Individual Application

An Individual Application is one in which a single eligible entity will be responsible for grant implementation. The applicant in an Individual Application will be responsible for the grant's performance and all related documentation. In addition, the applicant will be the only entity receiving any real or personal property purchased with grant funds.

Cooperative Application

Entities may join together in a Cooperative Application in which a local government and one or more other eligible entities join together to implement the grant. A Lead Participant must be designated to act on behalf of all Non-Lead Participants. The Lead Participant is the entity that will be responsible for the performance of the grant and all required documentation. All Non-Lead Participants are considered applicants and will be grantees should the application be awarded. CalRecycle will direct all official correspondence and grant payments to the Lead Participant. The Lead Participant is responsible for reimbursing Non-Lead Participants' costs before submitting a payment request to CalRecycle. All entities involved with a cooperative application must execute a grant agreement.

Regional Application (Local Governments Only)

Local governments may join together in a Regional Application in which two or more eligible jurisdictions join together to implement the grant. A Regional Lead Participant must be designated to act on behalf of all Non-Lead Participants. The Lead Participant is the applicant, and if awarded, will be the grantee responsible for the performance of the grant and all required documentation. CalRecycle will direct all official correspondence and grant payments to the Lead Participant. If a jurisdiction is a Non-Lead Participant in a Regional Application, it may not apply individually. The Lead Participant is responsible for reimbursing Non-Lead Participants' costs prior to submitting a payment request to CalRecycle. All entities involved with a cooperative application will be required to execute a grant agreement.

Joint Powers Authority Application Requirements

Joint Powers Authorities (JPA) may submit a grant application as an individual applicant and must identify all JPA members as Non-Lead Participants in the application's Applicant/Participant Tab. A member of the JPA may not submit an Individual Application if that entity is also a member of an applicant JPA. In addition to the

requirements for an Individual Application, a JPA must upload a copy of its JPA Agreement.

The JPA Agreement must:

1. Give authority over solid waste management.
2. List all member entities.
3. Contain the signatures of all members.

Eligible Projects

Establishing a regional pilot program that includes all of the following:

- Purchasing bins for the collection of empty glass beverage containers at restaurants and on-sale retail licensed establishments.

- Transportation of the empty glass beverage containers that are collected to a glass processing facility.

Project Requirements

The applicant must match the amount of any grant received from the grant program in an amount equal to or greater than the grant amount. Other funding received from CalRecycle is not eligible to be used as a match for this grant program. Any entity applying for funding for collection bins must have authorization letters from the locations where bins will be placed.

All projects must be located within California and service California-located businesses. Additionally, any material collected for all projects must not be mixed with other glass collected by Collection/Drop Off Programs or Community Services Programs.

All projects must include collection of empty glass beverage containers from five or more restaurants and on-sale retail licensed establishments licensed pursuant to the Alcoholic Beverage Control Act (Division 9, commencing with Section 2300, of the Business and Professions code) throughout one or more cities or counties in the State of California.

Refer to the Procedures and Requirements document for detailed information about requirements within the grant term.

Eligible and Ineligible Costs

Grantees may incur eligible costs only during the Grant Term. For detailed information about eligible and ineligible costs, refer to the Procedures and Requirements document.

Environmentally Preferable Purchases and Practices Policy Requirement

Consistent with CalRecycle's core values, CalRecycle requires all applicants to have or develop, adopt, and implement an Environmentally Preferable Purchasing and Practices (EPPP) Policy for their organizations.

Applicants must have an EPPP Policy before submitting their application and certify this fact on the Detail tab in the application. If applicants do not have an EPPP Policy before submitting their application, they must certify that a Policy will be adopted by the secondary due date on the Detail tab in the application.

Some additional practices that CalRecycle encourages organizations to include in their EPPP Policies are:

- Buildings and Grounds
 - All building and renovations follow the green building practices for design, construction, and operation, where appropriate, as described in the Leadership in Energy and Environmental Design [Green Building Rating System](https://www.usgbc.org/resources/leed-v4-building-design-and-construction-current-version) (<https://www.usgbc.org/resources/leed-v4-building-design-and-construction-current-version>).
- Continual Improvement
 - Training is provided for new and existing employees.
 - Organization regularly evaluates and/or improves implementation of EPPP policy.

Additional EPPP Policy resources may be found on the [CalRecycle Environmentally Preferable Purchasing \(EPP\) webpage](https://calrecycle.ca.gov/EPP/) (<https://calrecycle.ca.gov/EPP/>).

Note: In Regional/Cooperative Applications, the Lead and Non-Lead Participants will each need an EPPP Policy. If a Joint Powers Authority (JPA) applies, only the JPA needs an EPPP Policy.

Note: The EPPP Policy is an applicant's internal document. It is up to the discretion of the applicant regarding the format, CalRecycle does not provide a template. Do not upload the EPPP Policy to GMS.

Questions and Answers Process

Questions regarding the application and its requirements must be emailed to BevContainerGrants@CalRecycle.ca.gov. CalRecycle must receive the questions by October 1, 2026, or the questions will not be accepted.

Applicants or interested parties may access the Questions and Answers web page from the Notice of Funds Available web page or from the application. CalRecycle may group similar or related questions by responding to them as one question, rewording questions for clarity, or removing identifying information from questions. CalRecycle may intermittently update the Questions and Answers web page during the Questions and Answers period and post all Questions and Answers approximately two weeks after the deadline. The posted Questions and Answers are subject to updates. It is the applicant's responsibility to check the Questions and Answers web page for the latest information.

Public Records Requests

CalRecycle's policy is to promptly make records requested by the public available in accordance with the laws governing disclosure of records and information to the public. In general, all records in the possession of a state agency are public records subject to disclosure unless a law provides that a particular kind of record or information is not a public record or is exempt or prohibited from disclosure.

Upon request, the entire contents of the submitted application are subject to public records requests. This may include contact information, project summary, uploaded documents, and scoring information. Public records may be requested from CalRecycle through the [California Public Records Act Requests web page](https://www2.calrecycle.ca.gov/Forms/ContactUs/PublicRecordsRequest/) (<https://www2.calrecycle.ca.gov/Forms/ContactUs/PublicRecordsRequest/>). If the application contains restricted documents, the restricted documents are excluded from disclosure.

Confidentiality

The following describes the treatment of certain confidential or proprietary information under the California Public Records Act (Government Code 7920.000 et seq.) and related regulations. It also describes how questions are resolved on whether information is truly confidential, the legal protections for confidential information, and internal and program procedures to maintain confidentiality.

Confidential or Proprietary Information

Title 14 of the California Code of Regulations (14 CCR), [sections 17041–17046](https://www.calrecycle.ca.gov/Laws/Regulations/Title14/) (<https://www.calrecycle.ca.gov/Laws/Regulations/Title14/>), states that confidential or proprietary information shall include, but is not limited to:

- Personal or business-related financial data, customer client lists, supplier lists, and other information of a proprietary or confidential business nature provided by persons in applications, reports, returns, certifications, or other documents submitted to [CalRecycle], which, if released, would result in harmful effects on the person's competitive position.
- Tax information prohibited from disclosure, pursuant to the Revenue and Taxation Code.

Accordingly, appropriate documents submitted with an application that are clearly marked on each page, "confidential or proprietary information," will be treated by CalRecycle pursuant to the procedures set forth in 14 CCR sections 17041–17046. However, the law does not treat documents marked as "confidential or proprietary

information” (such as sales brochures, promotional literature, and other general non-financial documents) as confidential if they do not fall within the categories of protected financial documents listed above.

What if there is a question about what is confidential?

If CalRecycle receives a request to disclose data claimed by the applicant to be confidential, CalRecycle would notify the applicant of the request and state that the documents were under review to determine whether information was correctly identified as “confidential.” If there is a question as to whether specific information is confidential, CalRecycle would contact the person(s) identified in the application to provide a justification and statement as to why the information is confidential. The process for evaluating confidentiality claims is set forth in section 14 CCR 17046.

What procedures does CalRecycle have in place to ensure that confidential information is kept confidential?

Confidential or proprietary information will be evaluated and analyzed only by CalRecycle staff, kept confidential, and will be maintained with restricted access. Records no longer needed to provide the services offered under the grant program are periodically destroyed, when allowed by audit policies and state law.

If **not subject to a governing body or board approval is not required to legally bind the applicant**, applicants must submit a Letter of Commitment (LOC). Joint Powers Authority Agreement

Joint Powers Authorities (JPA) must upload a copy of their JPA Agreements, which gives the JPA authority to conduct the project, list all member entities, and contain the signatures of all members. CalRecycle does not require Letters of Authorization for JPA applicants. A JPA applicant must still upload a Resolution as part of their application and list all JPA members as Non-Lead Participants on the Applicant/Participant tab.

Letter of Designation

CalRecycle requires a Letter of Designation (LOD) only when the Signature Authority identified in the approved Resolution or Letter of Commitment delegates their signature authority to another person. The applicant must upload the LOD **before** the designee exercises their authority. If the designee signs an application document in place of the Signature Authority, the applicant must upload the LOD with their application.

The LOD must:

1. Be on Applicant's letterhead.
2. Reference the Authorizing Resolution by number (or by date adopted if not numbered).

3. Include the job title of the designee and the scope of the designee's authority.
4. Include the time period during which the designee may exercise the authority.
5. Be signed and dated by the Signature Authority.

The designee's authority may not extend beyond the effective date of the approved Resolution or Letter of Commitment. For example, if the Resolution is effective until December 31, 2026, the Letter of Designation may not be effective beyond December 31, 2026.

Electronic Signatures

CalRecycle requires a certified e-Signature or original wet signature on documents or forms that certify legally binding information.

Note: E-signatures must include the Signature Authority's first and last name, be in the Adobe Digital ID format (or through another certified digital signature program), and cannot be completed using Adobe's "Fill and Sign" function. Any document using the "Fill and Sign" function is considered incomplete and will be returned to the applicant.

Once the Signature Authority has signed the document(s), upload the digitally signed document, or scan the wet signature and save it to GMS. Retain the original document for potential CalRecycle audits. Refer to the Audit Considerations Section of the Procedures and Requirements document for more information.

Grant Review and Award Process

Grant Application Review Process

After the application period closes, CalRecycle staff will review the applications for completeness and eligibility. Only complete applications will be considered for award. Complete and eligible grant applications will be evaluated and scored by a review panel of CalRecycle staff based on the criteria outlined in the Increased Recycling of Empty Glass Beverage Containers Grant Program Scoring Criteria. An application may receive a maximum of 85 points possible. Applicants must receive a minimum passing score of 65 points to be considered for funding. Applications scoring less than 65 points will be disqualified. For more information, see the [Public Notice: Eligibility Criteria and Evaluation Process for the Increased Recycling of Empty Glass Beverage Containers Grant Program \(California Beverage Container Recycling Fund, FY2026-27\)](https://www2.calrecycle.ca.gov/PublicNotices/Details/7209). (<https://www2.calrecycle.ca.gov/PublicNotices/Details/7209>)

The top scoring application with a passing score will be recommended for funding. All remaining funds will be recommended to go to the next highest scoring project until all funds are expended. If funds are oversubscribed and there are multiple applicants with a tie, the project with the highest combined score from the Project Description section and the Project Readiness and Viability section will be used to determine funding order. If a tie persists, random selection will be used to determine the funding order.

Grant Award Process

For qualifying applications, CalRecycle staff will develop funding recommendations for the consideration and approval of CalRecycle's Director, or their designee; CalRecycle tentatively schedules this for February 2027. CalRecycle reserves the right to partially fund or fund individual phases of selected proposals, and CalRecycle may fund an amount less than requested.

CalRecycle reserves the right not to award grant funds under one or more cycles.

Grant Award Conditions

When awarded, this grant will be subject to two conditions:

1. The recommended grantee must pay all outstanding debts due to CalRecycle, or bring current outstanding payments owed to CalRecycle, within 60 days of the award email date.
2. The recommended grantee's Signature Authority (or their delegated signature authority) must sign and return the Grant Agreement to CalRecycle. CalRecycle must receive the signed Grant Agreement within 60 days of the date of the award email.

Failure to comply with either condition will void the grant award.

Grant Program Administration

Payment Request Process

CalRecycle will retain 10 percent of each approved Payment Request amount until the Grant Manager approves the Final Report, the final Payment Request, and all required supporting documentation. The Procedures and Requirements document contains detailed payment information.

Advance Payment Request Process

Per Government Code, Section 11019.3, upon determining that an advance payment is essential for effective implementation of a program within the provisions of Section 11019.3, CalRecycle may advance up to 25 percent of the total grant award to either a private, nonprofit organization that qualifies under Section 501(c)(3) of the Internal Revenue Code, or a federally recognized Indian tribe whose territorial boundaries lie wholly or partially within the State of California, and any agencies, entities, or arms of the tribe, as applicable, either together or separately.
