Short-lived Climate Pollutants (SLCP): Organic Waste Reductions

Final Regulation Text

The following denotes final and approved text:

Strikethrough = deletions of existing text
Underline = additions to existing text
Section 17402. Definitions.

(a) For the purposes of these articles:

(0.5) "Consolidation Sites" means facilities or operations that receive solid waste for the purpose of storing the waste prior to transfer directly from one container to another or from one vehicle to another for transport and which do not conduct processing activities. Consolidation activities include, but are not limited to, limited volume transfer operations, sealed container transfer operations, and direct transfer facilities.

(1) "Contact Water" means water that has come in contact with waste and may include leachate.

(1.5) "Contamination" or "Contaminants" has the same meaning as "prohibited container contaminants" as defined in Section 18982(a)(55).

(2) "Covered Container" means a container that is covered to prevent the migration of litter from the container, excessive infiltration of precipitation, odor and leachate production, and to prevent access by animals and people; thereby controlling litter, scavenging, and illegal dumping of prohibited wastes. Covers may include, but are not limited to, tarpaulins or similar materials.

(3) "Direct Transfer Facility" means a transfer facility that receives equal to or more than 60 cubic yards or 15 tons (whichever is greater) of solid waste per operating day but less than 150 tons of solid waste and meets all of the following requirements:

(A) is located on the premises of a duly licensed solid waste hauling operator;

(B) only handles solid waste that has been placed within covered containers or vehicles prior to entering the facility and that is transported in vehicles owned or leased by that same operator;

(C) the facility does not handle, separate, or otherwise process the solid waste;

(D) no waste is stored at the facility for more than any 8-hour period;

(E) solid waste is transferred only once and directly from one covered container or vehicle to another covered container or vehicle so that the waste is never put on the ground or outside the confines of a container or vehicle, before, during, or after transfer. Direct transfer would not include top loading trailers where the solid waste actually leaves the confines of the collection vehicle and is suspended in air before falling into a transfer vehicle;

(F) all of the contents of the original transferring container or vehicle must be emptied during a single transfer; and

(G) any waste that may unintentionally fall outside of the containers or vehicles, is promptly cleaned up and replaced within the container or vehicle to which it was being transferred.

(4) "DTSC" means Department of Toxic Substances Control.

(5) "EA" means enforcement agency as defined in PRC section 40130.
(6) "Emergency Transfer/Processing Operation" means an operation that is established because there has been a proclamation of a state of emergency or local emergency, as provided in Title 14, Division 7, Chapter 3, Article 3, sections 17210.1 (j) and (k) and which meets all of the following requirements:

(A) the operation handles only disaster debris and other wastes, in accordance with section 17210.1(d), during the disaster debris recovery phase; and

(B) the location does not currently have a solid waste facility permit;

(C) if the operation accepts, processes, or stores hazardous or household hazardous waste, then these activities must be in compliance with DTSC standards or standards of other appropriate authorities or agencies.

(6.5) “Gray Container Waste” or “Gray Container Collection Stream” means solid waste that is collected in a gray container that is part of a three-container organic waste collection service that prohibits the placement of organic waste in the gray container as specified in Section 18984.1(a) and (b).

(7) "Hazardous Wastes" means any waste which meets the definitions set forth in Title 22, Section 66261.3, et seq. and is required to be managed.

(7.5) “Incompatible Material” or “Incompatibles,” means human-made inert material, including, but not limited to, glass, metal, plastic, and also includes organic waste for which the receiving end-user, facility, operation, property, or activity is not designed, permitted, or authorized to perform organic waste recovery activities as defined in Section 18983.1(b) of Article 2, Chapter 12.

(8) "Large Volume Transfer/Processing Facility" means a facility that receives 100 tons or more of solid waste per operating day for the purpose of storing, handling or processing the waste prior to transferring the waste to another solid waste operation or facility.

(A) In determining the tonnage of solid waste received by the facility, the following materials shall not be included: materials received by a recycling center located within the facility, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or where the activities are otherwise separated in a manner approved by the EA.

(B) If the facility does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(9) "Limited Volume Transfer Operation" means an operation that receives less than 60 cubic yards, or 15 tons of solid waste per operating day for the purpose of storing the waste prior to transferring the waste to another solid waste operation or facility and which does not conduct processing activities, but may conduct limited salvaging activities and volume reduction by the operator.

(A) In determining the tonnage of solid waste received by the operation, the following materials shall not be included: materials received by a recycling center located within the operation, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a
(B) If the operation does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(10) "Litter" means all solid waste which has been improperly discarded or which has migrated by wind or equipment away from the operations area. Litter includes, but is not limited to, convenience food, beverage, and other product packages or containers constructed of steel, aluminum, glass, paper, plastic, and other natural and synthetic materials, thrown or deposited on the lands and waters of the state.

(11) "Medium Volume Transfer/Processing Facility" means a facility that receives equal to or more than 60 cubic yards or 15 tons (whichever is greater) of solid waste per operating day but less than 100 tons of solid waste, for the purpose of storing or handling the waste prior to transferring the waste to another solid waste operation or facility; or a facility that receives any amount of solid waste, up to 100 tons per operating day, for the purpose of processing solid waste prior to transferring the waste to another solid waste operation or facility.

(A) In determining the tonnage of solid waste received by the facility, the following materials shall not be included: materials received by a recycling center located within the facility, and by beverage container recycling programs in accordance with Public Resources Code sections 14511.7, 14518, or 14520, if the recycling activities are separated from the solid waste handling activities by a defined physical barrier or where the activities are otherwise separated in a manner approved by the EA.

(B) If the facility does not weigh the solid waste received, then the tonnage shall be determined by using a volumetric conversion factor where one cubic yard is equal to 500 pounds. The EA shall approve an alternate conversion factor if the operator demonstrates that it is more accurate than the required conversion factor.

(11.5) "Mixed Waste Organic Collection Stream" means organic waste collected in a container that is required by Section 18984.1, 18984.2, or 18984.3 to be transported to a high diversion organic waste processing facility.

(12) "Nuisance" includes anything which:

(A) is injurious to human health or is indecent or offensive to the senses and interferes with the comfortable enjoyment of life or property, and

(B) affects at the same time an entire community, neighborhood or any considerable number of persons. The extent of annoyance or damage inflicted upon an individual may be unequal.

(13) "On-site" means located within the boundary of the operation or facility.

(14) "Open burning" means the combustion of solid waste without:

(A) control of combustion air to maintain adequate temperature for efficient combustion,

(B) containment of the combustion reaction in an enclosed device to provide sufficient residence time and mixing for complete combustion, and

(C) control of the emission of the combustion products.
(15) "Operating day" means the hours of operation as set forth in the application, Enforcement Agency Notification and/or permit not exceeding 24 hours.

(16) "Operating Record" means an easily accessible collection of records of an operation's or facility's activities and compliance with required state minimum standards under Title 14. The Record may include the Facility Plan or Transfer/Processing Report for facilities, and shall contain but is not limited to containing: agency approvals, tonnage and loadchecking records, facility contacts and training history. The record may be reviewed by state and local authorities and shall be available during normal business hours. If records are too voluminous to place in the main operating record or if the integrity of the records could be compromised by on-site storage, such as exposure to weather, they may be maintained at an alternative site, as long as that site is easily accessible to the EA.

(17) "Operations Area" means:

(A) the following areas within the boundary of an operation or facility as described in the permit application or Enforcement Agency Notification:
   (i) equipment management area, including cleaning, maintenance, and storage areas; and
   (ii) material and/or solid waste management area, including unloading, handling, transfer, processing, and storage areas.

(B) the boundary of the operations area is the same as the permitted boundary but may or may not be the same as the property boundary.

(18) "Operator" means the owner, or other person who through a lease, franchise agreement or other arrangement with the owner, that is listed in the permit application or Enforcement Agency Notification, is legally responsible for all of the following:

(A) complying with regulatory requirements set forth in these Articles;
(B) complying with all applicable federal, state and local requirements;
(C) the design, construction, and physical operation of the operations area;
(D) controlling the activities at an operation or facility as listed on the permit application or Enforcement Agency Notification.

(18.4) “Organic Waste Recovery Activities,” or “Recovery” has the same meaning as defined in Section 18982(a)(49).

(18.5) “Organic Waste” has the same meaning as in Section 18982(a)(46).

(19) "Owner" means the person or persons who own, in whole or in part, an operation or facility, and/or the land on which it is located.

(20) "Processing" means the controlled separation, recovery, volume reduction, conversion, or recycling of solid waste including, but not limited to, organized, manual, automated, or mechanical sorting, the use of vehicles for spreading of waste for the purpose of recovery, and/or includes the use of conveyor belts, sorting lines or volume reduction equipment. Recycling Center is more specifically defined in section 17402.5 (d) of this Article.

(21) "Putrescible Wastes" include wastes that are capable of being decomposed by micro-organisms with sufficient rapidity as to cause nuisances because of odors, vectors, gases or other offensive conditions, and include materials such as, but not limited to food wastes, offal and dead animals. The EA shall determine on a case-by-case basis whether or not a site is handling putrescible wastes.
(22) "Regulated Hazardous Waste" means a hazardous waste, as defined in section 66260.10 of Division 4.5 of Title 22.

(23) "RWQCB" means the Regional Water Quality Control Board.

(23.5) "Remnant Organic Material" means the organic waste that is collected in a gray container that is part of the gray container collection stream.

(23.6) "Reporting Period" has the same meaning as defined in Section 18815.2(a)(49).

(24) "Salvaging" means the controlled separation of solid waste material which do not require further processing, for reuse or recycling prior to transfer activities.

(25) "Scavenging" means the uncontrolled and/or unauthorized removal of solid waste materials.

(26) "Sealed Container Transfer Operation" means a transfer operation that meets the following requirements:

(A) handles only solid waste that has previously been placed within containers that have either a latched, hard top or other impermeable cover which is closed tightly enough to:

(1) prevent liquid from infiltrating into or leaking out of the container; and

(2) prevent the propagation and migration of vectors; and,

(i) the solid waste remains within the unopened containers at all times while on-site; and,

(ii) the containers are not stored on-site for more than 96 hours.

Sealed container transfer operations do not include operations excluded by Public Resources Code section 40200(b)(3).

(26.5) "Secondary Material Processing Facility" or "Operation" means an activity whose primary purpose is to receive and process source separated, or separated for reuse, materials from a permitted transfer/processing facility or a transfer/processing operation governed by an enforcement agency notification, and that does not meet the residual percentage or putrescible waste percentage as set forth in section 17402.5(d). Materials include, but are not limited to, glass, plastics, paper, and cardboard.

(A) Secondary Material Processing Operations are those activities that:

1. Are governed by the Enforcement Agency Notification tier requirements as specified in section 17403.3.2; and,

2. Receive an amount of residual material that is less than 40% by weight as calculated on a monthly basis. Operations that do not meet this residual requirement shall comply with the Registration Permit tier requirements specified in 17403.3.3.

(B) Secondary Material Processing Facilities are those activities that:

1. Are governed by the Registration Permit tier requirements as specified in section 17403.3.3; and,

2. Do not meet the 40% residual material requirement as specified in subdivision (A).

(26.6) "Source Separated Organic Waste" or "Source Separated Organic Waste Collection Stream" means organic waste that is collected in a green container as specified in Sections 18984.1(a)(1) and 18984.2(a)(1), "source separated blue container organic waste," as defined in this Subsection (a)(26.7), organic waste...
collected in an additional container as specified in Section 18984.1(a)(6), and organic
collect in an “uncontainerized green waste and yard waste collection
service,” as defined in Section 18982.
(26.7) “Source Separated Blue Container Organic Waste” means the organic wastes
collected in a blue container that is limited to the collection of those organic wastes
and non-organic recyclables as defined in Section 18982(a)(43).
(27) "Special Waste" includes but is not limited to:
(A) waste requiring special collection, treatment, handling, storage, or transfer
techniques as defined in Title 22, section 66260.10.
(B) waste tires and appliances requiring CFC removal.
(28) "Spotter" means an employee who conducts activities that include, but are not
limited to, traffic control, hazardous waste recognition and removal for proper
handling, storage and transport or disposal, and protection of the public from health
and/or safety hazards.
(29) "Store" means to stockpile or accumulate for later use.
(30) "Transfer/Processing Facility" or "Facility" includes:
(A) those activities governed by the Registration Permit tier or Full Solid Waste
Facility requirements (as specified in sections 17403.6 and 17403.7); and,
(B) which:
1.receive, handle, separate, convert or otherwise process materials in solid
waste; and/or
2.transfer solid waste directly from one container to another or from one vehicle
to another for transport; and/or
3.store solid waste;
(C) The receipt of separated for reuse material pursuant to Public Resources
Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, located within
a solid waste facility does not constitute solid waste handling, or processing, if
there is a defined physical barrier to separate recycling activities defined in Public
Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520,
from the solid waste activities, or where the recycling and solid waste activities are
considered by the EA as separate operations.
(D) "Transfer/Processing Facilities" do not include activities specifically defined in
section 17402.5(c) of this Article, and operations and facilities that are subject to
regulations in Chapter 3.1 (commencing with section 17850).
(31) "Transfer/Processing Operation" or "Operation" includes:
(A) those activities governed by the EA Notification tier requirements; and,
(B) which:
1.receive, handle, separate, convert or otherwise process materials in solid
waste; and/or
2.transfer solid waste directly from one container to another or from one vehicle
to another for transport; and/or
3.store solid waste;
(C) The receipt of separated for reuse material pursuant to Public Resources
Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, located within
a solid waste operation does not constitute solid waste handling, or processing, if
there is a defined physical barrier to separate recycling activities defined in Public
Resources Code, Division 12.1, Chapter 2, sections 14511.7, 14518, or 14520, from the solid waste activities, or where the recycling and solid waste activities are considered by the EA as separate operations.

(D) "Transfer/Processing Operations" do not include activities specifically defined in section 17402.5(c) of this Article, and operations and facilities that are subject to regulations in Chapter 3.1 (commencing with section 17850).

(32) "Volume Reduction" means techniques such as: compaction, shredding, and baling.

(33) "Waste Hauling Yard Operation" is an operation that meets the following requirements:

(A) is located on the premises of a duly licensed solid waste hauling operator, who receives, stores, or transfers waste as an activity incidental to the conduct of a refuse collection and disposal business, and;

(B) handles only solid waste that has been placed within a covered container before the container arrives at the waste hauling yard, and;

(C) no more than 90 cubic yards of waste is stored on-site in covered containers at any time, and;

(D) the solid waste remains within the original covered containers while on-site at any times, and;

(E) the covered containers are not stored on-site for more than any 72 hour period;

(F) if the EA has information that the operation does not meet these requirements, the burden of proof shall be on the owner or operator to demonstrate that the requirements are being met.

Note:

Authority cited: Sections 40502, 43020, and 43021 Public Resources Code.

Section 17402.5. Definitions and Related Provisions Regarding Activities That Are Not Subject to the Transfer/Processing Regulatory Requirements.

(a) This section sets forth definitions and related provisions regarding activities that are not subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) Activities that are not in compliance with the applicable definitions and related provisions of this section shall be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(2) The definitions and related provisions of this section are for use only to determine the applicability of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(b) The following general definitions may apply to one or more of the activities that are more specifically defined in subdivisions (c) and (d) of this section.

(1) "Residual" means the solid waste destined for disposal, further transfer/processing as defined in section 17402(a)(30) or (31) of this Article, or transformation which remains after processing has taken place and is calculated in percent as the weight of residual divided by the total incoming weight of materials.

(2) "Reuse" means the use, in the same, or similar, form as it was produced, of a material which might otherwise be discarded.
(3) "Separated for Reuse" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace, and includes materials that have been "source separated".

(4) "Source Separated" means materials, including commingled recyclables, that have been separated or kept separate from the solid waste stream, at the point of generation, for the purpose of additional sorting or processing those materials for recycling or reuse in order to return them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

(c) Activities included in one of the following definitions are not subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter, provided that these activities do not include the acceptance of solid waste which has not been separated for reuse. If an activity defined in this section is accepting solid waste which has not been separated for reuse, it must meet the requirements of subdivision (d) of this section or else it shall be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) "Auto Dismantler" means a person or business entity engaged in the business of buying, selling, or dealing in vehicles including nonrepairable vehicles, for the purpose of dismantling the vehicles, buying or selling the integral parts and component materials thereof, in whole or in part, or dealing in used motor vehicle parts pursuant to California Vehicle Code, section 220.

(2) "Auto Shredder" or "Metal Shredder" means a person or business entity that accepts scrap metal, typically automobiles and white goods, and mechanically rends that scrap metal into fist sized bits and pieces and separates the ferrous metals, nonferrous metals and other materials for the purpose of recycling.

(3) "Buy Back Center" means a person or business entity engaging in those activities defined in Public Resources Code Sections 14518, or 14520.

(4) "Drop-off Center" means a person or business entity engaging in those activities defined in Public Resources Code Section 14511.7.

(5) "Manufacturer" means a person or business entity that uses new or separated for reuse materials as a raw material in making a finished product that is distinct from those raw materials.

(6) "Regional Produce Organic Distribution Center" means a distribution center that receives unsold food produce, including packaged food produce (sometimes referred to as "pre-consumer") back from stores to which it was originally sent by that distribution center the produce, and which remains the property of the distribution center or stores, for the purpose of data collection, depackaging, and transferring this produce and other food to a compostcompostable material handling operation or facility, in-vessel digestion operation or facility, or to another beneficial use. A regional produce distribution center would not include a site where produce is processed.

(7) "Rendering Activities" means an activity that is a licensed animal food manufacturing activity, or a rendering activity which is authorized by the California...
Department of Food and Agriculture pursuant to Section 19300 of the Food and Agricultural Code, and in which no solid waste feedstock bypasses the manufacturing or rendering process. "Rendering Plant" means a person or business entity where dead animals or any part or portion thereof, vegetable oils, or packing house refuse, are processed for the purpose of obtaining the hide, skin, grease residue, or any other byproduct whatsoever.

(8) "Reuse Salvage Operation" means a person or business entity which sterilizes, dismantles, rebuilds, or renovates, nonputrescible separated-for-reuse materials, and that recovers for recycling or reuse distinct material types that have not been commingled with other materials before they enter the waste stream. Examples of this activity include, but are not limited to, wire choppers, and dismantlers of furniture and mattresses, and "brown goods" such as computer equipment, VCRs, and televisions.

(9) "Scrap Metal Recyclers and Dealers" means a person or business entity including all employees of the person or business entity, (except automotive recyclers and auto shredders as defined in this section), whose primary business is the purchasing; processing by shredding, shearing, baling, and torching; trading, bartering or otherwise receiving secondhand or castoff metal material which includes ferrous metals, nonferrous metals, aluminum scrap, auto bodies, major appliances and other metals, including containers that are regulated pursuant to Public Resources Code Section 14511.7, 14518 or 14520.

(10) "Wire Chopper" means a person or business entity which uses source separated metal components or wire for the purpose of recycling or reuse.

(11) "Wood, Paper or Wood Product Manufacturer" means a person or business entity that uses separated for reuse paper or woody materials in order to produce a finished product able to be used as is, or to manufacture another product such as, boxes or boards, without further processing.

(d) A "Recycling Center" means a person or business entity that meets the requirements of this subdivision. A recycling center shall not be subject to the requirements of Articles 6.0, 6.1, 6.2, 6.3 and 6.35 of this Chapter.

(1) A recycling center shall only receive material that has been separated for reuse prior to receipt.

(2) The residual amount of solid waste in the separated for reuse material shall be less than 10% of the amount of separated for reuse material received by weight.

(A) The residual amount is calculated by measuring the outgoing tonnage after separated for reuse materials have been removed.

(B) The residual amount is calculated on a monthly basis based on the number of operating days.

(3) The amount of putrescible wastes in the separated for reuse material shall be less than 1% of the amount of separated for reuse material received by weight, and the putrescible wastes in the separated for reuse material shall not cause a nuisance, as determined by the EA.

(A) The amount of putrescible wastes is calculated in percent as the weight of putrescible wastes divided by the total incoming weight of separated for reuse material.
(B) The amount of putrescible wastes is calculated on a monthly basis based on the number of operating days.

(4) The only separation that may occur at the recycling center is the sorting of materials that have been separated for reuse prior to receipt.

(5) The recycling center may include an adjustment in the calculation to include the weight of water in the residual, when the use of water is essential to the sorting or processing of the material, provided that such an adjustment is also made in the weight of materials received for processing.

(6) The following materials shall not be included in calculating residual as set forth in subdivision (d)(2) of this section, if the recycling activities are separated from the material handling activities noted below by a defined physical barrier or where the activities are otherwise separated in a manner that the EA determines will keep the materials from being commingled:

(A) materials received at an on-site Buy Back Center;
(B) materials received at an on-site Drop-off Center;
(C) cannery waste;
(D) construction and demolition materials;
(E) nonhazardous contaminated soil;
(F) grease-trap pumpings;
(G) nonhazardous asbestos;
(H) nonhazardous ash;
(I) compost and compost feedstock;
(J) sewage sludge;
(K) tires.

(7) If the EA has information that material that is being received is not separated for reuse or source separated, that the residual is 10% or more of the total per month, or that the amount of putrescible wastes is 1% or more of the total per month, the burden of proof shall be on the owner or operator to demonstrate otherwise.

(A) A business that accepts loads of material that are not separated for reuse or source separated does not qualify as a recycling center.

(B) If the EA has reason to believe that a business is accepting material that is not separated for reuse or source separated due to averaging or combining of those loads with other loads of separated for reuse material, the burden of proof will be on the business to demonstrate that it is not accepting loads of mixed solid waste.

(C) If the EA has reason to believe that a business is accepting material that is not separated for reuse or source separated due to the separation of portions of the material at consecutive sites, each of which removes less than 10% residual, the burden of proof will be on the business to demonstrate that it is not accepting loads of mixed solid waste.

(D) If the EA determines that a business has exhibited a pattern and practice of failing to comply with the provisions of this subsection, the EA may issue a Notice and Order requiring the business to obtain a Registration Permit or Full Permit or comply with the Enforcement Agency Notification requirements as made applicable in sections 17403 through 17403.7 of this Article.

(E) At the time that the EA requires a recycling center to provide evidence that it is in compliance with this subdivision, the EA shall provide the recycling center with a
written description of the information that has caused the EA to believe that the recycling center is not in compliance. Nothing in this requirement is intended to require the EA to identify the name or other identifying information regarding any individual(s) who have complained about the recycling center.

(F) Nothing in this section precludes the enforcement agency or the board Department from the following: inspecting a business to verify that it is conducted in a manner that meets the provisions of this subsection; or, from taking any appropriate enforcement action, including the use of a Notice and Order as provided in Section 18304.

(8) Operations which do not meet the 10% residual percentage in subdivision (d)(2) of this section but which qualify as a Limited Volume Transfer Operation, shall comply with the requirements of section 17403.3 within one month of March 5, 1999.

(9) Recycling center operators may voluntarily report their residual percentage to the EA and the CIWMB Department using form CIWMB 607 (located in Appendix A).

(10) If the EA determines that a person or business entity purporting to operate a recycling center is not in compliance with this subsection and issues an enforcement order, that person or business entity may appeal that order in accordance with Public Resources Code section 44307.

(e) If a Chipping and Grinding Operation or Facility, as defined in section 17852(a)(10) of this Division, handles material that fails to meet the definition of green material due to contamination as set forth in section 17852(a)(21) of this Division, the operation or facility shall not be considered to be a recycling center as set forth in subsections (c) or (d) of section 17402.5

Note:

Section 17403.0. Regulatory Tiers Requirements for Transfer/Processing Operations and Facilities.
Sections 17403.1 through 17403.7 set forth the regulatory tier requirements (Title 14, Division 7, Chapter 5.0, Article 3.0, commencing with section 18100 or Title 27, Division 2, Subdivision 1, Chapter 4, Subchapter 3, Articles 2, 3 and 3.1 of the California Code of Regulations (commencing with section 21570) that apply to specified types of transfer/processing operations and facilities. These requirements are summarized in Table 1.

**Article 6.2 Operating Standards.**

**Section 17409.5. Loadchecking—Prohibited Wastes.**
(a) The operator of an attended operation or facility shall implement a loadchecking program to prevent the acceptance of waste which is prohibited by this Article. This program must include at a minimum:

1. the number of random loadchecks to be performed;
2. a location for the storage of prohibited wastes removed during the loadchecking process that is separately secured or isolated;
3. records of loadchecks and the training of personnel in the recognition, proper handling, and disposition of prohibited waste. A copy of the loadchecking program and copies of the loadchecking records for the last year shall be maintained in the operating record and be available for review by the appropriate regulatory agencies.

**Section 17409.5.1. Organic Waste Recovery Efficiency.**
(a) This section applies to transfer/processing facilities and operations that conduct processing activities.
(b) For the purposes of compliance with the reporting requirements in Section 18815.5, and demonstrating that the facility is a “high diversion organic waste processing facility” as defined in Section 18982(a)(33) that meets or exceeds an annual average mixed waste organic content recovery rate of 50 percent on and after January 1, 2022 and 75 percent on and after January 1, 2025 as determined in Section 18815.5(e), the operator shall conduct the measurements described in this section.
(c) The operator shall:

1. Determine the sum of outgoing weights of organic waste recovered from the mixed waste organic collection stream by adding together the weights determined pursuant to Section 17409.5.2(b)(6) for each operating day that measurements were conducted during the reporting period.
2. Determine the sum of outgoing weights of organic waste removed from the mixed waste organic collection stream for landfill disposal by adding together the weights as measured pursuant to Section 17409.5.3(b)(5) for each operating day that measurements were conducted during the reporting period.
3. Report the sums of Subdivisions (c)(1) and (c)(2) to the Department pursuant to Section 18815.5.
(d) The operator shall additionally:

1. Determine the sum of outgoing weights of organic waste recovered from the source separated organic waste collection stream by adding together the weights determined pursuant to Section 17409.5.4(b)(6) for each operating day that measurements were conducted during the reporting period.
(2) Determine the sum of outgoing weights of organic waste removed from the source
separated organic waste collection stream that is sent for landfill disposal by adding
together the weights as measured pursuant to Section 17409.5.5(b)(5) for each
operating day that measurements were conducted during the reporting period.
(3) Report the sums of Subdivisions (d)(1) and (d)(2) to the Department pursuant to
Section 18815.5.
(e) The operator shall maintain records demonstrating compliance with this section in a
manner approved by the EA and as described in Section 17414.2(a).

Note:
Authority cited: Sections 40502, 43020, and 43021 Public Resources Code.
Reference: Sections 40053, 42652.5, 43020 and 43021, Public Resources Code and
Section 39730.6, Health and Safety Code.

Section 17409.5.2. Measuring Organic Waste Recovered from Mixed Waste
Organic Collection Stream.
(a) The operator of an attended operation or facility that accepts a mixed waste organic
collection stream shall measure the amount by weight of organic waste separated from
the mixed waste organic collection stream after processing for end-use, recovery or
further processing.
(1) The measurements required pursuant to this section shall be conducted at the
following frequency:
(A) For each reporting period, the operator shall perform the sampling protocol
required in Subdivision (b) over ten (10) consecutive operating days.
(B) An operator may use the results of samples conducted over a period of more
than 10 days if the following apply:
1. If less than 10 additional days are sampled in the reporting period, the
additional operating days where sampling is performed shall be a
consecutive continuation of the original 10 consecutive days of sampling.
2. If 10 additional operating days or more are selected for sampling, the
additional operating days shall be conducted on consecutive days but may be
performed during a different part of the reporting period and are not required to
be a continuation of the original 10 operating days.
(b) The operator shall comply with Subdivision (a) by using the following protocol:
(1) On each sampling day take one sample of at least two hundred (200) pounds
from each organic waste type separated after processing at the operation or facility
on that operating day prior to sending to a destination for end-use, recovery, or
further processing. Each sample shall be:
(A) Representative of a typical operating day; and
(B) A random, composite sample taken either from various times during the
operating day or from various locations within each pile of each of the organic
waste types separated after processing.
(2) Record the weight of each sample from each organic waste type. If the total
weight of a single organic waste type processed in a single operating day is less than
200 pounds, the operator shall sample all of that organic waste type that is separated
after processing for end-use, recovery or further processing.

(a) The operator of an attended operation or facility that accepts a mixed waste organic collection stream shall measure the amount by weight of organic waste present in the material removed from the mixed waste organic collection stream after processing that is sent to disposal.

(1) The measurements required pursuant to this section shall be conducted at the following frequency:

(A) For each reporting period, the operator shall perform the sampling protocol required in Subdivision (b) over ten (10) consecutive operating days.

(B) An operator may use the results of samples conducted over a period of more than 10 days if the following apply:

1. If less than 10 additional days are sampled in the reporting period, the additional operating days where sampling is performed shall be a consecutive continuation of the original 10 consecutive days of sampling.

2. If 10 additional operating days or more are selected for sampling, the additional operating days shall be conducted on consecutive days but may be performed during a different part of the reporting period and are not required to be a continuation of the original 10 operating days.

(b) The operator shall comply with Subdivision (a) by using the following protocol:
(1) On each sampling day, take one sample of at least two hundred (200) pounds of
the material removed from mixed waste organic collection stream at the operation or
facility on that operating day prior to sending to disposal. Each sample shall be:
   (A) Representative of a typical operating day; and
   (B) A random, composite sample taken either from various times during the
operating day or from various locations within the pile(s) of material that will be
sent to disposal.
(2) Record the total weight of the sample. If the total weight of the materials removed
from the mixed waste organic collection stream in a single operating day is less than
200 pounds, the operator shall sample the stream that will be sent to disposal.
(3) Remove any incompatible material and determine the remaining weight of the
organic waste in the sample.
(4) Then determine the ratio of organic waste present in the materials removed from
the mixed waste organic collection stream for disposal by dividing the total weight
from Subdivision (b)(3) by the total weight recorded in Subdivision (b)(2).
(5) Determine the total weight of organic waste removed from the mixed organic
collection stream that is sent to disposal by multiplying the ratio determined pursuant
to Subdivision (b)(4) by the total weight of the materials removed from the mixed
waste organic collection stream for disposal.
(c) The operator shall conduct a measurement in the presence of the EA when
requested.
(d) If it is determined by the EA that the measurements do not accurately reflect the
records, the EA may require the operator to increase the frequency of measurements,
revise the measurement protocol, or both to improve accuracy.
(e) The operator shall maintain records of measurements and the training of personnel in
evaluating the amount of organic waste in the material removed from mixed waste
organic collection stream for disposal.
(f) For the purposes of this section “disposal” has the same meaning as “Activities that
constitute landfill disposal” as defined in Section 18982.

Note:
Authority cited: Sections 40502, 43020, and 43021, Public Resources Code.
Reference: Sections 40053, 42652.5, 43020 and 43021, Public Resources Code and
Section 39730.6, Health and Safety Code.

Section 17409.5.4. Measuring Organic Waste Recovered from Source Separated
Organic Waste Collection Stream.
(a) The operator of an attended operation or facility that accepts source separated
organic waste shall measure the amount by weight of organic waste separated from the
source separated organic waste collection stream after processing for end-use,
recovery or further processing.
   (1) The measurements required pursuant to this section shall be conducted at the
following frequency:
      (A) For each reporting period, the operator shall perform the sampling protocol
required in Subdivision (b) over ten (10) consecutive operating days.
(B) An operator may use the results of samples conducted over a period of more than 10 days if the following apply:

1. If less than 10 additional days are sampled in the reporting period, the additional operating days where sampling is performed shall be a consecutive continuation of the original 10 consecutive days of sampling.

2. If 10 additional operating days or more are selected for sampling, the additional operating days shall be conducted on consecutive days but may be performed during a different part of the reporting period and are not required to be a continuation of the original 10 operating days.

(b) The operator shall comply with Subdivision (a) by using the following protocol:

(1) On each sampling day take one sample of at least two hundred (200) pounds from each organic waste type separated after processing at the operation or facility on that operating day prior to sending to a destination for end-use, recovery, or further processing. Each sample shall be:

(A) Representative of a typical operating day; and

(B) A random, composite sample taken either from various times during the operating day or from various locations within each pile of each of the organic waste types separated after processing.

(2) Record the weight of each sample from each organic waste type. If the total weight of a single organic waste type processed in a single operating day is less than 200 pounds, the operator shall sample all of that organic waste type that is separated after processing for end-use, recovery or further processing.

(3) For each sample, remove any incompatible material and determine the remaining weight of organic waste in that sample.

(4) Then determine a ratio for each type of organic waste in the source separated organic waste collection stream by dividing the total weight from Subdivision (b)(3) by the total weight recorded in Subdivision (b)(2).

(5) Multiply the ratio determined for each type of organic waste type pursuant to Subdivision (b)(4) by the total weight of all of the same type of organic waste separated after processing and destined for end-use, recovery or further processing.

(6) Determine the total weight of organic waste separated from the source separated organic waste collection stream for recovery by adding the sum of all the weights calculated pursuant to Subdivision (b)(5).

(c) The operator shall conduct a measurement in the presence of the EA when requested.

(d) If it is determined by the EA that the measurements do not accurately reflect the records, the EA may require the operator to increase the frequency of measurements, revise the measurement protocol, or both to improve accuracy.

(e) If the operator sends any material to a POTW that is not authorized to receive, pursuant to Section 17896.6(a)(1)(C) or (D), that material shall be deemed to constitute landfill disposal pursuant to Section 18983.1(a)(3), and the weight of that material shall be added to the total weight calculated pursuant to Section 17409.5.5.

Note:
Authority cited: Sections 40502, 43020, and 43021, Public Resources Code.

Section 17409.5.5. Measuring Organic Waste in Materials Removed from Source Separated Organic Waste Collection Stream For Disposal.
(a) The operator of an attended operation or facility that accepts a source separated organic waste shall measure the amount of organic waste by weight present in the materials removed from the source separated organic waste collection stream after processing that is sent to disposal.

(1) The measurements required pursuant to this section shall be conducted at the following frequency:
(A) For each reporting period, the operator shall perform the sampling protocol required in Subdivision (b) over ten (10) consecutive operating days.
(B) An operator may use the results of samples conducted over a period of more than 10 days if the following apply:
   1. If less than 10 additional days are sampled in the reporting period, the additional operating days where sampling is performed shall be a consecutive continuation of the original 10 consecutive days of sampling.
   2. If 10 additional operating days or more are selected for sampling, the additional operating days shall be conducted on consecutive days but may be performed during a different part of the reporting period and are not required to be a continuation of the original 10 operating days.

(b) The operator shall comply with Subdivision (a) by using the following protocol:
(1) On each sampling day take one sample of at least two hundred (200) pounds of the materials removed from source separated organic waste collection stream at the operation or facility on that operating day prior to sending to disposal. Each sample shall be:
   (A) Representative of a typical operating day; and
   (B) A random, composite sample taken either from various times during the operating day or from various locations within the pile(s) of material that will be sent to disposal.
(2) Record the total weight of the sample. If the total weight of the materials removed from the source separated organic waste collection stream in a single operating day is less than 200 pounds, the operator shall sample the stream that will be sent to disposal.
(3) Remove any incompatible material and determine the remaining weight of the organic waste in the sample.
(4) Then determine the ratio of organic waste present in the material removed from the source separated organic waste collection stream for disposal by dividing the total weight from Subdivision (b)(3) by the total weight recorded in Subdivision (b)(2).
(5) Determine the total weight of organic waste removed from the source separated organic waste collection stream that is sent to disposal by multiplying the ratio determined pursuant to Subdivision (b)(4) by the total weight of the materials removed from the source separated organic waste collection stream for disposal.
(c) The operator shall conduct a measurement in the presence of the EA when requested.
(d) If it is determined by the EA that the measurements do not accurately reflect the records, the EA may require the operator to increase the frequency of measurements, revise the measurement protocol, or both to improve accuracy.

(e) For the purposes of this section “disposal” has the same meaning as “Activities that constitute landfill disposal” as defined in Section 18982.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Section 17409.5.6. Source Separated Organic Waste Handling.
(a) Source separated organic waste processing shall be kept separate from other solid waste streams.
   (1) Remnant organic material separated from the gray container collection stream for recovery can be combined with organic material removed from the source separated organic waste collection stream for recovery once the material from the source separated organic waste collection stream has gone through the measurement protocol described in Section 17409.5.4.
   (2) Construction and Demolition Debris, as defined in Section 17381, shall be kept separate from the source separated organic waste collection stream and the mixed waste organic collection stream and shall not be included in the measurements required pursuant to Sections 17409.5.1-17409.5.5 and 17409.5.8.
(b) Source separated organic waste and organic waste removed from a mixed waste organic collection service for recovery shall be:
   (1) Stored away from other activity areas in specified, clearly identifiable areas as described in the Facility Plan or Transfer/Processing Report; and
   (2) Removed from the site consistent with Section 17410.1 and either:
      (A) Transported only to another solid waste facility or operation for additional processing, composting, in-vessel digestion, or other recovery as specified in Section 18983.1; or
      (B) Used in a manner approved by local, state, and federal agencies having appropriate jurisdiction.

Note:
Authority cited: Sections 40502, 43020 and 43021 Public Resources Code.

Section 17409.5.7. Gray Container Waste Evaluations.
(a) Commencing July 1, 2022, the operator of an attended operation or facility that receives a gray container collection stream, and more than 500 tons of solid waste from at least one jurisdiction annually, shall conduct waste evaluations on the gray container collection stream consistent with this section.
(b) The operator shall perform one gray container waste evaluation per quarter.
(c) The operator shall use the following measurement protocol to comply with this section:

(1) Take one sample of at least 200 pounds from the incoming gray container collection stream received by the facility. Each sample shall be:
   (A) Representative of a typical operating day; and
   (B) A random, composite sample taken from various times during the operating day.

(2) Record the weight of the sample.

(3) For that sample, remove any remnant organic material and determine the weight of that remnant organic material.

(4) Then determine the ratio of remnant organic material in the sample by dividing the total weight from Subdivision (a)(3) by the total weight recorded in Subdivision (a)(2).

(d) Upon written notification to the applicable EA, the operator may conduct offsite gray container waste evaluations at an alternative, permitted or authorized solid waste facility or operation provided that the operator subject to this section does not process the material prior to its transfer offsite for the waste evaluation.

   (1) The results of an offsite gray container waste evaluation performed under Subdivision (d) shall be reported by the transfer/processing operation or facility subject to this section as required in Section 18815.5 and shall not be reported by the alternative solid waste facility or operation.

(e) The operator shall conduct a measurement in the presence of the EA when requested.

(f) If it is determined by the EA that the measurements do not accurately reflect the records, the EA may require the operator to increase the frequency of measurements, revise the measurement protocol, or both to improve accuracy.

(g) The operator shall maintain records of waste evaluations and the training of personnel in evaluating the amount of remnant organic material. These records shall be maintained for five (5) years in the operating record and be available for review by the EA and other duly authorized regulatory agencies.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Section 17409.5.8. Incompatible Materials Limit in Recovered Organic Waste.

(a) A transfer/processing facility or operation shall only send offsite that organic waste recovered after processing from the source separated organic waste stream and from the mixed waste organic collection stream that meets the following requirements:

   (1) On and after January 1, 2022 with no more than 20 percent of incompatible material by weight; and
   (2) On and after January 1, 2024 with no more than 10 percent of incompatible material by weight.

(b) The operator shall measure compliance with Subdivision (a) by using the following protocol:
(1) Use the same samples taken to comply with Sections 17409.5.2 and 17409.5.4 and the same total weight of each of those samples.

(2) For each sample, remove any incompatible material and determine the weight of the incompatibles in that sample.

(3) Then determine a ratio of the incompatible material for each type of organic waste in the mixed waste organic collection stream and the source separated organic waste collection waste stream by dividing the total from Subdivision (b)(2) by the total from Subdivision (b)(1).

(4) Multiply the ratio determined pursuant to Subdivision (b)(3) for each type of organic waste by the total weight of all of the same type of organic waste separated after processing and destined for end-use, recovery or further processing.

(5) Determine the total weight of incompatible materials separated from the mixed waste organic collection stream and from the source separated organic waste stream by adding the sum of all the weights calculated pursuant to Subdivision (b)(4).

(6) Determine the ratio of incompatible materials by taking the total weight of incompatible materials determined pursuant to Subdivision (b)(5) and dividing by the sum of the outgoing weights of the materials recovered from the mixed waste organic collection stream and from the source separated organic waste stream.

(7) Determine the percentage of incompatible materials by multiplying the ratio determined pursuant to Subdivision (b)(6) by 100.

(c) The recovered organic waste stream shall not be subject to Section 17409.5.8(a) if the recovered organic waste is sent to one or more of the following types of facilities that will further process that waste:

(1) A transfer/processing facility or operation that complies with Section 17409.5.8(a).

(2) A compostable material handling facility or operation that, pursuant to Section 17867(a)(16), demonstrates that the percentage of organic waste in the materials sent to disposal is:

(A) On and after January 1, 2022, less than 20 percent.

(B) On and after January 1, 2024, less than 10 percent.

(3) An in-vessel digestion facility or operation that, pursuant to Section 17896.44.1, demonstrates that the percentage of organic waste in the materials sent to disposal is:

(A) On and after January 1, 2022, less than 20 percent.

(B) On and after January 1, 2024, less than 10 percent.

(4) An activity that meets the definition of a recycling center as described in Section 17402.5(d).

(d) The operator shall conduct a measurement in the presence of the EA when requested.

(e) If it is determined by the EA that the measurements do not accurately reflect the records, the EA may require the operator to increase the frequency of measurements, revise the measurement protocol, or both to improve accuracy.

(f) For the purposes of this section “disposal” has the same meaning as “Activities that constitute landfill disposal” as defined in Section 18982.

Note:

Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

**Section 17409.5.9. Alternatives to Measurement Protocols.**

(a) The EA may approve, with concurrence by the Department, alternative measurement protocols to the requirements of Sections 17409.5.2, 17409.5.3, 17409.5.4, 17409.5.5, 17409.5.7, and 17409.5.8, as long as they will still ensure that the measurements will be as accurate. The Department shall concur with the EA approval if it finds that the alternative measurement protocols will ensure that the measurements will be as accurate. For the purposes of this section, alternative measurement protocols may include, but are not limited to, measurements made with a different sampling frequency and/or weight than those specified in this article.

(b) When required by this article, the operator shall report tonnages using a scale. If scales are not accessible, the EA may approve, with written notification to the Department, the operator to report the tonnages using a method described in Section 18815.9(g).

(c) The EA may approve, with written concurrence by the Department, a substitute to certain requirements to sample and measure specific types of organic waste that are designated for an organic waste recovery activity with a quality standard imposed on the operator by the person, entity, or solid waste facility or operation accepting that organic waste type as specified in this subdivision. The Department shall concur with the EA approval if it verifies that there is a quality standard imposed on the operator by the person, entity, or solid waste facility or operation accepting that organic waste type as specified in this subdivision and that the standard meets the requirements in Subdivision (c)(1)(A) through (G), below.

(1) The EA may waive the requirements in Sections 17409.5.2, 17409.5.4 and 17409.5.8 to sample a type of organic waste that the operator recovered from the source separated organic waste collection stream or from the mixed waste organic collection stream if the following apply:

(A) The person, entity, or solid waste facility or operation accepting that organic waste type requires the operator to demonstrate that the presence of incompatible materials in the organic waste type is less than or equal to the level of incompatible materials specified in Section 17409.5.8(a);

(B) The person, entity, or solid waste facility or operation accepting that organic waste type requires the operator to demonstrate the presence of incompatible materials through sampling;

(C) The sampling protocol that is used to meet the quality standard of the person, entity, or solid waste facility or operation accepting that organic waste type is designed to accurately reveal the percentage of incompatible material by weight that is present in the samples;

(D) The end-user and the operator have a contract or written agreement specifying the sampling protocol and the maximum level of incompatible materials allowed in the organic material before it is accepted by the end-user;

(E) The contract or written agreement is available for review by the EA;

(F) The sampling protocol is at least as effective as the sampling required in Sections 17409.5.2, 17409.5.4 and 17409.5.8; and
(G) The operator allows the EA to observe sampling upon request.
(d) An operator that is authorized to substitute a quality standard for sampling requirements as specified in Subdivision (c) for a specific type of recovered organic waste type shall apply the weight of incompatible materials as measured in the quality standard to total weight of that organic waste type for the purposes of determining organic waste recovery efficiency as specified in Section 17409.5.1.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Section 17409.5.10. Solid Waste Handling at Consolidation Sites.
(a) Consolidation sites are not subject to the requirements of Sections 17409.5.1 through 17409.5.9.
(b) Consolidation sites are not subject to the recordkeeping and reporting requirements of Section 17414.2.
(c) Consolidation sites shall keep source separated organic waste streams separate from other solid waste streams.
(d) Materials shall be transported only to transfer/processing facilities or operations that comply with Section 17409.5.1.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Section 17409.5.10.5. Solid Waste Handling at Co-located Facilities or Operations.
(a) The operator of an attended solid waste facility or operation that is permitted or authorized and accepts a mixed waste organic collection stream, a source separated organic waste collection stream, or both for processing and directly transfers the organic waste recovered from either collection stream to a co-located activity within the boundary of the facility for processing is subject to the following requirements:
(1) If sampling performed pursuant to Section 17409.5.3, 17409.5.5, 17867, or 17896.44.1, whichever is applicable, demonstrates the percent of the material removed for disposal that is organic waste is less than the percent specified in Section 17409.5.8(c)(2) then only the organic waste that is sent off-site for further processing and landfill disposal are subject to the requirements of Sections 17409.5.1 through 17409.5.8.
(2) If sampling performed pursuant to Section 17409.5.3, 17409.5.5, 17867, or 17896.44.1, whichever is applicable, demonstrates that the percent of the material for disposal that is organic waste is more than the percent specified in Section 17409.5.8(c)(2) then the organic waste removed after processing and sent for further processing on-site or off-site and landfill disposal are subject to the requirements of Sections 17409.5.1 through 17409.5.8.
Section 17409.5.11. Remnant Organic Material Separated From Gray Container Processing.
(a) Remnant organic material separated from the gray container collection stream for recovery is not subject to the requirements of Sections 17409.5.1 and 17409.5.8.
(1) Remnant organic material removed from the gray container collection stream for recovery can be combined with organic material removed from the source separated organic waste collection stream for recovery once the material from the source separated organic waste collection stream has gone through the measurement protocol described in Section 17409.5.4.

Section 17409.5.12. Transfer/Processing EA Verification Requirements.
(a) The operator shall provide the EA all requested information and other assistance so that the EA can verify that the measurements conducted by the operator are consistent with the requirements of Sections 17409.5.2, 17409.5.3, 17409.5.4, 17409.5.5, 17409.5.7, and 17409.5.8.
(b) The EA shall conduct such verification through:
(1) The review of records required by Section 17414.2; and
(2) The periodic, direct observation of measurements at a frequency necessary to ensure that the operator is performing such measurements in a manner consistent with Sections 17409.5.2, 17409.5.3, 17409.5.4, 17409.5.5, 17409.5.7, and 17409.5.8.
(c) If, at any time, the EA determines that the records under Section 17414.2(b) indicate that compostable material is sent offsite to any destination(s) other than an authorized permitted solid waste facility or operation, the EA shall directly observe any compostable material onsite designated for such offsite destination(s). If physical contaminants, based on visual observation, clearly exceed the limits in Section 17852(a)(24.5)(A)1., the EA may require the operator to further process such material.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.
Article 6.3. Record Keeping Requirements

Section 17414.2. Recordkeeping and Reporting Requirements - Organic Waste Recovery.

(a) The operator shall keep the following records:
(1) The results of each sample conducted pursuant to Sections 17409.5.2, 17409.5.3, 17409.5.4, 17409.5.5, 17409.5.7, and 17409.5.8.
(2) The daily outgoing weights of material recovered from the mixed organic waste stream.
(3) The daily outgoing weights of materials removed from the mixed organic waste stream and sent to landfill disposal.
(4) The daily outgoing weights of material recovered from the source separated organic waste stream.
(5) The daily outgoing weights of material removed from the source separated organic waste stream and sent to landfill disposal.
(6) The daily incoming weights of mixed organic waste.
(7) The daily incoming weights of source separated organic waste.
(8) The results of the formula calculated pursuant to Section 17409.5.8(b)(7).
(9) If the operator complies with the incompatible material requirements in Section 17409.5.8 by sending material to a facility that meets the requirements of Section 17409.5.8, the operator shall keep a record of:
   (A) The name, address, location, and if applicable the RDRS number, of each facility that material is sent to.
   (B) The daily outgoing weights of material sent to each facility by type.
(10) The results of the waste evaluations conducted pursuant to Section 17409.5.7.
    (A) A copy of the notification if the waste evaluation was performed at an alternative solid waste facility.
(b) The operator shall record and maintain the following records regarding compostable material that is sent offsite to any destination(s) other than an authorized permitted solid waste facility or operation:
(1) The level of incompatible materials in that material as measured pursuant to 17409.5.8; and
(2) The total weights of that material per day.
(c) The records required in Subdivisions (a) and (b) shall be:
   (1) Adequate for overall planning and control purposes.
   (2) As current and accurate as practicable.
(d) All records required by this article shall be kept by the operator in one location and accessible for five (5) years and shall be available for inspection by the EA and other duly authorized regulatory agencies during normal working hours.
(e) The operator shall submit copies of specified records to the EA upon request or at a frequency approved by the EA.
(f) Each operator shall maintain records in accordance with Title 14, California Code of Regulations, Division 7, Chapter 9, Article 9.25, Section 18815.1 et. seq. The records shall be available for inspections as authorized by that article during normal business hours and retained in the operating record near the site or in an alternative location approved by the EA.
Chapter 3.1. Composting Operations Regulatory Requirements

Article 2. Regulatory Tiers for Composting Operations and Facilities

Section 17855. Excluded Activities.
(a) Except as provided otherwise in this Chapter, the activities listed in this section do not constitute compostable material handling operations or facilities and are not required to meet the requirements set forth herein. Nothing in this section precludes the EA or the Department from inspecting an excluded activity to verify that the activity is being conducted in a manner that qualifies as an excluded activity or from taking any appropriate enforcement action.

(1) An activity is excluded if it handles agricultural material, derived from an agricultural site, and returns a similar amount of the material produced to that same agricultural site, or an agricultural site owned or leased by the owner, parent, or subsidiary of the composting activity. No more than an incidental amount of up to 1,000 cubic yards of compost product may be given away or sold annually.

(2) Vermicomposting is an excluded activity. The handling of compostable material prior to and after its use as a growth medium during the vermicomposting process is not an excluded activity and is subject to the requirements of this chapter or the Transfer/Processing Operations and Facilities Regulatory Requirements (Title 14, California Code of Regulations, Division 7, Chapter 3, Article 6.0-6.35), whichever is applicable, as follows:

(A) when the compostable material is active compost or is likely to become active compost, as determined by the EA, the requirements of this chapter apply;
(B) at all other times when it is not being used as a growth medium during vermicomposting, the compostable material is subject to the Transfer/Processing Operations and Facilities Regulatory Requirements.

(3) Mushroom farming is an excluded activity. The handling of compostable material prior to and after its use as a growth medium during the mushroom farming process is not an excluded activity and is subject to the requirements of this chapter or the Transfer/Processing Operations and Facilities Regulatory Requirements (Title 14, California Code of Regulations, Division 7, Chapter 3, Article 6.0-6.35), whichever is applicable, as follows:

(A) when the compostable material is active compost or is likely to become active compost, as determined by the EA, the requirements of this chapter apply;
(B) at all other times when it is not being used as a growth medium during mushroom farming, the compostable material is subject to the Transfer/Processing Operations and Facilities Regulatory Requirements.
(4) Composting green material, agricultural material, food material, and vegetative food material, alone or in combination, is an excluded activity if the total amount of feedstock and compost on-site at any one time does not exceed 100 cubic yards and 750 square feet.[Note: Persons handling compostable material under the above exclusion are obligated to obtain all permits, licenses, or other clearances that may be required by other regulatory agencies including, but not limited to local health entities and local land use authorities.]

(5) The handling of compostable materials is an excluded activity if:

(A) the activity is located at a facility (i.e., landfill or transfer/processing facility) that has a tiered or full permit as defined in section 18101, has a Report of Facility Information which is completed and submitted to the EA that identifies and describes the activity and meets the requirements of Titles 14 or 27; and,

(B) the activity is solely for the temporary storage of biosolids sludge at a Publicly Owned Treatment Works (POTW), or

(C) the activity is located at the site of biomass conversion and is for use in biomass conversion as defined in Public Resources Code section 40106; or

(D) the activity is part of a silvicultural operation or a wood, paper, or wood product manufacturing operation; or

(E) the activity is part of an agricultural operation and is used to temporarily store or process agricultural material not used in the production of compost or mulch; or

(F) the activity is part of an operation used to chip and grind materials derived from and applied to lands owned or leased by the owner, parent, or subsidiary of the operation; or

(G) the activity is part of an agricultural operation used to chip and grind agricultural material produced on lands owned or leased by the owner, parent, or subsidiary of the agricultural operation, for use in biomass conversion; or

(H) the activity is part of a licensed animal food manufacturing or a licensed rendering operation. An activity that is a licensed animal food manufacturing activity, or a rendering activity which is authorized by the California Department of Food and Agriculture pursuant to Section 19300 of the Food and Agricultural Code, and in which no solid waste feedstock bypasses the manufacturing or rendering process; or

(i) the activity is the storage of yard trimmings at a publicly designated site for the collection of lot clearing necessary for fire protection provided that the public agency designating the site has notified the fire protection agency; or

(J) the materials are handled in such a way to preclude their reaching temperatures at or above 122 degrees Fahrenheit as determined by the EA; or

(6) Storage of bagged products from compostable material is an excluded activity provided that such bags are no greater than 5 cubic yards.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.
Section 17867. General Operating Standards.

(a) All compostable materials handling operations and facilities shall meet the following requirements:

(1) All handling activities are prohibited from composting any material specified in section 17855.2 of this Chapter.

(2) All handling activities shall be conducted in a manner that minimizes odor impacts so as to not cause a nuisance.

(3) All handling activities shall be conducted in a manner that minimizes vectors, litter, hazards, nuisances, and noise impacts; and minimizes human contact with, inhalation, ingestion, and transportation of dust, particulates, and pathogenic organisms.

(4) Random load checks of feedstocks, additives, and amendments for contaminants shall be conducted.

(5) Contamination of compostable materials that has undergone pathogen reduction, pursuant to section 17868.3 of this Chapter, with feedstocks, compost, or wastes that have not undergone pathogen reduction, pursuant to section 17868.3 of this Chapter, or additives shall be prevented.

(6) Unauthorized human or animal access to the facility shall be prevented.

(7) Traffic flow into, on, and out of the composting operation or facility shall be controlled in a safe manner.

(8) All compostable materials handling operations and facilities that are open for public business shall post legible signs at all public entrances. These signs shall include the following information:

   (A) name of the operation or facility,
   (B) name of the operator,
   (C) facility hours of operation,
   (D) materials that will and will not be accepted, if applicable,
   (E) schedule of charges, if applicable, and
   (F) phone number where operator or designee can be reached in case of an emergency.

(9) The operator shall provide fire prevention, protection and control measures, including, but not limited to, temperature monitoring of windrows and piles, adequate water supply for fire suppression, and the isolation of potential ignition sources from combustible materials. Firelanes shall be provided to allow fire control equipment access to all operation areas.

(10) The operator shall provide telephone or radio communication capability for emergency purposes.

(11) Physical Contaminants and refuse removed from feedstock, compost, or chipped and ground material shall be removed from the site within 7 days and transported to an appropriate facility.

(12) Enclosed operations and facilities shall provide ventilation to prevent adverse public health effects from decomposition gases.

(13) The operator shall ensure that leachate is controlled to prevent contact with the public.
(14) The operator shall prevent or remove physical contaminants in compost and chipped and ground materials that may cause injury to humans.

(15) An attendant shall be on duty during business hours if the operation or facility is open to the public.

(16) The operator shall determine the quarterly percentage of organic waste contained in materials sent to landfill disposal.

(A) To determine the percentage, the operator shall measure the amount of organic waste by weight present in the materials sent to landfill disposal.

1. The measurements required pursuant to this section shall be conducted at the following frequency:
   i. For each reporting period, the operator shall perform the sampling protocol required in Subdivision (a)(16)(B) over at least ten (10) consecutive operating days.
   ii. An operator may use the results of samples conducted over a period of more than 10 days if the following apply:
      1. If less than 10 additional days are sampled in the reporting period, the additional operating days where sampling is performed shall be a consecutive continuation of the original 10 consecutive days of sampling.
      2. If 10 additional operating days or more are selected for sampling, the additional operating days shall be conducted on consecutive days but may be performed during a different part of the reporting period and are not required to be a continuation of the original 10 operating days.

(B) The operator shall comply with Subdivision (a)(16)(A) by using the following protocol:

1. Take one sample of at least two hundred (200) pounds of the materials that the operation or facility is sending to landfill disposal on that operating day. Each sample shall be:
   i. Representative of a typical operating day; and
   ii. A random, composite sample taken either from various times during the operating day or from various locations within the pile(s) of material that will be sent to disposal.

2. Record the weight of the sample. If the total weight of material sent to landfill disposal in a single operating day is less than 200 pounds, the operator shall sample all of the material that is sent to landfill disposal that day.

3. Remove any material that is not organic waste and determine the remaining weight of the organic waste in the sample.

4. Then determine the ratio of organic waste present in the materials removed for landfill disposal by dividing the total from Subdivision (a)(16)(B)3 by the total from Subdivision (a)(16)(B)2.

5. Determine the total weight of organic waste that is sent to landfill disposal by multiplying the ratio determined pursuant to Subdivision (a)(16)(B)4 by the total weight of the materials sent to landfill disposal.

6. Determine the sum of outgoing weights of organic waste present in the materials that is sent to landfill disposal as determined pursuant to Subdivision (a)(16)(B)5.
7. Determine the ratio of organic waste sent to landfill disposal by dividing the total from Subdivision (a)(16)(B)6 by the total outgoing weights of material that is sent to landfill disposal.

8. Determine the percentage of organic waste present in the material sent to landfill disposal by multiplying the ratio as determined pursuant to Subdivision (a)(16)(B)7 by 100.

(C) The operator shall conduct a measurement in the presence of the EA when requested.

(D) If it is determined by the EA that the measurements do not accurately reflect the records, the EA may require the operator to increase the frequency of measurements, revise the measurement protocol, or both to improve accuracy.

(E) An alternative measurement protocol for determining the amount of organic waste sent to landfill disposal may be approved by the EA, with concurrence by the Department. For the purposes of this section, alternative measurement protocols may include, but are not limited to, measurements made with a different sampling frequency and/or weight than those specified in this article. The Department shall concur with EA approval if it finds that the alternative measurement protocol will ensure that the measurements will be as accurate as those in Subsection (a)(16)(A) and (B), above.

(F) For the purposes of the measurements required by this Subdivision, organic waste that are textiles, carpet, hazardous wood waste, non-compostable paper, human or pet waste, and material subject to a quarantine on movement issued by a county agricultural commissioner, is not required to be measured as organic waste.

(G) Organic waste sent to an activity listed in Section 18983.1(a) shall constitute landfill disposal.

**Article 8. Composting Operation and Facility Records**

**Section 17869. General Record Keeping and Reporting Requirements.**

Except as provided in subsection (d), all compostable materials handling operations and facilities shall meet the following requirements:

(a) All records required by this Chapter shall be kept in one location and accessible for five (5) years and shall be available for inspection by authorized representatives of the Department, EA, local health entity, and other duly authorized regulatory and EAs during normal working hours.

(b) The operator shall record any special occurrences encountered during operation and methods used to resolve problems arising from these events, including details of all incidents that required implementing emergency procedures.

(c) The operator shall record any public complaints received by the operator, including:

(1) the nature of the complaint,
(2) the date the complaint was received,
(3) if available, the name, address, and telephone number of the person or persons making the complaint, and
(4) any actions taken to respond to the complaint.

(d) The operator shall record the quantity and type of feedstock received and quantity of compost and chipped and ground material produced, maintain records listed in this subdivision in a form and manner approved by the EA. Agricultural compostable materials handling operations shall maintain records only for compostable material accepted from off-site. Such records shall be adequate for overall planning and control purposes and be as current and accurate as practicable. The records shall be maintained for five (5) years in the operating record and be available for review by the appropriate jurisdiction of origin, haulers, and other duly authorized regulatory agencies.

(e) The operator shall maintain the following records under this section

(1) The quarterly percentage of organic waste contained in materials sent to landfill disposal as calculated pursuant to Section 17867(a)(16).
(2) Daily outgoing weights of material sent to disposal.
(3) Daily outgoing weights of compost or chipped and ground material produced.
(4) Daily incoming weights by material type.
(5) The weight of compostable material sent offsite to any destination(s) other than an authorized permitted solid waste facility or operation.

(f) The operator shall record all test results generated by compliance with Article 7 of this Chapter, including but not limited to, metal concentrations, physical contamination limits, fecal coliform and Salmonella sp. densities, temperature measurements, and dates of windrow turnings; chipping and grinding operations and facilities must record the determinations of the percentage of physical contaminants required by 17862.1(d).

(g) The operator shall record and retain records of any serious injury to the public occurring on-site and any complaint of adverse health effects to the public attributed to operations. Serious injury means any injury that requires inpatient hospitalization for a period in excess of 24 hours or in which a member of the public suffers a loss of any member of the body or suffers any degree of permanent disfigurement.

(h) The operator shall retain a record of training and instruction completed in accordance with section 17867.5.

(i) Each operator shall maintain records in accordance with Title 14, California Code of Regulations, Division 7, Chapter 9, Article 9.25, Section 18815.1 et. seq. The records shall be available for inspections as authorized by that article during normal business hours and retained in the operating record near the site or in an alternative location approved by the Local Enforcement Agency.

(j) The operator shall provide the EA all requested information and other assistance so that the EA can verify that the measurements conducted by the operator are consistent with the requirements of Section 17867(a)(16). The EA shall conduct such verification through:

(1) The review of records required by this section; and
(2) The periodic, direct observation of measurements at a frequency necessary to
ensure that the operator is performing such measurements in a manner consistent
with this section.

(k) If, at any time, the EA determines that the records required by this section indicate
that compostable material is sent offsite to any destination(s) other than an authorized
permitted solid waste facility or operation, the EA shall directly observe any
compostable material onsite designated for such offsite destination(s). If physical
contaminants, based on visual observation, clearly exceed the limits in Section
17852(a)(24.5)(A)1., the EA may require the operator to further process such material.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.
Reference: Sections 42652.5, 43020 and 43021, Public Resources Code and Section
39730.6, Health and Safety Code.

Chapter 3.2. In-Vessel Digestion Operations and Facilities
Regulatory Requirements

Article 1. In-Vessel Digestion Operations and Facilities Regulatory
Requirements

Section 17896.6. Excluded Activities.
(a) The activities listed in this section are not subject to the in-vessel digestion
requirements set forth in this Chapter. Nothing in this section precludes the EA or the
Department from inspecting an excluded activity to verify that the activity is being
conducted in a manner that qualifies as an excluded activity or from taking any
appropriate enforcement action.

(1) A Publicly Owned Treatment Works Treatment Plant (POTW Treatment Plant), as
defined in section 403.3(r) of Title 40 of the Code of Federal Regulations, that receives
vehicle-transported solid waste that is an anaerobically digestible material for the
purpose of anaerobic co-digestion with POTW Treatment Plant wastewater, is excluded
under the following conditions:
(A) Anaerobically digestible materials must be trucked or hauled into a POTW
Treatment Plant. Once on-site, the anaerobically digestible material must be pumped or
off-loaded directly into a covered, leak-proof container and then pumped, or diluted or
slurried and then pumped, and co-digested in an anaerobic digester(s) at the POTW
Treatment Plant. The pumped material may be screened, otherwise separated or
treated prior to anaerobic digestion, but must be processed and conveyed in a
contained system. Any separated material at the POTW that is not suitable for
anaerobic digestion and has no beneficial use shall be further managed as a solid
waste.
(B) The POTW Treatment Plant has developed Standard Operating Procedures for the
acceptance of anaerobically digestible material, the POTW Treatment Plant has notified
the Regional Water Quality Control Board that those Standard Operating Procedures
are being implemented, and a Standard Provision (permit condition) that reflects the acceptance of anaerobically digestible material:

1. has been incorporated into the POTW Treatment Plant's Waste Discharge Requirements or National Pollutant Discharge Elimination System permit; or
2. will be incorporated into the POTW Treatment Plant's Waste Discharge Requirements or National Pollutant Discharge Elimination System permit no later than the next permit renewal.

(C) For the purpose of this exclusion, “anaerobically digestible material” means: inedible kitchen grease as defined in section 19216 of the Food and Agricultural Code, food material as defined in Title 14, CCR, section 17896.2(a)(12) and vegetative food material as defined in Title 14, CCR, section 17896.2(a)(12)(A).

(D) For the purpose of this exclusion, the Department, in consultation with the State Water Resources Control Board and the California Department of Food and Agriculture, will on a case-by-case basis, review and consider approval of additional types of organic materials as potential “anaerobically digestible material” beyond those specified in section 17896.6(a)(1)(C) in accordance with the following:

1. Receipt of a written request to the Department from the General Manager or designee of a POTW Treatment Plant.
   a. The written request must contain the following information:
      i. The purpose of the request.
      ii. Identification of the POTW Treatment Plant proposing to anaerobically co-digest the organic waste material with the POTW wastewater.
      iii. Types of organic material requested for classification as an anaerobically digestible material.
      iv. The source(s) of the waste material.
      v. A description of how the waste material will be handled, processed, stored and transported (before and after receipt at the POTW Treatment Plant).
      vi. A map identifying all proposed physical changes proposed at the POTW Treatment Plant to accommodate the new waste materials.
      vii. Available laboratory test results, engineering reports, research or study to support the request.
      viii. Data and/or reports if this waste material has been used without incident at a different POTW Treatment Plant.
      ix. The name, addresses and phone numbers for the General Manager and designee of the POTW Treatment Plant.
   b. Upon receipt of the written request, the Department will communicate and coordinate the request with and between the State Water Resources Control Board and the California Department of Food and Agriculture and will complete the following actions:
      i. Within 10 days of receipt, send written confirmation to the General Manager and designee of the POTW Treatment Plant indicating receipt of the letter and distribute the letter to appropriate Department staff, as well as to the State Water Resources Control Board and California Department of Food and Agriculture staff contacts for review;
      ii. Within 15 days of receipt, schedule a meeting with State Water Resources Control Board and California Department of Food and Agriculture staff contacts;
      iii. Prior to the meeting, Department staff will review the letter and identify questions and/or issues with the request and make a list of recommendations;
iv. Within 40 days of receipt, conduct a meeting on the request. If an agency representative does not attend the meeting, comments will be accepted by the Department up to close of business on the 45th day after receipt;

v. Within 60 days of receipt, the Department will provide a written decision to the General Manager and designee of the POTW Treatment Plant stating one of the following:

I. The waste type has or has not been determined to be an anaerobically digestible material excluded from both the In-Vessel Digestion Operations and Facilities Regulatory Requirements (pursuant to section 17896.6(a)(1)(C) and the Transfer/Processing Operations and Facility Regulatory Requirements (pursuant to section 17403.1(a)(8));

II. The agencies, based on the information provided, were unable to reach a determination and additional information is required before a determination can be made; or

III. The agencies have determined that additional research or study will need to be conducted and the results analyzed prior to a determination made by the agencies.

IV. If additional information, research or study is necessary, the Department will consult with the General Manager or designee of the POTW, the State Water Resources Control Board and California Department of Food and Agriculture contacts, for the purpose of developing a timeline for either reviewing the additional information or for reviewing a proposed scope of work and timeline for additional research or study.

2. For the purpose of this exclusion, if an organic waste material is determined by the Department to be an anaerobically digestible material for the purpose of co-digestion with the POTW wastewater, the POTW Treatment Plant must comply with section 17896.6(a)(1)(A) prior to receipt of the material at the POTW Treatment Plant.

(2) In-vessel digestion of agricultural material derived from an agricultural site and the digestate or compost produced from digestate is returned to that same agricultural site, or an agricultural site owned or leased by the owner, parent, or subsidiary of the agricultural site on which the in-vessel digester is located. No more than an incidental amount of up to 1,000 cubic yards of compost produced from digestate may be given away or sold annually. Digestate that is not composted may not be given away or sold.

(3) In-vessel digestion at a dairy involving the co-digestion of manure with agricultural material derived on-site, imported agricultural material, and/or imported vegetative food material in accordance with Waste Discharge Requirements issued by a Regional Water Quality Control Board.

(A) Any imported materials delivered to the dairy must be pumped or off-loaded directly into a covered, leak-proof container and then pumped, or diluted or slurried and then pumped, and co-digested in an in-vessel digester at a dairy. The pumped material may be screened, otherwise separated or treated prior to in-vessel digestion, but must be processed and conveyed in a contained system. Any separated material at the dairy that is not suitable for in-vessel digestion and has no beneficial use shall be further managed as a solid waste.

(B) No more than an incidental amount of up to 1,000 cubic yards of compost produced from digestate may be given away or sold annually. Digestate that is not composted may not be given away or sold.
(4) In-vessel digestion activities with less than a total of 100 cubic yards of solid waste, feedstock, and digestate on-site are excluded.

[NOTE: Persons handling solid waste under the above exclusion are obligated to obtain all permits, licenses, or other clearances that may be required by other regulatory agencies including, but not limited to local health entities and local land use authorities.]

(5) Rendering activities, authorized by the California Department of Food and Agriculture pursuant to section 19300 of the Food and Agricultural Code, or an activity that is a licensed animal food manufacturing activity, and in which no solid waste feedstock bypasses the rendering process.

(6) Other discrete handling activities that are already subject to more stringent handling requirements under Federal or State law, as determined by the EA in consultation with the Department, are excluded.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Article 3. Operating Standards for In-Vessel Digestion Operations and Facilities

Section 17896.44.1. Measuring Organic Waste in Material Sent to Disposal.

(a) The operator shall determine the quarterly percentage of organic waste contained in materials sent to landfill disposal.

(1) To determine the percentage, the operator shall measure the amount of organic waste by weight present in the materials sent to landfill disposal.

(A) The measurements required pursuant to this section shall be conducted at the following frequency:

1. For each reporting period, the operator shall perform the sampling protocol required in Subdivision (a)(2) over at least ten (10) consecutive operating days.

2. An operator may use the results of samples conducted over a period of more than 10 days if the following apply:

   i. If less than 10 additional days are sampled in the reporting period, the additional operating days where sampling is performed shall be a consecutive continuation of the original 10 consecutive days of sampling.

   ii. If 10 additional operating days or more are selected for sampling, the additional operating days shall be conducted on consecutive days but may be performed during a different part of the reporting period and are not required to be a continuation of the original 10 operating days.

(2) The operator shall comply with Subdivision (a)(1) by using the following protocol:

(A) Take one sample of at least two hundred (200) pounds of the materials that the operation or facility is sending to landfill disposal on that operating day. Each sample shall be:

1. Representative of a typical operating day; and
2. A random, composite sample taken either from various times during the
operating day or from various locations within the pile(s) of material that will be
sent to disposal.

(B) Record the weight of the sample. If the total weight of material sent to landfill
disposal in a single operating day is less than 200 pounds, the operator shall
sample all of the material that is sent to landfill disposal that day.

(C) Remove any material that is not organic waste and determine the remaining
weight of the organic waste in the sample.

(D) Then determine the ratio of organic waste present in the materials removed for
landfill disposal by dividing the total from Subdivision (a)(2)(C) by the total from
Subdivision (a)(2)(B).

(E) Determine the total weight of organic waste that is sent for landfill disposal by
multiplying the ratio determined pursuant to Subdivision (a)(2)(D) by the total
weight of the materials removed for landfill disposal from the source separated
organic waste collection stream after processing.

(F) Determine the sum of outgoing weights of organic waste present in material
that is sent to landfill disposal as determined pursuant to Subdivision (a)(2)(E).

(G) Determine the ratio of organic waste present in the material sent to landfill
disposal by dividing the total from Subdivision (a)(2)(F) by the total monthly
outgoing weights of residuals removed that is sent for landfill disposal.

(H) Determine the percentage of organic waste present in the material sent to
landfill disposal by multiplying the monthly ratio as determined pursuant to
Subdivision (a)(2)(G) by 100.

(b) The operator shall conduct a measurement in the presence of the EA when
requested.

(c) If it is determined by the EA that the measurements do not accurately reflect the
records, the EA may require the operator to increase the frequency of measurements,
revise the measurement protocol, or both to the improve accuracy.

(d) An alternative measurement protocol for determining the amount of organic waste
contained in the residual may be approved by the EA, with concurrence by the
Department. For the purposes of this section, alternative measurement protocols may
include, but are not limited to, measurements made with a different sampling frequency
and/or weight than those specified in this article. The Department shall concur with EA
approval if it finds that the alternative measurement protocol will ensure that the
measurements will be as accurate as those described in Subsection (a)(1) and (2),
above.

(e) Organic waste that are textiles, carpet, hazardous wood waste, non-compostable
paper and material subject to a quarantine on movement issued by a county agricultural
commissioner is not required to be measured as organic waste.

(f) Organic waste sent to an activity listed in Section 18983.1(a) shall constitute landfill
disposal.

Note:
Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.
Reference: Sections 40053, 42652.5, 43020 and 43021, Public Resources Code and
Section 39730.6, Health and Safety Code.
Article 4. Record Keeping Requirements.

Section 17896.45. Record Keeping and Reporting Requirements.
Each operator shall meet the following requirements:
(a) Each operator shall maintain records of incoming weights or volumes and outgoing
salvage or residual weights or volumes listed in this subdivision in a form and manner
approved by the EA. Such records shall be submitted to the EA or the Department upon
request; be adequate for overall planning and control purposes; and, be as current and
accurate as practicable.
   (1) The quarterly percentage of organic waste contained in material sent to landfill
disposal as calculated pursuant to Section 17896.44.1.
   (2) The outgoing weights or volumes of material sent to disposal.
   (3) Daily outgoing weights or volumes of organic waste recovered and produced.
   (4) Daily outgoing weights or volumes of salvaged materials.
   (5) Daily incoming weights of material.
   (6) The weight of compostable material sent offsite to any destination(s) other than
an authorized permitted solid waste facility or operation.
(b) All records required by this Chapter shall be kept by the operator in one location and
accessible for five (5) years and shall be available for inspection by the EA and other
duly authorized regulatory agencies during normal working hours.
(c) The operator shall submit copies of specified records to the EA upon request or at a
frequency approved by the EA;
(d) The operator shall maintain a daily log book or file of special occurrences
encountered during operations and methods used to resolve problems arising from
these events, including details of all incidents that required implementing emergency
procedures. Special occurrences shall include but are not limited to: fires, injury and
property damage, accidents, explosions, receipt or rejection of prohibited wastes, lack
of sufficient number of personnel pursuant to section 17896.42, flooding, earthquake
damage and other unusual occurrences. In addition, the operator shall notify the EA by
telephone within 24 hours of all incidents requiring the implementation of emergency
procedures, unless the EA determines that a less immediate form of notification will be
sufficient to protect public health and safety and the environment;
(e) The operator shall record any written public complaints received by the operator,
including:
   (1) the nature of the complaint,
   (2) the date the complaint was received,
   (3) if available, the name, address, and telephone number of the person or persons
making the complaint, and
   (4) any actions taken to respond to the complaint;
(f) The operator shall maintain a copy of the written notification to the EA and local
health agency of the name, address and telephone number of the operator or other
person(s) responsible for the operations as required by section 17896.42;
(g) The operator shall maintain records of employee training as required by section
17896.43;
(h) all in-vessel digestion operations and facilities shall maintain records as required by
section 18809 et seq.
(i) The operator shall record all test results generated by compliance with Article 6 of this Chapter, including but not limited to, metal concentrations, physical contamination limits, fecal coliform and Salmonella sp. densities, temperature measurements, and dates of windrow turnings.

(1) The operator shall retain records detailing pathogen reduction methods.

(j) Each operator shall maintain records in accordance with Title 14, California Code of Regulations, Division 7, Chapter 9, Article 9.25, Section 18815 et. seq. The records shall be available for inspections as authorized by that article during normal business hours and retained in the operating record near the site or in an alternative location approved by the Local Enforcement Agency.

(k) The operator shall provide the EA all requested information and other assistance so that the EA can verify that the measurements conducted by the operator are consistent with the requirements of Sections 17896.44.1. The EA shall conduct such verification through:

(1) The review of records required by this section; and

(2) The periodic, direct observation of measurements at a frequency necessary to ensure that the operator is performing such measurements in a manner consistent with this section.

(l) If, at any time, the EA determines that the records required by this section indicate that compostable material is sent offsite to any destination(s) other than an authorized permitted solid waste facility or operation, the EA shall directly observe any compostable material onsite designated for such offsite destination(s). If physical contaminants, based on visual observation, clearly exceed the limits in Section 17852(a)(24.5)(A)1., the EA may require the operator to further process such material.

Note:

Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Article 6. Digestate Handling Standards

17896.57. Digestate Handling.

(a) Digestate not contained in an in-vessel digester shall, within 24 hours, be:

(1) stored or processed on-site in a sealed container or sealed structure unless the EA approves an alternative handling method after determining the alternative method will not pose an additional risk to public health and safety or the environment; or

(2) incorporated in an on-site aerobic compost process.

(A) On-site aerobic composting of digestate is allowable only at large volume in-vessel digestion facilities that have obtained an In-vessel Digestion Facility Permit pursuant to section 17896.13.

(B) All in-vessel digestion facilities that compost on-site shall comply with the sampling requirements of section 17896.58, maximum metal concentrations requirements of section 17896.59, the maximum acceptable pathogen concentrations requirements of section 17896.60(b)(1), and physical contamination limits of section 17896.61; or
(3) removed from the site and either one of the following:

(A) transported only to another solid waste facility or operation for additional processing, composting, or disposal; or

1. Digestate that is transported to another solid waste facility or operation for additional processing or composting shall only be transported to one of the following facilities:
   i. A transfer/processing facility or operation that complies with Section 17409.5.8(a); or
   ii. A compostable material handling facility or operation that, pursuant to Section 17867(a)(16), demonstrates that the percentage of organic waste in the materials sent to disposal is:
      I. On and after January 1, 2022, less than 20 percent.
      II. On and after January 1, 2024, less than 10 percent.

(B) used in a manner approved by local, state, and federal agencies having appropriate jurisdiction. Any digestate that will be land applied must meet the requirements of Section 17852(a)(24.5);

(C) disposed in a manner as set forth in the Consolidated Regulations for Treatment, Storage, Processing or Disposal of Solid Waste (commencing at Title 27, California Code of Regulations, section 20005).

(b) Digestate that has not been analyzed for metal concentration pursuant to section 17896.59, pathogen concentration pursuant to section 17896.60(b)(1), and physical contaminants pursuant to section 17896.61 or is known to contain any metal in amounts that exceed the maximum metal concentrations described in section 17896.59, pathogens that exceed the maximum acceptable pathogen concentrations described in section 17896.60(b)(1), or physical contaminants that exceed the maximum physical contamination limits described in section 17896.61 shall be designated for disposal, additional processing, or other use as approved by local, state agencies having appropriate jurisdiction.

Chapter 5. Enforcement of Solid Waste Standards and Administration of Solid Waste Facility Permits; Loan Guarantees

Article 2.2. LEA Performance Standards, Evaluation Criteria, and Duties and Responsibilities

Section 18083. LEA Duties and Responsibilities for Inspections.
(a) Pursuant to Public Resources Code Division 30, Parts 4 and 5, and 14 CCR Division 7, Chapters 3 and 5, 27 CCR, Division 2, Subdivision 1 (§20005 et seq.), and its EPP, the LEA/EA shall inspect and investigate solid waste collection, handling, and storage, solid waste facilities, operations and disposal sites and equipment to verify compliance
with the state minimum standards, solid waste facilities permits, and related state solid
waste laws and regulations within their purview for the protection of the environment
and the public health and safety. The LEA/EA shall perform these inspections and
related duties as required below, and forward inspection reports to the operator, and/or
owner, and the Department within 30 days of the inspection:

(1) weekly, for sites operating on performance standards pursuant to 27 CCR Section
20695;
(2) monthly, for all active and inactive facilities, and for illegal sites and facilities,
pending abatement by enforcement action(s);
(3) at the frequency required by the state minimum standards for each type of
operation specified in 14 CCR Sections 17383.9., 17403.5., and 17896.9. All other
operations regulated under the EA Notification tier shall be inspected by the EA at
least once every three (3) months unless the EA approves, with Department
concurrence, a reduced inspection frequency. The EA may approve a reduced
inspection frequency only if it will not pose an additional risk to public health and
safety or the environment, and in no case shall the inspection frequency be less than
once per calendar year. The EA shall submit a copy of the EA-proposed approval to
the Department. The Department shall concur in the EA-proposed approval only if it
finds that the reduced inspection frequency will not pose an additional risk to public
health and safety or the environment in light of the specific circumstances at the
operation in question. The Department shall concur or deny the EA-proposed
approval within thirty (30) days from receipt.
(4) quarterly, for closed sites, abandoned sites, and sites exempted pursuant to 27
CCR Section 21565. For closed sites, inspections shall be made until no potential
threat exists to public health and safety or the environment. This determination shall
be subject to Department approval. For the purposes of this subsection, the
enumeration, and the workload analysis, a closed site means a site that has ceased
accepting waste and, should be closed, is undergoing closure, or has met applicable
closure requirements;
   (A) the Department may approve an alternate inspection frequency for these sites
where such an action will not result in adverse impact on public health and safety
and the environment.
(5) if an LEA has been designated as the EA for waste tire facilities or entered into an
agreement with the Department through a grant program to inspect tire facilities,
major waste tire facilities shall be inspected annually, minor waste tire facilities shall
be inspected at least once every two and a half years pursuant to 14 CCR Section
18443;
(6) upon receipt of a complaint or emergency notification which cannot be resolved
off-site;
(7) as necessary, pursuant to the EPP, upon receipt of a solid waste facilities permit
application, revision, review, RFI amendment, or closure/postclosure plan; and
(8) pursuant to the EPP, for solid waste handling and collection equipment; and
(9) at the frequency described in Sections 17409.5.12, 17869(j), and 17896.45(k).
(b) As specified in their EPP pursuant to Section 18077, the LEA/EA shall conduct any
of the above inspections, whenever possible, without prior notice to the owner or
operator, on randomly selected days, during normal business hours or the site’s operating hours.

Note:

Authority cited: Sections 40502, 43020 and 43021, Public Resources Code.

Article 9.25 Recycling and Disposal Reporting System

Section 18815.4 Reporting Requirements for Haulers.
(a) A self-hauler shall provide the jurisdiction of origin for all material delivered to each transfer/processor or disposal facility. A self-hauler does not have to report to the Department, unless they are a food waste self-hauler.
(b) Food waste self-haulers shall report to the Department the tons of food waste sent as follows:
   (1) To a reporting entity inside California, report the tons of each material type, pursuant to section 18815.9 of this article, and their contact information and RDRS number.
   (2) To an end user inside or outside California, report the tons of each material type, pursuant to section 18815.9 of this article, sent to each end user category, by region, pursuant to section 18815.3(k) of this article.
   (3) To a recycling or composting facility or operation outside California, report the tons of each material type, pursuant to section 18815.9 of this article, by region, pursuant to section 18815.3(l) of this article.
   (4) To each transfer/processor or disposal facility outside California, report the tons of each material type, pursuant to section 18815.9 of this article, sent to each person, and their contact information.
(c) A contract hauler shall provide the following information to a receiving reporting entity for all tons delivered, using the methods described in section 18815.9 of this article. A hauler shall provide the information at the time of delivery, unless both the hauler and receiving facility have previously agreed to periodic reports in lieu of providing information at the time of delivery. In all cases, the hauler shall provide the information to the receiving reporting entity within 30 days of the end of the reporting period.
   (1) For solid waste hauled:
      (A) A hauler shall provide the jurisdiction of origin for all material sent to each transfer/processor or disposal facility; and
      (B) If requested by a transfer/processor or disposal facility, then a hauler shall provide the source sector for all material delivered to each broker or transporter,
transfer/processor, or disposal facility, in tons or by percentage using the methods
provided in section 18815.9 of this article.
(d) A contract hauler who takes material directly from a generator and hauls it to land
application or to a person outside the state shall report to the Department. In their report
to the Department, a contract hauler shall provide the following information for tons
hauled, using the methods described in section 18815.9 of this article:
(1) Directly from a generator to land application, the tons of each material type sent
by region, pursuant to section 18815.3(k) of this article.
(2) Directly from a generator to a person outside the state:
(A) For solid waste, the total tons by jurisdiction of origin for all material sent to a
disposal facility or transfer/processor, their contact information, and an estimate of
the overall source sector tons or percentages for waste sent.
(B) For green material sent to each transfer/processor or disposal facility for
potential beneficial reuse, the tons by jurisdiction of origin, and the contact
information of the receiving facility.
(C) For non-green material sent to each transfer/processor or disposal facility for
potential beneficial reuse, the tons by material type, pursuant to section 18815.9,
and the contact information of the receiving facility.
(D) For disaster debris and designated waste sent to each transfer/processor or
disposal facility, the tons of each stream, and the contact information of the
receiving facility.
(E) For material sent to recycling or composting facilities or operations, the tons of
each material type sent by region.
(F) To end users, the tons of each material sent to each end user category by
region, pursuant to section 18815.3(k) of this article.
(3) A hauler shall submit their report to the Department by the following due dates for
each reporting period:
(A) Reporting period 1 due April 30,
(B) Reporting period 2 due July 31,
(C) Reporting period 3 due October 31, and
(D) Reporting period 4 due January 31.
(e) For the purposes of RDRS reporting, the Department shall not require a hauler to
submit information regarding specific collection locations or customers when providing
jurisdiction of origin, material type or source sector information to other reporting entities
or to the Department as part of a quarterly report.
(1) A jurisdiction is not precluded from requiring this information through franchise
agreements, contracts, local ordinances, section 41821.5(g) of the Public Resources
Code, or other authority it may have.
(2) The Department may require a hauler to submit this information in lieu of an audit,
or as part of an audit or administrative proceeding.
(f) Commencing January 1, 2022, a hauler providing an organic waste collection service
pursuant to Article 3, Chapter 12 of this division shall identify, for all materials delivered
to each receiving reporting entity, whether the material is:
(1) Collected from a “source separated organic waste collection stream” as defined in
Section 17402 (a)(26.6) of this division.
(2) Collected from “mixed waste organics collection stream” as defined in Section 17402 (a)(11.5) of this division that is required to be transported to a high diversion organic waste processing facility.

(g) Notwithstanding Subdivision (b), a hauler shall provide the information required by Subdivision (f) at the time of delivery.

Note: Authority Cited: Sections 40502 and 41821.5, Public Resources Code.
Reference: Sections 41821.5, and 41821.6, and 42652.5, Public Resources Code and Section 39730.6, Health and Safety Code.

**Section 18815.5 Reporting Requirements for Transfer/Processors.**

(a) In their report to the Department, a transfer/processor shall provide the following information, using the methods described in section 18815.9 of this article:

(1) For all tons accepted:
   (A) From another transfer/processor, report the tons of each of the following streams: solid waste, disaster debris, designated waste, green material potential beneficial reuse, and all other potential beneficial reuse accepted from each facility. Report the sending facility’s contact information and RDRS number, if applicable.
   (B) For direct-hauled material, report the total aggregated tons of each of the following streams: solid waste, disaster debris, designated waste, green material potential beneficial reuse, and all other potential beneficial reuse. The tonnages for solid waste and green material potential beneficial reuse shall be further divided by jurisdiction of origin.
   (C) Include accepted residuals generated by a recycling or composting facility or operation that is reporting under the same RDRS number as a transfer/processing facility or operation, pursuant to section 18815.3(d)(4) of this article, in the total tons accepted as direct-hauled, pursuant to subsection (1)(B), assigning the tons to the jurisdiction within which the site is located.

(2) For all tons sent to recyclers, composters, brokers, transporters, or end users pursuant to section 18815.9 of this article:
   (A) To a recycling or composting facility or operation with a different RDRS number inside California, report the tons by material type, pursuant to section 18815.9(a) of this article, and their contact information and RDRS number, if applicable.
   (B) To an end user, report the tons of each material type, pursuant to section 18815.9(a) of this article, sent to each end user category by region, pursuant to section 18815.3(k) of this article.
   (C) To a broker or transporter:
      (i) In cases where the final destination of the material is determined by the reporting transfer/processor, report pursuant to subsections (a)(2)(A), (a)(2)(B), and (a)(2)(E).
      (ii) In cases where the final destination of the material is not determined by the reporting transfer/processor, report tons of each material type, pursuant to section 18815.9(a) of this article, sent to each broker or transporter and their contact information and RDRS number, if applicable.
(D) To a recycling or composting facility or operation with the same RDRS number, report pursuant to section 18815.9(h) of this article.

(E) To a recycling or composting facility or operation outside California, report the tons of each material type by region.

(3) For all tons sent to transfer/processors or disposal facilities inside or outside California of each of the following streams: recycling and composting, solid waste, disaster debris, designated waste, green material potential beneficial reuse, and all other potential beneficial reuse:

(A) To each transfer/processor or disposal facility, report the tons of each stream, and their contact information and RDRS number, if applicable. Report the percentage of solid waste and green material potential beneficial reuse received from each transfer/processor, and the total percentage of materials that were direct-hauled, pursuant to subsection (a)(1)(B). The percentage that was direct-hauled shall be further divided into the jurisdictions of origin of solid waste and green material potential beneficial reuse.

(B) For all tons of solid waste, the percentage that was direct-hauled, pursuant to subsection (a)(1)(B), shall be divided into source sectors, using methods described in section 18815.9(c) of this article. Source sector shall be reported to the department as a facility-wide estimate.

(C) For all other material sent for potential beneficial reuse to a landfill or other transfer/processor inside or outside California, report the tons sent to each facility by material type, pursuant to section 18815.9(a)(3) of this article, and the facility's contact information and RDRS number, if applicable.

(D) For material sent for recycling to each transfer/processor or disposal facility with a different RDRS number inside California, report the tons by material type, and the facility's contact information and RDRS number, if applicable.

(E) For material sent for recycling to each transfer/processor or disposal facility outside California, report the tons by material type and region.

(b) A transfer/processor shall report to the Department by the following due dates for each reporting period:

(1) Reporting period 1 due May 31,
(2) Reporting period 2 due August 31,
(3) Reporting period 3 due November 30, and
(4) Reporting period 4 due February 28.

(c) With the exception of reporting entities who fail to provide required information, for the purposes of RDRS reporting, the Department shall not require a transfer/processor to submit information regarding the identities of individual haulers when providing jurisdiction of origin, or source sector information to the Department as part of a quarterly report. The Department shall not require a transfer/processor to submit information regarding the identities of individual end users when providing material type or region to the Department as part of their report.

(1) A jurisdiction is not precluded from requiring this information through franchise agreements, contracts, local ordinances, section 41821.5(g) of the Public Resources Code, or other authority it may have.

(2) The Department may require a transfer/processor to submit this information in lieu of an audit, or as part of an audit or administrative proceeding.
(d) Commencing with the first reporting period in 2022, and in each subsequent reporting period thereafter:

(1) A reporting receiving facility that receives material from a “mixed waste organic collection stream” as defined in Section 17402 (a)(11.5) of this division shall, for the purposes of determining the annual average organic content recovery rate for organic waste received from the mixed waste organic collection stream as specified in Sections 18984.3 and 17409.5.1 of this division, report the following to the Department:

(A) The sum of outgoing weights of organic waste recovered from the mixed waste organic collection stream as determined pursuant to Section 17409.5.1(c)(1) of this division.

(B) The sum of outgoing weights of organic waste from the mixed waste organic collection stream that is sent to disposal as determined pursuant to Section 17409.5.1(c)(2) of this division.

(C) The sum of records in Sections 17414.2(a)(2), 17414.2(a)(3), and 17414.2 a(6) of outgoing and incoming weights of material from the mixed waste organic collection stream.

(2) A reporting receiving facility that receives material from a “source separated organic waste collection stream” as defined in Section 17402(a)(26.6) shall report the following to the Department:

(A) The sum of outgoing weights of organic waste recovered from the source separated organic collection stream as determined pursuant to Section 17409.5.1(d)(1) of this division.

(B) The sum of outgoing weights of organic waste recovered from the source separated organic collection stream as determined pursuant to Section 17409.5.1(d)(2) of this division.

(C) The sum of weights required to be recorded pursuant to Sections 17414.2(a)(4), 17414.2(a)(5), and 17414.2 a(7) of outgoing and incoming weights of material from the source separate organic waste collection stream.

(e) The Department shall determine if a facility meets or exceeds the recovery efficiency percentages as specified in the definition of a “high diversion organic waste processing facility” in Section 18982(a)(33) in the following manner:

(1) The Department shall determine the quarterly recovery efficiency by dividing the total weight of recovered organic waste reported in Subdivision (d)(1)(A) [Recovered Organics (RO)] by the combined total weight of recovered and disposed organic waste reported in Subdivision (d)(1)(A) and Subdivision (d)(1)(B) [Total Available Mixed Waste Organics(TAMWO)]; RO/TAMWO = Recovery Efficiency.

(2) The Department shall use the total weights for the immediately previous four quarters to determine the facility’s annual recovery efficiency which shall constitute the annual average mixed waste organic content recovery rate for the purposes of section 18984.3 of this division.

(3) The annual average mixed waste organic content recovery rate shall be determined by using the last four quarterly rates. A new annual average shall be calculated each quarter.

(f) The Department shall determine if a facility meets or exceeds the annual average source separated organic content recovery rates specified for a “designated source
separated organic waste facility” as defined in Section 18982(a)(14.5) of this division in the following manner:

(1) The Department shall determine the quarterly recovery efficiency by dividing the total weight of recovered organic waste reported in Subdivision (d)(2)(A)[Recovered Organics (RO)] by the combined total weight of recovered and disposed organic waste reported in Subdivision (d)(2)(A) and Subdivision (d)(2)(B) [Total Available Source Separated Organic Waste (TASSOW)]; RO/TASSOW = Recovery Efficiency.

(2) The Department shall use the total weights for the immediately previous four quarters to determine the facility’s annual recovery efficiency which shall constitute the annual average source separated organic content recovery rate for the purposes of Sections 18982(a)(14.5) and 18998.1 of this division. A new annual average shall be calculated each quarter.

(g) A reporting receiving facility subject to the requirements of Section 17409.5.7 shall report the following to the Department:

(1) The average ratio of remnant organic waste to non-organic waste measured in the gray container waste evaluation samples performed by the facility pursuant to Section 17409.5.7.

Note: Authority Cited: Sections 40502 and 41821.5, Public Resources Code.
Reference: Sections 41821.5 and 41821.6 and 42652.5, Public Resources Code, and Section 39730.6, Health and Safety Code.

Section 18815.7 Reporting Requirements for Recycling and Composting Facilities and Operations.
(a) In their report to the Department, a recycling or composting facility or operation shall provide the following information for all tons handled, using the methods described in section 18815.9 of this article:

(1) For materials sent for disposal or potential beneficial reuse to each transfer/processor or disposal facility with a different RDRS number inside or outside California, report the tons of each material type, pursuant to section 18815.9(a) of this article, and their contact information and RDRS number, if applicable.

(2) For materials sent to each recycling or composting facility or operation with a different RDRS number, or for recycling at each transfer/processor with a different RDRS number inside California, report the tons of each material type, pursuant to section 18815.9(a) of this article, and their contact information and RDRS number, if applicable.

(3) For materials sent to a recycling or composting facility or operation with the same RDRS number, report pursuant to section 18815.9(h) of this article.

(4) For intermediate products sent to end users inside or outside California, report the tons of each material type, pursuant to section 18815.9(a) of this article, sent to each end user category by region, pursuant to section 18815.3(k) of this article.

(5) For materials sent to a broker or transporter:

(A) In cases where the final destination of the material is determined by the reporting recycling or composting facility or operation, report pursuant to subsections (a)(1), (a)(2), (a)(4), and (a)(6), as applicable.
(B) In cases where the final destination of the material is not determined by the reporting recycling or composting facility or operation, report tons of each material type, pursuant to section 18815.9(a) of this article, sent to each broker or transporter and their contact information and RDRS number, if applicable.

(6) For materials sent to each recycling or composting facility or operation outside California, or for recycling at a transfer/processor outside California, report the tons of each material type by region.

(b) A recycling or composting facility or operation is not required to report on material sold for reuse or transferred for reuse.

(c) A recycler who handles business-to-business post-industrial materials, but also handles materials that do not meet the criteria in section 18815.2(a)(8) of this article, shall:

(1) Report as a recycler pursuant to this section for all materials that do not meet the criteria for business-to-business post-industrial recycling, and

(2) Not include information or tonnages associated with the business-to-business post-industrial materials recycled as defined in section 18815.2(a)(8) of this article.

(d) A recycling or composting facility or operation shall report to the Department by the following due dates for each reporting period:

(1) Reporting period 1 due May 31,

(2) Reporting period 2 due August 31,

(3) Reporting period 3 due November 30, and

(4) Reporting period 4 due February 28.

(e) With the exception of other reporting entities, for the purposes of RDRS reporting, the Department shall not require a recycling and composting facility or operation to submit information regarding the identities of individual end users, suppliers, or customers when providing material type information to the Department as part of a quarterly report.

(1) A jurisdiction is not precluded from requiring this information through franchise agreements, contracts, local ordinances, section 41821.5(g) of the Public Resources Code, or other authority it may have.

(2) The Department may require that a recycler/composter submit this information in lieu of an audit, or as part of an audit or administrative proceeding.

(f) Commencing with first reporting period in 2022, and in each subsequent reporting period thereafter:

(1) A recycling or compost facility or operation shall, if applicable, additionally report the following to the Department:

(A) The percentage of organic waste contained in materials sent to landfill disposal as calculated pursuant to Section 17869(e)(1) or 17896.45(a)(1).

Note: Authority Cited: Sections 40502 and 41821.5, Public Resources Code.

Reference: Sections 41821.5, and 41821.6 and 42652.5, Public Resources Code and 39730.6, Health and Safety Code.
Chapter 12: Short-lived Climate Pollutants

General Provisions

Section 18981. 1. Scope of Chapter.
(a) This chapter establishes the regulatory requirements for jurisdictions, generators, haulers, solid waste facilities, and other entities to achieve the organic waste disposal reduction targets codified in Section 39730.6 of the Health and Safety Code and Chapter 13.1 of Division 30 of the Public Resources Code.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Sections 40002, 42652.5, 42654; and Health and Safety Code Section 39730.6.

Section 18981. 2. Implementation Requirement on Jurisdictions.
(a) By January 1, 2022, a jurisdiction shall adopt enforceable ordinance(s), or similarly enforceable mechanisms that are consistent with the requirements of this chapter, to mandate that organic waste generators, haulers, and other entities subject to the requirements of this chapter that are subject to the jurisdiction’s authority comply with the requirements of this chapter.
(b) A jurisdiction may designate a public or private entity to fulfill its responsibilities under this chapter. A designation shall be made through any one or more of the following:
   (1) Contracts with haulers or other private entities; or
   (2) Agreements such as MOUs with other jurisdictions, entities, regional agencies as defined in Public Resources Code Section 40181, or other government entities, including environmental health departments.
(c) Notwithstanding Subdivision (b) of this section, a jurisdiction shall remain ultimately responsible for compliance with the requirements of this chapter.
(d) Nothing in this chapter authorizes a jurisdiction to delegate its authority to impose civil penalties, or to maintain an action to impose civil penalties, to a private entity.
(e) If a jurisdiction designates another entity as allowed in Subdivision (b) of this section, the jurisdiction shall include copies of all agreements and contracts in the Implementation Record required by Section 18995.2.
(f) Nothing in this section authorizes a jurisdiction to require a public or private entity to fulfill its obligations under this chapter without designating the entity through a mechanism authorized in Subdivision (b) of this Section.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Sections 42652.5, 42654; and Health and Safety Code Section 39730.6.
Article 1. Definitions

Section 18982. Definitions.
(a) Except as otherwise provided, the following definitions shall govern the provisions of this chapter:

1. “Activities that constitute landfill disposal” are activities described in Subdivision (a) of Section 18983.1.

2. "Alternative daily cover (ADC)" has the same meaning as in Section 20690 of Title 27 of the California Code of Regulations (CCR).

3. "Alternative intermediate cover (AIC)" has the same meaning as in Section 20700 of Title 27 of the California Code of Regulations.

3.5 “Biomass conversion” has the same meaning as in Public Resources Code, Section 40106.

4. “Biosolids” has the same meaning as Section 17852(a)(9) of this division.

5. “Blue container” means a container where either:
   (A) The lid of the container is blue in color.
   (B) The body of the container is blue in color and the lid is either blue, gray, or black in color. Hardware such as hinges and wheels on a blue container may be any color.

5.5 “Brown container” means a container where either:
   (A) The lid of the container is brown in color.
   (B) The body of the container is brown in color and the lid is either brown, gray, or black in color. Hardware such as hinges and wheels on a brown container may be any color.

6. “Commercial business” means a firm, partnership, proprietorship, joint-stock company, corporation, or association, whether for-profit or nonprofit, strip mall, industrial facility, or a multifamily residential dwelling.
   (A) A multifamily residential dwelling that consists of fewer than five units is not a commercial business for the purposes of this chapter.

7. “Commercial edible food generator” includes a Tier One or a Tier Two commercial edible food generator as defined in Subdivisions (a)(73) and (a)(74) of this section. For the purposes of this chapter, food recovery organizations and food recovery services are not commercial edible food generators.

8. "Community composting" means any activity that composes green material, agricultural material, food material, and vegetative food material, alone or in combination, and the total amount of feedstock and compost on-site at any one time does not exceed 100 cubic yards and 750 square feet, as specified in Section 17855(a)(4).

9. “Compliance review” means a review of records by a jurisdiction or the Department to determine compliance with subscribing to an organic waste collection service as required by this chapter.

10. “Compost” has the same meaning as in Section 17896.2(a)(4).

11. "Compostable material" has the same meaning as in Section 17852(a)(11).

12. "Compostable material handling operation" or “facility” has the same meaning as in Section 17852(a)(12).
(13) “Consumer” has the same meaning as in Section 113757 of the Health and Safety Code.

(14) “Container contamination” or “contaminated container” means a container, regardless of color, that contains prohibited container contaminants as defined in Subdivision (a)(55).

(14.5) “Designated source separated organic waste facility” means a solid waste facility that accepts a source separated organic waste collection stream as defined in Section 17402(a)(26.6) and complies with one of the following:

(A) The facility is a “transfer/processor,” as defined in Section 18815.2(a)(62), that is in compliance with the reporting requirements of Section 18815.5(d), and meets or exceeds an annual average source separated organic content recovery rate of 50 percent between January 1, 2022 and December 31, 2024 and 75 percent on and after January 1, 2025 as calculated pursuant to Section 18815.5(f) for organic waste received from the source separated organic waste collection stream.

1. If a transfer/processor has an annual average source separated organic content recovery rate lower than the rate required in paragraph (A) of this section for two (2) consecutive reporting periods, or three (3) reporting periods within three (3) years, the facility shall not qualify as a “Designated source separated organic waste facility.”

(B) The facility is a “composting operation” or “composting facility” as defined in Section 18815.2(a)(13) that pursuant to the reports submitted under Section 18815.7 demonstrates that the percent of the material removed for landfill disposal that is organic waste is less than the percent specified in Section 17409.5.8(c)(2) or 17409.5.8(c)(3), whichever is applicable, and, if applicable, complies with the digestate handling requirements specified in Section 17896.57.

1. If the percent of the material removed for landfill disposal that is organic waste is more than the percent specified in Section 17409.5.8(c)(2) or 17409.5.8(c)(3) for two (2) consecutive reporting periods, or three (3) reporting periods within three (3) years, the facility shall not qualify as a “Designated source separated organic waste facility.”

(15) “Designee” means an entity that a jurisdiction contracts with or otherwise arranges to carry out any responsibilities of this chapter, as authorized in Section 18981.2 of this chapter. A designee may be a government entity, a hauler, a private entity, or a combination of those entities.

(16) “Diesel gallon equivalent” means the amount of renewable gas transportation fuel that has the equivalent energy content of one gallon of conventional diesel.

(16.5) “Digestate” means the solid and/or liquid material remaining after organic material has been processed in an in-vessel digester.

(17) “Direct service provider” means a person, company, agency, district, or other entity that provides a service or services to a jurisdiction pursuant to a contract or other written agreement.

(18) “Edible food” means food intended for human consumption.

(A) For the purposes of this chapter, “edible food” is not solid waste if it is recovered and not discarded.

(B) Nothing in this chapter requires or authorizes the recovery of edible food that does not meet the food safety requirements of the California Retail Food Code.
(19) "Enforcement action" means an action of a jurisdiction or the Department to
ensure compliance with this chapter, including, but not limited to, issuing notices of
violation, accusations, or other remedies.
(20) "Facility that recovers source separated organic waste" means a facility that
handles source separated organic waste separately from any other wastes as
required in Section 17409.5.6.
(21) "Food" has the same meaning as in Section 113781 of the Health and Safety
Code.
(22) "Food distributor" means a company that distributes food to entities including,
but not limited to, supermarkets and grocery stores.
(23) "Food facility" has the same meaning as in Section 113789 of the Health and
Safety Code.
(24) "Food recovery" means actions to collect and distribute food for human
consumption which otherwise would be disposed.
(25) "Food recovery organization" means an entity that engages in the collection or
receipt of edible food from commercial edible food generators and distributes that
edible food to the public for food recovery either directly or through other entities
including, but not limited to:
(A) A food bank as defined in Section 113783 of the Health and Safety Code;
(B) A nonprofit charitable organization as defined in Section 113841 of the Health
and Safety code; and,
(C) A nonprofit charitable temporary food facility as defined in Section 113842 of
the Health and Safety Code.
(26) "Food recovery service" means a person or entity that collects and transports
edible food from a commercial edible food generator to a food recovery organization
or other entities for food recovery.
(27) "Food service provider" means an entity primarily engaged in providing food
services to institutional, governmental, commercial, or industrial locations of others
based on contractual arrangements with these types of organizations.
(27.5) "Fluorinated greenhouse gas" or "fluorinated GHG" means sulfur hexafluoride
(SF₆), nitrogen trifluoride (NF₃), and any fluorocarbon except for controlled
substances as defined at 40 CFR Part 82, Subpart A, (May 1995), which is hereby
incorporated by reference, and substances with vapor pressures of less than 1 mm of
Hg absolute at 25 °C. With these exceptions, “fluorinated GHG” includes any
hydrofluorocarbon, any perfluorocarbon, any fully fluorinated linear, branched or
cyclic alkane, ether, tertiary amine or aminooether, any perfluoropolyether, and any
hydrofluoropolyether.
(27.6) "Global warming potential" or “GWP” means the ratio of the time-integrated
radiative forcing from the instantaneous release of one kilogram of a trace substance
relative to that of one kilogram of a reference gas (i.e., CO₂). The GWP values are as
specified in the Table A-1 to Subpart A of Title 40 Code of Federal Regulations Part
98 as published in the CFR on 12/11/2014, which is hereby incorporated by
reference.
(28) "Gray container" means a container where either:
(A) The lid of the container is gray or black in color.
(B) The body of the container is entirely gray or black in color and the lid is gray or black in color. Hardware such as hinges and wheels on a gray container may be any color.

(28.5) “Gray container collection stream” has the same meaning as defined in Section 17402.

(29) “Green container” means a container where either:
   (A) The lid of the container is green in color.
   (B) The body of the container is green in color and the lid is green, gray, or black in color. Hardware such as hinges and wheels on a green container may be any color.

(29.5) “Greenhouse gas” means carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), sulfur hexafluoride (SF₆), hydrofluorocarbons (HFC), perfluorocarbons (PFC), and other fluorinated greenhouse gases as defined in this section.

(29.6) “Greenhouse gas emission reduction” or “greenhouse gas reduction” means a calculated decrease in greenhouse gas emissions relative to a project baseline over a specified period of time.

(30) “Grocery store” means a store primarily engaged in the retail sale of canned food; dry goods; fresh fruits and vegetables; fresh meats, fish, and poultry; and any area that is not separately owned within the store where the food is prepared and served, including a bakery, deli, and meat and seafood departments.

(30.5) “Hazardous wood waste” means wood that falls within the definition of “Treated wood” or “Treated wood waste” in Section 67386.4 of Title 22 of the California Code of Regulations.

(31) “Hauler” has the same meaning as in Section 18815.2(a)(32).

(31.5) “Hauler route” means the designated itinerary or sequence of stops for each segment of the jurisdiction’s collection service area.

(32) “Health facility” has the same meaning as in Section 1250 of the Health and Safety Code.

(33) “High diversion organic waste processing facility” means a facility that is in compliance with the reporting requirements of Section 18815.5(d) and meets or exceeds an annual average mixed waste organic content recovery rate of 50 percent between January 1, 2022 and December 31, 2024, and 75 percent after January 1, 2025 as calculated pursuant to Section 18815.5(e) for organic waste received from the “Mixed Waste Organic Collection Stream” as defined in Section 17402-(a)(11.5).

(34) “Hotel” has the same meaning as in Section 17210 of the Business and Professions code.

(35) “Inspection” means a site visit where a jurisdiction or the Department reviews records, containers, and an entity’s collection, handling, recycling, or landfill disposal of organic waste or edible food handling to determine if the entity is complying with requirements set forth in this chapter.

(36) “Jurisdiction” means a city, county, a city and county, or a special district that provides solid waste collection services. A city, county, a city and county, or a special district may utilize a Joint Powers Authority to comply with the requirements of this chapter, except that the individual city, county, city and county, or special district shall remain ultimately responsible for compliance.
(37) “Jurisdiction of residence” means the jurisdiction where a generator who is a self-hauler generated organic waste.
(38) “Large event” means an event, including, but not limited to, a sporting event or a flea market, that charges an admission price, or is operated by a local agency, and serves an average of more than 2,000 individuals per day of operation of the event, at a location that includes, but is not limited to, a public, nonprofit, or privately owned park, parking lot, golf course, street system, or other open space when being used for an event.
(39) “Large venue” means a permanent venue facility that annually seats or serves an average of more than 2,000 individuals within the grounds of the facility per day of operation of the venue facility. For the purposes of this chapter, a venue facility includes, but is not limited to, a public, nonprofit, or privately owned or operated stadium, amphitheater, arena, hall, amusement park, conference or civic center, zoo, aquarium, airport, racetrack, horse track, performing arts center, fairground, museum, theater, or other public attraction facility. For the purposes of this chapter, a site under common ownership or control that includes more than one large venue that is contiguous with other large venues in the site, is a single large venue.
(39.5) “Lifecycle greenhouse gas emissions” or “Lifecycle GHG emissions” means the aggregate quantity of greenhouse gas emissions (including direct and indirect emissions), related to the full lifecycle of the technology or process that an applicant wishes to have assessed as a possible means to reduce landfill disposal of organic waste. The lifecycle analysis of emissions includes all stages of organic waste processing and distribution, including collection from a recovery location, waste processing, delivery, use of any finished material by the ultimate consumer, ultimate use of any processing materials. The mass values for all greenhouse gases shall be adjusted to account for their relative global warming potential.
(40) “Local education agency” means a school district, charter school, or county office of education that is not subject to the control of city or county regulations related to solid waste.
(41) “Non-compostable paper” includes, but is not limited, to paper that is coated in a plastic material that will not breakdown in the composting process.
(42) “Non-local entity” means an entity that is an organic waste generator but is not subject to the control of a jurisdiction’s regulations related to solid waste. These entities may include, but are not limited to, special districts, federal facilities, prisons, facilities operated by the state parks system, public universities, including community colleges, county fairgrounds, and state agencies.
(43) “Non-organic recyclables” means non-putrescible and non-hazardous recyclable wastes, including, but not limited to, bottles, cans, metals, plastics, and glass.
(44) “Notice and Order to Correct (NOTC)” means a notice that a violation has occurred and that failure to correct the violation may result in a penalty.
(45) “Notice of Violation (NOV)” means a notice that a violation has occurred that includes a compliance date to avoid an action to seek penalties.
(46) “Organic waste” means solid wastes containing material originated from living organisms and their metabolic waste products including, but not limited to, food, green material, landscape and pruning waste, organic textiles and carpets, lumber,
wood, paper products, printing and writing paper, manure, biosolids, digestate, and sludges.

(47) “Organic waste disposal reduction target” is the statewide target to reduce the disposal of organic waste by 50 percent by 2020 and 75 percent by 2025, based on the 2014 organic waste disposal baseline, set forth in Section 39730.6 of the Health and Safety Code.

(48) “Organic waste generator” means a person or entity that is responsible for the initial creation of organic waste.

(49) “Organic waste recovery activities” or “recovery” means any activity or process described in Section 18983.1(b).

(50) “Organic Waste Recovery Noncompliance Inventory” means a list of entities that have uncorrected violations of the standards contained in this chapter.

(51) “Paper products” include, but are not limited to, paper janitorial supplies, cartons, wrapping, packaging, file folders, hanging files, corrugated boxes, tissue, and toweling.

(52) “Paper purchase” means all purchases by a jurisdiction of items in the following categories:

(A) Paper products.

(B) Printing and writing papers.

(52.5) “Performance-based source separated collection service” means a solid waste collection service that meets the requirements of Section 18998.1(a).

(52.6) “Permanent” means, in the context of the determination of processes or technologies that constitute a reduction in landfill disposal, that greenhouse gas emissions reductions are not reversible, or when these emissions reductions may be reversible, that mechanisms are in place to replace any reversed greenhouse gas emissions reductions to ensure that all reductions endure for at least 100 years.

(53) “Person” has the same meaning as in Section 40170 of the Public Resources Code.

(54) “Printing and writing papers” include, but are not limited to, copy, xerographic, watermark, cotton fiber, offset, forms, computer printout paper, white wove envelopes, manila envelopes, book paper, note pads, writing tablets, newsprint, and other uncoated writing papers, posters, index cards, calendars, brochures, reports, magazines, and publications.

(55) “Prohibited container contaminants” means any of the following, but does not include organic waste specifically allowed for collection in a container that is required to be transported to a high diversion organic waste processing facility if the waste is specifically identified as acceptable for collection in that container in a manner that complies with the requirements of Section 18984.1, 18984.2, or 18984.3:

(A) Non-organic waste placed in a green container that is part of an organic waste collection service provided pursuant to Section 18984.1 or 18984.2.

(B) Organic wastes that are, carpet, hazardous wood waste, or non-compostable paper placed in the green container that is part of an organic waste collection service provided pursuant to Section 18984.1 or 18984.2.

(C) Organic wastes, placed in a gray container, that pursuant to Section 18984.1 or 18984.2 were intended to be collected separately in the green container or blue container.
(D) Organic wastes placed in the blue container shall be considered prohibited container contaminants when those wastes were specifically identified in this chapter or through a local ordinance for collection in the green container for recovery. Paper products, printing and writing paper, wood and dry lumber may be considered acceptable and not considered prohibited container contaminants if they are placed in the blue container.

(56) "Processing" has the same meaning as in Section 17402(a)(20).
(56.5) "Project baseline" means, in the context of "greenhouse gas emission reduction" or "greenhouse gas reduction," and in the context of an application submitted pursuant to Section 18983.2, a conservative estimate of the business-as-usual greenhouse gas emissions that would have occurred if the organic waste proposed for recovery was disposed in an activity that constitutes landfill disposal. This estimate may include greenhouse gas emissions associated with the production and use of products replaced by a Section 18983.2 technology or process.

(57) "Property owner" means the owner of real property.
(58) "Publicly owned treatment works" or "POTW" has the same meaning as in Section 403.3(r) of Title 40 of the Code of Federal Regulations.
(59) "Recovered organic waste product procurement target" means the amount of organic waste in the form of a recovered organic waste product which a jurisdiction is required to procure annually.
(60) "Recovered organic waste products" means products made from California, landfill-diverted recovered organic waste processed at a permitted or otherwise authorized operation or facility.
(60.5) "Recovery location" includes the closest aggregating hub used to recover the organic waste after collection. This could include but is not limited to a transfer facility, recycling facility, or recovery facility.
(61) "Recycled content paper" means paper products and printing and writing paper that consists of at least 30 percent, by fiber weight, postconsumer fiber.
(62) "Renewable gas" means gas derived from organic waste that has been diverted from a landfill and processed at an in-vessel digestion facility that is permitted or otherwise authorized by Title 14 to recover organic waste.
(63) "Residual organic waste" means waste that remains after organic waste has been processed which is then sent to landfill disposal.
(64) "Restaurant" means an establishment primarily engaged in the retail sale of food and drinks for on-premises or immediate consumption.
(65) "Route review" means a visual inspection of containers along a hauler route for the purpose of determining container contamination and may include mechanical inspection methods such as the use of cameras.
(66) "Self-hauler" means a person who hauls solid waste, organic waste or recovered material he or she has generated to another person. Self-hauler also includes a person who back-hauls waste.
(A) "Back-haul" means generating and transporting organic waste to a destination owned and operated by the generator using the generator's own employees and equipment.
(67) "Sewage sludge" means the solid, semisolid, or liquid residue generated during the treatment of domestic sewage in a municipal wastewater treatment facility.
Sewage sludge includes solids removed or used during primary, secondary, or advanced wastewater treatment processes. Sewage sludge does not include grit or screening material generated during preliminary treatment of domestic sewage at a POTW.

(68) "Share table" has the same meaning as in Section 114079 of the Health and Safety Code.

(68.5) "Source sector" has the same meaning as in Section 18815.2(a)(58).

(69) "Source separated organic waste" means organic waste that is placed in a container that is specifically intended for the separate collection of organic waste by the generator.

(70) "Source separated organic waste collection stream" has the same meaning as defined in Section 17402(a)(26.6).

(70.5) "Special district" has the same meaning as Section 41821.2 of the Public Resources Code.

(71) "Supermarket" means a full-line, self-service retail store with gross annual sales of two million dollars ($2,000,000), or more, and which sells a line of dry grocery, canned goods, or nonfood items and some perishable items.

(72) "The 2014 organic waste disposal baseline" means the total tons of organic waste disposed statewide in 2014 as calculated by the Department.

(73) "Tier one commercial edible food generator" means a commercial edible food generator that is one of the following:

(A) Supermarket.

(B) Grocery store with a total facility size equal to or greater than 10,000 square feet.

(C) Food service provider.

(D) Food distributor.

(E) Wholesale food vendor.

(74) "Tier two commercial edible food generator" means a commercial edible food generator that is one of the following:

(A) Restaurant with 250 or more seats, or a total facility size equal to or greater than 5,000 square feet.

(B) Hotel with an on-site food facility and 200 or more rooms.

(C) Health facility with an on-site food facility and 100 or more beds.

(D) Large venue.

(E) Large event.

(F) A state agency with a cafeteria with 250 or more seats or a total cafeteria facility size equal to or greater than 5,000 square feet.

(G) A local education agency with an on-site food facility.

(75) "Uncontainerized green waste and yard waste collection service" or "uncontainerized service" means a collection service that collects green waste and yard waste that is placed in a pile or bagged for collection on the street in front of a generator's house or place of business for collection and transport to a facility that recovers source separated organic waste.

(76) "Wholesale food vendor" means a business or establishment engaged in the merchant wholesale distribution of food, where food (including fruits and vegetables)
is received, shipped, stored, prepared for distribution to a retailer, warehouse, distributor, or other destination.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Sections 42652.5, 42654; and Health and Safety Code Sections 39730.6 and 39730.8.

**Article 2. Landfill Disposal and Reductions in Landfill Disposal**

**Section 18983.1 Landfill Disposal and Recovery.**

(a) The following dispositions of organic waste shall be deemed to constitute landfill disposal:

1. Final deposition at a landfill.
2. Use as Alternative Daily Cover or Alternative Intermediate Cover at a landfill.
   - (A) The use of non-organic material as landfill cover shall not constitute landfill disposal of organic waste.
3. Any other disposition not listed in Subdivision (b) of this section.

(b) Organic waste sent to one of the following facilities, operations, or used for one of the following activities, and not subsequently sent for landfill disposal, shall be deemed to constitute a reduction of landfill disposal.

1. An operation that qualifies as a “Recycling Center” as set forth in Section 17402.5(d) or is listed in Section 17402.5(c) of this division.
2. A “Compostable Material Handling Operation or Facility” as defined in Section 17852(a)(12) of this division, small composting activities that would otherwise be excluded from that definition pursuant to Section 17855(a)(4) of this division, or community composting as defined in Section 18982(a)(8).
3. An “In-vessel Digestion Operation or Facility” as listed in Section 17896.5 of this division, or activities that would otherwise not be subject to the in-vessel digestion requirements pursuant to Section 17896.6 of this division.
4. A Biomass Conversion operation or facility as defined in Section 40106 of the Public Resources Code.
5. Used as a soil amendment for erosion control, revegetation, slope stabilization, or landscaping at a landfill, when the material is used in a manner that complies with the following criteria:
   - (A) The material has been processed at a solid waste facility, as defined in Section 40194 of the Public Resources Code; and
   - (B) The use shall be:
     1. Restricted to those organic wastes appropriate for the specific use and in accordance with engineering, industry guidelines or other standard practices specified in the Report of Disposal Site Information, as required by 27 CCR, Section 21600(b)(6).
     2. Restricted to quantities of solid wastes no more than necessary to meet the minimum requirements of Subdivision (b)(5)(B)1.
     3. Stored and handled in a manner to protect public health and safety and the environment, and control vectors, fires, odors, and nuisances.
   - (C) The material applied is never more than 12 inches in depth.
(6) Land application, of compostable material consistent with Section 17852(a)(24.5) of this division, is subject to the following conditions on particular types of compostable material used for land application:

(A) Green waste or green material used for land application shall meet the definition of Section 17852(a)(21) and shall have been processed at a solid waste facility, as defined by Section 40194 of the Public Resources Code.

(B) Biosolids used for land application shall:

1. Have undergone anaerobic digestion or composting, as defined in Part 503, Title 40 of the Code of Federal Regulations, Appendix B, sections (A)(1) and (A)(4), as amended August 4, 1999, which is hereby incorporated by reference; and

2. Meet the requirements in Section 17852(a)(24.5)(B)6 of this division for beneficial reuse of biosolids.

(C) Digestate used for land application shall:

1. Have been anaerobically digested at an in-vessel digestion operation or facility, as described in Sections 17896.8 through 17896.13; and

2. Meet the land application requirements described in Section 17852(a)(24.5) A.

3. Have obtained applicable approvals from the State and/or Regional Water Quality Control Board requirements.

(7) Lawful use as animal feed, as set forth in Chapter 6 of Food and Agricultural Code (FAC), commencing with Section 14901 et. seq and Title 3, Division 4, Chapter 2, Subchapter 2 commencing with Article 1, Section 2675 of the Code of California Regulations.

(8) Other operations or facilities with processes that reduce short-lived climate pollutants as determined in accordance with Section 18983.2.

(c) For the purposes of this section, the term “landfill” includes permitted landfills, landfills that require a permit, export out of California for disposal, or any other disposal of waste as defined by Section 40192(c) of the Public Resources Code.

(d) For the purposes of this section, edible food that would otherwise be disposed that is recovered for human consumption shall constitute a reduction of landfill disposal.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Sections 40106, 40116, 40116.1, 40192 and 42652.5; and Health and Safety Code Sections 39730.6 and 39730.8.

Section 18983.2 Determination of Technologies That Constitute a Reduction in Landfill Disposal.

(a) For operations, facilities or activities not expressly identified in Section 18983.1, as reducing landfill disposal, the following process shall be used to determine if processes or technologies shall be deemed to constitute a reduction of landfill disposal:

(1) The applicant shall submit the following information to the Department:

(A) Name and contact information for the person responsible for the information in the report.

(B) Detailed explanation of each of the processes or technologies proposed by the applicant for use to reduce landfill disposal.
(C) For each process or technology noted in Section 18983.2(a)(1)(B), the mass in short tons of organic waste, differentiated by type (i.e., food, leaves and grass, woody material (not including lumber or agricultural crop residues), lumber, agricultural crop residues, manure, sewage sludge (not including digestate), digestate, organic textiles and carpet, paper products, and remainder/composite organic), that will be processed each year.

(D) For any material produced from the proposed process or technology, a description of each end use or landfill disposal location to which the material will be sent. For each end use or landfill disposal location, the applicant must submit the expected mass in short tons and characteristics of the material.

(E) For each of the processes or technologies described pursuant to Section 18983.2(a)(1)(B), each calculation, assumption, and emission factor used by the applicant to calculate the greenhouse gas emissions as well as the expected permanent greenhouse gas emissions reduction of the proposed operation, including the estimated greenhouse gas emissions and permanent greenhouse gas emissions reductions of any end uses or landfill disposal of material described in Section 18983.2(a)(1)(D). All calculations must be clearly laid out such that the Department is able to follow and understand the calculation of greenhouse gas emissions reduction potential.

(F) For each greenhouse gas emission factor or greenhouse gas emission reduction factor used pursuant to Section 18983.2(a)(1)(E), documentation demonstrating that the emission factor or emission reduction factor has been peer reviewed or subjected to other scientifically rigorous review methods.

(G) A detailed explanation of how the proposed technology or process will result in a permanent reduction in greenhouse gas emissions.

(H) A written attestation that the information supplied is true, accurate, and complete.

(i) The director of the Department may request additional information from the applicant if required to validate the information submitted pursuant to this section.

(2) The Department shall consult with the Executive Office of the California Air Resources Board (CARB) to evaluate if the information submitted by the applicant is sufficient to estimate the greenhouse gas emissions and permanent lifecycle GHG emissions reduction of the proposed recovery process or operation. Within 30 days of receiving the application, the Department shall inform the applicant if they have not submitted sufficient information to estimate the greenhouse gas emissions and permanent lifecycle greenhouse gas emissions reductions associated with the proposed recovery process or operation. For further consideration of any application submitted without sufficient information, the applicant is required to submit the requested information. The Department shall provide a response to the applicant within 180 days of receiving all necessary information as to whether or not the proposed recovery process or operation results in a permanent reduction in greenhouse gas emissions, and therefore counts as a reduction in landfill disposal.

(3) To determine if the proposed operation counts as a permanent reduction in landfill disposal, the Department, in consultation with CARB’s Executive Office, shall compare the permanent lifecycle GHG emissions reduction of metric tons of carbon dioxide equivalent (MTCO₂e) per short ton organic waste reduced by the process or
technology, with the emissions reduction from composting organic waste (0.30 MTCO2e/short ton organic waste). The Department shall only deem a proposed operation to constitute a reduction in landfill disposal if the process or technology results in a permanent reduction in lifecycle greenhouse gas emissions equal to or greater than the 0.30 MTCO2e/short ton of organic waste.

(b) If the Department determines that a proposed process or technology results in a reduction in landfill disposal, the Department shall post to its website the results of the determination and include a description of the operation.

(c) Upon request of the applicant, as part of determination of activities that constitute a reduction in landfill disposal, the Department may consider additional information provided by the applicant that demonstrates that the proposed activity is identical or equivalent to a proposed activity the Department has determined pursuant to Section 18983.2(a) results in a reduction in landfill disposal.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Sections 40192 and 42652.5; and Health and Safety Code Section 39730.6.

Article 3. Organic Waste Collection Services

A jurisdiction may provide any combination of organic waste collection services specified in Sections 18984.1, 18984.2, and 18984.3 to generators subject to its authority.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

(a) A jurisdiction may comply with the requirements of this article by implementing a three-container organic waste collection service and providing a green container, a blue container, and a gray container to each generator in the following manner:

(1) The green container shall be provided for the collection of organic waste. The green container shall be intended for the collection of organic waste only and not non-organic waste. The contents of the green container shall be transported to a facility that recovers source separated organic waste.

(A) Compostable plastics may be placed in the green container if the material meets the ASTM D6400 sections 5.1 through 6.4.2 standard for compostability as published May, 2019, which is hereby incorporated by reference, and the contents of the green containers are transported to compostable material handling operations or facilities or in-vessel digestion operations or facilities that have provided written notification annually to the jurisdiction stating that the facility can process and recover that material.

(2) The blue container shall be provided for the collection of non-organic recyclables only but may include the following types of organic wastes: paper products, printing
and writing paper, wood and dry lumber and textiles. The contents of the blue
container shall be transported to a facility that recovers the materials designated for
collection in the blue container.
(3) The gray container shall be for the collection of non-organic waste only.
(4) A jurisdiction may comply with this section by providing a container or containers
that are split or divided into segregated sections, instead of an entire container, as
long as the lids of the separate sections of a split container comply with the container
color requirements and material limitations specified in this section.
(5) Materials specified in this paragraph shall be subject to the following restrictions:
(A) Carpets, non-compostable paper, and hazardous wood waste shall not be
collected in the green container.
(B) Hazardous wood waste shall not be collected in the blue container or gray
container.
(6) A jurisdiction may require additional segregation of source separated organic
waste by providing additional containers or additional sections of split containers in
addition to the green container and blue container. The following types of additional
containers can be provided pursuant to this paragraph.
(A) A brown container, or a brown section of a split container that is limited to the
collection of separated food waste.
(B) If a jurisdiction segregates the contents of a blue container into an additional
container or additional section of a split container in order to separate organic
wastes specified in Subdivision (a)(2) from non-organic recyclables, the jurisdiction
may use a darker shade of blue for the container or section of the container
designated for the collection of organic waste, and a lighter shade of blue, or any
color not already designated for other materials specified in this section, for the
collection of non-organic recyclables.
(C) Additional containers, or sections of split containers provided for collection of
additionally separated organic waste not specified in this section, may be provided
in any color provided that the colors do not conflict with the container color
requirements of this section.
(b) A jurisdiction that provides a three-container organic waste collection service that
complies with Subdivision (a) may transport the contents of the gray container to a
facility that processes and recovers organic waste. A jurisdiction that complies with
Subdivision (a) is not required to transport the contents of the gray container to a facility
that meets or exceeds the organic waste content recovery standard specified in Section
18984.3. A jurisdiction will not be considered out of compliance with Subdivision (a) if it
allows carpet and textiles to be placed in the gray container.
(c) Notwithstanding Subdivision (a), a jurisdiction providing a three-container organic
waste collection service may allow organic waste, such as food waste, to be collected in
the gray container provided that the collection program complies with the following:
(1) The contents of the gray container shall be transported to a facility that meets or
exceeds the organic waste content recovery requirements specified in Section
18984.3.
(2) The gray container is labeled in a manner consistent with Section 18984.8 that
identifies the types of organic waste content accepted in the gray container.
(3) The jurisdiction otherwise provides green and blue containers in a manner that complies with the requirements and limitations specified in Subdivision (a) of this section.

(d) A jurisdiction may allow organic waste to be collected in plastic bags and placed in the green container provided that allowing the use of bags does not inhibit the ability of the jurisdiction to comply with the requirements of Section 18984.5, and the facilities that recover source separated organic waste for the jurisdiction annually provide written notice to the jurisdiction indicating that the facility can process and remove plastic bags when it recovers source separated organic waste.

(e) Nothing in this section is intended to prohibit a jurisdiction from providing an uncontainerized green waste and yard waste collection service to its generators, provided that the three container service complies with the following:

1. If an uncontainerized green waste and yard waste collection service is provided intermittently or on a seasonal basis, a green container is still provided for collection of organic waste as required in Subdivision (a)(1) whenever the uncontainerized service is not provided.
2. If an uncontainerized green waste and yard waste collection service is provided year-round, generators receiving that service must be provided a collection service for the collection of other organic waste in a manner that complies with this section.

(f) Notwithstanding Subdivision (a), the contents of containers may be initially transported to a consolidation site as defined in Section 17402 that complies with the requirements of Section 17409.5.10.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.2. Two-container Organic Waste Collection Services.
(a) A jurisdiction may comply with the requirements of this article by implementing a two-container organic waste collection service as provided below:

1. A two container system where a green container and a gray container are provided and:
   A. The green container is limited to the collection of organic waste only. The contents of the green container shall be transported to a facility that specifically recovers source separated organic waste.
   B. The gray container allows for intentional comingling of all collected wastes, including organic waste that is not designated for collection in the green container, provided that the contents of the gray container are transported to a facility that meets or exceeds the organic waste content recovery requirements specified in Section 18984.3.
   C. Compostable plastics may be placed in the green container if the material meets the ASTM D6400 sections 5.1 through 6.4.2 standard for compostability as published May, 2019, which is hereby incorporated by reference, and contents of the green containers are transported to compostable material handling operations or facilities or in-vessel digestion operations or facilities that have provided written
notification annually to the jurisdiction stating that the facility can process and recover that material; or
(2) A two container system where a blue container and a gray container are provided and:
   (A) The blue container is limited to the collection of non-organic recyclables only, but may include the following types of organic wastes: paper products, printing and writing paper, wood and dry lumber, and textiles. The contents of the blue container shall be transported to a facility that recovers the materials designated for collection in the blue container.
   (B) The gray container allows for intentional comingling of all collected wastes, including organic waste that is not designated for collection in the blue container, provided that the contents of the gray container are transported to a facility that meets or exceeds the organic waste content recovery requirements specified in Section 18984.3.

(b) A jurisdiction shall, consistent with Section 18984.8 of this article, clearly identify the types of wastes accepted in each container and which container shall be used for the collection of any unidentified materials.
(c) Materials specified in this Subdivision shall be subject to the following restrictions:
   (1) Carpets, non-compostable paper, and hazardous wood waste shall not be collected in the green container.
   (2) Hazardous wood waste shall not be collected in the blue or gray container.
(d) A jurisdiction may comply with this section by providing a container or containers that are split or divided into segregated sections, instead of an entire container, as long as the lids of the separate sections of a split container comply with the container color requirements and material limitations specified in this section.
   (1) If a jurisdiction segregates the contents of a blue container into an additional container or additional section of a split container in order to separate organic wastes specified in Subdivision (a)(2) from non-organic recyclables, the jurisdiction may use a darker shade of blue for the container or section of the container designated for the collection of organic waste, and a lighter shade of blue, or any color not already designated for other materials specified in this section, for the collection of non-organic recyclables.
(e) A jurisdiction may allow organic waste to be collected in plastic bags and placed in the green container provided that allowing the use of bags does not inhibit the ability of the jurisdiction to comply with the requirements of Section 18984.5, and the facilities that recover source separated organic waste for the jurisdiction annually provide written notice to the jurisdiction indicating that the facility can process and remove plastic bags when it recovers source separated organic waste.
(f) Nothing in this section is intended to prohibit a jurisdiction from providing an uncontainerized green waste and yard waste collection service to its generators, provided that the two container service complies with the following:
   (1) If an uncontainerized green waste and yard waste collection service is provided intermittently or on a seasonal basis, a container is still provided for collection of organic waste as required in Subdivision (a) whenever the uncontainerized service is not provided.
(2) If an uncontainerized green waste and yard waste collection service is provided year-round, generators receiving that service must be provided a collection service for the collection of other organic waste in a manner that complies with this section.

(g) Notwithstanding Subdivision (a), the contents of containers may be initially transported to a consolidation site as defined in Section 17402 that complies with the requirements of Section 17409.5.10.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5. Reference: Public Resources Code Section 42652.5; and Health and Safety Code Section 39730.6.

Section 18984.3. Unsegregated Single-Container Collection Services.
(a) A jurisdiction may comply with the requirements of this article by providing a single gray container to each generator that allows for intentional comingling of all collected wastes, including organic waste, provided that the contents of the gray container are transported to a high diversion organic waste processing facility.
(b) If the facility that the container is transported to has an annual average mixed waste organic content recovery rate that is lower than required in Section 18982(a)(33) for two (2) consecutive quarterly reporting periods or three (3) quarterly reporting periods within three (3) years, the facility shall not qualify as a high diversion organic waste processing facility.
(c) If the jurisdiction is in violation of this section due to a facility to which it sends organic waste being unable to meet the required annual average mixed waste organic content recovery rate, the jurisdiction shall be subject to the enforcement process in Section 18996.2, which may include a corrective action plan as specified in that section allowing it time to meet the requirements of this article prior to the Department seeking administrative penalties.
(d) Notwithstanding Subdivision (a), the contents of containers may be initially transported to a consolidation site as defined in Section 17402 that complies with the requirements of Section 17409.5.10.
(e) A jurisdiction may allow organic waste specified for collection in the gray container to be placed in bags for collection.
(f) Nothing in this section is intended to prohibit a jurisdiction from providing an uncontainerized green waste and yard waste collection service to its generators, provided that the service complies with the following:
   (1) Generators receiving that service must be provided a collection service for the collection of other organic waste in a manner that complies with this section.

Section 18984.4. Recordkeeping Requirements for Compliance with Organic Waste Collection Services.
(a) A jurisdiction shall include the following information and documents in the Implementation Record required by Section 18995.2:
(1) A description of which collection method(s) it will use to comply with this article.
(2) The geographical area for each collection method.
(3) If the jurisdiction is using a service that requires the contents of containers provided by the jurisdiction to be transported to a high diversion organic waste processing facility, the jurisdiction shall at a minimum:
   (A) List all high diversion organic waste processing facilities used by the jurisdiction.
   (B) List all approved haulers in the jurisdiction that are allowed to take organic waste to the jurisdiction’s identified high diversion organic waste processing facility or facilities.
   (C) The geographical area the hauler(s) serves, the routes serviced, or a list of addresses served.
(4) If the jurisdiction allows compostable plastics to be placed in the green container pursuant to Section 18984.1 or 18984.2, a copy of written notification received from each facility serving the jurisdiction indicating that the facility recovers that material.
(5) If the jurisdiction allows organic waste to be collected in plastic bags pursuant to Section 18984.1 or 18984.2, a copy of written notification received from each facility serving the jurisdiction indicating that the facility can process and remove plastic bags when it recovers source separated organic waste.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.5. Container Contamination Minimization.
(a) A generator shall not place prohibited container contaminants in a collection container. A jurisdiction shall monitor the containers provided to generators using a three-container or two-container organic waste collection service pursuant to Section 18984.1 or 18984.2 to minimize prohibited container contaminants in a manner that complies with either the provisions of Subdivision (b) or the provisions of Subdivision (c) of this section.
(1) A jurisdiction that implements a performance-based source separated collection service pursuant to Section 18998.1 shall monitor containers through waste evaluations as specified in the provisions of Subdivision (c).
(b) A jurisdiction may meet its container contamination minimization requirements by conducting a route review for prohibited container contaminants on containers in a manner that results in all hauler routes being reviewed annually. Containers may be randomly selected along a hauler route. This section should not be construed to require that every container on a hauler route must be sampled annually.
  (1) Upon finding prohibited container contaminants in a container, the jurisdiction, shall notify the generator of the violation.
  (A) The notice shall, at a minimum, include information regarding the generator’s requirement to properly separate materials into the appropriate containers and may include photographic evidence of the violation.
(B) The notice may be left on the generator’s container, gate, or door at the time the violation occurs, and/or be mailed, e-mailed, or electronically messaged to the generator.

(2) If a jurisdiction observes prohibited container contaminants in a generator’s collection container(s), it may dispose of the container’s contents.

(3) Notwithstanding Section 18995.1(a)(5), this chapter does not require a jurisdiction to impose administrative civil penalties on generators in violation of the prohibited container contaminants requirement in Subdivision (a), above.

(c) A jurisdiction may meet its container contamination minimization requirements by conducting waste evaluations that meet the following standards:

(1) The jurisdiction shall conduct waste evaluations for prohibited container contaminants in the following manner:

(A) A jurisdiction that implements a three-container or two-container organic waste collection service pursuant to Sections 18984.1 or 18984.2 shall conduct waste evaluations at least twice per year and the studies shall occur in two distinct seasons of the year.

(B) A jurisdiction that implements a performance-based source separated collection service pursuant to Section 18998.1 shall conduct waste evaluations at least twice per year for the blue and green containers and once per quarter for the gray container.

(C) The waste evaluations shall include samples of each container type served by the jurisdiction.

(D) The waste evaluations shall include samples taken from different areas in the jurisdiction that are representative of the jurisdiction's waste stream.

(E) The waste evaluations shall include at least the following minimum number of samples from all the hauler routes included in the studies:

1. For routes with less than 1,500 generators the study shall include a minimum of 25 samples.
2. For routes with 1,500-3,999 generators the study shall include a minimum of 30 samples.
3. For routes with 4,000-6,999 generators the study shall include a minimum of 35 samples.
4. For routes with 7,000 or more generators the study shall include a minimum of 40 samples.

(F) All of the material collected for sampling must be transported to a sorting area at a permitted solid waste facility where the presence of prohibited container contaminants for each container type is measured to determine the ratio of prohibited container contaminants present in each container type by weight. To determine the ratio of prohibited container contaminants the jurisdiction shall use the following protocol:

1. Take one sample of at least 200 pounds from the material collected from each container stream for sampling (e.g. a 200 pound sample taken from the contents of all of the green containers collected for sampling).
2. The 200 pound sample shall be randomly selected from different areas of the pile of collected material for that container type.
3. For each 200 pound sample, remove any prohibited container contaminants and determine the weight of prohibited container contaminants.

4. Then determine the ratio of prohibited container contaminants in the sample by dividing the total weight of prohibited container contaminants by the total weight of the sample.

2 If the sampled weight of prohibited container contaminants exceeds 25 percent of the measured sample for any container type, the jurisdiction shall perform one of the following:

(A) Notify all generators on the sampled hauler routes of their requirement to properly separate materials into the appropriate containers. The jurisdiction may provide this information by placing a notice on the generator’s container, gate, or door, and/or by mail, e-mail, or electronic message to the generator.

(B) Perform a targeted route review of containers on the routes sampled for waste evaluations to determine the sources of contamination and notify those generators of their obligation to properly separate materials. The jurisdiction may provide this information to these generators by placing a notice on the generator’s container gate, or door, and/or by mail, e-mail, or electronic message to the applicable generators.

(d) A jurisdiction that implements a performance-based source separated collection service pursuant to Section 18998.1 shall notify the department within 30 days of finding prohibited container contaminants in the gray container collection stream that exceed 25 percent of the measured sample by weight in each of two consecutive waste evaluations performed on gray containers pursuant to the requirements of Subdivision (c), above.

(1) A jurisdiction that implements a performance-based source separated collection service pursuant to Section 18998.1 that exceeds an annual average of 25 percent by weight of prohibited container contaminants in the gray container collection shall be subject to the process described in Section 18998.1(c).

(e) A jurisdiction that implements a performance-based source separated collection service pursuant to Section 18998.1 shall, upon request, allow a representative of the department to oversee its next scheduled quarterly sampling of the gray container.

(f) For the purposes of demonstrating compliance with 18998.1, organic waste that is textiles, carpet, hazardous wood waste, human waste, pet waste, or material subject to a quarantine on movement issued by a county agricultural commissioner, is not required to be measured as organic waste.

(g) Nothing in this section limits a jurisdiction from adopting contamination standards, fees, sampling methodologies, or noticing protocols that are more stringent or rigorous than the requirements of this section.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.
Section 18984.6. Recordkeeping Requirements for Container Contamination

Minimization.

(a) A jurisdiction shall include the following information and documents related to its compliance with Section 18984.5, in the Implementation Record required by Section 18995.2 of this chapter.

1. A description of the jurisdiction’s process for determining the level of container contamination.
2. Documentation of route reviews conducted pursuant to Section 18984.5(b), as described in Section 18995.1 of this chapter, if applicable.
3. If applicable, documentation of waste evaluations performed pursuant to Section 18984.5(c), including information on targeted route reviews conducted as a result of the studies. The documentation shall at a minimum include dates of the studies, the location of the solid waste facility where the study was performed, routes, source sector (e.g. commercial or residential), number of samples, weights and ratio of prohibited container contaminants and total sample size.
4. (4) Copies of all notices issued to generators with prohibited container contaminants.
5. Documentation of the number of containers where the contents were disposed due to observation of prohibited container contaminants.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.7. Container Color Requirements.

(a) A jurisdiction shall provide containers, for collection services, to generators that comply with the container color requirements specified in this article.
(b) Notwithstanding Subdivision (a), a jurisdiction is not required to replace functional containers, including containers purchased prior to January 1, 2022, that do not comply with the color requirements of this article prior to the end of the useful life of those containers, or prior to January 1, 2036, whichever comes first.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.8. Container Labeling Requirements.

(a) Commencing January 1, 2022, a jurisdiction shall place a label on each new container or lid provided to generators consistent with the applicable container collection requirements and limitations of this article specifying what materials are allowed to be placed in each container.
(b) A jurisdiction may comply with this section by:

1. Placing labels on containers that include language or graphic images or both that indicate the primary materials accepted and the primary materials prohibited in that container; or
2. Providing containers with imprinted text or graphic images that indicate the primary materials accepted and the primary materials prohibited in that container.
(c) Labels shall clearly indicate primary items that are prohibited container contaminants for each container.
(d) A jurisdiction may comply with this section by using model labeling provided by the Department.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

**Section 18984.9 Organic Waste Generator Requirements.**
(a) Organic waste generators shall comply with applicable local requirements adopted pursuant to this article for the collection and recovery of organic waste, by either:
(1) Subscribing to and complying with the requirements of the organic waste collection service provided by their jurisdiction; or
(2) Self-hauling organic waste in a manner that complies with the requirements of Article 7 of this chapter.
(b) Generators that are commercial businesses, except for multifamily residential dwellings, shall also:
(1) Provide containers for the collection of organic waste and non-organic recyclables in all areas where disposal containers are provided for customers, except for restrooms. The containers provided by the business shall have either:
(A) A body or lid that conforms with the container colors provided through the organic waste collection service provided by their jurisdiction; or
(B) Container labels that comply with the requirements of Section 18984.8.
(2) Prohibit their employees from placing organic waste in a container not designated to receive organic waste as set forth in Sections 18984.1(a)(5) and 18984.2(c).
(3) Periodically inspect organic waste containers for contamination and inform employees if containers are contaminated and of the requirement to only use those containers for organic waste.
(c) Nothing in this section prohibits a generator from preventing or reducing waste generation, managing organic waste on site, or using a community composting site.
(d) A commercial business is not required to replace functional containers, including containers purchased prior to January 1, 2022, that do not comply with the requirements of this article prior to the end of the useful life of those containers, or prior to January 1, 2036, whichever comes first.
(e) If a business does not generate any of the materials that would be collected in one type of container, then the business does not have to provide that particular container in all areas where disposal containers are provided for customers.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

**Section 18984.10. Commercial Business Owner Responsibilities.**
(a) Commercial businesses shall provide or arrange for organic waste collection services consistent with this article and local requirements, for employees, contractors,
tenants, and customers, including supplying and allowing access to an adequate
number, size, and location of containers with sufficient labels or container color.
(b) Commercial businesses shall annually provide information to employees,
contractors, tenants, and customers about organic waste recovery requirements and
about proper sorting of organic waste.
(1) Commercial businesses shall provide information to new tenants before or within
14 days of occupation of the premises.
(c) Commercial businesses shall provide or arrange for access to their properties during
all inspections conducted pursuant to Article 14 of this chapter (commencing with
Section 18995.1).
(1) This subdivision is not intended to permit an employee or agent of the
Department, or a jurisdiction, to enter the interior of a private residential property.
Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.
Section 18984.11. Waivers Granted by a Jurisdiction.
(a) A jurisdiction may grant one or more of the following types of waivers to a generator
of organic waste:
(1) De Minimis Waivers.
(A) A jurisdiction may waive a commercial business’ obligation to comply with
some or all of the organic waste requirements of this article if the commercial
business provides documentation or the jurisdiction has evidence demonstrating
that:
1. The commercial business’ total solid waste collection service is two cubic
yards or more per week and organic waste subject to collection in a blue
container or a green container as specified in Section 18984.1(a) comprises
less than 20 gallons per week per applicable container of the business’ total
waste.
2. The commercial business’ total solid waste collection service is less than two
cubic yards per week and organic waste subject to collection in a blue container
or a green container as specified in Section 18984.1(a) comprises less than 10
gallons per week per applicable container of the business’ total waste.
(B) A jurisdiction shall, consistent with Section 18995.1, verify that the commercial
business’ organic waste generation meets the waiver thresholds set forth in this
subdivision.
(C) If a jurisdiction obtains information at any time that a commercial business that
has received a waiver is exceeding the organic waste thresholds specified in
Subsection (A)(1), or (A)(2), the jurisdiction shall rescind the waiver.
(2) Physical Space Waivers.
(A) A jurisdiction may waive a commercial business’ or property owner’s obligation
to comply with some or all of the organic waste collection service requirements of
this article if the commercial business or property owner provides documentation,
or the jurisdiction has evidence from its staff, a hauler, licensed architect, or
(3) Collection Frequency Waivers.

(A) A jurisdiction may allow the owner or tenant of any residence, premises, business establishment or industry that subscribes to a three-container or two-container organic waste collection service to arrange for the collection of solid waste in a blue container, a gray container, or both once every fourteen days, provided that:

1. The jurisdiction, or its authorized hauler, demonstrates to the enforcement agency, as defined in Public Resources Code 40130 that less frequent collection than required by Section 17331 of Title 14 of the California Code of Regulations will not cause receiving solid waste facilities, operations, or both to be in violation of applicable state minimum standards described in Subchapter 4 of Chapter 3 of Subdivision 1 of Title 27 or Title 14, Sections 17200 et seq.

(b) Nothing in this section allows a jurisdiction to exempt a business subject to the requirements of Section 42649.81 of the Public Resources Code from compliance with that section.

(c) Notwithstanding Section 18981.2, the authority to issue a waiver authorized by this section cannot be delegated to a private entity.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.12. Waivers and Exemptions Granted by the Department.

(a) Low population waivers.

(1) A jurisdiction may apply to the Department for a waiver for the jurisdiction and some or all of its generators from some or all of the requirements of this article if the following apply:

(A) The jurisdiction disposed less than 5,000 tons of solid waste in 2014 as reported in the Disposal Reporting System.

(B) The jurisdiction has a total population of less than 7,500 people.

(2) A jurisdiction may apply to the Department for a waiver from some or all of the requirements of this article for census tracts that have a population density of less than 75 people per square mile that are served by the jurisdiction and are located in unincorporated portions of a county.

(b) Waivers issued pursuant to Subdivision (a) shall be good for a period of up to five years and shall be subject to approval by the Department as follows:

(1) A jurisdiction shall submit a request for a waiver with the following information:

(A) The number of generators that will be included in the waiver.

(B) The requested length of the waiver.

(C) If the request for a waiver is submitted by a jurisdiction seeking to waive unincorporated census tracts, the jurisdiction shall identify each census tract that will be waived.
(2) The Department shall review and evaluate and approve or deny a waiver request within 90 days. The Department shall approve a request to grant a waiver if it meets the requirements of this section.

(3) A jurisdiction may apply to renew a waiver issued pursuant to Subdivision (a) at any time up to 180 days prior to the expiration of an existing waiver.

(c) Rural Exemptions.

(1) The Department shall grant an exemption from complying with the organic waste collection requirements specified in this article for rural jurisdictions that meet the definition of a “Rural Jurisdiction” in Section 42649.8 of the Public Resources Code, if the governing body of the jurisdiction adopts a resolution that includes a finding as to the purpose of and need for the exemption.

(2) An exemption implemented pursuant to this subdivision shall be valid until December 31, 2026 or until five years after the Department makes a determination pursuant to Section 42649.82 (a)(2)(D) that the statewide disposal of organic waste has not been reduced to 50 percent of the level of disposal during the 2014 calendar year, whichever is later.

(d) Elevation Waivers.

(1) A jurisdiction may apply to the Department for a waiver for the jurisdiction and some or all of its generators from the requirement to separate and recover food waste and food-soiled paper if the entire jurisdiction is located at or above an elevation of 4,500 feet.

(2) A jurisdiction may apply to the Department for a waiver for some or all of its generators from the requirement to separate and recover food waste and food-soiled paper in census tracts located in unincorporated portions of a county that are located at or above 4,500 feet.

(3) The area of a jurisdiction that is waived pursuant to this section is not required to provide containers to generators as prescribed in Section 18984.7.

(4) Residential and commercial generators located within an area that is waived pursuant to this section may deposit food waste and food-soiled paper in a disposal container.

(5) A jurisdiction shall submit a request for a waiver with the following information:

(A) The number of generators that will be included in the waiver.

(B) If the request for a waiver is submitted by a jurisdiction seeking to waive unincorporated census tracts, the jurisdiction shall identify each census tract that will be waived.

(6) The Department shall review and evaluate and approve or deny a waiver request within 90 days. The Department shall approve a request to grant a waiver if it meets the requirements of this section.

(7) Nothing in this subdivision waives a jurisdiction from its obligation to provide a collection service that collects and recycles the other types of organic wastes specified in Section 18984.1, 18984.2, or 18984.3 in a manner that meets the requirements of those sections.

(e) Nothing in this section exempts a jurisdiction from complying with the other requirements to promote and provide information to generators about waste prevention, community composting, managing organic waste on-site, and other means of recovering organic waste, or any other requirements of this chapter.
Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

(a) Emergency Processing Facility Temporary Equipment or Operational Failure Waivers.
(1) If the facility processing a jurisdiction's organic waste notifies the jurisdiction that unforeseen operational restrictions have been imposed upon it by a regulatory agency or that an unforeseen equipment or operational failure will temporarily prevent the facility from processing and recovering organic waste, the jurisdiction may allow the organic waste stream transported to that facility to be deposited in a landfill or landfills for up to 90 days from the date of the restriction or failure.
(2) A jurisdiction shall notify the Department in writing within 10 days of a waiver decision pursuant to Subdivision (a)(1). The notice sent to the Department shall include a description of the equipment failure or operational restriction that occurred at the facility, the period of time that the jurisdiction will allow the organic waste stream to be deposited in a landfill or landfills, and the Recycling and Disposal Reporting System Number of the facility that experienced the temporary equipment or operational failure preventing it from receiving some or all of the jurisdiction's waste.

(b) Disasters and emergency waivers.
(1) A jurisdiction may submit a request for a waiver for the landfill disposal of "disaster debris" as defined in Section 17210.1(d) of this division that cannot be diverted as defined in Section 17210.1(e) of this division if a waiver or waivers have been granted pursuant to Sections 17210.4 and 17210.9 of this division.
(2) If a waiver or waivers have been granted pursuant to Subsection (1) the Department shall waive the organic waste collection requirements of this article in the affected areas for the duration of the waiver.
(3) A jurisdiction may dispose of sediment debris removed from dams, culverts, reservoirs, channels and other flood control infrastructure if the material is subject to a waste discharge requirement issued by the regional water quality control board that requires the average organic content of the debris to be less than five percent.

(c) A jurisdiction is not required to separate or recover organic waste that is removed from homeless encampments and illegal disposal sites as part of an abatement activity to protect public health and safety. If the total amount of solid waste removed for landfill disposal pursuant to this subdivision is expected to exceed 100 tons annually the jurisdiction shall record the amount of material removed.

(d) A jurisdiction may dispose of specific types of organic waste that are subject to quarantine and meet the following requirements:
(1) The organic waste is generated from within the boundaries of an established interior or exterior quarantine area defined by the California Department of Food and Agriculture for that type of organic waste.
(2) The California Department of Food and Agriculture or the County Agricultural Commissioner determines that the organic waste must be disposed at a solid waste
landfill and the organic waste cannot be safely recovered through any of the recovery activities identified in Article 2 of this chapter.

(3) The jurisdiction retains a copy of the California Department of Food and Agriculture approved compliance agreement for each shipment stating that the material must be transported to a solid waste landfill operating under the terms of its own compliance agreement for the pest or disease of concern.

(e) Nothing in this chapter requires generators, jurisdictions or other entities subject to these regulations to manage and recover organic waste that federal law explicitly requires to be managed in a manner that constitutes landfill disposal as defined in this chapter.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18984.14. Recordkeeping Requirements for Waivers and Exemptions.
(a) A jurisdiction shall include the following information and documents in the Implementation Record required by Section 18995.2:
(1) A copy of all correspondence received from a facility that triggered a Processing Facility Temporary Equipment or Operational Failure Waiver and documentation setting forth the date of issuance of the waiver, the timeframe for the waiver, and the locations or routes affected by the waiver.
(2) A description of the jurisdiction’s process for issuing waivers and frequency of inspections by the jurisdiction to verify the validity of waivers.
(3) A copy of all De Minimis Waivers, including the location, date issued, and name of generators.
(4) A copy of all Physical Space Waivers, including the location, date issued, and name of generators.
(5) A copy of all collection frequency waivers, including the location, date issued, and name of generators.
(6) A record of the amount of sediment debris that is disposed pursuant to Section 18984.13 on an annual basis.
(7) A record of the amount of solid waste removed from homeless encampments and illegal disposal sites as part of an abatement activities if the total amount of material removed exceeds 100 tons.
(8) A copy of all compliance agreements for quarantined organic waste that is disposed, including the name of generator, date issued, location of final disposition, and the amount of organic waste that was required to be disposed at a solid waste landfill.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.
Article 4. Education and Outreach

Section 18985.1. Organic Waste Recovery Education and Outreach.

(a) Prior to February 1, 2022, and annually thereafter, a jurisdiction shall provide the following to organic waste generators that are provided an organic waste collection service pursuant to Article 3 of this chapter:

(1) Information on the organic waste generator’s requirements to properly separate materials in appropriate containers pursuant to this chapter.

(2) Information on methods for: the prevention of organic waste generation, recycling organic waste on-site, sending organic waste to community composting, and any other local requirements regarding organic waste.

(3) Information regarding the methane reduction benefits of reducing the landfill disposal of organic waste, and the methods of organic waste recovery the organic waste collection service uses.

(4) Information regarding how to recover organic waste and a list of approved haulers.

(5) Information related to the public health and safety and environmental impacts associated with the landfill disposal of organic waste.

(6) Information regarding programs for the donation of edible food.

(7) If a jurisdiction allows generators subject to its authority to self-haul organic waste pursuant to Section 18988.1, information regarding self-hauling requirements shall be included in education and outreach material.

(b) A jurisdiction providing an unsegregated single container collection service to organic waste generators is not required to include the information required in Subdivision (a)(1), but shall include information indicating that organic waste is being processed at a high diversion organic waste processing facility.

(c) A jurisdiction may comply with the requirements by providing the information required by this section through print or electronic media. In addition to providing information through print and electronic media, a jurisdiction may conduct outreach through direct contact with generators through workshops, meetings, or on-site visits.

(d) Consistent with Section 18981.2, a jurisdiction may comply with the requirements of this section through use of a designee.

(e) Consistent with Section 7295 of the Government Code, jurisdictions shall translate educational materials required by this chapter into any non-English language spoken by a substantial number of the public provided organic waste collection services by the jurisdiction.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18985.2. Edible Food Recovery Education and Outreach.

(a) On or before February 1, 2022 a jurisdiction shall:

(1) Develop a list of food recovery organizations identified in Section 18982(a)(25)(A)–(B) and food recovery services operating within the jurisdiction and maintain the list on the jurisdiction’s website. The list shall be updated annually. The
list shall include, at a minimum, the following information about each food recovery organization and each food recovery service:

(A) Name and physical address.
(B) Contact information.
(C) Collection service area.
(D) An indication of types of food the food recovery service or organization can accept for food recovery.

(b) At least annually a jurisdiction shall:

(1) Provide commercial edible food generators with the following information:

(A) Information about the jurisdiction’s edible food recovery program established pursuant to Section 18991.1.
(B) Information about the commercial edible food generator requirements specified in Article 10 of this chapter.
(C) Information about food recovery organizations and food recovery services operating within the jurisdiction, and where a list of those food recovery organizations and food recovery services can be found.
(D) Information about actions that commercial edible food generators can take to prevent the creation of food waste.

(2) The jurisdiction may provide this information by including it with regularly scheduled notices to those commercial businesses, including the notices provided pursuant to Section 18985.1.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18985.3. Recordkeeping Requirements for a Jurisdiction’s Compliance with Education and Outreach Requirements.

(a) A jurisdiction shall include all relevant documents supporting its compliance with this article in the Implementation Record required by Section 18995.2 of this chapter, including, but not limited to:

(1) Copies of the information provided to comply with this article, including: flyers, brochures, newsletters, invoice messaging, and website and social media postings.
(2) The date, and to whom the information was disseminated or direct contact made.
If a jurisdiction provides mass distribution through mailings, or bill inserts, it shall provide the date, a copy of the information, and the type and number of accounts receiving the information.
(3) If the requirements of this article were met solely through the use of electronic media, the record shall include a copy, with dates posted, of social media posts, e-mails or other electronic messages.
(4) If a jurisdiction relies on a designee, as allowed in Section 18981.2, to comply with this section, it shall include a copy of the materials distributed by the designee.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.
Section 18986.1. Non-Local Entities Requirements.
(a) Non-local entities shall comply with the requirements of this chapter to prevent and reduce the generation of organic waste by:
   (1) Subscribing to and complying with the requirements of an organic waste collection service that meets the requirements of Article 3 of this chapter; or
   (2) Self-hauling organic waste in a manner that complies with the requirements of Article 7 of this chapter.
(b) Non-local entities shall provide containers for the collection of organic waste and non-organic recyclables in all areas where disposal containers are located, except restrooms. The containers provided shall conform to the requirements of the containers provided through an organic waste recovery service authorized under Article 3 of this chapter.
(c) Non-local entities shall prohibit their employees from placing organic waste in a container not designated to receive organic waste.
   (1) Materials specified in this paragraph shall be subject to the following restrictions:
      (A) Carpets, non-compostable paper, and hazardous wood waste shall not be collected in the green container.
      (B) Hazardous wood waste shall not be collected in the blue or gray container.
(d) Non-local entities shall periodically inspect organic waste containers for contamination and inform employees if containers are contaminated and of the requirement to only use those containers for organic waste.
(e) Non-local entities shall provide information to employees on methods for the prevention of organic waste generation.
(f) Nothing in this section prohibits a non-local entity from preventing waste generation, managing organic waste on site, or using a community composting site.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18986.2. Local Education Agencies Requirements.
(a) Local education agencies shall comply with the requirements of this chapter to prevent and reduce the generation of organic waste by:
   (1) Subscribing and complying with the requirements of an organic waste collection service that meets the requirements of Article 3 of this chapter; or
   (2) Self-hauling organic waste in a manner that complies with the requirements of Article 7 of this chapter.
(b) Local education agencies shall provide containers for the collection of organic waste and non-organic recyclables in all areas where disposal containers are located, except restrooms. The containers provided shall conform to the requirements of the containers provided through an organic waste recovery service authorized under Article 3 of this chapter.
(c) Local education agencies shall prohibit their employees from placing organic waste in a container not designated to receive organic waste.
(1) Materials specified in this paragraph shall be subject to the following restrictions:
(A) Carpets, non-compostable paper, and hazardous wood waste shall not be collected in the green container.
(B) Hazardous wood waste shall not be collected in the blue or gray container.
(d) Local education agencies shall periodically inspect organic waste containers for contamination and inform employees if containers are contaminated and of the requirement to only use those containers for organic waste.
(e) Local education agencies shall provide information to employees and students on methods for the prevention of organic waste generation.
(f) Nothing in this section prohibits a local education agency from preventing waste generation, managing organic waste on site, and/or using a community composting site.

Section 18986.3. Waivers for Non-Local Entities and Local Education Agencies.
(a) The Department shall waive a non-local entity’s or local education agency’s obligation to comply with some or all of organic waste collection service requirements of this article if the entity or agency provides documentation demonstrating that any of the following apply:
(1) The total solid waste collection service subscribed to is two cubic yards or more per week and organic waste subject to collection in a blue container or a green container as specified in Section 18984.1(a) comprises less than 20 gallons per week per applicable container of the non-local entity’s or local education agency’s total waste.
(2) The total solid waste collection service subscribed to is less than two cubic yards per week and organic waste subject to collection in a blue container or a green container as specified in Section 18984.1(a) comprises less than 10 gallons per week per applicable container of the non-local entity’s or local education agency’s total waste.
(3) A hauler, licensed architect, or licensed engineer has determined that there is not adequate space for separate organic waste containers.
(4) The entity is located within a jurisdiction or census tract that has been granted a waiver by the Department pursuant to Section 18984.12.

Article 6. Biosolids Generated at a Publicly Owned Treatment Works (POTW)

Section 18987.1. Biosolids Generation at a POTW.
(a) A POTW generating biosolids is not subject to the following:
(1) The generator requirements set forth in Section 18984.9.
(2) The organic waste recovery and measurement requirements described in 
Sections 17409.5.1 through 17409.5.8 of this division.
(3) The recordkeeping and reporting requirement described in Section 17414.2 of this 
division.

(b) Material received at a POTW that it is not allowed to accept pursuant to Section 
17896.6(a)(1)(C) or (D) shall be deemed to constitute landfill disposal pursuant to 
Section 18983.1(a)(3).

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code 
Section 39730.6.

Article 7. Regulation of Haulers

Section 18988.1. Jurisdiction Approval of Haulers and Self-Haulers.
(a) A jurisdiction shall require haulers providing residential, commercial, or industrial 
organic waste collection services to generators within its boundaries to meet the 
requirements and standards of this chapter as a condition of approval of a contract, 
agreement, or other authorization to collect organic waste.
(1) A jurisdiction shall require haulers to identify the facilities to which they will 
transport organic waste as a requirement for approval.
(2) A jurisdiction shall require haulers providing an organic waste collection service to 
comply with the applicable requirements of Article 3 of this chapter.
(b) If a jurisdiction allows generators subject to its authority to self-haul organic waste, it 
shall adopt an ordinance or a similarly enforceable mechanism that requires compliance 
with the requirements in Section 18988.3 of this article.
(c) Notwithstanding Subdivision (a), this section is not applicable to:
(1) A hauler that is consistent with Article 1, Chapter 9, Part 2, Division 30, 
commencing with Section 41950 of the Public Resources Code, transporting source 
separated organic waste to a community composting site; or
(2) A hauler that is lawfully transporting construction and demolition debris in 
compliance with Section 18989.1.
(d) Jurisdictions that are exempt from the organic waste collection requirements 
pursuant to Section 18984.12, and haulers and self-haulers operating or located within 
exempt areas of those jurisdictions, are not required to comply with the provisions of 
this article for the duration of an exemption issued pursuant to Section 18984.12.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code 
Section 39730.6.

Section 18988.2. Haulers of Organic Waste Requirements.
(a) A hauler providing residential, commercial, or industrial organic waste collection 
services shall comply with all of the following:
(1) Organic waste collected by the hauler shall be transported to a facility, operation, 
activity or property that recovers organic waste as defined in Article 2 of this chapter.
(2) Obtain applicable approval issued by the jurisdiction pursuant to Section 18988.1.
(b) The hauler shall keep a record of the documentation of its approval by the jurisdiction.
(c) Notwithstanding (a), this section is not applicable to:
   (1) A hauler that, consistent with Division 30, Part 2, Chapter 9, Article 1 commencing with Section 41950 of the Public Resources Code, transports source separated organic waste to a community composting site; or
   (2) A hauler that is lawfully transporting construction and demolition debris in compliance with Section 18989.1.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18988.3. Self-haulers of Organic Waste.
(a) Generators of organic waste may, in compliance with Section 18988.1 of this division, self-haul their own organic waste.
(b) A generator who is a self-hauler of organic waste shall comply with the following:
   (1) The generator shall source separate all organic waste generated on site in a manner consistent with Sections 18984.1 and 18984.2, or haul organic waste to a high diversion organic waste processing facility as specified in Section 18984.3.
   (2) The generator shall haul source separated organic waste to a solid waste facility operation, activity, or property that processes or recovers source separated organic waste.
   (3) The generator shall keep a record of the amount of organic waste delivered to each solid waste facility, operation, activity, or property that processes or recovers organic waste; this record shall be subject to inspection by the jurisdiction.
      (A) The records shall include delivery receipts and weight tickets from the entity accepting the waste.
      (B) The record shall indicate the amount of material in cubic yards or tons transported by the generator to each entity.
      (C) Notwithstanding Subdivision (b)(3)(A), if the material is transported to an entity that does not have scales on-site, or employs scales incapable of weighing the self-hauler’s vehicle in a manner that allows it to determine the weight of waste received, the self-hauler is not required to record the weight of material but shall keep a record of the entities that received the organic waste.
   (4) A residential organic waste generator that self-hauls organic waste is not required to record or report the information identified in Subdivision (b)(3).
(c) A generator that is located in a jurisdiction or area that received a waiver under Section 18984.12 of this division and is not a business subject to the requirements of Section 42649.81 of the Public Resources Code is not required to comply with the requirements of this section.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.
**Section 18988.4.** Recordkeeping Requirements for Compliance with Jurisdiction Hauler Program.
(a) A jurisdiction shall include all relevant documents supporting its compliance with this article in the Implementation Record required by Article 14 of this chapter. Records maintained shall include but are not limited to copies of:

1. Ordinances, contracts, franchise agreements, policies, procedures, or programs relevant to this section.
2. A description of the jurisdiction’s hauler program including:
   - (A) Type(s) of hauler system(s) the jurisdiction uses.
   - (B) Type(s) and condition(s) of approvals per type of hauler, and criteria for approvals, denials and revocations.
   - (C) The process for issuing, revoking, and denying written approvals.
   - (D) Any requirements associated with self-hauling and back-hauling.
3. A record of hauler compliance with local ordinance(s) and the requirements of this article including the following information:
   - (A) Copies of all reports required from haulers.
   - (B) Copies of all written approvals, denials, and revocations.
(b) All records required by this article shall include the date of action, the name of the hauler, and the type of the action taken by the jurisdiction.

**Article 8. CALGreen Building Standards and Model Water Efficient Landscape Ordinance**

**Section 18989.1.** CALGreen Building Codes.
(a) A jurisdiction shall adopt an ordinance or other enforceable requirement that requires compliance with the following provisions of the California Green Building Standards Code, California Code of Regulations, Title 24, Part 11 as amended July 1, 2019 and effective January 1, 2020:

1. Section 4.410.2 Recycling by Occupants Residential and Section 5.410.1 Recycling by Occupants Non-residential.
2. For organic waste commingled with construction and demolition debris, Section 4.408.1 Construction Waste Management Residential and Section 5.408.1 Construction Waste Management non-residential.
(b) For the purposes of this section “jurisdiction” means a city, a county, or a city and county.

Section 18989.2 Model Water Efficient Landscape Ordinance.
(a) A jurisdiction shall adopt an ordinance or other enforceable requirement that
requires compliance with Sections 492.6(a)(3)(B) (C), (D), and (G) of the Model Water
Efficient Landscape Ordinance, Title 23, Division 2, Chapter 2.7 of the California Code
of Regulations as amended September 15, 2015.
(b) For the purposes of this section “jurisdiction” means a city, a county, or a city and
county.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.

Article 9. Locally Adopted Standards and Policies

(a) Nothing in this chapter is intended to limit the authority of a jurisdiction to adopt
standards that are more stringent than the requirements of this chapter, except as
provided in Subdivision (b) of this section.
(b) A jurisdiction shall not implement or enforce an ordinance, policy, procedure, permit
condition, or initiative that includes provisions that do any of the following:
(1) Prohibit, or otherwise unreasonably limit or restrict, the lawful processing and
recovery of organic waste through a method identified in Article 2 of this chapter.
(2) Limit a particular solid waste facility, operation, property, or activity from accepting
organic waste imported from outside of the jurisdiction for processing or recovery.
(3) Limit the export of organic waste to a facility, operation, property or activity
outside of the jurisdiction that recovers the organic waste through a method identified
in Article 2 of this chapter.
(4) Require a generator or a hauler to transport organic waste to a solid waste facility
or operation that does not process or recover organic waste.
(5) Require a generator to use an organic waste collection service or combination of
services that do not recover at least the same types of organic waste recovered by a
service the generator previously had in place.
(c) This section does not do any of the following:
(1) Require a solid waste facility or operation to accept organic waste that does not
meet the quality standards established by the solid waste facility or operation.
(2) Prohibit a jurisdiction from arranging with a solid waste facility or operation to
guarantee permitted capacity for organic waste from the jurisdiction.
(3) Supersede or otherwise affect: the land use authority of a jurisdiction, including,
but not limited to, planning, zoning, and permitting; or an ordinance lawfully adopted
pursuant to that land use authority consistent with this section.
(4) Prohibit a jurisdiction from arranging through a contract or franchise for a hauler to
transport organic waste to a particular solid waste facility or operation for processing
or recovery.
(5) Exempt a jurisdiction, generator, or hauler from compliance with Division 4.5 of
Title 22 of the California Code of Regulations relative to the proper handling of
hazardous or universal waste or Title 3, Section 1180.48 of the California Code of
Regulations relative to Disposal of Parts and Products of Animals Not Intended for Use as Human Food.

Section 18990.2. Edible Food Recovery Standards and Policies.
(a) A jurisdiction shall not implement or enforce an ordinance, policy, or procedure that prohibits the ability of a generator, food recovery organization, or food recovery service to recover edible food that could be recovered for human consumption.
(b) A local education agency shall not implement or enforce an ordinance, policy, or procedure that prohibits share tables or requires schools to adhere to a food safety standard not specified in Part 7 of Division 104 of the Health and Safety Code.
(c) Nothing in this chapter shall be construed to limit or conflict with the provisions of the California Good Samaritan Food Donation Act of 2017 (the act). Specifically:
   (1) Nothing in this chapter shall be construed to limit the amount or types of foods that may be donated under the act.
   (2) Nothing in this chapter shall be construed to limit the ability of a person, gleaner or food facility to donate food as provided for in Sections 114432 and 114433 of the Health and Safety Code.
   (3) Nothing in this chapter shall be construed to reduce the immunities provided by the California Good Samaritan Food Donation Act as specified in Section 114434 of the Health and Safety Code.
(d) Nothing in this chapter prohibits a food recovery service or organization from refusing to accept edible food from a commercial edible food generator.

Article 10. Jurisdiction Edible Food Recovery Programs, Food Generators, and Food Recovery

Section 18991.1. Jurisdiction Edible Food Recovery Program.
(a) A jurisdiction shall implement an edible food recovery program that shall include the actions that the jurisdiction will take to accomplish each of the following:
   (1) Educate commercial edible food generators as set forth in Section 18985.2.
   (2) Increase commercial edible food generator access to food recovery organizations and food recovery services.
   (3) Monitor commercial edible food generator compliance as required in Article 14 of this chapter.
   (4) Increase edible food recovery capacity if the analysis required by Section 18992.2 indicates that the jurisdiction does not have sufficient capacity to meet its edible food recovery needs.
(b) A jurisdiction may fund the actions taken to comply with this section through franchise fees, local assessments, or other funding mechanisms.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18991.2. Recordkeeping Requirements for Jurisdiction Edible Food Recovery Program.

(a) A jurisdiction shall include all documents supporting its compliance with Section 18991.1 in the Implementation Record required by Section 18995.2 and shall also include at a minimum:

(1) A list of commercial edible food generators in the jurisdiction that have a contract or written agreement with food recovery organizations or services pursuant to Section 18991.3(b).

(2) A list of food recovery organizations and food recovery services in the jurisdiction and their edible food recovery capacity.

(3) Documentation of the actions the jurisdiction has taken to increase edible food recovery capacity.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18991.3. Commercial Edible Food Generators.

(a) Tier One commercial edible food generators shall comply with the requirements of this section commencing January 1, 2022. Tier two commercial edible food generators shall comply with the requirements of this section commencing January 1, 2024.

(b) Commercial edible food generators shall arrange to recover the maximum amount of edible food that would otherwise be disposed. A commercial edible food generator shall comply with the requirements of this section through a contract or written agreement with any or all of the following:

(1) Food recovery organizations or services that will collect their edible food for food recovery.

(2) Food recovery organizations that will accept the edible food that the commercial edible food generator self-hauls to the food recovery organization for food recovery.

(c) A large venue or large event operator that does not provide food services, but allows for food to be provided, shall require food facilities operating at the large venue or large event to comply with the requirements of this section.

(d) A commercial edible food generator shall comply with the requirements of this section unless the commercial edible food generator demonstrates the existence of extraordinary circumstances beyond its control that make such compliance impracticable. If an enforcement action is commenced against a commercial edible food generator for noncompliance, the burden of proof shall be upon the commercial edible food generator to demonstrate extraordinary circumstances. For the purposes of this section extraordinary circumstances are:
(1) A failure by the jurisdiction to increase edible food recovery capacity as required in Section 18991.1.

(2) Acts of God such as earthquakes, wildfires, flooding, and other emergencies or natural disasters.

(e) An edible food generator shall not intentionally spoil edible food that is capable of being recovered by a food recovery organization or service.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18991.4. Recordkeeping Requirements For Commercial Edible Food Generators.

(a) A commercial edible food generator subject to the requirements in this article shall keep a record that includes the following:

(1) A list of each food recovery service or organization that collects or receives its edible food pursuant to a contract or written agreement established under Section 18991.3(b).

(2) A copy of contracts or written agreements between the commercial edible food generator and a food recovery service or organization.

(3) A record of the following for each food recovery organization or service that the commercial edible food generator has a contract or written agreement with pursuant to Section 18991.3(b):

(A) The name, address and contact information of the service or organization.

(B) The types of food that will be collected by or self-hauled to the service or organization.

(C) The established frequency that food will be collected or self-hauled.

(D) The quantity of food collected or self-hauled to a service or organization for food recovery. The quantity shall be measured in pounds recovered per month.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18991.5. Food Recovery Services and Organizations.

(a) A food recovery organization or service that has established a contract or written agreement to collect or receive edible food directly from commercial edible food generators pursuant to Section 18991.3(b) shall maintain records specified in this section:

(1) A food recovery service shall maintain a record of:

(A) The name, address and contact information for each commercial edible food generator that the service collects edible food from.

(B) The quantity in pounds of edible food collected from each commercial edible food generator per month.

(C) The quantity in pounds of edible food transported to each food recovery organization per month.
(D) The name, address and contact information for each food recovery organization that the service transports edible food to for food recovery.

(2) A food recovery organization shall maintain a record of:

(A) The name, address and contact information for each commercial edible food generator that the organization receives edible food from.

(B) The quantity in pounds of edible food received from each commercial edible food generator per month.

(C) The name, address and contact information for each food recovery service that the organization receives edible food from for food recovery.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

(a) Counties, in coordination with jurisdictions and regional agencies located within the county, shall:

(1) Estimate the amount of all organic waste in tons that will be disposed by the county and jurisdictions within the county by:

(A) Multiplying the percentage of organic waste reported as disposed in the Department’s most recent waste characterization study by the total amount of landfill disposal attributed to the county and each jurisdiction located within the county by the Recycling and Disposal Reporting System; or

(B) Using a waste characterization study or studies performed by jurisdictions located within the county and applying the results of those studies to the total amount of landfill disposal attributed to the county and each jurisdiction located within the county by the Recycling and Disposal Reporting System. Local studies may be used if the studies:

1. Were performed within the last five years,
2. Include at least the same categories of organic waste as the Department’s most recent waste characterization study that was available at the time the local study or studies were performed, and,
3. Include a statistically significant sampling of solid waste disposed by the jurisdiction conducting the study.

(2) A county may incorporate the findings of a published report generated by the appropriate solid waste management entities within the county that provides organic waste disposal tonnages or percentages for specific organic waste material types that are not covered in the Department’s most recent waste characterization study. This may include, but is not limited to, reports on tons of biosolids or digestate disposed in the county.

(3) Identify the amount in tons of existing organic waste recycling infrastructure capacity, located both in the county and outside of the county, that is verifiably available to the county and jurisdictions located within the county.
(A) A county can demonstrate the capacity is verifiably available to the county or its jurisdictions through a contract, franchise, or other documentation of existing, new, or expanded capacity at a facility, activity, operation or property that recovers organic waste that will be available to the county or its jurisdiction prior to the end of the reporting period.

(4) Estimate the amount of new or expanded organic waste recycling facility capacity that will be needed to process the organic waste identified pursuant to Subdivision (a)(1) in addition to the existing capacity identified in Subdivision (a)(3).

(b) A jurisdiction or regional agency contacted by a county pursuant to Subdivision (a) shall respond to the county’s request for the information necessary to comply with the requirements of this article within 120 days of receiving the request from the county.

(1) If a jurisdiction or regional agency fails to provide the information necessary to comply with the requirements of this article within 120 days, the county is not required to include estimates for that jurisdiction in the report it submits pursuant to Section 18992.3.

(2) In the report submitted pursuant to Section 18992.3 the county shall identify any jurisdiction that did not provide the information necessary to comply with the requirements of this article within 120 days of receiving a request from the county.

(c) In complying with this section, the county in coordination with jurisdictions and regional agencies located within the county shall:

(1) Consult with the Enforcement Agency and the local task force created pursuant to Section 40950 of the Public Resources Code on the status of locations for new or expanded solid waste facilities including the potential capacity increase each facility may provide if approved.

(2) Consult with haulers and owners of facilities, operations, and activities that recover organic waste including, but not limited to, compost facilities, in-vessel digestion facilities, and Publicly Owned Treatment Works to gather information on the existing capacity and potential new or expanded capacity at those facilities, operations, and activities.

(A) Entities contacted by a jurisdiction shall respond to the jurisdiction within 60 days regarding available and potential new or expanded capacity at their facilities, operations, and activities, including information about throughput and permitted capacity necessary for planning purposes.

(3) Conduct community outreach regarding locations being considered for new or expanded facilities, operations, or activities to seek feedback on the benefits and impacts that may be associated with new or expanded facilities, operations, or activities. The community outreach shall:

(A) Include at least one of the following forms of communication: public workshops or meetings, print noticing, and electronic noticing.

(B) If applicable be conducted in coordination with potential solid waste facility operators that may use the location identified by the county and the jurisdictions and regional agencies located within the county.

(C) Include communication to disadvantaged communities that may be impacted by the development of new facilities at the locations identified by the county and the jurisdictions and regional agencies located within the county.
(D) Communication required by this section must be provided in non-English languages spoken by a substantial number of the public in the applicable jurisdiction in a manner that conforms with the requirements of Section 18985.1(e).

(4) Consult with community composting operators to estimate the amount of organic waste the county, and the jurisdictions and regional agencies located within the county, anticipate will be handled at community composting activities.

(d) If a county determines that organic waste recycling capacity, in addition to the available and proposed capacity identified pursuant to Subdivision (a), is needed within that county, the county shall notify the jurisdiction or jurisdictions that lack sufficient capacity that it is required to:

(1) Submit an implementation schedule to the Department that demonstrates how it will ensure there is enough available capacity to recover the organic waste currently disposed by generators within their jurisdiction by the end of the report period.

(A) The implementation schedule shall include timelines and milestones for planning efforts to access capacity including, but not limited to:

1. Obtaining funding for organic waste recycling infrastructure including, but not limited to, modifying franchise agreements or demonstrating other means of financially supporting the expansion of organic waste recycling.

2. Identification of facilities, operations, and activities that could be used for additional capacity.

(2) Identify proposed new or expanded organic waste recycling facilities that will be used to process the organic waste identified pursuant to Subdivision (a)(3).

(e) The notice the county provides jurisdictions pursuant to Subdivision (d) shall be provided on or before the county submits the report required pursuant to Section 18992.3.

(f) For the purposes of this section, only the following type of organic waste shall be included in estimates: food, green waste, landscape and pruning waste, wood, paper products, printing and writing paper, digestate and biosolids.

(g) For the purposes of conducting the estimates required by this section, a county may subtract the waste generated in an area subject to a waiver granted by the Department pursuant to Section 18984.12. A county is not required to obtain information from a jurisdiction that is waived from all of the organic waste collection requirements of this chapter.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18992.2. Edible Food Recovery Capacity.

(a) Counties, in coordination with jurisdictions and regional agencies located within the county, shall:

(1) Estimate the amount of edible food that will be disposed by commercial edible food generators that are located within the county and jurisdictions within the county.

(2) Identify existing capacity at food recovery organizations identified in Section 18982(a)(25)(A)–(B) that is available to commercial edible food generators located within the county and jurisdictions within the county.
(3) Identify proposed new or expanded food recovery organizations and food recovery services that will be used to recover edible food identified pursuant to Subdivision (a)(1).

(4) Identify the amount of new or expanded capacity, if any, at food recovery organizations and food recovery services that is necessary to recover the edible food that is estimated to be disposed by commercial edible food generators in (a)(1).

(b) In complying with this section the county in coordination with jurisdictions and regional agencies located within the county shall consult with food recovery organizations and food recovery services regarding existing, or proposed new and expanded, capacity that could be accessed by the jurisdiction and its commercial edible food generators.

(1) Entities contacted by a jurisdiction shall respond to the jurisdiction within 60 days regarding available and potential new or expanded capacity.

(c) If a county identifies that new or expanded capacity is needed to recover the amount of edible food identified in Subdivision (a), then each jurisdiction within that county that lacks capacity shall:

(1) Submit an implementation schedule to the Department that demonstrates how it will ensure there is enough new or expanded capacity to recover the edible food currently disposed by commercial edible food generators within its jurisdiction by the end of the reporting period set forth in Section 18992.3 of this article.

(A) The implementation schedule shall include timelines and milestones for planning efforts to access additional new or expanded capacity including, but not limited to:

1. Obtaining funding for edible food recovery infrastructure including, but not limited to, modifying franchise agreements or demonstrating other means of financially supporting the expansion of edible food recovery capacity.

2. Identification of facilities, operations, and activities inside the county that could be used for additional capacity.

(2) Consult with food recovery organizations and food recovery services regarding existing, or proposed new and expanded, capacity that could be accessed by the jurisdiction and its commercial edible food generators.

(d) If a county finds that new or expanded capacity is needed pursuant to Subdivision (c) then on or before the county submits the report required pursuant to Section 18992.3, the county shall notify the jurisdiction or jurisdictions that lack sufficient capacity.

(e) A jurisdiction or regional agency contacted by a county pursuant to this section shall respond to the county’s request for the information necessary to comply with the requirements of this section within 120 days of receiving the request from the county.

(1) If a jurisdiction or regional agency fails to provide the information necessary to comply with the requirements of this article within 120 days, the county is not required to include estimates for that jurisdiction in the report it submits pursuant to Section 18992.3.

(2) In the report submitted pursuant to Section 18992.3 the county shall identify any jurisdiction that did not provide the information necessary to comply with the requirements of this section within 120 days of receiving a request from the county.
Section 18992.3. Schedule For Reporting.
(a) Counties, in coordination with jurisdictions and regional agencies located within the county, shall conduct the planning requirements of Sections 18992.1 and 18992.2, on the following schedule:

(1) August 1, 2022 counties shall report to the Department on the period covering January 1, 2022 through December 31, 2024.

(A) Jurisdictions that are exempt from the organic waste collection requirements pursuant to Section 18984.12, are not required to conduct the capacity planning required in Section 18992.1 and are not required to include capacity plans required by Section 18992.1 in the first reporting period.

(2) August 1, 2024 counties shall report to the Department on the period covering January 1, 2025 through December 31, 2034.

(3) August 1, 2029 counties shall report to the Department on the period covering January 1, 2030 through December 31, 2039.

(4) August 1, 2034 counties shall report to the Department on the period covering January 1, 2035 through December 31, 2044.

(b) If a jurisdiction is required to submit an implementation schedule pursuant to Section 18992.1 or 18992.2 the implementation schedule shall be submitted 120 days following the date the county submitted the report to the Department.

Article 12. Procurement of Recovered Organic Waste Products

Section 18993.1. Recovered Organic Waste Product Procurement Target.
(a) Except as otherwise provided, commencing January 1, 2022, a jurisdiction shall annually procure a quantity of recovered organic waste products that meets or exceeds its current annual recovered organic waste product procurement target as determined by this article. For the purposes of this section, “jurisdiction” means a city, a county or a city and county.

(b) On or before January 1, 2022, and on or before January 1 every five years thereafter, the Department shall recalculate the annual recovered organic waste product procurement target for each jurisdiction according to the requirements of Subdivision (c).

(c) Each jurisdiction’s recovered organic waste product procurement target shall be calculated by multiplying the per capita procurement target by the jurisdiction population where:

(1) Per capita procurement target = 0.08 tons of organic waste per California resident per year.
(2) Jurisdiction population equals the number of residents in a jurisdiction, using the
most recent annual data reported by the California Department of Finance.
(d) Annually, the Department shall provide notice to each jurisdiction of its annual
recovered organic waste product procurement target by posting such information on the
Department’s website and providing written notice directly to the jurisdiction.
(e) A jurisdiction shall comply with Subdivision (a) by one or both of the following:
   (1) Directly procuring recovered organic waste products for use or giveaway.
   (2) Requiring, through a written contract or agreement, that a direct service provider
to the jurisdiction procure recovered organic waste products and provide written
documentation of such procurement to the jurisdiction.
(f) For the purposes of this article, the recovered organic waste products that a
jurisdiction may procure to comply with this article are:
   (1) Compost, subject to any applicable limitations of Public Contract Code Section
      22150, that is produced at:
      (A) A compostable material handling operation or facility permitted or authorized
      under Chapter 3.1 of this division; or
      (B) A large volume in-vessel digestion facility as defined and permitted under
      Chapter 3.2 of this division that composts on-site. [NOTE: Digestate, as defined in
      Section 18982(a)(16.5), is a distinct material from compost and is thus not a
      recovered organic waste product eligible for use in complying with this Article.]
   (2) Renewable gas used for fuel for transportation, electricity, or heating applications.
   (3) Electricity from biomass conversion.
   (4) Mulch, provided that the following conditions are met for the duration of the
      applicable procurement compliance year:
      (A) The jurisdiction has an enforceable ordinance, or similarly enforceable
      mechanism, that requires the mulch procured by the jurisdiction to comply with this
      article to meet or exceed the physical contamination, maximum metal
      concentration, and pathogen density standards for land application specified in
      Section 17852(a)(24.5)(A)1. through 3. of this division; and
      (B) The mulch is produced at one or more of the following:
      1. A compostable material handling operation or facility as defined in Section
         17852(a)(12), other than a chipping and grinding operation or facility as defined
         in Section 17852(a)(10), that is permitted or authorized under this division; or
      2. A transfer/processing facility or transfer/processing operation as defined in
         Sections 17402(a)(30) and (31), respectively, that is permitted or authorized
         under this division; or
      3. A solid waste landfill as defined in Public Resources Code Section 40195.1
         that is permitted under Division 2 of Title 27 of the California Code of
         Regulations.
   (g) The following conversion factors shall be used to convert tonnage in the annual
   recovered organic waste product procurement target for each jurisdiction to equivalent
   amounts of recovered organic waste products:
   (1) One ton of organic waste in a recovered organic waste product procurement
   target shall constitute:
      (A) 21 diesel gallon equivalents, or “DGE,” of renewable gas in the form of
      transportation fuel.
(B) 242 kilowatt-hours of electricity derived from renewable gas.
(C) 22 therms for heating derived from renewable gas.
(D) 650 kilowatt-hours of electricity derived from biomass conversion.
(E) 0.58 tons of compost or 1.45 cubic yards of compost.
(F) One ton of mulch.

(h) Renewable gas procured from a POTW may only count toward a jurisdiction’s recovered organic waste product procurement target provided the following conditions are met for the applicable procurement compliance year:

(1) The POTW receives organic waste directly from one or more of the following:
   (A) A compostable material handling operation or facility as defined in Section 17852(a)(12), other than a chipping and grinding operation or facility as defined in Section 17852(a)(10), that is permitted or authorized under this division; or
   (B) A transfer/processing facility or transfer/processing operation as defined in Sections 17402(a)(30) and (31), respectively, that is permitted or authorized under this division; or
   (C) A solid waste landfill as defined in Public Resources Code Section 40195.1 that is permitted under Division 2 of Title 27 of the California Code of Regulations.

(2) The POTW is in compliance with the exclusion described in Section 17896.6(a)(1).

(3) The jurisdiction receives a record from the POTW documenting the tons of organic waste received by the POTW from all solid waste facilities described in subsection (h)(1) above.

(4) The amount of renewable gas a jurisdiction or jurisdictions procured from the POTW for fuel, electricity or heating applications is less than or equal to the POTW’s production capacity of renewable gas generated from organic waste received at the POTW directly from solid waste facilities as determined using the relevant conversion factors in Subdivision (g).

(5) The POTW transported less than 25 percent of the biosolids it produced to activities that constitute landfill disposal.

(i) Electricity procured from a biomass conversion facility may only count toward a jurisdiction’s recovered organic waste product procurement target if the biomass conversion facility receives feedstock directly from one or more of the following during the duration of the applicable procurement compliance year:

(1) A compostable material handling operation or facility as defined in Section 17852(a)(12), other than a chipping and grinding operation or facility as defined in Section 17852(a)(10), that is permitted or authorized under this division; or
(2) A transfer/processing facility or transfer/processing operation as defined in Sections 17402(a)(30) and (31), respectively, that is permitted or authorized under this division; or
(3) A solid waste landfill as defined in Public Resources Code Section 40195.1 that is permitted under Division 2 of Title 27 of the California Code of Regulations.

(j) If a jurisdiction’s annual recovered organic waste product procurement target exceeds the jurisdiction’s total procurement of transportation fuel, electricity, and gas for heating applications from the previous calendar year as determined by the conversion factors in Subdivision (g), the target shall be adjusted to an amount equal to its total
procurement of those products as converted to their recovered organic waste product
equivalent from the previous year consistent with Subdivision (g).

(k) A jurisdiction shall identify additional procurement opportunities within the
jurisdiction’s departments and divisions for expanding the use of recovered organic
waste products.

(l) Rural counties, and jurisdictions located within rural counties that are exempt from
the organic waste collection requirements pursuant to Section 18984.12(c), are not
required to comply with the procurement requirements in this Section from January 1,
2022-December 31, 2026.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Sections 39730.6 and 39730.8.

Section 18993.2. Recordkeeping Requirements For Recovered Organic Waste
Procurement Target.

(a) A jurisdiction, as defined in 18993.1(a), shall include all documents supporting its
compliance with this article in the implementation record required by Section 18995.2 of
this chapter including, but not limited to, the following:

(1) A description of how the jurisdiction will comply with the requirements of this
article.

(2) The name, physical location, and contact information of each entity, operation, or
facility from whom the recovered organic waste products were procured, and a
general description of how the product was used, and if applicable, where the
product was applied.

(3) All invoices or similar records evidencing all procurement.

(4) If a jurisdiction will include procurement of recovered organic waste products
made by a direct service provider to comply with the procurement requirements of
Section 18993.1(a), the jurisdiction shall include all records of procurement of
recovered organic waste products made by the direct service provider on behalf of
the jurisdiction including invoices or similar records evidencing procurement.

(5) If a jurisdiction will include renewable gas procured from a POTW for any of the
uses identified in 18993.1(f)(2) to comply with the procurement mandate of Section
18993.1(a), a written certification by an authorized representative of the POTW,
attesting to the following for the applicable procurement compliance year:

(A) That the POTW was in compliance with the exclusion in Section 17896.6(a)(1);

(B) The total tons of organic waste received from the types of solid waste facilities
listed in Section 18993.1(h)(1); and

(C) The percentage of biosolids that the POTW produced and transported to
activities that constitute landfill disposal.

(6) If a jurisdiction will include electricity procured from a biomass conversion facility
to comply with the procurement mandate of Section 18993.1(a), a written certification
by an authorized representative of the biomass conversion facility certifying that
biomass feedstock was received from a permitted solid waste facility identified in
1. **Section 18993.1(i)** shall be provided to the jurisdiction. The certification shall be furnished under penalty of perjury in a form and manner determined by the jurisdiction.

2. (7) If the jurisdiction is implementing the procurement requirements of Section 18993.1 through an adjusted recovered organic waste product procurement target pursuant to Section 18993.1(j), the jurisdiction shall include records evidencing the total amount of transportation fuel, electricity, and gas for heating applications procured during the calendar year prior to the applicable reporting period.

3. (8) For jurisdictions complying with the requirements of Section 18993.1, through the procurement of mulch, a copy of the ordinance or similarly enforceable mechanism the jurisdiction has adopted requiring that mulch procured by the jurisdiction or a direct service provider meets the land application standards specified in Section 18993.1.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

**Section 18993.3. Recycled Content Paper Procurement Requirements.**

(a) A jurisdiction shall procure paper products, and printing and writing paper, consistent with the requirements of Sections 22150-22154 of the Public Contract Code.

(b) In addition to meeting the requirements of Subdivision (a), paper products and printing and writing paper shall be eligible to be labeled with an unqualified recyclable label as defined in 16 Code of Federal Regulations (CFR) Section 260.12 as published January 1, 2013, which is hereby incorporated by reference.

(c) A jurisdiction shall require all businesses from whom it purchases paper products and printing and writing paper to certify in writing:

1. The minimum percentage, if not the exact percentage, of postconsumer material in the paper products and printing and writing paper offered or sold to the jurisdiction. The certification shall be furnished under penalty of perjury in a form and manner determined by the jurisdiction. A jurisdiction may waive the certification requirement if the percentage of postconsumer material in the paper products, printing and writing paper, or both can be verified by a product label, catalog, invoice, or a manufacturer or vendor Internet website.

2. That the paper products and printing and writing paper offered or sold to the jurisdiction is eligible to be labeled with an unqualified recyclable label as defined in 16 CFR Section 260.12 as published January 1, 2013, which is hereby incorporated by reference.

Reference: Public Resources Code Section 42652.5; Health and Safety Code Section 39730.6; and Public Contracts Code Sections 22150, 22151, 22152, 22153, and 22154.
Section 18993.4. Recordkeeping Requirements for Recycled Content Paper

Procurement.
(a) A jurisdiction shall include all documents supporting its compliance with this article in the implementation record required by Section 18995.2 of this chapter including, but not limited to, the following:
   (1) Copies of invoices, receipts or other proof of purchase that describe the procurement of paper products by volume and type for all paper purchases.
   (2) Copies of all certifications or other verification required under Section 18993.3.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5; Health and Safety Code Section 39730.6; and Public Contracts Code Sections 22150, 22151, 22152, 22153, and 22154.

Article 13. Reporting

Section 18994.1. Initial Jurisdiction Compliance Report.
(a) Each jurisdiction shall report to the Department on its implementation and compliance with the requirements of this chapter. Each jurisdiction shall report to the Department by April 1, 2022 the following information:
   (1) A copy of ordinances or other enforceable mechanisms adopted pursuant to this chapter.
   (2) The reporting items identified in Section 18994.2(b).
   (3) The following contact information:
      (A) The name, mailing address, phone number, and email address of the employee of the jurisdiction that the jurisdiction has designated as the primary contact person for the purposes of receiving communications regarding compliance with this chapter.
      (B) The name and address of the agent designated by the jurisdiction for the receipt of service of process from the Department for the purposes of enforcement of this chapter if different from (A) above.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18994.2. Jurisdiction Annual Reporting.
(a) A jurisdiction shall report the information required in this section to the Department according to the following schedule:
   (1) On or before October 1, 2022, a jurisdiction shall report for the period of January 1, 2022 through June 30, 2022.
   (2) On or before August 1, 2023, and on or before August 1 each year thereafter, a jurisdiction shall report for the period covering the entire previous calendar year.
   (b) Each jurisdiction shall report the following, relative to its implementation of the organic waste collection requirements of Article 3 of this chapter:
      (1) The type of organic waste collection service(s) provided by the jurisdiction to its generators.
(2) The total number of generators that receive each type of organic waste collection service provided by the jurisdiction.

(3) If the jurisdiction is implementing an organic waste collection service that requires transport of the contents of containers to a high diversion organic waste processing facility, the jurisdiction shall identify the Recycling and Disposal Reporting System number of each facility that receives organic waste from the jurisdiction.

(4) If the jurisdiction allows placement of compostable plastics in containers pursuant to Section 18984.1 or 18984.2, the jurisdiction shall identify each facility that has notified the jurisdiction that it accepts and recovers that material.

(5) If the jurisdiction allows organic waste to be collected in plastic bags and placed in containers pursuant to Section 18984.1 or 18984.2 the jurisdiction shall identify each facility that has notified the jurisdiction that it can accept and remove plastic bags when it recovers source separated organic waste.

(c) Each jurisdiction shall report the following, relative to its implementation of the contamination monitoring requirements of Article 3 of this chapter:

(1) The number of route reviews conducted for prohibited container contaminants.

(2) The number of times notices, violations, or targeted education materials were issued to generators for prohibited container contaminants.

(3) The results of waste evaluations performed to meet the container contamination minimization requirements and the number of resulting targeted route reviews.

(d) Each jurisdiction shall report the following relative to its implementation of waivers pursuant to Article 3 of this chapter:

(1) The number of days an emergency circumstances waiver as allowed in Section 18984.13 was in effect and the type of waiver issued.

(2) The tons of organic waste that were disposed as a result of waivers identified in Subsection (1), except disaster and emergency waivers granted in Section 18984.13(b).

(3) The number of generators issued a de-minimis waiver.

(4) The number of generators issued a physical space waiver.

(5) A jurisdiction that receives a waiver from the Department pursuant to Section 18984.12 of Article 3 of this chapter shall report the following information for each year the waiver is in effect:

(A) The number of generators waived from the requirement to subscribe to an organic waste collection service.

(e) A jurisdiction shall report the following regarding its implementation of education and outreach required in Article 4 of this chapter:

(1) The number of organic waste generators and edible food generators that received information and the type of education and outreach used.

(f) A jurisdiction shall report the following regarding its implementation of the hauler oversight requirements of Article 7 of this chapter:

(1) The number of haulers approved to collect organic waste in the jurisdiction.

(2) The Recycling and Disposal Reporting System number of each facility that is receiving organic waste from haulers approved by the jurisdiction.

(3) The number of haulers that have had their approval revoked or denied.
(g) A jurisdiction subject to article 8 shall report the following regarding its implementation of the CALGreen Building Standards and Model Water Efficient Landscape Ordinance as required in Article 8 of this chapter:

1. The number of construction and demolition debris removal activities conducted in compliance with Section 18989.1.
2. The number of projects subject to Section 18989.2.

(h) A jurisdiction shall report the following regarding its implementation of the edible food recovery requirements of Article 10 of this chapter:

1. The number of commercial edible food generators located within the jurisdiction.
2. The number of food recovery services and organizations located and operating within the jurisdiction that contract with or have written agreements with commercial edible food generators for food recovery.

(A) A jurisdiction shall require food recovery organizations and services that are located within the jurisdiction and contract with or have written agreements with commercial edible food generators pursuant to Section 18991.3(b) to report the amount of edible food in pounds recovered by the service or organization in the previous calendar year to the jurisdiction.

3. The jurisdiction shall report on the total pounds of edible food recovered by food recovery organizations and services pursuant to Subdivision (h)(2)(A).

(i) A jurisdiction shall report the following regarding its implementation of the organic waste recycling capacity planning and edible food recovery capacity planning requirements of Article 11 of this chapter:

1. A county shall report:

   (A) The tons estimated to be generated for landfill disposal.
   (B) The amount of capacity verifiably available to the county and cities within the county.
   (C) The amount of new capacity needed.
   (D) The locations identified for new or expanded facilities.
   (E) The jurisdictions that are required to submit implementation schedules.
   (F) The jurisdictions that did not provide information required by Article 11 of this chapter to the county within 120 days.

2. Notwithstanding Subdivision (a), the information required by this subdivision shall be reported on the schedule specified in Section 18992.3.

(i) A jurisdiction, as defined in Sections 18993.1, shall report the following regarding its implementation of the procurement requirements of Article 12 of this chapter:

1. The amount of each recovered organic waste product procured directly by the city, county, or through direct service providers, or both during the prior calendar year.

2. If the jurisdiction is implementing the procurement requirements of Section 18993.1 through an adjusted recovered organic waste product procurement target pursuant to Section 18993.1(i), the jurisdiction shall include in its report the total amount of transportation fuel, electricity, and gas for heating applications procured during the calendar year prior to the applicable reporting period.

(k) A jurisdiction shall report the following regarding its implementation of the compliance, monitoring, and enforcement requirements specified in Articles 14-16 of this chapter:
(1) The number of commercial businesses that were included in a compliance review performed by the jurisdiction pursuant to Section 18995.1(a)(1). As well as the number of violations found and corrected through compliance reviews if different from the amount reported in Subdivision (k)(5).

(2) The number of route reviews conducted.

(3) The number of inspections conducted by type for commercial edible food generators, food recovery organizations, and commercial businesses.

(4) The number of complaints pursuant to Section 18995.3 that were received and investigated, and the number of Notices of Violation issued based on investigation of those complaints.

(5) The number of Notices of Violation issued, categorized by type of entity subject to this chapter.

(6) The number of penalty orders issued, categorized by type of entity subject to this chapter.

(7) The number of enforcement actions that were resolved, categorized by type of regulated entity.

(l) A jurisdiction shall report any changes to the information described in Sections 18994.1(a)(1) and 18994.1(a)(3).

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Article 14 Enforcement Requirements

Section 18995.1. Jurisdiction Inspection Requirements.

(a) On or before January 1, 2022, a jurisdiction shall have an inspection and enforcement program that is designed to ensure overall compliance with this chapter and that, at a minimum, includes the following requirements:

(1) Beginning January 1, 2022, and at least annually thereafter, a jurisdiction shall conduct the following:

(A) If the jurisdiction is using the compliance method described in Section 18984.1 or 18984.2 of this division, the jurisdiction shall complete a compliance review of all solid waste collection accounts for commercial businesses that are subject to its authority and that generate two cubic yards or more per week of solid waste, including organic waste.

1. The jurisdiction shall also determine compliance with:
   i. Organic waste generator requirements set forth in Section 18984.9(a).
   ii. Self-haul requirements set forth in Section 18988.3, including whether a business is complying through back-hauling organic waste.

2. Beginning April 1, 2022, the jurisdiction shall either:
   i. Conduct annual route reviews of commercial businesses and residential generators for compliance with organic waste generator requirements set forth in Section 18984.9(a) and container contamination requirements set forth in Section 18984.5; or
ii. Perform waste evaluations consistent with Section 18984.5(c) to verify commercial businesses and residential generators compliance with organic waste generator requirements set forth in Section 18984.9(a).

(B) If a jurisdiction is using the compliance method described in Section 18984.3, the jurisdiction shall conduct a compliance review of all solid waste collection accounts for commercial businesses that are subject to its authority and generate two cubic yards or more per week of solid waste, including organic waste.

1. The jurisdiction shall also determine compliance with:
   i. Organic waste generator requirements set forth in Section 18984.9(a) and document if the business is transporting the contents to a high diversion organic waste processing facility; or
   ii. Self-hauling requirements pursuant to Section 18988.3, including whether a business is complying through back-hauling organic waste.

(2) Beginning January 1, 2022, conduct inspections of Tier One commercial edible food generators and food recovery organizations and services for compliance with this chapter. Beginning January 1, 2024, conduct inspections of Tier Two commercial edible food generators for compliance with Article 10 of this chapter.

(3) Beginning January 1, 2022, investigate complaints as required under Section 18995.3.

(4) Beginning January 1, 2022 and until December 31, 2023, a jurisdiction shall provide educational material describing the applicable requirements of this chapter in response to violations.

(5) Beginning January 1, 2024, a jurisdiction shall enforce this chapter pursuant to Sections 18995.4 and 18997.2 in response to violations.

(6) At least every five years from the date of issuance, verify through inspection that commercial businesses are meeting de minimis and physical space waivers for compliance consistent with the requirements of Section 18984.11.

(b) A jurisdiction shall conduct a sufficient number of route reviews and inspections of entities described in this section to adequately determine overall compliance with this chapter. A jurisdiction may prioritize inspections of entities that it determines are more likely to be out of compliance.

(c) A jurisdiction shall generate a written or electronic record for each inspection, route review, and compliance review conducted pursuant to this chapter. Each record shall include, at a minimum, the following information:

(1) Identifying information for the subject or subjects of the inspection, route review or compliance review, such as, but not limited to:
   (A) The name or account name of each person or entity.
   (B) A description of the hauler route and addresses covered by a route review.
   (C) A list of accounts reviewed for each compliance review.

(2) The date or dates the inspection, route review, or compliance review was conducted.

(3) The person or persons who conducted the action.

(4) The jurisdiction’s findings regarding compliance with this chapter, including any Notices of Violation or educational materials that were issued.

(5) Any relevant evidence supporting the findings in Subsection (4) above, such as, but not limited to, photographs and account records.
(6) Route review records shall also include a description of the locations of the route
review(s) and the addresses where prohibited container contaminants are found, if
any.
(d) Documentation of route reviews, compliance reviews, and inspections, as well as all
other records of enforcement conducted pursuant to this chapter shall be maintained in
the Implementation Record required by Section 18995.2 of this chapter, and shall
include, but not be limited to:
   (1) Copies of all documentation of route reviews, compliance reviews, and
inspections.
   (2) Copies of all enforcement actions required by Section 18995.4 of this chapter,
including Notices of Violation and penalty orders.
   (3) A list of the date(s) that the jurisdiction determined an entity complied with a
Notice of Violation and the evidence that supports that compliance determination.
   (4) Copies of notices and educational material provided as required by this section.
(e) Consistent with Section 18981.2, a jurisdiction may have a designee conduct
inspections required by this section.
(f) Any records obtained by a jurisdiction through its implementation and enforcement of
the requirements of this chapter shall be subject to the requirements and applicable
disclosure exemptions of the Public Records Act as set forth in Government Code
Section 6250 et seq.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.

Section 18995.2. Implementation Record and Recordkeeping Requirements.
(a) A jurisdiction shall maintain all records required by this chapter in the
Implementation Record.
(b) The Implementation Record shall be stored in one central location, physical or
electronic, that can be readily accessed by the Department.
(c) Upon request by the Department, the jurisdiction shall provide access to the
Implementation Record within ten business days.
(d) All records and information shall be included in the Implementation Record within 60
days of the creation of the record or information.
(e) All records shall be retained by the jurisdiction for five years.
(f) At a minimum, the following shall be included in the Implementation Record:
   (1) A copy of all ordinances or other similarly enforceable mechanisms, contracts,
and agreements, as required by this chapter.
   (2) A written description of the jurisdiction’s inspection and enforcement program that
it uses to comply with Sections 18995.1 and 18995.4.
   (3) All organic waste collection service records required by Section 18984.4.
   (4) All contamination minimization records required by Section 18984.6.
   (5) All waiver and exemption records required by Section 18984.14.
   (6) All education and outreach records required by Section 18985.3.
   (7) All hauler program records required by Section 18988.4.
   (8) All jurisdiction edible food recovery program records required by Section 18991.2.
(9) All recovered organic waste procurement target records required by Section 18993.2.
(10) All recycled content paper procurement records required by Section 18993.4.
(11) All inspection, route review, and compliance review documents generated pursuant to the requirements of Section 18995.1(d).
(12) All records of enforcement actions undertaken pursuant to this chapter.
(13) All records of complaints and investigations of complaints required by Section 18995.3 and compliance with the jurisdiction’s inspection and enforcement requirements of Sections 18995.1.
(14) All records required by Section 18998.4 if the jurisdiction is implementing a performance-based source separated organic waste collection service under Article 17 of this chapter.
(g) All records maintained in the Implementation Record shall be subject to the requirements and applicable disclosure exemptions of the Public Records Act as set forth in Government Code Section 6250 et seq.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18995.3. Jurisdiction Investigation of Complaints of Alleged Violations.
(a) A jurisdiction shall provide a procedure for the receipt and investigation of written complaints of alleged violations of this chapter. The jurisdiction shall allow for the submission of anonymous complaints.
(b) The procedure shall provide that complaints be in writing and include the following information:
   (1) If the complaint is not anonymous, the name and contact information of the complainant.
   (2) The identity of the alleged violator, if known.
   (3) A description of the alleged violation including location(s) and all other relevant facts known to the complainant.
   (4) Any relevant photographic or documentary evidence to support the allegations in the complaint.
   (5) The identity of any witnesses, if known.
(c) A jurisdiction shall commence an investigation within 90 days of receiving a complaint that meets the requirements of Subdivision (b) if the jurisdiction determines that the allegations, if true, would constitute a violation of this chapter. The jurisdiction may decline to investigate a complaint if, in its judgment, investigation is unwarranted because the allegations are contrary to facts known to the jurisdiction.
(d) The jurisdiction shall provide a procedure to notify a complainant of the results of their complaint if the identity and contact information of the complainant are known.
(e) The jurisdiction shall maintain records of all complaints and responses pursuant to this section in the Implementation Record set forth in Section 18995.2. The records shall include the complaint as received and the jurisdiction’s determination of compliance or notice of violations issued.
Section 18995.4. Enforcement by a Jurisdiction.
(a) With the exception of violations of the prohibited container contaminants provisions in Section 18984.5(a), which a jurisdiction shall enforce through the notice provisions of Section 18984.5(b), for violations of this chapter occurring on or after January 1, 2024, the jurisdiction shall take enforcement action as set forth in this section.
   (1) The jurisdiction shall issue a Notice of Violation requiring compliance within 60 days of the issuance of that notice.
   (2) Absent compliance by the respondent within the deadline set forth in the Notice of Violation, the jurisdiction shall commence an action to impose penalties pursuant to Article 16 of this chapter.
(b) The jurisdiction may extend the compliance deadlines set forth in a Notice of Violation issued pursuant to Subdivision (a) if it finds that extenuating circumstances beyond the control of the respondent make compliance within the deadlines impracticable. For purposes of this section, extenuating circumstances are:
   (1) Acts of God such as, earthquakes, wildfires, flooding, and other emergencies or natural disasters;
   (2) Delays in obtaining discretionary permits or other government agency approvals; and
   (3) Deficiencies in organic waste recycling capacity infrastructure or edible food recovery capacity, and the relevant jurisdiction is under a Corrective Action Plan pursuant to Section 18996.2 due to those deficiencies.
(c) A Notice of Violation shall include the following information:
   (1) The name(s), or account name(s) if different, of each person or entity to whom it is directed.
   (2) A factual description of the violations of this chapter, including the regulatory section(s) being violated.
   (3) A compliance date by which the operator is to take specified action(s).
   (4) The penalty for not complying within the specified compliance date.
(c) The Department shall notify the jurisdiction prior to conducting a compliance evaluation.
(d) The Department shall provide its findings to the jurisdiction in writing.
(e) If the Department determines at any time that an ordinance adopted by a jurisdiction is inconsistent with or does not meet the requirements set forth in this chapter, the Department shall notify the jurisdiction and provide an explanation of the deficiencies. The jurisdiction shall have 180 days from that notice to correct the deficiencies. If the jurisdiction does not, the Department shall commence enforcement actions as set forth in Section 18996.2.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18996.2. Department Enforcement Action Over Jurisdictions.
(a) The Department shall enforce this chapter according to the following procedures:
(1) Issue a Notice of Violation requiring compliance within 90 days of the date of issuance of that notice. The Department shall grant an extension for up to a total of 180 days from the date of issuance of the Notice of Violation if it finds that additional time is necessary for the jurisdiction to comply.
(2) The Department shall extend the deadline for a jurisdiction to comply beyond the maximum compliance deadline allowed in Subdivision (a)(1) by issuing a Corrective Action Plan setting forth the actions a jurisdiction shall take to correct the violation(s). A Corrective Action Plan shall be issued if the Department finds that additional time is necessary for the jurisdiction to comply and the jurisdiction has made a substantial effort to meet the maximum compliance deadline but extenuating circumstances beyond the control of the jurisdiction make compliance impracticable. The Department shall base its finding on available evidence, including relevant evidence provided by the jurisdiction.
(A) If a jurisdiction is unable to comply with the maximum compliance deadline allowed in Subdivision (a)(1) due to deficiencies in organic waste recycling capacity infrastructure, the Department shall issue a Corrective Action Plan for such violations upon making a finding that:
1. Additional time is necessary for the jurisdiction to comply; and
2. The jurisdiction has provided organic waste collection service to all hauler routes where it is practicable and the inability to comply with the maximum compliance deadline in Subdivision (a)(1) is limited to only those hauler routes where organic waste recycling capacity infrastructure deficiencies have caused the provision of organic waste collection service to be impracticable.
3. The Department shall, if applicable, consider implementation schedules, as described in Section 18992.1, for purposes of developing a Corrective Action Plan but shall not be restricted in mandating actions to remedy violation(s) and developing applicable compliance deadline(s) to those provided in the Implementation Schedule.
(B) For the purposes of this section, “substantial effort” means that a jurisdiction has taken all practicable actions to comply. Substantial effort does not include
circumstances where a decision-making body of a jurisdiction has not taken the
necessary steps to comply with the chapter including, but not limited to, a failure to
provide adequate staff resources to meet its obligations under this chapter, a
failure to provide sufficient funding to ensure compliance, or failure to adopt the
ordinance(s) or similarly enforceable mechanisms under Section 18981.2.
(C) For the purposes of this section, “extenuating circumstances” are:
1. Acts of God, such as earthquakes, wildfires, mudslides, flooding, and other
emergencies or natural disasters,
2. Delays in obtaining discretionary permits or other government agency
approvals.
3. An organic waste recycling infrastructure capacity deficiency requiring more
than 180 days to cure.

(3) A Corrective Action Plan shall be issued by the Department with a maximum
compliance deadline no more than 24 months from the date of the original Notice of
Violation and shall include a description of each action the jurisdiction shall take to
remedy the violation(s) and the applicable compliance deadline(s) for each action.
The Corrective Action Plan shall describe the penalties that may be imposed if a
jurisdiction fails to comply.

(A) An initial Corrective Action Plan issued due to inadequate organic waste
recycling infrastructure capacity may be extended for a period of up to 12 months
if the department finds that the jurisdiction has demonstrated substantial effort.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.

Section 18996.3. Department Enforcement When Jurisdiction Fails to Enforce.
The Department shall take direct enforcement action against an entity subject to a
jurisdiction’s enforcement authority under this chapter consistent with the following
requirements:
(a) If the jurisdiction fails to comply by the deadline in a Notice of Violation, or extension
thereto, issued under Section 18996.2(a)(1) for failure to take enforcement action as
required by this chapter, the Department shall take direct enforcement action against
that entity pursuant to Section 18996.9 upon the Department’s compliance with
Subdivision (b).
(b) Prior to initiating enforcement action under Section 18996.9 against the entity, the
Department shall notify the jurisdiction in writing of its intent to do so and shall include a
general description of the grounds for the Department’s action.
(c) Nothing in this section shall be construed as a limitation on the Department taking
enforcement action against the jurisdiction for a failure to comply with the requirements
of this chapter.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.
Section 18996.4. Access for Inspection by the Department.

(a) Upon presentation of proper credentials, an authorized Department employee or agent shall be allowed to enter the premises of any entity subject to this chapter during normal working hours to conduct inspections and investigations in order to examine organic waste recovery activities, edible food recovery activities, and records in order to determine compliance with this chapter. Methods may include, but are not limited to, allowing the review or copying or both, of any paper, electronic, or other records required by this chapter.

(1) This subdivision is not intended to permit an employee or agent of the Department to enter a residential property.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18996.5. Enforcement Actions Against Organic Waste Generators Located In Multiple Jurisdictions.

(a) In matters of substantial statewide concern, where multiple jurisdictions determine that Department enforcement may be more effective at achieving the intent of this chapter than separate enforcement by each jurisdiction, multiple jurisdictions may, together, file a joint enforcement referral under this section.

(b) The joint referral may request that the Department take enforcement action in lieu of those jurisdictions against an organic waste generator or generators, including a commercial edible food generator or generators, with locations, at minimum, in each of those jurisdictions.

(c) The joint referral shall be filed with the director of CalRecycle and shall include:

(1) A statement of facts that includes a description of the following:

(A) The relevant locations of the organic waste generator or generators at issue;
(B) The alleged violations of this chapter, the locations of those violations, and the relevant regulatory sections; and
(C) All evidence known to the jurisdictions that supports the allegations in the statement of facts.

(2) An analysis of the following issues:

(A) Why the relevant enforcement matter is of substantial statewide concern; and
(B) The basis of the finding by the jurisdictions that Department enforcement against the relevant organic waste generator or generators will be more effective at achieving the intent of this chapter than separate enforcement by each jurisdiction.

(3) A signature from the person in each jurisdiction responsible for compliance with this chapter, as currently reported to the Department in Article 13, certifying that the allegations contained in the referral are true and correct to the best of their knowledge.

(d) The Department shall take enforcement action in lieu of the jurisdictions pursuant to this section and Section 18996.9 upon a finding that:

(1) The referral meets the requirements of this section and includes credible evidence supporting all of the factual allegations therein;
(2) The relevant enforcement matter described in the joint referral is of substantial
regional or statewide concern; and
(3) Department enforcement action against the relevant organic waste generator will
be more effective at achieving the goals of this chapter than separate enforcement by
each jurisdiction.
(e) The Department shall respond, in writing, to the joint referral with a determination as
to whether it will take enforcement action against the relevant generator in lieu of the
jurisdictions.
(1) If the Department agrees to take enforcement action pursuant to a joint referral,
the Department shall issue a written order to the relevant jurisdictions mandating
suspension of their individual enforcement actions against the relevant organic waste
generator or generators.
(2) If the Department fails to respond to a joint referral within 90 days of receipt, the
joint referral shall be deemed denied.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.

Section 18996.6. Department Enforcement Action Regarding State Agencies.
(a) If the Department finds that a state agency is violating Article 5 or Article 10 of this
chapter, then the Department shall take the following actions:
(1) Issue a Notice of Violation requiring compliance within 90 days of the date of
issuance of that notice. The Department shall grant an additional extension up to 180
days from the date of issuance of the Notice of Violation if it finds that additional time
is necessary for the state agency to comply. The Department shall base its finding on
available evidence, including relevant evidence provided by the state agency.
(2) If a state agency fails to comply by the final deadline in a Notice of Violation, the
Department shall take the following actions:
(A) List the state agency on the Organic Waste Recovery Noncompliance
Inventory on the Department’s website until such time as the Department finds that
the state agency is no longer in violation.
(B) Notify the Governor.
(C) Notify the Legislature.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code
Section 39730.6.

Section 18996.7. Department Enforcement Action Regarding Local Education
Agencies and Federal Facilities.
(a) If the Department finds that a local education agency or federal facility is violating
this chapter, the Department shall issue a Notice of Violation requiring compliance
within 90 days. The Department shall grant an additional extension up to 180 days from
the date of issuance of the Notice of Violation if it finds that additional time is necessary
for the local education agency or federal facility to comply. The Department shall base
its finding on available evidence, including relevant evidence provided by the local education agency or federal facility. If the local education agency or federal facility fails to comply with the final deadline in a Notice of Violation, the Department shall list the local education agency or federal facility on the Organic Waste Recovery Noncompliance Inventory on its website until such time as the Department determines that the local education agency or federal facility is no longer in violation.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18996.8. Department Investigation of Complaints of Alleged Violations.
(a) The Department shall receive and investigate written complaints of alleged violations of this chapter according to the requirements of this section.
(b) Complaints may be submitted anonymously, shall be submitted in writing, and shall include the following information.
(1) If the complaint is not anonymous, the name and contact information of the complainant.
(2) The identity of the alleged violator, if known.
(3) A description of the alleged violation including location(s) and all other relevant facts known to the complainant.
(4) Any relevant photographic or documentary evidence to support the allegations in the complaint.
(5) The identity of any witnesses, if known.
(c) The Department shall commence an investigation within 90 days of receiving a complaint that meets the requirements of Subdivision (b) if the Department determines the allegations, if true, would constitute a violation of this chapter subject to the enforcement authority of the Department. The Department may decline to investigate a complaint if, in its judgment, investigation is unwarranted because the allegations are contrary to facts known to the Department. The Department shall notify the complainant of the results of the investigation if the identity and contact information of the complainant are known.
(d) If the Department receives a complaint about a violation within the enforcement authority of a jurisdiction, it shall refer the complaint to the jurisdiction for investigation under Section 18995.3.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18996.9. Department Enforcement Actions Against Entities.
(a) The Department shall take enforcement action against the following entities pursuant to the requirements of this section when a jurisdiction has failed to enforce this chapter as determined under Section 18996.3, or lacks the authority to enforce this chapter:
(1) Organic waste generators, commercial edible food generators, haulers, and food recovery organizations and services; and
(2) A non-local entity that is not subject to Section 18996.6 or 18996.7.

(b) Violations of this chapter that are subject to this section shall be enforced as follows:

(1) For a first violation:
(A) The Department shall issue a Notice of Violation requiring compliance within 60 days of the issuance of that notice.
(B) If the violation continues after the compliance deadline in the Notice of Violation, the Department shall issue a Notice and Order to Correct requiring compliance within 30 days of issuance of that Notice and Order. The Notice and Order to Correct shall inform the respondent that the Department shall impose penalties upon failure to comply by the deadline in that Notice and Order.
(C) If the violation continues after the compliance deadline in the Notice and Order to Correct, the Department shall commence action to impose penalties pursuant to Section 18997.5.

(2) For a second or subsequent violation occurring within 5 years of a first violation:
(A) The Department shall issue a Notice and Order to Correct requiring compliance within 30 days of the issuance of that Notice and Order. The Notice and Order to Correct shall inform the respondent that the Department may impose penalties upon failure to comply by the deadline in that Notice and Order.
(B) If the violation continues after the compliance deadline in the Notice and Order to Correct, the Department shall commence action to impose penalties pursuant to Section 18997.5.

(c) The Department shall extend the deadlines set forth in Subdivision (b) if it makes the following findings based on available evidence, including relevant evidence provided by the respondent:
(1) Additional time is necessary to comply.
(2) Extenuating circumstances beyond the control of the respondent make compliance impracticable. For the purposes of this section, “extenuating circumstances” are:
(A) Acts of God, such as earthquakes, wildfires, mudslides, flooding, and other emergencies or natural disasters.
(B) Delays in obtaining discretionary permits or other government agency approvals.
(C) An organic waste recycling infrastructure capacity deficiency and the jurisdiction within which the respondent is located is subject to a Corrective Action Plan pursuant to Section 18996.2 due to such deficiencies.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Article 16. Administrative Civil Penalties

Section 18997.1. Scope.
(a) Administrative civil penalties for violations of this chapter shall be imposed consistent with the requirements of this Article as authorized by Public Resources Code Section 42652.5.
(b) A jurisdiction shall adopt ordinance(s) or enforceable mechanisms to impose penalties as prescribed in Section 18997.2.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5. Reference: Public Resources Code Sections 41850, 42652.5 and Health and Safety Code Section 39730.6

Section 18997.2. Penalty Amounts.
(a) A jurisdiction shall impose penalties for violations of the requirements of this chapter consistent with the applicable requirements prescribed in Government Code Sections 53069.4, 25132 and 36900. The penalty levels shall be as follows:

(1) For a first violation, the amount of the base penalty shall be $50-$100 per violation.
(2) For a second violation, the amount of the base penalty shall be $100-$200 per violation.
(3) For a third or subsequent violation, the amount of the base penalty shall be $250-$500 per violation.

(b) Nothing in this section shall be construed as preventing a jurisdiction from revoking, suspending, or denying a permit, registration, license, or other authorization consistent with local requirements outside the scope of this chapter in addition to the imposition of penalties authorized under this section.

Section 18997.3 Department Penalty Amounts.
(a) Penalties shall be imposed administratively in accordance with the requirements set forth in this section.
(b) Penalties, except for violations specified in subdivision (d), shall be assessed as follows:

(1) A “Minor” violation means a violation involving minimal deviation from the standards in this chapter, where the entity failed to implement some aspects of a requirement but has otherwise not deviated from the requirement. The penalties for this type of violation shall be no less than five hundred dollars ($500) per violation and no more than four thousand dollars ($4,000) per violation per day.
(2) A “Moderate” violation means a violation involving moderate deviation from the standards in this chapter. A violation which is not a minor violation or a major violation shall be a moderate violation. The penalties for this type of violation shall be no less than four thousand dollars ($4,000) per violation and shall be no more than seven thousand five hundred dollars ($7,500) per violation per day.
(3) A “Major” violation means a violation that is a substantial deviation from the standards in this chapter that may also be knowing, willful or intentional or a chronic violation by a recalcitrant violator as evidenced by a pattern or practice of noncompliance. The penalties for this type of violation shall be no less than seven thousand five hundred dollars ($7,500) per violation per day and no more than ten
thousand dollars ($10,000) per violation per day. For purposes of this subsection, a
major violation shall always be deemed to include the following types of violations:
(A) A jurisdiction fails to have any ordinance or similarly enforceable mechanism
for organic waste disposal reduction and edible food recovery.
(B) A jurisdiction fails to have a provision in a contract, agreement, or other
authorization that requires a hauler to comply with the requirements of this
chapter.
(C) A jurisdiction fails to have an edible food recovery program.
(D) A jurisdiction fails to have any Implementation Record.
(E) A jurisdiction implements or enforces an ordinance, policy, procedure,
condition, or initiative that is prohibited under Sections 18990.1 or 18990.2.
(F) A jurisdiction fails to submit the reports required in Sections 18994.1 and
18994.2.
(c) Once the penalty range has been determined pursuant to Subdivision (b), the
following factors shall be used to determine the amount of the penalty for each violation
within that range:
(1) The nature, circumstances, and severity of the violation(s).
(2) The violator’s ability to pay.
(3) The willfulness of the violator’s misconduct.
(4) Whether the violator took measures to avoid or mitigate violations of this chapter.
(5) Evidence of any economic benefit resulting from the violation(s).
(6) The deterrent effect of the penalty on the violator.
(7) Whether the violation(s) were due to conditions outside the control of the violator.
(d) For violations of the Recovered Organic Waste Product Procurement requirements
in Section 18993.1, where a jurisdiction fails to procure a quantity of recovered organic
waste products that meets or exceeds its recovered organic waste product procurement
target, the Department shall determine penalties under this Subdivision (d) based on the
following:
(1) The Department shall calculate the jurisdiction’s daily procurement target
equivalent by dividing the procurement target by 365 days.
(2) The Department shall determine the number of days a jurisdiction was in
compliance by dividing the total amount of recovered organic waste products
procured by the daily procurement target equivalent.
(3) The Department shall determine the number of days a jurisdiction was out of
compliance with the procurement target by subtracting the number of days calculated
in Subdivision (d)(2) from 365 days.
(4) The penalty amount shall be calculated by determining a penalty based on the
factors in Subdivision (c) above, and multiplying that number by the number of days
determined according to Subdivision (d)(3). The penalty amount shall not exceed
$10,000 per day.
(e) Notwithstanding Subdivisions (a)-(d) if the Department sets a penalty amount for
multiple violations of this chapter, the aggregated penalty amount for all violations shall
not exceed the amount authorized in Section 42652.5 of the Public Resources Code.
(f) Nothing in this section shall be construed as authorizing the Department to impose
penalties on residential organic waste generators.
Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Section 18997.4. Organic Waste Recovery Noncompliance Inventory.
(a) If the Department finds that a state agency, local education agency, or federal facility has failed to meet the final deadline in a Notice of Violation issued under this chapter, the Department shall send a notice stating that the Department has placed the respondent on the Organic Waste Recovery Noncompliance Inventory listed on its website. The Department may remove the respondent from the Organic Waste Recovery Noncompliance Inventory upon a finding, based on available evidence, that the respondent is no longer in violation of this chapter.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18997.5. Department Procedure for Imposing Administrative Civil Penalties.
(a) The Department shall commence an action to impose administrative civil penalties by serving an accusation on a jurisdiction, person and/or entity, and a notice informing the jurisdiction, person, and/or entity of their right to a hearing conducted pursuant to Section 18997.6.
(b) The accusation and all accompanying documents may be served on the respondent(s) by one of the following means:
   (1) Personal service;
   (2) Substitute service by using the same service procedures as described in Section 415.20 of the Code of Civil Procedure;
   (3) Certified Mail or registered mail; or
   (4) Electronically, with the consent of the respondent(s).
(c) Upon receipt of the accusation, the respondent shall file a request for hearing with the director of the Department within 15 days or the respondent will be deemed to have waived its right to a hearing.
(d) The Department shall schedule a hearing within 30 days of receipt of a request for hearing that complies with the requirements of this section.
(e) The hearing shall be held before the director of the Department, or the director’s designee, within 90 days of the scheduling date.
(f) If the respondent(s) waive(s) the right to a hearing, the Department shall issue a penalty order in the amount described in the accusation.
(g) The director of the Department, or the director’s designee, shall issue a written decision within 60 days of the conclusion of the hearing.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.
Section 18997.6. Department Procedures for Hearings and Penalty Orders.
(a) A hearing required under this chapter shall be conducted by the director of the Department, or the director's designee, in accordance with the informal hearing requirements specified in Chapter 4.5 (commencing with Section 11400) of Part 1 of Division 3 of Title 2 of the Government Code.
(b) A penalty order issued under Section 18997.5 shall become effective and final upon issuance thereof, and payment shall be due within 30 days of issuance, unless otherwise ordered by the director or the director's designee. A penalty order may be served by any method described in Section 18997.5(b).
Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Article 17: Performance-Based Source Separated Organic Waste Collection Service

Section 18998.1. Requirements for Performance-Based Source Separated Collection Service.
(a) If a jurisdiction implements a performance-based source separated organic waste collection service it shall:
   (1) Provide a three-container organic waste collection service consistent with Section 18984.1 (a), (b) and (d)-(f) of this chapter to at least 90 percent of the commercial businesses and 90 percent of the residential sector subject to the jurisdiction’s authority.
   (2) Transport the contents of the source separated organic waste collection stream to a designated source separated organic waste facility.
   (3) Ensure that the presence of organic waste in the gray container collection stream does not exceed an annual average of 25 percent by weight.
      (A) The annual average percent of organic waste present in the gray container collection stream shall be determined by the results of waste evaluations performed by the jurisdiction pursuant to Section 18984.5.
      (B) The annual average percent of organic waste present in a jurisdiction’s gray container collection stream is the average of the results of the gray container waste collection stream samples performed by the jurisdiction in the immediately previous four quarters pursuant to Section 18984.5.
   (4) Provide collection service to organic waste generators subject to their authority. Consistent with Section 18984.1, a jurisdiction shall not require commercial businesses or residents to request solid waste collection service prior to enrollment.
   (5) Notify the Department pursuant to Section 18998.3.
(b) Jurisdictions that delegate collection services to a designee shall include in their contracts or agreements with the designee a requirement that all haulers transport the source separated organic waste collection stream collected from generators subject to the authority of a jurisdiction to a designated source separated organic waste facility.
(c) If a jurisdiction fails to meet the requirements of this section after notifying the Department in accordance with Section 18998.3, the jurisdiction shall implement an organic waste collection service that complies with the requirements of Article 3 of this
chapter. The jurisdiction shall be subject to the applicable enforcement processes outlined in this chapter until services that comply with Article 3 are provided to generators, and the jurisdiction shall not be eligible for the compliance exceptions in Section 18998.2.

(d) A hauler providing a performance-based source separated collection service is not required to comply with the provisions of Section 18988.2 in jurisdictions implementing this service, but shall comply with the following in jurisdictions implementing this service:

1. Only transport the source separated organic waste collection stream to a designated source separated organic waste recycling facility.

2. Keep a record of the documentation of its approval by the jurisdiction.

(e) The requirements of Subdivision (d) are not applicable to:

1. A hauler that, consistent with Division 30, Part 2, Chapter 9, Article 1, commencing with Section 41950 of the Public Resources Code, transports source separated organic waste to a community composting site; or

2. A hauler that is lawfully transporting construction and demolition debris in compliance with Section 18989.1.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.
Reference: Public Resources Code Section 42652.5 and Health and Safety Code Section 39730.6.

Section 18998.2. Compliance Exceptions.

(a) If a jurisdiction implements a performance-based source separated collection service that meets the requirements of Section 18998.1(a), the jurisdiction shall not be subject to the following:

1. The collection requirements in Sections 18984.2 and 18984.3.

2. The container labeling requirements in Section 18984.8, and waivers in Section 18984.11.

3. The recordkeeping requirements in Sections 18984.4, and 18984.14.

4. The organic waste recovery education and outreach requirements in Section 18985.1.

5. The recordkeeping requirements in Section 18985.3 except as related to edible food recovery education and outreach performed under Section 18985.2.

6. The regulation of haulers in Article 7 of this chapter.

7. The jurisdiction annual reporting requirements in Section 18994.2(c)(1)-(2), (d)-(f) and (k).

8. The jurisdiction inspection and enforcement requirements in Sections 18995.1, except for the provisions related to edible food generators and food recovery organizations and services in that section.

9. The implementation record and recordkeeping requirements in Section 18995.2(f)(3)-(7). Implementation Records requirements in Section 18995.2(f)(11)-(13) shall only be required for inspections and enforcement related to edible food generators and food recovery organizations and services.

10. The jurisdiction investigation of complaints of alleged violations requirements in Section 18995.3, except as it pertains to entities subject to the edible food recovery requirements of Article 10 of this chapter.
(11) The jurisdiction enforcement requirements in Section 18995.4, except as it pertains to entities subject to the edible food recovery requirements of Article 10 of this chapter.

Section 18998.3. Notification to Department.
(a) A jurisdiction that will implement a performance-based source separated collection service beginning in 2022 shall notify the Department on or before January 1, 2022. A jurisdiction that will implement a performance-based source separated collection system in any subsequent year shall notify the Department on or before January 1 of that year.
(b) The notification shall include the following information:
(1) The name of the jurisdiction.
(2) Date the jurisdiction will start providing the performance-based source-separated collection service.
(3) Contact information for the jurisdiction, including the name, address and telephone number of the representative of the jurisdiction with primary responsibility for ensuring compliance with this article.
(4) The address within the jurisdiction where all records required by this chapter are maintained.
(5) A list of each designated source separated organic waste facility, landfill disposal facility and any other solid waste facility and their Recycling and Disposal Reporting System number for any facility that will be receiving solid waste directly from the jurisdiction.
(6) The name of any designee the jurisdiction has delegated responsibilities to pursuant to Section 18998.1 and any relevant documentation demonstrating the designee’s obligation to comply with the provisions of this article.
(7) A statement by the representative of the jurisdiction with primary responsibility for ensuring compliance with this article, under penalty of perjury, that all information contained in the notification is true and correct to the best of their knowledge and belief.
(8) The percent of commercial businesses and the percent of the residential sector currently enrolled in organic waste collection services provided by the jurisdiction.
(c) In the initial report to the department required in Section 18994.1, a jurisdiction implementing a performance-based source separated organic waste collection service shall certify that at least 90 percent of the commercial businesses and 90 percent of the residential sector subject to the jurisdiction’s authority are enrolled in a collection service that complies with the requirements of Section 18998.1.

Section 18998.4. Recordkeeping.
A jurisdiction implementing a performance-based source separated organic waste collection service pursuant to this article shall maintain the following information and documents in the Implementation Record required by Section 18995.2:
(a) The geographical area each designee serves.
(b) If a designee is used, a copy of the contract or agreement for each designee specifying the requirement that all haulers transport the source separated organic waste collection stream collected from generators subject to the jurisdiction’s authority to a designated source separated organic waste facility.
(c) Records evidencing compliance with Section 18998.1(a) including, but not limited to:
   (1) A current list of generator addresses subject to the authority of the jurisdiction.
   (2) A current list of generator addresses subject to the authority of the jurisdiction that are served with a performance-based source separated organic waste collection service.
   (3) A current list of generator addresses within the jurisdiction that the jurisdiction does not require to use the performance-based source separated organic waste collection service.
   (4) Documentation of the enrollment system used by the jurisdiction consistent with Section 18998.1(a)(4).
(d) A jurisdiction implementing a performance-based source separated organic waste collection service is still required to maintain the following records specified in Section 18995.2:
   (1) Records required by (f)(1).
   (2) Records required by (f)(2) and (6) as they pertain to the edible food recovery requirements chapter.
   (3) Records required by (f)(8)-(10).
   (4) Records required by (f)(11)-(13) as they pertain to the edible food recovery requirements of this chapter.

Authority cited: Public Resources Code Sections 40502, 43020, 43021 and 42652.5.

Title 27. Environmental Protection
Division 2. Solid Waste
Chapter 3. Criteria for All Waste Management Units, Facilities, and Disposal Sites
Subchapter 4. Criteria for Landfills and Disposal Sites
Article 3: CIWMB—CalRecycle—Handling, Equipment, and Maintenance

(a) For new or expanding solid waste landfills, the operator shall implement organic waste recovery activities, as approved by the EA. Organic waste recovery activities shall be confined to specified, clearly identifiable areas of the site and shall be arranged to minimize health and safety hazard, vector harborage, or other hazard or nuisance, and be limited to a volume and storage time as approved by the EA.

(1) An operator only accepting solid wastes that have already been processed through a high diversion organic waste processing facility or a designated source separated organic waste facility does not need to implement organic waste recovery activities.

(b) For the purposes of this section "organic waste recovery activities" means activities that divert organic waste from landfill disposal to activities that constitute a reduction of landfill disposal of organic waste as defined in Article 2 of Chapter 12 of Division 7 of Title 14 of the California Code of Regulations (commencing with Section 18983.1), either on-site or transport to another site where those activities occur.

(c) For the purposes of the section, "expanding" means a solid waste landfill proposing to make a significant change to the design or operation as determined by the EA pursuant to 27 CCR Section 21665.

(1) Changing the hours of operation of a landfill is not considered an expansion pursuant to 27 CCR Section 20750.1(c).

Note:
Authority cited: Section 40502 and 43020, Public Resources Code.

Chapter 4. Documentation and Reporting for Regulatory Tiers, Permits, WDRs, and Plans

Subchapter 3: Development of Waste Discharge Requirements (WDRs) and Solid Waste Facility Permits

Article 2. CalRecycle—Applicant Requirements

§21570. CalRecycle—Filing Requirements.
(a) Any operator of a disposal site who is required to have a full solid waste facilities permit and waste discharge requirements pursuant to Public Resources Code, Division 31 and §20080(f) shall submit an application package for a solid waste facilities permit in duplicate to the EA pursuant to ¶(f). The applicant shall also simultaneously submit one copy of the application form and the Joint Technical Document (JTD) to the Regional Water Quality Control Board (RWQCB) and one copy of the application form to the director of the local agency that oversees local land use planning for the
jurisdiction in which the site is located. The applicant shall ensure demonstration of
financial assurances to CalRecycle pursuant to Chapter 6 of this Subdivision.
(b) All other applicants who are required to have a full solid waste facilities permit shall
submit an application package for a solid waste facilities permit in duplicate to the EA
pursuant to ¶(f) and one copy of the application form to the director of the local agency
that oversees local land use planning for the jurisdiction in which the site is located. The
applicant shall also simultaneously submit one copy of the application form to the
RWQCB.
(c) Any application package submitted to the EA shall be accompanied by the fee
specified by the EA pursuant to Public Resources Code §44006(c).
(d) The application package shall require that information be supplied in adequate detail
to permit thorough evaluation of the environmental effects of the facility and to permit
estimation of the likelihood that the facility will be able to conform to the standards over
the useful economic life of the facility. The application package shall require, among
other things, that the applicant and the owner give the address at which process may be
served upon them.
(e) All information in the application package shall be certified by the applicant and the
owner of the site as being true and accurate to the best knowledge and belief of each.
The applicant, owner of the facility, or both, shall supply additional information as
deemed necessary by the EA.
(f) A complete and correct application package shall include, but not necessarily be
limited to, the following items:
   (1) Application For Solid Waste Facilities Permit/Waste Discharge Requirements
      Form CIWMBCalRecycle E-1-77 (Version 11-15 8-04) (Appendix 1); and
   (2) Complete and correct Report of Facility Information. In the case of disposal sites,
      this will be a Report of Disposal Site Information (RDSI) in the format of a JTD or ana
      Disposal Site Facility Plan or Disposal Facility Report in the format of a JTD; and
   (3) California Environmental Quality Act (CEQA) compliance information as follows:
      (A) Evidence that there has been compliance with the CEQA, Division 13
         (commencing with §21000) of the Public Resources Code, regarding the facility; or
      (B) Information on the status of the application’s compliance with the CEQA
         regarding the facility, including the proposed project description. Once there has
         been compliance with the CEQA regarding the facility, evidence of compliance
         shall be submitted to the EA; and
      (4) Any CEQA Mitigation Monitoring Implementation Schedule; and
      (5) Conformance finding information, including one of the following:
         (A) Until a countywide or regional agency integrated waste management plan has
            been approved by CalRecycle, the application shall include statements that: the
            facility is identified and described in or conforms with the County Solid Waste
            Management Plan, or otherwise complies with Public Resources Code §50000;
            and that the facility is consistent with the city or county General Plan and
            compatible with surrounding land use, in accordance with Public Resources Code
            §50000.5; or
         (B) After a countywide or regional agency integrated waste management plan has
            been approved by CalRecycle, the application shall include a statement that: the
            facility is identified in either the countywide siting element, the nondisposal facility
element, or in the Source Reduction and Recycling Element for the jurisdiction in
which it is located; or, that the facility is not required to be identified in any of these
elements pursuant to Public Resources Code §50001; and

(6) For disposal sites, completeness determination of Preliminary or Final
Closure/Postclosure Maintenance Plan as specified in §§21780, 21865, and 21890
(Subchapter 4 of this chapter); and

[Note: The operator has the option of submitting the preliminary closure plan with the
JTD, in which case the EA, RWQCB, and CalRecycle would review it at the same
time. If deemed complete by the reviewing agencies, the solid waste facilities permit
application package could then be accepted for filing if all other information in the
JTD is accepted by the EA. Or the operator can submit a stand alone preliminary
closure plan to be deemed complete by reviewing agencies before the application
package is submitted to the EA. For CalRecycle purposes, all final
closure/postclosure plans are stand alone documents but can be processed jointly
with a proposed solid waste facilities permit revision as long as the final plan is
determined complete prior to approval of the proposed solid waste facilities permit.
The JTD Index prepared for the EA should show where each closure requirement is
addressed in the closure/post-closure plan.]

(7) For disposal sites, a copy of the most recently submitted detailed written estimate
or latest approved estimate, whichever identifies the greatest cost, to cover the cost
of known or reasonably foreseeable corrective action activities, pursuant to §22101;

(8) For disposal sites, current documentation of acceptable funding levels for required
closure, postclosure maintenance, and corrective action Financial Assurance
Mechanisms (in accordance with Chapter 6, Division 2); and

(9) For disposal sites, current documentation of compliance with operating liability
requirements in accordance with Chapter 6;

(10) For disposal sites permitted for more than 20 tons-per-day, a ground or aerial
survey to be completed at least once every five years or more frequently as
determined by the EA. For disposal sites permitted for 20 tons-per-day or less, a
ground or aerial survey must be completed at least once every ten years. Survey
results must be submitted as a CADD or vector graphics data file including at least
two strata, i.e., 1) a stratum showing the base and finished ground surfaces, and 2) a
stratum showing the existing and finished ground surfaces. For disposal sites where
a change in permitted volume is proposed, a third stratum showing the base and
proposed finished ground surface must be included. For each stratum the following
information shall be included: site name, stratum name, surface1 name, surface2
name, volume calculation method (grid, composite, section), expansion (cut) factor,
compaction (fill) factor, cut volume, fill volume and net volume. All volumes shall be
reported in cubic yards. If the base ground surface is uncertain, the operator is
allowed to provide the best available information as a substitute for the actual as-built
contours. If selecting this substitute method, the operator must provide an
explanation of the basis for using the substitute base ground surface. For the
purposes of this section the following definitions apply:

(A) "base ground surface" - the best available excavation plan surface that existed
prior to the placement of any waste;

(B) "CADD" - computer aided design and drafting;
(C) "compaction (fill) factor" - the factor used to correct for expected compaction of fill material; this factor should normally be unity (one); if the factor is not unity (one), an explanation must be provided for the basis of the volumetric correction;
(D) "cut volume" - for any stratum, the volume removed by a cut of a lower surface to achieve the upper surface;
(E) "existing ground surface" - the topography that exists at the time of the subject survey;
(F) "expansion (cut) factor" - the factor used to correct for expected expansion of a cut surface; this factor should normally be unity (one); if the factor is not unity (one), an explanation must be provided for the basis of the volumetric correction;
(G) "fill volume" - for any stratum, the volume bound between the upper and lower surfaces;
(H) "finished ground surface" - the final fill plan surface as shown in the approved closure plan for the disposal site;
(I) "net volume" - the fill volume less the cut volume;
(J) "site name" - the name of the disposal site for which the survey information is being submitted;
(K) "stratum (plural: strata)" - a particular volume of a solid waste landfill bound by specified upper and lower surfaces;
(L) "stratum name" - a descriptive name for the stratum for which volumetric information is being submitted, e.g., total volume including proposed expansion;
(M) "surface names" - names for the pair of surfaces that define a named stratum, e.g., base ground surface and proposed finished ground surface;
(N) "survey" - a comprehensive examination of the disposal site under the direction of registered civil engineer or licensed land surveyor for purposes of determining the topography of the base, existing and finished ground surfaces, and the volumes bound by those surfaces;
(O) "vector graphics" - computer generated images comprised of lines and shapes of given origin, direction, thickness, color and other attributes;
(P) "volume calculation method" - grid, composite, section or other method approved by the enforcement agency.

(11) For disposal sites, one of the following:
(A)
(i) In-place density (pounds of waste per cubic yard of waste). The in-place density is the estimated or measured density of in-place waste material achieved by mechanical or other means in the development of the current lift of the current operating waste cell, and
(ii) Waste-to-cover ratio, estimated, (volume:volume). The waste-to-cover ratio estimate is a unit-less expression of the proportion of the volumes of waste and cover that comprise a volume of compacted fill material, e.g. 4:1. The cover portion of the waste-to-cover ratio estimate should include only soil or approved daily or intermediate alternative cover that is not considered a waste material, i.e., payment of fees to CalRecycle is not required. The waste portion of the waste-to-cover ratio estimate should include only waste material for which payment of fees to CalRecycle is reported, or
(B) Airspace utilization factor (tons of waste per cubic yard of landfill airspace). 

The airspace utilization factor (AUF) is the effective density of waste material in the landfill. The AUF is recorded as the total weight of waste material passing over the landfill scales that is placed in a known volume of landfill airspace in a given period of time. The waste portion of the AUF should include only waste material for which payment of fees to CalRecycle is reported.

(12) List of all public hearings and other meetings open to the public that have been held or copies of notices distributed that are applicable to the proposed solid waste facilities permit action.

(g) For new or expanded solid waste facilities, hold a public meeting with any affected disadvantaged communities within 180 days of submittal of the permit application package.

(1) Provide copies (hard copy or electronic) of notices distributed to the affected disadvantaged communities.

(2) Provide a summary of the comments received at the public meeting, responses to any public comments, and any other steps taken by the applicant relative to those comments.

(3) For the purposes of this section “affected disadvantaged communities” means communities identified by the California Environmental Protection Agency pursuant to Section 39711 of the Health and Safety Code as disadvantaged that are located within one mile of the facility.

Note:

Authority cited: Section 40002, 40502 and 43020, Public Resources Code.

Any operator of a disposal site which is required to submit a RDSI, closure/postclosure maintenance plan, and/or a ROWD or any other report that addresses similar regulatory concerns, may address those requirements under one JTD. The JTD will be used in place of the RDSI only if it meets all the requirements set forth in §21600 and lists where each requirement has been satisfied in the document in the form of a JTD index, pursuant to ¶(c).

(a) After July 18, 1997, any operator of an existing facility who submits an application package to the EA, pursuant to §21570, which proposes to change the facility's operations, or to change the SWFP shall do one of the following:

(1) Submit the updated information as an amendment to the existing JTD along with, a JTD index as described in ¶(c), referencing the new or updated information; or

(2) Submit a complete JTD as described in §21600 along with a JTD index as described in subsection (c).

(b) After July 18, 1997, any operator of a new facility that submits an application package to the EA pursuant to §21570, shall submit a complete JTD pursuant to §21600, and an index of the topics addressed in the JTD to be used by the EA as described in ¶(c).
(c) As of July 18, 1997, the operator shall include with the JTD a copy of an index specifically for use by the EA. The page number or the first line number within the JTD which addresses the topic shall be noted next to that topic in the index. The EA shall make available to the operator either in hard copy and/or on magnetic media an electronic copy a JTD index listing, (Index found in Appendix 2) showing each topic which the JTD must address to provide the EA with relevant facility information for writing or revising the facility permit.

(d) These requirements do not apply to those facilities which have filed a ROWD or RDSI and application for SWFP prior to July 18, 1997. In the event the EA determines the application package for an RDSI first submitted prior to the effective date of these regulations to be incomplete, additional information requested shall be submitted as part of the RDSI and/or application for SWFP, as appropriate.

Article 3: CIWMBCalRecycle—Enforcement Agency (EA) Requirements

§21650. CIWMBCalRecycle—EA Processing Requirements. (T14:§18203)
(a) Upon its receipt, the EA shall stamp the application package with the date of receipt. The EA shall examine the application package to determine whether it meets the requirements of §21570. If the EA finds the package meets the requirements of §21570, the application package shall be accepted and stamped with the date of acceptance. Notwithstanding any other provision of this division, the application package shall be deemed filed on the date of acceptance.
(b) The EA shall either accept or reject the application package within thirty days of its receipt.
(c) Within five days of filing, the EA shall notify the CIWMBCalRecycle, and the RWQCB if applicable, of its determination. The EA shall submit as its notification to the CIWMB CalRecycle a copy of the accepted application form. The EA shall also forward a copy of the application form to the RWQCB if applicable.
(d) If the EA determines that the application package does not meet the requirements of §21570, it shall reject and not file the application, and it shall, within five days of determination, so notify the applicant, the CIWMB-CalRecycle, and the RWQCB if applicable, enumerating the grounds for rejection. The EA shall include in its notification to the CIWMB-CalRecycle a copy of the rejected application form. The application package, together with the notice of rejection, shall be kept in the EA's file.
(e) After acceptance of an application for a new or revised full solid waste facilities permit as complete and correct and within 60 days of receipt of the application by the EA, the EA shall notice and conduct an informational meeting as required by §§21660.2 and 21660.3. For modified solid waste facilities permits, the EA shall provide notice as required by §21660.3 after finding the permit application complete and correct and within 60 days of receipt of the application by the EA.
(f) Upon request of the applicant, the EA may accept an incomplete application package. As a condition of acceptance, the operator and the EA shall waive the statutory time limit contained in Public Resources Code §44009. [Note: Section 21580 is the section for processing the applicant’s waiver of timeframes and timing for noticing and holding an informational meeting after the EA deems a previously submitted incomplete package to be complete.] The EA shall notify the applicant within 30 days if the applicant's request for review under this subsection has been accepted. If the application package does not conform with the requirements of §21570 within 180 days from the date of the EA agreeing to accept the package as incomplete the EA shall reject the application package, pursuant to ¶(d). If the EA finds the application package meets the requirements of §21570, the application package shall be accepted pursuant to ¶(c).

(g) No later than 60 days after the application package has been accepted as complete and correct and after conducting an informational meeting if required by §§21660.2 and 21660.3, the EA shall mail to the CIWMB CalRecycle the following:

(1) A copy of the proposed solid waste facilities permit;
(2) The accepted application package;
(3) A certification from the EA that the solid waste facilities permit application package is complete and correct, including a statement that the RFI meets the requirements of §21600, 14 CCR §§17863, 17863.4, 17346.5, 18221.6, 18223.5, or 18227.
(4) Documentation, if applicable, of the applicant's compliance with any RWQCB enforcement order or the status of the applicant's WDRs, as described in Public Resources Code §44009;
(5) Any written public comments received on a pending application and a summary of comments received at the informational meeting, responses to any public comments, and, where applicable, any other steps taken by the EA relative to those comments. Subsequent to the transmittal of the proposed solid waste facilities permit, the EA shall, within five (5) days of receipt, provide a copy of any additional written public comments and response to comments to the CIWMB CalRecycle.
(6) A solid waste facilities permit review report which has been prepared pursuant to §21675, within the last five years.
(7) EA finding that the proposed solid waste facilities permit is consistent with and is supported by existing CEQA analysis, or information regarding the progress toward CEQA compliance.

(h) At the time the EA submits the proposed solid waste facilities permit to the CIWMB CalRecycle, the EA shall submit a copy of the proposed solid waste facilities permit to the applicant, the RWQCB if applicable, and any person so requesting in writing. The copy of the proposed solid waste facilities permit provided to the applicant shall also be accompanied by a form for request for hearing, which the applicant may use to obtain a hearing before a hearing panel or hearing officer to challenge any condition in the solid waste facilities permit. In cases where a hearing panel or hearing officer may be requested, the EA shall notify the CIWMB CalRecycle within seven days of being noticed by the operator.

(i) The proposed solid waste facilities permit shall contain the EA's conditions. The proposed solid waste facilities permit shall not contain conditions pertaining solely to air
or water quality, nor shall the conditions conflict with conditions from WDRs issued by the RWQCB.

[Note: The process to obtain a full solid waste facilities permit might not include the RWQCB if the facility is other than a landfill or disposal site. Therefore, EA submittals of forms and documents to the RWQCB will be made if applicable to the type of facility. When writing conditions pursuant to 21650(i) the EA shall take into consideration PRC §44012, which requires the EA to ensure that primary consideration is given to protecting public health and safety and preventing environmental damage, and the long-term protection of the environment. The EA may also take into consideration other permits, entitlements and approvals when writing terms and conditions (e.g., conditional use permit, zoning, Air Pollution Control District/Air Quality Management District permits to construct and operate, Department of Toxic Substances Control hazardous waste facility permit, Department of Fish and Game Wildlife permits, Coastal Commission approvals, Army Corps of Engineers permit, Federal Aviation Administration notification, and other required local and county ordinances/permits)]

§21660.2. Informational Meeting for New and Revised Full Solid Waste Facilities Permit Applications.
(a) EA shall conduct an informational meeting for all new and revised full solid waste facilities permit applications as determined by §21665. The EA shall hold an informational meeting on an application for a new full solid waste facilities permit or an application for a full solid waste facilities permit revision required under this article. The EA may require the operator(s) of the facility or facilities that are the subject of the informational meeting to pay all costs incurred by the EA in connection with the meeting. The informational meeting may be combined with another public meeting in which the EA participates that meets the criteria as specified in §§21660.2(b) and 21660.2(c).
(b) The informational meeting shall be held after acceptance of the application package as complete and correct by the EA and within 60 days of receipt of the application by the EA. The EA shall submit to the Board CalRecycle a copy of the informational meeting notice at time of issuance. The Board CalRecycle shall post the notice on its web site as a way to further inform the public.
(c) The informational meeting shall meet the following criteria:
(1) The meeting shall be held in a suitable location not more than one (1) mile from the facility that is the subject of the meeting; if no suitable and available location exists within one (1) mile of the facility, as determined by the EA, the EA may designate an alternative suitable location that is as close to the facility and affected disadvantaged communities as reasonably practical.
(2) The meeting shall be held on a day and at a time that the EA determines will enable attendance by residents, especially those of affected disadvantaged communities, living in the vicinity of the facility that is the subject of the meeting.
(3) EAs may undertake additional measures to increase public notice and to encourage attendance by any persons who may be interested in the facility that is the subject of the meeting, including which may include, but not be limited to, additional posting at the facility entrance, noticing beyond 300 feet if the nearest residence or business is not within 300 feet of the site, posting in a local newspaper of general circulation, and multilingual notice and translation and, multiple meeting dates, times and locations.

(d) The EA may substitute a previous public meeting or hearing for the requirements in this Section pursuant to §21660.4 if the applicant does not object.

(e) For the purposes of this section “affected disadvantaged communities” means communities identified by the California Environmental Protection Agency pursuant to Section 39711 of the Health and Safety Code as disadvantaged that are located within one mile of the facility.

**Article 3.2. CIWMB CalRecycle—Other Requirements**

**§21695. CalRecycle—Organic Disposal Reduction Status Impact Report.**

(a) Operators of a solid waste landfills shall submit a Status Impact Report (SIR) to CalRecycle that provides an analysis of the potential impacts to the landfill resulting from the implementation of the organic disposal reduction requirements of Public Resources Code §§Section 42652.5.

(b) The SIR shall be prepared by a California licensed civil engineer or licensed engineering geologist.

(c) The SIR shall describe the potential impacts to the landfill including the expected timing of the impacts. The analysis shall include, but not be limited to, changes to the following:

1. Site development;
2. Waste types/volumes;
3. Daily and intermediate cover and beneficial use:
   (A) For intermediate cover the analysis shall also include:
      1. A description and/or map of the area(s) that have or will have intermediate cover.
      2. The length of time that the intermediate cover has been used and expected time that it will be used for each defined area.
      3. A description of how the intermediate cover will be maintained to continue to meet the control criteria of Section 20700(a).
      4. Information on all instantaneous surface readings for methane of 500 ppmv or greater in the area(s) of intermediate cover that has or will be in place for more than 12 months.
i. This information shall be as reflected in the most recent annual report filed pursuant to 17 CCR Section 95470(b)(3).

ii. The location of each such exceedance shall be identified consistent with the monitoring requirements of 17 CCR Section 95469(a)(1)(A).

(4) Volumetric capacity based on the disposal site experiencing a reduction of organic waste disposal of 50 percent by 2020 and 75 percent by 2025;

(5) Waste handling methods;

(6) Gas control and monitoring systems;

(7) Gas generation;

(8) Operation and closure design (individual cells and overall site geometry);

(9) Final grading plan;

(10) Site life estimate;

(11) Ancillary facilities;

(12) Cost estimates for closure and postclosure; and

(13) Financial assurance mechanisms for closure, postclosure, and non-water corrective action requirements.

(d) The SIR shall be submitted to CalRecycle no later than one year (365 days) from the effective date of this regulation.

(e) Within 30 days of receipt of a SIR, CalRecycle shall make a determination as to the completeness of the SIR based on the requirements of Subdivisions (b) and (c). If a SIR is determined to be incomplete, CalRecycle shall provide to the operator, in writing, the reasons for the determination.

(f) For a SIR determined to be incomplete, the operator shall submit a revised SIR addressing any enumerated deficiencies within 30 days of receipt of notice from CalRecycle of an incomplete SIR.

(g) Within 60 days of a determination of completeness, CalRecycle shall submit its findings to the EA regarding amendments, if any, to the Joint Technical Document as a result of the SIR.

(1) If amendments are required, the EA shall direct the operator to submit an updated Joint Technical Document including updated closure and postclosure maintenance plans that includes the information from the SIR.

(2) The EA shall notify the operator within 30 days of receipt of CalRecycle’s findings.

(h) Within 120 days of being directed by the EA, pursuant to Subdivision (g), the operator shall submit to the EA an updated Joint Technical Document including updated closure and postclosure maintenance plans that includes the information from the SIR.
