

Date: July 01, 2019

To: Local Enforcement Agencies

Notice of Changes to Proposed Organic Waste Reduction Regulations; SB 1383. Extended Comment Period will expire 1:00 PM July 17, 2019

The California Department of Resources Recycling and Recovery (CalRecycle) will extend the period for submitting formal comments to July 17, 2019. This is intended to provide stakeholders additional time to review the regulatory text. This action doubles the time required by the Administrative Procedures Act and provides stakeholders 30 days to review the regulatory text that was posted on June 17, 2019.

The extended comment period will expire 1:00 PM July 17, 2019. Comments submitted after this date and time will not be considered.

The full text of the regulation as originally proposed, including the newly proposed changes clearly indicated is available on the [SB 1383 Rulemaking website](#).

No substantive changes have been made to the draft regulatory text that was posted on June 17th. As noted previously, the text of the Initial Statement of Reasons (ISOR) has also been updated to link the definitions in the document with the applicable sections of the ISOR.

The text for both documents has been revised to "12 Point Arial" font for accessibility. Each document is available at the website noted above. Reference documents noted in the regulation are available upon request.

Comments should only be made on the new proposed changes for this comment period in each document. CalRecycle staff is only required to respond to comments related to the newly proposed changes to the regulations which are denoted as follows with Bold Green Underline for additions and Red Strikethrough deletions.

Please submit your written comments to:

Gwen Huff
