Updates to the Solid Waste Information System (SWIS) Agency Portal

Since the release of the new [SWIS Agency Portal](#) on October 21, 2021, updates to the Agency Portal's Sites Module and Activities Modules have been incorporated so Local Enforcement Agencies (LEAs) can view more information regarding solid waste facilities, operations, and disposal sites. The changes shown below and in the attached document were released on March 11, 2022. More information will continue to be made viewable to LEAs in the Agency Portal. In addition, some Reports will be available in the near future.

*This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle.*

# Updates to the Solid Waste Information System (SWIS) Agency Portal

- 1) Additional information is now available in the Site Module for Permits, Closure Plans, Corrective Action Plans, Landowners, Operators, and CEQA. Click a tab and you will be navigated to a grid and you can Select a record and view the details for that record (some pages are still in development so the Select button is not enabled on all pages).

New Tabs added to select and view information related to Permits, Closure Plans, Corrective Action Plan, Landowners, Operators, and CEQA
