 2003

475 Alaska Ave  
Torrance, CA 90503

#### **HP (Roseville)**

Hewlett-Packard (HP) is a worldwide manufacturer of computers, printers and related equipment. HP has designed and implemented a very successful solid waste management program - one which has realized the recycling and reuse of an outstanding 83.1% of the total refuse generated at the Roseville, CA facility. This program carries out the recycling of cardboard,

paper products, polyethylene, and wood pallets, as well as the reuse of bubble wrap. HP is also a leading recycler of E-waste by promoting the HP "E-Scrap" recycling process to customers and businesses. Over 1,234 tons of recyclable/reusable material was diverted from landfill during the past year, saving \$406,000 in disposal costs.

Years Awarded: 2010, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

8000 Foothills Blvd  
Roseville, CA 95747-6553

#### **HP - Bay Area**

Hewlett-Packard (HP) is a worldwide manufacturer of computers, printers and related equipment. HP has designed and implemented a very successful solid waste management program - one which has realized the recycling and reuse of an outstanding 76.9% of the total refuse generated at the HP Bay Area facilities. This program carries out the recycling of cardboard, paper products, polyethylene, and wood pallets, as well as the reuse of bubble wrap. HP is also a leading recycler of E-waste by promoting the HP "E-Scrap" recycling process to customers and businesses. 1,762 tons of refuse material was diverted from landfill during the past year, saving \$152,000 in disposal costs.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002

1501 Page Mill Rd MS 1214  
Palo Alto, CA 94304-1126

#### **Intel Corporation**

Intel, the world leader in silicon innovation, develops technologies, products and initiatives to continually advance how people work and live. The Folsom site is a research and development center that designs and tests the latest chips before they go into production. Intel Corporation has a strong commitment to protecting the environment and minimizing the use of natural resources. Reducing footprints on the earth is a priority for Intel! In 2006, Intel recycled 75% of the solid waste generated at facilities worldwide. At the Folsom facility they diverted 1,167.55 tons of material from disposal and through waste reduction efforts they saved an estimated \$50,828.94 and generated \$10,720.00 in recycle revenue. Intel proactively addresses the threat of global climate change by focusing on energy usage in operations and the energy efficiency of products.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999

#### **Intel Corporation**

Intel, the world's largest chip maker and leading manufacturer of personal computer, networking and communications products continues to focus on recycling efforts at its Santa Clara site location. In 2006, Intel Santa Clara recycled 64% of its solid waste, and donated to K-12 teachers, community centers, and local community colleges, computers, and other electronic, and office equipment. Every year employees look forward to Earth Day, personal electronic recycling event activities, and spring cleaning. These activities provide employees with an opportunity to be involved, meet other vendors and partners in recycling.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996

2200 Mission College Blvd  
Santa Clara, CA 95052

#### **Interior Removal Specialist, Inc.**

Interior Removal Specialist, Inc. is the premiere Tenant Improvement Demolition contractor in Southern California. Long before winning their first WRAP Award in 2001, the company has been a champion of waste diversion and is a pioneer in the recycling of many common items found in demolition jobs. Interior Removal Specialist, Inc. has broken new ground in recycling over 20,000 tons of drywall and 1,900 tons of ceiling tiles in the Western United States. Interior Removal Specialist, Inc. is proud to say that by the recycling of materials and donations of many reusable items found on jobsites to non-profit organizations, they have diverted over 40,000 tons of materials from local landfills over the last three years; saving the company more than \$1,107,000 in dump fees.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

9309 Rayo Ave  
South Gate, CA 90280-3612

#### **Jensen Landscape Services, Inc.**

Huppe Landscape Company, Inc. is a unique landscape installation maintenance company in Northern California. Huppe Landscape Company, Inc. recycles 98% of all green waste generated from its operation. Whenever possible, Huppe Landscape Company, Inc. uses mulching mowers on the more than 400 properties the company services. The mulch derived from these 325 acres is then sold. In the past 12 months, Huppe has reduced the amount of waste destined for the landfill by 430 tons, and saved more than \$370,000.

Concord, CA 94520

### **Juniper Networks, Inc.**

Sunnyvale based Juniper Networks, whose focus on technology, leadership and technical excellence has produced an award-winning portfolio of products and product capabilities. They are proud of their dedication to improving the environment! Juniper Networks successfully reduced its impact on the local environment in 2006 by diverting over 414,000 pounds of materials from landfill. Through these aggressive recycling efforts, Juniper Networks realized a savings of over \$45,600 in 2006. By reusing wooden crates and other packaging materials in outgoing shipments, the company has achieved an estimated annual savings of \$15,000. Their proven commitment to conserve resources and reduce waste earned Juniper the County of Santa Clara's Green Business Certification last year.

Sunnyvale, CA 94089

### **Kaiser Permanente - Livermore Distribution Center**

The Kaiser Permanente Livermore Distribution Center is a large HMO and this facility distributes to all the Northern California Kaiser Permanente facilities. This facility recycles at least 90% of all waste produced. Much of the engineering and janitorial work hours are devoted to this end. The OST successful waste reduction practices have been that of recycling cardboard and plastic bottles in very large quantities from a facility that operates twenty-four hours a day, six days a week. Currently, their most unique recycling effort, is converting trucks and courier vehicles to use Biodiesel. In the past year, the Livermore Distribution Center has diverted 20,660 pounds of plastic bottles, 586,050 pounds of cardboard, 129,080 of paper, 18,300 of plastic wrap, 15,500 pounds of wood and 6,940 of steel and over 300,000 pounds of x-rays. This organization has realized a cost savings of over \$500,000.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2000, 1999, 1998, 1997, 1996, 1995

### **KBWB YOUR TV20**

Your TV20, KBWB, is an independent broadcast television station in San Francisco, CA that makes sustainable business practices a large part of their company's mission. Over the past four (4) years they have significantly reduced paper consumption by using recycled paper, and have installed software solutions that use electronic documents for company wide and inter-departmental procedures. Furthermore, the company has diverted at least 4 tons of materials such as videotape, scrap metal and industrial electronics from landfill disposal while recycling industrial fluids, rubber, cardboard, plastics, bottles, aluminum, fluorescent lights, and over 100 pounds of alkaline batteries. Between June 2006 and June 2007, waste reduction efforts have saved KBWB \$21,750. Your TV20 has pledged to continue to find new ways to reduce waste and to improve upon their sustainable business practices.

Years Awarded: 2007, 2005

1 Technology Drive  
Milpitas, CA 95035

### **Kraft Foods**

Kraft Foods Global, Inc. at San Leandro is a manufacturing plant that produces the nationally-distributed coffee brands Maxwell House, Yuban, and GFI. During its 57 years in business, the San Leandro plant has developed a program that currently recycles approximately 945 tons of materials per year. These items include coffee chaff suitable for animal feed, cardboard, coffee bags, metal cans, and plastic. Last year, we saved approximately \$26,939 from recycling. In 2006, the plant's recycling team streamlined this effort by utilizing a single recycler that accepts all of the facility's recyclable materials. We are continuing to look for additional

recycling opportunities.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2001, 2000, 1996, 1995, 1994, 1993

**Kyocera Communications, Inc.**

Kyocera Wireless Corp. (KWC), a wholly owned subsidiary of Kyocera International Inc., develops and manufactures wireless phones and accessories for customers worldwide. In line with Kyocera's corporate commitment to environmental protection and "harmonious coexistence," KWC believes, and has demonstrated, that striving to minimize environmental impacts from business operations by recycling and reducing waste can be both good for the environment and good for business. In 2006, KWC recycled over 1 million pounds of paper, plastic, electronic and other waste otherwise destined for landfills. The company also used more than 4.5 million gallons of reclaimed water in 2006. These programs and results have been achieved by exceptional efforts including refurbishing used batteries, recycling other materials, and setting goals to continually improve the company's recycling ratio, which is now 82% of total waste. Between cost avoidance and recycling revenue, these programs contributed more than \$500,000 to KWC's 2006 bottom line.

Years Awarded: 2011, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

San Diego, CA 92121

**LifeScan, Inc.**

LifeScan, a wholly owned subsidiary of Johnson & Johnson, is the leading maker of blood glucose monitoring systems for home and hospital use. Between May 1, 2006 and April 30, 2007, LifeScan diverted a total of 392.8 tons of materials from disposal and saved more than \$46,796.48. They aggressively promote recycling, and in April 2004, were named by the City of Milpitas as having one of the area's most "enthusiastic recycling" programs. Moving beyond recycling, LifeScan recognizes the importance of considering lifecycle impacts when designing its products -- both in terms of material inputs and ultimately, disposal. LifeScan recently redesigned their soft meter cases for their entire product portfolio. Hazardous material inputs (PVC, latex and DEHP) were eliminated, and the cases can now be incinerated for waste-to-energy instead of being sent to the landfill. LifeScan is ISO 14001 Certified, a member of EPA's Performance Track program (Charter Member), Sustainable Silicon Valley, and Santa Clara County's Adopt-A-Creek program. We annually provide a financial donation to The Nature Conservancy as well.

Years Awarded: 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1998

**Loyola Marymount University**

Founded in 1911, Loyola Marymount is a premier Catholic university rooted in the Jesuit and Marymount traditions. Its enrollment includes 5,667 undergraduate, 1,886 graduate and 1,319 law school students. The 142-acre bluff-top campus is located in West Los Angeles and was recently included in "The Best 371 Colleges: 2010 Edition" Princeton Review, 2010. LMU offers rigorous undergraduate, graduate, and professional programs to academically ambitious students committed to lives of meaning and purpose. LMU benefits from its location in Los Angeles, a dynamic city that brings into sharp focus the issues of the day and provides an ideal context for study, research, creative work, and active engagement. By intention and philosophy, the university invites men and women diverse in talents, interests, and cultural backgrounds to enrich the educational community and advance its mission: "The encouragement of learning; The education of the whole person; The service of faith and the promotion of justice" Since its first environmental initiatives in 1990, beginning with a Recycling Program, Loyola Marymount's commitment to eco-friendly practices has grown into an innovative program known as "Green LMU." The Recycling Program is one of the few programs among educational institutions to heavily engage in the secondary processing of recovered materials. It is estimated that the cost savings is more than \$500,000 annually. Additionally, this program employs seven student workers year-round to help pay their tuition. The true partnership of university staff and student workers has yielded tremendous results in terms of waste prevention and resource recovery. More than 4,000,000 pounds of materials were reduced, reused, or recycled in 2009 alone. Most recently, Loyola Marymount submitted its Climate Action Plan (CAP) Road Map to the American College & University Presidents Climate Commitment (ACUPCC), outlining its efforts to become a climate-neutral campus.

### **Mercedes Benz USA, LLC**

Mercedes Benz is an automotive parts distribution center with 134 employees and receives approximately 1500 parts or more a day. Parts range from nuts and bolts to engines and body panels, which require a variety of packing materials. In an effort to reduce waste that goes to the landfill, they use reusable containers for packing as much as possible and these reusable containers are provided to their customers. The three most successful recycling methods are recycling corrugated products, wood pallets and plastics. They are sold to a recycling company which generates income and reduces the cost of pick-up and delivery to a landfill. Between January 2006 and January 2007 they saved \$46,020 in diverted cost. This savings was achieved by not sending 265.50 tons to the landfill.

### **Minuteman Press San Mateo**

For two decades, Minuteman Press - San Mateo has served the Peninsula's local businesses by making them "look great on paper." Last summer, Minuteman Press - San Mateo made the decision to become eco-friendly. Luckily, their crew has always recycled paper, cans, bottles, and toners, so staff members quickly jumped on board with this new direction for the company. Eco-friendly efforts include the replacement of the old photochemical processing system with one that eliminates hazardous waste, paperless communications for customers who send graphics files or re-order printed material through the website, and the use of soy or vegetable based inks for every printing job. Minuteman Press - San Mateo wants to help make your environmental contribution count.

### **Motor Sales - Toyota Logistics Services Fremont**

Toyota Logistics Services (TLS), Fremont, is a vehicle processing facility that supports the NUMMI manufacturing plant in Fremont, Calif. As a division of Toyota Motor Sales, U.S.A., Inc., we operate under a Toyota Global Earth Charter that promotes environmental responsibility throughout our entire company. We strive for continuous improvement, and are committed to reaching

beyond basic environmental compliance. TLS Fremont is ISO 14001 certified, and is proud to have achieved WRAP and Green Business recognition for our environmental efforts. Through our team members' waste reduction, recycling and conservation efforts, we continue to seek ways to reduce our environmental footprint. For calendar year 2006, TLS Fremont was able to send over 335,000 pound of waste to be recycled and/or composted at an estimated cost savings of \$41,740.  
Years Awarded: 2010, 2009, 2008, 2007, 2006, 2005, 2004

Fremont, CA 94538

**Network Appliance, Inc.** 

Sunnyvale-based Network Appliance, a leader in advanced network storage solutions, is committed to minimizing environmental impact through the conscientious use of products, activities, and services. Network Appliance successfully reduced its impact on the local environment in 2006 by diverting 1.8 million pounds of materials from the landfill. NetApp's robust building construction over the past year has generated over 650,000 pounds of construction debris that has been recycled! This makes up over 30% of their recycled materials in 2006. For the second consecutive year, NetApp's aggressive recycling efforts have increased their landfill diversion rate by 10%. They were able to divert 60% of their material from landfill last year which saved the company over \$45,000 in landfill fees. NetApp is proud of the success achieved thus far in its waste reduction and recycling efforts and intends to continually improve upon its performance.

**New-Tec Circuit Sales, Inc.**

New-Tec Circuit Sales, Inc. is a materials management company that provides a variety of redistribution/recycling services including the scrapping, reselling and salvaging of proprietary and non-proprietary electronics and other related equipment. Among other uses, New-Tec utilizes the salvaged components of retired electronics to service and repair older equipment. What cannot be reused is recycled for the precious metals (i.e., gold, silver) and scrap metals (i.e., aluminum, steel, tin). In 2006, New-Tec diverted approximately 3.2 million pounds of waste from the landfill. New-Tec has again averaged a small return over the last year as a result of their recycling activities.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1995

**NGK Spark Plugs (U.S.A.), Inc.**

NGK Spark Plugs is the world's leader in sales and manufacturing of spark plugs. In 2001, NGK Spark Plugs (USA), Inc. established and applied an environmental management system for the manufacture, sales; distribution of spark plugs and related products (ISO 14001). Their mission of improving life through the environmentally responsible manufacture and precise application of advanced ceramic technologies for all North America has been consistently worked on. In the past year, NGK has diverted over 400 tons from California's landfills by recycling metals, oils, cardboard, office paper, wooden and plastic pallets, talc powder and the non-conforming parts program. Over \$28,000 has been saved in 2006 from waste reduction and recycling activities. As a part of NGK's environmental management system, the facility also uses low flush toilets, 150 skylights, motion sensors in every restroom and office, and computer controlled and locked thermostats. With the motto of continual improvement, the company and its employee's will not only be the world leader in spark plug manufacturing, but one of the community's leaders in reducing, recycling and re-using.

#### **Northrop Grumman Aerospace Systems (NGAS)**

Northrop Grumman is a defense contractor specializing in advanced integrated systems, aircraft manufacturing and drone development. Many of the programs are immersing technologies that require elaborate research and development techniques. For 65 years Northrop Grumman has used innovation and technology to find solutions to environmental challenges. Through its forward thinking and proactive environmental approaches the company operates as a responsible company and a good neighbor to the surrounding community. Integrated Systems recycles approximately 2450 tons of waste annually. The cost savings for both recycling and diversion is near \$150,000 a year. Their most successful recycling programs have been white paper and metal recycling. White paper is collected throughout the facility and stored in large bins prior to shipment for recycling. Metal is collected, segregated and sold to a recycler.

#### **Northstar-at-Tahoe Resort**

Northstar-at-Tahoe Resort is a year-round destination, ski and summer resort conveniently located between Truckee and Lake Tahoe. In an effort to reduce the amount of waste they generate through their operations, they have re-formed their Environmental Leadership at Northstar (ELN) committee. Through various programs and their successful recycling contest, ELN has encouraged and empowered our guests and employees to participate in waste reduction efforts. This year, Northstar-at-Tahoe has also increased their "Blue Bag" program along with cardboard and other solid recycling. By diverting 25 tons of recyclable goods from the waste stream, they have saved an estimated \$18,200 in waste hauling costs. Northstar-at-Tahoe Resort is passionate about environmental stewardship, and staff members anticipate additional improvements to their waste reduction program in the years to come.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

#### **Orthodyne Electronics**

Orthodyne Electronics is the leading manufacturer of ultrasonic wire bonders, with an established tradition of developing revolutionary products for the semiconductor and microelectronics industries. The company has a comprehensive program recycling 70 tons of paper, cardboard, aluminum, scrap metals, plastic, glass, and universal waste. As a part of its ISO 14001 certification,

Orthodyne also participates in establishing energy efficiency and carpool programs. Orthodyne has saved an estimated \$28,000 through its waste reduction programs.

Years Awarded: 2010, 2009, 2008, 2007, 2006

16700 Red Hill Ave  
Irvine, CA 92606

#### **Pacific Builders**

As a Humboldt County business that takes the extra steps to divert materials from the local landfill and work towards zero waste, Pacific Builders continues to make changes in the community. Out of a total of 463.18 tons of construction waste debris generated between July 2006 and June 2007, Pacific Builders was able to divert 298.5 tons from the landfill. This gives Pacific Builders an overall diversion rate of 64%. By using focused resource management plans, a total savings of \$37,673.15 was accomplished in the overall efforts to recycle and reuse. All wood, concrete, asphalt, brick, cardboard, plastic sheeting, green waste, metal scrap and reusable fixtures are directed to a materials processing center, local recycling center, salvage operations, Humboldt Freecycle listserve, cogeneration plant, or a local non-profit. Their office uses a recycling program and focused material procurement to help reduce their footprint before the end waste is created on projects. Pacific Builders continues to work and volunteer within the community to educate and encourage waste reduction efforts as well as continue to develop resource management programs to keep construction and demolition debris out of the landfill.

Years Awarded: 2007, 2006, 2005, 2004, 2003

880 L St  
Arcata, CA 95521-5748

#### **Pacific Gas and Electric Company**

Pacific Gas & Electric Company (San Francisco) provides power to approximately 40 percent of all Californians. The company's headquarter complex is located in San Francisco, where more than 4,000 people work. In addition to recycling bottles, cans, paper, and cardboard, all employees at PG&E's 245 Market Street building can now place their food waste into separate containers for composting, one of the first private sector high-rises anywhere to offer this service. In the bathroom, they use recycled-content paper towels and even the soap dispensers are made from recycled plastic. Perhaps PG&E's most amazing recycling story lies outside the confines of the building, where they donated more than two miles of used natural gas pipe to Ducks Unlimited, which used the pipe to improve water circulation in restored wetlands. PG&E's headquarters-based vehicle fleet consists of plug-in hybrid, fuel cell, and natural-gas powered vehicles. There are no ordinary gasoline vehicles in PG&E's general office pool. In terms of addressing climate change, PG&E's carbon dioxide emissions per megawatt-hour of electricity delivered is more than 60 percent below the national average among utilities. As a Charter member of the California Climate Action Registry, PG&E has quantified their greenhouse gas emissions and is working to reduce them. PG&E aims to be the greenest utility in America, and they are well on their way.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2004, 2003, 2001, 1999, 1994

77 Beale St Room 2475  
San Francisco, CA 94105

#### **Pebble Beach Company**

Pebble Beach Company, a world-class resort complex dedicated to the environment, recycling, and waste reduction, owns and operates three resort hotels and four golf courses in the Del Monte Forest and one course in Monterey. Over 5300 acres of golf courses, landscaped areas, seashore and forested open spaces are managed on a multiple use basis. Recognizing that resource efficiency and waste reduction are essential components of wise-use environmental management, the company has developed a number of programs to reduce, reuse, and recycle waste. Approximately 1.1 million pounds of plastic, glass, metal, cardboard, and paper are recycled annually. Furthermore, green waste recycling is a very successful program. Last year, over 2500 tons of compost was produced from golf course clippings, forest debris, and landscape green waste. The composting process provides an additional benefit by killing Monterey Pine pitch canker spores, preventing the spread of a serious virus in the Del Monte Forest. All of the high quality compost produced is used entirely on Pebble Beach properties in landscaping, restoration projects, and the golf courses. This resulted in a savings of over \$250,000 in landfill costs.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2004, 2003, 2002, 1999, 1998, 1996

#### **Peterson Power Systems**

Peterson Power Systems (petersonpower.com) is a premier supplier of power generation, transportation, compressed air and temperature control equipment. Over this past year, this Northern California Company substantially improved its approach to the handling of all dry waste materials. Working with a reinvigorated commitment to community involvement, Peterson has now sparked the imagination and desire of its employees to focus on diverting all dry waste, such as paper products, plastic, cans/bottles and wood waste, into the recycling stream. This past year these materials have amounted to 157 tons of recyclable materials and have

saved Peterson \$32,970. Needless to say, this is one company which is sold on the idea of conservation, for the benefit of itself as well as the communities that it serves.

2700 Teagarden Street  
San Leandro, CA 94577

### **PIER 39**

Pier 39 Limited Partnership is owner of Pier 39 - a retail shopping / family entertainment center and tourist attraction on the San Francisco Bay. In the past twelve months, Pier 39's comprehensive recycling program has diverted 1,130 tons of recyclable material from the landfill, and saved an estimated \$195,750 in waste disposal costs. 100% (57,600 pounds) of the landscape waste generated from Pier 39's extensive gardens is composted, as well as 929,724 pounds of food waste generated from on-site restaurants. With the help of Golden Gate Recycling and San Francisco's Department of the Environment, Pier 39's organic / wet garbage composting program was expanded in July 2007 in an effort to divert all food waste from the landfill.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2002, 2000, 1999, 1998

Beach & Embarcadero  
San Francisco, CA 94133

### **Plastic Loose Fill Council**

The Plastic Loose Fill Council (PLFC) promotes reuse of plastic packaging peanuts through its national collection program, the Peanut Hotline (800-828-2214), and its website ([www.loosefillpackaging.com](http://www.loosefillpackaging.com)). The Peanut Hotline network of collection centers provide California consumers with local reuse outlets for their clean, reusable leftover packing peanuts. Through the Peanut Hotline, member businesses have saved 50% on the purchase of new fill material. The PLFC is a not-for-profit organization that keeps costs low by utilizing grass roots public education opportunities, municipal recycling listings, an internet database management system and an automated toll-free number and internet directory service for providing collection locations and other information to the public. There are currently over 350 Peanut Hotline drop-off locations in California.

### **Portola Hotel and Spa**

The Portola Hotel & Spa at Monterey Bay is a 379-room, full service hotel. The hotel, adjacent to the Monterey Conference Center, recycles, reuses, or donates nearly every type of waste item that is generated. From bottles and cans to cooking oil and wire hangers, they believe almost everything has a second life. Established in 2000, the "Green Mile" is an area in the hotel where virtually any type of item can be found and had by the hotel staff for free. The hotel estimates that their waste reduction efforts divert nearly 150 tons of waste from the landfill on an annual basis, saving over \$20,000 in disposal costs every year.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

### **Pratt & Whitney Rocketdyne, Inc.**

The Pratt & Whitney Rocketdyne (PWR) Canoga Park facility produces cutting edge aerospace products, including the Space Shuttle Main Engine (SSME), the world's most reliable and highly tested large rocket engine ever built. The three reusable SSMEs that power the space shuttle develop a maximum equivalent 37 million horsepower. PWR Canoga Park measures and streamlines all production processes using their Achieving Competitive Excellence (ACE) operating system. This has led to the recycling of virtually all qualified production waste. Between January 2006 and December 2006, PWR Canoga Park diverted a total of 491 tons of materials from disposal. Through waste prevention, reuse, and recycling efforts, PWR Canoga Park saved \$839,554 in 2006.

Years Awarded: 2011, 2010, 2009, 2008, 2007

8900 DeSoto Ave  
Chatsworth, CA 91311

### **Printer's Ink**

Printer's Ink, Printing Services Inc., is a graphics and printing company that set out to aggressively improve waste reduction and recycling efforts several years ago. In the 2006 calendar year, Printer's Ink sent over 11,500 pounds of paper materials to the recycling plant, which represents a decrease from the previous year as a result of re-use programs and efficient ordering practices. Their savings in the past year from these efforts are estimated to be more than \$3,900. Printer's Ink believes that focusing on waste reduction not only saves their company money, but also educates and encourages their customers and community to reduce waste and preserve the environment.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2000, 1999, 1998, 1997

459 Cleveland St  
Woodland, CA 95695

**Quady Winery**

Quady Winery is a medium-sized, family-owned business that makes internationally renowned dessert wines. Through on-site composting, the winery has diverted about 116 tons of organic waste. By continuing a recycling program for production operations and office materials, the winery diverted an additional 11 tons from the landfill in the past year. In total, 99.5% of waste generated by the winery is composted, reused or recycled. Recent modifications in packaging, investment in modern processing equipment, and a redesign of the vineyard irrigation system have been highly effective in reducing waste, energy usage, and water costs. Nearly \$20,000 was saved last year alone. Quady Winery views waste reduction and "green business" practices as part of its overall responsibility to our environment and our community.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003

13181 Rd 24  
Madera, CA 93639

**Raytheon Company**

Raytheon Company is a world class leader in developing defense technologies. Raytheon Company, Space and Airborne Systems in El Segundo aggressively pursues its diversion of solid waste from the landfill, increasing its diversion rate from a baseline of 6% in 1996 to over 56% in 2006. In the process, we have saved over \$56,000 by selling recyclable materials such as paper, cardboard, scrap metals and surplus electronic equipment.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998

**Recology Vallejo**

Vallejo Garbage Service, Inc. a subsidiary of Norcal Waste Systems, Inc., is an employee owned garbage and recycling collecting company. Vallejo Garbage Service, Inc. is committed to protecting the environment through an application of stringent standards, and by innovatively recycling many different commodities; reducing the amount of waste materials that go into landfills. Vallejo Garbage Service Inc. not only helps the communities they service, recycle, but the employees are also dedicated to recycling within their facility. With the joint efforts of their employees in the last year for their facility alone, they have helped divert approximately 20 tons of materials from going into landfills.

2021 Broadway St  
Vallejo, CA 94589

**Red and White Fleet**

Red and White Fleet, the premier cruise operator on San Francisco Bay since 1892, is dedicated to minimizing its impact on the environment and adheres to the policy of reducing, reusing and recycling. Having been a WRAP winner for eight consecutive years, the Red and White Fleet remains committed to managing its waste in the most environmentally responsible manner possible. Reducing the emissions from its vessels has been an enormous success. Most recently, Red and White Fleet has re-powered its largest vessel, the Royal Prince, with EPA Tier 2 engines, the cleanest marine diesel engine available, thereby completing installation of modern diesel technology on its entire fleet. Further, the Red and White Fleet has been running its vessels on B20 (a blend of #2 ultra low sulfur diesel with 20% biodiesel produced from soy). Biodiesel offers significant health benefits and emissions reductions while reducing our dependence on foreign oil.

**Remo, Inc.** 

Remo, Inc. is the world's largest manufacturer of percussion instruments. In a continued effort to contribute to a healthier environment, Remo, Inc. has maintained a very strong waste reduction and recycling program. In 2006, with the help of their consultant, Industrial Recycling Services, Inc. (IRSI), Remo, Inc. was able to recycle various materials amounting to 419,164 tons. The 2006 Recycling Annual Report prepared by IRSI shows that recycled materials contributed \$40,147.58 to the company's financial health. This total bottom line benefit (BLB) equaled \$22,547 income earned by the recycling of the above materials, plus a savings of \$17,600.40 on avoided trash hauling and landfill disposal costs. By recycling the above 419 tons of materials, Remo, Inc. saved 729 cubic yards of landfill space. Energy saved by recycling the cellulose fiber materials equaled a savings of 4417 barrels of oil. Recycling of cardboard, paper and chipboard, saved 0.91 million gallons of water; and 2,209 trees or about 11.41 acres of forest land. As a company committed to enhancing the lives of people through drumming, Remo, Inc. also understands the importance of waste management and recycling and will continue to put forth a major effort in contributing to a healthier environment and economy.

**RICOH Electronics, Inc.**

Ricoh Electronics, Inc. is one of over 300 domestic and overseas companies which comprise of Ricoh Company Ltd., a \$14 billion global corporation and leading supplier for advanced office automation equipment. REI produces highly advanced digital copiers, peripherals, printed circuit boards, SecureFax™ Machines, e-cabinets, thermal media, toner, parts, and customer-configured products at their facilities in Orange County California, Lawrenceville Georgia, and Toluca Mexico locations. REI has been a Zero-Waste-to-Landfill company since 2001 and in FY 2006 over 7,000 metric tons of waste was diverted from landfills through 5R activities. For FY 2006 (April 2005 - March 2006) Ricoh Electronics Inc. employees saved an estimated \$5 million through their waste reduction and sustainability improvement activities.

Years Awarded: 2011, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1995

**Ricoh Logistics Corporation**

Ricoh Logistics Corporation (RLC) is one of over 300 domestic and overseas companies that comprise Ricoh Company Ltd., a \$14 billion global corporation and leading supplier in advanced office automation equipment. Ricoh Logistics Corporation provides international logistic and warehouse services with facilities in Asia, Europe, and the United States. At Ricoh Logistics Corporation (RLC), they believe that protecting the environment is an important part of their business culture. Ricoh Logistics Corporation continues to work to develop and implement environmental protection activities that will lead to the reduction of pollution, and they continue looking for ways to wisely use natural resources efficiently. In 2007, Ricoh Logistics Corporation diverted a total of 2.49 tons of waste from landfills through their 5R activities: refuse, return, reduce, reuse, and recycle. Through their waste reduction efforts, Ricoh Logistics Corporation saved an estimated \$19,700. Since 2002, Ricoh Logistics Corporation has been using the 5R model to achieve one of their major ongoing environmental goals: the participation in the "Zero-Waste-to-Landfill" program.

**Robert Bosch LLC.**

The Robert Bosch LLC. manufactures and distributes automotive products, industrial parts, consumer goods, and building products. They are the world's second largest automotive aftermarket supplier. This innovative and environmentally conscientious company continually strives to improve its values and sense of social responsibilities. Their waste and reuse program in Ontario, California diverted 208,926 pounds of cardboard, plastic strapping, shrink wrap, wood pallets and "V" Boards from their local landfill in 2006 and through part of 2007. Robert Bosch LLC. has saved an estimated \$38,000 by simply reusing surplus, modifying materials, and recycling approximately 85% of all their waste.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003

**Roche Palo Alto LLC**

Roche Palo Alto is focused on the discovery and early clinical development of innovative new medicines to treat diseases affecting people worldwide. Located in the Stanford Research Park in Palo Alto, Calif., approximately 1,000 highly motivated employees work at this 69 acre, 17-building campus. It is one of five global research centers operated by Roche; a Swiss-based healthcare company. At Roche, sustainability is an integral part of their business strategy aimed at creating the greatest possible long-term value for all key stakeholders. They believe that embedding sustainable development throughout the organization creates value, promotes innovation, reduces business risks and provides a source of competitive advantage. Roche's Corporate Principles encompass sustainable development with an emphasis on ecoefficiency and environmental protection. Worldwide Roche sustainability goals are established, and performance is measured and reported on annually (as part of the Corporation's Sustainability Report). Roche's commitment to sustainability has been recognized with many awards and is consistently placed on the Dow Jones Index for Sustainability and Footsie4good. Roche's sustainable strategies impact the quality of its products, its capacity to innovate, even the strength of the diagnostic and therapeutic portfolios. In 2006, Roche Palo Alto recycled 540 metric tons of materials. Each year, the site adds a minimum of one new material to the list of accepted recyclables. The current list includes paper, concrete, ceiling tiles, drywall, cardboard, metals, glass, wood, landscape debris, fluorescent light bulbs, Styrofoam, specialty plastics, electronics, packaging materials, and toner cartridges.

Years Awarded: 2007, 2004

**RR Donnelley**

RR Donnelley is a large printer and distributor of commercial publications, catalogs and newspaper inserts. Through aggressive process control and waste management, they have been able to divert over 14,000 tons of their generated waste from landfill in 2006. This has resulted in a savings of approximately \$1.6 MM. In addition, RR Donnelley has instituted a package return network

for chemical containers and shipping pallets, and is continuing efforts to reduce energy consumption and increase plant efficiency. Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997

19681 Pacific Gateway Dr  
Torrance, CA 90502-1164

#### **Safeway Inc**

Safeway is one of the largest retail grocery companies in North America operating 519 stores in its California Divisions. In 2006, Safeway increased its commitment to waste reduction and environmental leadership by focusing on its energy consumption and recycling efforts. The stores in California diverted over 85% of their total solid waste from landfill disposal which resulted in 207,190 tons of material recycled for a savings of \$24,589,320 in avoided disposal costs. Also in 2006, Safeway purchased enough wind energy to become the fourth largest retail user of renewable energy in the U.S. according to the EPA. Based on EPA estimates, the amount Safeway purchased in renewable energy cuts carbon dioxide emissions into the atmosphere by some 121 million pounds. Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999

#### **SAIC**

SAIC is an integrated technology and information company with approximately 4000 employees in the San Diego area. As an employee-owned company, SAIC is well aware of the impact an effective recycling program as well as energy conservation can have on the bottom line as well as to the environment. SAIC, a responsible corporate citizen, has been actively involved with organizations such as SDG&E, San Diego City Water, St. Vincent De Paul, Monarch Schools and others in programs to conserve electricity, reduce water usage, and divert usable furniture and computer components from landfills. This past year, SAIC has diverted nearly 490 tons of recyclable materials from the landfill, the company's overall energy usage has been reduced by 15% and use of reclaimed water for landscape irrigation has reduced water and sewage costs by 10%. Years Awarded: 2011, 2010, 2008, 2007, 2006, 2004, 1998

10260 Campus Point Dr  
San Diego, CA 92121

#### **San Bruno Garbage Company**

The employee-owned San Bruno Garbage Company is proud to have served the residents and businesses of San Bruno since 1948. Apart from implementing a new single-stream recycling service, San Bruno Garbage Company runs an in-house waste reduction program which has earned them the WRAP Award for six straight years. Their waste reduction efforts include reusable kitchenware, scratch paper usage in copiers and printers, and an extensive automotive recycling program that boasts a fleet of trucks using ultra low sulfur diesel fuels, as well as refurbished oils and other fluids. This program allowed San Bruno Garbage Company to divert approximately 6,000 pounds of materials last year, saving over \$2,000.00 in disposal costs. Their waste reduction program also serves as an educational tool for their community outreach endeavors. Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

1356 Marsten Rd  
Burlingame, CA 94010-2406

#### **Santa Clara Convention Center**

The Santa Clara Convention Center is a 262,000 square foot facility that will host approximately 415 events this fiscal year. These events consist of conventions, trade and public shows, meetings, weddings, cultural events and banquets. All combined, the Center will have serviced an overall attendance of more than 292,745 people this fiscal year. The convention center implemented its recycling program in April of 2002, which reduced waste by 36.36 tons and resulted in cost savings of \$8,856.85. For this fiscal year, they have diverted 290.41 tons of trash destined for landfill. In addition to the recycling program, the center's full-service caterer has donated approximately 7,560 pounds of food to Second Harvest Food Bank during the fiscal year of 2006-2007. The Center and its partner organizations auction or sell equipment they can no longer use as well. Other waste reducing measures include purchasing recycled-content paper products and bulk goods, recycling toner cartridges, and composting landscape waste. The Santa Clara Convention Center is committed to its waste reduction programs and will continue to implement new policies and procedures to ensure the facility contributes to a cleaner environment. Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003

5001 Great America Pkwy  
Santa Clara, CA 95054

#### **Santa Cruz Seaside Company**

Located next to the pristine Monterey Bay National Marine Sanctuary, the Santa Cruz Seaside Company and its major holding, the Santa Cruz Beach Boardwalk amusement park, are aware of the importance of cherishing the environment. In fact, between July 2006 and June 2007, the company diverted approximately 180 tons of materials from disposal. The company has received a number of recognitions and awards for its environmental effectiveness and ecotourism efforts. It supports and maintains a variety of waste reduction activities, including a company-wide recycling program that features the recycling or reuse of an estimated 100,000

pounds of cardboard annually. Waste reduction awareness and action have resulted in better use of employee time (such as less trash removal), financial savings in a variety of areas (less hauling and less wasteful product purchase), and an improved sense of community.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

400 Beach St  
Santa Cruz, CA 95060-5416

### **Save Mart Supermarkets**

Until this year, Save Mart Supermarkets operated 124 stores in Northern California under the banners of Saver Mart, S-Mart Foods, and Food Maxx. With an aggressive approach toward being responsible partners in the communities where they operate, Save Mart has instituted environmental policies, practices, and programs that have reduced their landfill input by nearly 80% and 50,800 tons annually. This has also generated over 3.2 million dollars per year in cost savings, making this a win-win situation. The hallmark of environmental success for Save Mart is an organic diversion program that epitomizes the "closed-loop" goal of recycling by turning Organic waste (primarily produce trim and cull) into a premium compost soil amendment. This soil amendment is then sold in the Save Mart, S-Mart, and Food Maxx stores as a high-quality, low-priced consumer product. They also offer customers convenient ways to recycle by providing plastic bag collection bins at entrances of stores; offering re-usable shopping bags for purchases and hosting E-Waste collection events in their parking lots. Save Mart Supermarkets was founded January 17, 1952 in Modesto and the privately owned company operates 252 stores throughout Northern California from its headquarters in Modesto. Currently, 115 stores operate as Save Mart; seven stores as S-Mart Foods in Stockton and Lodi; 46 warehouse stores as Food Maxx, and 72 stores in the Bay Area.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000

1800 Standiford Ave  
Modesto, CA 95350

### **Scapa Converted Products**

Scapa Converted Products, a division of Scapa North America, is a contract adhesive products converter for the medical device industry. The company's waste reduction program includes recycling paper, cardboard, pallets, HDPE, packaging materials, and toner cartridges, as well as reusing packaging materials, pallets and some production waste. Surplus materials are donated to local non-profit organizations in the Southern California area. Reuse, recycling and donations diverted over 70 tons of waste from landfill this last fiscal year, translating to approximately \$10,955 in disposal cost savings and recycling income. A comprehensive packaging reduction program launched with suppliers in October 2006 has reduced incoming packaging material approximately 9 tons as of April 1, 2007.

Years Awarded: 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999

540 N Oak St  
Inglewood, CA 90302-2942

### **Scoma's Restaurant**

Scoma's Restaurant, with over forty years of family tradition and commitment to quality, continues to be one of the nation's highest grossing restaurants. Scoma's maintains a 95% diversion rate and continues to look at products, equipment, and practices that further the restaurant's commitment to minimize their impact upon the environment. Most of the restaurant's waste is suitable for compost which is sold to wine makers and farmers. Scoma's is proud to be recognized as an innovative leader of sustainable practices that divert approximately 300 tons of waste from the landfill, and save nearly \$25,000 each year.

Years Awarded: 2010, 2009, 2008, 2007, 2006, 2005, 2004

Pier 47 and Al Scoma Way  
San Francisco, CA 94133

### **SCPMG Regional Reference Laboratories**

Southern California Permanente Medical Group Regional Reference Laboratories performs clinical diagnostic laboratory testing for each of the 11 Kaiser Permanente hospitals and over 95 associated medical clinics throughout Southern California thereby serving over three million members. Kaiser Permanente Regional Reference Laboratories processes over 17 million laboratory tests each year, which results in the generation of a significant amount of bio-hazardous, chemical, medical and solid wastes. Maximum waste reduction strategy includes solvent re-distillation and recycling, plastic recycling, glass recycling, paper and newspaper recycling, cardboard recycling, packing material recycling, and multiple process oriented re-use methodologies. These programs have resulted in over \$37,600 in savings in the year 2006 and significantly reduced the amount of waste produced annually. The SCPMG Regional Reference Laboratories is committed to the environmental protection and conservation of natural resources which includes the elimination of all types of wastes therefore, placing a strong emphasis on pursuing technologies and processes which will achieve this goal.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

**Seismic Computer Management**

Seismic Computer Management provides complete computer support to small and mid-sized businesses, focusing on preventative solutions and remote management. Seismic's staff of eight, continuously make efforts to recycle and reduce waste in their small office. In the last year, an estimated 90 lbs in paper waste was saved by reusing printer paper, and Seismic estimates they save \$565 a year by using washable kitchenware rather than disposable cups and plates. Most notably, Seismic Computer Management has created a computer donation department where they invite businesses to give obsolete computers and parts to be refurbished into new machines for non-profit organizations. This year Seismic found homes for over 60 CRT monitors and forged a partnership with the Stanford Home for Children, to provide computers for emancipated youth. In the past year, Seismic estimates they have saved about 1,000 lbs of e-waste from early disposal with this computer refurbishment and donation program. Since the program's inception in 2004, Seismic Computer Management has given nonprofit organizations over \$30,000 in working computer equipment that would have otherwise been landfilled.

Years Awarded: 2007, 2006, 2005, 2000, 1999, 1998, 1997

530 Bercut Drive, Suite G  
Sacramento, CA 95814

**Sequoia Hospital**

Sequoia Hospital is a 225-bed Acute Care Hospital. Sequoia has a very extensive recycling program that gets all of its employees and visitors to participate. In 2006 Sequoia Hospital kept over 344 tons from going into the landfill and saved over \$45,000. Through their recycling efforts they saved over 825 trees, recycled over 3 tons of batteries, over 1,000 fluorescent lamps, 1 ton of food waste, 2,300 lbs. of assorted plastics, and over 1 ton of plastic bottles and aluminum cans. They have two days during the year where they sponsor "Drop and Shop" days: all departments are encouraged to drop any and all unused office supplies and pick up any items that may be needed.

Years Awarded: 2011, 2010, 2008, 2007, 2006, 2005, 2004

170 Alameda de Las Pulgas  
Redwood City, CA 94062

**Seton Medical Center**

Seton Medical Center is a state-of-the-art 350-bed facility, with a panoramic view of the entire Bay Area and the Pacific Ocean. Seton Medical Center provides a full range of outstanding healthcare services including Orthopedics, Women Services, Oncology, Diabetes, and Home Health Care services. With the recent construction of Seton's new state-of-the-art Linear Accelerator, Seton Medical Center can now offer computer-driven quality assurance. The new LINAC has a dual-energy photon beam that permits more powerful and precise treatment of deep-seated tumors. The electron beam permits treatment of surface tumors, or very shallow tumors, reducing danger to underlying normal tissue. Seton Medical Center is the first hospital in the Bay Area to have Intensity Modulated Radio Therapy (IMRT). At Seton Medical Center, they proudly champion a culture of clinical excellence and compassionate service, providing their physicians, nurses and caregivers with leading-edge technology and empowering them to be the best they can be. Recycling and using recycled products are on the high priority list at Seton Medical Center. Seton Medical Center recently partnered with Cross-Cut Shredding as their primary vendor for gathering the various items for recycling. By consolidation with one vendor, the vendor picks up all recycled products where it once took multiple vendors. Not only is this a cost savings endeavor, it also minimizes the amount of trucks driving through the neighborhood. In the years 2006/2007, Seton Medical Center diverted over Two Hundred-Sixty Seven tons (534,000 pounds) from going to the landfill, and sent for recycling. The savings to the facility was over \$165,540.

Years Awarded: 2008, 2007, 2006, 2005, 2002, 2001

1900 Sullivan Ave  
Daly City, CA 94015-2229

**Seton Medical Center Coastside**

Seton Medical Center Coastside is a rural hospital located in Moss Beach, California. The facility holds a 116-bed Skilled Nursing Facility, a 5-bed Acute Care unit and has the only Emergency Department on the coast, between Santa Cruz and Daly City. In FY07, Seton Medical Center Coastside saved an estimated \$10,000 to \$12,000 through waste reduction efforts and diverted more than 20 tons of materials from disposal. The majority of the facility's waste reduction efforts are in the form of donation and recycling or reuse. While not saving much by way of dollars, the benefit is felt to be in the saving of natural resources and the environment. Exact measurement of all material diverted through reuse and donation is difficult due to the variety of items (medical equipment, electronic equipment, pallets, binders, clothes, linen, etc.), but reuse activities have become more and more creative as the staff's environmental awareness has grown. The use of a document and data destruction service has ensured the facility's compliance with federal regulations while still allowing for continual increases in paper recycling. In addition to the intranet, upgrades and additions to internet services provide associates with access to "e-learning" options designed to assist them in fulfilling ongoing educational requirements. Results of this online training are maintained and reported to managers electronically, further reducing paper consumption.

**Sierra at Tahoe**

Sierra-at-Tahoe Resort is a winter resort operating under a special use permit from the El Dorado National Forest. The resort provides families with the opportunity to ski, snowboard, snowshoe and snowtube in one of the most beautiful areas of the Sierra Nevada Mountain Range. Sierra-at-Tahoe Resort incorporates environmental sustainability into every aspect of its operations. In the 2006/2007 season, the resort was able to recycle the scrap metal from two out-of-service buses and replace an entire roof-top deck with post consumer materials rather than natural hardwood, all the while continuing day-to-day practices that promote reduction, reuse and recycling. During the course of the past year, Sierra Resort was able to divert nearly 12,000 pounds of waste for an annual cost savings of \$2,000.

Years Awarded: 2008, 2007, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996

**Sierra Nevada Brewing Company**

Sierra Nevada Brewing Co. is the seventh largest brewer in the United States and produces ales and lagers of the highest quality. SNBC believes this can be accomplished without compromising its role as a good corporate citizen and environmental steward. Founded in Chico in 1980, Sierra Nevada was built using recycled dairy equipment. While SNBC has grown to over 300 employees and maintains a state of the art brewing facility, resource conservation and reusing/recycling raw materials has remained a guiding operating principle at the brewery. At every stage in the brewing and packaging process, the company attempts to reduce waste generation. This includes recycling cardboard, plastics, metals and other materials, utilizing spent brewing grains, hops, and yeast for cattle feed, reducing water use, operating its own water purification plant, reusing boxes and packaging materials as much as possible, reducing the amount of materials that comes into the facility, finding alternative uses for materials that can not be recycled, donating used materials and byproducts to local non profits, and reusing all materials as much as possible. From January 1, 2006 to December 31, 2006 SNBC diverted 97.8% (33,738.5 tons of material) of brewery's waste and byproducts from the landfill. In this same time period the brewery saved approximately \$1 million in landfill disposal fees and brought in approximately \$20,000 in recycling income.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001

Chico, CA 95928-6722

**SMG at The Forum**

SMG at The Forum is a premier multi-cultural events and entertainment venue. SMG at The Forum started a no-cost recycling program and to date has saved around \$96 thousand dollars. When SMG at The Forum started their recycling program with the City of Inglewood, they worked with Waste Management to set up and execute a program that the City could use. SMG at The Forum accomplished this by diverting 1,920 yards of recycled trash per year and 576 yards of regular trash from the landfills. Before the recycling program was started, SMG at The Forum was generating 3,456 yards of regular waste at a cost of \$28,880.00 per year. SMG at The Forum also recycles building materials, paper, cardboard and anything else than can be re-used or given to employees. SMG at The Forum is proud to represent such a fine venue while helping the community, environment and bringing money to the bottom line.

**Smucker Natural Foods, Inc.**

Smucker Quality Beverages is a wholly owned subsidiary of the J.M. Smucker Company. The company is a processor, packer and distributor of natural and organic fruit juices and juice blends. Smucker Quality Beverages, Inc. has saved over \$2,500,000 in packaging costs since redesigning it's packaging to a tray pack from the old full cardboard case carton reducing cardboard. The Company has also seen savings in energy costs of \$100,000 a year by reducing it's energy consumption by changing the lighting throughout the facility with more efficient lighting, thus, lowering the watt usage and increasing the lighting, and by changing the work shifts from on peak to off peak hours when needed and they have installed a natural gas engine-driven Chiller to reduce electric usage. Smucker Quality Beverages installed two 60-kilowatt Micro turbines; these turbines are fired with natural gas and generate a net of approximately 115 kilowatts of electricity. The net energy savings is generated by effectively utilizing the waste heat of the turbines to assist in their pasteurization process for both of Production Bottling Lines. This is accomplished through a re-

circulating hot water loop with the Plate and Frame heat exchangers and the turbine exhaust system. This Cogen project generates savings of approximately \$5,000.00 per month through reducing peak demand and supplying over 10% of their energy needs. The Company is currently building a new warehouse using Solar panels on the roof with plans to be completed by November 2007. The Company is at a 97.00% recycle rate compared to the States regulations to reduce landfill by 50%. At the present 97.00% rate, landfill and disposal costs were only \$6,859 due to the recycling program the Company has enforced since 1995. The company has saved over \$100,000 a year in Landfill and disposal costs since 1995. This year the Company recycle revenue was \$56,244.16 or \$49,364.99 after disposal and landfill costs respectively. This was achieved by adding recycle containers throughout their plant, which also helped improve safety and sanitation practices. Smucker Quality Beverage's also added Recycle Bins for their employees that do not have curbside pickup so they could bring their recycle products to work.  
Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000

### **Squaw Valley USA**

Site of the VIII Olympic Winter Games, Squaw Valley USA is one of the leading winter sport destinations in North America. The resort is visited by over 750,000 guests each year. Squaw Valley Ski Corp puts forth great efforts toward preserving the environment and implementing in environmentally sustainable practices. Squaw Valley Ski Corp is committed to a multi-million dollar environmental improvement program which has instituted extensive re-vegetation and erosion control projects to ensure the health and quality of the immediate surroundings. A group of eight employees form Squaw Valley's Re-vegetation Department, working during the summer months to preserve native and naturalized plant population and preserving and improving wetland areas within the resort. Squaw Valley Ski Corp has also instituted a comprehensive recycling program and revolutionary innovations in energy use to guarantee minimal depletion of natural resources and to reduce greenhouse gas emissions. Squaw Valley Ski Corp is able to divert over 71 tons of resort waste from landfills through the use of an incinerator and recycling efforts. The incinerator is 99.99% efficient and can vaporize 1.2 metric tons of garbage and leave only enough debris to fill a small garbage can. Upgrades to the resort's Cable Car as well as innovative geothermal heat pump systems have enabled the resort to significantly reduce the use of propane and electricity in heating resort facilities which has saved the company thousands of dollars while simultaneously offering a safer and cleaner environment for resort guests.

### **Standard Concrete Products, Inc.**

Standard Concrete Products, Inc. is a full-service company in the concrete industry. Together with their sister company Calaveras Standard Materials; the company operates ready-mix plants in all of the major economic areas of the metropolitan Los Angeles Basin. Standard Concrete Products, Inc. is a respected member of the concrete industry. That is why the company strives constantly to improve products, services and their relationship with the world. One of the areas of concern is the environment. Standard Concrete Products, Inc. makes every effort to ensure that it implements and follows all environmental regulations. Pollution control and Conservation management are the company's top priorities so to ensure that the company follows all regulations, routine inspections are performed at every point in the manufacturing processes. Simply put, Standard Concrete Products, Inc. cares about its work and its impact on the environment. Through the commitment of their employees in all efforts in reducing, reusing, and recycling materials as well as donating surplus materials to non profit organizations, Standard Concrete Products, Inc. was able to reduce waste destined to be land filled by 30 tons and saved more than \$120,000 through its waste reduction efforts.

### **Surgery Center of South Bay**

Surgery Center of South Bay is a multi-specialty outpatient surgical center that has four operating rooms and operates on more than 3000 patients each year. Their most successful recycling practice is the diligent sorting of plastic and paper as surgical supplies are opened in the Operating Room and in all patient care areas. The Center estimates that they have diverted in excess of 3.38 tons of measurable waste to recycling. The estimated cost savings over the past year has been over \$2000.

### **Target**

Target's mission is to be the preferred shopping destination for their guests and the workplace of choice for their team members. Target also recognizes that they have a responsibility, as a company and global citizens, to minimize their environmental footprint. Waste reduction is at the core of their environmental commitment. Through their efforts, Target has reused, recycled or rethought the end-of-life use for 70 percent of their waste. Last year, Target stores and distribution centers diverted over 1,062,400,000 pounds of material from disposal nationwide, including more than 184,377,000 million pounds from their California operations alone. Recycled materials include corrugated cardboard, office paper, shopping carts, shrink wrap and metal fixtures. They also donate overstock groceries to local food shelves. Target's estimated disposal savings in 2006 was more than \$7 million for their California operations and \$42 million nationwide.

### **TDC Environmental, LLC**

TDC Environmental, LLC is a small **\*\*San Mateo\*\*** business that provides environmental consulting services to public and non-profit clients. Known as a leader in pollution prevention, TDC Environmental services also includes environmental technical studies and training. TDC Environmental practices what it preaches-it has integrated pollution prevention into its own small office operations, substituting simple methods like electronic filing and e-mail for old-fashioned paper-intensive systems. By implementing these simple actions, TDC Environmental avoids wasting both time and money. Between July 2006 and June 2007, TDC Environmental used source reduction (eliminating usage of paper) to divert from the waste stream an estimated 250 pounds of paper. Between July 2006 and June 2007, TDC recycled an estimated 3 pounds of paper per week and composted about 0.25 pounds of flowers a week for a total annual diversion of about 170 pounds. Between July 2006 and June 2007, TDC Environmental saved an estimated \$13,000 by publishing and distributing reports electronically rather than on paper.

Years Awarded: 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000

San Mateo, CA 94403-4310

### **TELEFUNKEN Semiconductors Inc.**

NEC Electronics America, Inc. - Roseville is a manufacturer of semiconductor devices. During a facility upgrade in Fiscal Year 2006, they managed to divert over 88% of their solid waste from landfill, which is an all-time high for the facility. NEC Electronics America, Inc. - Roseville realized a saving of \$75,950 in waste disposal costs by diverting (through donations, re-use, and recycling), 1,085 tons from the landfill. The facility generated \$492,297 in revenue from recycling alone; another record for the site. NEC Electronics America, Inc. - Roseville is committed to developing environmentally responsible solutions as part of their manufacturing process.

Years Awarded: 2011, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2000, 1996

### **The Walt Disney Company**

The Walt Disney Company (TWDC) is recognized as the world's leading provider of family entertainment with business segments in theme parks, resorts, motion picture/television production and consumer products. The Company has developed extensive reuse

networks to redistribute items like unwanted office supplies, children's furniture, overstocked videotape and more to non-profit community organizations. TWDC California business units' waste prevention and reuse activities resulted in an estimated \$572,552 in avoided disposal savings in 2006 and an additional \$423,879 in recycling revenues. An ongoing shift to electronic resources of Company news, financial reports, office supply ordering, clean air commuter reporting, human resource forms and more, significantly reduces Company paper consumption. Companywide recycled product purchases totaled \$8.7 million in 2006, including paper and toner cartridges, office systems, chairs and bioplastics. Disneyland Resort® Guests use convenient recycling containers throughout theme parks and most recyclable items not placed into recycling containers are still recovered through "back of house" sorting programs. "Environmentality™ Is Making a Difference" continues to be an applicable slogan, not only for employees and Cast Members, but for guests and the broader communities.

### **Tofu Shop Specialty Foods, Inc.**

Tofu Shop Specialty Foods, Inc. makes fine organic soy products for Humboldt County and beyond. The 27-year-old company has 21 employees and diverts 99.1% of its waste; only putting 1 garbage can on the curb each week. Paper, glass, plastic, cans and batteries are recycled, and items like wood pallets, packaging materials and buckets are reused or donated to farmers and local nonprofits. All of the Tofu Shop's products are sold in recyclable containers, and some items are offered in bulk with reusable packaging. Surplus products are donated to the Arcata Food Endeavor, a local food bank. By giving its main byproduct, soybean pulp, to local ranchers as animal feed, the Tofu Shops diverts over 240,404 pounds of waste each year. The Tofu Shop saved nearly \$10,670 last year by diverting its waste. The company's employees are continually looking for new ways to reach the Tofu Shop's goal of zero waste.

### **Toyota Motor Engineering & Manufacturing North America**

TEMA is an automobile research, development and manufacturing corporation headquartered in Erlanger, Kentucky, ultimately reporting to Toyota Motor Corporation in Japan. Toyota operates under a global Earth Charter that promotes environmental responsibility, recognizing the need for comprehensive approaches to the effective use of resources and the suppression of pollution and global gases. TEMA, Toyota's North American engineering & manufacturing organization, has offices and plants throughout the United States, with Research & Development Business Units located in California, Arizona and Michigan. TEMA's location in Gardena, California is responsible for Toyota vehicle powertrain tuning, calibration and evaluation. TEMA strives to adhere to a "Reduce, Reuse and Recycle" philosophy for its waste stream. When practical, TEMA donates surplus equipment and materials to the 186th Street School in its neighborhood and reuses and recycles packaging materials, office supplies, electronics, used oil, and other materials that would otherwise be destined to be landfilled. TEMA-Gardena achieved an 82% recycling rate in 2006/07 and seeks to increase that figure in the next year. TEMA-Gardena does not achieve material cost savings by its recycling program yet remains strong in its commitment to expanding the program.

### **Toyota Motor Sales**

Toyota Motor Sales recycled over 511 tons of cardboard, paper, wood, metal, plastic, and hazardous waste during 2006. The facility sent only 7.3% of its solid waste to landfill which translates to a 92.7% recycling effort, a remarkable achievement for a facility of this size. Their most outstanding accomplishment has been their reusable returnable module program. The use of these durable metal shipping containers substantially reduces the need for wood pallets and cardboard containers. The effort by Toyota to constantly improve recycling, reuse and waste reduction has earned this facility the distinguished award of being a Contra Costa Green Business as well as being an officially certified ISO 14001 worksite. Toyota participates in Earth Day events and also sponsors and

participates in Public Lands Day event. Toyota donates giveaways to those important community events and also displays Hybrid vehicles to educate the general public. Toyota has made these recycling achievements by educating, reinforcing and creating a culture that builds on the Toyota concept of Kaizen, the practice of continuous improvement while further demonstrating their commitment to the environment through another business cornerstone, respect for humanity.

#### **Toyota Motor Sales - Headquarters Campus and Los Angeles Parts Distribution**

Toyota Motor Sales (TMS) U.S.A., Inc. is the marketing, sales, distribution, and customer service arm of Toyota, Lexus, and Scion in the United States. Established in 1957, TMS markets products and services through a network of more than 1,400 Toyota, Lexus, and Scion dealers. Across all aspects of business, Toyota operates under a Global Earth Charter that guides its environmental efforts and promotes comprehensive approaches to environmental challenges. The company is committed to producing affordable and energy-efficient vehicles by using methods that minimize their impact on the environment. TMS Headquarters Campus and Los Angeles Parts Distribution Center have reached the zero waste milestone and in Fiscal Year 2007, diverted over 2,800 tons of material from the landfill. This saved more than \$269,700 through disposal cost avoidance as well as paper and metal recycling revenue. As part of the larger Toyota North America operations, the TMS Returnable Packaging Program saved over 10.3 million pounds of wood, 3.4 million pounds of corrugate, and \$5.3 million last fiscal year through packaging reduction efforts. At Toyota, working to reduce environmental impact is part of "moving forward."

#### **Traditional Medicinals**

Traditional Medicinals is a socially responsible and environmentally conscious company, providing high-quality botanical products with a balance of responsible business practices as its guide. The company strives to create a positive, healthy and supportive working environment. Employees are encouraged to participate in community services and the company actively donates time, products and profits to charitable, environmental and educational non-profit organizations. Traditional Medicinals employees have made a commitment to the environment from the very beginning of the companies' formation in 1974. Product research and development coupled with their company mission, ensures that all new products as well as established product lines stay environmentally friendly. This mission is further amplified through company training, policies, and recycling programs. Company wide effort resulted in diverting approximately 17.5 tons of material away from the landfill last year. Because of their commitment, increased company savings were in excess of \$70,000.

#### **Trend Offset Printing Services, Inc.**

Trend Offset Printing Services, Inc. (Trend) is a national commercial lithographic printing company with both heat set and cold set printing capabilities at its three facilities which are located in California, Texas and Florida. Trend is involved in waste prevention, recovery, reuse and recycling activities and recycles virtually all of its waste such as used paper, shredded paper, paper trimmings, and used ink to name a few. It is estimated that Trend has diverted approximately 23,522 tons (47,044,478 lbs.) of waste from disposal during calendar year 2006. This has saved them an estimated \$ 2,478,266 in operating costs during calendar year 2006. Trend continuously strives to improve its waste reduction and recycling program and in so doing conserves earth's valuable resources.

### **Trinchero Family Estates**

Trinchero Family Estates is wholly owned and operated by the Trinchero family, Napa Valley Vintners since 1947. Trinchero Family Estates produces the wines of Trinchero, Sutter Home, Montevina, Trinity Oaks, Folie à Deux, Ménagement à Trois, Napa Cellars, the number one alcohol-removed wine, Fre, and imports Angove's, Reynolds Vineyards and Little Boomey wines of Australia. Trinchero Family Estates practices sustainable farming in the vineyards and innovative waste reduction at all of its winery facilities, including the reuse of 50,000,000 gallons of wastewater and composting of 24,000 tons of pomace and 1,000 tons of diatomaceous earth. This year, the winery changed out most of its lighting in all warehouses to use the energy efficient T-5 fluorescent light fixtures which gives better light and saves about two-thirds of the energy needed to power the lights.

### **U.S. Borax Inc. Boron Operations**

U.S. Borax is the leading world-wide provider of borate products, including Boric Acid. Borates are an important part of many products used every day, including detergents, glass, fiberglass, ceramics, and agricultural products. U.S. Borax is committed to creative and comprehensive waste reduction and recycling activities - examples of which include onsite recycling of borates as feedstock, pursuit of multiple reuse opportunities for oversized haul truck tires and recycling of oil-contaminated soils.

Years Awarded: 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1998, 1997, 1996, 1994

14486 Borax Rd  
Boron, CA 93516

### **VALCORE Recycling**

Valcore Recycling is a grassroots nonprofit recycling center founded in 1981 and managed by thirteen local organizations that earn funds by operating the donation and CRV buy back center. Office supplies are routinely salvaged to share with teachers and artists. Eighteen account groups earn bonus dollars when they recycle CRV drink containers through Valcore's "California Certified Buy Back" operation. The community diverted over 332 tons of materials by recycling at VALCORE. Additionally, Valcore organizes Vallejo's annual Earth Day event and Coastal Cleanup Day and conducts composting classes at their site. Their bi-weekly recycling/environmental column "A Sorted Affair" that appears in the Vallejo Times-Herald and on their web site [www.VALCORErecycling.org](http://www.VALCORErecycling.org)

### **Valle Verde Retirement Community**

At Valle Verde Retirement Community in Santa Barbara, they've found the answer to running a more environmental friendly business with a campus-wide green initiative. Started by Advisory Board members, residents, and the leadership team, Valle Verde's program enhances residents' quality of life and reduces the campus impact on the environment. Their initiative lowers energy and water consumption and produces photo-voltaic energy through solar panels on covered walkways that saves \$5,000 annually. It includes Built Green practices on campus remodels, native plantings and climate-based irrigation, industrial and materials recycling, electronic medical records in their Health Center, and alternative transportation programs for residents and employees. The program not only saves Valle Verde money and helps the environment; it is lauded by the greater Santa Barbara community and actually earns money by creating electricity - paying off initial startup costs. For more information on their approach and ideas visit [www.ValleVerdeSB.com](http://www.ValleVerdeSB.com).

### **Vallejo Chamber of Commerce**

The Vallejo Chamber of Commerce is a leader in the areas of economic development, political action, community promotion, and membership services. Through the resources and expertise of more than 700 members, the support of a professional staff and partnerships with many organizations, the chamber is positioned to play a strategic role that will improve the quality of life in Vallejo. Over the past year, The Vallejo Chamber of commerce diverted approximately 6.82 tons of materials from landfill disposal. The Chamber's most successful waste reduction was during December 2006, when the Vallejo Chamber of Commerce relocated offices. In the course of the relocation, the Chamber diverted nearly 1.75 tons of office supplies, materials and furniture by enlisting the help of VALCORE, Freecycle, and Chamber publications promoting reuse. The recycling efforts of the Vallejo Chamber's staff have diverted approximately 9 tons of waste destined for a landfill and saved over \$5,000 in operating expenses over the course of one year.

Years Awarded: 2007, 2005

Vallejo, CA 94590

#### **Vino Noceto**

Vino Noceto is a small, family operated vineyard, winery, and orchard in Shenandoah Valley in the Sierra Foothills. It has successfully addressed several of the highest waste and environmental impact opportunities in its operations. By-products of the vineyard and orchard management and winemaking processes are collected and returned to local vineyards and the Vino Noceto orchard. In excess of 58 tons are annually returned and worked into the soil; a practice that is agriculturally, economically, and environmentally sound. Disposal of these by-products through conventional methods would cost Vino Noceto at least \$7,000 annually, not inconsequential for a small business. This is in addition to a photovoltaic solar panel system that provides over 85% of the winery's electrical needs, thus saving Vino Noceto more than \$20,000 annually.

Years Awarded: 2007

11011 Shenandoah Rd  
Plymouth, CA 95669-9507

#### **Walser's**

WALSER'S is a family owned art materials, office supplies and digital products business, which has been in business for 32 years. WALSER'S has over 22,000 square feet of combined retail, imaging center, office and warehouse space. The most significant contribution WALSER'S has made to the community started in July of 2006 with the establishment of the facility as an authorized E-waste recycle collector. This expanded quickly to include appliances and metal recycling. The first year of recycle collection processed over 200,000 pounds of recyclable materials that were diverted from landfill disposal. Employees and customers have gone to great efforts to voluntarily bring in items from their homes and businesses to contribute to the program instead of disposing of them. The cost savings and added income to WALSER'S is estimated to be approximately \$18,000,000.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999

Torrance, CA 90505-4026

#### **Walter Claudio Salon Spa**

Walter Claudio Salon Spa, Inc. is a multi faceted beauty company that provides hair, skin and body services and products to its guests. As an environmentally conscious establishment, Walter Claudio has made two critical business alignments, one by partnering with Avedatm Corp. (publicly known as a "green" manufacturer) and an exclusive Avedatm Lifestyle Salon Spa, and secondly by adopting the Headmappingtm Program by Salon Operating Systems (S.O.S)tm. The Headmappingtm program is patent pending, developed by Walter Claudio Zungri, as a solution to his concerns and frustrations over industry waste and heartfelt drive to standardize the mode of operation as well as to produce a leaner and healthier business practices which will create more opportunities for future growth and sustainable business. These strategic alliances have furthered their cause of reducing waste, conserving resources and thus creating a sustainable profitable work place. Walter Claudio, has consistently lowered operating costs by over 5% annually over the past 3 years, saving an approx. 300 lbs. of product and over \$50,000 per year by utilizing the aid of such Headmappingtm tools as the Mixation Guidetm (precise product measuring for hair color services) as well successfully managing its waste by effectively applying a stringent recycling program to minimize waste to the landfills. The recycling program has effectively diverted over 80% waste from landfills to the communities recycling programs. Over 400 lbs. of hair color aluminum foil and over 500 lbs. of plastic retail containers have been recycled in a one year period of June 2005 to June 2006. Walter Claudio is committed to promoting, adhering and advancing sustainable business practices. It has been rewarded for its environmental efforts and business operations by receiving such accolades as the WRAP Award for 2005 and 2006 as well as 2007 Looking Good Santa Barbara Award for Recycling, GSBA Entrepreneurial Excellence Award 2006 as well as numerous press in beauty industry publications and the Santa Barbara Independent Weekly News press. Walter Claudio Salon Spa is a socially and environmentally responsible organization committed to leading the way in making the beauty industry an efficient, sustainable and profitable force in the world of business.

Years Awarded: 2007, 2006, 2005

Santa Barbara, CA 93101

#### **Wild Birds Unlimited**

Wild Birds Unlimited in Torrance, CA, is a retail business that is part of a national franchise (Wild Birds Unlimited, Inc.) specializing in the hobbies of bird watching and back yard bird feeding. Bob Shanman, the store owner, has been a birdwatcher since 1977, and has been recycling since about 1981. In 2001, he was awarded the franchise's top environmental award as the Wild Birds Unlimited "Friend to the Environment." In 2003, he was honored with the system's highest award, the "Franchisee Honor Award." Shortly after opening in 1995, Wild Birds Unlimited selected South Bay Wildlife Rehab, a local non-profit group that takes care of sick and injured wildlife in the area, as the charitable organization it would support. From 2001 through 2006, about \$29,000 was raised for the group. Annually, about \$1000 of this comes from the store's recycling efforts. In 2005 and 2006, about 20 tons of cardboard, paper, glass, plastics and aluminum were recycled for cash. The store saves and reuses shipping and packing material from suppliers, or recycles what it cannot use. In 12 years, the store has essentially refrained from purchasing packing supplies. The estimated savings in 2006 was about \$1200. Unused packing peanuts and plastic bubble wrap are given to The Postal Mart for reuse in their operations, (along with similar materials supplied by Great Earth Vitamins-an arrangement set up 9 years ago by Wild Birds

Unlimited). The store also takes boxes from Great Earth for reuse as shipping cartons, and recycles Great Earth's waste cardboard. Several other stores contribute to this recycling stream, along with materials brought in by customers. Mr Shanman also seeks out products for the store that have recycled content, and also tries to buy recycled content material for office supplies. Recycle - it's good for the can, it's good for the bottle, AND it's good for wildlife.

### **Zoological Society of San Diego**

The Zoological Society of San Diego (ZSSD), dedicated to the conservation of endangered species and their habitats, manages the 100-acre San Diego Zoo, and the 1,800-acre San Diego Zoo's Wild Animal Park (more than half of which has been set aside as protected native species habitat). Currently the ZSSD exceeds the State-mandated 50 percent waste diversion goal, set by the Integrated Waste Management Act of 1989, with an approximate diversion rate of 70%. The ZSSD diverts 19 tons of animal waste and .75 tons of green materials from landfills every single day, as well as annually diverting nearly 240 tons of glass, plastic, paper and cardboard through recycling programs, resulting in an estimated \$320,652.72 savings. The Wild Animal Park operates a waste-water treatment plant that annually produces more than 22 million gallons of treated effluent which is used for landscape irrigation in the large animal enclosures. Many ZSSD employees take part in a vanpool program that resulted in a reduction of more than 45,000 gallons of fuel last year. The ZSSD is committed to environmental leadership and conservation.

Years Awarded: 2010, 2009, 2007, 2006, 2005, 2004, 2002, 2000, 1999, 1998, 1996
