CalRecycle/LEA Online Training Workbooks Now Available

Online Odor Training Workbook

This online Odor Training Workbook provides an overview of odor issues, as well as enforcement guidelines regarding composting sites located in California. The Odor Training Workbook has nine, self-paced modules. Each module concludes with a short quiz, and there will be a final test once all nine modules are completed. REHS continuing education units are being offered.

Registration and class details are available online: [2020-21 CalRecycle/LEA Online Odor Training](#).

Online Solid Waste Facilities Permit/CEQA Training Workbook

This online Solid Waste Facilities Permit/California Environmental Quality Act (CEQA) Workbook provides an overview of the CEQA relative to solid waste facilities, as well as the permit review and permit revision processes. It also covers how to write an enforceable solid waste facilities permit. This online workbook has five, self-paced modules. Each module will end with a quiz, and there will be a final test after all five modules are completed. REHS continuing education units are being offered.

Registration and class details are available online: [2020-21 CalRecycle/LEA Online Training: Solid Waste Facilities Permit/CEQA Training](#).

This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle
