Informational Update - Public Webinar on Management of Waste Photovoltaic Modules as Universal Waste in California – Department of Toxic Substances Control (DTSC)

The Department of Toxic Substances Control (DTSC) will hold a public webinar from 10:00AM to 1:00PM (PDT) on December 17, 2020, to present information on the recently approved regulation to manage waste photovoltaic modules (PV modules) as universal waste under California's Universal Waste Program.

This webinar is intended to familiarize people with the requirements of the new regulation for managing PV modules as universal waste under California's Universal Waste Program. The public notice for the webinar is available in [English](#) and [Spanish](#).

The meeting agenda, recorded webinar, and final regulatory text will be available on the [PV Module Universal Waste webpage](#).

[Click here](#) to register for this webinar.

For any additional questions, please email PVmodules@dtsc.ca.gov.

This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle.
