## How to use this chart:

1: Determine the weight of customer's load.
2: Find the number of "WHOLE POUNDS" on the chart.
3: Look across the chart under the material type being weighed. Note the amount paid in CRV for that many whole pounds.
4: Find the amount of the customer's load that is a fraction of a pound ("TENTHS OF A POUND") and note the amount paid for CRV for that part of the load.
5: Add the two amounts.
