

CalRecycle's 2018 Recycled-Content Trash Bag Program Manufacturer Compliance Report

The following summary is based on Plastic Trash Bag Certifications received by the Department of Resources Recycling and Recovery (CalRecycle) for the 2018 reporting period. CalRecycle's database may not include all manufacturers or wholesalers that are subject to the law and who should submit the required certification. **The law does not provide for extensions.** Manufacturers who are noncompliant, or who were non-responsive, may certify for the next reporting year.

The list of Compliant Manufacturers is based on the submission of the self-certification meeting the requirements of the law.

The list of Noncompliant Manufacturers is based on any of the following reasons: the manufacturers did not self-certify or respond to CalRecycle's request to certify; self-certified an insufficient percentage of postconsumer material (noncompliance); submitted the certification after the statutory deadline date; an exemption was claimed but not approved by CalRecycle.
