

Jurisdiction Procurement Targets Based on January 1, 2021 Population Estimates

The list below indicates the annual recovered organic waste product procurement targets for each jurisdiction (city, county, or city and county) in California. Note: Each jurisdiction's timeline is noted in the list below. Jurisdictions have varying time frames due to new legislation enacted January 1, 2025. This data is organized alphabetically by county and includes all cities within the county and the unincorporated county.

Rural Exemption

Rural jurisdictions are included in the list below; however, please note that pursuant to [Public Resources Code \(PRC\) Section 42652.5\(a\)\(9\)](#), a jurisdiction in possession of a rural exemption (14 CCR Section 18984.12(c)), as it read on of January 1, 2024, shall remain exempt from complying with the organic waste collection services requirements specified in [14 CCR Section 18984 et seq.](#), and the procurement requirements specified in [14 CCR Section 18993.1 et seq.](#) until January 1, 2037.

At a future time CalRecycle will establish through regulations a process to renew the exemptions after January 1, 2037, for periods of up to five years.

Low population/elevation waivers

A jurisdiction in possession of a low population waiver or elevation waiver pursuant to [14 CCR Sections 18984.12\(a\)](#) and [18984.12\(d\)](#) will have a reduced recovered organic waste procurement target ([PRC Section 42652.5\(a\)\(8\)](#)) that will be in effect for the next five years.

CalRecycle revised the target by removing the population that was waived per the low population and/or elevation waiver. See Appendix A for waived population data.

The language in [PRC Section 42652.5\(a\)\(7\)](#) refers to determining the recovered organic waste product procurement target in 14 CCR Section 18993.1, and in this section of the regulations the department is required to recalculate the annual recovered organic waste procurement target every five years. This revised target based upon [PRC Section 42652.5\(a\)\(7\)](#) will be in effect for the next five years. At that time CalRecycle will recalculate the target based upon a jurisdiction's low population and elevation waiver status (elevation waivers never change).

Jurisdictions that have changes in population may or may not still be eligible for the low population waivers and thus they may not still be eligible for a reduced recovered organic waste product procurement target.

Waste Characterization Studies

One or more local jurisdictions within the same county may determine a local per capita procurement target using information from a local disposal facility-based waste characterization study for a period not to exceed five years after the completion of the study ([PRC, Section 42652.5 \(m\)\(1\)\(2\)](#)). A disposal facility-based

waste characterization study shall be performed by the local jurisdiction or jurisdictions, which shall apply the results of a study to the total amount of landfill disposal attributed to the local jurisdiction or jurisdictions by CalRecycle's Recycling and Disposal Reporting System. See [AB 2902 and AB 2346 Guidance](#) for more information. See Appendix B for details.

For more information, please contact CalRecycle at SLCP.Organics@CalRecycle.ca.gov.
