Introduction

The Mattress Recycling Council California, LLC (MRC), a limited liability company owned by Mattress Recycling Council Inc. (MRC Inc.), a non-profit corporation, is pleased to submit Amendment #1 to the California Mattress Recycling Plan (the Plan) to the California Department of Resources Recycling and Recovery (CalRecycle) pursuant to the Used Mattress Recovery and Recycling Act (the Act), codified beginning at Section 42985 of the California Public Resources Code, and the Used Mattress Recovery and Recycling Program Regulations (the Regulations), 14 CCR § 18959-18971.

Pursuant to Sections 18962(a)(3) and 18961(a)(1) of the Regulations, the Plan is submitted by:

Catherine Lyons
Manager

Used Mattress Recovery and Recycling Act

In September 2013, California enacted the Used Mattress Recovery and Recycling Act, which requires mattress producers to create a statewide recycling program (the Program) to collect and recycle mattresses and foundations discarded in the state. To implement the Act, CalRecycle issued the Regulations. The Program is funded by a visible recycling charge collected from consumers and other purchasers on the sale of each mattress and foundation for use in the state.

Mattress Recycling Council

In late 2013, the mattress industry, through its trade association, the International Sleep Products Association (ISPA), formed the Mattress Recycling Council Inc. (MRC Inc.) for the sole purpose of designing, implementing, and administering recycling programs in states with mattress recycling laws. MRC Inc. is a tax-exempt non-profit corporation incorporated in the state of Delaware under Section 501(c)(3) of the Internal Revenue Code. Pursuant to Section 42986 of the Act, CalRecycle certified MRC Inc. as a mattress recycling organization. In 2017, MRC Inc. established separate limited liability companies to operate each of the state-specific mattress recycling programs that it administers. MRC was the entity that MRC Inc. established to operate the Program.

MRC oversees all aspects of the Program, including the collection, transportation and recycling of discarded mattresses. MRC's activities are funded by a visible charge collected from purchasers of mattresses for use in California.

Definitions

In this document, MRC describes the Plan, as required by Section 42987.1 of the Act. The following terms defined in Section 42986 of the Act are relevant to the Plan:

42986(c):

"Foundation" means a ticking-covered structure used to support a mattress or sleep surface. The structure may include constructed frames, foam, box springs, or other materials, used alone or in combination.

42986(g):

"Mattress" means a resilient material or combination of materials that is enclosed by a ticking, is used alone or in combination with other products, and is intended for or promoted for sleeping upon.

(2) "Mattress" includes a foundation, a renovated mattress or renovated foundation, and a futon mattress.

(3) "Mattress" does not include the following:

(A) An unattached mattress pad or unattached mattress topper, including items with resilient filling, with or without ticking, intended to be used with or on top of a mattress.

(B) A sleeping bag or pillow.

(C) A car bed, crib, or bassinet mattress.

(D) Juvenile products, including a carriage, basket, dressing table, stroller, playpen, infant carrier, lounge pad, or crib bumper, and the pads for those juvenile products.

(E) A product containing liquid- and gaseous-filled ticking, including a waterbed and air mattress that does not contain upholstery material between the ticking and the mattress core.

(F) Upholstered furniture that does not otherwise contain a detachable mattress or that is a fold out sofa bed, sleeper sofa, or folding cot

42986(l):

"**Recycle**" or "**recycling**" means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

"Recycling" does not include incineration, pyrolysis, distillation, or biological conversion other than composting.

42986(m):

"**Recycler**" means a person that engages in the manual or mechanical separation of mattresses to substantially recover components and commodities contained in mattresses for the purpose of reuse or recycling.

42986(o):

(1) "**Renovate**" or "**renovation**" means altering a used mattress for the purpose of resale and includes one or more of the following:

(A) Replacing the mattress, ticking, or filling.

(B) Adding additional filling.

(C) Rebuilding a used mattress.

(D) Replacing components with new or postconsumer materials unless the material is a clean recycled material, consists of used electronic parts or controls, or is a used mattress base that is not covered by ticking.

(2) "Renovate" or "renovation" does not include any of the following:

(A) Stripping a mattress of its ticking or filling without adding new material.

(B) Sterilizing or sanitizing a mattress without otherwise altering the mattress.

(C) Altering a mattress by a renovator when a person retains the altered mattress for lease, rental, or personal use.

(D) Refurbishing that disqualifies a mattress for a yellow wholesale renovator tag to be affixed to the mattress, in accordance with the regulations adopted by the Department of Consumer Affairs.

42986(p):

"**Renovator**" means a person who renovates used mattresses for the purpose of sale, or offering for sale, in this state.

42986(q):

"**Retailer**" means a person who sells mattresses in the state or offers to a consumer a mattress in the state through any means, including, but not limited to, by remote offering, including sales outlets or catalogs, electronically through the Internet, by telephone, or through the mail.

In addition to the above statutory definitions, MRC for ease of reference has defined the term "Unit" or "Units" as used in this Plan to be synonymous with the terms "Mattress" or "Mattresses," respectively.

Plan Outline

The regulations provide that the Plan contain the following:

Section 18962(a)(1). Proof of Certification

See Appendix A for CalRecycle's letter confirming MRC Inc. certification.

Section 18962(a)(2). Program Goals, Methods and Activities

Section 42987.1 of the Act requires that the Plan contain the information enclosed in blue boxes (additional information requested by Sections 18961-18962 of the Regulations is also noted in the text, where relevant).

CalRecycle established, in consultation with MRC, the state mattress recycling baseline amount and state mattress recycling goals. On or before July 1, 2020, and every four years thereafter, statute requires the department to review and update as necessary, the state mattress baseline and goals to confirm that the Program advances these goals. MRC's annual report details the following collection and convenience goals and reports on MRC's progress in meeting these objectives.

1. Units collected
2. Units diverted from California landfills (Recycling Rate)
3. Materials extracted and reclaimed from discarded mattresses (Yield)
4. Statewide units renovated
5. Statewide consumer access to the Program
6. Rural retailer access to the Program
7. Urban retailer access to the Program

To meet these goals, MRC created the Program using the following tactics:

1. **Mattress Collection:** MRC collects used mattresses through multiple channels to divert units from landfills. The diverse collection network also provides important consumer and retailer access points to meet those goals. These channels include:

- *Retailer take back* - A retailer that delivers a new mattress to a California consumer must offer to take back a mattress that the consumer has discarded upon request at no cost to the consumer. Retailers then may provide the used mattresses to the Program for recycling.
- *Permanent collection sites* - MRC maintains a robust, no-cost collection network with locations throughout California where residents can discard used mattresses for recycling. Existing solid waste facilities comprise the majority of this collection network because many residents already take their discarded units to those facilities and they are equipped to accept these products.
- *Curbside bulky item collection programs* - Some franchise haulers and municipalities that provide curbside bulky item collection pick up mattresses at no additional charge to residents. Residents schedule a pickup for their discarded mattress. Participating haulers and municipalities collect the mattress and load it into an MRC-provided trailer positioned at their yard or solid waste facility. Finally, MRC transports full trailers to recyclers for dismantling.
- *Mattress collection events* - To supplement the permanent collection network, MRC hosts mattress collection events where California residents may drop off mattresses at no cost. MRC partners with municipalities, waste services providers, local California Conservation Corps, Native Nations, retailers and other interested parties to hold collection events. When hosting events, MRC provides labor, transportation, recycling and publicity. MRC often combines mattress collection events with events accepting other products to increase convenience for residents, target underserved areas or mitigate illegal dumping.
- *Commercial Volume Program (CVP)* - MRC provides no-cost transportation and recycling of discarded mattresses collected from retailers, lodging establishments, educational institutions, healthcare facilities and military institutions with at least 100 discarded units to be picked up from a single site.

2. **Mattress Transportation:** For each MRC collection site in California, MRC provides storage containers that are appropriate for the size and location of each facility. MRC uses 53-, 48- and 28-foot trailers, as well as sea containers and roll-off bins. The 53-foot trailer is preferred because it can hold the most mattress units, resulting in a lower per unit transport cost. Roll-off containers, which are

the smallest storage option, are the least efficient alternative, but may be the only option for collection sites with small or restricted loading areas. Containers that MRC provides are covered to reduce contamination of mattresses and eliminate damage from weather.

To provide mattress transportation in both urban and rural areas of the state, MRC contracts with commercial transporters, mattress recyclers, and solid waste facilities to pick-up and transport mattresses from specific facilities.

3. **Mattress Recycling:** MRC contracts with a variety of third-party recyclers located throughout the state to deconstruct mattresses and recycle the mattress components. In selecting a recycling site, MRC seeks to create service redundancy in the event that other recyclers experience service failures. Sites are also spatially separated to reduce Program transportation costs. The contracts with these recyclers contain performance metrics that help MRC achieve our recycling and reclamation goals.

Program Objectives:

- a. Program objectives consistent with the state's solid waste management hierarchy.

Section 18962(a)(2) of the Regulations provides that the Plan respond to Section 42987.1(a) of the Act, which requires that MRC set "Program objectives consistent with the state's solid waste management hierarchy."

The California solid waste management hierarchy is defined by the following provisions of the California Integrated Waste Management Act of 1989, codified at Sections 40051, 40052 and 40196 of the California Public Resources Code. Those specific provisions read as follows:

Section 40051.

In implementing this division, the board and local agencies shall do both of the following:

- (a) Promote the following waste management practices in order of priority:

- (1) Source reduction.
- (2) Recycling and composting.
- (3) Environmentally safe transformation and environmentally safe land disposal, at the discretion of the city or county.

- (b) Maximize the use of all feasible source reduction, recycling, and composting options in order to reduce the amount of solid waste that must be disposed of by transformation and land disposal. For wastes that cannot feasibly be reduced at their source, recycled, or composted, the local agency may use environmentally safe transformation or environmentally safe land disposal, or both of those practices.

Section 40052.

The purpose of this division is to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient and cost-effective manner to conserve water, energy and other natural resources, to protect the environment, to improve regulation of existing solid waste landfills, to ensure that new solid waste landfills are environmentally sound, to improve permitting procedures for solid waste management facilities, and to specify the responsibilities of local governments to develop and implement integrated waste management programs.

Section 40196.

“Source reduction” means any action which causes a net reduction in the generation of solid waste. “Source reduction” includes, but is not limited to, reducing the use of non-recyclable materials, replacing disposable materials and products with reusable materials and products, reducing packaging, reducing the amount of yard wastes generated, establishing garbage rate structures with incentives to reduce the amount of wastes that generators produce, and increasing the efficiency of the use of paper, cardboard, glass, metal, plastic, and other materials. “Source reduction” does not include steps taken after the material becomes solid waste or actions which would impact air or water resources in lieu of land, including, but not limited to, transformation.

Related to the above provisions, the term “recycle” used in Sections 40050 and 40051 above is defined as follows:

Section 40180.

"Recycle" or "recycling" means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

"Recycling" does not include transformation, as defined in Section 40201 or EMSW conversion.

Likewise, the term “transformation” is defined as:

Section 40201.

"Transformation" means incineration, pyrolysis, distillation, or biological conversion other than composting. "Transformation" does not include composting, gasification, EMSW conversion, or biomass conversion.

The legislative findings expressed in Section 42985(a)(2) the Act state that MRC’s Plan shall “support of the statewide goal that at least 75 percent of all solid waste be recycled by January 1, 2020,” a goal defined in Section 41780.01(a) of the California Public Resources Code, which provides:

it is the policy goal of the state that not less than 75 percent of solid waste generated be source reduced, recycled, or composted by the year 2020, and annually thereafter.

MRC’s Plan objectives and implementation strategy focus on diverting discarded mattresses from landfill disposal, and instead delivering them to recyclers that dismantle them so that the steel, foam, fiber and fabric, wood and other materials recovered from that process can be used to manufacture new products. Consistent with the above requirements, MRC undertakes such work in an efficient and cost-effective manner that conserves natural resources and protects the environment.

MRC’s Plan advances California’s hierarchy as follows:

1. **Source Reduction:** To encourage mattress manufacturers to reduce the environmental impact of their mattress assembly operations (and thereby support California’s source reduction goals), MRC’s Sleep Products Sustainability Program (SP2) works with manufacturers that sell mattresses to California residents to develop internal practices focused on reducing waste, increasing operational efficiencies and reducing energy inputs. SP2 helps companies establish a management system that identifies steps for reducing environmental impacts, developing best practices and defining metrics to track progress. SP2 can also serve as a foundation for pursuing an ISO 14001 certification, the international standard for effective environmental management systems. MRC offers the training, program resources and certification at no-cost to eligible manufacturers.

Additionally, MRC is undertaking a Life Cycle Analysis (LCA) to understand the environmental impacts of our California program from point of collection to recycling end markets or landfill. Environmental impacts are typically measured in terms of

environmental indicators such as carbon dioxide emissions, energy use and landfill avoidance. MRC's objective is to evaluate the baseline performance of current recycling operations using these and other environmental performance metrics. We hope the LCA will inform policy development, guide future decisions and provide tools that can be used to evaluate and potentially decrease the impacts of the Program.

MRC's research program also supports California's solid waste hierarchy by (1) reducing waste through more efficient mattress collection, transportation, deconstruction and recycling systems, and (2) identifying new and better uses for recycled mattress materials. For example, MRC funds projects that:

- Improve mattress collection facility infrastructure to increase landfill diversion and recyclability of discarded units. Examples include covers to protect discarded units from rain, equipment to improve worker safety and paving collection areas to improve feedstock quality.
- Improve transportation efficiencies by increasing the number of units loaded per container and evaluating transportation lanes to decrease program drive miles and carbon emissions.
- Offer lean manufacturing assessments to mattress dismantling and recycling operators to improve their throughput and profitability.
- Explore new uses for mattress components including foam, wood, cotton, shoddy pad, mixed textiles and pocketed coils.
- Characterize the material composition of MRC recyclers' waste to better understand the mixture of material entering recycling facilities and the fraction of material that is thrown away.
- Foster innovation, cooperation and communication between suppliers, manufacturers, dismantlers and end-market commodity buyers around the world by working with other experts in the field and sharing information on efforts to develop technology that will make possible a circular economy for polyurethane foam.

MRC's marketing team also provides educational materials encouraging consumers to maintain their mattresses to increase their useful life and therefore, reduce the frequency and number of units being discarded. Similar source reduction messaging will continue to be included as part of the Program's marketing strategy.

2. **Reuse:** A primary goal of the Program is to divert discarded mattresses that would otherwise be disposed of as solid waste. The Plan does not interfere with reuse or renovation activity that complies with state and federal law. Compliant renovators are included in MRC's collection network and commonly purchase discarded units and component parts from recyclers. Details about the number of units and pounds of component material sold to renovators is provided in our annual reports.
3. **Recycle:** Discarded mattresses and foundations contain a variety of commodities that can be reclaimed and sold into secondary markets for use in manufacturing new products. MRC supports the efforts of our contracted recyclers by awarding research contracts to explore new uses for mattress components including foam, wood, cotton, shoddy pad, mixed textiles and pocketed coils. Details about MRC's work to support recycling is provided in annual reports.
4. **Composting:** If alternative end uses are not available, wood and other materials removed from mattresses and foundations may be composted, but this does not happen often due to the composition of most mattress components. For example, foundation wood has been kiln-dried and does not quickly degrade in commercial compost facilities. As a result, it is not an ideal feedstock.
5. **Bio-mass Conversion:** Foundation wood may be used for bio-mass conversion at the discretion of each contracted recycler. MRC considers this beneficial use as recycling for the purposes of this Program and Section 40201 of the California Public Resources Code, quoted above.
6. **Transformation:** If economically viable end markets do not exist for certain mattress components, MRC may consult with CalRecycle regarding the Transformation of certain mattress materials to produce chemicals, heat or electricity consistent with Section 40201 of the California Public Resources Code.
7. **Landfill:** MRC's contracts require our recyclers to recycle as much of each mattress and foundation as is reasonable and financially practical. Materials that may be sent to landfill because they cannot be recycled may include:

Mattresses or foundations that:

- Are severely damaged or twisted.
- Are wet, frozen, or heavily soiled.

- Are infested with bed bugs or other biological contaminants that make them either unsafe to process or their constituent materials unmarketable.
- Have no financially viable or available end market.

Manufacturers, Renovators, Brands, and Retailers:

- b. The names of manufacturers, renovators, and brands covered under the plan.

Section 18962(a)(3) of the Regulations provides that the Plan respond to Section 42987.1(b).

MRC regularly provides CalRecycle updated lists of (i) manufacturers and renovators (including their mailing addresses), and (ii) brands that have registered with MRC and are therefore covered by the Plan. Likewise, MRC regularly provides CalRecycle updated list of retailers (including their mailing addresses) that have registered with MRC, and are therefore covered by the Plan, as requested by Sections 18961(a)(3) and 18962 of the Regulations. The most recent version of these lists that MRC has provided to CalRecycle are incorporated in this Plan by reference.

Consultation Process With Stakeholders:

- c. A consultation process with affected stakeholders, including, but not limited to, local government representatives, recyclers, and solid waste industry representatives.

Section 18962(a)(4) of the Regulations provides that the Plan respond to Section 42987.1(c).

MRC regularly meets with stakeholders throughout California to discuss the Plan's implementation and Program objectives. Participants in this process include municipal governments, municipal waste authorities, permitted solid waste facilities, environmental justice organizations, illegal dumping committees, the California mattress advisory committee, state officials, potential recyclers and transporters and others.

MRC conducts regular discussions with stakeholders, appears at solid waste and mattress industry events and communicates regularly with Program participants through our established Program marketing channels.

Maximizing Mattress Recycling:

- d. Methods to increase the number of used mattresses diverted from landfills, reduce the number of illegally dumped used mattresses, and increase the quantity of used materials recovered through this process and recycled for other uses.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(d), and Section 18962(a)(2)(D) of the Regulations provides that MRC describe its efforts to increase the quantity of materials recycled and develop markets for those materials (also required in Section 42987.1(d)). Section 18962(a)(2)(C) of the Regulations provides that MRC describe the proper end of life management of used mattresses and how the Program intends to prevent cross contamination by bed bugs.

The Program is designed to properly manage mattresses at the end of life, increase the recovery and recycling of mattress components and reduce the number of mattresses disposed of as solid waste in California by creating diversion alternatives for discarded mattresses generated by mattress retailers, consumers, and businesses throughout California, including:

1. **Solid waste facility compensation:** The Program compensates participating solid waste facilities at negotiated rates for handling mattresses that they accept free of charge from consumers and businesses. Additionally, MRC provides no-cost storage, transport and recycling of these units. This reduces the quantity of discarded mattresses that the facilities would otherwise landfill.
2. **No-cost retailer recycling:** The Program accepts for recycling discarded mattresses from any retailer providing these units to an MRC recycler. Retailers pay no fee for such recycling. Retailers generating more than 100 discarded units may request no-cost pick-up through MRC's Commercial Volume program. Additionally, many public collection locations in MRC's network also accept discarded units from retailers. Discarded mattresses that retailers provide for recycling reduce the quantity of discarded mattresses that they send to landfills.
3. **Mattress retailers:** The Act requires that mattress retailers shall offer a consumer the option to have a used mattress picked up for recovery at no cost when they deliver a new mattress. Since the Program encourages retailers to make the discarded mattresses they collect available for recycling through the Program free of charge, this provision diverts additional quantities of discarded mattresses that a consumer otherwise would dispose of through existing solid waste collection systems.

4. **No-cost business recycling:** Business or large-volume mattress consumers (such as hotels, dormitories, nursing homes, etc.) generating discarded mattresses may provide these units to an MRC-contracted recycling facility at no-cost. Businesses generating more than 100 discarded units may request no-cost pick-up through MRC's Commercial Volume program. Additionally, many public collection locations in MRC's network also accept discarded units from businesses. This combination of services reduces the quantity of discarded mattresses that such entities dispose of through solid waste facilities.
5. **No-cost consumer drop offs:** The Act provides that consumers may drop off mattresses at participating solid waste facilities and other public drop-off sites throughout California at no-cost. This reduces the quantity of mattresses that consumers might illegally dump rather than pay for curbside collection or disposal.
6. **Consumer incentive:** MRC offers California residents that deliver discarded mattresses directly to select MRC-contracted drop-off locations a payment. This reduces the quantity of mattresses that consumers would otherwise have disposed of through existing solid waste collection options and sent to landfills. This provision also reduces the quantity of mattresses that consumers otherwise might illegally dump rather than pay for curbside collection.
7. **Recyclers' target:** MRC requires its contracted recyclers to maximize the recovery of mattress components, including metal, foam, fabric, and wood through the dismantling and recycling process. MRC has established a 75% by weight recycling target for our recyclers. Only non-recyclable scrap is disposed of through the solid waste system using appropriate means. MRC may re-evaluate these targets and adjust them as necessary.
8. **Mitigating illegal dumping:** As discussed in Section "I," the Program compensates participating local governments, solid waste facilities, solid waste operations and other entities to manage illegally dumped mattresses and provide statistical information to MRC. MRC may re-evaluate this strategy and report additional strategies and projects in its Annual Report.
9. **Preventing bed bug contamination:** Mattress recyclers receive very few mattresses that are infested with bed bugs. If a contaminated unit arrives at an MRC-contracted recycling facility, the recycler may dispose of the unit or isolate and treat the unit before recycling. MRC proactively addresses bed bug contamination by providing participating solid waste facilities with collection guidelines as well as bed bug specific educational materials to prevent

contaminated units from entering the Program. Secondly, MRC requires its recyclers to have a bed bug management plan.

10. **Mattress Collection Facility Improvement Funding:** To increase the number of mattresses diverted from the waste stream, improve the recyclability of discarded units, improve worker safety and decrease transportation costs by increasing the number of units shipped per container, MRC funds improvements to mattress collection sites. Beginning in 2018, public collection sites in California have been eligible for up to \$10,000 per site per funding cycle. Award recipients must agree to serve as MRC-contracted public drop-off sites for at least one year following completion of the project.

Program Funding:

- e. (1) The establishment and administration of a means for funding the plan in a manner that distributes the mattress recycling organization's costs uniformly over all mattresses sold in the state.
- (2) The funding mechanism shall provide sufficient funding for the mattress recycling organization to carry out the plan, including the administrative, operational, and capital costs of the plan.

Section 18962(a)(6) of the Regulations provides that the Plan respond to Section 42987.1(e).

The Program is funded by a visible recycling charge collected on all mattresses sold for use in California. More specifically, Section 42988(b) requires that the charge fund Program operations over a multi-year period in a fiscally "prudent and responsible" manner. MRC sets the charge, based on its anticipated administrative, operational, and capital costs, subject to external audit and CalRecycle's approval. Retailers and other parties selling mattresses collect the charge and remit it directly to MRC as required by the Act.

As required by Section 42989.1 of the Act, the recycling charge must be stated separately on the "invoice, receipt, or functionally equivalent billing document provided by the seller to the consumer" for all units sold in California. The charge description on the sales receipt, invoice or billing document shall read "Recycle Fee \$(insert charge amount)." The description may be displayed in upper- or lower-case letters and is not required to be displayed in a specific font, provided the description is prominently displayed in English and is readable.

In accordance with the Act, the Plan describes the “mattress recycling charge.” For purposes of the Program, MRC refers to the charge as a “Recycle Fee” in consumer education and outreach materials for the following reasons:

- “Recycle Fee” is currently used in MRC’s Connecticut and Rhode Island Programs. Having consistent text is beneficial for consumers, as well as national and online mattress retailers selling products in each state.
- The charge must be shown on the receipt or other sales documentation provided to customers at the time of sale. Some mattress retailers have a limited number of characters that they can use on their sales receipt. “Recycle Fee” clearly describes the additional cost and is within the allocated number of characters.
- The term “Recycle Fee” best communicates to consumers the intent of the additional receipt line item.

The charge is collected on the following types of sales:

- Retailers must collect the charge on all sales of mattresses and foundations that take place in California.
- On-line retailers must collect the charge on all mattresses and foundations sold for delivery in California, regardless of where the online retailer is located.
- Manufacturers of mattresses and foundations sold to California businesses including the hospitality industry, dormitories, hospitals, and prisons (also known as “contract” or “institutional” customers), must collect the charge on such sales and remit it to MRC.

As required by Section 42988 of the Act, MRC submits an annual budget on July 1st of the year preceding the budget year. Please refer to that document for the most current financial information related to the Program and the proposed recycling charge that it considers necessary to fund Program operations over a multi-year period in a fiscally “prudent and responsible” manner. For purposes of the Plan, we will refer to that separate document as the MRC Budget.

The charge must be collected on each mattress and foundation sold. Each mattress and foundation is counted as an individual unit and the charge must be applied separately to each. The charge is a single, flat rate regardless of the size, type, construction, or brand of mattress or foundation purchased. For example, if a consumer buys a mattress set that

consists of one mattress and one foundation, the retailer would assess the charge for the mattress and for the foundation.

Section 42989(b)(2) of the Act provides MRC discretion to set “two different charges to accommodate mattress size differentials.” MRC has decided to set one flat rate charge for all mattress and foundations sizes and types. MRC reviews the impact of this decision annually. MRC notes that the International Sleep Products Association (ISPA) annually collects and publishes national mattress size sales data in its *Report of Sales and Trends*. MRC reviews the ISPA annual data on sales of mattresses by size in assessing whether to set two different charges based on size. The MRC Budget provides a detailed explanation of MRC’s proposed budget and the basis for calculating the per unit charge.

MRC may propose to revise the charge at most once each year, provided it gives the public not less than 180 days’ notice prior to its implementation. If MRC provides notice that it intends to reduce the charge, the organization shall provide the department with information about how it will effectively implement the Program at the reduced charge.

MRC contracts with third parties that provide all necessary handling, storage, transportation and recycling services. Because these services occur in California, the Program is compliant with Section 42989(e) of the Act prioritizing the use of in-state processing while spending the majority of collected charge fees in the state of California. At this point, MRC’s capital costs are limited to computers and related office equipment for MRC staff.

In preparing its budget, MRC has allocated revenues and expenses in accordance with Generally Accepted Accounting Principles, as requested by Section 18962(a)(6) of the Regulations.

The budget on which the charge is calculated includes the cost of an annual audit to be conducted by an independent certified public accountant as required by the Act. A detailed analysis of expenses by cost category is provided in MRC’s California Used Mattress Recovery and Recycling Plan Budget, submitted to CalRecycle on July 1 of each year.

Annual Report:

- f. The publishing of an annual report for each calendar year of operation.

Section 18962(a)(5) of the Regulations requires that the Plan respond to Section 42987.1(f), which requires MRC to publish an annual report. MRC submits its annual report by July 1st of each year, as required by Section 42990.1.

Research:

- g. Conducting research, as needed, related to improving used mattress collection, dismantling, and recycling operations, including pilot programs to test new processes, methods, or equipment on a local, regional, or otherwise limited basis.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(g) to conduct research to improve mattress recycling. In addition, Section 18962(a)(2)(D) of the Regulations requires that the Plan include information on market development research.

MRC conducts research on how to improve the efficiency of mattress collection, transportation and recycling processes, as well as identify and develop new and better uses and end markets for recycled mattress components. MRC seeks to improve the sustainability of mattress recycling by:

- Improving the quality and quantity of units obtained from landfills and transfer stations;
- Making mattress transport more efficient;
- Identifying and promoting best practices for mattress dismantling and recycling;
- Researching whether recycled mattress components can be used in new and innovative ways; and
- Fostering innovation, cooperation and communication between suppliers, manufacturers, collectors, dismantlers and recycled material buyers to increase mattress recycling rates.

Identifying new and better end-use markets will increase a recycler's revenues and improve the Program's recycling rate. By partnering with universities, government agencies, industry groups and individual companies, MRC supports research efforts targeted at identifying new end-use markets for mattress materials. MRC emphasizes research into new uses and markets for mattress components that have limited or no

viable end markets. Additionally, the research identifies more efficient means for preparing discarded mattress materials for transport to end-use markets.

Research topics that MRC pursues includes:

1. **More efficient collection containers:** Mattresses are bulky and lightweight. To improve collection and transportation efficiency, it is important to maximize the quantity of units transported in each storage container. MRC is researching processes, equipment and technological alternatives that can help transport units more efficiently, and thereby reduce Program costs.
2. **Foam:** Post-consumer mattress foam has limited end markets, with the vast majority currently used to manufacture carpet padding. Carpet pad manufacturers use both post-consumer and post-industrial foam scrap as their primary feedstocks. MRC is exploring alternative uses of post-consumer foam to increase the value of this material when sold into scrap markets, and thereby increase recyclers' revenue and offset the cost of the recycling process.
3. **Wood:** Most mattress foundations contain a wooden internal frame. MRC has conducted, and will continue to research additional end uses for this material.
4. **Fabric and Fiber:** Many mattresses contain fiber batting, and all mattresses and foundations have an outer fabric cover, called the "ticking." The ticking can be composed of many different kinds of fibers, including cotton, rayon, polyester, and is often quilted or otherwise attached to layers of other materials, including foam, fiber and other fabrics. The composite of the different materials quilted or attached to the ticking is referred to as the "quilt panel." These materials can be difficult to sell, because purchasers of post-consumer fiber and fabric often require that the materials they buy be of a single fiber type. MRC is researching additional end uses for post-consumer fiber, fabric and quilt panels and processes for separating the different fiber types.
5. **Pocketed Coil Innersprings:** An increasing percentage of discarded mattresses contain innersprings comprised of steel springs individually wrapped in a fabric pocket created by sewing, gluing or other means. Removing the steel from these pockets can be difficult. MRC has funded a prototype to effectively separate the steel and fabric pocket and will continue to research alternative solutions for pocketed coil recycling and thereby improve a recycler's scrap revenue, make the recycling process more efficient and reduce recycling costs.

Methodology For Estimating Mattress Sales, Discards, Collections and Dispositions:

- h. A program performance measurement that shall collect program data for the purpose of the annual report. The information shall include:
 - (1) A methodology for estimating the amount of mattresses sold in the state, used mattresses available for collection in the state, and for quantifying the number of used mattresses collected and recycled in the state.
 - (2) A methodology for determining mattresses sold in the state by the manufacturers and renovators of the mattress recycling organization.

Section 18962(a)(5) of the Regulations requires that the Plan respond to Section 42987.1(h), which requires that MRC estimate California mattresses sold, discarded, collected and recycled.

1. Methodology for 42987.1(h)(1)

- *Estimating mattresses sold in California* - All retailers and other sellers of mattresses to California consumers must assess and collect the recycling charge required by the Act and remit that money monthly to MRC. MRC requires each retailer or seller to report to MRC both the actual number of mattresses it sold in California each month and the amount of the charge collected with regard to those mattresses. MRC uses this data, national mattress market forecasts prepared by the International Sleep Products Association and other relevant economic and market data to estimate future California sales of new, used and renovated mattresses and foundations. Additional details are found in MRC's annual budget submission to CalRecycle.
- *Used mattresses available for collection* - MRC estimates the number of discarded units available for collection based in part on annual statistics reported to CalRecycle on the actual number of units landfilled, units renovated and recycled in the state, as well as additional factors. We also know that a new mattress sale often triggers a used mattress discard. Since a strong correlation exists between new units sold and discarded units, MRC also considers general economic trends that influence mattress sales (such as, unemployment rates, disposable income, housing market conditions, inflation, etc.), state population trends and consumer sentiment.

Over the long term, MRC anticipates that the quantity of mattresses discarded

annually in the state will likely increase gradually, unless the state's population declines over an extended period.

- *Used mattresses collected and recycled in the state* - MRC reports the number of used mattresses collected and recycled in the state based on actual recycling data reported annually to MRC (by its recyclers) and CalRecycle (by other recyclers). MRC publishes this information in its annual report.

2. **A methodology for determining mattresses sold in the state by the manufacturers and renovators of the mattress recycling organization**

MRC uses actual sales data that retailers and other sellers must report monthly to MRC to determine the number of new, used and renovated mattresses and foundations sold in the state.

Coordination With Existing Mattress Collectors and Recyclers:

- i. A description of methods used to coordinate activities with existing used mattress collecting and recycling programs, including existing nonprofit mattress recyclers, and with other relevant parties as appropriate, with regard to the proper management or recycling of discarded or abandoned mattresses, for purposes of providing the efficient delivery of services and avoiding unnecessary duplication of effort and expense.

Section 18962(a)(2)(B) of the Regulations requires that the Plan respond to Section 42987.1(i) concerning existing mattress collectors and recyclers. Section 18962(a)(2)(E) of the Regulations also provides that MRC describe how the Program will provide convenient mattress collection and drop-off.

1. **Existing used mattress collection programs:** MRC has created a statewide collection network by collaborating with existing used mattress collectors, including solid waste facilities, mattress retailers, mattress distributors, mattress renovators, non-profit organizations, collectors of illegally dumped mattresses and large volume generators of discarded mattresses, including hotels and universities. MRC's annual report provides details on the number, location and access that consumers have to solid waste facilities and other opportunities to recycle discarded units.
2. **Existing recycling programs, including non-profit mattress recyclers:** From time to time, MRC solicits proposals from existing mattress recyclers (including non-profit mattress recyclers) that may be interested in providing recycling services to MRC through public requests for proposal (RFPs). These RFPs are posted on

MRC's website and are distributed through CalRecycle's mattress listserv. A current list of our contracted recyclers is listed in MRC's annual report.

Contracted Recyclers:

- j. Entering into contracts or agreements, which may include contracts and agreements with existing nonprofit or for-profit recyclers, that are necessary and proper for the mattress recycling organization to carry out these duties consistent with the terms of this chapter.

Section 18962(a)(2)(B) of the Regulations requires that the Plan describe how MRC will contract with recyclers, as required by Section 42987.1(j). MRC contracts with mattress recyclers that advance the performance metrics that CalRecycle has set for the Program.

MRC issues public RFPs to recyclers interested in processing discarded mattress units under the Program. Recyclers' RFP responses provide a starting point for negotiation between MRC and the respondents regarding the processing fee MRC will pay and other important aspects of the recycling contract.

RFPs also require that each respondent list all downstream purchasers to which the respondent intends to sell used mattress materials obtained from the recycling process. Recyclers may submit bids that include the sale of materials to renovators that meet applicable state and federal laws. MRC evaluates all proposals based on a combination of factors, including price, experience, recycling technology, capacity, geographic location and completeness of the RFP response.

Mattress Collector Incentive:

- k. Establishment of a financial incentive to encourage parties to collect for recycling used mattresses discarded or illegally dumped in the state.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(k).

The Program provides a monetary incentive for California residents delivering discarded mattresses directly to MRC-designated incentive locations. This incentive:

- Reduces the burden of managing discarded mattresses at solid waste facilities (see Section "l" below).

- Reduces the number of illegally dumped mattresses in California by creating a financial incentive to encourage residents to recycle, rather than dump discarded mattresses.

MRC incentive payment locations pay the incentive by cash, check or other approved means. MRC's current incentive is \$3 per unit, with a maximum of 5 units per vehicle per day. The incentive "will not undermine existing used mattress recycling, resale, refurbishing, and reuse operations that are in compliance with state and federal law" because it is less than the prices we are informed that renovators pay for used mattresses. MRC may change the terms of the incentive at any time depending on a variety of factors, including funds availability and the volume of discarded mattresses collected in this manner. In addition, MRC may, based on experience, decide to vary the incentive level by geographic area. The incentive program is promoted on MRC's website in conjunction with a list of authorized California drop-off locations.

Residents may qualify for this incentive by dropping off mattresses at one of the Program's contracted incentive locations. MRC regularly assesses resident participation in this program and considers whether and how to expand locations where the incentive is offered, including possible municipal or private waste sites. MRC notes, however, that most municipalities lack the ability or willingness to administer incentive pay-outs.

Illegally Dumped Mattresses:

- I. Ensuring, to the maximum extent possible, that urban and rural local governments and participating permitted solid waste facilities and authorized solid waste operations that accept mattresses are provided with a mechanism for the recovery of illegally disposed used mattresses that is funded at no additional cost to the local government, solid waste facility, or solid waste operation.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(l).

In consultation with the Advisory Committee, the CalRecycle Illegal Dumping Task Force and other stakeholders, MRC developed the following strategy to mitigate illegal mattress dumping:

1. Intercept discarded mattresses before they are illegally dumped by:
 - a. providing California residents with no cost retailer pick-up of discarded mattresses when the retailer delivers a new mattress to a consumer,

- b. encouraging no cost drop-off options for state residents at designated collection points throughout California, and
 - c. providing a financial incentive to encourage residents to deliver discarded units directly to recycling facilities.
2. Provide financial compensation to participating local governments, solid waste facilities or solid waste operations to help offset their cost of managing illegally dumped mattresses (see below).
3. Collect baseline data to measure the impact of these efforts on reducing the impact of illegal mattress dumping.
4. Work with technical experts to develop solutions and best practices to address illegal dumping, attended illegal dumping working groups and conferences, promote resources to consumers and collaborated on projects to expand education and outreach.
5. Provide compensation to fund pilot projects to mitigate illegal mattress dumping and communicate those findings to illegal dumping technical experts.

MRC has implemented these actions to proactively address the problem by encouraging the diversion of used mattresses to recyclers. However, MRC reassesses this strategy annually and considers if adjustments or additional activities are needed to further combat illegal dumping or respond to unanticipated increases in illegal dumping.

Illegally Dumped Mattress Collection Initiative:

Scope: MRC collects data to estimate the number and location of illegally dumped mattresses in California. MRC uses this data to evaluate the effectiveness of the above activities (including the amount and distribution of funding) annually.

Eligibility: Urban and rural local governments and participating permitted solid waste facilities and authorized entities that collect illegally dumped mattresses may apply in advance to participate in dumped mattress collection activities for which they are compensated by MRC. Mattresses collected through bulky item and curbside mattress pick-up services are not eligible for reimbursement because they are not illegally dumped.

Funding and Payment: Funding for this effort may vary annually and will be noted in MRC's annual report and budget. Payments are made directly to participating entities.

MRC reviews the effectiveness of this effort annually. Given the persistent nature of illegal dumping it may be necessary to experiment with several different alternatives before one or more satisfactory solutions are identified. For example, if the data MRC collects as a

result of this effort shows that the number of illegally dumped mattresses has not declined over time, MRC may solicit input from interested parties and others to identify why that has occurred and to develop other strategies for discouraging residents and others from illegally dumping used mattresses. Furthermore, MRC anticipates that the amount and distribution of funding in future years will be influenced by several factors, including the number of units recovered through this effort and the number of registered collectors requesting payment.

Compensation Application and Request Process: To receive compensation for collecting illegally dumped mattresses, eligible entities must:

1. Apply to participate in the dumped mattress collection effort.
2. Explain applicant's role as an urban or rural local government, participating permitted solid waste facility, other governmental entity or other participating authorized solid waste operation that is eligible for compensation.
3. Provide a collection log and other evidence requested by MRC documenting the quantity and zip code location of illegally dumped mattresses that applicant collected. Participants must submit information within 45 days after the end of each calendar month.
4. Provide a signed statement attesting that the quantity of collected mattresses reported were illegally dumped, and were not obtained through ordinary curbside or bulky item collection, from resident or other drop offs, or through other means.
5. MRC pays each collector within 90 days following the end of each calendar year.

All requests for compensation are subject to verification and must be submitted to MRC within the designated time period. MRC calculates the per unit compensation rate and disburses compensation following the receipt and verification of such requests. MRC continues to work with the Illegal Dumping Task Force to better understand the scope of the problem in California and how to prevent such conduct.

Service to Low-Income and Environmental Justice Communities:

- m. Developing strategies, in consultation with the California Environmental Protection Agency's Environmental Justice Task Force and other relevant parties, for collecting used mattresses for recycling in areas and communities that face unique challenges associated with proper waste management such as poverty, language barriers, and illegal mattress dumping.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(m).

MRC recycles discarded mattresses from communities throughout California without bias or discrimination based on physical location or community economic demographics.

Using Program convenience data, units reported through the Illegally Dumped Mattress Collection Initiative and CalRecycle's CalEnviroScreen 3.0, MRC has focused network expansion and outreach efforts in areas where mattress recycling is less accessible or that experience high per capita rates of illegal mattress dumping.

MRC works with CalEPA's Environmental Justice Task Force and other groups to provide targeted collection events and establish new permanent collection sites in areas and communities that face unique challenges associated with proper waste management such as poverty, language barriers, and illegal mattress dumping. California's Environmental Justice demographics are continually shifting. MRC's annual report provides narrative on activities and current convenience statistics for these communities.

Education and Outreach:

- n. Providing outreach efforts and education to consumers, manufacturers, and retailers, for the purpose of promoting the recycling of used mattresses and options available to consumers for the free dropoff of used mattresses.

Section 18962(a)(7) of the Regulations provides that the Plan respond to Section 42987.1(n).

MRC's education and outreach efforts are targeted to consumers, the mattress industry, state officials, local leaders and other stakeholders. To reach these audiences, MRC developed industry- and consumer-facing brands.

The primary brand, Mattress Recycling Council, is used to:

- Educate the mattress industry about the state laws, Program mechanics and the legal obligations the industry must fulfill.
- Inform regulators and other policymakers about the performance of state Programs.
- Promote how and why to work with MRC to divert mattresses from landfill or combat illegal mattress dumping.
- Educate the collection network and recyclers about MRC's expectations for proper screening, stacking, loading and management of mattresses.
- Share its expertise and publishes resources, research projects and outcomes.

The consumer-facing sub-brand, Bye Bye Mattress, is used to educate those looking to dispose of a mattress. Specifically:

- Residents learn about California's retailer take back obligation, their nearest drop-off location, as well as available bulky item curbside waste collectors that offer at least one free pickup each year.
- Businesses learn how to work with MRC to have their mattresses picked up and transported to a recycler or access available drop-off sites that will accept small and/or large loads.
- Both audiences learn about the mattress recycling charge and benefits of mattress recycling.

To build these brands, MRC uses a comprehensive mix of methods including, but not limited to advertising, public relations, social and digital media, direct marketing, and event sponsorships. MRC monitors the effectiveness of its outreach and adjusts elements of the communications plan as necessary. In its annual report to CalRecycle, MRC describes the outreach efforts used each calendar year.

No-Cost Drop Off and Compensation:

- o. A provision that allows an individual to drop off, at no charge, a mattress at a recycler, renovator, mattress recycling center, permitted solid waste facility, authorized solid waste operation, or other municipal facility that accepts mattresses consistent with state solid waste regulations, and that provides for the payment to a municipal or solid waste facility or operation that accepts mattresses an amount determined by the municipal or solid waste facility or operation and the mattress recycling organization to be reasonable for accepting, collecting, storing, transporting, and handling used mattresses.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(o).

In addition, Section 18962(a)(2)(F) of the Regulations provides that MRC describe how California consumers of mattresses will have convenient opportunities to recycle and properly manage their used mattresses, which is also covered here.

As required by the Act, California residents may drop off their discarded mattresses at no charge at a participating “recycler, renovator, mattress recycling center, permitted solid waste facility, authorized solid waste operation, or other municipal facility that accepts mattresses consistent with state solid waste regulations.” MRC posts on its consumer-focused website (byebyemattress.com) a list of such entities (as well as any other interested parties) that accept free drop-offs of discarded mattresses and that comply with state and federal law, along with their location and hours of operation.

To achieve Program convenience goals, MRC uses existing discarded mattress collection infrastructure (in the form of retailer take back and current solid waste collection mechanisms), supplemented as needed with local collection events and consumer incentive payment locations. Each of these used mattress collection channels is discussed in further detail as follows:

- A consumer’s purchase of a new mattress often results in an old mattress being discarded. The Act requires a mattress retailer to provide no-cost discarded mattress take back (offered by the retailer) when it delivers a new mattress to a consumer. This requirement provides a comprehensive mechanism for increasing the collection of discarded mattresses. To promote the recycling of these mattresses, MRC encourages mattress retailers to participate in the Program.
- In addition to the retailer take back requirement, many California residents

live in a participating municipality that offers no-cost curbside collection or no-cost drop off locations. Participating municipalities then provide the mattresses they collect to recyclers.

- Participation by a municipality in the Program is voluntary, however. For residents whose municipal solid waste facility is not participating in the Program, MRC seeks to identify alternative drop-off options for area residents. These could include MRC-funded recycling events where residents may drop off their used mattresses free of charge.
- Finally, residents that do not participate in one of these collection channels may drop off their discarded mattresses at contracted recyclers or other appropriate MRC contracted facility and may receive a collection incentive, as discussed above.

MRC provides a discussion and analysis of the Program convenient collection system in its annual report to CalRecycle.

MRC negotiates reasonable payments to be made to a municipal or solid waste facility or operation that agrees to accept discarded mattresses dropped off free of charge for accepting, collecting, storing, transporting, and handling such mattresses.

Impact of Article XIII C of California Constitution:

- p. Ensuring that the impact of Article XIII C of the California Constitution is addressed for local governments participating in the program.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(p).

MRC understands that if a local government needs to increase the taxes, levies, charges or exactions that it collects from its residents related to the solid waste services it provides because MRC's proposed Plan, as directed by the Act, requires the local government to incur new costs, it may be necessary for that local government to comply with the requirements of Article XIII C of the California Constitution.

It is important to note that a local government's participation in MRC's Program is entirely voluntary. Therefore, to the extent that a local government would incur any additional costs by participating in MRC's Program, it may instead decline to participate in the Program, and thereby avoid incurring additional costs and triggering the impact of Article XIII C, if it so chooses.

In consultation with the Advisory Committee and other stakeholders, MRC has been cautious in developing this Plan to avoid imposing mandatory obligations on local governments beyond those described in the Act, and to promote policies that should reduce the number of discarded mattresses (including illegally dumped mattresses) that local governments handle. For example, to reduce the number of mattresses picked up by solid waste services that are owned or operated by local governments, MRC established processes for participating mattress retailers and large mattress purchasers (such as hotels, universities, military bases, etc.) to have their discarded mattresses delivered to MRC-contracted recyclers.

Additionally, California residents may deliver their discarded mattresses directly to recyclers and other facilities under contract with MRC free of charge. As discussed above, Section 42987.1(l) requires MRC also compensates entities that pick up illegally dumped mattresses and request compensation from MRC. MRC also negotiates payment agreements with solid waste facilities, authorized solid waste operations, and other municipal facilities that, in accordance with applicable solid waste regulations, voluntarily accept used mattresses dropped off by individuals. These payments compensate these entities for accepting, collecting, storing, transporting, and handling such discarded mattresses.

In none of these instances (or any other aspects of MRC's Plan), does MRC require local governments to incur any additional costs that could require them to increase the taxes, levies, charges or exactions that they collect from their residents related to solid waste services they provide, and as a result possibly trigger the requirements of Article XIII C of the California Constitution. Instead, each of these examples likely reduces local government expenses or generates revenue for local governments.

Advisory Committee Report:

- q. A report from the advisory committee, established pursuant to paragraph (3) of subdivision (a) of Section 42987, which includes a summary of the consultative process between the advisory committee and the mattress recycling organization during the development of the plan, as well as any other information deemed pertinent by the advisory committee to maximizing the recovery and recycling of used mattresses in the state.

The advisory committee's report is included in Appendix E.

The Act requires MRC to consult the advisory committee at least once prior to submitting the Plan to CalRecycle. MRC expresses its appreciation to the committee for its members' time, support and cooperation during the conception, implementation and evolving development of the Program.

Contingency Plan:

- r. A contingency plan in the event the department decertifies the mattress recycling organization, or a mattress recycling plan expires, is disapproved, or is revoked. The contingency plan shall describe how the plan objectives can be carried out, in accordance with subdivision (c) of Section 42989.3, in the absence of a plan, either by the mattress recycling organization, or by the department through some entity such as an escrow company.

MRC's contingency plan is included in Appendix F.

July 2, 2014

Ryan Trainer
President
Mattress Recycling Council
501 Wythe Street
Alexandria, VA 22314

Dear Mr. Trainer,

CalRecycle has received your letter dated July 1, 2014, requesting certification of the Mattress Recycling Council as the mattress recycling organization, pursuant to section 42987(a)(1) of the Used Mattress Recovery and Recycling Act. The mattress recycling organization, as defined in section 42986(h), must be, among other things, exempt from taxation under section 501(c)(3) or section 501(c)(6) of the Internal Revenue Code. In your letter you stated that the Mattress Recycling Council's application to be exempt from taxation under Internal Revenue Code section 501(c)(3) is still pending before the Internal Revenue Service. With the exception of the tax exempt status, CalRecycle finds the Mattress Recycling Council meets all of the requirements for certification; therefore, CalRecycle conditionally approves the Mattress Recycling Council's certification as the mattress recycling organization, pending approval by the Internal Revenue Service of non-profit status. Please submit a copy of the Mattress Recycling Council's non-profit status when it has been approved by the Internal Revenue Service.

We look forward to working with you and your members to make this program a success.

You may contact Ashley Harley at (916) 341-6075 if you have additional questions.

Sincerely,

A handwritten signature in purple ink that reads "Carol Mortensen".

Carol Mortensen
Director

Appendix E - Advisory Committee Report

March 31, 2022

Motions from Meeting

1. Consultation process

- a. **Motion:** The AC recommends that the Q&As from the webinars posted to the MRC website without names.

Motion: Joanne; Second David

Vote: 6 aye/0 no/0 abstain; The motion passes.

- b. **Motion:** The AC recommends hosting a discussion with MRC at the next AC meeting to discuss how future annual reports can better measure the recycling rate.

Motion: David; Second: Terry

Vote: 6 aye/0 no/0 abstain; The motion passes.

2. Draft Plan (Final Plan to CalRecycle in April)

- a. **Motion:** The Mattress AC recommends that CalRecycle work with Oregon DEQ to share experiences and facilitate cooperation between the two programs.

Motion: David; Second: Larry

Vote: 6 aye/0 no/0 abstain; The motion passes.

- b. **Motion:** The AC recommends the section on source reduction dedicate more language to design for recyclability and reducing the amount of mattresses discarded.

Motion: Jordan; Second: Joanne

Vote: 7 aye/0 no/0 abstain; The motion passes.

3. **Next steps:** Review final Plan and meet in Late April/ Early May to comment on final plan and write our AR letter

Appendix F - Contingency Plan

April 30, 2020

Mattress Recycling Council California, LLC Contingency Plan

Contingency plan in the event that:

- I. The California Department of Resources Recycling and Recovery (Department) decertifies the Mattress Recycling Council California, LLC (MRC), or
- II. The mattress recycling plan (the plan) expires, is disapproved, or is revoked

I. The Department decertifies MRC

A. This may happen for one of two reasons

- i. MRC informs the Department in writing that it is no longer willing or able to serve as the mattress recycling organization (MRO), or
- ii. The Department finds that MRC has intentionally violated one or more provisions of Cal. Pub. Res. Code Chapter 388 in a manner that has materially impacted MRC's ability to substantially meet its obligations under MRC's approved mattress recycling plan or if the Department revokes that plan pursuant to Section 42993.2 of the Code.

B. Following decertification, the Department will:

- i. Establish a process and schedule that will, to the maximum extent possible, allow for an orderly transition of responsibility from MRC to a successor organization (SO).
- ii. Certify a SO pursuant to Pub. Res. Code § 42987.
- iii. If the Department revoked the existing plan, approve a successor plan or amendments to the existing plan proposed by the SO.
- iv. Decide whether to request MRC to provide transitional services until it has certified a SO and determined that the SO is prepared to assume all financial, statutory, contractual, and other legal responsibilities for implementing its obligations, and if so, for what time period it will require such transitional services.

C. If the Department requests that MRC provide transitional services and MRC accepts the request, MRC will, subject to the Department's approval:

- i. Continue to administer the program, providing transitional services that include:
 1. managing contractors and other service providers;
 2. paying third party transporters to move mattresses from consolidation sites (including public drop-off, planned collection events and large- volume pickups) to MRC contracted mattress recyclers;
 3. paying contracted recyclers to process mattresses;
 4. paying invoices and payrolls;
 5. maintaining existing consumer drop-off incentives through reimbursements to parties contracted to pay the consumer incentive;
 6. processing new and pending applications for, and make payments pursuant to, third parties participating in MRC's illegal dumping initiative;
 7. collecting and verifying data that recyclers, renovators and others must report to MRC;
 8. funding and managing previously approved and pending research projects;
 9. receiving support services from MRC Inc. pursuant to the existing affiliation agreement between MRC Inc. and MRC;
 10. providing regular reports to the Department on program operations, and
 11. performing other financial and administrative duties in a manner necessary and appropriate to maintain the continuity of the program's operations during the transition process.

- ii. Continue to receive charges remitted pursuant to Section 42989.1.

MRC's transitional service period may not exceed 12 months, unless MRC agrees to provide those services for a longer period.

- D. If the Department decides not to request that MRC provide transitional services, or MRC declines to accept such a request by the Department:
 - i. The Department may direct in writing that MRC establish a trust fund or escrow account and transfer all unexpended funds (which means charge revenue in MRC's accounts that MRC is not already obligated to pay pursuant to a contract, claim, or similar mechanism) into that

fund or account within 30 days.

ii. The trust fund or escrow account shall:

1. accept charges that would have been remitted to MRC prior to its decertification,
2. make payments from the trust fund or escrow account as the Department directs in writing to implement the most recently approved plan, and
3. be subject to reasonable requirements that the Department may set until it certifies a SO.

iii. The Department may appoint an agent to administer the program temporarily pending the SO's certification. If requested by the Department, MRC shall seek to transfer operations of the California mattress recycling program to the Department or its agent in an orderly manner as directed by the Department. Operations to be transferred may include, but are not limited to the following:

1. managing contractors and other service providers;
2. paying third party transporters to move mattresses from consolidation sites (including public drop-off, planned collection events and large- volume pickups) to MRC contracted mattress recyclers;
3. paying contracted recyclers to process mattresses;
4. paying invoices and payrolls;
5. maintaining existing consumer drop-off incentives through reimbursements to parties contracted to pay the consumer incentive;
6. processing new and pending applications for, and make payments pursuant to, third parties participating in MRC's illegal dumping initiative;
7. collecting and verifying data that recyclers, renovators and others must report to MRC;
8. funding and managing previously approved and pending research projects;
9. providing regular reports to the Department on program operations, and
10. performing other financial and administrative duties in a manner necessary and appropriate to maintain the continuity of the program's operations during the transition process.

iv. The trustee or escrow agent shall transfer those funds as the

Department directs to a certified SO.

- E. The process for transferring assets and liabilities from MRC to another entity will depend on whether the Department requests MRC to provide transitional services (and MRC agrees to do so).
- F. If MRC is providing transitional services, it will, within 30 days after being notified in writing by the Department that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program:
 - i. Undertake the process for seeking to transfer to the SO all assets and liabilities, and all financial, statutory, contractual, and other legal rights and responsibilities, including, but not limited to the receipt of the charge remitted pursuant to Section 42989.1.
 - ii. The overarching goal of this transfer process is to maintain, to the extent practicable, the continuity of MRC's mattress processing capacity (in terms of MRC's existing mattress recyclers' operations and the services provided by MRC's other service providers, that are pending or underway prior to the start of the transition process). MRC's contractual and other legal rights and responsibilities include but are not limited to the following:
 - 1. contracts for services to maintain program registration functions (that is, maintaining lists of all manufacturers, distributors, retailers, and renovators participating in the program),
 - 2. agreements to process charge revenue receipts that retailers and other sellers remit to MRC,
 - 3. contracts for collecting, transporting and processing the discarded mattresses,
 - 4. a license to use the ReTrac database,
 - 5. contracts for various consulting services and functions (including communications and public relations, accounting and auditing, research),
 - 6. agreements to prepare analysis and content for use in MRC's annual reports,
 - 7. pending litigation, other disputes and claims involving MRC, etc.
 - iii. Among other things, the process for seeking to transfer these

contractual and other legal rights and obligations to the SO may include novating existing contracts to replace MRC with the SO as one of the contracting parties. This process will commence within 30 days after the Department's notice that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program, but may require more than 30 days to complete, given the number of contracts that would require novation. In addition, it is unknown at this point whether all contractors and service providers will agree to such novations. Some may decline to agree to transfer MRC's contractual rights and responsibilities to the SO.

- iv. MRC may transfer to the SO only those financial liabilities that the Department has approved for transfer (which Section 42989.3(3) of the Code defines as including, but not be limited to, notes payable, accounts payable, salaries payable, wages payable, interest payable, other accrued expenses payable, income taxes payable, customer deposits, vendor contracts, and any other contractual liabilities). Transferrable liabilities would include all administrative fees that the Department regularly charges MRC (including increased fees that may result from the Department's involvement in the transition process), but excludes civil or criminal liabilities, fines or penalties issued by the state. Other than the existing contractual and other legal rights and responsibilities summarized in point ii above, MRC's only financial liabilities at this time consist of current payables (that is, invoices for goods and services that MRC has received and booked, and that MRC expects to pay in the near term). At this time, we do not anticipate that this situation will change substantially in the foreseeable future. Within 30 days after being notified in writing by the Department that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program MRC would notify the Department which assets and liabilities MRC intends to transfer to the SO, but the exact timing of that transfer will depend on when the Department notifies MRC in writing which liabilities it approves for transfer. MRC will require a reasonable amount of time after it receives such written notification to effect such transfers.
- v. MRC will transfer to the SO information and other data in its possession (including the lists of all manufacturers, distributors, retailers, and renovators participating in the program) and materials (for example, educational materials) that the SO will need to administer and operate

the program. As part of its efforts described above to have existing contractors and service providers transfer to the SO all of MRC's rights and obligations under their contracts with MRC, MRC will request that ReTrac amend its contract with MRC to license to the SO rights to use the ReTrac data system that California recyclers use to track the units that they receive and process, but MRC cannot guarantee that ReTrac will agree to such changes.

G. If the Department decides not to request that MRC provide transitional services (or MRC declines to accept such a request by the Department), and the Department instead directs MRC to transfer its unexpended funds to a trust fund or escrow account, the above transfer process will be somewhat different as follows:

- i. MRC will have already transferred to the trust fund or escrow account MRC's legal rights and responsibilities concerning the receipt of the charge remitted pursuant to Section 42989.1 when that fund or account was established.
- ii. Within 30 days after the trust fund or escrow account is established, MRC will also undertake the process of seeking to transfer to the SO, if certified (or an agent appointed by the Department, if the SO has not been certified) the remainder of the charge revenue in its accounts (that is, funds already obligated to pay pursuant to a contract, claim or similar mechanism that therefore were not transferred to the trust fund or escrow account initially) and all other assets and liabilities, and all financial, statutory, contractual, and other legal rights and responsibilities in the same manner as described in the preceding paragraph above with regard to the SO.

II. If the mattress recycling plan expires, or if the Department disapproves a successor plan or amendments to the existing plan, or revokes the existing plan:

- A. If MRC remains the MRO (that is, if the Department has not decertified MRC), MRC will seek to obtain the Department's approval of a successor plan or amendments to the existing plan.
- B. Regardless of whether MRC, a SO, the Department or an agent appointed by the Department is administering and managing the program, the existing plan will remain in effect until the Department approves a successor plan or

amendments to the existing plan.

- C. A manufacturer, renovator, retailer, or distributor that sells mattress in California to a consumer or to an ultimate end user may continue to do so without penalty until an approved successor plan (or amendments to the existing plan) go into effect if it continues to meet the applicable requirements of Pub. Res. Code Chapter 388, including, but not limited to, Section 42989.1 (regarding a seller's obligation to collect and remit the charge) and 42992 (regarding a retailer's take-back obligation).

- D. If the Department has not approved a successor plan (or amendments to the existing plan) within one year after decertifying MRC, the Department may modify the existing plan as it deems necessary, including, if a trust fund or escrow account has been established, to direct payments from that fund or account.
