Eligible Applicants

California Labor Code section 1782 prohibits a charter city from receiving state funding or financial assistance for construction projects if that charter city does not comply with Labor Code sections 1770–1782. If any applicants or participating entities are charter cities or Joint Powers Authorities that include charter cities, the lead participating entity must certify on the Detail tab of the application that Labor Code section 1782 does not prohibit any included charter city from receiving state funds for the project described in this application. If it is determined after award that an applicant or participating entity is a charter city prohibited from receiving state funds for this grant project, the grant will be terminated, and any disbursed grant funds shall be returned to CalRecycle.

Private entities must be authorized to conduct business in the State of California, by either being registered and in good standing with the California Secretary of State as a business located in California, registered as a foreign (out-of-state or out-of-country) business, or in the process of obtaining a business license issued by a California city, county, or city and county. Any subsidiaries, divisions, or affiliated businesses are considered part of the primary business entity for the purpose of applying for and receiving a grant award under the program. The business must be qualified to do business in California and be in good standing with all applicable California state agencies. A business is considered an "affiliated business" if it has at least one owner with a forty (40) percent or greater interest in another applicant's business.

Nonprofit private entities in addition to being registered and in good standing with the California Secretary of State, must also be registered and in good standing with the California Department of Justice, and appear on their Registry of Charities and Fundraisers. If a nonprofit entity is excluded from registering with the Department of Justice, proof must be provided with the application.

The grants are available to:

- California cities, counties, state agencies, and other local governmental entities.
- Special districts (e.g., recreational park districts).
- Public colleges and universities, and public K–12 school districts.
- Non-profit organizations (except private schools K–12) registered with the federal government under 501(c)3, (c)6, or (c)10 of the Internal Revenue Code.
- Qualifying Tribal Entities.
 - A Qualifying Tribal Entity is defined as a tribe, band, nation, or other organized group or community, residing within the borders of California, which:

Applications Guidelines and Instructions

Beverage Container Recycling Grant Program, RBC38 (FY 2026–27) and RBC39 (FY 2027-28)

1. is recognized for special programs and services provided by the United States because of the status of its members as Native Americans; or
 2. can establish that it is a government entity that meets the grant program's criteria.
- Joint Powers Authorities (JPA) as an eligible entity (where all the participating entities are otherwise eligible).

Note: Applicants that were awarded in the last two fiscal years (FY 2025–26 and FY 2024–25) from the eligible applicant pool will be excluded for eligibility.

- To find a listing of previous grant awards please use the [Grants by Grant Cycle report](https://www2.calrecycle.ca.gov/Funding/Grants/ByCycle) (<https://www2.calrecycle.ca.gov/Funding/Grants/ByCycle>).

Individual Application

An Individual Application is one in which a single eligible entity will be responsible for grant implementation. The applicant in an Individual Application will be responsible for the grant's performance and all related documentation. In addition, the applicant will be the only entity receiving any real or personal property purchased with grant funds.

Cooperative Application

Entities may join together in a Cooperative Application in which two or more eligible entities join together to implement the grant. A Lead Participant must be designated to act on behalf of all Non-Lead Participants. The Lead Participant is the entity that will be responsible for the performance of the grant and all required documentation. All Non-Lead Participants are considered applicants and will be grantees should the application be awarded. CalRecycle will direct all official correspondence and grant payments to the Lead Participant. The Lead Participant is responsible for reimbursing Non-Lead Participants' costs before submitting a payment request to CalRecycle. All entities involved with a cooperative application must execute a grant agreement.

Regional Application (Local Governments Only)

Local governments may join together in a Regional Application in which two or more eligible jurisdictions join together to implement the grant. A Regional Lead Participant must be designated to act on behalf of all Non-Lead Participants. The Lead Participant is the applicant, and if awarded, will be the grantee responsible for the performance of the grant and all required documentation. CalRecycle will direct all official correspondence and grant payments to the Lead Participant. If a jurisdiction is a Non-Lead Participant in a Regional Application, it may not apply individually.

Joint Powers Authority Application Requirements

Joint Powers Authorities (JPA) may submit a grant application as an individual applicant and must identify all JPA members as Non-Lead Participants in the application's Applicant/Participant Tab. A member of the JPA may not submit an Individual Application if that entity is also a member of an applicant JPA. In addition to the requirements for an Individual Application, a JPA must upload a copy of its JPA Agreement.

The JPA Agreement must:

1. Give authority over solid waste management.
2. List all member entities.
3. Contain the signatures of all members.

Eligible Projects/Products

CalRecycle is seeking projects that implement new programs or enhance existing programs to provide convenient beverage container recycling opportunities in various locations statewide. Eligible projects include:

- Multi-family residential dwellings (five units or more).
- Public colleges/universities, non-profit colleges/universities, and public K–12 school districts.
- Curbside Residential Program locations (excluding single stream).
- Community events including, but not limited to, those sponsored by local jurisdictions.
- Parks/recreational areas.
- Purchase of water refill stations, including installation, replacement of current infrastructure, plumbing, maintenance, additional attachments or modifications, and related educational and outreach activities/materials as eligible expenditures.
- Purchase of mobile water trailer bars, including replacement of filters, maintenance, additional attachments or modifications, reusable cups/refillable bottles utilized for and purchased/leased with the water trailer bars, and related educational and outreach activities/materials as eligible expenditures.
- Litter reduction and cleanup activities along the United States-Mexico border where the waste stream includes beverage containers that will be recycled.
 - Out of State beverage containers collected as part of the litter abatement and cleanup projects cannot be funded under this grant program.

Ongoing collection programs may include the following activities as a component of the grant project:

- Temporary Community events (i.e., recycling or collection events sponsored by local jurisdictions, Earth Day events).
- Drop-off, Collection Program, or Community Service Program.
- Education and Outreach related to beverage container recycling.

Note: Educational activities or materials (signage, flyers, curriculum, etc.) related to the beverage container recycling project are capped at 25 percent of the total grant award. Funding must be directly related to the collection, recycling, or source reduction of California Redemption Value (CRV) beverage containers and the overall program. If non-CRV materials are included in the grant, they are subject to proportional cost. For example: a request to purchase a three-bin system for composting, paper and CRV recycling, can only be funded at one third of the cost. A mixed recycling bin will be funded proportionately based on the CRV content of materials collected.

Available Funds

- \$ 1,500,000 is available for each grant cycle, fiscal year 2026–27 and 2027-28, subject to funding availability.
- Applicants must request at least the minimum amount of \$75,000.

Applications Guidelines and Instructions

Beverage Container Recycling Grant Program, RBC38 (FY 2026–27) and RBC39 (FY 2027-28)

- Applicants may request up to a maximum amount of \$275,000.
- For Regional/Collaborative/Cooperative applications: \$275,000 is the maximum amount a joint grant may request, subject to funding availability.

Grant Term

The Grant Term begins on the date that CalRecycle sends the Notice to Proceed email. The Grant Term ends on April 3, 2029 (RBC38 FY 2026-27) or April 2, 2030 (RBC39 FY 2027-28).

Refer to the Procedures and Requirements document for detailed information about requirements within the grant term.

Eligible and Ineligible Costs

Grantees may incur eligible costs only during the Grant Term. For detailed information about eligible and ineligible costs, refer to the Procedures and Requirements document.

Environmentally Preferable Purchases and Practices Policy Requirement

Consistent with CalRecycle's core values, CalRecycle requires all applicants to have or develop, adopt, and implement an Environmentally Preferable Purchasing and Practices (EPPP) Policy for their organizations.

Applicants must have an EPPP Policy before submitting their application and certify this fact on the Detail tab in the application. If applicants do not have an EPPP Policy before submitting their application, they must certify that a Policy will be adopted by the secondary due date on the Detail tab in the application.

Some additional practices that CalRecycle encourages organizations to include in their EPPP Policies are:

- Buildings and Grounds
 - All building and renovations follow the green building practices for design, construction, and operation, where appropriate, as described in the Leadership in Energy and Environmental Design [Green Building Rating System](https://www.usgbc.org/resources/leed-v4-building-design-and-construction-current-version) (<https://www.usgbc.org/resources/leed-v4-building-design-and-construction-current-version>).
- Continual Improvement
 - Training is provided for new and existing employees.
 - Organization regularly evaluates and/or improves implementation of EPPP policy.

Additional EPPP Policy resources may be found on the [CalRecycle Environmentally Preferable Purchasing \(EPP\) webpage](https://calrecycle.ca.gov/EPP/) (<https://calrecycle.ca.gov/EPP/>).

Note: In Regional/Cooperative Applications, the Lead and Non-Lead Participants will each need an EPPP Policy. If a Joint Powers Authority (JPA) applies, only the JPA needs an EPPP Policy.

Note: The EPPP Policy is an applicant's internal document. It is up to the discretion of the applicant regarding the format, CalRecycle does not provide a template. Do not upload the EPPP Policy to GMS.

AB 712 Land Use Restriction – Supermarket Site

Public Resources Code section 14583 prohibits CalRecycle from making any payments, grants, or loans to a city, county, or city and county, if the city, county, or city and county has adopted or is enforcing a land use restriction that prevents the siting or operation of a certified recycling center at a supermarket site. Assembly Bill 712 (Chapter 576, Statutes of 2011) was enacted on October 8, 2011, and added Public Resources Code section 14583, notwithstanding section 14581, to the California Beverage Container Recycling and Litter Reduction Act.

Questions and Answers Process

Questions regarding the application and its requirements must be emailed to BevContainerGrants@CalRecycle.ca.gov. CalRecycle must receive the questions by July 2, 2026, or the questions will not be accepted.

Applicants or interested parties may access the Questions and Answers web page from the Notice of Funds Available web page or from the application. CalRecycle may group similar or related questions by responding to them as one question, rewording questions for clarity, or removing identifying information from questions. CalRecycle may intermittently update the Questions and Answers web page during the Questions and Answers period and post all Questions and Answers approximately two weeks after the deadline. The posted Questions and Answers are subject to updates. It is the applicant's responsibility to check the Questions and Answers web page for the latest information.

Public Records Requests

CalRecycle's policy is to promptly make records requested by the public available in accordance with the laws governing disclosure of records and information to the public. In general, all records in the possession of a state agency are public records subject to disclosure unless a law provides that a particular kind of record or information is not a public record or is exempt or prohibited from disclosure.

Upon request, the entire contents of the submitted application are subject to public records requests. This may include contact information, project summary, uploaded documents, and scoring information. Public records may be requested from CalRecycle through the [California Public Records Act Requests web page](https://www2.calrecycle.ca.gov/Forms/ContactUs/PublicRecordsRequest/) (<https://www2.calrecycle.ca.gov/Forms/ContactUs/PublicRecordsRequest/>).

Confidentiality

The following describes the treatment of certain confidential or proprietary information under the California Public Records Act (Government Code 7920.000 et seq.) and related regulations. It also describes how questions are resolved on whether information is truly confidential, the legal protections for confidential information, and internal and program procedures to maintain confidentiality.

Confidential or Proprietary Information

Title 14 of the California Code of Regulations (14 CCR), [sections 17041–17046](https://www.calrecycle.ca.gov/Laws/Regulations/Title14/) (<https://www.calrecycle.ca.gov/Laws/Regulations/Title14/>), states that confidential or proprietary information shall include, but is not limited to:

- Personal or business-related financial data, customer client lists, supplier lists, and other information of a proprietary or confidential business nature provided by persons in applications, reports, returns, certifications, or other documents submitted to [CalRecycle], which, if released, would result in harmful effects on the person's competitive position.
- Tax information prohibited from disclosure, pursuant to the Revenue and Taxation Code.

Accordingly, appropriate documents submitted with an application that are clearly marked on each page, "confidential or proprietary information," will be treated by CalRecycle pursuant to the procedures set forth in 14 CCR sections 17041–17046. However, the law does not treat documents marked as "confidential or proprietary information" (such as sales brochures, promotional literature, and other general non-financial documents) as confidential if they do not fall within the categories of protected financial documents listed above.

What if there is a question about what is confidential?

If CalRecycle receives a request to disclose data claimed by the applicant to be confidential, CalRecycle would notify the applicant of the request and state that the documents were under review to determine whether information was correctly identified as "confidential." If there is a question as to whether specific information is confidential, CalRecycle would contact the person(s) identified in the application to provide a justification and statement as to why the information is confidential. The process for evaluating confidentiality claims is set forth in section 14 CCR 17046.

What procedures does CalRecycle have in place to ensure that confidential information is kept confidential?

Confidential or proprietary information will be evaluated and analyzed only by CalRecycle staff, kept confidential, and will be maintained with restricted access. Records no longer needed to provide the services offered under the grant program are periodically destroyed, when allowed by audit policies and state law.

Note: For Resolution, Letter of Commitment, Letter of Authorization, and Letter of Designation templates, refer to the [Resolution and Letter Examples](https://www.calrecycle.ca.gov/Funding/SampleDocs) (<https://www.calrecycle.ca.gov/Funding/SampleDocs>) web page. CalRecycle staff can answer questions about these documents or review your draft authorization documents to ensure they meet the grant program's requirements. You may email your draft authorization documents to grantassistance@calrecycle.ca.gov.

CalRecycle does not require Letters of Authorization for JPA applicants. A JPA applicant must still upload a Resolution as part of their application and list all JPA members as Non-Lead Participants on the Applicant/Participant tab.

Letter of Designation

CalRecycle requires a Letter of Designation (LOD) only when the Signature Authority identified in the approved Resolution or Letter of Commitment delegates their signature authority to another person. Once the Signature Authority has signed the document(s), upload the digitally signed document, or scan the wet signature and save it to GMS. Retain the original document for potential CalRecycle audits. Refer to the Audit Considerations Section of the Procedures and Requirements document for more information.

Grant Review and Award Process

Grant Application Review Process

After the application period closes, CalRecycle staff will review the applications for completeness and eligibility. Only complete applications will be considered for award. Applicants must receive a minimum score of 39 points to be considered for funding. Applicants will be evaluated and scored by a CalRecycle review panel based on the approved Scoring Criteria for the Beverage Container Recycling Grant Program, FYs 2026-27 and 2027-28. You can find the document on the Summary tab, in the Resources Document section of GMS.

Priority funding will be given to Tribal Entities and applicants with litter abatement projects along the United States-Mexico border. Applicants who meet the criteria will be given priority and will be considered for funding first.

Note: Out of State beverage containers collected as part of the litter abatement and cleanup projects cannot be funded under this grant program.

The evaluation committee may suggest modifications to the Budget and/or Work Plan.

Grant Award Process

For qualifying applications, CalRecycle staff will develop funding recommendations for the consideration and approval of CalRecycle's Director, or their designee; CalRecycle tentatively schedules this for January 2027. CalRecycle reserves the right to partially fund or fund individual phases of selected proposals, and CalRecycle may fund an amount less than requested.

CalRecycle reserves the right not to award grant funds under one or more cycles.
