

0:00
rash unsold food isn't trash War
0:04
everyone California is making sure
0:06
Surplus meals feed people not landfills
0:09
I use whatever I can use and and the
0:13
rest you're not sh it's great um it's so
0:15
helpful for the families on Bas by
0:17
funding rude rescue groups like helping
0:19
hand worldwide California is helping
0:21
beat some of the one in five
0:22
Californians who don't have enough to
0:24
eat cutting climate pollution from
0:26
rotting food waste and landfills and
0:28
Building Systems for a zero future Cal
0:31
recycle who gave us a very generous
0:33
Grant now we have an 18t truck and it
0:35
helps us do our part to recycle smart
0:37
the benefits start multiplying from the
0:39
first pickup at stores like Trader Joe's
0:42
most of these people are not going to be
0:43
able to afford the pre-made Trader Joe's
0:46
out we have a very short shelf life it's
0:48
all fresh prodct then we pack it on here
0:51
and then the same day we deliver it to

0:52
the senior housing and the military or
0:54
wherever our stop is that day more space
0:56
to rescue deliver and carefully box over
0:59
half a million more meals in just the
1:01
first 2 years you can see down here we
1:03
have all the fruits and veggies surplus
1:05
food that fills a critical need in
1:07
Orange and San Diego counties you never
1:09
know who in your neighborhood is in need
1:12
from singers and Irvine go SEC video a
1:16
several of them said if it wasn't for
1:17
this I couldn't make rent to military
1:19
families at Camp Pendleton our paychecks
1:22
don't go up depending on how many kids
1:23
you have no are veterans so I can tell
1:25
you there's are families down there who
1:27
can use it helping hand worldwide caters
1:29
to each community with diverse
1:30
volunteers and staff at every step
1:33
making sure nothing goes to waste there
1:35
are spouses who work so I will take a
1:38
food home and then people will come to
1:40
my house and pick it up or I take it to

1:43
other families on base instead of
1:45
feeling like they don't belong in their
1:47
own Community now not only are they a
1:50
part of their Community but they're
1:51
leaders in the community connecting
1:53
Californians with healthy food and each
1:55
other the first time they don't look me
1:57
in the eye they keep their heads down
2:00
they're suffering from malnutrition they
2:02
have big Rings under their eyes their
2:03
Skin's gray and within a couple of
2:06
months their skin has that nice healthy
2:09
glow on it strengthening our communities
2:12
with a helping
2:16
[Applause]
2:18
hand
