Subject: 2020 Plastic Beverage Container Virgin and Postconsumer Resin Report

Beverage manufacturers regulated by the California Beverage Container Recycling and Litter Reduction Act are required to report the amount in pounds and by resin type of virgin plastic and postconsumer recycled plastic annually sold in California (see Public Resources Code (PRC) §14549.3). This report is due to the Department on or before March 1 of each year.

CalRecycle applied consistent formatting to responses in this report, including:

- "Distributor only" to indicate a beverage manufacturer that is only a distributor
- "No data reported" to indicate a blank response
- Converting all reported weights to pounds

CalRecycle staff followed up with beverage manufacturers if they reported using another metric such as percentage or if they used a previous version of the form.

Attached is a summary of the information received from beverage manufacturers who submitted a Plastic Beverage Container Virgin and Postconsumer Resin Report for Calendar Year 2020.

If you have any questions about this report, please contact Hieu Le, at (916) 323-1493.

Ken DaRosa Chief Deputy Director
