### NOTICE

**To: All Interested Parties**

**Subject: 2015 Mid-Year Refund Values per Segregated Pound, Refund Values per Commingled Pound, and Containers per Segregated Pound Rates Effective July 1, 2015**

This notice informs you of changes to statewide rates for refund value per segregated pound and refund value per commingled pound for each type of recycling program. Refund value per commingled pound rates reflect the percentage of California Redemption Value (CRV) containers in loads of recyclables containing both CRV and non-CRV containers, and are the basis for proper payment of CRV for such loads. Rates are set at the beginning of the calendar year and are subject to mid-year adjustments.

**New rates for aluminum, glass, plastic, and bi-metal beverage containers will be effective July 1, 2015**, pursuant to the annual calculation requirement in Public Resources Code Section 14549.5.

**Attachment 1 reflects the refund value per pound and containers per pound rates by program type.** Table 1 applies only to recycling centers where individual consumer transactions take place. Table 2 applies only to material redeemed through reverse vending machines (RVMs). California Code of Regulations (CCR) Section §2540(c)(1) requires RVMs to be reimbursed at the commingled rate. The exception is where, upon verification by the Division of Recycling, the reverse vending machine distinguishes 100 percent of the time between empty (redeemable) beverage containers and other (nonredeemable) containers. Tables 3, 4, and 5 are for curbside programs, drop-off or collection programs, and community service programs, respectively.

**Attachment 2 is a refund value conversion chart intended only for use by recycling center operators**, which reflects the refund values to be paid for consumer transactions. This chart is designed to determine the refund value based on weight received, rounded to the nearest one-tenth of a pound. This chart is not to be used for curbside, drop-off or collection, or community service program transactions, or for materials redeemed through a reverse vending machine.

**Attachment 3 specifies the mid-year 2015 Individual Commingled Refund Values per Pound**, and should be used to determine proper payment to applicable curbside, drop-off or collection, and community service programs.

Individual commingled rates are applicable to specific material types (i.e., aluminum, glass, PET plastic, and HDPE plastic).

All qualified curbside, drop-off or collection, and community service programs not listed on Attachment 3 will continue to receive CRV at the statewide average refund value per commingled pound rates for all material types, until further notice.

**NOTE REGARDING ICRS RATES:** The Individual Commingled Rate Survey (ICRS) program was suspended via Notice dated August 29, 2012. CalRecycle authorized an extension of the rates for participants who earned Individual Commingled Rates for the 2013 calendar year. For participants who continue to qualify, Individual Commingled Rates will remain effective until further notice.

**NOTE TO CERTIFIED RECYCLING CENTERS:** If the changes to the refund value per segregated pound rates overlap a receipt and log period, it is recommended that a Shipping Report (DR-6) be filled out for the period of the old rate and a separate DR-6 be filled out for the period of the new rate. Failure to separate the weights may delay your payment, and the Department will only reimburse payment at the lower rate for the entire reporting period.

If you have any further questions regarding these refund value per segregated pound rates, refund value per commingled pound rates, or the number of containers per segregated pound, please contact Michael Vanderburg at (916) 327-2769 or Mike Miller at (916) 323-0713. Written comments may be sent via mail to 801 K Street, MS 17-24, Sacramento, CA 95814 or via facsimile to (916) 445-0645.

**Note:** The containers that produce the Containers per Segregated Pound (CPP) in column (A) vary in size. The refund value is \$0.05 for some containers (<24 oz.) and \$0.10 for others (≥24 oz.). Therefore, one cannot simply multiply the CPP average by either refund value to get the Refund Value per Segregated Pound rates, column (C).

**How to use this chart:**

- 1: Determine weight of customer's load.
- 2: Find the number of "WHOLE POUNDS" on the chart.
- 3: Look across the chart under the material type being weighed.  
Note the amount paid in CRV for that many whole pounds.
- 4: Find the amount of the customer's load that is a fraction of a pound ("TENTHS OF A POUND") and note the amount paid for CRV for that part of the load.
- 5: Add the two amounts.

**Note:**

For loads containing one (1) CRV container, determine payment based on count.  
For loads containing two (2) CRV containers or more, payment can be determined using this chart.
