

Waste Reduction Awards Program (WRAP)

WRAP Winners Listing for 1995

The Waste Reduction Awards Program (WRAP) was administered by CalRecycle (formerly the California Integrated Waste Management Board) from 1993-2011. WRAP provided an opportunity for California businesses and nonprofit organizations to gain public recognition for their outstanding waste reduction efforts and lets the community know the business takes waste reduction seriously. WRAP evaluated the waste reduction, procurement, and education activities in the internal business practices of the applicant, not its services or products.

WRAP Winners Statewide during 1995

3M ESPE Dental Products

3M Dental Products Division, a business unit of 3M, is a manufacturer with corporate offices in St. Paul, Minnesota. The division manufactures and markets more than 600 products for use by dentists and dental laboratories around the world including a broad line of restorative and crown and bridge materials (resin composite materials, dental adhesive products, pit and fissure sealants, finishing and polishing systems, temporary crowns, core build up, and impressioning products) and infection control products. 3M Dental Products Division strives to reduce the environmental impact of its products and processes by eliminating the use of chlorofluorocarbons from all products in 1991, working towards goals which aim to reduce waste and energy use, improving packaging (all of which are now recyclable), and working to design products that are recyclable.

Years Awarded: 2004, 1998, 1995, 1994

2111 McGaw Ave
Irvine, CA 92614

A McGary

A. McGary, LLC, brokers shipping supplies and cardboard shipping boxes, specializing in misprint and used cartons. A. McGary, LLC, removes reusable boxes from the recycling stream for the purpose of gaining more usages for the product. One hundred percent of the products we sell are sold to companies instead of recycling. This saves money for the end user, and saves raw materials in the repulping process. A recycling company supplies a bin for all corrugated scrap that cannot be used and pays for the scrap, so zero waste is generated.

Years Awarded: 1995

1500 W El Camino Ste 203
Sacramento, CA 95833

A New Moon Cafe

A New Moon Cafe is an organic vegetarian restaurant specializing in local, creative cuisine. The restaurant has won an award from the "4 R Town" (Reduce, Reuse, Recycle, Restore) San Anselmo Business Association. With sound business practices, the restaurant purchases most items in bulk, recycles every item possible, composts food wastes, and purchases items such as paper towels that are made from post consumer recycled material. These sound practices have saved over \$15,000 for many reasons, from fewer trash pick ups to reduced costs resulting from purchasing bulk products.

Years Awarded: 1995

San Anselmo, CA 94960

AB&I Foundry

Profile not available.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1995, 1994

7825 San Leandro St
Oakland, CA 94621-2515

Advanced BioTech LLC

Modern biotechnology is used by Advanced BioTech, Inc. to create the most progressive products in the world for resolving industrial, environmental, and agricultural challenges. The firm helps numerous companies reduce their wastestream sent to landfills through composting and wastewater sludge decomposition. Also, bioremediation, the use of microbiology to convert many hazardous wastes into safer compounds, has eliminated the hauling of contaminants to landfills. An in house recycling program of product containers has saved Advance BioTech approximately 14% in new packaging costs.

Years Awarded: 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

8244 W Hillsdale Ct
Visalia, CA 93729-9489

Advanced Micro Devices, Inc.

Advanced Micro Devices produces microprocessors and related peripherals, memories, programmable logic devices and circuits for telecommunications and networking applications. Whenever possible AMD donates surplus equipment, software and supplies to non profit organizations, schools, churches and government agencies and programs. AMD's estimated a savings of six million dollars by reusing test wafers. Through recycling, reuse and donations, AMD reduced the cost of trash pick ups by 16% and generated \$21,987 in 1994.

Years Awarded: 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

One AMD Place, MS 5
Sunnyvale, CA 94088-3453

Aerojet - Sacramento Operations

Aerojet is a major aerospace/defense contractor specializing in rocket propulsion systems, space sensor systems, and smart munitions. Aerojet's Waste Reduction Program has saved not only 1,380 cubic yards of municipal landfill space, but also 6,800 trees. Aerojet recycles the scarce, expensive and difficult to manufacture Minuteman Stage 2 titanium rocket motor case. Aerojet Sacramento Operation employees have recycled 400 tons of paper over the last 45 months, resulting in a savings of \$43,000.

Years Awarded: 2011, 1998, 1997, 1996, 1995, 1994

PO Box 13222
Sacramento, CA 95813-3222

Agilent Technologies California Avenue Site

Hewlett Packard Bay Analytical Operations conducts research, development, and manufacturing of analytical chemical system and software development for lab network server systems. HP BAO donates excess and by product materials to the RAFT (Resource Area For Teachers) program in San Jose and donates aluminum cans and bottles to Castano middle school in East Palo Alto to help support their Science Program. HP BAO's waste reduction program has reduced the volume of waste disposal from 216 cubic yards per month to 112, creating a hauling cost savings of \$1,793 per month. To date in 1995 HPBAO received \$7,300 for recyclables.

Years Awarded: 2001, 2000, 1999, 1998, 1997, 1996, 1995

1601 California Ave
Palo Alto, CA 94304

All Laser Service

All Laser Service repairs laser printers and remanufactures toner cartridges, inkjet cartridges, OPC drums and other laser printer supplies. Customer savings through waste reduction is a major focus with emphasis on reusing rather than discarding. Nearly all parts and packing materials in All Laser Service products are reused or recycled. Each remanufactured toner cartridge represents as much as five pounds of non biodegradable waste diverted from landfills and provides as much as a 50% cost savings to the end user.

Years Awarded: 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

1168 Aster Ave Ste N
Sunnyvale, CA 94086-6856

Allergan, Inc.

Allergan is a global provider of specialty therapeutic products headquartered in Irvine, California. Allergan participates in a number of recycling efforts, ranging from paper and plastic to the ink toner cartridges used in computer printers and copiers. Allergan also recycles materials from its research labs and donates excess chemicals to local high schools for their chemistry classes. Currently, Allergan recycles more than 100 tons of paper per year at its three locations in Irvine.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

2525 Dupont Dr
Irvine, CA 92612

AlliedSignal - AES, Torrance

AlliedSignal, Aerospace Equipment Systems, manufactures aerospace components. In 1994 AlliedSignal in Torrance diverted over 110 net tons of waste from landfills with an aggressive recycling program. This was achieved by working to reduce manufacturing scrap and by collecting and recycling various materials. This effort resulted in waste hauling and disposal cost reductions and salvage yard sales of almost \$300,000.

Years Awarded: 1995

2525 West 190th St
Torrance, CA 90504

Ameritec Corporation

Ameritec Corporation is a designer and manufacturer of electronic test equipment supplied to the telecommunications industry. To help reduce waste, surplus/scrap circuit boards and components are donated to local trade & adult schools for use in training programs. In addition, packing materials such as "peanuts" and bubble wrap received by the company are reused in their shipping process. Surplus material is given to offices of "Mail Boxes Etc" for reuse. Waste reduction and recycling programs have allowed Ameritec to reduce the number of trash pick ups from five to three weekly.

Years Awarded: 1995

760 Arrow Grand Circle
Covina, CA 91722

Anaheim Memorial Hospital

Anaheim Memorial Hospital is a progressive nonprofit health care organization whose purpose is to provide accessible, quality, cost effective health care services which meet the needs of the community. Anaheim Memorial developed its own program to encourage each employee to separate recyclable waste at their desk and be "EarthAware" in all areas. Anaheim Memorial is the first hospital to fully implement OREX, an innovative waste management system that reduces landfill waste through liquification. Reduction of AMH's landfill waste by 50% saves \$26,700 per year and \$22,000 is generated by recycling redemption.

Years Awarded: 1995

1111 W. La Palma Ave
Anaheim, CA 92801

Anheuser-Busch InBev - Los Angeles Brewery

The Anheuser Busch Los Angeles Brewery, located in Van Nuys, California, is the worlds third largest brewery, and manufactures and packages malt beverages. Recently a new targeted effort by the plant's Environmental Team has resulted in over 50% reduction in solid waste to landfill in the first half of 1995. The team used video tapes of its trash dumpster contents to educate employees in waste reduction and recycling opportunities.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2006, 2005, 2004, 2002, 1998, 1995, 1994, 1993

3101 Busch Drive
Fairfield, CA 94534

Apple Computer

Profile not available.

Years Awarded: 1995

20450 Stevens Creek Blvd
Cupertino, CA 95014

Apple, Inc.

Apple Computer, Inc. assembles and distributes computers. The major part of their waste reduction effort is in the recycling of manufacturing wastes like plastics, wood and cardboard. These materials are reprocessed into carpet pads, pallets, and paperboard, and some materials are given free of charge to start up businesses in the area. Apple reduced their disposal costs by 50%, and the number of hauls to the landfill by 50% last year.

Years Awarded: 2011, 2010, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

2511 Laguna Blvd
Elk Grove, CA 95758

Arrow Garage Doors

Arrow Garage Doors installs and removes garage doors. They have a comprehensive recycling program where wood doors are used to build homes in Mexico and metal doors are disassembled and recycled. They recycle approximately 180 doors per week and save \$170 per month in disposal fees.

Years Awarded: 1995

617 E Main St Box H
San Jacinto, CA 92583

Art From Scrap

Art From Scrap (AFS) is a non profit environmental education/materials exchange programs committed to promoting a greater

understanding of conservation and reuse of discarded materials through hands on activities. What makes Art From Scrap so unique is its focus on collaboration rather than competition between agencies to bring people together to work for a common goal, waste reduction. The program's business and community outreach give people and organizations an opportunity to be creative and inventive in their development of original thinking and problem solving skills. Art From Scrap is responding to the problem of tightening school budgets by providing affordable materials and education opportunities that enhance the existing curriculum. Years Awarded: 1998, 1996, 1995, 1994

302 E Cota St
Santa Barbara, CA 93101

Autronics Corp.

Autotronics Corporation is an electronics fabrication facility, designing and manufacturing high reliability equipment for the military and aerospace markets. Through employee training and involvement, Autotronics has been able to reduce its consumable paper procurement significantly. The waste reduction program implementation has enabled them to go from two trash pick ups a week to one and endure the additional costs of the City of Arcadia imposed recycling program while realizing a yearly savings of approximately 30% over previous years. Years Awarded: 1995

314 E Live Oak Ave
Arcadia, CA 91006

Autry National Center

The Gene Autry Western Heritage Museum is the largest museum in the nation devoted exclusively to the history of the American West. The history is depicted through multi media exhibits, fine arts, artifacts, participatory exhibits, and educational programming. The museum's extensive recycling program covers such unique items as trees, use of recycled water for irrigation and landscaping. All items that could possibly be recycled are recycled by the museum staff and volunteers. The museum's waste reduction program has enabled it to reduce its weekly trash pick up from five times a week to just one, a large savings for the museum. Money raised from recycling its cans, bottles, etc. is used to fund the museum's employee recreation program. Years Awarded: 2011, 2010, 1999, 1998, 1997, 1996, 1995, 1994, 1993

4700 Western Heritage Way
Los Angeles, CA 90027-1462

B. Braun Medical Inc.

McGaw, Inc., is a leading supplier of products and services used in intravenous therapy, IV sets and solutions. Through the use of a simple analysis process McGaw has been able to increase its recycled materials from 36% to 71% in 4 years. They have accomplished this without adding any personnel or expensive machinery. The cost savings in hauling and landfill fees and money earned from recycling were extraordinary and not only made the reclamation process less costly, but profitable. Years Awarded: 2011, 2009, 2006, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

2525 McGaw Ave
Irvine, CA 92807

Bank America - Scripps Ranch

BankAmerica Scripps Ranch is comprised of four major business groups Security Pacific Financial Services, BankAmerica Business Credit, BankAmerica Housing Services, and BankAmerica Insurance Group. The formal waste management program began in the fall of 1992 with white and computer paper, expanding over the years to include cardboard, newspaper, magazines, mixed office paper, and laser/copier cartridges. Approximately 60% of generated waste is diverted through recycling activity. The program has estimate annual results of \$5,200 waste fee savings, \$4,200 in revenue, and \$8,800 savings from the purchase of recycled laser printer cartridges. Years Awarded: 1996, 1995, 1994, 1993

10089 Willow Creek Rd
San Diego, CA 92131

Bank of America's National Recycling & Source Reduction Program

Bank of America is one of the largest financial institutions in the country. Last year, Bank of America recycled 12,833 tons of paper in western U.S. and reduced purchases of computer and photocopy paper by up to 18%. Nearly all paper forms purchased in California contain at least 10% post consumer recycled product and 43% of the dollars the bank spent on consumable items was spent on recycled goods. In addition to earning revenue from the sale of recyclable paper, Bank of America is seeing cost savings in the purchase of less paper and decreased trash hauling costs. Years Awarded: 2000, 1998, 1997, 1996, 1995

6933 Preston Ave
Livermore, CA 94550

Barkoff Container & Supply Co.

Barkoff Container and Supply Company, a third generation family business since 1928 is a distributor of packaging materials and janitorial supplies. The company holds seminars on the premises on a regular basis for employees and encourages the sales force to actively sell environmentally friendly efficient packaging made from recycled and postconsumer products.

Years Awarded: 2002, 2000, 1999, 1998, 1997, 1996, 1995, 1994

26599 Corporate Ave
Hayward, CA 94545-3920

Baxter BioScience

Baxter Biotech, Hyland Division at Hayward manufactures monoclonal antibodies for research studies and as intermediates for commercial products. Tyvek jumpsuits are used in the manufacturing area. A vendor was found to purchase the suits, launder them, and sell them to workers in the petroleum industry.

Years Awarded: 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1993

1978 W Winton Ave
Hayward, CA 94545

Baxter Healthcare Corporation - Novacor Division

Baxter's Novacor division manufactures mechanical heart pumps. These devices assist patients with chronic heart problems. Novacor recycles 50% of the waste generated. Novacor has strong employee involvement with their recycling program and is always looking for new technologies and industries that may be able to provide assistance in increasing the recycling rate beyond 50%.

Beaulieu Vineyard

Beaulieu Vineyard has been in the premium wine business since 1900 and produces approximately 500,000 cases annually. They received the WRAP award for the past two years and strive to continually improve their recycling efforts. Beaulieu is also proud of their involvement with other wineries, Upper Valley Disposal Service, Oakland Paper Company, and of the James River Corporation for their participation in the pilot program in Napa Valley to recycle stretchfilm. This past year BV reduced their trash pickup and generated approximately \$4,700 net income from their recycling efforts.

Years Awarded: 2011, 2010, 2009, 2008, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

BioWorld Products Inc.

Profile not available.

Years Awarded: 2011, 2005, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

8244 W Hillside Ct
Visalia, CA 93291-9489

Buena Vista Winery, Inc.

Buena Vista Winery, Inc. produces and bottles premium wines. In order to reduce the amount of cardboard sent for recycling, Buena Vista has worked closely with their suppliers to produce boxes that can be shipped back to the supplier for reuse. Buena Vista also has an ongoing employee education program that highlights current as well as new recycling policies. Buena Vista's waste reduction and recycling program has decreased the use of additional general waste containers, greatly reducing the cost of its waste hauling.

Years Awarded: 1996, 1995, 1994, 1993

18000 Old Winery Road
Sonoma, CA 95476

CaCo Pacific Corporation

Caco Pacific Corporation is an employee owned, precision injection mold manufacturer. During the manufacture of molds, many parts are molded during testing. These molded parts are ground up and sold to Recycling Centers. As with many manufacturing facilities tons of paper are generated each year; all non food waste paper is collected, sorted and then sold to recycling centers. Caco Pacific Recycling Program has reduced trash disposal costs by 60%, while generating an annual revenue of over \$6000.

Years Awarded: 1995

813 N Cummings Rd
Covina, CA 91724

Cal Poly Corporation, Campus Dining

Cal Poly Campus Dining provides for the dining needs of its 17,000 students, faculty and staff. Together with students, the recycling program was developed with questioning, researching, and continuing to use foam cups versus paper. Subsequently, they began recycling foam, tin, glass, cardboard, along with the aluminum that was already being collected. Campus Dining is balancing cost savings from a 38% reduction in their waste stream with the purchasing of recycled products to help create demand and eventually drive prices down.

Years Awarded: 2009, 2008, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

Dining Hall Receiving Dock
San Luis Obispo, CA 93407-0466

California Cedar Products Company

California Cedar Products manufactures pencil slats and duraflame firelogs. Cal Cedar has for the last five years reduced the amount of waste that may have gone to the landfill by over 60%. By interacting with our suppliers we have strived to reduce waste in packaging, convincing one supplier to begin using returnable reusable drums. With reduction of trash bins sent to landfills and revenue generated from sales of recyclables Cal Cedar has recognized more than \$30,000 savings per year.

Years Awarded: 2002, 2000, 1999, 1998, 1997, 1996, 1995, 1993

400 Fresno Ave
Stockton, CA 95203

Candescent Technologies Corporation

Silicon Video Corporation is a start up company working on bringing to the market a "thin CRT", a new type of flat panel display. Silicon Video has made a commitment to reuse and recycle most of its office products, such as paper, toner cartridges and envelopes. The company has also reduced waste by providing fountain drinks and mugs instead of can dispensers and paper cups. SVC has realized a significant cost savings as a result of these activities

Years Awarded: 1995, 1994

16400 Lark Ave
Los Gatos, CA 95032-2563

Cast Art Industries

Cast Art Industries, Inc., manufactures and distributes collectible figurines to the giftware industry. The company ships more than 25,000 units daily, each in a chipboard gift box and consolidated in corrugated master pack boxes, all of which are manufactured from recycled materials and custom designed for maximum efficiency. Cast Art also shreds used corrugated materials for use as carton filling material to replace styrofoam "bullets". These programs have cut trash pick ups and associated costs by an estimated 40%.

Years Awarded: 1996, 1995

1120 California Ave
Corona, CA 91719

Castle Management dba Round Table Pizza

Castle Management operates a family oriented casual dining restaurant serving Round Table Pizza. Their waste reduction activities are integrated into all aspects of their business and community involvement activities. Over 95% of their recyclable materials are stored and recycled even though this location has very limited floor space. Trash pick ups have been reduced from three times per week to twice, saving the restaurant over \$1,000 their first year and \$1900 in 1995 when disposal rates increased by 37%.

Years Awarded: 1996, 1995, 1994

154 West Stockton Rd
Sonoma, CA 95370

Chateau St. Jean Winery

Chateau St. Jean has been crafting fine wines in Sonoma Valley since its founding in 1974. Recycling at Chateau St. Jean began as a "grass roots movement", since embraced by management. Now, virtually all waste products from the vineyard, winemaking and bottling processes are reused or recycled. In addition to savings from the reduced number of dumpsters required for waste, St. Jean is now able to realize rebates for scrap tin, cardboard, glass and some plastic packaging.

Years Awarded: 1995

Kenwood, CA 95452

Chevron El Segundo Refinery

Since 1911, the Chevron El Segundo Refinery has been producing a variety of petroleum products, which today includes gasoline, jet fuel and diesel. Initiating a recycling program at the Refinery was a unique challenge in that our business is a 24 hour operation and 1,400 employees are spread out over 1.5 square miles. The Refinery Recycle Team was formed in 1990 to address this challenge. The efforts of the Team and the enthusiastic participation of employees has increased the diversion rate from 3% in 1990 to almost 45% today.

Years Awarded: 2011, 2010, 2009, 2008, 2007, 2005, 2004, 2003, 2002, 2001, 2000, 1998, 1997, 1996, 1995, 1994

324 W El Segundo Blvd

City Farmers Nursery

City Farmers Nursery is a retail nursery in the heart of the City of San Diego, which also specializes in trees work and landscaping. Major programs at the Nursery is a complete green waste, container and soil recycling program which takes these materials and uses them for weed control, feeding and maintenance of a mid city petting farm, demonstration garden and materials for school programs. One other is City Farmers Nursery's ability to re use tires, cable spools and old crushed gravel for creating displays for products sold at the retail store. City Farmers and its neighbors have three 5 cubic yard dumpsters weekly to one 3 cubic yard dumpster weekly at a savings of \$2,100 annually and a feed bill from \$200/month to \$80/month, with labor savings from weed control from a 4 day a week project to a 1 day a week, with the invaluable recycling program.

Years Awarded: 1998, 1996, 1995

4832 Home Ave
San Diego, CA 92105

Co-Opportunity-Santa Monica's Homegrown Natural Food Grocer

Co Opportunity is a full service natural food store specializing in gourmet/organic produce, vitamins and supplements, natural body care products, macrobiotics, bulk foods, herbs and environmentally friendly products. Every time a customer saves a bag by bringing their own or not using one, Co Opportunity donates three cents to Heal the Bay, thus saving a tree and helping to clean up the bay. For each day an employee comes to work by means other than automobile, they are paid \$1.00. Saving bags, helping to prevent pollution, plus the 750 lbs. of cardboard compacted and taken away 2 3 times a week for recycling are huge contributions in terms of waste reduction.

Years Awarded: 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994

1525 Broadway
Santa Monica, CA 90404

Conservation Corps North Bay

The Marin Conservation Corps (MCC) trains youth ages 18 26 in highly technical environmental and conservation skills which they in turn use to protect and preserve Marin County's natural resources. Corpsmembers operate an extensive recycling route which covers 50 stops throughout Marin. In addition, corpsmembers developed and implemented a Waste Reduction Program that taught more than 1,500 middle school students the importance of Reducing, Reusing, and Recycling. Marin Conservation Corps' dedication to waste reduction and recycling save the organization approximately \$23,000 over the past year.

Years Awarded: 2011, 2010, 2009, 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

27 Larkspur St
San Rafael, CA 94949

Construction Specialties, "Calif.", Inc.

The Calif Branch of Construction Specialties, Inc. manufactures UL approved architectural products for total Wall Protection Systems and includes wall panels and liners, handrails, cashrails, door and doorframe protection with hospitals being the primary customer. The most unique program of Construction Specialties was to form a relationship with a company that could successfully recycle C/S extruded PVC scrap (with Trade secret physical properties) into their product. In turn, their product is in part used to extract methane gas from landfills for recycling. Through its recycling and waste reduction programs, Construction Specialties contributes 50 60 tons less waste to local landfills annually and benefits with an increased cashflow a win/win situation.

Years Awarded: 1995

DNC Parks & Resorts at Yosemite

Yosemite Concessions Services Corporation operated concession facilities in Yosemite National Park. Our waste reduction program was implemented in 1974, since then we have included 26 different materials to our recycling program, along with composting organic materials. Yosemite Concessions Services achievement is particularly notable in that we now recycle over 25% and divert over 50% of solid waste generated by its facilities. YCS waste reduction programs have saved us approximately \$165,000 annually

and 153,043 cubic yards of landfill space over the program's 21 years in existence.

Years Awarded: 2007, 2006, 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995, 1994, 1993

Hewlett-Packard Company - Cupertino Site

Hewlett Packard's Cupertino Site is a R&D and Software development center. The Cupertino site's goal is to reduce the volume of solid waste produced by carefully using, reusing and recycling. To minimize the amount of waste, the site's recycling programs have grown from five to 13 in the past two years. With the development of these programs the site has diverted 60% of its waste, with a yearly saving of \$200,000.

Years Awarded: 1999, 1998, 1997, 1995

Hexacomb Corporation

Hexacomb Corporation is in the unique and innovative business of converting Kraft paper into honeycomb core used for structural applications, damage prevention and design to order original packaging. Hexacomb's product starts with Kraft paper that in itself contains post consumer waste ranging from 25% to 100% recyclable in content. Producing finished goods for a variety of industries that are 100% recyclable not only helps customers in their waste reduction efforts, but it makes Hexacomb's business truly environmentally friendly as there is virtually no landfill waste produced by the manufacturing process. Through the process of continuous improvement in equipment and manufacturing operations, Hexacomb's waste reduction program was able to save over 100 tons of new paper usage that generated over \$50,000 in related savings.

Santa Fe Springs, CA 90670

Hillside Press

Hillside Press is L.A.'s Environmental Printer, using recycled papers and conveniently located in the beautiful Palos Verdes Peninsula. Hillside Press donates all of their surplus and unused paper to local recycling groups in an effort to promote public awareness and the manufacture of postconsumer products. Recently, the sister team at Hillside Press purchased and installed three new Minolta copiers which use recycled paper. Hillside Press has seen their recycling efforts pay off during the summer of 1995, when the cost of purchasing recycled 20 lb. paper dropped below that of nonrecycled paper, thus enabling Hillside Press to use recycled 20 lb. paper in their new products and in their offset printing operations.

Mow-N-Edge Corp.

The Green Group of landscape service companies, Mow N Edge division, provides landscape services to customers such as shopping centers, restaurants, banks, homeowners associations, government agencies, and residential customers. Mow N Edge operations generate a significant amount of yard waste such as grass clippings, prunings, and tree limbs. 100% of all yard waste is recycled by composting. The composted materials are then either taken back to the job site as soil amendment or used for potting plants in the nursery division. Mow N Edge employees collect numerous cans, bottles and paper trash when cleaning up job sites. These materials are sorted and sent to the recycling station. Mow N Edge's waste reduction and recycling program has saved the company \$17,500 annually in disposal costs and reduced its cost of soil amendment and potting soil by another \$12,500. Green Group president Micheal McKinney stated, "The cost reductions provided by our recycling activities are passed back to our customer as lower prices. If the public understood how valuable yard waste is as landscape resource they wouldn't put it out for pick up or allow their gardeners to haul it away to landfill."

Stockton, CA 95202-0334

PALCO

The Pacific Lumber Company produces high quality redwood and Douglas fir lumber. The wood waste that is produced is used to generate steam and electricity to power the town of Scotia. The ash bi-product from the cogeneration process is applied to local agricultural fields and will also be used, along with wood waste and fish waste, in a new wood waste recovery and composting facility. The use of ash, wood waste, and fish waste will produce an organic soil amendment, save landfill space, and save money for local fish processors who are now transporting that waste to the Sacramento area.

Pinkerton

Pinkerton Security & Investigation Services, the world's largest and best known supplier of total asset protection solutions, has an extensive, company wide recycling program. Our world headquarters facility alone has successfully recycled more than 7,000 lbs. of paper and has significantly reduced usage of other resources, including electricity and water. However, Pinkerton's recycling efforts do not end with these usual resources additionally, we donate outdated security officer uniforms to charities or homeless organizations which can put the clothing to good use. We estimate that our environmentally conscious efforts have save 10 cubic

yards in landfill space, 166 trees, 22,000 gallons of water, and 14 megawatt hours of electricity.

Plaza Camino Real

Plaza Camino Real is a Super Regional Shopping center covering 93 acres, with 150 merchants, 5 major Department Stores, and some 2,100 employees. The Mall became the first major Center in Southern California to recycle 100% of the potential reusable items out of its waste stream. In April of 1995, Plaza Camino Real began recycling plastic materials. During the first year of the recycling program, Plaza Camino Real reduced the volume of its waste stream by 51%, thus effecting a savings of over \$20,000 for the Center, its merchants, and customers.

Pomo Campground

Pomo RV Park and Campground has over 100 camping sites which cater to families, fishermen and tourists visiting the Mendocino coastline in Northern California. Our most distinctive recycling feature is the attempt to also educate children and families in the value of waste reduction and recycling. This October we will cooperate with the County to sponsor a family/school campout which will focus on recycling and where we will demonstrate our efforts. While the cost saving is not substantial, it is sufficient to make us want to continue our efforts. We believe the consistency of our expectations will, over time, become a regular pattern for those camping with us a lesson well learned.

Power Logistics

Kraft Foods (Oscar Meyer Division), is the nation's leading manufacturer of packaged luncheon meats, hot dogs and bacon. Power Logistics, Krafts, Distribution Center in Stockton ships to other distribution centers and direct to customers. Kraft Foods/Power implemented a recycling program for paper and cardboard last year, and now have expanded their program to include stretchwrap. They also have shipped test loads of product without the corrugated reinforcement inside their cases to see if the reinforcements could be eliminated without damaging their product. The test were successful, and the amount of packaging waste has also been minimized. This has enabled the company to reduce its trash pick ups from two to three times per week to once per week, saving approximately \$2,400 annually.

Santa Cruz Seaside Company

The Santa Cruz Seaside Company is a private corporation which is dedicated to providing quality entertainment, recreation and lodging through its holdings (including the Santa Cruz Beach Boardwalk amusement park). The Seaside Company has made a number of efforts toward recycling and waste reduction, but one 1989 decision which was particularly well received was a companywide ban on non recyclable polystyrene products, a decision applauded both by the public and in the media. Perhaps the company's largest and most significant single project is its ongoing recycling program, including recycling over 300,000 pounds of cardboard annually. Recycling and reusing materials, reclaiming water and reducing the use of materials are all part of the Santa Cruz Seaside Company's "larger picture" attitude, in which waste reduction represents a means to control cost and look to the future for greater efficiency both ecologically and monetarily.

Scientific Certification Systems

Scientific Certification Systems (SCS) is the oldest and largest US based independent environmental organization conducting: evaluation and certification of environmental claims (recycled content, biodegradability, no detected pesticide residues, etc); and Life Cycle Assessment evaluating production process, materials options, disposal methods, and issuing certified Eco Profiles of products. NutriClean, the SCS pesticide residue testing program, has reduced the number of chemicals required to draw pesticides out of produce for analysis by at least one third over the last six years. Additionally, while NutriClean previously purchased 600 styrofoam coolers per year to transport produce, the program has reduced cooler purchases to 200 per year by introducing reusable hard plastic coolers. Because SCS performs 6,500 individual lab tests annually, these reductions have translated into a savings of approximately \$40,000.

Tension Envelope

TransCoast Envelope manufactures, prints and sells envelope to the end user. TransCoast Envelope collects and separates all waste papers into various grades for cost containment and ease of recycling. TransCoast utilizes production waste for start up procedures in lieu of using virgin material that would ultimately enter the waste stream. TransCoast Envelope has obtained a new compactor for dry waste that is sorted by a waste contractor for recycling, saving \$18,000 annually.

Years Awarded: 1995

Oakland, CA 94614

Terra Pax Incorporated

TerraPax manufactures the worlds first 'organic' briefcases, shoulder bags and backpack from earth sustainable materials such as linen, brass, wool, and wood. To completely eliminate waste from their production facility, TerraPax uses only materials that are either food for microorganisms (compostable), or primary materials for other industries. TerraPax has no garbage because all waste is either returned to the earth as biomass through composting, or is used by companies to make their products. TerraPax has saved thousands of dollars in waste disposal costs, and has reduced the hidden costs associated with using nonrenewable, petrochemical materials which are subsidized by our environment.

Texaco E&P - Bakersfield Producing Division

Texaco BD is the second largest oil producer in the state of California, producing 84,000 barrels of oil per day. The waste reduction highlight of 1995 has been the outstanding success of Texaco's Remodeling Project, in which building materials were donated to nonprofit organizations in the community which were able to reuse the materials. Texaco also participated in many waste reduction events with both private and government agencies that promote less waste, such as the City of Bakersfield's Graffiti Paint Out Program, Bakersfield City Schools' Recycling Program, Bakersfield Senior Center, Kern County Museum remodeling project, and Kern County Waste Expo. Texaco's recycling effort for 1995 resulted in a reduction of 6.0% in hauling costs, saved the division and additional \$3,000/yr. by decreasing the number of dumpsters. Last year a reduction of 32% in the Division's waste hauling cost brought the Division to a 38% cost reduction in just 19 months.

The Farmery

The Farmery has initiated a comprehensive waste management program which includes recycling of paper, glass, aluminum, cardboard, packing material, and magazines. The company is also working with its customers to compost their vegetative waste on the farm, and utilize worm bins for its office staff's kitchen scraps. A key component of the waste management program is procurement; it is looking for ways to reduce, reuse and purchase environmentally safe products. As a result of the company's waste reduction/recycling efforts, its total recyclable waste has dropped over 30%. It has diverted five tons of material from the landfill for a savings of over three hundred dollars.

Years Awarded: 1995

875 River Rd
Fulton, CA 95439

The Harrod Development Company

The Harrod Development Company develops land throughout Monterey County. Harrod has drastically reduced the amount of trash going to landfills by making all leftover lumber and other products available to the public free of charge, and it has been a great success. Leftover or unused paints are taken to the Marina Landfill Recycling Center, where it is categorized, labeled, and available to the public free of charge. Since lumber used to make up the majority of waste they were putting into dumpsters, their efforts have resulted in huge cost savings in waste disposal.

The Westin San Francisco Airport

The Westin Hotel, SF Airport, is a leader in the hotel industry in San Mateo County. The hotel maintains an Environmental Committee comprised of employees from every department. This committee has written a comprehensive Environmental Plan for the hotel and has implemented most of the objectives of the plan. One of the tactics implemented, which saves the hotel \$800 per year and reduces the amount of plastics used, is the use of old pillowcases from the Housekeeping Dept. as laundry bags for employee laundry and dry cleaning.

Thomas Lighting, Accent Division

Capri Lighting, a subsidiary of Thomas Industries, manufactures recessed architectural downlights and track lighting for commercial and industrial applications. By carefully analyzing waste streams, opportunities to reduce, reuse and recycle waste are easily recognized and implemented at all levels of the company down to the use of rechargeable batteries. Capri Lighting recycles 78% of its solid waste and, by utilizing the City of Commerce Waste to Energy facility, makes zero contribution to landfill. Through the sale of recyclables, Capri will recover over \$16,000 and avoid \$23,700 in disposal fees in 1995.

Trips for Kids and the Re-Cyclery

Trips for Kids/Re Cyclery is a non profit volunteer organization that provides mountain bike outings, environmental education and bicycle maintenance training for low income youth. They have been so successful at reuse and recycling that they have almost no waste going to the landfill. Trips for Kids/Re Cyclery also teaches the children they train on the value of recycling. They opened their bicycle thrift store in August 1994 and have generated very little waste since opening.

Years Awarded: 2005, 2004, 2003, 2002, 2001, 2000, 1999, 1998, 1997, 1996, 1995

Unilever Best Foods North America Lipton Santa Cruz Plant

Thomas J Lipton Company is a food manufacturer who packages black, green and herbal tea and processes a dried fruit snack product. Lipton's biggest recycling accomplishment is finding a recycle broker to take 40,000 pounds/month of a fruit soiled LDPE film in Hong Kong and actually receiving a revenue for a typically non recyclable material. The company also reduced the dimensions of the shipping boxes by 20% to reduce the amount of packaging materials used. Lipton's waste reduction program has resulted in a net savings of over \$100,000 when combining the reduced trash haul savings with the revenue generated from recyclable goods.

Waste Busters

Waste Busters does business efficiency consulting, and in order to "walk the talk" Waste Busters strives to be a model of efficiency itself. Sometimes these waste reduction activities even go beyond what might be recommended to one of the businesses that Waste Busters serves. Foodwaste, for example, is fed to worms, with the resultant "worm castings," being used instead of fertilizer for plants. Although purchasing recycled products and reducing the waste that goes into a garbage bin shared with others does not save money for Waste Busters, the waste reduction lifestyle "is just part of doing business right."

Western Environmental Equipment Corporation

Western Environmental Equipment Corporation is a manufacturer's representative firm and General Engineering Contractor specializing in air pollution control equipment and steam generation equipment. Even though Western is a small firm in numbers, they mail extensively and thus can generate a tremendous amount of paper waste. An aggressive program for waste reduction implements computerization and the reuse of virtually all office wastes, including reuse of all packaging materials, envelopes, copy and printer paper, and reinking of printer cartridges. Heavy computerization has allowed Western to eliminate day files, most hard copies, telephone books, and to streamline their direct mail program to eliminate mailings of materials that are not wanted or mailings to addresses that are incorrect. As a result of this program, Western has cut office expenses by more than one half and decreased waste disposal to one third of its original volume in their efforts to move toward a more "paperless" office

Wilson Partitions, Inc.

Wilson Partitions is a manufacturer of aluminum extrusions for door and window frames in one division; a second division manufactures a full height gypsum modular wall system. Since their primary product materials are aluminum and gypsum, shipped with minimal packaging, their greatest waste reduction activities are: a) working to manufacture product to a customer's specifications to eliminate customer field modifications, (ie) post consumer waste, and b) having scrap gypsum and scrap aluminum picked up by recyclers, as well as cardboard. They also recycle gypsum at a cost savings. Their aluminum scrap can be a minimum of 500 lbs. per month and the return is \$0.50 per lb for a yearly savings of \$2,300 to \$10,000.
