

Date: February 06, 2019

To: Local Enforcement Agencies and Solid Waste Facility Operators

Registration is Open for the 2019 Online Odor Training Workbook

This online Odor Training Workbook is the first class of a two-phase series that addresses odor issues and enforcement guidelines for composting sites located in California. The online Odor Workbook (Phase I) has nine, self-paced modules. Each module will conclude with a quiz, and once all nine modules are completed, there will be a final test. REHS continuing education units will be offered.

Completion of the online Odor Training Workbook is a prerequisite to attend the Phase II Classroom/Field Training which will be offered later this year.

Registration and class details are available online.

This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle.
