Electronic Disposal Reporting System (eDRS)
Manually Entering Disposal Data

CalRecycle
eDRS
• Developed by CalRecycle to automate submittal of disposal information in 2006.
• Part of Local Government Information Center (LoGIC).

• There are two ways to enter information into eDRS:
  – Upload
    • Import a formatted excel sheet into eDRS
      Primarily used by large counties-accepting waste from multiple jurisdictions (more than 20 entries).
  – **Manual entry**
    • Enter-data line by line into eDRS.
      Primarily for small counties accepting waste from only a few jurisdictions (fewer than 20 entries).
Local Government Information Center (LoGIC) v2.29

How to log in to LoGIC:

- To access eDRS, log in to the LoGIC database located at: https://secure.calrecycle.ca.gov/LoGIC/SignIn.aspx

- If you don’t already have access contact the Disposal Report Coordinator (drs@calrecycle.ca.gov) to receive permission to the eDRS portion of LoGIC.
Once you log into LoGIC, go to External Logic from the left navigation bar and you will see the areas that you have been granted permissions:

- Jurisdiction access allows staff to tracking disposal and work on the Electronic Annual Report (EAR)
- County access allows staff to enter Disposal reports and review county disposal data

To begin entering data into eDRS, click on the county you’re entering a report for.
Welcome to CalRecycle's new Local Government Information Center (LoGIC). Over the coming months, LoGIC will become the one-stop shop for you to view and analyze solid waste data collected by CalRecycle about your city, county or CalRecycle-approved regional agency. For additional information and help, please visit MyLoGIC.

Electronic Disposal Reporting System (eDRS)

The Electronic Disposal Reporting System (eDRS) allows Jurisdictions and Regional Agencies to view the most up to date disposal information provided to CalRecycle. You may view the current disposal data as reported by the counties when it is entered into the system, this data may change and is a work in progress and may not have been finalized.

*These are preliminary data that are subject to change. Displayed data are based upon information reported by permitted facility operators and compiled by County/Regional Agency disposal reporting coordinators. Revisions may be submitted at any time prior to closing out the report year. Completed report year data are displayed at: [http://www.calrecycle.ca.gov/LGCentral/DRS/Reports/default.asp](http://www.calrecycle.ca.gov/LGCentral/DRS/Reports/default.asp)*

- Once you’ve selected the county, you’ll see the years, quarters and current statuses on the county’s homepage:
  - Due: Hasn’t been submitted to CalRecycle
  - Received: Submitted to CalRecycle for review
  - Approved: CalRecycle has reviewed the information
  - Finalized: CalRecycle has completed the year, and posted the information to the web.
- Click on the appropriate quarter to enter data into eDRS.
### eDRS Quarter Overview

#### Image: LoGIC Data Entry homepage - this is where you begin if you are going to upload or manually enter data for a quarter.

- On this page you can view disposal amounts by type:
  - Instate: Waste disposed from jurisdictions in California
  - Import: Waste disposed from Indian Nations, outside California, or from another country
  - Export: Waste sent out of California for disposal in another country, or US State.
  - Transformation is for waste that is converted into energy at a permitted facility
- Upload Disposal Report: Used to import the formatted excel file into eDRS.
- Delete Quarter: Used to remove all entered information for the quarter.

eDRS: Data Entry Tab

There are three ways to manually enter disposal data:

1. Mouse over Data Entry tab and select the disposal type. (Instate, Import, Export) After you select the type click the “Add (Disposal Type)” button that will be displayed OR
2. Click on Data Entry Tab, and select the disposal type from the selections that appear OR
3. Click on the number under the appropriate column for the disposal type, and in the row Solid Waste Disposal. Then click the “Add (Disposal Type)” button that will be displayed.

ADC/AIC are totaled all together and not by material type under instate disposal.

12/8/2014
eDRS: Instate entry

STEPS:
1. Select the Destination facility for the entry
2. Begin typing in the Place of Origin. As you enter a name, the system will begin to offer options of the place name.
3. Enter (if needed) Origin Unknown (for waste that the facility failed to collect origin info on for varying reasons.)
4. Enter Total Tons of waste accepted from the Place of Origin (no soil)
5. Enter Total tons of Waste disposed.
6. Enter any ADC or AIC by material type that was separated out from the Place of Origin.
7. Once the entry is completed, select Save at the top or bottom.
8. To enter more entries simply click the “Add (Disposal type)” button

Note: Total Tons accepted is > or = to Total Tons Disposed + ADC + AIC
eDRS: Import entry

**STEPS**

Select the Destination Facility.

1. Select the Origin Location Type:
   - Out of Country: will be asked the Country of Origin
   - Out of State: will be asked the State of Origin
   - Indian Country: will be asked the State in which the Indian tribe resides, and the Indian tribe’s name.

2. Enter Total Tons of waste accepted from the Place of Origin (no soil)

3. Enter Total tons of Waste disposed.

4. Finally enter in any ADC or AIC by material type that was separated out from the Place of Origin.

5. Once you’ve completed the entry, select Save at the top

6. To add more entries, click “Add (Disposal type)” button

**Note:** Total Tons accepted is > or = to Total Tons Disposed + ADC + AIC
## eDRS: Export entry

**Center (LoGIC) v2.29**

### Facility Information

<table>
<thead>
<tr>
<th>Field</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Place of Origin:</td>
<td>The location where the waste originated.</td>
</tr>
<tr>
<td>Facility Type:</td>
<td>The type of facility where the waste was sent.</td>
</tr>
<tr>
<td>Destination Country:</td>
<td>The country where the waste was sent.</td>
</tr>
<tr>
<td>Disposal Export Tons:</td>
<td>The amount of waste that was exported.</td>
</tr>
</tbody>
</table>

Enter information and select save. Fields marked with * (asterisk) are required.

Save  Cancel

### STEPS

1. **Begin typing in the Place of Origin.** As you enter a name, the system will begin to offer options of the place name.
2. **Select the Facility Type** the waste was sent:
   - Out of Country: will be asked the destination Country.
   - Out of State: will be asked the destination State and the name of the Facility that received the waste.
   - Indian Country: will be asked the State in which the Indian tribe resides, and the Indian tribe’s name.
3. **Enter the amount of waste that was exported.**
4. **Once you’ve completed the entry, select Save at the top.**
5. **To add more entries, click “Add (Disposal type)” button.**

**Note:** Any waste that is sent to a landfill out of state does not receive any credit for material diverted. (ADC/AIC, Beneficial Reuse, or materials Recycled)

12/8/2014
**eDRS: Facility Tab**

**STEPS**
1. Use Facility Summary form submitted with disposal data.
2. By clicking on the facility tab and selecting Add a Facility Summary, you’ll see the displayed page.
3. Select the Facility that you intend to enter information about.
4. Total Tons Accepted, Disposed, any ADC, or AIC will be populated from Jurisdiction entries.
5. Complete Total Tons of Soil Used Onsite, if any.
6. Complete Tons Sent Off Site for Reuse, Recycling or Composting.
7. Select how often the origin of waste is collected, or select Other and provide a description.
8. Check as many boxes needed to explain how the place of origin is determined by a load.
9. Enter either the In-Place Density and Waste-to-Cover Ratio, or the Air Space Utilization Factor for the landfill.
10. Enter any beneficial reuse used on site, and enter it under the appropriate material type.
11. Once all this information has been entered, click on Save.

---

**Image:** LoGIC facility summary form - this is the form you fill out with DRS information for the appropriate quarter.
eDRS: Facility Disposal Calculation

- If after you click save, you get the message “Your Facility Totals Are Out Of Balance,” enter a justification in the Justification Notes section. The message means that the numbers do not equal the equation shown to the right.
- To see how much the information is off, refer to the Facility Disposal Calculation box at the top right of the screen.
- A reason for the difference (such as rounding) must be entered before you can Save.
- Click Save again, and the information is saved.
- Repeat this process for all facilities.

Total tons accepted = Total tons disposed + Total Tons sent off site for Recycling + ADC + AIC + Beneficial Reuse
After entering all the information in the Entry Tab and Facility Tab, you can move on to the submit tab.

1. **Disposal Record Check**: verifies that all the disposal records have a valid place of origin.
2. **Missing Facility Summaries**: ensures that all the facilities have their summaries completed.
3. **Modified Facility Summary Check**: ensures that no changes have occurred after the facility summaries were entered without the user verifying the changes.
4. **BOE Validation Check**: Compares the numbers reported inside DRS with the amounts that the landfill paid to BOE. -If there is a difference of more than 1 percent the system will prompt you for a justification.
   -To enter a justification, click on “Fix Errors(s)” and you will be taken to a page (Shown below) that will show you the percentage difference. Click on “justify, and enter the justification for the difference in the amounts’ (e.g. Submitted updated BOE amount.)
5. **Misc Check** will verify that all the information has been entered correctly and that there are no other errors with the quarters.
6. Once this is all completed, click **Submit to CalRecycle**, which will be displayed at the bottom of the screen.
