CARE's Executive Director's Message

Fourth quarter results indicate the normal drop in both gross collections and recycled output due to lower quarterly sales. Carpet backing material continues to gain traction and is on track and expected to grow steadily in 2017. The full fiber demand of two new plants is expected to <u>dramatically increase</u> recycled output in 2017. The Carpet Stewardship Program ended the year on an upward trend overall, aided in part by the increased subsidies and grants implemented in late 2015.

As planned the new assessment increase to 25 cents/sqyd went smoothly into effect on January 1st and the revenue impact will be seen with Q1 reporting.

CARE Collection sites are at 33 with the goal of coverage in all 58 counties by the end of 2017. The new Installer video is now on-line and outreach will begin in Q1 2017.

CARE submitted its revised 5-Year Plan to CalRecycle as requested on February 20th along with a cover letter addressing all findings in the RFA of December 20th. CalRecycle will issue their decision on the revised Plan at the hearing on April 18th.

All stakeholders are encouraged to go to the CARE website, click on the CA tab and sign up for the monthly news letter to stay abreast of the latest developments. <u>www.carpetrecovery.org</u>
