CalRecycle compiled this list of products from notices sent to CalRecycle by manufacturers pursuant to Public Resources Code (PRC) section 42466.2. This information was provided by manufacturers and questionsabout specific product determinations should be directed to manufacturers. By posting this list of products, CalRecycle does not endorse the accuracy of the list or confirm that these products are covered battery-embedded products (CBEPs) as defined in PRC section 42463(f). Also, this list may erroneously include devices that are not CBEPs such as products that are video display devices (as defined by PRC section 42463(g)(1)(A)), products that are a loose battery (as defined at PRC section 42420.1(d)), or products that are not considered covered electronic devices. Additionally, this list is not a complete list of all CBEPs as it is based upon the notices that manufacturers provided to CalRecycle. The absence of a CBEP from this list does not relieve a manufacturer's responsibility pursuant to PRC section 42466.2, or a retailer's obligation to collect the covered battery-embedded waste recycling fee on a CBEP from a consumer. This list is subject to change and will be updated periodically, and a listserv notice will be sent out.If a retailer is unsure, they are encouraged to contact the product manufacturer.
