New Online Training Available – Field Indicator Method (FIM) for Estimating the Level of Physical Contamination in Compostable Material

CalRecycle is pleased to announce the release of the online Field Indicator Method (FIM) Training. The training provides an overview of the field indicator method to estimate the level of physical contaminants in a composite sample of large particle size compostable material to assist in the evaluation of the requirements of 14 CCR Sections 17862.1, 17868.3.1, and 17896.61. The training is certified for one REHS Continuing Education Unit (CEU) contact hour.

This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle
