BACKGROUND AND PURPOSE

1. The California Department of Resources Recycling and Recovery is herein after referred to as "CalRecycle."
- 1.1 CalRecycle, in consultation with the California Air Resources Board, adopted regulatory requirements, consistent with the mandate of Senate Bill 1383 (Lara, Chapter 395, Statutes of 2016), that are designed to achieve the organic waste reduction goals established in section 39730.6 of the Health and Safety Code through a 50 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2020 and a 75 percent reduction in the level of the statewide disposal of organic waste from the 2014 level by 2025. The purpose of these reductions is to further the statewide effort to reduce emissions of short-lived climate pollutants (SLCP), including methane. These SLCP regulations are referred to hereinafter as the "Regulations" and can be found at Title 14 California Code of Regulations (CCR) sections 18981.1 through 18998.4. Cities, counties, and special districts are responsible for implementing these Regulations in their communities starting January 1, 2022.
- 1.2 The City of Fontana is hereinafter referred to as "Jurisdiction." Jurisdiction is required to comply with the Regulations.
- 1.3 Jurisdiction is or expects to be facing continuing violations of the Regulations commencing during the 2022 calendar year, which could result in significant administrative civil penalties under the Regulations.
- 1.4 Senate Bill 619 (Laird, Chapter 508, Statutes of 2021), through amendments to section 42652.5 of the Public Resources Code (PRC), created a mechanism called

a Notification of Intent to Comply through which a local jurisdiction may secure administrative civil penalty relief from any continuing violations of the Regulations for the 2022 calendar year and may be eligible for a broader and longer-term regulatory compliance path, including suspended administrative civil penalties, through a Corrective Action Plan.

- 1.5 Under PRC section 42652.5(e), the Notification of Intent to Comply must include a description of proposed actions to remedy the violations, as well as a proposed schedule for those actions, that the Jurisdiction commits to undertake to remedy the violations.
- 1.6 The Notification of Intent to Comply is herein after referred to as "Notification."
- 1.7 For violations taking more than 180 days to correct, PRC section 42652.2 allows CalRecycle to determine, in its sole discretion, that violations identified in a Notification may be addressed through a Corrective Action Plan issued pursuant to 14 CCR section 18996.2.
- 1.8 The Corrective Action Plan is herein after referred to as "CAP."
- 1.9 For violations disclosed in the Notification approved by CalRecycle as meeting the requirements of PRC section 42652.5(e), CalRecycle shall waive administrative civil penalties during the 2022 calendar year if the Jurisdiction implements the proposed actions according to the approved Notification's schedule of actions and, as applicable, approved CAP schedule of actions.
- 1.10 For violations disclosed in the Notification that commence during the 2022 calendar year and continue into the 2023 calendar year, administrative civil penalties may begin accruing as of January 1, 2023. SB 619 provides administrative civil penalties accruing on and after January 1, 2023, shall be waived upon complete compliance with an approved CAP schedule of action.

- 4.2 Compliance Review. At the end of the oversight period or at any time deemed appropriate by CalRecycle, CalRecycle will meet with the Jurisdiction to assess the Jurisdiction's CAP implementation efforts and to determine whether or not the Jurisdiction has timely complied with all commitments in all sections of this CAP. If requested by the Jurisdiction, CalRecycle has discretion to issue notice of a hearing at any time upon its staff's recommendation that the Jurisdiction has completed the conditions of the CAP. In accordance with PRC section 42652.5, failure to implement programs and or comply with all sections of the CAP at any time may result in CalRecycle's revocation of its approval of the Notification and CAP and imposition of administrative civil penalties retroactively to the date of violation in 2022, for administrative civil penalties accruing in 2023, and for administrative civil penalties accruing during any other additional time covered by the Notification and CAP. These potentially applicable penalties are described in Section 5.0 of this CAP.
- 4.3 CalRecycle Review and Approval: If CalRecycle determines that any report, plan, schedule, or other document submitted for approval pursuant to this CAP fails to comply with the Notification as amended by this CAP or fails to achieve successful implementation of the Regulations, CalRecycle may:

The extension request shall include a justification for the delay. If the Jurisdiction finds that a task required by this CAP in Section 3.1 is not feasible, despite the Jurisdiction's best and substantial efforts, the Jurisdiction may propose an alternative task that is substantially similar or equally effective to the original task, subject to the approval of CalRecycle. The modification request shall include an explanation of the infeasibility, an explanation of how the alternative task is substantially similar or

equally effective, and a justification for any extension of time associated with the change.

- 4.5 Extension and Other Task Modification Approvals: If CalRecycle determines that good cause exists for an extension, considering the factors set out in Title 14 CCR section 18996.2(a)(2), it will grant an extension as appropriate and specify in writing a new compliance schedule. If CalRecycle determines that good cause exists for the change in task because the original task is infeasible and the alternative task is substantially similar or equally effective, it will grant an approval and extension as appropriate and specify in writing the new task; additionally, if CalRecycle determines that good cause exists for any extension associated with the change in task, considering the factors set out in Title 14 CCR section 18996.2(a)(2), it will grant an extension as appropriate and specify in writing a new compliance schedule.
- 4.6 Compliance with Applicable Laws: The Jurisdiction shall carry out this CAP in compliance with all Local, State, and Federal requirements, including but not limited to requirements to obtain necessary permits.

- 4.8 Government Liabilities: The State of California and CalRecycle shall not be liable for injuries or damages to persons or property resulting from acts or omissions in carrying out activities pursuant to this CAP, nor shall the State of California be held as a party to any contract entered into by the Jurisdiction or its agents in carrying out activities pursuant to the CAP. The Jurisdiction shall indemnify, defend, and save harmless the State, its officers, agents, and employees from any and all claims and losses accruing or resulting in connection with the performance of this CAP.
