

CalMAX can be a key in managing your recycled green waste and organics.

SOUND BITE: Kevin Taylor, CIWMB Business Resource Efficiency. “A wonderful program we have available at the Waste Management Board are the reuse assistance grants. Now these are monies that are available each year, up to fifty thousand dollars for local jurisdictions. For example, if you have construction and demolition materials available or left over after projects, this is the type of program that can help you divert those materials from the landfill.”

Using the many resources the Waste Board has to offer, you can help your community, your state, and your pocketbook!

Remember, diverting turns trash into cash!

Please feel free to contact us with any questions. [www.ciwmb.ca.gov](http://www.ciwmb.ca.gov)
