

Rigid Plastic Packaging Container (RPPC) Program - Container Manufacturer Compliance Certification

Certification Measurement Period (Calendar Year): (January 1 - December 31)

D (i). Postconsumer Material (PCM) Data - Container Manufacturers [\(14CCR §17945.4\(a\)\(3\)\)](#)

To document postconsumer material (PCM) used to make each rigid plastic packaging container (RPPC), provide the following data below. *Sample line of data provided below.*

Associated Product in the RPPC (optional)		Type of each RPPC (e.g., jar, bottle, clamshell)	Plastic Resin Type of each RPPC	Volume or Equivalent Capacity of Each RPPC (include units)	Total Weight of each RPPC (grams)	Weight of Postconsumer Material ¹ used to Manufacture each RPPC (grams)	Percentage of Postconsumer Material Used in each RPPC (% PCM)	Total Number of RPPCs Provided to the Product Manufacturer During Calendar Year (optional)	Does the Postconsumer Material Include Obsolete or Unsold RPPCs and/or Rejected Finished Plastic Packaging? ² (if yes, fill out Sheet E. "PCM Documentation") YES/NO
Product Name/advertised Brand Name	SKU, Product Code, Model Number, or Barcode								
XYZ Cleaners	54397	bottle	HDPE	64 fl. oz.	150.00	40.00	26.67%	32,000	No

¹ Definition of postconsumer material content: [14 CCR §17943. Definitions.](#)
If the postconsumer material used includes such material as defined in Section 17943(q)(1) and (2), the documentation shall contain, at a minimum, information in Sheet E of this template.

² If the PCM reported includes any obsolete or unsold RPPCs and/or rejected finished plastic packaging that are commonly disposed and are not part of the original manufacturing and fabrication process, please indicate "YES"

Rev. June 2018

Rigid Plastic Packaging Container (RPPC) Program - Container Manufacturer Compliance Certification

*Certification Measurement Period (Calendar Year): (January 1 - December 31)

***** Important: Do not complete this form unless you entered "Yes" in the last column on Sheet "D(i). Postconsumer Data" *****

E. Postconsumer Material (PCM) Documentation (refer to:)

[Title 14 California Code of Regulations \(14CCR\) Section 17945.4\(a\)\(3\)\(E\)](#)

If the postconsumer material used includes such material as defined in [\(14 CCR\) §17943\(q\)\(1\) and \(2\)](#), the documentation shall contain, at a minimum, the following (in the tables below):

(q) "Postconsumer Material (PCM)" means a material that would otherwise be destined for solid waste disposal, having completed its intended end-use and product life cycle. shall be considered postconsumer material when used as feedstock for new rigid plastic packaging containers or under the alternative compliance method in

[\(14CCR\) §17944.1](#)

- (1) Rigid plastic packaging containers holding obsolete or unsold products that are commonly disposed, and not commonly reused within an original manufacturing process,
- (2) Finished plastic packaging that has been rejected by a container or product manufacturer, and that is commonly disposed, may be considered postconsumer material if it is later used in a process other than the original manufacturing and fabrication process.
- (3) Postconsumer material does not include materials and by-products generated from, and commonly reused within, an original manufacturing and fabrication process.

1. Supplier Company Information - Contact information for the Supplier(s) of the plastic(s)

Supplier Name	Address	Contact Person	Phone Number	Email

2. Supplier's Postconsumer Information - Must include description of the material being claimed as postconsumer, including but not limited to the following:

Supplier Name	Total Weight of the postconsumer plastic(s) received (indicate kilograms, pounds, tons)	Date(s) of Receipt of the plastic(s)	Type of Plastic Resin	Form in which Material was Received (e.g. baled, flaked)	Description of the plastic material that verifies the plastic was made up of obsolete or unsold RPPCs and/or rejected finished plastic packaging
