- (c) Commencing January 1, 1993, a recycling center, which locates within a convenience zone, thereby causing a preexisting recycling center to become ineligible to receive handling fees, shall never be eligible to receive handling fees in that convenience zone. Such ineligibility shall apply to the parent company, its subsidiaries and affiliates even if the preexisting recycling center ceases to operate within the convenience zone. Such ineligibility shall also apply to the parent, the subsidiaries and the affiliates of any grandfathered recycling center which elects to begin accepting all material types.
- (d) A rural region recycler may combine total monthly beverage container purchases from two or more of its convenience zone sites to establish eligibility for a single handling fee payment by submitting the following information monthly in writing:
- (1) The certification numbers and addresses of the locations where receipt and/or log transactions are to be combined;
 - (2) The month and year of the transactions to be combined;
 - (3) The company name, address, contact person and business phone number, signed and dated by the contact person.
- (e) The additional information required in subdivision subsection-(d) shall be submitted no later than the fifth day of the first month following the reporting month. A rural region recycler that fails to provide this information by the date specified in this subdivision subsection shall not be eligible for a single handling fee payment based on combined monthly beverage container purchases from two or more of its convenience zone sites.
- (f) A rural region recycler shall submit a separate Handling Fee Application Form (Form DR-14 (1/00)) for each convenience zone site which is combined with one or more convenience zone sites to establish eligibility for a single handling fee payment.
