 - (8) The printed name and signature of an authorized representative of the reporting processor.
- (g) Processors purchasing materials directly from more than one curbside program, dropoff or collection program, or community service program may apply to the ~~Division~~Department to request the use of alternative methods for preparing the corresponding shipping reports. The ~~Division~~Department shall consider each proposed alternative method and issue a written approval or denial within forty-five (45) calendar days.

- (1) In order for alternative methods to be accepted, they must be based on reasonable allocation methods.
- (2) An application for an alternative allocation method shall be denied if:
 - (A) The received weight of the material purchased by an entity from the processor is not used to calculate allocations to the curbside programs, dropoff or collection programs, or community service programs; or
 - (B) The processor does not ensure that the weight of rejected containers, line breakage, and out-of-state containers is not included in the allocated weight (this does not require a physical separation); or
 - (C) The processor does not account for each incoming load of material; or
 - (D) The processor does not inspect incoming material to verify that it is eligible for refund value payments, as specified in section 2401.
- (3) Processors may file a formal appeal by writing the Assistant Director for Recycling within thirty (30) calendar days after the receipt of a notice denying an application requesting an alternative method for shipping report preparation. Appeals submitted after this time period shall be rejected. All written appeals shall include:
 - (A) A copy of the notice denying the allocation method;
 - (B) A detailed explanation of why the determination was in error; and,
 - (C) Any other documentation that supports the appeal.
- (4) A written decision on the appeal shall be sent to the processor within seven (7) calendar days of the receipt of the appeal.
- (h) Processors purchasing commingled glass from a certified dropoff or collection program including a “waste reduction facility”, a certified community service program, or a registered curbside program, shall visually inspect every load delivered to determine eligibility for refund value and the level of contamination in the load. If a load presented to a processor is eligible for refund value and has residual or other contamination, the processor shall reduce the load for shrinkage. If a load has a residual or other contamination level of greater than 10% by weight, and the load is otherwise eligible for refund value, the receiving processor shall request an alternative method of preparing the shipping report for payment. The ~~Division~~Department shall consider each proposed alternative method and issue a written approval or denial within forty-five (45) calendar days.
 - (1) In order for the alternative method to be accepted, it must:
 - (A) Be based on a recycled glass cleaning process that produces cullet which meets the American Society for Testing and Materials standard specification for waste glass as a raw material for the manufacture of glass as specified in Section 2000(a)(3.1)(A).

(B) Clearly state:

- ~~1.~~(i) That the received weight, for beverage container redemption purposes, shall be determined from the cullet produced in (A) above.
- ~~2.~~(ii) That the redemption weight shall be determined using the applicable commingled rates and the received weight from ~~4.~~clause (i).
- ~~3.~~(iii) That, if a sampling procedure will be used to determine the received weight of contaminated loads from each entity, the sampling procedure must be included with the request for an alternative method of preparing the shipping report.

(2) An application for an alternate method will be denied if:

- (A) The total weight of all contaminated materials received at the facility is not recorded.
 - (B) All material received at this facility is not inspected for the presence of out-of-state, rejected, or line breakage containers and this weight excluded from shipping reports.
 - (C) Records accurately supporting both cullet sold and residual or contaminated material disposed of or used for an alternative market is not made available to Department staff upon request.
 - (D) The method does not clearly account for the weight of empty beverage containers for each certified dropoff or collection program including a “waste reduction facility”, certified community service program, or registered curbside program from which the processor receives this material.
- (3) When used in this subsection, “waste reduction facility” means a dropoff or collection program certified by the Department, which separates beverage container material types from mixed waste.

Section 2430. Payments

(a) Payments to recycling centers or dealer cooperatives.

- (1) Substantiation of payment. The processor shall weigh, and pursuant to section 2401, inspect all loads received from recycling centers or dealer cooperatives before completing the receiver's section of the shipping reports. The processor shall do all of the following for materials received from recycling centers:
 - (A) Verify all calculations are accurate and that all other pieces of information shown on the shipping report, including signatures, are filled in.

- (B) Record the received weight, excluding the weight of rejected containers, line breakage and out-of-state containers provided by the shipping recycler, onto the shipping report.
 - (C) Sign and date the shipping report to verify the receipt of the materials as indicated on the report.
 - (D) Calculate the refund value payment. If the redemption weight does not exceed the received weight by more than 2.5 percent, then the processor shall reimburse the recycler the refund value claimed. Otherwise, the processor shall multiply the received weight by the segregated rate per pound and record that amount as the refund value paid.
 - (E) Calculate the processing payment. If the redemption weight does not exceed the received weight by more than 2.5 percent, then the processor shall multiply the redemption weight claimed by the processing payment in effect on the date the material was received and pay that amount. Otherwise, the processor shall multiply the received weight by the processing payment in effect on the date the material was received and pay that amount.
 - (F) Calculate the administrative fee. The processor shall multiply the refund value paid from (D) by the administrative fee rate in effect on the date the material was received and pay that amount.
- (2) In addition to the provisions of this section, processors shall not make any payments pursuant to the Act for materials which have not been delivered to the processor unless the following conditions are met:
- (A) The shipper is a certified recycling center to which the processor has given authorization to cancel pursuant to section 2110 ~~of these regulations~~; and
 - (B) The delivery to a location of end use and cancellation are verified in accordance with section 2420(d) ~~of these regulations~~.
- (3) In the case of processors that do not take delivery of the material, the weight shall mean the weight received by the entity to whom the material is physically delivered.
- (4) In no case shall a processor make any payments pursuant to the Act for any material which the processor has rejected for any reason.
- (b) Payments to curbside programs. Processors shall pay the refund value, administrative fees and any applicable processing payments for materials delivered to the processor from curbside programs. Processors shall adjust the refund value rate to account for shrinkage in the same manner as set forth in subsection 2535(e) ~~of these regulations~~.
- (1) Substantiation of payment. The processor shall compute the refund value, administrative fees and applicable processing payments based upon the materials delivered on the shipping report prepared pursuant to subsection

~~2425(c) of these regulations.~~ The processor shall provide a duplicate copy of the shipping report to the shipper. Notwithstanding any other provision of this subchapter, curbside programs may not be paid at more than the applicable statewide average commingled rate, or the ~~Division's~~Department's approved individual commingled rate.

(2) Calculation of payment and fee.

(A) The processor shall pay based on the received weight of the material, excluded the weight of rejected, line breakage and out-of-state containers, multiplied by:

~~1.~~(i) the statewide commingled rate, or the ~~Division's~~Department's approved individual commingled rate in effect on the date received; and

~~2.~~(ii) the per pound processing payment in effect on the date received, when applicable.

(B) In addition, administrative fees shall be calculated as three-fourths of one percent (3/4%) of the total refund value.

(c) Payments to dropoff or collection programs and community service programs.

Processors shall adjust the refund value rate to account for shrinkage in the same manner as set forth in subsection 2535(e) ~~of subchapter 6 these regulations.~~ Notwithstanding any other provision of this subchapter, dropoff or collection, and community service programs may not be paid at more than the applicable statewide average commingled rate, or the ~~Division's~~Department's approved individual commingled rate.

(1) Substantiation of payment. Based upon materials received, the processor shall prepare a shipping report which states the refund value and applicable processing payments paid. The shipping report shall be prepared pursuant to subsection 2425(c) ~~of these regulations.~~ The processor shall provide a copy of the shipping report to the shipper.

(2) Calculation of payment and fee.

(A) The processor shall pay based on the received weight of the material, excluding the weight of rejected, line breakage and out-of-state containers, multiplied by:

~~1.~~(i) the statewide commingled rate, or the ~~Division's~~Department's approved individual commingled rate in effect on the date received; and

~~2.~~(ii) the per pound processing payment in effect on the date received, when applicable.

(d) Payments for canceled material. The authorizing processor shall make payment in accordance with Section 14573.5 of the Act, to recycling centers for canceled material provided the material is shipped to the authorizing processor or to a location designated by the authorizing processor. For such transactions, program payments

will be issued by the ~~Division~~Department to processors issuing the written authorization to cancel. Program payments will not be issued by the ~~Division~~Department to processors for loads for which they have received authorization to cancel.

ARTICLE 1. Requirements for Recycling Centers

Section 2501. Load Inspection Requirements

- (a) ~~A dealer cooperative or c~~Certified recycling centers shall inspect each load of containers, subject to the Act, delivered to the dealer cooperative or recycling center, for which refund value is claimed, to determine whether the load is eligible for any refund value and, if so, to determine whether the load is segregated or commingled, as follows:
- (1) For transactions with consumers, the dealer cooperative or recycling center shall remove the containers from any bag, box or other receptacle used to deliver the material to the dealer cooperative or recycling center and visually inspect the containers prior to determining the basis for payment and paying the seller. In no case shall a dealer cooperative or certified recycling center pay or claim the refund value for any material not inspected by the dealer cooperative or recycling center.
 - (2) For any load delivered to a dealer cooperative or recycling center, from a dropoff or collection program, community service program, curbside program, dealer cooperative, or ~~other~~ recycling center, each dealer cooperative or recycling center taking delivery of the material shall visually inspect each load of material by monitoring the unloading and/or conveyor process to determine eligibility and whether the load is segregated or commingled.
 - (3) Notwithstanding any other provision of these Regulations, a dealer cooperative redemption site consisting of an innovative method of redemption, as defined in section 2370, may inspect containers following receipt of the containers as long as the inspection occurs before payment of the refund value to the consumer.
- (b) In addition to the requirements of section 2110 ~~of these regulations~~, a load of material shall be deemed not eligible for any refund value if any one of the following conditions exist:
- (1) There are pieces of broken, densified bales or biscuits of aluminum beverage containers within the load. This does not include cans which have merely been flattened.

- (2) Pieces of bales of plastic are found in the load.
- (3) The motor vehicle, if any, used to deliver the load has a license plate from any foreign country, or any state other than California, unless all of the following conditions are met:
 - (A) The person delivering the load is not a noncertified recycler, as defined at Section 14520.6 of the Act; and,
 - (B) The total refund value of material delivered by any one person per day does not exceed fifty dollars (\$50.00); and,

- (a) In addition to meeting the requirements of Section 14585 of the Act, a recycling center shall meet all of the following criteria for handling fees eligibility on the first day of the calendar month for which they are claimed. A recycling center must be:
 - (1) certified, operational, and accepting and paying refund value to consumers for all empty beverage container material types; and
 - (2) located within a convenience zone; and

- (3) a “supermarket-site” recycling center as defined in Section 14526.6 of the Act, or a nonprofit convenience zone recycler as defined in Section 14514.7 of the Act, or a rural region recycler as defined in Section 14525.5.1 of the Act; and
- (4) the only certified, non-grandfathered recycling center in the convenience zone.
- (b) The ~~Division~~Department shall inspect each supermarket site, nonprofit convenience zone recycler, or rural region recycler to determine whether such sites satisfy the requirements of this section.
- (c) ~~Commencing January 1, 1993, a~~A recycling center, which locates within a convenience zone, thereby causing a preexisting recycling center to become ineligible to receive handling fees, shall never be eligible to receive handling fees in that convenience zone. Such ineligibility shall apply to the parent company, its subsidiaries and affiliates even if the preexisting recycling center ceases to operate within the convenience zone. Such ineligibility shall also apply to the parent, the subsidiaries and the affiliates of any grandfathered recycling center which elects to begin accepting all material types.
- (d) A rural region recycler may combine total monthly beverage container purchases from two or more of its convenience zone sites to establish eligibility for a single handling fee payment by submitting the following information monthly in writing:

Section 2518. Calculations and Payments

- (a) The ~~Division~~Department shall determine handling fee payments for a recycling center meeting the requirements of Section 14585 of the Act and Section 2516, above, or for a dealer cooperative based on data contained in the Handling Fee Application Form (Form DR-14 (1/00)) by performing the following calculations:
- (1) The reported redemption weights shall be converted to number of empty beverage containers using the ~~Division's~~Department's statewide average containers-per-pound rate for each material type, and pursuant to Subsection 14585(e) of the Act.
 - (2) The total number of empty beverage containers for the calendar month shall be calculated by summing the number of empty aluminum, glass, plastic and bimetal beverage containers. ~~If the total number of empty beverage containers is less than the minimum number required by Section 14585(a)(2)(A) of the Act, the recycling center is not eligible for handling fees for that calendar month.~~
 - (3) The ~~Division~~Department shall determine the number of empty beverage containers eligible for handling fees pursuant to ~~Subsection~~Section 14585(a)(4)(2) of the Act.
 - (4) On and after July 1, 2008, the Department shall pay a handling fee per eligible beverage container as determined by the handling fee cost survey required by Section 14585(f) of the Act.
- (b) Prior to release of handling fees for each month during which a recycling center or dealer cooperative is eligible, the ~~Division~~Department may determine that such fees should be withheld for any of the following reasons:
- (1) The ~~Division~~Department has prevailed against the ~~recycler~~recycling center or dealer cooperative in a civil or administrative action and money is owed to the ~~Division~~Department as a result of the action.
 - (2) The ~~Division~~Department determines, based on information contained in the shipping reports filed pursuant to Section 2530 of Article 3 of Subchapter 6, that the ~~recycler~~recycling center or dealer cooperative has received handling fees for materials which were not redeemed for refund value and such discrepancies between reported redemption weights and shipping weights are more than two and one-half percent.

Section 2535. Payments to Consumers, Curbside Programs, Community Service Programs and Dropoff or Collection Programs

- (a) (1) Recycling centers shall pay on delivery the refund value for every empty beverage container not donated to the recycling center.
- (2) Except for a dealer cooperative redemption site that is an innovative method of redemption, as defined in section 2370, a dealer cooperative shall pay on delivery the refund value for every empty beverage container not donated to the dealer cooperative.
- (b) For deliveries to a recycling center, except reverse vending machines:
- (1) The consumer has the option of being paid based on count for up to 50 empty beverage containers of each material type.
- (2) The recycler may pay based on count for all deliveries of empty beverage containers received from consumers.
- (c) Notwithstanding any other provision of this subchapter, a recycling centers or dealer cooperative shall not pay dropoff or collection, community service, and curbside programs more than the relevant commingled rate.
- (d) Calculation of Payment.
- (1) If the material received from consumers is segregated, as determined by the load inspection required by section 2501 ~~of these regulations~~, and payment is based upon weight, payment shall be calculated by multiplying the actual weight of the empty beverage containers, by the applicable segregated refund value per pound for the relevant material type.
- (2) If the payment is based on the actual number of empty beverage containers, the payment shall be based upon the following:
- (A) in the case of recycling centers other than a reverse vending machine, the number of the empty beverage containers, multiplied by the refund value per empty beverage container for the relevant material type and size; or,
- (B) in the case of a reverse vending machine, the number of empty beverage containers, multiplied by the refund value per empty beverage container for the relevant material type and size. If the reverse vending machine accepts empty beverage containers in gross, rather than by individual containers, and
