

### Rigid Plastic Packaging Container (RPPC) - Product Manufacturer Compliance Certification

#### Reusable RPPC Compliance Option

Certification Measurement Period (Year)  (January 1 through December 31)

Measurement Period (check one box):  Calendar Year: (January 1 through December 31)  12 Consecutive Months\*

\*If not using the calendar year, explain the 12-month period used to determine the number of times of reuse, and describe how and why that measurement period was selected.

#### D. Product Manufacturer Data:

Product Manufacturers must submit the information described in the regulations: [\[14CCR Section 17945.3\(c\) and \(d\)\(6\)\] \(included below\)](#)

Include all reportable (RPPCs) in this certification for the measurement period/calendar year. *Sample line of data shown below.*

Include all products in RPPCs offered for sale or sold in California during the measurement period (even if products became discontinued, or the total quantity sold by December 31 is zero).

*If product packaging was changed during the measurement period, discuss this with your CalRecycle representative.*

Indicate the compliance option formula(s) used to calculate your compliance rate: [\[14CCR Section 17945.5 \(e\)\(1\) and \(e\)\(2\)\]](#)

Please check the appropriate box:  Reusable formula for each single rigid plastic packaging container line  Reusable formula for averaging multiple rigid plastic packaging container lines

To comply under this option, the Reuse Per Container must be equal to or greater than 5.00 reuses.

Container Line	Description of the Type of each RPPC (i.e. jar, bottle, clamshell)	The associated Product Name or advertised Brand Name	SKU, Product Code, Model Number, or Bar Code (optional)	Volume of each Original RPPC <sup>1</sup> (include units) "V <sub>p</sub> "	Volume of each Replacement Package (include units) "V <sub>R</sub> "	Weight of each individual RPPC (grams)	Plastic Resin Type(s) of each RPPC	Number of Original RPPCs Sold During Measurement Period <sup>2</sup> "P"	Number of Replacement Packages Sold During the Same Period "R"	Is Data Based on Sales in California or Nationally (indicate CA or US)	Name of the associated Container Manufacturer <sup>3</sup>	Number of Times the RPPC was Reused During the Measurement Period <sup>4</sup>
#1	jar	XYZ Cleaner	12345	12.50 fl. oz.	12.50 fl. oz.	30.00	HDPE	5,684	30,598	CA	Container R-US	5.38

<sup>1</sup> The capacity or size must be expressed in the same unit of volume that is used on the container label; for products that are sold based on weight or a numeric count, the size should be reported on an equivalent volume basis.

<sup>2</sup> This data should include: (A) Direct sales by the product manufacturer; (B) Sales through distributors, franchises, dealers, and agents; (C) All mail-order and Internet sales.

<sup>3</sup> A Product Manufacturer must also include (in the Compliance Certification submission) the name of the associated container manufacturer (who made each container) and a copy of any Container Manufacturer Certification(s) and information pursuant to Section 17945.4 (see CalRecycle's Container Manufacturer Certification model template). The Product Manufacturer is responsible for ensuring that its report is consistent with any Container Manufacturer Certification obtained.

<sup>4</sup> Use the formula for Reusable Container Compliance Section 17945.5(e)(1)
