

Local Education Agency Waiver Application

CalRecycle is providing this form as a convenience to assist local education agencies in applying for a waiver under 14 CCR 18986.3. Use of this form is optional and not a regulatory requirement. The local education agency may use this resource tool along with the submission of documentation demonstrating and supporting the waiver request as specified in 14 CCR 18986.3.

A local education agency may apply to CalRecycle for a waiver from some or all of the organic waste collection services requirements in Article 5. A local education agency may apply for a waiver based on inadequate space, total amount of organic waste generated, or in the event that the local education agency is located within a jurisdiction or census tract that has been granted a waiver by CalRecycle as specified in 14 CCR 18984.12.

CalRecycle-approved waivers are valid for a period of up to five years.

Nothing in 14 CCR 18986.2 prohibits a non-local entity from preventing waste generation, managing organic waste on site, or using a community-composting site.

Please clearly print or type your responses. Attach additional pages as necessary.

This waiver request meets the following standards (check all that apply):

- | | |
|--------------------------|---|
| <input type="checkbox"/> | Organics generation of less than 20 gallons per week. The total solid waste collection service subscribed to is <u>two cubic yards or more</u> per week and organic waste subject to collection in a blue container or a green container as specified in 14 CCR 18984.1(a) comprises less than 20 gallons per week per applicable container of the local education agency's total waste. |
| <input type="checkbox"/> | Organics generation of less than 10-gallons. The total solid waste collection service subscribed to is <u>less than two cubic yards</u> per week and organic waste subject to collection in a blue container or a green container as specified in 14 CCR 18984.1(a) comprises less than 10 gallons per week per applicable container of the non-local entity's total waste. |
| <input type="checkbox"/> | Determination that there is not adequate space for separate organic containers. A hauler, licensed architect, or licensed engineer has determined that there is not adequate space for separate organic waste containers. |
| <input type="checkbox"/> | The Local Education Agency is located within a jurisdiction or census tract that CalRecycle has granted a waiver pursuant to 14 CCR 18984.12. |
