Updated LEA Central/CEQA Home Page Now Published

CalRecycle staff has published the newly revamped [LEA Central/CEQA Home Page](#) as part of ongoing efforts to redesign the CalRecycle webpage.

The California Environmental Quality Act (CEQA) Home Page highlights the five major objectives of CEQA as well as summarizes how CalRecycle and local enforcement agencies (LEAs) play a role as either a lead or responsible agency in the review of environmental projects relating to solid waste management.

Additionally, under the Resources header you will find downloadable PDF documents that cover the following:

- Types of environmental documents and their contents
- Lead Agency and Responsible Agency roles and responsibilities
- CEQA and the solid waste facility permit process
- Environmental document outlines to assist in the review of solid waste projects

The CEQA Home page can be found here:

<https://calrecycle.ca.gov/SWFacilities/Permitting/CEQA/>

If you have any questions, please email PermitTrainingAssistance@calrecycle.ca.gov.

This announcement is being sent on behalf of the Permitting and Assistance Branch, CalRecycle.
