

City of Whittier
Compliance Evaluation Findings Report
#23-1527

April 14, 2026

Report Summary

California Code of Regulations, Title 14, Division 7, Chapter 12 - Short-Lived Climate Pollutants

Article 3: Organic Waste Collection Services

Compliant

Noncompliant

Section 18984.1. Three-Container
Organic Waste Collection Services

None

Section 18984.4. Recordkeeping
Requirements for Compliance with
Organic Waste Collection Services

Section 18984.5. Container
Contamination Minimization

Section 18984.6. Recordkeeping
Requirements for Container
Contamination Minimization

Section 18984.7. Container Color
Requirements

Section 18984.8. Container Label
Requirements

Section 18984.11. Waivers Granted by a
Jurisdiction

Section 18984.14. Recordkeeping
Requirements for Waivers and
Exemptions

Article 4: Education and Outreach

Compliant

Noncompliant

Section 18985.1. Organic Waste Recovery Education and Outreach

None

Section 18985.2. Edible Food Recovery Education and Outreach

Section 18985.3. Recordkeeping Requirements for a Jurisdiction's Compliance with Education and Outreach Requirements

Article 7: Regulation of Haulers

Compliant

Noncompliant

Section 18988.1. Jurisdiction Approval of Haulers and Self-Haulers

None

Section 18988.4. Recordkeeping Requirements for Compliance with Jurisdiction Hauler Program

Article 8: CALGreen Building Standards and Model Water Efficient Landscape Ordinance

Compliant

Noncompliant

Section 18989.1. CALGreen Building Codes

None

Section 18989.2. Model Water Efficient Landscape Ordinance

Article 9: Locally Adopted Standards and Policies

Compliant

Noncompliant

Section 18990.1. Organic Waste Recovery Standards and Policies

None

Section 18990.2. Edible Food Recovery Standards and Policies

Article 10: Jurisdiction Edible Food Recovery Programs, Food Generators, and Food Recovery

Compliant	Noncompliant
------------------	---------------------

Section 18991.1. Jurisdiction Edible Food Recovery Program	None
--	------

Section 18991.2. Recordkeeping Requirements for Jurisdiction Edible Food Recovery Program

Article 11: Organic Waste Recycling Capacity Planning

Compliant	Noncompliant
------------------	---------------------

Section 18992.1. Organic Waste Recycling Capacity Planning	None
--	------

Section 18992.2. Edible Food Recovery Capacity

Article 12: Procurement of Recovered Organic Waste Products

Compliant	Noncompliant
------------------	---------------------

Section 18993.2. Recordkeeping Requirements for Recovered Organic Waste Procurement Target	Section 18993.1. Recovered Organic Waste Product Procurement Target
--	---

Section 18993.3. Recycled Content Paper Procurement Requirements

Section 18993.4. Recordkeeping Requirements for Recycled Content Paper Procurement

Article 13: Reporting

Compliant	Noncompliant
------------------	---------------------

Section 18994.1. Initial Jurisdiction Compliance Report	None
---	------

Section 18994.2. Jurisdiction Annual Reporting

Article 14: Enforcement Requirements

Compliant

Noncompliant

Section 18995.1. Jurisdiction Inspection Requirements

None

Section 18995.2. Implementation Record and Recordkeeping Requirements

Section 18995.3. Jurisdiction Investigation of Complaints of Alleged Violations

Article 16: Administrative Civil Penalties

Compliant

Noncompliant

Section 18997.1. Scope

None

Public Resources Code, Division 30, Part 3, Chapters 12.8 and 12.9

Mandatory Commercial Organics Recycling

The City of Whittier is implementing a Mandatory Commercial Organics Recycling program.

Mandatory Commercial Recycling

The City of Whittier is implementing a Mandatory Commercial Recycling program.

Public Resources Code, Division 30, Part 2

Source Reduction and Recycling Element

The City of Whittier is implementing a Residential Diversion program, Commercial Diversion program, Construction and Demolition Debris program, Recycled Content Procurement program, and Education and Outreach program.

Household Hazardous Waste Element

The City of Whittier is implementing a Household Hazardous Waste Element program.

Overview

Review Process

The Department of Resources Recycling and Recovery's (CalRecycle) Jurisdiction and Agency Compliance and Enforcement Branch (JACE) is required to conduct a compliance evaluation [California Public Resources Code (PRC) Section 41821(h) and Title 14 of the California Code of Regulations (14 CCR) Section 18996.1] of the City of Whittier's (Jurisdiction) implementation of and compliance with:

- Short-Lived Climate Pollutants (SLCP) (14 CCR sections 18981.1 through 18998.4)
- Mandatory Commercial Organics Recycling (MORe) (PRC sections 42649.8 through 42649.87)
- Mandatory Commercial Recycling (MCR) (PRC sections 42649 through 42649.7 and 14 CCR sections 18835 through 18839)
- Source Reduction and Recycling Element (SRRE) (PRC sections 41000 through 41460)
- Household Hazardous Waste Element (HHWE) (PRC sections 41500 through 41516)

JACE's compliance evaluation reviewed the Jurisdiction's waste diversion program implementation, using available information from the Jurisdiction's Implementation Record, Electronic Annual Report (EAR), CalRecycle databases, and communications between CalRecycle and the Jurisdiction. The compliance evaluation included, but was not limited to:

- Communications with the Jurisdiction (phone calls, emails, and letters) to learn about the community and program implementation efforts.
- Field evaluations of the Jurisdiction's residential, commercial, edible food, and procurement programs.
- Observing and evaluating the Jurisdiction's material loads at respective facilities.

JACE did not evaluate SLCP requirements that became effective on January 1, 2024, as the compliance evaluation was for the years prior to the date that the requirements became effective. These requirements include inspections of Tier Two commercial edible food generators [14 CCR Section 18995.1(a)(2)] and enforcement actions [14 CCR sections 18995.1(a)(5) and 18995.4].

Communication and Compliance Evaluation Timeline

The Jurisdiction was notified on April 3, 2023, by letter (Attachment 1) that a compliance evaluation would be conducted by JACE to determine the status of the Jurisdiction's implementation of programs designed to divert organics and edible food from landfills. Photographic evidence from observations on field visit is included in the Photo Report (Attachment 3).

- On April 17, 2023, JACE sent a letter (Attachment 2) to request access to the Jurisdiction's Implementation Record by May 1, 2023.

- On April 26, 2023, JACE staff accessed the Implementation Record.
- On January 24 – 25, 2024, and April 8, 2025, JACE staff conducted field visits. JACE staff observed residential containers in the neighborhoods on Floral Drive, Newlin Avenue, and Groveland Avenue and commercial containers on Whittier Boulevard, Washington Boulevard, and Lambert Road. Additionally, residential and commercial waste loads from gray, blue, and green containers were observed.
- On January 14, 2026, JACE staff sent the draft Compliance Evaluation Findings Report to the Jurisdiction.
- On January 16, 2026, the Jurisdiction provided additional information regarding program implementation.
- Additional communications and other interactions that took place with the Jurisdiction throughout the compliance evaluation, which included phone calls and email messages, site visits, and meetings.

Existing Jurisdiction Conditions

The City of Whittier is in Los Angeles County. According to the 2020 U.S. Census Bureau, the Jurisdiction encompasses 14.64 square miles. The Jurisdiction has an estimated population of 87,850 (California Department of Finance, 2025). According to the Jurisdiction’s base year history (1990), 65 percent of the Jurisdiction’s total waste generation is from the residential waste stream and 35 percent from the non-residential waste stream.

Summary of Jurisdiction’s Solid Waste Infrastructure and Materials Flow

Through the Jurisdiction’s website, Jurisdiction interviews, Implementation Record, and EAR, it was determined that the Jurisdiction has a three-container collection service. Gray, blue, and green container waste are collected by Republic Services and Athens Services.

Materials collected in the Jurisdiction are taken to one of four (4) facilities:

1. Bel-Art Recycling Center
2. Puente Hills Materials Recovery Facility
3. Athens Valley Materials Recovery Facility
4. Savage Canyon Landfill

Gray container waste picked up by the haulers is taken to Savage Canyon Landfill.

Blue container waste picked up by the haulers is taken to the Athens Valley Material Recover Facility and the Bel-Art Recycling Center.

Green container waste picked up by the haulers is taken to Puente Hills Materials Recovery Facility and Athens Valley Materials Recovery Facility and processed at the Savage Canyon Landfill.

Residents and commercial generators may self-haul waste for recycling and disposal.

Self-haulers may drop off all material types at Puente Hills Materials Recovery Facility or the Athens Valley Materials Recovery Facility.

The Jurisdiction does not provide mixed waste organic collection and reported that it does not use a High Diversion Organic Waste Processing Facility (HDOWPF).

Short-Lived Climate Pollutants (SLCP) Regulation Evaluation

General Provisions

14 CCR Section 18981.2. Implementation Requirement on Jurisdictions

See Table 1 below for specific information on ordinances, enforceable mechanisms, and other requirements.

Table 1

Program Requirements	Findings
Adopted enforceable ordinance(s) or mechanism(s) to mandate compliance with SLCP requirements. [18981.2(a)]	See details in the Articles below regarding enforceable ordinances or mechanisms to mandate compliance with SLCP requirements.
Designations of responsibilities made through contracts or agreements. [18981.2(b)]	The Jurisdiction provided evidence demonstrating that responsibilities are designated through contracts and agreements.
Civil penalties not designated to a private entity. [18981.2(d)]	The Jurisdiction provided evidence demonstrating that civil penalties are not designated to a private entity.
Copies of designee agreements and contracts included in the Implementation Record. [18981.2(e)]	The Jurisdiction provided evidence of designee agreements and contracts.

Article 3: Organic Waste Collection Services

14 CCR Section 18984.1. Three-Container Organic Waste Collection Services

Finding: Compliant

The Jurisdiction has fully implemented a three-container collection service for both residential and commercial generators. The Jurisdiction's Implementation Record contains evidence that 18,996 residential generators and 3,432 commercial generators are subscribed to a three-container collection service and zero (0) residential or commercial generators are noncompliant with the Jurisdiction's collection service requirements.

14 CCR Section 18984.4. Recordkeeping Requirements for Compliance with Organic Waste Collection Services

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18984.4.

14 CCR Section 18984.5. Container Contamination Minimization

Finding: Compliant

The Jurisdiction's Implementation Record and 2023 EAR indicates that route reviews are conducted for container contamination minimization. The Jurisdiction provided documentation to show that route reviews are being conducted.

14 CCR Section 18984.6. Recordkeeping Requirements for Container Contamination Minimization

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18984.6.

14 CCR Section 18984.7. Container Color Requirements

Finding: Compliant

The Jurisdiction provides new containers that meet the container color requirements. JACE staff observed new containers distributed to generators that meet the color container requirements.

14 CCR Section 18984.8. Container Labeling Requirements

Finding: Compliant

The Jurisdiction provides new containers that meet the container labeling requirements. JACE staff observed new containers distributed to generators that meet the container labeling requirements.

14 CCR Section 18984.11. Waivers Granted by a Jurisdiction

Finding: Compliant

The Jurisdiction's Implementation Record contains a written description of how waivers will be issued and validated.

The Jurisdiction reported that 337 de minimis waivers and 380 physical space waivers were issued.

14 CCR Section 18984.13. Emergency Circumstances, Abatement, Quarantined Materials and Federally Regulated Waste

Finding: Not Applicable

The Jurisdiction has not reported issuing emergency processing facility temporary equipment or operational failure waivers. The Jurisdiction has also not reported sediment debris disposal, homeless encampment or illegal disposal cleanup, or quarantined organic waste that was disposed of, which would require documentation.

14 CCR Section 18984.14. Recordkeeping Requirements for Waivers and Exemptions

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18984.14.

Article 3 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that residential and commercial generators are provided a three-container collection service. The Jurisdiction reported 5,343 route reviews conducted. The Jurisdiction reported 337 de minimis waivers and 380 physical space waivers were issued.

Article 4: Education and Outreach

14 CCR Section 18985.1. Organic Waste Recovery Education and Outreach

Finding: Compliant

The Jurisdiction has provided evidence demonstrating compliance with organic waste recovery education and outreach requirements.

14 CCR Section 18985.2. Edible Food Recovery Education and Outreach

Finding: Compliant

The Jurisdiction provided evidence demonstrating compliance with edible food recovery education and outreach requirements.

14 CCR Section 18985.3. Recordkeeping Requirements for a Jurisdiction's Compliance with Education and Outreach Requirements

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18985.3.

Article 4 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that 31,735 generators received SLCP outreach materials through print, 35,345 generators received SLCP outreach materials through electronic media, and 721 generators received SLCP material through direct contact. The Jurisdiction also reported that 1,110 edible food generators received SLCP outreach materials through print, 85 edible food generators received SLCP outreach materials through electronic and 676 edible food generators received SLCP outreach materials through direct contact.

The Jurisdiction reported that phone calls, emails and site visits were done with every generator, and SLCP information was disseminated at several community events. Each education piece described the reasoning behind the law, how each commodity should be disposed, and what to expect in terms of contamination monitoring. The Jurisdiction maintains a detailed webpage to highlight information on the SLCP program as well as links and resources on other environmental programs.

Article 7: Regulation of Haulers

14 CCR Section 18988.1. Jurisdiction Approval of Haulers and Self-Haulers

Finding: Compliant

The Jurisdiction provided evidence of franchise agreements with Republic Services and Athens Services that meet the requirements. The Jurisdiction also allows self-hauling.

14 CCR Section 18988.4. Recordkeeping Requirements for Compliance with

Jurisdiction Hauler Program

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18988.4.

Article 7 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that two (2) haulers are approved to collect organic waste.

Article 8: CALGreen Building Standards and Model Water Efficient Landscape Ordinance

14 CCR Section 18989.1. CALGreen Building Codes

Finding: Compliant

A CALGreen ordinance was adopted and provided by the Jurisdiction.

14 CCR Section 18989.2. Model Water Efficient Landscape Ordinance

Finding: Compliant

A Model Water Efficient Landscape Ordinance (MWELO) was adopted and provided by the Jurisdiction.

Article 8 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that there was one (1) CALGreen project and four (4) MWELO projects.

Article 9: Locally Adopted Standards and Policies

14 CCR Section 18990.1. Organic Waste Recovery Standards and Policies

Finding: Compliant

No ordinance, policy, procedure, permit condition, or initiative that includes provisions listed in Section 18990.1(b)(1) – (5) were discovered during the evaluation.

14 CCR Section 18990.2. Edible Food Recovery Standards and Policies

Finding: Compliant

No ordinance, policy, or procedure that prohibits the ability of a generator, food recovery organization, or food recovery service to recover edible food that could be recovered for human consumption were discovered during the evaluation. No ordinance, policy, or procedure that prohibits share tables or requires schools to adhere to a food safety standard not specified in Part 7 of Division 104 of the Health and Safety Code were discovered during the evaluation.

Article 10: Jurisdiction Edible Food Recovery Programs, Food Generators, and Food Recovery

14 CCR Section 18991.1. Jurisdiction Edible Food Recovery Program

Finding: Compliant

The Jurisdiction provided evidence that an edible food recovery ordinance has been adopted, and an edible food recovery program has been implemented.

14 CCR Section 18991.2. Recordkeeping Requirements for Jurisdiction Edible Food Recovery Program

Finding: Compliant

The Jurisdiction's Implementation Record contains all records required by 14 CCR Section 18991.2.

Article 10 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported 32 commercial edible food generators and 10 food recovery organizations and services.

Article 11: Organic Waste Recycling Capacity Planning

14 CCR Section 18992.1. Organic Waste Recycling Capacity Planning

Finding: Compliant

The Jurisdiction is part of Los Angeles County's organic waste recycling capacity planning and was not identified by Los Angeles County as needing to submit an implementation schedule.

14 CCR Section 18992.2. Edible Food Recovery Capacity

Finding: Compliant

The Jurisdiction is part of Los Angeles County’s edible food recovery capacity planning and was not identified by Los Angeles County as needing to submit an implementation schedule.

14 CCR Section 18992.3. Schedule for Reporting

Finding: Not Applicable

The Jurisdiction was not identified as needing to submit an implementation schedule.

Article 11 County Capacity Planning Report

The Jurisdiction was not identified in Los Angeles’s 2022 – 2024 Capacity Planning report as needing to submit an implementation schedule to CalRecycle.

Article 12: Procurement of Recovered Organic Waste Products

14 CCR Section 18993.1. Recovered Organic Waste Product Procurement Target

Finding: Noncompliant

The Jurisdiction did not meet the Recovered Organic Waste Product (ROWP) procurement target. The Jurisdiction has a procurement target of 6,896 ROWP tons. The Jurisdiction provided documentation that it procured 3,448 ROWP tons in 2025.

See Table 2 below for details on the Jurisdiction’s recovered organic waste procurement requirements.

Table 2

Program Requirements	Compliance	Findings
Annually procured a quantity of recovered organic waste products that meets or exceeds annual recovered organic waste product procurement target. [18993.1(a)]	No	The Jurisdiction provided evidence of having procured 3,448 ROWP tons through the procurement of compost, which accounts for 50 percent of the procurement target.

<p>Has an enforceable ordinance or mechanism that requires mulch procured by the jurisdiction to meet standards specified in 14 CCR Section 17852(a)(24.5)(A)1. through 3. [18993.1(f)(4)(A)]</p>	<p>Yes</p>	<p>The Jurisdiction provided evidence of a mulch ordinance.</p>
---	-------------------	---

14 CCR Section 18993.2. Recordkeeping Requirements for Recovered Organic Waste Procurement Target

Finding: Compliant

The Jurisdiction’s Implementation Record contains all records required by 14 CCR Section 18993.2.

14 CCR Section 18993.3. Recycled Content Paper Procurement Requirements

Finding: Compliant

The Jurisdiction provided evidence that paper products and printing and writing paper procured pursuant to Public Contract Code 22150 - 22154 contain the minimum recycled content requirements and are recyclable.

14 CCR Section 18993.4. Recordkeeping Requirements for Recycled Content Paper Procurement

Finding: Compliant

The Jurisdiction’s Implementation Record contains all records required by 14 CCR Section 18993.4.

Article 12 Electronic Annual Report Findings

The Jurisdiction has a procurement target of 6,896 ROWP tons. In the 2023 EAR, the Jurisdiction reported procuring 1,111.59 ROWP tons.

Article 13: Reporting

14 CCR Section 18994.1. Initial Jurisdiction Compliance Report

Finding: Compliant

The Jurisdiction submitted the initial jurisdiction compliance report on time.

14 CCR Section 18994.2. Jurisdiction Annual Reporting

Finding: Compliant

The Jurisdiction submitted the EARs on time for the period reviewed for this compliance evaluation.

Article 13 Electronic Annual Report Findings

The Jurisdiction submitted the EARs on time for the period reviewed for this compliance evaluation.

Article 14: Enforcement Requirements

14 CCR Section 18995.1. Jurisdiction Inspection Requirements

Finding: Compliant

The Jurisdiction provided evidence that all requirements in 14 CCR Section 18995.1 have been met.

14 CCR Section 18995.2. Implementation Record and Recordkeeping Requirements

Findings: Compliant

The Jurisdiction provided evidence that all requirements in 14 CCR Section 18995.2 have been met. Recordkeeping findings for specific regulations can be found in the above and below sections.

14 CCR Section 18995.3. Jurisdiction Investigation of Complaints of Alleged Violations

Finding: Compliant

The Jurisdiction provided evidence that procedures are in place for the receipt and investigation of complaints and provided the information required to be submitted for a complaint. The Jurisdiction reported not yet receiving any complaints.

14 CCR Section 18995.4. Enforcement by a Jurisdiction

The compliance evaluation for the Jurisdiction took place prior to January 1, 2024, when this requirement became effective.

Article 14 Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that zero (0) complaints were received; therefore, zero (0) complaints were investigated.

Article 16: Administrative Civil Penalties

14 CCR Section 18997.1. Scope

Finding: Compliant

The Jurisdiction has adopted a Mandatory Organic Waste Disposal Reduction Ordinance that includes a requirement that they will impose penalties with the amounts consistent with 14 CCR Section 18997.2.

Mandatory Commercial Organics Recycling (MORe)

PRC Section 42649.82

The Jurisdiction has implemented a Mandatory Commercial Organics Recycling program.

The Jurisdiction provided evidence that commercial businesses were notified of noncompliance.

See SLCP Article 3 sections above for more information.

MORe Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that out of 1,202 commercial businesses that are required to recycle organics, 119 are not recycling organics. This is a compliance rate of 90 percent. The Jurisdiction reported that the haulers have notified all commercial businesses and are actively working with commercial businesses not in compliance to get them into compliance via emails, phone calls, or site visits.

Mandatory Commercial Recycling (MCR)

PRC Section 42649.3 and 14 CCR Section 18838

The Jurisdiction has implemented a Mandatory Commercial Recycling program.

The Jurisdiction provided evidence that commercial businesses were notified of noncompliance.

See SLCP Article 3 section above for more information.

MCR Electronic Annual Report Findings

In the 2023 EAR, the Jurisdiction reported that out of 1,001 commercial businesses that are required to recycle, 53 are not recycling. This is a compliance rate of 94.7 percent. The Jurisdiction reported that the haulers have notified all commercial businesses and are actively working with commercial businesses not in compliance to get them into compliance.

Source Reduction Recycling Element Program (SRRE)

Residential Diversion Program

The Jurisdiction provided evidence to support the implementation of a residential diversion program. In addition to curbside collection programs, the Jurisdiction encourages residents to do backyard composting. There are four (4) thrift shops located in the Jurisdiction where residents can donate unwanted clothing and home goods instead of disposing. There is one (1) buy-back center located in the Jurisdiction with more located just outside the Jurisdiction.

The Jurisdiction reports the following organics are accepted in the green container: food waste, yard waste, food-soiled paper, non-soiled wood scraps, and other biodegradable plant materials.

The Jurisdiction reports that the following materials are accepted for recycling in the blue container: paper, cardboard, glass, metal, aluminum cans, and plastics.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 98 green containers and observed an average contamination rate of approximately 5 percent. At the April 8, 2025 field visit, JACE staff observed and evaluated one (1) residential green container waste load, which contained approximately 5 percent prohibited container contaminants.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 180 blue containers and observed an average contamination rate of approximately 15 percent. At the April 8, 2025 field visit, JACE staff observed and evaluated one (1) residential blue container waste load, which contained approximately 5 percent prohibited container contaminants.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 199 grey containers and observed an average of approximately 15 percent of divertible materials. At the April 8, 2025 field visit, JACE staff observed and evaluated one (1) residential grey container waste load, which contained approximately 30 percent divertible materials.

Commercial Diversion Program

The Jurisdiction provided evidence to support implementation of a commercial diversion program.

The Jurisdiction reports the following organics are accepted in the green container: food waste, yard waste, food-soiled paper, non-soiled wood scraps, and other biodegradable plant materials.

The Jurisdiction reports that the following materials are accepted for recycling in the blue container: paper, cardboard, glass, metal, aluminum cans, and plastics.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 18 green containers and observed an average contamination rate of approximately 5 percent. At the April 8, 2025 field visit, JACE staff observed and evaluated one (1) commercial green container waste load, which contained approximately 5 percent prohibited container contaminants.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 25 blue containers and observed an average contamination rate of approximately 10 percent. JACE staff were unable to observe a commercial blue container waste load to assess prohibited container contaminants due to time constraints.

At the January 24 – 25, 2024 field visit, JACE staff evaluated 54 grey containers and observed an average of approximately 15 percent of divertible materials. At the April 8, 2025 field visit, JACE staff observed and evaluated one (1) commercial grey container waste load, which contained approximately 25 percent divertible materials.

Construction and Demolition Debris

The Jurisdiction provided evidence to support the implementation of a construction and demolition (C&D) debris diversion program.

The Jurisdiction website lists drop-off locations for scrap metal, tires, and wood waste for recycling.

Recycled Content Procurement

The Jurisdiction provided evidence to support the implementation of a recycled content procurement program.

See SLCP Article 12 section above for more information.

Education and Outreach

The Jurisdiction provided evidence to support the implementation of an education and outreach program.

See SLCP Article 4 section above for more information.

Household Hazardous Waste Element Program (HHWE)

The Jurisdiction provided evidence to support the implementation of an HHWE program. The Jurisdiction provides door-to-door household hazardous waste collection. The Jurisdiction promotes the Los Angeles County sponsored free HHW/E-Waste collection events and the usage of the Los Angeles S.A.F.E Center. Information regarding the HHW program and what is accepted can be found on the Jurisdiction's website.
