CalRecycle Director

August 22, 2023

**NOTICE**

**TO: Glass Market Development Payment Program Participants**

**SUBJECT: Glass Market Development Payment Rate for 2023**

The passage of [SB 1013 \(Atkins, Chapter 610\)](#) added Public Resources Code, Section 14549.7 to develop California markets for glass beverage containers collected for recycling in the state. SB 1013 allows the Department of Resources Recycling and Recovery, Division of Recycling (Division) to pay, subject to the availability of funds, a market development payment to a glass beverage container manufacturer who purchase recycled glass collected in California for use in manufacturing new beverage containers in the state. Payments to glass beverage container manufacturers are only for California Refund Value (CRV) eligible glass beverage containers. Non-qualifying material such as out-of-state, plant rejects, and other non-qualifying glass material will not be used to determine payments.

As of July 1, 2023, the Division implemented the Glass Market Development Payment rate. This rate will be reassessed and may be adjusted in January 2024 and annually thereafter until completion of the program.

<b>2023 Glass Market Development Payment Rate</b>
<b>57%</b>

\*If you have conducted a formal study in 2022 or 2023 and are able to demonstrate that the CRV rate in the material that you are claiming is higher than 57%, please contact Jim Huck to request consideration of an alternate rate.

Failure to use the above rate for 2023 reporting quarters will result in incorrect claims and payments.

If you have questions, contact Jim Huck at (916) 323-5778 or [Jim.Huck@calrecycle.ca.gov](mailto:Jim.Huck@calrecycle.ca.gov).

Sincerely,

Monica Torres
