PREFACE

Circular CRV Association ("Dealer Cooperative") is pleased to submit this Stewardship Plan to the California Department of Resources Recycling and Recovery ("CalRecycle"). This plan aligns with the requirements of the California Code of Regulations and the California Beverage Container Recycling and Litter Reduction Act ("Bottle Bill"), while introducing innovative, consumer-friendly, and sustainable solutions to expand CRV redemption access across the state.

Established in 2024 as a 501(c)(3) nonprofit entity, the Dealer Cooperative serves as the coordinating body on behalf of its participating grocer and retailer members ("Dealer Members"), ensuring compliance with California's CRV redemption mandates. By connecting grocers, recycling operators, and key stakeholders, the Dealer Cooperative works to establish a modern, efficient, and consumer-focused redemption network across California. The organization is governed by an unpaid Board of Directors composed of representatives from the grocery and retail industries, ensuring balanced oversight and alignment with both regulatory standards and community needs.

This Stewardship Plan has been prepared in compliance with Title 14, California Code of Regulations (14 CCR), Division 2, Chapter 5, including §§ 2375, 2375.2, 2375.4, 2375.6, 2375.8, and 2380. In accordance with 14 CCR § 2375(a)(1), this plan includes all required content and has been electronically submitted to CalRecycle per 14 CCR § 2375(a)(2), with the submission date serving as the official date of receipt. Additionally, as required by 14 CCR § 2375(a)(3), the plan is publicly accessible online via <http://www.circularcrv.com>.

To ensure equitable access for all stakeholders, this plan adheres to the standards outlined in 14 CCR § 2375(a)(4), including Government Code Section 7405 and the Web Content Accessibility Guidelines (WCAG) 2.0. Submission of this plan also constitutes a formal declaration of compliance by the Dealer Cooperative and its members with all applicable provisions of the Beverage Container Recycling and Litter Reduction Act and associated regulations, as required under 14 CCR § 2375(b).

This Stewardship Plan outlines a commitment to innovation, environmental stewardship, and consumer convenience, establishing the foundation for a sustainable, efficient, and equitable CRV redemption network that allows Dealers to comply with the provisions of the Act while advancing California's resource recovery and recycling goals.

PART I. INFORMATIONAL CONTENTS

STATUTORY CITATION

The following section provides a detailed overview of the requirements outlined in 14 CCR § 2375.2, which specifies the necessary informational contents of a Dealer Cooperative Stewardship Plan. These requirements ensure that stewardship plans are comprehensive, transparent, and compliant with the regulatory framework under the California Beverage Container Recycling and Litter Reduction Act.

Each subsection addresses specific elements essential to the effective administration, implementation, and oversight of the Dealer Cooperative's redemption program.

SECTION OVERVIEW

To ensure clarity and consistency, the elements of this section are organized and numbered in accordance with the "Model Dealer Cooperative Stewardship Plan" document issued by CalRecycle in November 2024.

1. Federal Tax Identification Number [14 CCR § 2375.2(a)]
2. Contact Information [14 CCR § 2375.2(b)]
3. Decision-Makers [14 CCR § 2375.2(c)]
4. 501(c)(3) Verification [14 CCR § 2375.2(d)]
5. Articles of Incorporation [14 CCR § 2375.2(e)]
6. Dealer Members [14 CCR § 2375.2(f)]
7. Unserved Convenience Zones [14 CCR § 2375.2(g)]
8. Processors and Recycling Centers [14 CCR § 2375.2(h)]
9. Redemption Sites [14 CCR § 2375.2(i)]
10. Fully Operational Timeline [14 CCR § 2375.2(j)]

1. FEDERAL TAX IDENTIFICATION NUMBER

The Federal Tax Identification Number, also known as an Employer Identification Number (EIN), assigned to the Dealer Cooperative is **99-3606002**.

2. CONTACT INFORMATION

Responsibility for submission and oversight of this Stewardship Plan on behalf of the Dealer Cooperative rests with:

Brian Phillips, Executive Director

Circular CRV Association

Mailing Address: 1005 12th Street Lower 1, Sacramento, CA 95814

Phone: (855) 278-2274

E-mail: info@circularcrv.com

3. DECISION-MAKERS

Persons responsible for decisions made on behalf of the Dealer Cooperative include the Executive Director and members of the Board of Directors:

Matthew Dodson, Chairman of the Board of Directors

Ron Fong, Board of Directors

Michel LeClerc, Board of Directors

Brian Phillips, Executive Director

4. 501(c)(3) NONPROFIT VERIFICATION

The Circular CRV Association is a 501(c)(3) not-for-profit Dealer-sponsored cooperative, established to facilitate and manage the collective efforts of participating Dealer Members in achieving California CRV redemption mandates. The Dealer Cooperative completed and filed IRS Form 1023 in October 2024 to request recognition of its tax-exempt status and is awaiting receipt of the IRS Determination Letter as of the date of this Stewardship Plan submission.

The submitted IRS Form 1023 is included as *Exhibit A* in the Appendix of this Stewardship Plan. Upon receipt of the IRS Determination Letter, it will be appended to this Stewardship Plan as *Exhibit A* in the Appendix.

5. ARTICLES OF INCORPORATION

The Dealer Cooperative filed its Articles of Incorporation as a not-for-profit corporation in the State of California on May 31, 2024. The file number for its Articles of Incorporation is 6208570. A copy of the filed Articles of Incorporation is included as *Exhibit B* in the Appendix of this Stewardship Plan.

6. DEALER MEMBERS

Dealer Members participate in the Dealer Cooperative to ensure their compliance with the Beverage Container Recycling and Litter Reduction Act. As of the submission date of this Stewardship Plan, the Dealer Cooperative consists of 243 Dealer Members, spanning both urban and rural communities across California providing broad geographic representation.

A comprehensive list of all participating Dealer Members, including each Dealer Member's registration number, is provided in *Exhibit C* in the Appendix. Additionally, the maps accompanying *Exhibit C* visually represents the geographic distribution of Dealer Members across the state.

As the Dealer Cooperative expands, any updates or additions to Dealer Members will be reflected in *Exhibit C* and the accompanying Dealer Member map, with changes communicated in accordance with CalRecycle requirements.

7. UNSERVED CONVENIENCE ZONES

A list of all unserved convenience zones in which the Dealer Cooperative will provide redemption is included as *Exhibit D* in the Appendix of this Stewardship Plan.

This list is accurate as of the date of submission for approval of this Stewardship Plan. Any changes to this list, including the addition of new unserved convenience zones where the Dealer Cooperative will provide redemption opportunities, will be updated and communicated as directed by CalRecycle.

8. PROCESSORS AND RECYCLING CENTERS

The Dealer Cooperative has established partnership agreements with certified recycling operators throughout the State of California to facilitate the redemption of CRV materials in compliance with applicable regulations. The Dealer Cooperative does not intend to independently ship CRV materials to processors or recycling centers. The Dealer Cooperative will rely on its certified recycling operator partners to manage the collection and shipping of CRV materials on its behalf.

Under the terms of these partnership agreements, all CRV materials collected by recycling operators on behalf of the Dealer Cooperative will be shipped exclusively to material processors certified by the State of California.

A list of certified recycler operators and corresponding certification numbers with whom the Dealer Cooperative has formal agreements is provided in *Exhibit E* in the Appendix of this Stewardship Plan. While the Dealer Cooperative does not dictate or oversee the specific destinations for CRV materials, *Exhibit F* in the Appendix lists the State-certified material processors and corresponding certification numbers to whom recycling operator partners may ship CRV materials collected on behalf of the Dealer Cooperative.

The listings in *Exhibit E* and *Exhibit F* are accurate as of the date of submission for approval of this Stewardship Plan. Any changes to these lists, including the addition of new recycling operators or materials processors associated with the Dealer Cooperative's operations, will be updated and communicated as directed by CalRecycle.

9. REDEMPTION SITES

The Dealer Cooperative's redemption network is designed to provide convenient, flexible, and accessible CRV redemption opportunities across California. Many Dealer Members have elected to host or support innovative redemption methods, as defined in 14 CCR § 2370(f), to expand consumer access to CRV redemption services. These redemption methods will be strategically placed to operate in or near the Dealer Member convenience zones, providing flexible and accessible redemption opportunities.

Redemption methods within the Dealer Cooperative network will include:

- Mobile recycling units
- Reverse vending machines (RVMs)
- Bag drop systems
- Kiosks
- Recycling depots

Dealer Members who will allow these redemption methods are identified in *Exhibit G*. Additionally, a series of maps included as part of *Exhibit G* visually represent regional maps, providing a more detailed view of specific geographic areas of the Dealer Cooperative's redemption network.

The list in *Exhibit G* and corresponding maps reflect all redemption sites as of the submission date of this Stewardship Plan. As the network expands, any updates or changes will be communicated as directed by CalRecycle.

10. FULLY OPERATIONAL TIMELINE

The Dealer Cooperative has developed a phased timeline for achieving full operational capacity following the approval of this Stewardship Plan by CalRecycle. This phased approach will ensure a structured and methodical deployment of sustainable redemption infrastructure that will meet consumer demand in unserved convenience zones.

Immediate Deployment (0–90 Days)

The first phase of deployment will focus on rapidly establishing redemption opportunities to address immediate needs in unserved convenience zones.

Within 60 days of Stewardship Plan approval, mobile recycling units will be deployed across most unserved convenience zones currently represented by the Dealer Cooperative to provide immediate redemption opportunities of all CRV materials for consumers.

Within 90 days of Stewardship Plan approval, the Dealer Cooperative anticipates deploying a modest number of traditional recycling kiosks to expand redemption opportunities within the Dealer Cooperative network where mobile recycling operations are not immediately available. The need to purchase, deliver, and properly permit these kiosks explains the additional time needed by the Dealer Cooperative to deploy these assets. Staffed by trained personnel, kiosks will provide a familiar and scalable redemption solution capable of accommodating all CRV-eligible materials.

Through the rapid deployment of mobile recycling and recycling kiosks, the Dealer Cooperative anticipates it will be able to provide CRV redemption opportunities for consumers in all unserved convenience zones where its Dealer Members operate within 90 days of Stewardship Plan approval.

Long-Term Deployment (12–18 Months)

The second phase of deployment will focus on establishing long-term, sustainable CRV redemption capacity and accessibility through the procurement and development of advanced recycling infrastructure and technology across California.

In particular, the Dealer Cooperative intends to employ innovative redemption infrastructure such as reverse vending machines, bag drops and recycling depots that will require significant capital investment for equipment procurement, site development, and operational readiness. Unlike mobile recycling units and recycling kiosks which can be deployed relatively quickly, these larger assets require careful planning and coordination with Dealer Members, recycling operator partners, property managers, and municipalities, as well as substantial resource allocation to ensure their long-term viability and success.

Considering these factors, the Dealer Cooperative anticipates gradually phasing in the redemption solutions outlined below:

- Within 12 months of Stewardship Plan approval, deployment of reverse vending machines and bag drops will begin. These solutions will provide consumers with highly convenient options for CRV redemption and will help recycling operator partners streamline their operations.
- Within 18 months of Stewardship Plan approval, the Dealer Cooperative expects to establish its first recycling depots to serve as high-capacity redemption centers. These depots will redeem, process, and store large volumes of CRV-eligible containers by employing a combination of innovative redemption solutions, thereby enhancing redemption opportunities in convenience zones while significantly improving operational efficiencies for recycling operator partners. Additional depot expansions are

planned to further augment the Dealer Cooperative's redemption capacity in the years following initial deployment.

The Dealer Cooperative is committed to transparency and accountability throughout the implementation process. Regular updates will be provided to CalRecycle, detailing the progress of infrastructure deployment and operational readiness, while any disruptions or delays will be promptly addressed. This phased approach reflects the Dealer Cooperative's commitment to implementing innovative and accessible CRV redemption solutions in a way that ensures long-term viability, operational success, and alignment with California's ambitious resource recovery goals.

PART II. SUBSTANTIVE CONTENTS

STATUTORY CITATION

The following section provides a detailed overview of the requirements outlined in 14 CCR § 2375.4, which specify the necessary substantive contents of a Dealer Cooperative Stewardship Plan. These requirements, established by CalRecycle, ensure that stewardship plans are comprehensive, transparent, and compliant with the regulatory framework under the California Beverage Container Recycling and Litter Reduction Act. Each subsection addresses specific elements essential to the effective administration, implementation, and oversight of the Dealer Cooperative's redemption program.

SECTION OVERVIEW

To ensure clarity and consistency, the elements of this section are organized and numbered in accordance with the Model Dealer Cooperative Stewardship Plan document issued by CalRecycle in November 2024.

11. Methods of Redemption [14 CCR § 2375.4(a)]
12. Education and Outreach [14 CCR § 2375.4(b)]
13. Dispute Resolution [14 CCR § 2375.4(c)]
14. Community Input [14 CCR § 2375.4(d)]
15. Consumer Convenience [14 CCR § 2375.4(e)]
16. Beverage Container Redemption [14 CCR § 2375.4(f)]

11. METHODS OF REDEMPTION

Pursuant to 14 CCR § 2375.4(a), the Dealer Cooperative will employ a diverse range of redemption methods throughout its network to provide convenient and innovative recycling opportunities, including:

- A. MOBILE RECYCLING
- B. REVERSE VENDING MACHINES (RVMs)
- C. BAG DROP SYSTEMS
- D. KIOSKS
- E. RECYCLING DEPOTS

These redemption methods are designed to complement one another, ensuring flexibility, increased convenience, and accessibility for consumers across California. By offering multiple avenues for CRV redemption, the Dealer Cooperative will meet or exceed the requirements outlined in PRC § 14578. This multi-faceted approach will increase visibility and awareness of CRV redemption opportunities for the consumer, lead to improved redemption rates, and will reduce waste, thereby diverting valuable materials from landfills and reinforcing California's environmental stewardship goals.

A. MOBILE RECYCLING

Mobile recycling is a key component of the Stewardship Plan, providing a scalable and flexible solution to rapidly deploy convenient CRV redemption opportunities on behalf of Dealer Members for consumers.

Mobile recycling units deliver fully equipped recycling and redemption services directly to convenience zones, addressing the challenges and inefficiencies of traditional fixed-location recycling centers, such as zoning restrictions, landlord acceptance, and high overhead costs. As a result, Dealer Members strongly support mobile recycling as a flexible and efficient solution.

Operated by State-certified recycling operator partners, these mobile units will provide scheduled redemption opportunities across multiple convenience zones. By maintaining a consistent schedule, they will encourage community-based recycling habits, promote long-term consumer behavior change, and expand CRV redemption accessibility.

Through its mobile recycling program, the Dealer Cooperative can immediately expand CRV redemption services into unserved convenience zones. Modeled after the successful CalRecycle-sponsored pilot programs in Culver City and Mendocino County, the Dealer Cooperative will partner with certified recycling operators to swiftly deliver flexible and efficient mobile recycling solutions that advance California's waste reduction goals and promote a circular economy.

A1. Operations and Awareness

The Dealer Cooperative's recycling operator partners will utilize bobtail trucks equipped to redeem all CRV-eligible material on a rotating schedule at Dealer Member locations in unserved convenience zones. The operating schedule, including locations, days, and times of operation, will be communicated through multiple channels:

- **Signage and printed resources** (e.g., on-site signage displayed at dealer entrances and redemption sites with operating hours, materials accepted and informational flyers and pamphlets, and QR codes that direct consumers to additional digital resources)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, e-mail newsletters, and general posts promoting CRV redemption, supported by a mobile-friendly website with location maps, FAQs, and other relevant information)

Mobile recycling units will operate up to seven (7) days a week, including weekends, and in different unserved convenience zones each day. The units will follow a fixed weekly rotating schedule to provide consistency to consumers in these zones. Hours of operation will range from morning to afternoon and will operate for a minimum of eight (8) hours per day to accommodate varied consumer schedules and needs.

To maximize community awareness and participation, the Dealer Cooperative will tailor outreach efforts specific to the needs of each community. Mobile units will display multilingual signage, including English, Spanish, and other commonly spoken languages in the convenience zones they serve. Additionally, QR codes linking to resources in several other languages will be available to further enhance accessibility.

The Dealer Cooperative will work with local stakeholders, including city and municipal public works departments and community organizations, to inform residents of mobile recycling program schedules and locations. Community feedback will play a vital role in refining deployment strategies, ensuring the program evolves to meet the diverse and changing redemption needs of California's population.

A2. Accepted Materials, Daily Limits, and Redemption Payments

All CRV-eligible beverage containers will be accepted at all mobile recycling redemption sites. To comply with regulatory requirements, containers must be clean, empty, and properly labeled with markings such as "CA Redemption Value" or "CA CRV," and will be subject to all other regulations governing redemption, including daily load limits, of CRV materials in accordance with 14 CCR § 2535(f).

CRV Payment Methods

Redemption amounts for segregated materials will be issued to consumers in accordance with CalRecycle's document, *California Recycling Program Rates, Table 1: Recycling Centers*. The Dealer Cooperative will ensure that recycling operators pay consumers on an individual container (one-for-one) basis, upon consumer request, for quantities of fifty (50) or fewer units of aluminum, glass, plastic, or bimetal containers, or twenty-five (25) or fewer units of bag-in-box, multilayered pouch, or paperboard carton containers.

Mobile recycling units will offer multiple CRV redemption payout options. In the near term, all mobile redemption locations will exclusively provide consumers an immediate cash payout for all redeemed CRV materials. In the longer term, the Dealer Cooperative will explore the viability of a uniform, secure digital wallet system across its entire redemption network as an additional offering.

As detailed in Section 15G of this Stewardship Plan, this digital wallet system would allow consumers to open and manage a secure digital wallet account via website or mobile app, enabling them to track balances, view transaction histories, and select their preferred payout method. In summary, consumers would have the following options for redemption from mobile recycling units:

- **Cash redemption** (e.g. consumers receive their CRV refund immediately in cash)
- **Accumulated digital payment** (e.g. consumers could accumulate their CRV refunds, enabling them to save funds and redeem larger amounts in the future, at their convenience)
- **Charitable donation** (e.g. consumers could donate CRV refunds to a verified charity and receive a donation receipt)
- **Debit card payments** (e.g., consumers could choose to have CRV refunds deposited onto a debit card, providing immediate access to funds for purchases or cash withdrawals at ATMs)

The Dealer Cooperative seeks to revitalize consumer participation in CRV redemption and recycling by introducing modern, flexible payout options and incentivized experiences that make redemption more convenient, rewarding, and accessible.

A3. Health and Safety Measures

The Dealer Cooperative will require its recycling operator partners to implement strong health and safety measures for its mobile recycling program in compliance with applicable federal, state, and local regulations to protect the well-being of staff and consumers. These measures include:

- Regular sanitization of equipment and mobile units to ensure cleanliness and reduce contamination risks.

- Mandatory provision and use of personal protective equipment (PPE) for all staff members.
- Ongoing training programs to ensure staff is fully informed of safety protocols and updated regulatory requirements.
- All other operating standards as defined by CalOSHA or other applicable guidelines.

A4. CRV Redemption Participation and Environmental Stewardship

Mobile recycling provides an immediately scalable solution to expand CRV redemption in unserved convenience zones by eliminating physical, regulatory, and logistical barriers that have historically restricted consumer access to traditional redemption services. By providing visible and convenient mobile recycling opportunities, consumers can actively participate in environmental stewardship while easily reclaiming their CRV deposits. Increased participation will lead to higher recycling rates, reduced landfill waste, and a stronger circular economy, ensuring the efficient reuse of valuable materials across California.

B. REVERSE VENDING MACHINES (RVMS)

Reverse vending machines (RVMS) will play a critical role in the Dealer Cooperative's redemption network. RVMS provide an efficient, automated redemption process by validating and processing CRV-eligible beverage containers on a one-for-one basis, ensuring accurate refunds with minimal consumer effort. To accommodate different redemption needs and volume demands, the Dealer Cooperative will deploy two types of RVMS:

Single-Feed RVMS

Single-feed reverse vending machines (RVMS) provide a simple and automated redemption solution, allowing consumers to deposit one CRV-eligible container at a time and receive an immediate refund. These machines are strategically placed in safe, high-traffic public areas, such as grocery store entrances, ensuring ideal visibility and convenience for the consumer. Equipped with advanced optical barcode scanning, sorting, and compaction technology, single-feed RVMS efficiently validate and process materials for recycling. They also compact aluminum, plastic, and, in some cases, glass, optimizing storage capacity and reducing transportation needs. While designed for low-to-moderate volume redemption, their precise one-unit validation process ensures accurate refunds and a seamless consumer experience.

Single-feed RVMS also provide operational flexibility, as they can be programmed to accept specific types and quantities of CRV-eligible containers based on community needs. This adaptability will enable the Dealer Cooperative to address anticipated coverage gaps within its network and implement tailored redemption solutions across different convenience zones. Equipped with real-time monitoring systems, single-feed RVMS track performance metrics, issue maintenance alerts, and generate activity reports. These features will allow the Dealer

Cooperative to maintain consistent service reliability, optimize operational efficiency, and proactively address any service disruptions across its network.

Several Dealer Members value the simplicity and practicality of these traditional RVMs. Their compact size allows Dealer Members to showcase a strong commitment to community and environmental responsibility while preserving a clean and attractive image for consumers. Once installed, single-feed RVMs provide a consistently visible, reliable, and accessible CRV redemption solution for consumers, making them an integral part of the Dealer Cooperative's comprehensive CRV redemption strategy.

Bulk-Feed RVMs

Complementing the deployment of single-feed RVMs, the Dealer Cooperative will introduce bulk-feed RVMs as a high-capacity, automated solution designed for convenience zones where higher redemption volumes are anticipated.

Unlike traditional RVMs, bulk-feed RVMs allow consumers to deposit large quantities of CRV-eligible containers in a single infeed. Advanced technology rapidly validates, sorts, and in some cases, compacts the material, providing a streamlined redemption process that significantly reduces wait times for consumers and maximizes storage efficiencies for recycling operators.

These machines are designed with simple and intuitive interfaces, ensuring a seamless and user-friendly experience. With deployment options for both indoor and outdoor mobile environments, bulk-feed RVMs offer the flexibility to address diverse community needs while supporting accessibility and convenience. Like single-feed RVMs, bulk-feed RVMs are equipped with real-time, digital management systems that monitor performance, issue maintenance alerts, and generate detailed activity reports, ensuring continuous operational reliability across the Dealer Cooperative network.

Bulk-feed RVMs will strengthen the Dealer Cooperative's ability to meet California's recycling demands by providing a high-capacity, automated, consumer-friendly solution. Together, these technologies form an innovative and adaptive infrastructure that both supports the modernization of CRV redemption for consumers and recycler operators, and delivers a sustainable, more efficient recycling network.

B1. Operations and Awareness

The Dealer Cooperative will partner with certified recycling operators to deploy, operate, and maintain RVMs in selected high-visibility locations, such as grocery store entrances, parking lots, and other high-traffic public areas to ensure reliable performance and cleanliness. Deployment will be tailored based on anticipated redemption demands, community needs, and optimized transportation routes for recycling operators to and from processing centers, with single-feed RVMs serving areas with steady, lower-volume activity and bulk-feed RVMs catering to high-demand locations.

- **Single-feed RVMs** typically have a lower holding capacity and will be monitored and serviced on a regular schedule to ensure minimal downtime. The Dealer Cooperative anticipates establishing redemption limits per customer, per day in accordance with 14 CCR § 2375.4(e) on single-feed RVMs in its network. Regular maintenance will focus on emptying storage bins, monitoring compaction units, and cleaning optical scanning and compaction systems to ensure operational efficiency and minimal downtime.
- **Bulk-feed RVMs** will be deployed in both fixed, in-building locations and mobile unit adaptations. In-building bulk-feed RVMs will be regularly serviced and maintained as part of the recycling operator's operational practices. Mobile units will similarly be maintained and will operate as a 'hub-and-spoke' model, with CRV material collected and transported to centralized processing sites for compaction and processing, as needed. Both configurations will be equipped with real-time digital management systems to monitor performance and issue maintenance alerts as needed.

To foster community engagement and awareness of RVM benefits, the Dealer Cooperative will work with recycling operator partners to implement targeted outreach strategies. These strategies will include:

- **Signage and printed resources** (e.g., on-site signage displayed at dealer entrances and redemption sites with operating hours, materials accepted and informational flyers and pamphlets, and QR codes that direct customers to additional digital resources)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, e-mail newsletters, and general posts promoting CRV redemption, supported by a mobile-friendly website with location maps, FAQs, and other information)
- **In-person demonstrations** (e.g., on-site staff and ambassadors at redemption locations to educate consumers on new redemption technology with live demonstrations, and distributing printed resources)

By integrating advanced technology, strategic deployment, and comprehensive community outreach, the Dealer Cooperative will ensure both single-feed and bulk-feed RVMs are effective, reliable, and consumer-friendly components of its CRV redemption network.

B2. Accepted Materials, Daily Limits, and Redemption Payments

Current single-feed RVMs available for deployment by the Dealer Cooperative are limited to acceptance of only CRV-eligible aluminum, glass, and PET-1 plastic bottles. These machines use either advanced optical barcode technology or artificial intelligence to verify that all redeemed materials are properly labeled with "CA Redemption Value" or "CA CRV" and comply with all regulatory redemption requirements.

To maintain operational efficiency and consistent uptime, the Dealer Cooperative may adjust material acceptance settings on certain single-feed RVMs. For example, some units may be

programmed to accept only aluminum and PET-1 plastic, excluding glass. In such cases, prominent signage will be placed on the RVM to direct consumers to the nearest location where other CRV-eligible containers can be redeemed.

Additionally, the Dealer Cooperative may implement daily load limits due to the limited holding capacity of certain RVM models. To ensure consumers have access to full redemption opportunities, the Dealer Cooperative will provide clear communication and alternative redemption options in accordance with 14 CCR § 2375.4(e).

CRV Payment Methods

Redemption amounts from single-feed and bulk-feed RVMs will be issued on a one-for-one basis to consumers and will offer multiple CRV redemption payout options. In the near term, all RVMs within the Dealer Cooperative's redemption network will use pre-installed payment software offered by the Dealer Cooperative's equipment manufacturing partners upon deployment. These interfaces will enable consumers to link their refunds to preferred digital payment methods, including Venmo, Zelle, or direct payment to a bank account. In the longer term, the Dealer Cooperative will explore the viability of a uniform, secure digital wallet system across its entire redemption network as an additional offering. Consumers would have the following options for redemption from RVMs:

- **Accumulated digital payment** (e.g. consumers could accumulate their CRV refunds, enabling them to save funds and redeem larger amounts in the future, at their convenience)
- **Charitable donation** (e.g. consumers could donate CRV refunds to a verified charity and receive a donation receipt)
- **Debit card payments** (e.g., consumers could choose to have CRV refunds deposited onto a debit card, providing immediate access to funds for purchases or cash withdrawals at ATMs)

By modernizing CRV redemption with secure, digital-first solutions, the Dealer Cooperative is focused on increasing consumer participation and streamlining the redemption process, making recycling more accessible, rewarding, and efficient.

B3. Health and Safety Measures

The Dealer Cooperative will require its recycling operator partners to implement comprehensive health and safety measures for its single and bulk-feed RVM machine network in compliance with applicable federal, state, and local regulations to protect the well-being of staff and consumers. These measures include:

- Regular sanitization of equipment to ensure cleanliness, reduce contamination risks, and present a clean, inviting machine for consumer use.

- Mandatory provision and use of personal protective equipment (PPE) for all staff members when servicing RVMs.
- Ongoing training programs to ensure staff are fully informed of safety protocols and updated regulatory requirements.
- All other operating standards as defined by CalOSHA or other applicable guidelines.

B4. CRV Redemption Participation and Environmental Stewardship

Integrating single-feed and bulk-feed RVMs into the Dealer Cooperative's redemption network will provide consumers with a highly visible, user-friendly CRV redemption option. By processing, sorting, and, when applicable, compacting materials, RVMs will streamline operations and improve efficiency for recycling operator partners. As an accessible and technology-driven solution, RVMs will expand redemption opportunities while empowering Californians to actively contribute to the State's circular economy and sustainability efforts.

C. BAG DROP SYSTEMS

The Dealer Cooperative intends to employ bag drop systems as a fundamental component of its near and long-term strategies to expand accessible, efficient, and convenient CRV redemption solutions for consumers.

Bag drop systems, which include physical drop-off sites and bag tracking software, allow consumers to use designated bags pre-printed with unique, scannable identifiers to deposit CRV materials at convenient locations or in specialized collection units without the need to wait for material processing. Recycling operators collect, verify, and process the contents of the bags later, crediting the appropriate CRV amount to the consumer upon completion.

This contactless approach offers unparalleled convenience to consumers by eliminating the wait time associated with traditional redemption methods. Many Dealer Members support installation of bag drop systems due to their practicality, as they can be placed in highly visible locations away from store entrances, function independently of store personnel, and minimize daily operational disruption. Recycling operators actively support the introduction of bag drop systems, as they enable the collection of large volumes of CRV material while significantly lowering the labor expenses incurred with managing a mobile recycling unit or traditional recycling kiosk.

Bag drop systems have the potential to significantly increase CRV redemption rates by reducing the time barriers associated with CRV redemption. Their scalability allows for seamless deployment alongside other CRV redemption solutions, functioning as part of a "hub-and-spoke" model. Bag drop systems not only increase consumer participation due to the convenience they offer but also collect and process higher volumes of CRV material when complementing or embedded into larger facilities, further enhancing the overall efficiency and capacity of the redemption network.

C1. Operations and Awareness

The Dealer Cooperative intends to partner with certified recycler operators to deploy and manage bag drop recycling systems and related software in unserved convenience zones. Bag drop systems will be strategically placed in highly visible locations to maximize consumer accessibility. To redeem CRV-eligible containers using bag drop systems and software within the Dealer Cooperative's network of redemption sites, a consumer can register an account via their smartphone and place CRV material in bags pre-printed with unique QR codes that link to their account. Once the consumer drops their material into the bag drop unit, recycling operators will retrieve the material, process it, and ensure the CRV refunds are credited to the consumer's digital account within three (3) business days. Transparency will be enhanced through the mobile application software that will allow consumers to track the acceptance and processing of their redemptions through their account.

The Dealer Cooperative will work with recycling operators to implement targeted outreach and education strategies to educate consumers on how to effectively use bag drop systems, minimize material contamination within their bags, and ensure smooth transaction processing. These strategies will include:

- **Signage and printed resources** (e.g., on-site signage displayed at dealer entrances and redemption sites with operating hours and materials accepted, informational flyers and pamphlets, and QR codes that direct customers to additional digital resources)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, e-mail newsletters, and general posts promoting CRV redemption, supported by a mobile-friendly website with location maps, FAQs, and other information)
- **In-person demonstrations** (e.g., on-site staff and ambassadors at redemption locations to educate consumers on setting up an account, demonstrating the convenience, and distributing printed resources)

As part of its commitment to advancing recycling infrastructure, the Dealer Cooperative is also exploring the integration of bag drop software at mobile recycling sites, kiosks, and eventually recycling depots. This hybrid model will combine the flexibility of mobile recycling with the convenience of bag drop systems, creating an innovative solution to enhance consumer engagement and efficiency. As with physical bag drop systems, consumers will be able to drop off CRV material at mobile recycling sites, kiosks, or recycling depots without having to wait in person for the material to be processed. Refunds for CRV materials dropped off at these sites will be credited to consumer accounts within three (3) business days.

The Dealer Cooperative believes that bag drop systems, whether deployed as physical units or integrated with other innovative methods of recycling, have the potential to drive significant incremental CRV redemption by simplifying and accelerating the CRV redemption process for consumers. Integrating bag drop as an additional method of redemption will enhance

consumer convenience, increase participation, and support California's goal of building a highly efficient recycling infrastructure.

C2. Accepted Materials, Daily Limits, and Redemption Payments

All CRV-eligible beverage containers will be accepted at all Dealer Cooperative bag drop locations, including those that may be integrated with other redemption methods. To comply with regulatory requirements, containers dropped by consumers will be verified during later processing to ensure they are clean, empty, and properly labeled with markings such as "CA Redemption Value" or "CA CRV." Material will be subject to all other regulations governing redemption, including daily load limits, of CRV materials in accordance with 14 CCR § 2535(f).

CRV Payment Methods

Redemption amounts for segregated materials by weight will be issued to consumers in accordance with CalRecycle's document, *California Recycling Program Rates*. Redemption amounts redeemed by the recycler operator using a bulk-feed RVM will be paid on a one-for-one basis. Consumers will be credited their redemption values within three (3) business days following bag drop-off through multiple CRV redemption payout options.

Bag drop systems will offer multiple CRV redemption payout options. In the near term, all bag drop units within the Dealer Cooperative's redemption network will use pre-installed payment software offered by the Dealer Cooperative's equipment manufacturing partners upon deployment. These interfaces will enable consumers to link their refunds to preferred digital payment methods, including direct payment to a bank account. In the longer term, the Dealer Cooperative will explore the viability of a uniform, secure digital wallet system across its entire redemption network as an additional offering. With this system, consumers would have the following options for redemption from bag drop systems:

- **Accumulated digital payment** (e.g. consumers could accumulate their CRV refunds, enabling them to save funds and redeem larger amounts in the future, at their convenience)
- **Charitable donation** (e.g. consumers could donate CRV refunds to a verified charity and receive a donation receipt)
- **Debit card payments** (e.g., consumers could choose to have CRV refunds deposited onto a debit card, providing immediate access to funds for purchases or cash withdrawals at ATMs)

By offering convenient, consumer-driven redemption methods and complying with the three (3) business day payment rule, the Dealer Cooperative aims to foster long-term consumer engagement and increased participation in CRV redemption efforts.

C3. Health and Safety Measures

The Dealer Cooperative will require its recycling operator partners to implement comprehensive health and safety measures for its bag drop systems in compliance with applicable federal, state, and local regulations to protect the well-being of staff and consumers. These measures include:

- Regular sanitization of equipment to ensure cleanliness, reduce contamination risks, and present a clean, inviting unit (where applicable) for consumer use.
- Mandatory provision and use of personal protective equipment (PPE) for all staff members when servicing any bag drop recycling unit.
- Ongoing training programs to ensure staff are fully informed of relevant safety protocols and updated regulatory requirements.
- All other operating standards as defined by CalOSHA or other applicable guidelines.

C4. CRV Redemption Participation and Environmental Stewardship

Bag drop systems and associated software solutions will significantly enhance CRV redemption rates by effectively eliminating the time barriers consumers typically associate with other types of recycling methods, and instead offer consumers a quick and convenient way to engage with CRV redemption. These systems will play a critical role in advancing California's circular economy by improving the consumer convenience, thereby promoting a stronger and more vibrant culture of recycling across the state.

D. KIOSKS

Recycling kiosks are specialized, fixed-location collection points designed to facilitate the collection and redemption of CRV-eligible beverage containers. The Dealer Cooperative plans to leverage this well-established and widely recognized CRV redemption solution, particularly at locations not directly paired with a Dealer Member's physical premises.

Originally designed to align with the State's efforts to improve recycling infrastructure, kiosks have proven to be a convenient and effective solution for consumers to redeem CRV deposits. Traditionally, kiosks have operated as fully staffed locations where consumers receive assistance with sorting, weighing, and processing their CRV materials. Recently, many kiosks have integrated innovative recycling methods, such as single-feed and bulk-feed RVMs, to enhance consumer engagement and streamline operations. The opportunity to further expand innovative recycling solutions within kiosk operations holds significant promise.

As a proven operating model, recycling kiosks have delivered accessible and reliable CRV redemption services to surrounding convenience zones for decades. Dealer Members, consumers, and CalRecycle have accumulated significant experience from kiosk operations, drawing valuable insights from both their successes and challenges. As a result, recycling

kiosks naturally align with the Dealer Cooperative's Stewardship Plan when enhanced with innovative technologies and operational improvements, reinforcing their role as a trusted element in California's recycling infrastructure.

D1. Operations and Awareness

The Dealer Cooperative is committed to building upon the well-established kiosk model by addressing past inefficiencies, improving operational standards, and providing consumers with an innovative, efficient, and modern experience. The Dealer Cooperative will partner with certified recycler operators with extensive experience in managing kiosks and identify optimal locations for kiosk sites. Reimagined kiosks will integrate multiple redemption methods, such as bag drop systems, single-feed and bulk-feed RVMs, and staffed assistance for material redeemed by weight to provide consumers with diverse and convenient options. The Dealer Cooperative will focus on opportunities to site kiosks in community locations beyond Dealer Member parking lots, ensuring broader geographic accessibility.

Recycling operator partners will be responsible for staffing, servicing, and sanitizing kiosk sites in compliance with the Dealer Cooperative's standards. Staffed kiosks will provide consumers with support for container validation, refund of CRV deposits, automation supervision, and recycling education. These kiosks will be designed for accessibility and ease of use, ensuring seamless integration into the communities they serve.

To enhance consumer engagement, the Dealer Cooperative will implement targeted outreach strategies in collaboration with recycler operators. These strategies will include:

- **Signage and printed resources** (e.g., on-site signage displayed at dealer entrances and redemption sites with operating hours, materials accepted and informational flyers and pamphlets, and QR codes that direct customers to additional digital resources)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, e-mail newsletters, and general posts promoting CRV redemption, supported by a mobile-friendly website with location maps, FAQs, and other information)
- **In-person demonstrations** (e.g., on-site staff and ambassadors at redemption locations to educate consumers on new redemption technology with live demonstrations, and distributing printed resources)

By blending innovative new technology and community outreach with a familiar but reimagined model, the Dealer Cooperative expects kiosks to continue to be an accessible, consumer-friendly, and vital part of CRV redemption infrastructure in convenience zones where they operate.

D2. Accepted Materials, Daily Limits, and Redemption Payments

All CRV-eligible beverage containers will be accepted at all kiosk locations. To comply with regulatory requirements, containers presented for redemption at kiosks by weight must be clean, empty, and properly labeled with markings such as "CA Redemption Value" or "CA CRV." Optical barcode identification technology used by single and bulk-feed RVMs will ensure that all materials redeemed are CRV-eligible. At kiosks where bag drop technology is deployed, containers deposited by consumers will be verified during processing to ensure they are clean, empty, and properly labeled. In all cases, material redeemed by consumers will be subject to all other regulations governing redemption, including daily load limits, of CRV materials in accordance with 14 CCR § 2535(f).

CRV Payment Methods

Redemption amounts for segregated materials redeemed by weight will be issued to consumers in accordance with CalRecycle's document, *California Recycling Program Rates*. The Dealer Cooperative will ensure that recycler operators pay consumers on an individual container (one-for-one) basis, upon consumer request, for quantities of fifty (50) or fewer units of aluminum, glass, plastic, or bimetal containers, or twenty-five (25) or fewer units of bag-in-box, multilayered pouch, or paperboard carton containers. The Dealer Cooperative anticipates recycler operators to require materials dropped off by consumers using bag drop software to be segregated by material type to be eligible to be processed by weight by the recycler operator.

Kiosks will offer multiple CRV redemption payout options. In the near term, all kiosk locations will exclusively provide consumers an immediate cash payout for all redeemed CRV materials, identical to the redemption process in use today. In the longer term, the Dealer Cooperative will explore the viability of a uniform, secure digital wallet system across its entire redemption network as an additional offering. With this system, consumers would have the following options for redemption from kiosks:

- **Cash redemption** (e.g. consumers receive their CRV refund immediately in cash)
- **Accumulated digital payment** (e.g. consumers could accumulate their CRV refunds, enabling them to save funds and redeem larger amounts in the future, at their convenience)
- **Charitable donation** (e.g. consumers could donate CRV refunds to a verified charity and receive a donation receipt)
- **Debit card payments** (e.g., consumers could choose to have CRV refunds deposited onto a debit card, providing immediate access to funds for purchases or cash withdrawals at ATMs)

By offering several convenient redemption options, the Dealer Cooperative intends to provide a flexible and incentivized kiosk experience to California consumers.

D3. Health and Safety Measures

The Dealer Cooperative will require its recycling operator partners to implement comprehensive health and safety measures for the kiosk network in compliance with applicable federal, state, and local regulations to protect the well-being of staff and consumers. These measures include:

- Regular sanitization of equipment to ensure cleanliness, reduce contamination risks, and present an inviting appearance for consumers.
- Mandatory provision and use of personal protective equipment (PPE) for all staff members, as applicable, when operating any equipment.
- Ongoing training programs to ensure staff are fully informed of safety protocols and updated regulatory requirements.
- All other operating standards as defined by CalOSHA or other applicable guidelines.

D4. CRV Redemption Participation and Environmental Stewardship

The inclusion of kiosks in the Dealer Cooperative's Stewardship Plan ensures that the extensive knowledge base surrounding their operation is effectively leveraged to maximize CRV redemption within the Dealer Cooperative's network. By incorporating innovative technologies such as bag drops and RVMs into a modern, reimagined kiosk model, the Dealer Cooperative aims to re-engage consumers who may have previously disengaged from CRV redemption due to the inefficiencies of traditional kiosks.

The flexibility to site kiosks outside Dealer Member parking lots further enhances their potential to drive consumer engagement by reaching more consumers. Through thoughtful, data-driven placement and targeted community outreach, the Dealer Cooperative will integrate kiosks into its network to expand CRV redemption opportunities into more unserved convenience zones. This approach will strengthen consumer participation and reinforce the Dealer Cooperative's mission to build a sustainable, inclusive, and efficient resource recovery system.

E. RECYCLING DEPOTS

Recycling depots are the cornerstone of the Dealer Cooperative's long-term sustainable CRV redemption strategy, representing a transformative step forward in California's recycling infrastructure. These next-generation, automated facilities embody the future of CRV redemption in California, aligning with the state's leadership in sustainability while addressing the need for modern solutions to meet California's ambitious circular economy goals.

Recycling depots are centralized collection and processing facilities designed to scale and efficiently process millions of beverage containers annually, making them an ideal solution for high-demand areas and geographic areas with a high number of unserved convenience zones. Depots offer the unique advantages of integrating traditional weigh-scale offerings as well as

new technologies, including single and bulk-feed RVMs and bag drop technology, into a single, space-optimized, consumer-focused location.

These ‘hubs’ deliver substantial cost savings for recycler operators by enhancing operational efficiency and sorting accuracy. With advanced automated counting, sorting, and compaction systems, recycling depots enable operators to efficiently accept and process very large numbers of CRV-eligible containers while significantly reducing the labor costs tied to traditional hand-sorting methods. Materials collected from surrounding mobile recycling units, bag drop units, and RVMs can be transported to and processed at these centralized anchor redemption centers, further enhancing operational efficiency. On-site crushing technology allows operators to process larger volumes of materials and minimize the frequency of trips to material processors, which directly lowers transportation expenses.

For consumers, recycling depots integrate and offer multiple convenient redemption options, including redemption by weight, single-feed RVMs, bulk-feed RVMs, and bag drop systems. Located in modern, clean, and optimized retail spaces within their communities, depots make CRV redemption more accessible, efficient, and consumer-friendly. By combining convenience with advanced operations, recycling depots improve the experience for consumers and recycler operators while supporting California’s CRV program goals.

Members of the Dealer Cooperative are highly supportive of recycling depots. This solution moves recycling operations indoors, thereby removing the image of an outdoor recycling solution from the Dealer Member’s parking area. Additionally, recycling depots can be sited off-premises from a Dealer location, freeing up valuable space and resources for the Dealer Member while ensuring compliance with CRV requirements without disrupting store operations. By centralizing recycling services through depots, the Dealer Cooperative can facilitate the ability for the Dealer Member to focus on their core business while supporting California’s recycling goals through efficient infrastructure.

Using state-of-the-art technology, depots can generate comprehensive aggregated data on recycled materials and identify data-driven patterns in product types and materials across specific geographic areas, offering actionable insights into recycling trends and consumer behavior. This valuable data will empower the Dealer Cooperative to support public agencies and private sector stakeholders in assessing recycling performance and identifying opportunities for improvement. By leveraging this innovative approach, recycling depots will strengthen the circular economy and advance shared sustainability goals.

By collaborating with diverse stakeholders across California's recycling and resource recovery sectors, the Dealer Cooperative envisions recycling depots as transformative hubs that redefine how Californians participate in CRV redemption. These depots will serve as high-visibility centers of innovation, delivering seamless consumer experiences that reignite the vision and excitement of California’s pioneering 1986 Bottle Bill. By offering a modern, consumer-friendly experience, these facilities will encourage repeat participation while streamlining operations for recycling operators, thereby advancing California's leadership in sustainable resource recovery.

E1. Operations and Awareness

The Dealer Cooperative is committed to laying a strong foundation for the expansion of recycling depots throughout California. By drawing on best practices and experiences gleaned from existing nationwide depot operators, including the newest facility in Fair Oaks, California, the Dealer Cooperative aims to establish best-in-class operational standards while delivering seamless service for consumers. These efforts focus on enhancing the interaction between Dealer Members, consumers, and depots, fostering a more accessible, user-friendly, and efficient CRV redemption experience.

The Dealer Cooperative will identify and partner with certified recycling operators with existing community ties to operate recycling depots throughout California. The Dealer Cooperative will work closely with these recycler operators to implement consumer-focused standards and resources available in languages spoken in the communities they are located, and protocols to manage and run these depots effectively. Recycling operator partners will be responsible for staffing, servicing, and maintaining these depots in compliance with the Dealer Cooperative's standards. Depot staff will provide consumers with support for redemption by weight, container validation using the various innovative technologies, refund of CRV deposits, automation supervision, and recycling education. These depots will be consistently maintained and designed for accessibility and ease of use, ensuring seamless integration into the communities they serve.

To enhance consumer engagement, the Dealer Cooperative will implement a targeted outreach and education initiative to build community awareness and support for new recycling depots. This initiative will include:

- **Signage and printed resources** (e.g., on-site signage displayed at dealer entrances and redemption sites with operating hours, materials accepted and informational flyers and pamphlets, and QR codes that direct customers to additional digital resources)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, e-mail newsletters, and general posts promoting CRV redemption, supported by a mobile-friendly website with location maps, FAQs, and other information)
- **In-person demonstrations** (e.g., on-site staff and ambassadors at redemption locations to educate consumers on new redemption technology with live demonstrations, and distributing printed resources)
- **Traditional media and earned media** (e.g., partnerships with local TV and radio stations for interviews and advertisements, direct mail campaigns to unserved convenience zones, and press releases to news outlets about milestones and initiatives)
- **Stakeholder partnerships** (e.g., collaborating with local governments, municipal agencies, and environmental organizations to enhance outreach through shared newsletters, public announcements, and coordinated web content)

- **Community events and charitable programs** (e.g., grand openings of redemption locations, facility tours for schools and residents, and CRV donation drives to local charities)

This comprehensive strategy ensures local participation and successful introduction of a recycling depot into the community, encouraging and sustaining its use by consumers.

E2. Accepted Materials, Daily Limits, and Redemption Payments

All CRV-eligible beverage containers will be accepted at all recycling depots. To comply with regulatory requirements, containers presented for redemption in a recycling depot by weight must be clean, empty, and properly labeled with markings such as "CA Redemption Value" or "CA CRV." Optical barcode identification technology used by single and bulk-feed RVMs will ensure that all materials redeemed are CRV-eligible. Where bag drop systems are deployed in a depot, containers redeemed by consumers will be verified during processing to ensure they are clean, empty, and properly labeled. In all cases, material redeemed by consumers will be subject to all other regulations governing redemption, including daily load limits, of CRV materials in accordance with 14 CCR § 2535(f).

CRV Payment Methods

Redemption amounts for segregated materials by weight will be issued to consumers in accordance with CalRecycle's document, *California Recycling Program Rates*. For consumers who wish to redeem material on an individual container (one-for-one) basis in quantities of fifty (50) or fewer units of aluminum, glass, or plastic, redemption value will be paid on a one-for-one basis using single-feed RVMs, or by counting by depot staff. Likewise, for consumers using bulk-feed RVMs, including bag drop, redemption value will be paid on a one-for-one basis.

Recycling depots will require significant capital investment and regulatory approval by local government and community stakeholders; as such, the Dealer Cooperative does not anticipate their full operation immediately following CalRecycle's approval of its Stewardship Plan. The Dealer Cooperative expects that by the time the first recycling depot opens, its unified digital wallet system will be fully operational and integrated to provide flexible payout options and streamlined payment processing for consumers. Through this technology, the Dealer Cooperative anticipates offering consumers multiple redemption options, including:

- **Cash redemption** (e.g. consumers receive their CRV refund immediately in cash)
- **Accumulated digital payment** (e.g. consumers could accumulate their CRV refunds, enabling them to save funds and redeem larger amounts in the future, at their convenience)
- **Charitable donation** (e.g. consumers could donate CRV refunds to a verified charity and receive a donation receipt)

- **Debit card payments** (e.g., consumers could choose to have CRV refunds deposited onto a debit card, providing immediate access to funds for purchases or cash withdrawals at ATMs)

By offering these innovative, varied, and convenient options to consumers in conjunction with a revolutionized and modern retail space, the Dealer Cooperative anticipates providing an attractive, incentivized, and engaging recycling and redemption experience for consumers.

E3. Health and Safety Measures

The Dealer Cooperative will ensure its recycling operator partners implement comprehensive health and safety protocols to comply with applicable federal, state, and local regulations to protect the well-being of staff and consumers while operating recycling depots, such as:

- Regular sanitization of equipment to ensure cleanliness, reduce contamination risks, and ensure an inviting experience for consumers.
- Mandatory provision and use of personal protective equipment (PPE) when applicable for all staff members.
- Ongoing training programs to ensure staff are fully informed of safety protocols when using equipment as well as any applicable regulatory requirements.
- All other operating standards as defined by CalOSHA or other applicable guidelines.

E4. CRV Redemption Participation and Environmental Stewardship

Recycling depots represent the Dealer Cooperative's vision for a modern, sustainable and efficient CRV redemption network across California. By increasing accessibility, streamlining recycling processes, and reducing environmental impacts, these facilities directly support California's circular economy and ambitious resource recovery goals. Through innovative design, strategic placement, and community engagement, recycling depots will not only improve CRV redemption rates but will also foster a culture of environmental stewardship. This commitment underscores the Dealer Cooperative's dedication to creating a cleaner, more efficient future for all Californians.

12. EDUCATION AND OUTREACH METHODS

Consistent with 14 CCR § 2375.4, the Dealer Cooperative is committed to delivering a highly effective outreach program designed to inform target audiences about opportunities surrounding CRV redemption. To achieve this, the Dealer Cooperative will use a combination of communication methods, including:

- **Signage and printed resources** (e.g., on-site instructional signage displayed at dealer entrances and redemption sites with operating days, hours, types of materials accepted, as well as informational flyers and pamphlets)
- **Social media and digital resources** (e.g., targeted ads, short instructional and entertaining videos, and general posts promoting CRV redemption, supported by a mobile-friendly website available in several languages with FAQs and other relevant resources)
- **Redemption site locator map** (e.g. redemption site database integrated into the Dealer Cooperative's website with the ability to search and filter for redemption sites, methods of redemption, and accepted materials at various sites.)
- **In-person demonstrations** (e.g., on-site ambassadors at redemption locations promoting CRV benefits, guiding consumers on new redemption technology with live demonstrations, and distributing printed resources)
- **Traditional media and earned media** (e.g., partnerships with local TV and radio stations for interviews and advertisements, direct mail campaigns to underserved zones, and press releases to news outlets about milestones and initiatives)
- **Stakeholder partnerships** (e.g., collaborating with Dealer Members, local governments, municipal agencies, and environmental organizations to enhance outreach through shared newsletters, public announcements, and coordinated web content)
- **Community events and charitable programs** (e.g., grand openings of redemption locations, facility tours for schools and residents, and CRV donation drives for local charities)
- **Environmental impact tracker** (e.g., an interactive digital account redemption feature displaying carbon emissions saved and total bottles and cans recycled to encourage further participation and environmental education)
- **Corporate responsibility partnerships** (e.g., collaborations with beverage manufacturers to promote recycling and support sustainability programs)

A. MESSAGE PLATFORM

A1. “CRV, Reinvented.”

The Dealer Cooperative will launch a cohesive and impactful public messaging campaign centered on its official tagline, “CRV, Reinvented.”

The tagline “*CRV, Reinvented*” embodies the Dealer Cooperative’s mission to align the individual efforts of its Dealer Members into a unified, efficient, and innovative redemption network that optimizes their critical role in the success of California’s Bottle Bill while amplifying their collective impact on State’s redemption goals. By synchronizing under a coordinated plan, Dealer Members become more effective in supporting practical, industry-inclusive solutions that benefit consumers and strengthen California’s recycling ecosystem. The tagline also encapsulates the Dealer Cooperative’s public benefit by its participation in the modernization of California’s redemption infrastructure through delivering operational efficiencies and innovative recycling technologies, thus improving the CRV redemption experience for all Californians.

The Dealer Cooperative’s tagline is meant to inspire community participation, build intrigue and excitement in CRV redemption, and engage consumers, Dealer Members, and recycling operator partners by emphasizing innovation and accessibility. This central theme for the Dealer Cooperative’s education and outreach campaign will drive meaningful improvements to CRV redemption while promoting shared responsibility and sustainable recycling for all stakeholders across California.

A2. Education and Outreach Themes

The Dealer Cooperative will use the communication methods listed above to inform and engage its target audiences on key themes surrounding recycling and CRV redemption, such as:

- **Which beverage container materials are accepted, and how can they be redeemed?** (e.g., outlining eligible CRV material types, detailing various redemption methods such as bag drops, mobile recycling sites, recycling depots, traditional redemption centers, etc.)
- **Where can CRV-eligible material be redeemed?** (e.g. Dealer Cooperative site locations, hours of operations, etc.)
- **How does CRV material redemption benefit the consumer?** (e.g. return of CRV deposit charged at time of purchase, cleaner local communities, promoting California’s circular economy, etc.)

A3. Target Audiences

The Dealer Cooperative's outreach and education strategy will be designed to effectively communicate with key stakeholders within the CRV redemption ecosystem. The Dealer Cooperative aims to ensure equitable access to information regarding CRV redemption opportunities by tailoring its communication methods and materials for various stakeholders to enhance consumer and Dealer Member engagement, address language access opportunities, and provide relevant and actionable program information.

California Consumers

The Dealer Cooperative's messaging to consumers will focus on building awareness and accessibility of CRV redemption opportunities offered by the Dealer Cooperative. This effort will include the use of printed materials such as signs, flyers, and postings tailored to the language needs of the communities. These printed materials will feature QR codes that link to a detailed map of local redemption sites, operational hours, and accepted materials. These materials will be prominently displayed at redemption sites as well as Dealer Member locations, and will include the Dealer Cooperative's website, <http://www.circularcrv.com>, which will contain additional information and resources.

Social media campaigns across various platforms will promote local redemption opportunities offered by the Dealer Cooperative and educate consumers about recycling and CRV redemption. These campaigns will include in-person testimonials and content produced in various languages designed to increase consumer engagement and participation in CRV redemption throughout the State.

Dealer Members

The Dealer Cooperative's founding mission is to connect Dealer Members, recycler operators, and the public to facilitate innovative, sustainable, and accessible recycling solutions in unserved convenience zones where Dealer Members operate. To support this mission, the Dealer Cooperative will provide resources and guidance on its website to prospective Dealers interested in joining the Dealer Cooperative. As part of its outreach efforts, the Dealer Cooperative will regularly advertise in industry publications such as *California Grocer*, a magazine published by the California Grocers Association, and other retail-focused journals. These advertisements will raise awareness about the Dealer Cooperative's services and the benefits of membership. In addition, the Dealer Cooperative will maintain a consistent presence at industry events centered around Dealers to sustain visibility, continue outreach efforts, and encourage participation.

Through consistent communication and outreach, the Dealer Cooperative intends to position itself as the preferred solution for prospective Dealers seeking to meet their legal requirements related to CRV redemption. By promoting the benefits of membership, the Dealer Cooperative will encourage broader participation and collaboration by its members, thereby strengthening statewide recycling and redemption efforts.

Recycling Operators

The Dealer Cooperative will create and provide recycling operators with signage that communicates essential information to consumers, including operating hours of redemption solutions, accepted materials, and instructions for providing feedback and reporting issues. This signage will be prominently displayed at each redemption location and will appear in languages reflecting the demographics of the surrounding area to ensure accessibility.

The Dealer Cooperative will also communicate with recycling operators to share updates on new redemption sites, opportunities for expanding services, and initiatives supporting underserved communities. By partnering with recycling operators who have deep knowledge of the communities and regions they serve, the Dealer Cooperative will help identify potential redemption locations in unserved convenience zones, support operators in evaluating and pursuing opportunities that align with program goals, and drive initiatives that support underserved communities. The Dealer Cooperative will also inform recyclers about technological advancements in redemption equipment, including variations in mobile recycling units, bag drop systems, and reverse vending machines, offering insights into innovative methods to enhance operational efficiency and consumer participation.

Through proactive communication, the Dealer Cooperative will enable recyclers to expand their role in the CRV program while advancing California's goals of increasing accessibility and recycling rates. This approach will strengthen the redemption network and support the development of a more efficient, accessible, and sustainable recycling system.

B. LANGUAGE ACCESS

In compliance with 14 CCR § 2375.4(b)(2), the Dealer Cooperative is committed to ensuring linguistically relevant communication with Limited-English Proficient (LEP) communities in unserved convenience zones. By leveraging Census 2020 data¹ and the California Department of Finance's Web Application² for identifying leading non-English languages, the Dealer Cooperative will tailor its outreach to the predominant languages spoken within each census tract where it will operate.

This targeted approach will ensure clear, accessible communication and will foster inclusivity by addressing the unique language needs of California's diverse population. For example, in addition to English, if a census tract indicates significant Cantonese and Spanish-speaking populations, materials in these languages will be provided. All printed materials will feature QR codes that link to resources available in additional languages on the Dealer Cooperative's mobile-friendly website.

¹ United States Census Bureau Population Data. Available at <https://data.census.gov/profile/California?q=040XX00US06>

² California Department of Finance, Demographic Research Unit. *Leading Non-English Languages in California*. Web Mapping Application. Published September 23, 2024. Updated December 30, 2022. Available at: <https://dru-data-portal-cacensus.hub.arcgis.com/apps/edaf9becf66d4a16be9844726c29cf2f/explore>

B1. Supported Languages

Educational and outreach materials will be developed in the following languages, consistent with the Dealer Cooperative's compliance with 14 CCR § 2375.4(b)(2) and the Language and Communication Access Plan (LACAP)³

- Arabic
- Armenian
- Assyrian Neo-Aramaic
- Cantonese
- Chaldean Neo-Aramaic
- Chinese
- Farsi
- Filipino
- Hindi
- Hmong
- Iu Mien
- Japanese
- Khmer
- Korean
- Mandarin
- Min Nan Chinese
- Portuguese
- Punjabi
- Russian
- Spanish
- Tagalog
- Telugu
- Thai
- Ukrainian
- Vietnamese

C. COMMUNITY OUTREACH EFFORTS

The Dealer Cooperative will support community-based outreach programs aimed at fostering a stronger culture of recycling across California to increase CRV redemption rates.

Targeted community outreach efforts will be conducted through activities such as workshops, public engagement, and community events. These activities might involve city-sponsored events, demonstrations for local schools, neighborhood associations, and centers of worship,

³ California Complete Count - Census 2020. *Language and Communication Access Plan*. Prepared by the California Complete Count - Census 2020 Office. May 17, 2019. Available at: <https://census.ca.gov/wp-content/uploads/sites/4/2019/06/LACAP.pdf>.

all allowing flexibility for the Dealer Cooperative to tailor redemption initiatives to specific communities. The Dealer Cooperative anticipates it will collaborate with field technicians and recycling ambassadors previously employed by “CRV ConnX”, a Workforce Development Grant program funded by CalRecycle, to increase CRV redemption participation and awareness in key areas. By leveraging their industry expertise and deep ties to the communities they serve, these technicians and ambassadors will help identify underserved areas, address access barriers, and provide field insights to refine and target outreach efforts. This adaptable approach will enable the Dealer Cooperative to prioritize initiatives that improve community awareness of new redemption sites and maximize the program’s overall effectiveness.

D. WEBSITE AND REDEMPTION SITE LOCATOR

The Dealer Cooperative’s website at <http://www.circularcrv.com> will serve as a central resource for public access to all key aspects of the CRV redemption program. Designed with user convenience in mind, the site will provide contact information, such as phone numbers and e-mail addresses to contact Dealer Cooperative staff and recycling operators. An interactive map of CRV redemption opportunities and a filtered search directory to help the public quickly locate redemption sites in the Dealer Cooperative network will also be developed. Users will be able to find additional details on accepted materials, days and hours of operation, and site-specific information.

The website will be available in English, Spanish, Mandarin Chinese, Tagalog, Korean, and Vietnamese to ensure wide accessibility for California’s diverse population. The site will also host other multilingual resources, including FAQs, instructional guides, and promotional materials, to support consumer education and engagement. The Dealer Cooperative plans to expand access with the additional languages previously mentioned in Section B1 within twelve (12) months of approval of this Stewardship Plan by CalRecycle.

Beyond supporting consumers, the website will include targeted resources for other key stakeholders, such as Dealer Members and recyclers. These resources will provide information on compliance requirements, operational best practices, and partnership opportunities. The website will also house official program documents, such as the approved Stewardship Plan, quarterly and annual reports, and relevant laws, offering accessibility to all stakeholders.

E. TOLL-FREE SUPPORT LINE

The Dealer Cooperative will operate a toll-free support line at (855) CRV-CASH / (855) 278-2274 to answer general questions key stakeholders may have about the Dealer Cooperative and to assist the public with answering questions surrounding CRV redemption. The support line will be staffed during normal business hours on weekdays and provide access to real-time translation in Spanish and additionally supported languages as needed. Support for hearing and speech impaired consumers will also be offered to consumers using the same toll-free support line.

13. DISPUTE RESOLUTION

The Dealer Cooperative is committed to providing California consumers with an inviting, positive, and reliable experience each time consumers return CRV material at any of the locations operated by its recycling operator partners. The Dealer Cooperative will empower its recycling operator partners to solve all consumer concerns on-site at the time they are raised by the consumer. However, at times, consumers may wish to communicate their concerns directly to the Dealer Cooperative.

To facilitate this communication, the Dealer Cooperative has established a dispute resolution policy to address any consumer concerns regarding non-payment, underpayment, recycling operator performance, or any other issues related to the Dealer Cooperative's CRV redemption program. This policy is designed to ensure timely, fair, and equitable resolution of any concerns or disputes, thereby reinforcing consumer trust and program accountability.

The Dealer Cooperative's dispute resolution policy outlined below will be available on its website at http://www.circularcrv.com/customer_feedback.

A. FILING A COMPLAINT

Consumers will be able to file a complaint regarding any issue related to the Dealer Cooperative's redemption program through the following channels:

- A toll-free phone number allowing consumers to report concerns directly to the Dealer Cooperative: (855) CRV-CASH / (855) 278-2274
- A "Customer Feedback" form available on the Dealer Cooperative's website http://www.circularcrv.com/customer_feedback that will enable consumers to submit complaints, upload supporting documentation, and provide contact information.

These mechanisms will ensure equitable access for all community members and provide opportunities for meaningful engagement, consistent with 14 CCR § 2375.4(c).

B. ACKNOWLEDGMENT

The Dealer Cooperative will acknowledge receipt of all consumer complaints by e-mail within three (3) business days and provide a unique reference number for tracking. Upon receiving a complaint, the Dealer Cooperative will document it and log key details digitally, including the consumer's contact information, the nature of the complaint, and any supporting materials, into its complaint database to ensure accurate tracking and follow-up.

A written acknowledgment will be sent to the consumer's preferred email address, including the reference number, confirmation of receipt, contact information for further inquiries, and, when possible, an estimated timeframe for follow-up. The complaint will then be assigned to the appropriate Dealer Cooperative staff member for investigation and resolution.

C. INVESTIGATION

The Dealer Cooperative will investigate all complaints and involve relevant parties, including Dealer Cooperative field staff, or redemption site operators and their staff, as necessary. Transaction records, documentation provided by the complainant, and other relevant data will be reviewed to investigate and resolve disputes and complaints involving non-payment or underpayment, and any other issues raised by consumers.

C1. Resolution and Escalation Process

The Dealer Cooperative will respond to all complainants within ten (10) business days of receiving consumers' complaints by e-mail, outlining the findings from investigations, the outcome, and any corrective actions taken. If refund discrepancies are identified, the Dealer Cooperative will ensure the consumer receives the correct refund value or appropriate compensation.

If a complainant is dissatisfied with the Dealer Cooperative's resolution, they may escalate the complaint to a Dealer Cooperative management member for further review. If the issue remains unresolved after internal escalation, the Dealer Cooperative will provide the complainant information on how to contact and file a complaint with CalRecycle. Upon request, the Dealer Cooperative will provide CalRecycle information collected regarding the complainant's dispute.

The Dealer Cooperative is committed to resolving disputes in a fair, timely, and inclusive manner. In addition to posting its dispute resolution procedure online, information about the Dispute Resolution policy will be displayed at all redemption sites, encouraging consumers to report any issues, complaints, or concerns they have regarding program services.

D. RECORDKEEPING AND REPORTING

The Dealer Cooperative will maintain detailed records of all complaints, investigations, and resolutions for a minimum of five (5) years. Complaint data will be analyzed quarterly to identify operational trends, address systemic issues, and improve program operations.

14. COMMUNITY INPUT

The Dealer Cooperative recognizes the important role that convenient and accessible beverage container redemption plays in the communities in which it serves and operates. Listening, understanding, and reacting to the unique needs of each community will ensure long-term viability of the CRV redemption solutions the Dealer Cooperative provides on behalf of its Dealer Members. Community feedback will drive program enhancements and ensure the Dealer Cooperative's alignment with California's redemption needs.

The Dealer Cooperative will encourage members of each community in which it operates to provide input and feedback regarding its services and the impact of these services on the community. The Dealer Cooperative will offer three options for the community to provide feedback:

- A toll-free phone number allowing consumers to report issues and concerns directly to the Dealer Cooperative: (855) CRV-CASH / (855) 278-2274
- A "Customer Feedback" form available on the Dealer Cooperative's website http://www.circularcrv.com/customer_feedback that will enable members of the community to communicate electronically with the Dealer Cooperative
- Surveys conducted by the Dealer Cooperative to align with community needs, measure impact and satisfaction, improve existing solutions, and identify new outreach and service opportunities

These mechanisms will ensure equitable access for all community members and provide opportunities for meaningful engagement, consistent with 14 CCR § 2375.4(d).

The Dealer Cooperative will acknowledge receipt of community input submitted through any of the channels above within three (3) business days by e-mail, provided the consumer supplies clear and legible contact information and explicitly requests follow-up. Where appropriate and at the Dealer Cooperative's discretion, valuable comments may prompt follow-up, and a Dealer Cooperative representative may contact the individual for additional input. The Dealer Cooperative will maintain records of all feedback received for a minimum of five (5) years.

15. CONSUMER CONVENIENCE

The Dealer Cooperative is committed to addressing factors that directly impact consumer convenience at redemption locations operated by recycling partners on its behalf. In compliance with 14 CCR § 2375.4(e), the Dealer Cooperative aims to enhance the redemption experience for consumers, thereby encouraging increased participation and support of California's resource recovery goals by prioritizing safety, cleanliness, parking availability, and accessibility.

A. SAFETY AND CLEANLINESS

The Dealer Cooperative will require operators at staffed redemption sites to maintain operations centered around cleanliness and safety. Dealer Cooperative field staff will perform regular, unannounced site visits to locations operating on its behalf to ensure the following conditions are being met:

- The area surrounding the site is regularly swept to remove debris such as trash and leaves, and the area is pressure-washed as needed to remove any buildup of unwanted substances.
- Collected trash is disposed of in waste bins that are securely sealed, and a sweep of the location is performed at the end of each operating day to ensure the location is left clean while not in operation.
- The site is free of tripping hazards such as uneven asphalt or concrete, cracks, potholes, etc. In the event these hazards exist, ensure the use of safety cones or other barriers to prevent accidents.
- The surrounding parking and operating areas are equipped with ample lighting.
- Implementation and enforcement of safety protocols to minimize queuing, prevent litter and ensure efficient site operations.

The Dealer Cooperative field staff will also perform site visits to unstaffed redemption locations to verify the equipment and surrounding area is operational, clean, and free of damage, debris, and graffiti. If any hazards are noticed during a site visit, the Dealer Cooperative will work closely with the Dealer Member or property management team to promptly resolve any safety concerns. These inspections will also evaluate lighting, signage visibility, and the availability of waste disposal bins, ensuring each site is functional and consumer friendly.

B. PARKING AVAILABILITY

The Dealer Cooperative will ensure sufficient and accessible parking is available to accommodate consumers at staffed redemption sites. These sites will be typically located in larger retail shopping center parking lots or locations with high foot traffic that can accommodate several vehicles and easy traffic flow. Parking accessibility, including access to

handicapped parking, will be reviewed during each site visit performed by Dealer Cooperative field staff. Suggestions for improvement will be made as necessary and will be reviewed during subsequent site visits.

Where unstaffed redemption solutions are placed, recycling operators and Dealer Cooperative field staff will ensure that the equipment is easily accessible, and parking is readily available. Any concerns that are noted during these site visits will be communicated to the Dealer Member or to the Dealer Cooperative management staff to resolve promptly.

C. ACCESSIBILITY VIA PUBLIC TRANSPORTATION AND WALKING

To support consumer accessibility, the Dealer Cooperative will prioritize operating recycling solutions located near main thoroughfares. These locations will be highly visible and well-suited for consumers that may arrive by public transportation or on foot without the need for additional accommodation.

D. SITE DESIGN AND LAYOUT

To ensure efficiency and ease of use at redemption sites, the Dealer Cooperative will collaborate with site operators to optimize the layout of redemption facilities using directional signage and operating “Best Practices” aimed at facilitating a quick and efficient redemption experience. These will be reviewed and reinforced during regular site visits performed by Dealer Cooperative field staff.

E. CONSUMER FEEDBACK AND IMPROVEMENTS

In alignment with 14 CCR § 2375.4(d), the Dealer Cooperative will solicit consumer feedback to improve the convenience and effectiveness of its redemption network services. Consumers will be encouraged to provide their comments through multiple channels, including:

- Customer feedback forms available online on the Dealer Cooperative website
- Direct contact with a Dealer Cooperative representative via a toll-free phone number displayed at all site locations
- Direct surveys conducted by the Dealer Cooperative

By leveraging these varied outreach mechanisms, the Dealer Cooperative will ensure broader and more immediate collection of valuable insights. All feedback will be reviewed quarterly to identify trends, address concerns, and implement necessary adjustments, ensuring continuous improvements in consumer convenience and satisfaction across the redemption network.

F. COMMITMENT TO CONVENIENCE

By actively addressing opportunities related to consumer convenience, the Dealer Cooperative is dedicated to creating an easy and inclusive CRV-redemption experience in convenience

zones where it operates. This commitment will ensure that CRV redemption solutions managed by the Dealer Cooperative remain attractive, convenient, accessible, and widely used, driving greater participation by the public in California's circular resource recovery program.

G. DIGITAL WALLET AND REDEMPTION PAYMENTS

The Dealer Cooperative will explore the integration of a digital wallet solution equipped with redemption payment functionality housed within one unified mobile application to provide consumers with a single, secure, and integrated redemption and payment platform accessible across all Dealer Cooperative redemption sites. This potential solution is intended to enhance consumer convenience by offering secure, cash-equivalent payment options to consumers, while also evaluating whether the introduction of digital payment methods contributes to increased consumer participation in CRV redemption.

The Dealer Cooperative will prioritize consumer security, accessibility, and regulatory compliance with any potential implementation of digital payment systems. To assess the viability of digital payments via mobile application, the Dealer Cooperative will:

- Research and vet third-party service providers with success and specialization in consumer financial applications and transaction management
- Ensure provider compliance with all applicable regulations, including consumer data protection, transaction security, and financial oversight requirements
- Evaluate the impact on consumer experience and accessibility across different redemption methods

Research, Evaluation, and Implementation Timeline

The Dealer Cooperative will conduct an initial evaluation phase followed by a staged research and testing process, ensuring flexibility based on findings and regulatory considerations.

- **Phase 1: Research and feasibility.** (0–6 months post-Plan approval)
 - Identify financial technology service providers and review available solutions
 - Assess legal and regulatory compliance requirements for digital payment integration
 - Conduct preliminary industry research to evaluate consumer demand and technical feasibility
- **Phase 2: Pilot exploration and limited testing.** (6–12 months post-Plan approval, if determined feasible)
 - Select pilot locations to evaluate digital payment processing within controlled environments

- Engage with consumers, retailers, and regulatory stakeholders to gather feedback
 - Ensure data security, compliance testing, and operational safeguards are in place before further expansion
- **Phase 3: Broader consideration and potential expansion.** (12–24 months post-Plan approval, contingent on pilot results)
 - Assess pilot performance and determine whether to pursue wider implementation
 - Refine technical integration, consumer education, and accessibility measures based on findings
 - Establish final recommendations for long-term digital payment strategies aligned with consumer and regulatory needs

By implementing a phased, research-driven approach to a potential digital wallet offering, the Dealer Cooperative can ensure the solution, if deemed viable, will meet consumer expectations, adhere to all applicable regulatory requirements, and contribute to improving operational efficiencies for both consumers and recycling operators while helping to improve statewide CRV redemption rates.

16. BEVERAGE CONTAINER REDEMPTION

A. MATERIAL REDEMPTION METHODS

The Dealer Cooperative, in collaboration with its recycling operator partners, will utilize the redemption methods below and previously outlined in this Stewardship Plan to ensure acceptance and redemption of all CRV-eligible beverage container materials, in compliance with 14 CCR § 2375.4(f)(1):

- **Mobile recycling units** will provide staffed, on-site redemption services and will accept all CRV-eligible containers. These units will provide convenient redemption opportunities in unserved convenience zones where Dealer Members operate.
- **Single-feed reverse vending machines (RVMS)** will provide automated redemption services and will accept aluminum cans, PET-1 plastic bottles, and in some cases, glass bottles. These machines will be strategically located in high-traffic areas in unserved convenience zones to maximize convenience and accessibility.
- **Bulk-feed reverse vending machines (RVMS)**, especially those deployed in a mobile environment, will provide high-capacity, automated redemption by accepting large quantities of CRV-eligible containers in a single infeed simultaneously. These machines will quickly validate, sort, and in some cases, compact materials, reducing wait times for consumers and maximizing storage efficiency for operators.
- **Kiosks** will provide staffed redemption services and will accept all CRV-eligible containers. Kiosks will ensure comprehensive redemption opportunities for all container types in unserved convenience zones near Dealer Member locations.
- **Bag drop systems** will provide streamlined, unstaffed redemption services that allow consumers to redeem all CRV beverage types in pre-printed bags that are dropped off for later processing and redemption, thereby reducing consumer wait times experienced at traditional kiosks or mobile recycling centers. Physical bag drop units will be located in highly visible areas in unserved convenience zones where Dealer Members operate.
- **Recycling depots** will provide high-volume redemption services that accept all CRV-eligible material, using single-feed and in-building bulk-feed RVMS, bag drop services, and traditional weigh services.

B. REDEMPTION CAPACITY ASSESSMENT

As of the submission date of this Stewardship Plan to CalRecycle, the Dealer Cooperative is comprised of 243 individual Dealer Members. Collectively, these members sold 1,509,337,618 CRV-eligible units between August 1, 2023, and July 31, 2024. This total serves as the baseline redemption capacity requirement and establishes the minimum number of containers the

Dealer Cooperative must be capable of redeeming annually to maintain compliance with 14 CCR § 2375.4(f)(2).

To assess the redemption capacity of its network, the Dealer Cooperative evaluated each of the innovative methods of recycling it anticipates deploying using two benchmarks:

- **Benchmark 1: CalRecycle's Economic and Fiscal Impact Statement (STD 399)** concerning Dealer Cooperatives.⁴ This statement estimated annual containers redeemed per unit (method of recycling) using comments from stakeholders received during informal workshops.
- **Benchmark 2: Industry operator insights.** These insights include information provided by recycler operators partnering with the Dealer Cooperative that currently employ various types of recycling methods, as well as specifications and insights provided by manufacturers of the various technologies the Dealer Cooperative will implement to provide redemption opportunities to consumers for CRV-eligible material.

1. MOBILE RECYCLING

Table 16.1: Mobile Recycling Benchmarks

MOBILE RECYCLING	Annual Container Redemption Capacity	Total Sites Full Operation	Annual Containers Redeemed (Capacity)	Annual Containers Redeemed (%)
Benchmark 1	6,000,000	20	120,000,000	7.95%
Benchmark 2 ⁵	14,034,600	20	280,692,000	18.60%

CalRecycle's Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives estimates that a typical mobile recycling redemption option can process approximately 6,000,000 units annually. However, data from a recycling operator successfully running a CalRecycle-administered pilot program suggests a single mobile recycling unit has

⁴ Department of Resources Recycling and Recovery – Dealer Registration and Dealer Cooperatives Permanent Regulations Economic and Fiscal Impact Statement (STD 399) Supplemental Information. Document available at https://www2.calrecycle.ca.gov/Docs/Web/127365&sa=U&ved=2ahUKEwjX2cOy16eLAXU4FVkfHT2oOmgQFnoECAQQAg&usq=AOvVaw2i6_YjRReUrqkdc5n7xoSq.

⁵ Estimates based California Recycling Program Rates published by CalRecycle for January 2025; one 24-foot box truck operating per day; daily capacity of 1,500 pounds of glass, 400 pounds of aluminum, and 900 pounds of plastic; operation at 360 days per year.

capacity to redeem up to 38,985 containers per day, resulting in an annual redemption capacity of just over 14.0 million containers per route, with only one truck in operation.

The Dealer Cooperative has identified, at a minimum, 20 mobile recycling routes it will operate across its network within 60 days of CalRecycle’s approval of its Stewardship Plan. Once deployed, these sites will represent a combined annual redemption capacity of between 120,000,000 and 280,692,000 CRV-eligible units. These figures correspond to an annual redemption potential of between 7.95% and 18.60% of the total number of individual CRV units sold by Member Dealers between August 1, 2023 and July 31, 2024.

Mobile recycling will offer recycling operators the flexibility to meet consumer demand by rotating operations through multiple unserved convenience zones each week. This adaptability will allow the Dealer Cooperative to position mobile recycling as a scalable first-phase solution to rapidly expand CRV redemption capacity. Mobile recycling will play an integral role in the Dealer Cooperative’s initial strategy to provide additional consumer convenience not currently offered in existing unserved convenience zones.

2. SINGLE-FEED REVERSE VENDING MACHINES (RVMS)

Table 16.2: *Single-Feed RVM Benchmarks*

SINGLE-FEED RVMS	Annual Container Redemption Capacity	Total Sites in Full Operation	Annual Containers Redeemed (Capacity)	Annual % of Containers Redeemed (Capacity)
Benchmark 1	600,000	20	12,000,000	0.80%
Benchmark 2	4,121,280	20	82,425,600	5.46%

CalRecycle’s Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives estimates that a typical single-feed Reverse Vending Machine (RVM) can process approximately 600,000 containers annually. According to operational specifications of the most common single-feed RVM models manufactured by four potential Dealer Cooperative technology partners, each a worldwide leader in RVM manufacturing, the Dealer Cooperative estimates that a single-feed RVM in its network will have the capacity to process an average of 4,121,280 containers annually.

This estimate considers the average throughput of each of the most common machines in use across multiple markets at 39.75 containers per minute, 8 hours of operating time daily over

360 days a year, and assumes a 40% downtime for maintenance, transaction processing, and other interruptions.⁶

The Dealer Cooperative estimates it will operate 20 single-feed RVMs across its network within 12 months of CalRecycle’s approval of its Stewardship Plan. This will represent a combined annual redemption capacity of between 12,000,000 and 82,425,600 CRV-eligible units. These figures correspond to an annual redemption potential of between 0.80% and 5.46% of the total number of individual CRV units sold by Dealer Members between August 1, 2023, and July 31, 2024.

3. BULK-FEED REVERSE VENDING MACHINES (RVMS) – MOBILE DEPLOYMENT

Table 16.3: Bulk-Feed RVM (Mobile) Benchmarks

BULK-FEED RVMS	Annual Container Redemption Capacity	Total Sites in Full Operation	Annual Containers Redeemed (Capacity)	Annual % of Containers Redeemed (Capacity)
Benchmark 1	n/a	n/a	n/a	n/a
Benchmark 2	11,980,800	16	191,692,800	12.70%

CalRecycle’s Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives does not provide a benchmark redemption capacity for bulk-feed reverse vending machines. According to operational specifications provided by multiple manufacturers of bulk-feed RVM equipment, the Dealer Cooperative estimates that each of these units deployed as mobile units within its network will have the capacity to process 11,980,800 containers annually.

This estimate assumes a processing capability of 200 containers per minute spanning 8 operating hours each day for 208 days per year (4 days per week) and assumes a 40% downtime for maintenance, transaction processing, and other interruptions.⁷

The Dealer Cooperative estimates it will operate 16 mobile, bulk-feed RVMS across its network within 12 months of CalRecycle’s approval of its Stewardship Plan. Together, this deployment will represent a combined annual redemption capacity of 191,692,800 CRV-eligible units. These figures correspond to an annual redemption potential of 12.70% of the total number of individual CRV units sold by Dealer Members between August 1, 2023, and July 31, 2024.

⁶ Data based on equipment specifications provided by TOMRA, MachineX, Olyns, and Envipco (January 2025).

⁷ Data based on equipment specifications provided by RecycleTek (February 2025)

4. KIOSKS

Table 16.4: Kiosk Benchmarks

KIOSKS	Annual Container Redemption Capacity	Total Sites in Full Operation	Annual Containers Redeemed (Capacity)	Annual % of Containers Redeemed (Capacity)
Benchmark 1	6,000,000	15	90,000,000	5.96%
Benchmark 2 ⁸	6,788,842 – 13,988,064	15	189,897,113	12.58%

CalRecycle’s Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives estimates that a typical recycling kiosk can process approximately 6,000,000 containers annually. Recycling kiosks are a well-established redemption solution in California, and extensive data is available concerning them. This data allows the Dealer Cooperative to establish more precise benchmarks for total redemption capacity as it deploys its fleet of kiosks within its network.

Pursuant to a California Public Records Act request, CalRecycle provided the Dealer Cooperative with data on the total weight and number of containers redeemed at “Recycling Centers” (kiosks) in rural and urban zones between July 2023 and June 2024. The data indicates that an average rural recycling kiosk redeems 6,788,842 CRV-eligible containers annually, while an urban recycling kiosk redeems 13,988,064 CRV-eligible containers annually. Of the 1,339 kiosks operating during this period, 18.45% (n=247) were located in rural zones, and 81.55% (n=1,092) operated in urban zones. To estimate annual redemption capacity, the Dealer Cooperative applied this same urban-to-rural proportion to its proposed kiosk operations, ensuring an accurate and data-driven approach to capacity planning and deployment.

The Dealer Cooperative estimates it will operate 15 traditional kiosks across its network within 90 days of CalRecycle’s approval of its Stewardship Plan. These kiosks will represent a combined annual redemption ability of between 90,000,000 and 189,897,113 CRV-eligible units, corresponding to an annual redemption potential of between 5.96% and 12.58% of the total number of individual CRV units sold by Dealer Members between August 1, 2023, and July 31, 2024.

While the numbers displayed above are substantial, they do not represent a kiosk’s true total redemption capacity, as many currently operating kiosks are limited in both operating hours and days. Additionally, the dataset provided by CalRecycle includes only six months of

⁸ Data provided by CalRecycle (January 2025) through Public Records Request R002992-011325

redemption data encompassing the expanded CRV-eligible containers—such as wine bottles, hard spirits, and boxes—which became eligible for redemption on January 1, 2024. As a result, the actual redemption capacity of kiosks within the Dealer Cooperative network is likely significantly higher than these figures suggest. However, to satisfy the requirements of 14 CCR § 2375.4(f), the Dealer Cooperative has elected to rely solely on the dataset provided by CalRecycle.

5. BAG DROP SYSTEMS

Table 16.5: *Bag Drop System Benchmarks*

BAG DROP SYSTEMS	Annual Container Redemption Capacity	Total Sites in Full Operation	Annual Containers Redeemed (Capacity)	Annual % of Containers Redeemed (Capacity)
Benchmark 1	6,000,000	90	540,000,000	35.78%
Benchmark 2 ⁹	3,689,280	90	332,035,200	22.00%

CalRecycle’s Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives estimates that a standalone bag drop collection unit can process approximately 6,000,000 containers annually. While bag drop systems are not yet widely used in the State of California, they have been successfully deployed in several regions across the United States. Several of the Dealer Cooperative’s technology partners manufacture bag drop units, allowing the Dealer Cooperative to leverage manufacturer specifications to develop a more accurate benchmark for estimating annual redemption capacity.

Although bag drop units are typically standalone solutions, the technology can also be integrated into other redemption models, such as mobile recycling, kiosks, and recycling depots, providing alternative consumer engagement opportunities and capturing additional CRV material that might otherwise go unredeemed.

For the purposes of estimating redemption capacity pursuant to 14 CCR § 2375.4(f), the Dealer Cooperative estimates traditional standalone bag drop systems deployed in its network to have an annual capacity of redeeming 3,689,280 CRV-eligible units. This estimate falls below the benchmark set by CalRecycle’s Economic and Fiscal Impact Statement, as the Dealer Cooperative estimates that bag drop collection units employed in its network will be smaller in cubic volume than traditional units placed elsewhere in the nation due to limited space constraints on or near Dealer parking lots. Notably, this number assumes substantial consumer

⁹ Data based on equipment specifications provided by Clynk and MachineX (January 2025).

participation once the technology has been fully integrated into the convenience zone it is placed.

The Dealer Cooperative estimates it will operate 90 traditional standalone bag drop systems across its network within 12 months of CalRecycle’s approval of its Stewardship Plan. Placement of these units will represent a combined annual redemption capacity of between 332,035,200 and 540,000,000 CRV-eligible containers. These figures correspond to an annual redemption potential of between 22.00% and 35.78% of the total number of individual CRV units sold by Dealer Members between August 1, 2023, and July 31, 2024.

6. RECYCLING DEPOTS

Table 16.6: *Recycling Depot Benchmarks*

RECYCLING DEPOTS	Annual Container Redemption Capacity	Total Sites in Full Operation	Annual Containers Redeemed (Capacity)	Annual % of Containers Redeemed (Capacity)
Benchmark 1	n/a	n/a	n/a	n/a
Benchmark 2 ¹⁰	63,763,200	9	573,868,800	38.02%

Recycling depots integrate traditional weigh-scale redemption services and innovative technologies, including single and bulk-feed RVMs and bag drop technology, into one physical location. CalRecycle’s Economic and Fiscal Impact Statement (STD 399) concerning Dealer Cooperatives does not include benchmark data for relevant to recycling depots, and at the time of submission of this Stewardship Plan, only one recycling depot is operating in the State. Therefore, reliable historical data relevant to recycling depots is not yet available. However, recycling depots have been in operation for several years throughout the United States and data from these operations can be used to determine annual redemption capacity of recycling depots within the Dealer Cooperative’s proposed network.

The total redemption capacity of a recycling depot is determined by the quantity and type of equipment installed, as well as the daily operating hours of that equipment. Consistent utilization time directly increases a depot’s overall redemption capacity. Recycling depots typically incorporate a combination of redemption technologies, including traditional weigh scales, single-feed RVMs, bulk-feed RVMs, and bag drop collection units, all integrated with sorting technology to efficiently process and redeem CRV materials. The Dealer Cooperative estimates that a typical recycling depot within its network will be equipped with one (1) single-

¹⁰ Data based on equipment specifications provided by MachineX, TOMRA (January 2025).

feed RVM, one (1) bag drop collection unit, two (2) bulk-feed RVMs, and one (1) weigh scale to maximize operational efficiency and consumer convenience.

Within a recycling depot, the bag drop system operates differently from a traditional standalone bag drop unit. At a recycling depot, consumers can drop off bagged CRV-eligible materials for processing at a later time by the recycling operator. The material is then counted and sorted using a bulk-feed RVM to provide the maximum operational efficiency. Therefore, the capacity of this equipment is equivalent to the capacity of a bulk-feed RVM.

Using specifications provided by two globally recognized manufacturers of redemption sorting equipment designed to operate in recycling depots, the Dealer Cooperative estimates a typical depot in its network will be capable of redeeming 63,763,200 CRV-eligible containers annually, as detailed below:

Table 16.7: Recycling Depot Capacity by Equipment

RECYCLING DEPOT EQUIPMENT	Average Unit Capacity per Minute of Operation	Total Annual Capacity
Single-feed RVM	45	4,665,600
Bulk-feed RVM (2)	125	36,720,000
Bag drop system	125	8,640,000
Weigh scale	100	13,737,600
TOTAL	-	63,763,200

The Dealer Cooperative estimates it will operate 9 recycling depots across its network within 18 months of CalRecycle's approval of its Stewardship Plan, with additional depots planned for operation in subsequent years. These depots will represent a combined annual redemption capacity of 573,868,800 CRV-eligible units, corresponding to an annual redemption potential of 38.02% of the total number of individual CRV units sold by Dealer Members between August 1, 2023, and July 31, 2024.

7. TOTAL REDEMPTION CAPACITY

The table below is an aggregate of each redemption method the Dealer Cooperative expects to deploy and the corresponding calculated capacity of each method. This table demonstrates that, at full operation, the Dealer Cooperative's network is designed to achieve an annual redemption capacity of 1,650,611,513 CRV-eligible containers in optimal conditions, exceeding the baseline requirement established by Dealer Member annual sales of 1,509,337,618 CRV-eligible units. The redemption capacity of 109.36% aligns with the obligation to meet or surpass the minimum redemption volume required under 14 CCR § 2375.4(f).

Table 16.8: *Aggregate Redemption Capacity by Method*

METHOD OF REDEMPTION	Units Deployed	Benchmark #1	Benchmark #2	Projected Redemption Capacity
Mobile recycling	20	120,000,000	280,692,000	7.95%-18.60%
Single-feed RVM	20	12,000,000	82,425,600	0.80%-5.46%
Bulk-feed RVM	16	n/a	191,692,800	12.70%
Kiosks	15	90,000,000	189,897,113	5.96%-12.58%
Bag drop systems	90	540,000,000	332,035,200	35.78%-22.00%
Recycling depots	9	n/a	573,868,800	38.02%
TOTAL	170	762,000,000	1,650,611,513	50.49%-109.36%

8. CONSUMER CONVENIENCE

The Dealer Cooperative is committed to ensuring consumer convenience comparable to the requirements of PRC § 14571 and § 14571.9 of the California Beverage Container Recycling and Litter Reduction Act, as defined in 14 CCR § 2370(a). This includes providing accessible, reliable, and equitable opportunities for consumers to redeem CRV-eligible beverage containers across all unserved convenience zones where Dealer Members operate. According

to 14 CCR § 2370(a), redemption locations must meet one of the following operational standards:

- Operate for a minimum of 30 hours per week, including at least five (5) hours outside traditional business hours (Monday to Friday, 9 a.m. to 5 p.m.).
- Alternatively, provide services that include:
 - At least eight (8) hours on one business weekday (Monday to Friday).
 - At least five (5) hours outside standard business hours during the week.
 - At least eight (8) hours during the weekend (Saturday or Sunday).

During the first 12 months following approval of its Stewardship Plan, the Dealer Cooperative will rely heavily on mobile recycling units to provide convenient redemption opportunities and ensure immediate compliance with consumer convenience requirements. These mobile units will operate on a scheduled, consistent route and will be hosted on Dealer Member premises that can accommodate them. Mobile recycling units will operate for at least eight (8) hours per day, including Saturday and Sunday, ensuring compliance with consumer convenience requirements.

Where a Dealer Member cannot host a mobile solution, the Dealer Cooperative will assess the feasibility of establishing a mobile solution within a one-mile radius of the Member Dealer. In the event this placement is not possible, the Dealer Cooperative will look to establish a redemption solution within a one-mile to one-and-a-half-mile radius of the Member Dealer. The Dealer Cooperative does not anticipate frequent use of the one-and-a-half-mile radius alternative. These solutions may include:

- Mobile recycling units operating equivalently those operating at on-site Dealer Member operations
- Kiosks operating 30 or more hours per week

In addition to these mobile and kiosk solutions, the Dealer Cooperative will further improve convenience following the first 12 months of operations through the procurement and implementation of:

- Single-feed and bulk-feed reverse vending machines that provide automated and immediate redemption services for consumers to maximize convenience and accessibility
- Bag drop systems, which allow consumers to redeem all CRV-eligible materials. While unattended bag drops do not provide immediate payment, the Dealer Cooperative will comply with the three (3) day consumer refund window
- Recycling depots, strategically placed to provide comprehensive coverage and serve as consumer-friendly, sustainable redemption hubs

The Dealer Cooperative will ensure transparency by clearly communicating redemption site locations and operating hours through:

- Education and outreach campaign and materials
- Online resources, website, and directory accessible to all consumers

By aligning operations with the standards set forth in 14 CCR § 2370(a), the Dealer Cooperative will ensure compliance with the Beverage Container Recycling and Litter Reduction Act, while delivering accessible, convenient, and sustainable recycling solutions for California.

PART III. PERFORMANCE STANDARDS

STATUTORY CITATION

The following section provides a detailed overview of the requirements outlined in 14 CCR § 2375.6, which specify the necessary performance standards of a Dealer Cooperative Stewardship Plan. These requirements, established by CalRecycle, ensure that stewardship plans are comprehensive, transparent, and compliant with the regulatory framework under the California Beverage Container Recycling and Litter Reduction Act. Each subsection addresses specific elements essential to the effective administration, implementation, and oversight of the Dealer Cooperative's redemption program.

SECTION OVERVIEW

To ensure clarity and consistency, the elements of this section are organized and numbered in accordance with the Model Dealer Cooperative Stewardship Plan document issued by CalRecycle in November 2024.

- 17. Geographic Spread of Redemption Sites [14 CCR § 2375.6(a)]
- 18. Redemption Capacity [14 CCR § 2375.6(b)]
- 19. Redemption Amount [14 CCR § 2375.6(c)]
- 20. Average Wait Time [14 CCR § 2375.6(d)]

17. GEOGRAPHIC SPREAD OF REDEMPTION SITES

The Dealer Cooperative's approach to its geographic distribution of redemption sites is driven by its commitment to equitable access and consumer convenience in unserved convenience zones. Guided by 14 CCR § 2375.6(a), this Dealer-focused and data-driven placement strategy ensures that easily accessible redemption opportunities are conveniently placed in unserved convenience zones where Dealer Members operate.

To meet the requirements of 14 CCR § 2375.6(a), the benchmark criteria for geographic coverage is as follows:

- Wherever possible, at least one redemption opportunity will be placed in the parking lot where the Dealer Member operates to maximize consumer convenience.
- In the event at least one redemption opportunity cannot be placed in the parking lot of a Dealer Member, the Dealer Cooperative will identify an alternative location within a one-mile radius of the Dealer Member's place of business where at least one redemption solution can operate, with the goal of providing convenient access to CRV redemption for a minimum of 80% of the population of the Census tract in which the Dealer Member operates.
- If a suitable location for at least one convenient redemption site cannot be identified within a one-mile (1.0) radius of the Dealer Member, the Dealer Cooperative will identify at least one location within a one-and-a-half-mile (1.5) radius of the Dealer Member's business, with the goal of providing CRV redemption opportunities to a minimum of 80% of the population of the Census tract in which the Dealer Member operates. However, the Dealer Cooperative does not anticipate frequent use of the 1.5-mile radius alternative, as most redemption solutions will be placed within the 1.0-mile standard.

To guide placement decisions in the case where a Dealer Member cannot accommodate at least one redemption solution, the Dealer Cooperative will leverage geospatial mapping tools, Google Maps, and publicly available U.S. Census 2020 tract data and resources from CalRecycle's Model Cooperative Stewardship Plan¹¹, to identify optimal redemption site locations that provide convenience comparable to the requirements of Section 14571 of the California Beverage Container Recycling and Litter Reduction Act as defined in Section 2370(a).

- **Geospatial Mapping Software** to layer Census data and incorporate Dealer Member, recycling operator, and processor locations, as well as other relevant data sets such as visual representations of convenience zones.

¹¹ California State Geoportal for Location-based Data: <https://gis.data.ca.gov/> and United States Census Bureau Population Data: <https://data.census.gov/profile/California?g=040XX00US06>

- **U.S. Census 2020 tract data** to determine total population and geographic boundaries within unserved convenience zones
- **Google Maps** to validate proposed site placements, accessibility, and feasibility in urban and rural zones

By combining these various data sets, the Dealer Cooperative will create actionable, descriptive maps that identify gaps in convenience coverage and ensure that each site serves at least 80% of the population within a one (1.0) mile, or if needed, a one-and-a-half (1.5) mile radius of the Dealer Member. These maps will include population coverage visuals and multiple scenarios for site placement, designed to ensure compliance while maintaining flexibility. Each proposed placement will be evaluated for accessibility, visibility, and community compatibility, with adjustments made as needed to align with both regulatory requirements and consumer convenience.

For example, a Dealer Member store situated in a dense urban area may have limited parking lot or sidewalk space, making it unsuitable for hosting a mobile recycling solution or other on-site redemption option. Additional considerations regarding the site might need to be addressed such as public safety, sanitation, and potential loitering around the site, which can further complicate placement decisions and impede the success of expanding CRV redemption options. Using data sets and leveraging mapping software, the Dealer Cooperative will help facilitate stakeholder engagement by providing a transparent and easily shareable visual representation of proposed sites for collaboration with Dealer Members, local governments, and community groups.

The Dealer Cooperative will submit quarterly reports to CalRecycle to ensure transparency around the dynamic geographic spread of its redemption network. These reports will include:

- Dealer Member locations hosting redemption opportunities as well as the type and number of redemption opportunities at the location
- Dealer Member locations not hosting redemption opportunities and the type and number of redemption opportunities available at the closest alternative site located within a one-to-one-and-a-half-mile radius of the non-hosting Dealer, including the percentage of the population of the Census tract served by the closest alternative site
- Recommendations for new sites or relocations to enhance consumer access, when applicable

By leveraging data-driven strategies and fostering collaboration among Dealer Members, community groups, and the public, the Dealer Cooperative will ensure a convenient, efficient and consumer-focused redemption network. This adaptive approach not only ensures compliance with 14 CCR § 2375.6(a) but also reflects the Dealer Cooperative's commitment to sustainability, equity, and consumer convenience while addressing the diverse needs of urban, suburban, and rural convenience zones.

18. REDEMPTION CAPACITY

The Dealer Cooperative is committed to developing and maintaining a redemption network capable of redeeming, at a minimum, 100 percent of the beverage containers sold by Dealer Members into the unserved convenience zones where they operate. As outlined in Section 16 of this Stewardship Plan, the Dealer Cooperative's redemption network must redeem approximately 1.51 billion beverage containers annually to comply with 14 CCR § 2375.4(f)(2).

Achieving this scale of redemption capacity in the Dealer Cooperative network requires the strategic deployment of high-capacity equipment and innovative redemption methods designed to maximize container intake, transaction efficiency, and most importantly consumer convenience. Mobile recycling units, single and bulk-feed RVMs, bag drops, and depots are scalable solutions that can be tailored to the unique capacity needs of each convenience zone and will provide fast, reliable, and engaging redemption experiences that minimize wait times and enhance overall consumer satisfaction.

A. EQUIPMENT OPERABLE TIME

The Dealer Cooperative recognizes that the effectiveness of high-capacity solutions largely depends on their continuous functionality and accessibility. To ensure this continuous functionality, the Dealer Cooperative will actively monitor daily redemption activity across all unserved convenience zones where the Dealer Cooperative operates and will use a benchmark of 98% operable time across its network, excluding interruptions resulting from normal operations and maintenance, and interruptions caused by natural disasters or unsafe operating conditions, as its measure of success.

Equipment malfunctions or interruptions in regular recycling schedules can reduce redemption capacity by limiting consumer access. Identifying and immediately addressing potential service disruptions is critical to ensuring network success. When disruptions occur, the Dealer Cooperative will promptly investigate the cause, work with its recycling operator partners to resolve the issue, and implement corrective measures such as reallocating resources, increasing staffing levels, or deploying alternative methods of redemption to address service gaps.

To measure network performance to the 98% operable time benchmark and thereby ensure a 100% redemption capacity for each unserved convenience zone, the Dealer Cooperative will submit quarterly reports to CalRecycle that detail the redemption capacity of its network by location. For each unserved convenience zone, these reports will include:

- Methods of recycling offered
- Quarterly redemption capacity of each method of recycling
- Total CRV units redeemed by each method of recycling measured
- Total CRV units sold by the Dealer Members

- Comparison of CRV units sold by Dealer Members to CRV redemption site capacity
- Documentation of service interruptions, including causes, actions taken, and prevention strategies for future disruptions, compared to total expected operating time

The Dealer Cooperative will also foster a culture of self-reporting among its recycling operator partners to encourage prompt notification of service disruptions. This ensures timely corrective actions and minimizes impact on consumers. By maintaining a proactive approach to management of the entire network, coupled with collaboration with recycling operators, the Dealer Cooperative will ensure its redemption network remains fully operational and capable of meeting the 100 percent redemption capacity standard required under 14 CCR § 2375.6(b).

19. REDEMPTION AMOUNT

Pursuant to 14 CCR § 2375.6(c), the Dealer Cooperative is committed to developing CRV redemption infrastructure and operational support to achieve, at a minimum, an 80 percent redemption rate for beverage containers sold by Dealer Members in unserved convenience zones.

Achieving this redemption rate requires the Dealer Cooperative to invest in and strategically deploy high-capacity equipment and innovative redemption methods designed to maximize beverage container intake, transaction efficiency, and overall consumer participation. In the near term, the Dealer Cooperative will prioritize the immediate deployment of easily deployable solutions such as mobile recycling units and kiosks, offering convenient, fast, and reliable redemption options tailored to the specific needs of each unserved zone to achieve compliance. Over the long term, the Dealer Cooperative will expand its network by investing in and introducing high-capacity redemption systems, including integrative bag drop programs, single-feed and bulk-feed RVMs, and recycling depots equipped with advanced technologies, ensuring scalable growth and compliance with the required 80% redemption rate. By introducing and scaling high-capacity redemption solutions and enhancing operational efficiency, the Dealer Cooperative will drive consumer participation and improve redemption rates across unserved convenience zones.

To complement its high-capacity equipment strategy, the Dealer Cooperative will execute targeted outreach and advertising campaigns to raise consumer awareness of available redemption opportunities and encourage community participation rates within the Dealer Cooperative's network. As detailed in Section 12 of this Stewardship Plan, this outreach will include community engagement, educational materials, and promotions via traditional and digital media.

To further ensure its recycling operator partners consistently work to achieve the 80 percent redemption goal, Dealer Cooperative field staff will conduct regular site visits and provide real-time oversight. During these visits, field staff will monitor site performance by reviewing daily redemption data, equipment functionality, and transaction efficiency to identify and resolve any operational issues that could hinder redemption capacity. They will collaborate with recycling operators to troubleshoot equipment malfunctions, optimize site layout to increase throughput, identify potential opportunities for increased community awareness and outreach, and address staffing needs to minimize wait times and maximize container intake. Field staff will also evaluate consumer interactions and satisfaction levels, offering recommendations for improvements in service or additional staff training as necessary. Finally, field staff will compile their findings during each visit in order to assess progress made during subsequent visits.

By addressing and documenting these key areas, the Dealer Cooperative will ensure its redemption network remains fully functional, consumer-friendly, and capable of supporting long-term growth aimed at achieving the 80 percent redemption target. These combined outreach and oversight efforts will drive consumer participation and ensure compliance with 14 CCR § 2375.6(c).

To measure progress and ensure compliance with redemption requirements, the Dealer Cooperative will submit quarterly reports to CalRecycle that detail redemption performance for each convenience zone. For each unserved convenience zone, these reports will include:

- Total CRV units redeemed by each method of recycling measured
- Total CRV units sold by Dealer Members in each convenience zone
- Comparison of these two measures

These reports will assist the Dealer Cooperative in identifying convenience zones with consistent redemption rate underperformance. This visibility will allow for recommendations for improvements to infrastructure, staffing, or outreach to enhance redemption rates and service reliability. The Dealer Cooperative will partner closely with recycling operator partners as well as CalRecycle to implement targeted strategies to address gaps and improve redemption rate outcomes where appropriate. By maintaining a proactive and collaborative approach to maximizing redemption in its network, the Dealer Cooperative can ensure success while supporting California's recycling goals.

20. AVERAGE WAIT TIME

Pursuant to 14 CCR § 2375.6(d), the Dealer Cooperative is committed to ensuring a positive consumer experience by maintaining quick and efficient redemption transactions with acceptable consumer wait times.

The Dealer Cooperative has established a benchmark for consumer wait times by combining findings from a 2018 study conducted by CalRecycle and the Regents University of California with proprietary data gathered from internal surveys conducted in early 2025 among the Dealer Cooperative's recycling operator and manufacturer partners. The CalRecycle study, presented to the California State Legislature, found that consumers using staffed recycling centers experienced an average wait time of 10 minutes per transaction and indicated a willingness to wait up to 16 minutes to redeem their material¹². The Dealer Cooperative's internal surveys, conducted in January 2025 with recycling operator partners and manufacturers, provided critical insights into consumer redemption behaviors, transaction patterns, and recycling equipment utilization across the state. These findings confirmed that wait times are largely determined by the volume of customers and the availability of staff to assist them. These internal surveys revealed that consumer wait times across the Dealer Cooperative's partnership network were approximately 10 minutes¹³ per transaction, a benchmark consistent with established CalRecycle research presented to the California State Legislature.

By aggregating these datasets from key stakeholders in the California redemption ecosystem, the Dealer Cooperative has set its benchmark for acceptable consumer wait times in its network at between five (5) and ten (10) minutes.

The Dealer Cooperative will assess average wait times across its redemption network through direct monitoring during on-site visits as well as through consumer feedback. Wait times will be measured by using time-stamped observations, queue counting, and built-in transaction logs from automated systems like RVMs and kiosks. These efforts will be supplemented with consumer feedback gathered through feedback forms submitted by consumers via the Dealer Cooperative's website. The Dealer Cooperative will also standardize best practices for its partners in both consumer-facing processes and internal operations to ensure consistency and efficiency across the network, with the goal of further reducing consumer wait time throughout its network.

To measure network performance against the five (5) to ten (10) minute benchmark, the Dealer Cooperative will submit quarterly reports to CalRecycle that detail consumer wait-time performance across its network. These reports will include:

- Average wait times observed at redemption sites by Dealer Cooperative field staff

¹² Peter Berck et al., *Convenient Beverage Container Recycling in California: A Report to the California State Legislature*, Regents of the University of California, July 2, 2018. Prepared pursuant to agreement DRR15053 with CalRecycle.

¹³ Aggregate calculation of Circular CRV Association internal surveys conducted in January 2025 with recycling operator and manufacturer partners.

- Any relevant feedback received by consumers through feedback forms
- An analysis of all sites exceeding the ten (10) minute maximum benchmark wait time, and any operational improvements or resource adjustments made to reduce it. Factors that will be considered when making any adjustments include, but are not limited to:
 - Adding additional high-capacity redemption methods
 - Adding experienced staff to speed processing time
 - Adjusting daily operating hours
 - Adding additional redemption sites within the convenience zone

The Dealer Cooperative will identify and address factors that increase consumer wait times. Where feasible, the Dealer Cooperative will actively engage with recycler operator partners and other industry partners to make operational improvements to streamline the redemption process and enhance efficiency and consumer satisfaction. This commitment will help ensure a faster, more efficient, and consumer-focused redemption process while maintaining compliance with 14 CCR § 2375.6(d).

PART IV. BUDGET

STATUTORY CITATION

The following section provides a detailed overview of the requirements outlined in 14 CCR § 2375.8, which specify the necessary budget and funding requirements of a Dealer Cooperative Stewardship Plan. These requirements, established by CalRecycle, ensure that stewardship plans are comprehensive, transparent, and compliant with the regulatory framework under the California Beverage Container Recycling and Litter Reduction Act. Each subsection addresses specific elements essential to the effective administration, implementation, and oversight of the Dealer Cooperative's redemption program.

SECTION OVERVIEW

To ensure clarity and consistency, the elements of this section are organized and numbered in accordance with the Model Dealer Cooperative Stewardship Plan document issued by CalRecycle in November 2024.

- 21. Anticipated Costs [14 CCR § 2375.8(a)]
- 22. Funding Level and Reserves [14 CCR § 2375.8(b)]

21. ANTICIPATED COSTS

In accordance with 14 CCR § 2375.8, the Dealer Cooperative has developed a comprehensive budget to support the administration and implementation of its Stewardship Plan. The Dealer Cooperative raises revenue by assessing annual membership fees on its Dealer Members, which are collected and renewed at the start of each calendar year under the terms of a membership agreement. These fees are designed to exclusively support the operation and administration of the Dealer Cooperative and its related activities, ensuring the successful execution of its obligations as defined by the California Beverage Container Recycling and Litter Reduction Act.

The accompanying budget table in *Exhibit H* provides an itemized list of anticipated costs, as required under 14 CCR § 2375.8(a). These costs cover key categories defined in 14 CCR § 2381(c)(6), such as program administration, outreach, education, and compliance activities. The table details the monetary amounts allocated for each category and outlines how the funds have been used since January 1, 2025, and how they will be used through June 2026 to achieve the objectives of the Stewardship Plan.

The Dealer Cooperative is committed to responsibly managing its financial resources and delivering practical, effective solutions to meet the state's CRV redemption goals.

22. FUNDING LEVEL AND RESERVES

The Dealer Cooperative's funding mechanism of assessing yearly membership fees on member participants is designed to provide a balanced and fair distribution of costs allocated to Dealer Members while incentivizing Dealer participation in providing consumers with convenient and accessible redemption opportunities. This structure supports the Dealer Cooperative's long-term sustainability and encourages ongoing collaboration with Dealer Members. The Dealer Cooperative estimates necessary annual funding of \$3,000,000 to operate its Stewardship Plan.

Pursuant to 14 CCR § 2375.8(b), the Dealer Cooperative has established a funding strategy designed to prudently and responsibly cover its budgeted costs while maintaining adequate monetary reserves. These reserves are critical to ensuring the Dealer Cooperative's ability to operate proactively and sustainably while buttressing against unforeseen operating deficits. The initial reserve amount to be set aside in the first year of the Dealer Cooperative's operations is targeted at \$500,000, funded in the first financial quarter of 2025, as shown in the table above.

In the very unlikely event that no Dealer Member renews their membership at the end of 2025, the Dealer Cooperative projects a structural deficit of approximately \$1,500,000 on January 1, 2026, for operations throughout 2026, as detailed in Table 22.1 below:

Table 22.1: Monetary Reserve Funds

MONETARY RESERVE FUNDS	Amount (\$, '000s)
Anticipated Operating Costs <i>January 1, 2025 – December 31, 2025</i>	2,800
Operating Surplus <i>December 31, 2025</i>	200
Budget Reserve <i>December 31, 2025</i>	500
Total Cash on Hand <i>December 31, 2025</i>	700
Surplus / (Deficit) <i>January 1, 2026</i> <i>(excludes one-time expenses in Yr 1)</i>	(1,500)

In such a scenario, the Dealer Cooperative would take immediate measures to reduce operating expenses beginning January 1, 2026, and adjust operations to mitigate the deficit without affecting services offered to the consumer. Deficits will be addressed through budget adjustments, cost reductions, or additional funding mechanisms approved by the Dealer Cooperative's Board of Directors, ensuring the program remains sustainable and effective for its members and the consumer. The Dealer Cooperative does not anticipate such an outcome, as enhanced regulatory enforcement is expected to drive additional Dealers Members to join the Dealer Cooperative.

Conversely, surplus operating funds generated through operations will be reinvested into program enhancements that are approved by the Dealer Cooperative's Board of Directors. These investments may include website enhancements to provide better access to redemption information, hiring additional staff to support operations and outreach, expanding community engagement programs to increase CRV awareness and participation, and acquiring capital assets with the goal of assisting recycling operators to reduce operating expenses while providing redemption opportunities in unserved convenience zones on behalf of Dealer Members.

Grant Funding

The Dealer Cooperative's annual budget estimate does not include any revenue from grant funding. However, the Dealer Cooperative is pursuing a long-term funding strategy that includes applying for public and private grant opportunities to support the deployment, operational, and management costs of its CRV redemption network.

Public funding opportunities, such as CalRecycle's Beverage Container Redemption Innovation Grant program (RIG), will be a key component of the Dealer Cooperative's strategy. RIG grants support start-up costs for innovative recycling solutions that align with the Dealer Cooperative's redemption strategy, such as mobile recycling units, bag drop systems, and scalable long-term investments like high-capacity redemption depots and automated technologies. RIG grants are typically reimbursable, requiring upfront costs to be covered before reimbursement. To accommodate this, the Dealer Cooperative anticipates it will, at times, deploy its reserve funds to bridge the financial gap by covering eligible expenses such as equipment acquisition and deployment costs. Once assets are acquired, they will be operated by recycling operator partners, eliminating their financial burden and enabling the rapid expansion of consumer access to CRV redemption opportunities according to the Dealer Cooperative's operational timeline.

By securing and managing public grant funding to benefit recycling operator partners—many of whom lack the capacity to cover equipment acquisition costs or administer public grants independently—the Dealer Cooperative can ensure the financial sustainability and efficient statewide deployment of scalable, consumer-focused redemption solutions. The Dealer Cooperative's strategy of securing public funding will reduce operating expenses for recyclers

while maximizing the impact of public funds. The result will be a more sustainable, efficient, and innovative redemption network that expands access and drives long-term growth across California.

To complement public funding, the Dealer Cooperative will seek private funding from philanthropic organizations, foundations, and other non-governmental entities aligned with its mission. Private funding will help bridge gaps in public funding by supporting projects that expand community access to CRV redemption, invest in critical infrastructure, and drive innovation in public goods. These additional funds will strengthen the Dealer Cooperative's ability to acquire essential assets, implement targeted consumer outreach programs, and maintain financial sustainability and operational readiness. By engaging the private sector and civil society organizations, the Dealer Cooperative can leverage shared responsibility for environmental stewardship and maximize contributions from key stakeholders committed to developing sustainable, long-term recycling infrastructure across California, driving progress toward a more sustainable future.

By diversifying its funding sources through a combination of public and private grant opportunities, the Dealer Cooperative will reduce its reliance on any single funding stream, creating a resilient financial foundation for a next-generation recycling infrastructure network in California. This network will be capable of adapting to evolving market and political conditions and while ensuring long-term sustainability and growth.

The Dealer Cooperative is committed to accountability and proper communication throughout the grant funding and implementation process, meeting all requirements established by CalRecycle and other public funding sources. For private grant funding, the Dealer Cooperative will provide appropriate acknowledgment of the philanthropic organization or grant source in its quarterly and annual reports. The Dealer Cooperative is dedicated to delivering innovative and financially sustainable CRV redemption opportunities that advance California's ambitious resource recovery and environmental stewardship goals.

PART V. RECORDKEEPING PROCESSES

STATUTORY CITATION

The following section provides a detailed overview of the requirements outlined in 14 CCR § 2380, which specify the recordkeeping requirements of a Dealer Cooperative Stewardship Plan. These requirements, established by CalRecycle, ensure that stewardship plans are comprehensive, transparent, and compliant with the regulatory framework under the California Beverage Container Recycling and Litter Reduction Act. Each subsection addresses specific elements essential to the effective administration, implementation, and oversight of the Dealer Cooperative's redemption program.

SECTION OVERVIEW

To ensure clarity and consistency, the elements of this section are organized and numbered in accordance with the Model Dealer Cooperative Stewardship Plan document issued by CalRecycle in November 2024.

- 23. Records of Redemption Transactions [14 CCR § 2380(b)]
- 24. Location of Records [14 CCR § 2380(f)(1)]

23. RECORDS OF REDEMPTION TRANSACTIONS

A. BEVERAGE CONTAINER TRANSACTIONS

The Dealer Cooperative will ensure that all beverage container redemption transactions are properly prepared and retained in accordance with 14 CCR § 2380(b). To do this, the Dealer Cooperative will require its State-certified recycling operator partners to gather, legibly record, and store the following information for each CRV redemption transaction the operator conducts on behalf of the Dealer Cooperative:

Consumer Details

- First name
- Last name
- Signature
- If the redemption transaction is completed using an unstaffed RVM or bag drop, the consumer's name and 'signature consent' obtained at the time the consumer initiated their digital account with the Dealer Cooperative will serve as the consumer's name and signature.

Transaction Details

- Date of the transaction
- Address of the transaction location
- Method of redemption (e.g., RVM, bag drop, etc.)
- Total payment amount made to the customer, by material type

For any non CRV-eligible material received from consumers by any recycling operator partner operating on behalf of the Dealer Cooperative, the Dealer Cooperative will require its partners to gather, record, and store the following information for each transaction:

- Date the material is received
- An explanation for the refund value not being paid to a customer (e.g., system failure, material ineligibility for refund, unidentifiable customer)
- Total weight or count of materials by material type
- Explanation of how the material received was managed
- The amount of scrap value paid to the customer, if any

B. REDEMPTION TRANSACTION RECORD AUDITS

During unannounced site visits to locations operating on its behalf, Dealer Cooperative field staff will conduct regular audits of redemption transaction records. These audits will ensure all transactions recorded on behalf of the Dealer Cooperative are in full compliance with the requirements outlined in 14 CCR § 2380(b). During each visit, field staff will review individual transaction records spanning a minimum (3) three-week period.

Records found to be out of compliance will be promptly addressed with the recycling operator partner, and a formal warning will be issued specifying the corrective actions needed on their behalf. If the recycling operator fails to comply with the recordkeeping requirements at any point within the succeeding twelve (12) months, the Dealer Cooperative will issue a formal "Notice to Terminate Partnership." This notice will be communicated to CalRecycle as required by regulatory guidelines.

24. LOCATION OF RECORDS

The Dealer Cooperative will require its State-certified recycling operator partners, all of whom currently adhere to record retention and data accessibility provisions, to ensure their strict compliance with all requirements set forth in 14 CCR § 2380(e) regarding the storage of beverage container redemption transactions.

As part of their agreement with the Dealer Cooperative, recycling operator partners will securely store all original redemption transaction records at the physical redemption site, or at alternative offsite facilities and will be required to notify the Dealer Cooperative of the storage location. While each recycling operator partner follows its own established record-keeping practices, the Dealer Cooperative will strictly enforce that records of all CRV transactions completed on its behalf are also maintained by the recycling operator partner in physical paper form, even if initially generated electronically, to comply with regulatory requirements. Partner compliance with these record retention standards is critical to the Dealer Cooperative's oversight, regulatory compliance, and the overall success of its redemption network.

Records of all redemption transactions will be protected from debris, moisture, contamination, exposure to hazardous waste, fire, and theft. Additionally, records of transactions performed on behalf of the Dealer Cooperative by its recycling operator partners will be kept separate from non-Dealer Cooperative transactions that those partners may perform. Audits will be performed regularly by Dealer Cooperative field staff to ensure compliance with the requirements outlined in 14 CCR § 2380(e).

Pursuant to 14 CCR § 2380(f)(1), the Dealer Cooperative will ensure CalRecycle will have immediate access to CRV transaction records stored by recycling operator partners on its behalf. For onsite audits performed by CalRecycle, recycling operator partners will ensure original records are available at redemption sites for immediate review upon request. For unannounced audits, recycling operators will provide records for the day of the audit, while scheduled audits will require retrieval of records for the designated date range, as determined by CalRecycle's request. Finally, records of any CRV redemption transactions will be made available, upon request from CalRecycle, within 48 hours for inspection at the following locations:

1. **Circular CRV Association**
1005 12th Street Lower 2
Sacramento, CA 95814
2. **Circular CRV Association**
1020 N Lake Street
Burbank, CA 91502

The Dealer Cooperative will ensure delivery of any record requested by CalRecycle within (10) days of the request being made. Additionally, the Dealer Cooperative will ensure all beverage container redemption records will be retained by the Dealer Cooperative's recycling operator partners for a minimum period of five (5) years as required under 14 CCR § 2085(b).

Part II **Organizational Structure**

- 1** You must be a corporation, limited liability company (LLC), unincorporated association, or trust to be tax exempt.

Select your type of organization.

☒ Corporation

At the end of this form, you must upload a copy of your articles of incorporation (and any amendments) that shows proof of filing with the appropriate state agency.

☐ Limited Liability Company (LLC)

At the end of this form, you must upload a copy of your articles of organization (and any amendments) that shows proof of filing with the appropriate state agency. Also, if you adopted an operating agreement, upload a copy, along with any amendments.

☐ Unincorporated Association

At the end of this form, you must upload a copy of your articles of association, constitution, or other similar organizing document that is dated and includes at least two signatures. Include signed and dated copies of any amendments.

☐ Trust

At the end of this form, you must upload a signed and dated copy of your trust agreement. Include signed and dated copies of any amendments.

- 2** Enter the date you formed. (MM/DD/YYYY)

05/31/2024

- 3** Select your state (or U.S. territory) of incorporation or other formation. If you were formed under the laws of a foreign country, select Foreign Country.

CA

- 4** Have you adopted bylaws? If "Yes," at the end of this form, upload a current copy showing the date of adoption. If "No," explain how you select your officers, directors, or trustees.

☒ Yes

☐ No

- 5** Are you a successor to another organization?

☐ Yes

☒ No

Answer "Yes" if you have taken or will take over the activities of another organization, you took over 25% or more of the fair market value of the net assets of another organization, or you were established upon the conversion of an organization from for-profit to nonprofit status. If "Yes," complete Schedule G.

Part III Required Provisions in Your Organizing Document

Part III helps ensure that, when you submit this application, your organizing document contains the required provisions to meet the organizational test under section 501(c)(3).

If you cannot check "Yes" in both Lines 1 and 2, your organizing document does not meet the organizational test. DO NOT file this application until you have amended your organizing document. Remember to upload your original and amended organizing documents at the end of this form.

- 1** Section 501(c)(3) requires that your organizing document limit your purposes to one or more exempt purposes within section 501(c)(3), such as charitable, religious, educational, and/or scientific purposes.

The following is an example of an acceptable purpose clause: The organization is organized exclusively for charitable, religious, educational, and scientific purposes under section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code.

Does your organizing document meet this requirement?

☒ Yes ☐ No

- 1a** State specifically where your organizing document meets this requirement, such as a reference to a particular article or section in your organizing document (Page/Article/Paragraph):

Articles of Incorporation, Page 1, Additional Statements, Paragraph 2

- 2** Section 501(c)(3) requires that your organizing document provide that upon dissolution, your remaining assets be used exclusively for section 501(c)(3) exempt purposes, such as charitable, religious, educational, and/or scientific purposes. Depending on your entity type and the state in which you are formed, this requirement may be satisfied by operation of state law.

The following is an example of an acceptable dissolution clause: Upon the dissolution of this organization, assets shall be distributed for one or more exempt purposes within the meaning of section 501(c)(3) of the Internal Revenue Code, or corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government, for a public purpose.

Does your organizing document meet this requirement?

☒ Yes ☐ No

- 2a** State specifically where your organizing document meets this requirement, such as a reference to a particular article or section in your organizing document (Page/Article/Paragraph) or indicate that you rely on state law.

Articles of Incorporation, Page 1, Additional Statements, Paragraph 5

Part IV **Your Activities**

1 Describe completely and in detail your past, present, and planned activities. Do not refer to or repeat the purposes in your organizing document. For each past, present, or planned activity, include information that answers the following questions:

- a. What is the activity?
- b. Who conducts the activity?
- c. Where is the activity conducted?
- d. What percentage of your total time is allocated to the activity?
- e. How is the activity funded (for example, donations, fees, etc.) and what percentage of your overall expenses is allocated to this activity?
- f. How does the activity further your exempt purposes?

The Specific Purpose of the corporation is to operate as a stewardship organization formed to provide redemption opportunities under California Public Resources Code Section 14578.

See Attachment "Narrative Description of Activities".

Part IV **Your Activities** (continued)

- 2** Enter the 3-character NTEE Code that best describes your activities.

C27

Or check here if you want the IRS to select the NTEE Code that best describes your activities.

- 3** Do any of your programs limit the provision of goods, services, or funds to a specific individual or group of specific individuals? For example, answer "Yes" if goods, services, or funds are provided only for a particular individual, your members, individuals who work for a particular employer, or graduates of a particular school. If "Yes," explain the limitation and how recipients are selected for each program. ☐ Yes ☒ No

- 4** Do any individuals who receive goods, services, or funds through your programs have a family or business relationship with any officer, director, trustee, or with any of your highest compensated employees or highest compensated independent contractors? If "Yes," explain how these related individuals are eligible for goods, services, or funds. ☐ Yes ☒ No

- 5** Do you or will you support or oppose candidates in political campaigns in any way? If "Yes," explain. ☐ Yes ☒ No

- 6** Do you or will you attempt to influence legislation? If "Yes," explain how you attempt to influence legislation. ☒ Yes ☐ No

From time to time, the Corporation may submit feedback on potential legislation, submit proposals for regulations or promote changes to existing legislations. However, these types of activities will in no way constitute a substantial part of its activities. For example, the Corporation will not devote more than 1-2% of its time to these activities. Additionally, the Corporation will not expend more than the amount described in 26 U.S. Code § 4911(c)(2) on these types of activities.

Part IV **Your Activities** *(continued)*

- 6a** Did you or will you make an election to have your legislative activities measured by expenditures by filing Form 5768? If "No," describe whether your attempts to influence legislation are a substantial part of your activities. Include the time and money spent on your attempts to influence legislation as compared to your total activities. ☐ Yes ☒ No

The Corporation will not devote more than 1-2% of its time to these activities. Additionally, the Corporation will not expend more than the amount described in 26 U.S. Code § 4911(c)(2) on these types of activities.

- 7** Do you or will you publish, own, or have rights in music, literature, tapes, artworks, choreography, scientific discoveries, or other intellectual property? If "Yes," describe who owns or will own any copyrights, patents, or trademarks, whether fees are or will be charged, how the fees are determined, and how any items are or will be produced, distributed, and marketed. ☐ Yes ☒ No

- 8** Do you or will you provide educational information to the general public on budgeting, personal finance, financial literacy, saving and spending practices, the sound use of consumer credit, and/or assist individuals and families with financial problems such as credit card debt and foreclosure by providing them with counseling? If "Yes," explain. ☐ Yes ☒ No

- 9** Do you or will you make grants, loans, or other distributions to organizations? If "Yes," describe the type and purpose of the grants, loans, or distributions, how you select your recipients including submission requirements (such as grant proposals or application forms), and the criteria you use or will use to select recipients. Also describe how you ensure the grants, loans, and other distributions are or will be used for their intended purposes (including whether you require periodic or final reports on the use of funds and any procedures you have if you identify that funds are not being used for their intended purposes). Finally, describe the records you keep with respect to grants, loans, or other distributions you make and identify any recipient organizations and any relationships between you and the recipients. If "No," continue to Line 10. ☒ Yes ☐ No

The Corporation intends to donate from time to time nominal funds to other 501(c)(3)'s with missions consistent with the purpose of the Corporation. For example, the Corporation donated \$5,000 to Californians Against Waste which is a 501(c)(3) tax exempt organization that is also focused on increasing recycling throughout California. The Corporation will maintain all records reflecting any such donations.

Additionally, while not a grant, loan or distribution, the Corporation plans to purchase and install recycling equipment and enter into leases for buildings where such equipment can be operated. The Corporation then plans to contract with recyclers to run the operations of those facilities in order to promote accessible recycling solutions throughout California. The equipment will be leased out to the recyclers at close to cost. The Corporation will not be making a profit on these relationships and is instead focused on helping create viable recycling solutions.

Part IV **Your Activities** *(continued)*

- 9a** Do you or will you make grants, loans, or other distributions to organizations that are not recognized by the IRS as tax exempt under section 501(c)(3)? If "Yes," name and/or describe the non-section 501(c)(3) organizations to whom you do or will make distributions and explain how these distributions further your exempt purposes. ☐ Yes ☒ No

- 9b** Do you or will you make grants, loans, or other distributions to foreign organizations? If "Yes," name each foreign organization (if not already provided), the country and region within each country in which each foreign organization operates, any relationship you have with each foreign organization, and whether the foreign organization accepts contributions earmarked for a specific country or organization (if so, specify which countries or organizations). If "No," continue to Line 10. ☐ Yes ☒ No

- 9c** Do your contributors know that you have ultimate authority to use contributions made to you at your discretion for purposes consistent with your exempt purposes? If "Yes," describe how you relay this information to contributors. ☐ Yes ☐ No

- 9d** Do you or will you make pre-grant inquiries about the recipient organization? If "Yes," describe these inquiries, including whether you inquire about the recipient's financial status, its tax-exempt status under the Internal Revenue Code, its ability to accomplish the purpose for which the resources are provided, and other relevant information. ☐ Yes ☐ No

- 9e** Do you or will you use any additional procedures to ensure that your distributions to foreign organizations are used in furtherance of your exempt purposes? If "Yes," describe these procedures, including periodic reporting requirements, auditing grantees, site visits by your employees or compliance checks by impartial experts, etc., to verify that grant funds are being used appropriately. ☐ Yes ☐ No

Part IV **Your Activities** (continued)

- 9f** Do you share board members or other key personnel with the recipient organization(s)? If "Yes," identify the relationships. ☐ Yes ☐ No

- 9g** When you make grants, loans, or other distributions to foreign organizations, will you check the OFAC List of Specially Designated Nationals and Blocked Persons for names of individuals and entities with whom you are dealing to determine if they are included on the list? Describe any other practices you will engage in to ensure that foreign expenditures or grants are not diverted to support terrorism or other non-charitable activities. ☐ Yes ☐ No

- 9h** Will you comply with all United States statutes, executive orders, and regulations that restrict or prohibit U.S. persons from engaging in transactions and dealings with designated countries, entities, or individuals, or otherwise engaging in activities in violation of economic sanctions administered by OFAC? ☐ Yes ☐ No

- 9i** Will you acquire from OFAC the appropriate license and registration where necessary? ☐ Yes ☐ No

- 10** Do you or will you operate in a foreign country or countries? If "Yes," name each foreign country and region within each country in which you do or will operate and describe your operations in each one. If "No," continue to Line 11. ☐ Yes ☒ No

- 10a** When you conduct activities in foreign countries, will you check the OFAC List of Specially Designated Nationals and Blocked Persons for names of individuals and entities with whom you are dealing to determine if they are included on the list? Describe any other practices you will engage in to ensure that foreign expenditures or grants are not diverted to support terrorism or other non-charitable activities. ☐ Yes ☐ No

- 10b** Will you comply with all United States statutes, executive orders, and regulations that restrict or prohibit U.S. persons from engaging in transactions and dealings with designated countries, entities, or individuals, or otherwise engaging in activities in violation of economic sanctions administered by OFAC? ☐ Yes ☐ No

- 10c** Will you acquire from OFAC the appropriate license and registration where necessary? ☐ Yes ☐ No

Part IV **Your Activities** *(continued)*

- 11** Are you a sponsoring organization that maintains one or more donor advised funds? If yes, please provide a complete description of your program, including the specific advice that such donors may provide. Describe in detail the control you maintain (or will maintain) over the use of the funds. ☐ Yes ☒ No

- 12** Do you or will you operate a school? ☐ Yes ☒ No
If "Yes," complete Schedule B.

- 13** Is your principal purpose or function to provide hospital or medical care? ☐ Yes ☒ No
If "Yes," complete Schedule C.

- 14** Do you or will you provide low-income housing? ☐ Yes ☒ No
If "Yes," complete Schedule F.

- 15** Do you or will you provide scholarships, fellowships, educational loans, or other educational grants to individuals, including grants for travel, study, or other similar purposes? ☐ Yes ☒ No
If "Yes," complete Schedule H - Section I.

- 16** Check any of the following fundraising activities that you will undertake (check all that apply):

- | | |
|--|--|
| <input checked="" type="checkbox"/> Website, mail, email, personal, and/or phone solicitations | Foundation grant solicitations |
| <input checked="" type="checkbox"/> Receive donations from another organization's website | <input checked="" type="checkbox"/> Government grant solicitations |
| Bingo | Other (non-bingo) gaming activities |
| <input checked="" type="checkbox"/> Other (describe) | |

Stewardship Fees

We will not engage in fundraising activities.

- 17** Do you or will you engage in fundraising activities for other organizations? If "Yes," describe these arrangements, including the names or descriptions of the organizations for which you raise funds. ☐ Yes ☒ No

Part V Compensation and Other Financial Arrangements

- 1** Do you or will you compensate officers, directors, or trustees, or do or will you have highest compensated employees, or highest compensated independent contractors? If "No," continue to Line 2. ☒ Yes ☐ No

In establishing compensation for your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors:

- 1a** Do or will the individuals that approve compensation arrangements follow a conflict of interest policy? ☒ Yes ☐ No
- 1b** Do or will you approve compensation arrangements in advance of paying compensation? ☒ Yes ☐ No
- 1c** Do or will you document in writing the date and terms of approved compensation arrangements? ☒ Yes ☐ No
- 1d** Do or will you record in writing the decision made by each individual who decided or voted on compensation arrangements? ☒ Yes ☐ No
- 1e** Do or will you approve compensation arrangements based on information about compensation paid by similarly situated taxable or tax-exempt organizations for similar services, current compensation surveys compiled by independent firms, or actual written offers from similarly situated organizations? ☒ Yes ☐ No
- 1f** Do or will you record in writing both the information on which you relied to base your decision and its source? ☒ Yes ☐ No
- 1g** Do or will you have any other practices you use to set reasonable compensation? If "Yes," describe these practices. ☒ Yes ☐ No

See conflict of interest policy attached as Exhibit A.

- 2** Have you adopted a conflict of interest policy consistent with the sample conflict of interest policy in Appendix A to the instructions? If you are a hospital, answer "Yes" if your conflict of interest policy includes provisions consistent with the additional healthcare related provisions in the sample document. If "No," describe the procedures you will follow to ensure that persons who have a conflict of interest will not have influence over setting their own compensation or regarding business deals with themselves. ☒ Yes ☐ No

Meetings of Board of Directors.

- 3** Do you or will you compensate any of your officers, directors, trustees, highest compensated employees, and highest compensated independent contractors through non-fixed payments, such as discretionary bonuses or revenue-based payments? If "Yes," describe all non-fixed compensation arrangements, including how the amounts are determined, who is eligible for such arrangements, whether you place a limitation on total compensation, and how you determine or will determine that you pay no more than reasonable compensation for services. ☒ Yes ☐ No

By resolution of the Board of Directors, the Corporation has adopted a conflict of interest policy consistent with the sample conflict of interest policy in Appendix A to the instructions for Form 1023. A copy of the Corporation's conflict of interest policy is attached as Exhibit A.

Part V Compensation and Other Financial Arrangements (continued)

- 4 Do you or will you purchase or sell any goods, services, or assets from or to: (i) any of your officers, directors, or trustees; (ii) any family of any of your officers, directors, or trustees; (iii) any organizations in which any of your officers, directors, or trustees are also officers, directors, or trustees, or in which any individual officer, director, or trustee owns more than a 35% interest; (iv) your highest compensated employees; or (v) your highest compensated independent contractors? If "Yes," describe any such transactions that you made or intend to make, with whom you make or will make such transactions, how the terms are or will be negotiated at arm's length, and how you determine you pay no more than fair market value or you are paid at least fair market value.
- ☐ Yes ☒ No

- 5 Do you or will you have any leases, contracts, loans, or other agreements with: (i) your officers, directors, or trustees; (ii) any family of any of your officers, directors, or trustees; (iii) any organizations in which any of your officers, directors, or trustees are also officers, directors, or trustees, or in which any individual officer, director, or trustee owns more than a 35% interest; (iv) your highest compensated employees; or (v) your highest compensated independent contractors? If "Yes," describe any written or oral arrangements that you made or intend to make, with whom you have or will have such arrangements, how the terms are or will be negotiated at arm's length, and how you determine you pay no more than fair market value or you are paid at least fair market value.
- ☒ Yes ☐ No

The Corporation was loaned \$250,000.00 from the California Grocers Association ("CGA"). One of the directors of the Corporation, Ronald Fong, is the Chief Executive Officer of CGA. The other two directors of the Corporation and Executive Director, approved the terms of the note and negotiated the agreement.

The Corporation was loaned \$250,000.00 from Retail Marketing Services ("RMS"). One of the directors of the corporation, Matthew Dodson, is the Chief Executive Officer of RMS. The other two directors of the Corporation and Executive Director, approved the terms of the note and negotiated the agreement.

- 6 Do you or will you contract with another organization to develop, build, market, or finance your facilities? If "Yes," describe each facility, the role of the other organization, and any business or family relationship between the organization and your officers, directors, or trustees. Explain how that entity is selected, how the terms of any contract(s) are negotiated at arm's length, and how you determine you will pay no more than fair market value for services.
- ☐ Yes ☒ No

Part V Compensation and Other Financial Arrangements (continued)

- 7** Does or will someone other than your own employees or volunteers manage your activities or facilities? ☐ Yes ☒ No
- If "Yes," describe the activities or facilities that will be managed by others, the names of the persons or organizations that manage or will manage your activities or facilities, and any business or family relationship between the organization and your officers, directors, or trustees. Explain how these managers were or will be selected, how the terms of any contracts or other agreements were or will be negotiated, and how you determine you will pay no more than fair market value for services.

- 8** Do you participate in any joint ventures, including partnerships or limited liability companies treated as partnerships, in which you share profits and losses with partners? If "Yes," state your ownership percentage in each joint venture, list your investment in each joint venture, describe the tax status of other participants in each joint venture (including whether they are section 501(c)(3) organizations), describe the activities of each joint venture, describe how you exercise control over the activities of each joint venture, and describe how each joint venture furthers your exempt purposes. ☐ Yes ☒ No

P Financial Data

- 1** Select the option that best describes you to determine the years of revenues and expenses you need to provide.
- ☒ You completed less than one tax year.
Provide a total of three years of financial information (including the current year and two future years of reasonable and good faith projections of your future finances) in the following Statement of Revenues and Expenses.
- ☐ You completed at least one tax year but fewer than five.
Provide a total of four years financial information (including the current year and three years of actual financial information or reasonable and good faith projections of your future finances) in the following Statement of Revenues and Expenses.
- ☐ You completed five or more tax years.
Provide financial information for your five most recent tax years (including the current year) in the following Statement of Revenues and Expenses.

Part VI Financial Data (continued)**A. Statement of Revenues and Expenses**

Type of revenue	Current tax year	4 prior tax years or 2 succeeding tax years			
	From: 05/31/2024 To: 12/31/2024	From: 01/01/2025 To: 12/31/2025	From: 01/01/2026 To: 12/31/2026	From: _____ To: _____	From: _____ To: _____
1 Gifts, grants, and contributions received (do not include unusual grants)	500,000.00	0	0		
2 Membership fees received	0	2,340,000.00	2,500,000.00		
3 Gross investment income	0	10,000.00	15,000.00		
4 Net unrelated business income	0	0	0

Part VII Foundation Classification

Part VII is designed to classify you as an organization that is either a private foundation or a public charity. Public charity classification is a more favorable tax status than private foundation classification. If you are a private foundation, this part will further determine whether you are a private operating foundation.

1 Select the foundation classification you are requesting from the list below.

- ☒ You are described in 509(a)(1) and 170(b)(1)(A)(vi) as an organization that receives a substantial part of its financial support in the form of contributions from publicly supported organizations, from a governmental unit, or from the general public.
- ☐ You are described in 509(a)(2) as an organization that normally receives not more than one-third of its financial support from gross investment income and receives more than one-third of its financial support from contributions, membership fees, and gross receipts from activities related to its exempt functions (subject to certain exceptions).
- ☐ You are described in 509(a)(1) and 170(b)(1)(A)(i) as a church or a convention or association of churches. Complete Schedule A.
- ☐ You are described in 509(a)(1) and 170(b)(1)(A)(ii) as a school. Complete Schedule B.
- ☐ You are described in 509(a)(1) and 170(b)(1)(A)(iii) as a hospital, a cooperative hospital service organization, or a medical research organization operated in conjunction with a hospital. Complete Schedule C.
- ☐ You are described in 509(a)(1) and 170(b)(1)(A)(iv) as an organization operated for the benefit of a college or university that is owned or operated by a governmental unit.
- ☐ You are described in 509(a)(1) and 170(b)(1)(A)(ix) as an agricultural research organization directly engaged in the continuous active conduct of agricultural research in conjunction with a college or university.
- ☐ You are described in 509(a)(3) as an organization supporting either one or more organizations described in 509(a)(1) or 509(a)(2) or a publicly supported section 501(c)(4), (5), or (6) organization. Complete Schedule D.
- ☐ You are described in 509(a)(4) as an organization organized and operated exclusively for testing for public safety.
- ☐ You are a publicly supported organization and would like the IRS to decide your correct classification.
- ☐ You are a private foundation.

1a As a private foundation, section 508(e) requires special provisions in your organizing document in addition to those that apply to all organizations described in section 501(c)(3). Check this box to confirm that your organizing document includes these provisions or you rely on state law.

State specifically where your organizing document meets this requirement, such as a reference to a particular article or section in your organizing document (Page/Article/Paragraph) or state that you rely on state law.

1b Do you or will you provide scholarships, fellowships, educational loans, or other educational grants to individuals, including grants for travel, study, or other similar purposes? ☐ Yes ☒ No
If "Yes," complete Schedule H - Section II.

1c Are you a private operating foundation? ☐ Yes ☒ No

To be a private operating foundation you must engage directly in the active conduct of charitable, religious, educational, and similar activities, as opposed to indirectly carrying out these activities by providing grants to individuals or other organizations.

Part VII **Foundation Classification** *(continued)*

- 1d** Describe how you meet the requirements for private operating foundation status, including how you meet the income test and either the assets test, the endowment test, or the support test. If you've been in existence for less than one year, describe how you are likely to satisfy the requirements for private operating foundation status.

- 2** If you have been in existence more than 5 years, you must confirm your public support status. To confirm your qualification as a public charity described in 509(a)(1) and 170(b)(1)(A)(vi) in existence for five or more tax years, you must have received one-third or more of your total support from governmental agencies, contributions from the general public, and contributions or grants from other public charities; or 10% or more of your total support from governmental agencies, contributions from the general public, and contributions or grants from other public charities and the facts and circumstances indicate you are a publicly supported organization. Calculate whether you meet this support test for your most recent five-year period.

- i. Did you receive contributions from any person, company, or organization whose gifts totaled more than the 2% amount of line 8 in Part VI-A? ☐ Yes ☐ No

If "Yes," identify each person, company, or organization by letter (A, B, C, etc.) and indicate the amount contributed by each. Keep a list showing the name of and amount contributed by each of these donors for your records.

- ii. Based on your calculations, did you receive at least one-third of your support from public sources or did you normally receive at least 10 percent of your support from public sources and you have other characteristics of a publicly supported organization? ☐ Yes ☐ No

- 2a** If you have been in existence more than 5 years, you must confirm your public support status. To confirm your qualification as a public charity described in 509(a)(2) in existence for five or more tax years, you must have normally received more than one-third of your support from contributions, membership fees, and gross receipts from activities related to your exempt functions, or a combination of these sources, and not more than one-third of your support from gross investment income and net unrelated business income. Calculate whether you meet this support test for your most recent five-year period.

- i. Did you receive amounts from any disqualified persons? ☐ Yes ☐ No

If "Yes," identify each disqualified person by letter (A, B, C, etc.) and indicate the amount contributed by each. Keep a list showing the name of and amount contributed by each of these donors for your records.

- ii. Did you receive amounts from individuals or organizations other than disqualified persons that exceeded the greater of \$5,000 or 1% of the amount on line 10 of Part VI-A Statement of Revenues and Expenses? ☐ Yes ☐ No

If "Yes," identify each individual or organization by letter (A, B, C, etc.) and indicate the amount contributed by each. Keep a list showing the name of and amount contributed by each of these donors for your records.

- iii. Based on your calculations, did you normally receive more than one-third of your support from a combination of gifts, grants, contributions, membership fees, and gross receipts (from permitted sources) from activities related to your exempt functions and normally receive not more than one-third of your support from investment income and unrelated business taxable income? ☐ Yes ☐ No

Part VIII Effective Date

In general, a determination letter recognizing exemption of an organization described in section 501(c)(3) is effective as of the date of formation of an organization if: (1) its purposes and activities prior to the date of the determination letter have been consistent with the requirements for exemption; and (2) it has filed an application for recognition of exemption within 27 months from the end of the month in which it was organized.

- 1 Are you submitting this application within 27 months of the end of the month in which you were legally formed? ☒ Yes ☐ No

If "No," complete Schedule E.

Part IX Annual Filing Requirements

If you fail to file a required information return or notice for three consecutive years, your exempt status will be automatically revoked.

- 1 Certain organizations are not required to file annual information returns or notices (Form 990, Form 990-EZ, or Form 990-N, e-Postcard). If you are granted tax-exemption, are you claiming to be excused from filing Form 990, Form 990-EZ, or Form 990-N? ☐ Yes ☒ No

If "Yes," are you claiming you are excepted from filing because you are:

- ☐ A church or association of churches
- ☐ An integrated auxiliary (such as a men's or women's organization, religious school, mission society, or religious group)
- ☐ A church-affiliated organization (other than a section 509(a)(3) organization) that is exclusively engaged in managing funds or maintaining retirement programs and is described in Revenue Procedure 96-10, 1996-1 C.B. 577
- ☐ A school below college level affiliated with a church or operated by a religious order
- ☐ A mission society (other than a section 509(a)(3) supporting organization) sponsored by, or affiliated with, one or more churches or church denominations, if more than half of the society's activities are conducted in, or directed at, persons in foreign countries
- ☐ An affiliate of a governmental unit that meets the requirements of Revenue Procedure 95-48, 1995-2 C.B. 418 (other than a section 509(a)(3) supporting organization)
- ☐ Other (describe)

Part X Signature

I declare under the penalties of perjury that I am authorized to sign this application on behalf of the above organization and that I have examined this application, and to the best of my knowledge it is true, correct, and complete.

Brian Phillips

Upload checklist:

☒ Organizing document (and any amendments)

☒ Bylaws, if adopted

Form 2848, Power of Attorney and Declaration of Representative (if applicable)

Form 8821, Tax Information Authorization (if applicable)

Supplemental responses (if applicable)

Expedited handling request (if applicable)

Schedule E. Effective Date

- 1** Are you applying for reinstatement of exemption after being automatically revoked for failure to file required returns or notices for three consecutive years? If "No," continue to Line 2. ☐ Yes ☒ No

- 1a** Revenue Procedure 2014-11, 2014-1 C.B. 411, provides procedures for reinstating your tax-exempt status. Select the section of Revenue Procedure 2014-11 under which you want us to consider your reinstatement request.

- ☐ Section 4. You are seeking retroactive reinstatement under section 4 of Revenue Procedure 2014-11. By selecting this line, you attest that you meet the specified requirements of section 4, that your failure to file was not intentional, and that you have put in place procedures to file required returns or notices in the future. Do not complete the rest of Schedule E.
- ☐ Section 5. You are seeking retroactive reinstatement under section 5 of Revenue Procedure 2014-11. By selecting this line, you attest that you meet the specified requirements of section 5, that you have filed required annual returns, that your failure to file was not intentional, and that you have put in place procedures to file required returns or notices in the future.
- Describe how you exercised ordinary business care and prudence in determining and attempting to comply with your filing requirements in at least one of the three years of revocation and the steps you have taken or will take to avoid or mitigate future failures to file timely returns or notices. Do not complete the rest of Schedule E.
- ☐ Section 6. You are seeking retroactive reinstatement under section 6 of Revenue Procedure 2014-11. By selecting this line, you attest that you meet the specified requirements of section 6, that you have filed required annual returns, that your failure to file was not intentional, and that you have put in place procedures to file required returns or notices in the future.
- Describe how you exercised ordinary business care and prudence in determining and attempting to comply with your filing requirements in each of the three years of revocation and the steps you have taken or will take to avoid or mitigate future failures to file timely returns or notices. Do not complete the rest of Schedule E.
- ☐ Section 7. You are seeking reinstatement under section 7 of Revenue Procedure 2014-11, effective the date you are filling this application. Do not complete the rest of Schedule E.

- 2** Generally, if you did not file Form 1023 within 27 months of formation, the effective date of your exempt status will be the date you filed Form 1023 (submission date). Requests for an earlier effective date may be granted when there is evidence to establish you acted reasonably and in good faith and the grant of relief will not prejudice the interests of the government.

- ☐ Check this box if you accept the submission date as the effective date of your exempt status. Do not complete the rest of Schedule E.
- ☐ Check this box if you are requesting an earlier effective date than the submission date.

- 2a** Explain why you did not file Form 1023 within 27 months of formation, how you acted reasonably and in good faith, and how granting an earlier effective date will not prejudice the interests of the Government.

You may want to include the events that led to the failure to timely file Form 1023 and to the discovery of the failure, any reliance on the advice of a qualified tax professional and a description of the engagement and responsibilities of the professional as well as the extent to which you relied on the professional, a comparison of (1) what your aggregate tax liability would be if you had filed this application within the 27-month period with (2) what your aggregate liability would be if you were exempt as of your formation date, or any other information you believe will support your request for relief.
