RE: California Paint Stewardship Program Year 1 Annual Report corrections

Dear Scott,

We have been working with CalRecycle staff to make minor corrections to the Year 1 annual report. Below is a summary of the changes:

(August 3, 2015)

Changed the number of drop-off sites from 495 to 493 in the Executive Summary on page 2, and in the narrative and table on page 6. Added footnote on page 6 explaining the edit. Added Visions in Oroville and Sacramento to the list of processors on page 13. Updated date to reflect submission of corrections.

(December 30, 2015)

Changed volume of reuse gallons from 73,691 to 55,552 and corresponding totals and disposition shares on pages 3, 15, 18. Updated the cost per gallon resulting from this change from \$8.62 to \$8.76 on page 21.

(November 29, 2016)

Changed two references to the volume of architectural paint sold in California during the reporting period from 38,921,083 to 38,921,094 on page 10.

I respectfully submit the changes summarized above, along with the updated document and thank you for consideration of these changes.

Sincerely,

A handwritten signature in cursive script that reads "Jeremy Jones".

Jeremy Jones
West Coast Program Manager
