**B. Anticipated Costs to Implement the Stewardship Program for Calendar Year 2024**

14 CCR 18973.6(b) Anticipated costs to implement the stewardship program, including, but not limited to, separate line items for the following:

- (1) Capital costs, including, but not limited to, fixed, one-time, tangible purchases
- (2) Costs of collection, transportation, and disposal of covered products
- (3) Administrative costs
- (4) Education and outreach costs
- (5) Costs related to grants, loans, sponsorships, or other incentives as part of program implementation

<b>Cost Category</b>	<b>Anticipated Costs</b>
Capital Costs	\$511,000
Operational Costs (Costs of collection, transportation, and disposal of covered products)	\$482,692
Administrative costs	\$226,424
Department Administrative Fee	\$455,667
Education and outreach costs	\$110,000
Costs related to grants, loans, sponsorships, or other incentives as part of program implementation	\$0

## C. Reserve Level

*14 CCR 18973.6(c) Recommended reserve level amount and description justifying the reserve level amount indicated. The program operator shall maintain reserves in a prudent and responsible manner.*

The Foundation has established a reserve amount of \$175,935 for 2024 in order to accommodate unplanned needs, and provide cushion against unexpected events, losses of income or large unbudgeted expenses.

The Foundation has planned its Program Budget using a variety of factors to determine needs for capital, education, operational, and administrative costs throughout the year. Likewise, the Foundation has determined reserve levels that are sufficient to cover estimated impacts of unexpected cost variability including costs of collection, transportation, disposal, and other Program costs.

When considering unexpected costs or potential loss of income, the Foundation has determined that a reserve percentage that approximates a 10% increase in the costs associated with operating Collection Receptacles (i.e. new Collection Receptacles, additional Containers and Inner Liners, etc.) to be sufficient for the Program year. Further, this reserve level would approximate ~3 months of education, operational, and administrative costs. This reserve amount will provide sufficient cash to respond to unexpected events throughout the Program year.

## D. Funding Level

*14 CCR 18973.6(d) Recommended funding level necessary to cover the stewardship plan's budgeted costs and to operate the stewardship program over a multi-year period in a prudent and responsible manner. Include a description of how costs are apportioned to and funds remitted from participating covered entities.*

The Foundation has researched Service Provider costs and made informed Program cost estimates based on experience. The Foundation's Service Providers have provided historical data for required Program costs such as Collection Receptacle servicing, disposal, outreach and education, signage, survey, start-up, and administration. The Foundation has secured long-term agreements with Service Providers with set fees for services required to operate the Program.

**Recommended Funding Levels:**

- 2023: \$2,873,751
- 2024: \$1,785,783
- 2025: \$1,813,465
- 2026: \$1,844,984

The Foundation has long-term commitments from the Covered Entities who will cover all costs associated with the Program. The Foundation uses data on Covered Drugs to inform the Program Budget. Data sets from Covered Drugs sold include volume estimates, relative value, comparisons to states with similar populations, and actual historical data from California. The Program Budget will be apportioned as fees among each participating Covered Entity pursuant to 14 CCR Section 18973.6 based upon the volume and value estimates above. Participating Covered Entities are invoiced and remit funds according to their contracts.

## E. Description of Cost Categories

*14 CCR 18973.6(e) A description of the types of activities relative to each line item cost category, identified pursuant to section 18973.6(b).*

The Program Budget includes the following amounts and activities:

## F. Independent Financial Audit

14 CCR 18973.6(f) An independent financial audit of the stewardship program funded by the member covered entities participating in the stewardship program or by a covered entity, if it operates its own stewardship program. The audit shall be performed at least once each calendar year. The audit shall be conducted in accordance with generally accepted auditing standards in the United States of America by a Certified Public Accountant. The Certified Public Accountant shall not perform the non-audit services for the program operator or engage in any activities that would impair independence. The independent financial audit shall include, but not be limited to:
