Introduction

The Mattress Recycling Council California, LLC (MRC), a limited liability company owned by Mattress Recycling Council Inc. (MRC Inc.), a non-profit corporation, is pleased to submit this amended California Mattress Recycling Plan (the Plan) to the California Department of Resources Recycling and Recovery (CalRecycle) pursuant to the Used Mattress Recovery and Recycling Act (the Act), codified from Section 42985 to 42994 of the California Public Resources Code (PRC), and the Used Mattress Recovery and Recycling Program Regulations (the Regulations), 14 CCR Sections 18959 to 18971.

Pursuant to Sections 18962(a)(3) and 18961(a)(1) of the Regulations, the Plan is submitted by:

Alison Keane
President
Mattress Recycling Council California, LLC

Used Mattress Recovery and Recycling Act

In September 2013, California enacted the Used Mattress Recovery and Recycling Act, which requires mattress producers to create a statewide recycling program (the Program) to collect and recycle mattresses and foundations discarded in the state. To implement the Act, CalRecycle issued the Regulations. The Program is funded by a recycling charge collected on each mattress and foundation sold for use in the state.

Mattress Recycling Council

In late 2013, the mattress industry, through its trade association, the International Sleep Products Association (ISPA), formed MRC Inc. for the sole purpose of designing, implementing, and administering recycling programs in states with mattress recycling laws. MRC Inc. is a tax-exempt non-profit corporation incorporated in the state of Delaware under Section 501(c)(3) of the Internal Revenue Code. Pursuant to Section 42986 of the Act, CalRecycle certified MRC Inc. as a mattress recycling organization. In 2017, MRC Inc. established separate limited liability companies to operate each of the state-specific mattress recycling programs that it administers. MRC was the entity that MRC Inc. established to operate the Program in California.

MRC oversees all aspects of the Program, including the collection, transportation and recycling of discarded mattresses. MRC's activities are funded by a charge on the sale of mattresses and foundations in California.

Proof of Certification

The Regulations - 14 CCR Section 18962(a)

- (1) Proof of Certification.

The Act - PRC Section 42987(a)

- (1) A qualified industry association or a successor organization may establish a mattress recycling organization for purposes of this chapter, which shall be composed of manufacturers, renovators, and retailers and be certified pursuant to this section to develop, implement, and administer the mattress recycling program established pursuant to this chapter.

Pursuant to section 18962(a)(1) **Appendix A** contains CalRecycle's letter confirming MRC Inc. certification.

Manufacturers, Renovators, Distributors, Retailers and Brands

The Act - PRC Section 42987.1

- (b) The names of manufacturers, renovators, distributors, and brands covered under the plan.

The Regulations - 14 CCR Sections 18961 and 18962

- 18961(2) List contact information for each manufacturer, renovator, and retailer the mattress recycling organization is composed of, including, but not limited to:

(A) Name of Company

(B) Mailing or corporate address

(C) Upon request by the department, the following information shall be provided, if available: individual Web address, contact name, title, phone number, and e-mail address of participating manufacturers, renovators, and retailers. The requested information shall be submitted within 30 days of the request unless extended as determined by the department.

- 18962(a)(3) Contact information per section 18961

MRC regularly provides CalRecycle updated lists of (i) manufacturers, distributors and renovators (including their mailing addresses), and (ii) brands that have registered with MRC and are therefore covered by the Plan. Likewise, MRC regularly provides CalRecycle an updated list of retailers (including their mailing addresses) that have registered with MRC, and are therefore covered by the Plan. The most recent available lists at the time of this Plan's submission are in **Appendices B, C and D.**

Definitions

In this document, MRC describes the Plan, as required by Section 42987.1 of the Act. The following terms defined in Section 42986 of the Act are relevant to the Plan:

42986(c):

“Foundation” means a ticking-covered structure used to support a mattress or sleep surface. The structure may include constructed frames, foam, box springs, or other materials, used alone or in combination.

42986(g):

- (1) **“Mattress”** means a resilient material or combination of materials that is enclosed by a ticking, is used alone or in combination with other products, and is intended for or promoted for sleeping upon.
- (2) **“Mattress”** includes a foundation, a renovated mattress or renovated foundation, and a futon mattress.

- (3) "Mattress" does not include the following:
- (A) An unattached mattress pad or unattached mattress topper, including items with resilient filling, with or without ticking, intended to be used with or on top of a mattress.
 - (B) A sleeping bag or pillow.
 - (C) A car bed, crib, or bassinet mattress.
 - (D) Juvenile products, including a carriage, basket, dressing table, stroller, playpen, infant carrier, lounge pad, or crib bumper, and the pads for those juvenile products.
 - (E) A product containing liquid- and gaseous-filled ticking, including a waterbed and air mattress that does not contain upholstery material between the ticking and the mattress core.
 - (F) Upholstered furniture that does not otherwise contain a detachable mattress or that is a fold out sofa bed, sleeper sofa, or folding cot.

42986(l):

"**Recycle**" or "**recycling**" means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace. "Recycling" does not include incineration, pyrolysis, distillation, or biological conversion other than composting.

42986(m):

"**Recycler**" means a person that engages in the manual or mechanical separation of mattresses to substantially recover components and commodities contained in mattresses for the purpose of reuse or recycling.

42986(o):

- (1) "**Renovate**" or "**renovation**" means altering a used mattress for the purpose of resale and includes one or more of the following:
- (A) Replacing the mattress, ticking, or filling.
 - (B) Adding additional filling.
 - (C) Rebuilding a used mattress.
 - (D) Replacing components with new or postconsumer materials unless the material is a clean recycled material, consists of used electronic parts or controls, or is a used mattress base that is not covered by ticking.
- (2) "Renovate" or "renovation" does not include any of the following:
- (A) Stripping a mattress of its ticking or filling without adding new material.
 - (B) Sterilizing or sanitizing a mattress without otherwise altering the mattress.
 - (C) Altering a mattress by a renovator when a person retains the altered mattress for lease, rental, or personal use.

- (D) Refurbishing that disqualifies a mattress for a yellow wholesale renovator tag to be affixed to the mattress, in accordance with the regulations adopted by the Department of Consumer Affairs.

42986(p):

"**Renovator**" means a person who renovates used mattresses for the purpose of sale, or offering for sale, in this state.

42986(q):

"**Retailer**" means a person who sells mattresses in the state or offers to a consumer a mattress in the state through any means, including, but not limited to, by remote offering, including sales outlets or catalogs, electronically through the Internet, by telephone, or through the mail.

In addition to the above statutory definitions, MRC for ease of reference has defined the term "Unit" or "Units" as used in this Plan to be synonymous with the terms "Mattress" or "Mattresses," respectively.

Program Goals, Methods and Activities

Section 42987.1 of the Act and Section 18962 of the Regulations describe Plan requirements for explaining the Program's goals, methods and activities.

Program Objectives

The Regulations - 14 CCR Section 18962(a)(2)

- (A) Identify program objectives consistent with California's solid waste management hierarchy as required by subdivision (a) of section 42987.1 of the Public Resources Code.
- (G) For plans submitted after January 1, 2018, identify objectives and activities that will comply with the state mattress recycling goals, pursuant to section 42987.5 of the Public Resources Code.

Consistency with California's Solid Waste Management Hierarchy

Section 18962(a)(2)(A) of the Regulations provides that the Plan respond to Section 42987.1(a) of the Act, which requires that MRC set "Program objectives consistent with the state's solid waste management hierarchy."

The California solid waste management hierarchy is defined by the following provisions of the California Integrated Waste Management Act of 1989, codified at Sections 40051, 40052 and 40196 of the California Public Resources Code. Those specific provisions read as follows:

Section 40051.

In implementing this division, the board and local agencies shall do both of the following:

- (a) Promote the following waste management practices in order of priority:
 - (1) Source reduction.
 - (2) Recycling and composting.
 - (3) Environmentally safe transformation and environmentally safe land disposal, at the discretion of the city or county.
- (b) Maximize the use of all feasible source reduction, recycling, and composting options in order to reduce the amount of solid waste that must be disposed of by transformation and land disposal. For wastes that cannot feasibly be reduced at their source, recycled, or composted, the local agency may use environmentally safe transformation or environmentally safe land disposal, or both of those practices.

Section 40052.

The purpose of this division is to reduce, recycle, and reuse solid waste generated in the state to the maximum extent feasible in an efficient and cost-effective manner to conserve water, energy and other natural resources, to protect the environment, to improve regulation of existing solid waste landfills, to ensure that new solid waste landfills are environmentally sound, to improve permitting procedures for solid waste management facilities, and to specify the responsibilities of local governments to develop and implement integrated waste management programs.

Section 40196.

“Source reduction” means any action which causes a net reduction in the generation of solid waste. “Source reduction” includes, but is not limited to, reducing the use of non-recyclable materials, replacing disposable materials and products with reusable materials and products, reducing packaging, reducing the amount of yard wastes generated, establishing garbage rate structures with incentives to reduce the amount of wastes that generators produce, and increasing the efficiency of the use of paper, cardboard, glass, metal, plastic, and other materials. “Source reduction” does not include steps taken after the material becomes solid waste or actions which would impact air or water resources in lieu of land, including, but not limited to, transformation.

Related to the above provisions, the term “recycle” used in Sections 40050 and 40051 above is defined as follows:

Section 40180.

"Recycle" or "recycling" means the process of collecting, sorting, cleansing, treating, and reconstituting materials that would otherwise become solid waste, and returning them to the economic mainstream in the form of raw material for new, reused, or reconstituted products which meet the quality standards necessary to be used in the marketplace.

"Recycling" does not include transformation, as defined in Section 40201 or EMSW conversion.

Likewise, the term “transformation” is defined as:

Section 40201.

"Transformation" means incineration, pyrolysis, distillation, or biological conversion other than composting. "Transformation" does not include composting, gasification, EMSW conversion, or biomass conversion.

The legislative findings expressed in Section 42985(a)(2) the Act state that MRC's Plan shall "support of the statewide goal that at least 75 percent of all solid waste be recycled by January 1, 2020," a goal defined in Section 41780.01(a) of the California Public Resources Code, which provides:

it is the policy goal of the state that not less than 75 percent of solid waste generated be source reduced, recycled, or composted by the year 2020, and annually thereafter.

MRC's Plan objectives and implementation strategy focus on diverting discarded mattresses from landfill disposal, and instead delivering them to recyclers that dismantle them so that the steel, foam, fiber and fabric, wood and other materials recovered from that process can be used to manufacture new products. Consistent with the above requirements, MRC undertakes such work in an efficient and cost-effective manner that conserves natural resources and protects the environment.

MRC's Plan advances California's hierarchy as follows:

1. **Source Reduction:** To encourage mattress manufacturers to reduce the environmental impact of their mattress assembly operations (and thereby support California's source reduction goals), MRC's Sleep Products Sustainability Program (SP2) works with manufacturers that produce mattresses in California for residents to develop internal practices focused on reducing waste, increasing operational efficiencies and reducing energy inputs. SP2 helps companies establish a management system that identifies steps for reducing environmental impacts, developing best practices and defining metrics to track progress. SP2 can also serve as a foundation for pursuing an ISO 14001 certification, the international standard for effective environmental management systems. MRC offers SP2 training, program resources and certification at no cost to eligible manufacturers.

In 2021, MRC conducted a Life Cycle Analysis (LCA) of our California Program to evaluate the program's environmental impacts from collection through recycling end markets or landfill. The LCA provides insight into key environmental indicators such as greenhouse gas emissions, energy use, and landfill diversion, helping to guide future planning and sustainability strategies. MRC's objective is to evaluate the baseline performance of current recycling operations using these and other environmental performance metrics. We hope the LCA will inform policy development, guide future decisions and provide tools that can be used to evaluate and potentially decrease the impacts of the Program.

MRC's research program also supports California's solid waste hierarchy by (1) reducing waste through funding projects to develop more efficient mattress collection, transportation, deconstruction and recycling systems, and (2) identifying new and better uses for recycled mattress materials. For example, MRC funds projects that:

- Improve mattress collection facility infrastructure to increase landfill diversion and recyclability of discarded units. Examples include covers to protect discarded units from rain, equipment to improve worker safety and paving collection areas to improve feedstock quality.
- Improve transportation efficiencies by measuring and increasing the number of units loaded per container.
- Evaluating transportation lanes to decrease Program drive miles and carbon emissions.
- Offer lean manufacturing assessments to mattress dismantling and recycling operators to improve their throughput and profitability.
- Explore new uses for mattress components including foam, wood, cotton, shoddy pad, mixed textiles and pocketed coils.
- Characterize the material composition of MRC recyclers' waste to better understand the age and mixture of material entering recycling facilities and the fraction of material that is thrown away.
- Foster innovation, cooperation and communication between suppliers, manufacturers, dismantlers and end-market commodity buyers around the world by working with other experts in the field and sharing information on efforts to develop technology that will make possible a circular economy for polyurethane foam.

Source reduction messaging is also reflected in MRC's consumer outreach. We provide information about proper mattress support, protection and maintenance to increase a unit's useful life and therefore, reduce the frequency and number of units being discarded.

2. **Reuse:** A primary goal of the Program is to divert discarded mattresses that would otherwise be disposed of as solid waste. The Plan does not interfere with reuse or renovation activity that complies with state and federal law. Compliant renovators are included in MRC's collection network and commonly purchase discarded units and component parts from recyclers. Details about the number of units and pounds of component material sold to renovators is provided in each annual report.

3. **Recycle:** Discarded mattresses and foundations contain a variety of commodities that can be reclaimed and sold into secondary markets for use in manufacturing new products. MRC supports the efforts of our contracted recyclers by awarding research contracts to explore new uses for mattress components including foam, wood, cotton, shoddy pad, mixed textiles and pocketed coils. Details about MRC's work to support recycling is provided in each annual report.
4. **Composting:** If alternative end uses are not available, wood and other materials removed from mattresses and foundations may be composted, but this does not happen often due to the composition of most mattress components. For example, foundation wood has been kiln-dried and does not quickly degrade in commercial compost facilities. As a result, it is not an ideal feedstock.
5. **Bio-mass Conversion:** Foundation wood may be used for bio-mass conversion at the discretion of each contracted recycler. MRC considers this beneficial use as recycling for the purposes of this Program and Section 40201 of the California Public Resources Code, quoted above.
6. **Landfill:** MRC's contracts require our recyclers to recycle as much of each mattress and foundation as is reasonable and financially practical. Materials that may be sent to landfill because they cannot be recycled may include whole units or components that:
 - Are severely damaged or twisted;
 - Are wet, frozen, or heavily soiled;
 - Are infested with bed bugs or other biological contaminants that make them either unsafe to process or their constituent materials unmarketable; or
 - Have no financially viable or available end market.

Consistency with State Mattress Recycling Goals

Section 18962(a)(2)(G) of the Regulations provides that the Plan “identify objectives and activities that will comply with the state mattress recycling goals.”

CalRecycle established, in consultation with MRC, the state mattress recycling baseline amount and state mattress recycling goals. On or before July 1, 2020, and every four years thereafter, the statute requires the department to review and update as necessary the state mattress baseline and goals to confirm that the Program advances these goals. MRC’s annual report details collection and convenience goals and reports on MRC’s progress in meeting each one.

MRC will meet Program goals using the combination of objectives and activities described below:

1. **Statewide Recycling Rate:** The statewide recycling rate (whole units recycled) is calculated using data reported to CalRecycle by recyclers, renovators and solid waste facilities. MRC’s objective is to increase Program participation by recruiting additional collectors from known sources of landfilled units including: solid waste facilities that are not participating in the Program, solid waste collectors that aggregate discards collected by curbside collection programs, and commercial volume sources of discarded mattresses. Additionally, MRC cooperates with renovators that are compliant with state and federal laws, using reasonable and economically practical means to support renovation activities.
2. **Statewide Efficiency Rate:** This metric is defined by the percentage of statewide mattress components (by weight) that are diverted from California landfills for recycling or renovation. It is calculated using data reported to CalRecycle by recyclers, renovators and solid waste facilities. MRC’s objectives are to increase the percentage of components (by weight) diverted for recycling or renovation throughout the state and to support MRC-contracted recyclers in increasing the percentage of materials recovered from recycled units. MRC’s activities that support this goal include expanding the permanent collection network, collaborating with compliant renovators, working with recyclers to improve their material separation processes and investing in research projects to find new and better uses for extracted mattress components.
3. **Consumer Convenience (Number of Collection Opportunities):** CalRecycle has defined this metric for consumer convenience as “the number of sites in MRC’s collection network, including disposal facilities that accept mattresses, curbside programs that accept mattresses, and recycling facilities operating both inside and outside of MRC’s Program that accept mattresses, provided they are at no cost to the consumer.” MRC’s objective is to continue expanding consumer

convenience by adding permanent collection sites to the collection network. Activities MRC uses to meet this target include recruiting solid waste facilities, franchise haulers, municipalities, non-profits and local businesses to serve as new collection sites. MRC offers infrastructure funding to collection sites to encourage their participation in the Program. This funding can be used to enable a facility to accommodate trailers, to create a dry space for storing and loading mattresses and to improve loading dock capabilities. In addition to persuading facilities that otherwise might not participate in MRC's Program to accept mattresses for recycling, improvements like these have the added benefit of reducing waste and preserving the quality of the recycled materials (by protecting them from moisture, mold and rodents), decreasing loading times and improving facility efficiency, as well as improving worker safety by creating more ergonomic loading and storage environments. To promote Program participation, MRC engages with environmental organizations, participates on task forces, presents information at conferences and industry events, generates publicity and advertising, and discusses these opportunities directly with municipal leaders and staff.

4. **Consumer Access to the Program (Counties):** This goal requires that MRC must have at least one permanent collection site in each California county whose population exceeds 2,000 residents, and in counties with fewer than 2,000 residents, MRC must host at least two collection events per year. MRC's objective is to continue expanding consumer convenience by recruiting additional permanent collection sites. Activities MRC uses to meet this target include recruiting solid waste facilities, franchise haulers, municipalities, non-profits and local businesses to serve as new collection sites and offering infrastructure funding to collection sites to preserve the quality of discarded units, decrease loading times, improve worker safety etc. and therefore encourage participation in the Program. To promote Program participation, MRC engages with environmental organizations, participates in task forces, presents information at conferences and industry events, generates publicity and advertising, and discusses these opportunities directly with municipal leaders and staff.
5. **Consumer Access to the Program (Percentage):** To measure consumer access, MRC contracts with a demographic analytics consulting firm to measure the percentage of California consumers in urban, rural and environmental justice communities, with access to MRC's collection network using a 15-mile benchmark. For these purposes, rural counties are those disposing of less than 200,000 tons of waste annually, as provided for in the Public Resources Code Section 40184, and the Program's mattress collection network refers to all drop-off locations in MRC's collection network (recyclers and collection sites) and curbside bulky item programs that send their mattresses to MRC recyclers for

dismantling. MRC's objective is to maintain a high accessibility rate for all California consumers. The activities we undertake to maintain and expand access include providing transportation to the existing collection network while seeking to add sites in underserved communities. MRC tracks underserved areas and uses that data to direct our recruiting efforts and resources. This goal does not include additional access for consumers through retailers, which must offer no cost take-back when delivering new mattresses in California which further expands access to consumers throughout the state.

6. **Urban Retailer Access to the Program:** This CalRecycle goal states that urban retailer access be measured by the proximity of the point at which a retailer picks up a consumer's discarded mattress (that is, the consumer's residence) to the nearest permanent collection site that accepts mattresses from retailers. Pursuant to this requirement, the goal measures the percentage of California consumers that reside near permanent collection sites that accept discarded mattresses from retailers and other commercial entities. The urban retailer access goal evaluates the percentage of the population with convenient access within 20 miles of no-cost collection sites that accept mattress units from retailers and their associated delivery parties.
7. **Rural Retailer Access to the Program:** This CalRecycle goal states that rural retailer access be measured by the proximity of the point at which a retailer picks up a consumer's discarded mattress (that is, the consumer's residence) to the nearest permanent collection site that accepts mattresses from retailers. Pursuant to this requirement, the goal measures the percentage of California consumers that reside near permanent collection sites that accept discarded mattresses from retailers and other commercial entities. The rural retailer access goal evaluates the percentage of the population with convenient access within 40 miles of a no-cost collection sites that accept mattress units from retailers and their associated delivery parties in rural counties.

Maximizing Mattress Recycling

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.
- (C) Describe proper end of life management of used mattresses, including but not limited to, a description of how the program will prevent cross contamination of mattresses by bed bugs.
- (D) Describe how the program will increase the quantity of materials recovered and recycled, and market development activities that will be conducted in order to ensure these materials will be used.

The Act - PRC Section 42987.1

- (d) Methods to increase the number of used mattresses diverted from landfills, reduce the number of illegally dumped used mattresses, and increase the quantity of used materials recovered through this process and recycled for other uses.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(d), and Section 18962(a)(2)(D) of the Regulations provides that MRC describe its efforts to increase the quantity of materials recycled and develop markets for those materials (also required in Section 42987.1(d)). Section 18962(a)(2)(C) of the Regulations provides that MRC describe the proper end of life management of used mattresses and how the Program intends to prevent cross contamination by bed bugs.

The Program is designed to properly manage mattresses at the end of life, increase the recovery and recycling of mattress components and reduce the number of mattresses disposed of as solid waste in California by creating diversion alternatives for discarded mattresses generated by mattress retailers, consumers, and businesses throughout California, including:

1. **Solid waste facility compensation:** The Program compensates participating solid waste facilities at negotiated rates for their costs of handling mattresses that they accept free of charge from consumers and businesses. Additionally, MRC provides no-cost storage, transport and recycling of these units. This reduces the quantity of discarded mattresses that the facilities would otherwise landfill.
2. **No-cost retailer recycling:** The Program accepts discarded mattresses from any retailer providing units to an MRC recycler at no cost. Retailers generating more than 100 discarded units may request no-cost pick-up through MRC's Commercial Volume Program. Additionally, most public collection locations in MRC's network also accept discarded units from retailers. Discarded mattresses that retailers provide for recycling reduces the quantity of discarded mattresses they send to landfills.

3. **Mattress retailers:** The Act requires that mattress retailers shall offer a consumer the option to have a used mattress picked up for recovery at no cost when they deliver a new mattress. Since the Program encourages retailers to make the discarded mattresses they collect available for recycling through the Program at no cost, this provision diverts additional quantities of discarded mattresses that a consumer otherwise would dispose of through existing solid waste collection systems.
4. **No-cost business recycling:** Business or large-volume mattress consumers (such as hotels, dormitories, nursing homes, etc.) generating discarded mattresses may recycle with MRC at no cost. Businesses generating more than 100 discarded units may request no-cost pick-up through MRC's Commercial Volume Program. Additionally, most public collection locations in MRC's network also accept discarded units from businesses. This combination of services reduces the quantity of discarded mattresses that such entities dispose of through solid waste facilities.
5. **No-cost consumer drop offs:** The Act provides that consumers may drop off mattresses at participating solid waste facilities and other public drop-off sites throughout California at no cost. This reduces the quantity of mattresses that consumers may illegally dump.
6. **Consumer incentive:** MRC offers California residents delivering discarded mattresses directly to select MRC-contracted drop-off locations a payment. This reduces the quantity of mattresses that consumers would otherwise have sent to existing solid waste collection services. This provision also reduces the quantity of mattresses that consumers otherwise might illegally dump.
7. **Recovery Rate:** MRC requires its contracted recyclers to maximize the recovery of mattress components, including metal, foam, fabric, and wood through the dismantling and recycling process. MRC has established a 75% by weight recycling target for our recyclers. Only non-recyclable scrap is disposed of through the solid waste system using appropriate means. MRC may re-evaluate these targets and adjust them as necessary.
8. **Mitigating illegal dumping:** As discussed in **Illegally Dumped Mattresses** the Program compensates participating local governments, solid waste facilities, solid waste operations and other entities to provide statistical information to MRC on illegal dumping activities in their respective jurisdictions. MRC may re-evaluate this strategy and report additional strategies and projects in its annual report.
9. **Preventing bed bug contamination:** Mattress recyclers receive very few mattresses that are infested with bed bugs. If a contaminated unit arrives at an MRC-contracted recycling facility, the recycler may dispose of the unit or isolate

and treat the unit before recycling. MRC proactively addresses bed bug contamination by providing participating mattress collection sites with collection guidelines and bed bug specific educational materials to prevent contaminated units from entering the Program. MRC also requires its recyclers to have a bed bug management plan.

10. **Mattress Collection Facility Improvement Funding:** To increase the number of mattresses diverted from the waste stream, MRC provides collection sites up to \$10,000 for projects that improve the recyclability of discarded units, improve worker safety or decrease transportation costs by increasing the number of units shipped per container. Award recipients must agree to serve as a mattress collection site for at least one year following completion of the project.

Research

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.
- (D) Describe how the program will increase the quality of materials recovered and recycled, and market development activities that will be conducted in order to ensure these materials will be used.

The Act – PRC 42987.1

- (g) Conducting research, as needed, related to improving used mattress collection, dismantling, and recycling operations, including pilot programs to test new processes, methods, or equipment on a local, regional, or otherwise limited basis.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(g) to conduct research to improve mattress recycling. In addition, Section 18962(a)(2)(D) of the Regulations requires that the Plan include information on market development research.

MRC conducts research on how to improve the efficiency of mattress collection, transportation and recycling processes, as well as identify and develop new and better uses and end markets for recycled mattress components. MRC seeks to improve the sustainability of mattress recycling by:

- Improving the quality and quantity of units obtained from landfills and transfer stations;
- Making mattress transport more efficient;
- Identifying and promoting best practices for mattress dismantling and recycling;
- Researching whether recycled mattress components can be used in new and innovative ways; and

- Fostering innovation, cooperation and communication between suppliers, manufacturers, collectors, dismantlers and recycled material buyers to increase mattress recycling rates.

Identifying new and better end-use markets will increase a recycler's revenues and improve the Program's recycling rate. By partnering with universities, government agencies, industry groups and individual companies, MRC supports research efforts targeted at identifying new end-use markets for mattress materials. MRC emphasizes research into new uses and markets for mattress components that have limited or no viable end markets. Additionally, the research identifies more efficient means for preparing discarded mattress materials for transport to end-use markets.

Research topics that MRC has pursued includes:

1. **More efficient collection containers:** Mattresses are bulky and lightweight. To improve collection and transportation efficiency, it is important to maximize the quantity of units transported in each storage container. MRC has researched and funded processes, equipment and technological alternatives that can help transport units more efficiently, and thereby reduce Program costs.
2. **Foam:** Post-consumer mattress foam has limited end markets, with the vast majority currently used to manufacture carpet padding. Carpet pad manufacturers use both post-consumer and post-industrial foam scrap as their primary feedstocks. MRC has, and will continue to exploring alternative uses of post-consumer foam to increase the value of this material when sold into scrap markets, and thereby increase recyclers' revenue and offset the cost of the recycling process.
3. **Wood:** Most mattress foundations contain a wooden internal frame. MRC has conducted, and will continue to research additional end uses for this material.
4. **Fabric and Fiber:** Many mattresses contain fiber batting, and all mattresses and foundations have an outer fabric cover, called the "ticking." The ticking can be composed of many different kinds of fibers, including cotton, rayon, polyester, and is often quilted or otherwise attached to layers of other materials, including foam, fiber and other fabrics. The composite of the different materials quilted or attached to the ticking is referred to as the "quilt panel." These materials can be difficult to sell, because purchasers of post-consumer fiber and fabric often require that the materials they buy be of a single fiber type. MRC continues to research new end uses for post-consumer fiber, fabric and quilt panels, and processes for separating the different fiber types.
5. **Pocketed Coil Innersprings:** An increasing percentage of discarded mattresses contain innersprings comprised of steel springs individually wrapped in a fabric

pocket created by sewing, gluing or other means. Removing the steel from these pockets can be difficult. MRC previously funded a prototype to effectively separate the steel and fabric pocket and will continue to research alternative solutions for pocketed coil recycling and thereby improve a recycler's scrap revenue, make the recycling process more efficient and reduce recycling costs.

Coordination With Existing Mattress Collectors and Recyclers

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), **(i)**, (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.
- (E) Describe how program will provide convenient mattress collection and drop-off services, without unnecessary duplication of effort and expense, including, but not limited to, contractual agreements.

The Act - PRC 42987.1

- (i) A description of methods used to coordinate activities with existing used mattress collecting and recycling programs, including existing nonprofit mattress recyclers, and with other relevant parties as appropriate, with regard to the proper management or recycling of discarded or abandoned mattresses, for purposes of providing the efficient delivery of services and avoiding unnecessary duplication of effort and expense.

Section 18962(a)(2)(B) of the Regulations requires that the Plan respond to Section 42987.1(i) concerning existing mattress collectors and recyclers. Section 18962(a)(2)(E) of the Regulations also provides that MRC describe how the Program will provide convenient mattress collection and drop-off.

1. **Existing used mattress collection programs:** MRC has created a statewide collection network by collaborating with existing used mattress collectors, including permitted solid waste facilities, authorized solid waste operations, municipal governments, mattress retailers, mattress distributors, mattress renovators, non-profit organizations, collectors of illegally dumped mattresses and large volume generators of discarded mattresses, including hotels and universities. Refer to MRC's annual reports or ByeByeMattress.com to see details on the number, location and types of mattress collection sites that are contracted in the Program.
2. **Existing recycling programs, including non-profit mattress recyclers:** From time to time, MRC solicits proposals from existing mattress recyclers (including non-profit mattress recyclers) that may be interested in providing recycling services to MRC through public requests for proposal (RFPs). These RFPs are posted on MRC's website and are distributed through CalRecycle's mattress

listserv. Refer to MRC's Annual Reports to see a list of recyclers that are contracted in the Program.

Contracted Recyclers

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (j) Entering into contracts or agreements, which may include contracts and agreements with existing nonprofit or for-profit recyclers, that are necessary and proper for the mattress recycling organization to carry out these duties consistent with the terms of this chapter.

Section 18962(a)(2)(B) of the Regulations requires that the Plan describe how MRC will contract with recyclers, as required by Section 42987.1(j). MRC contracts with mattress recyclers that advance the performance metrics that CalRecycle has set for the Program.

MRC may issue public RFPs to recyclers interested in processing discarded mattress units under the Program. Recyclers' RFP responses provide a starting point for negotiation between MRC and the respondents regarding the processing fee MRC will pay and other important aspects of the recycling contract.

RFPs also require that each respondent list all downstream purchasers to which the respondent intends to sell used mattress materials obtained from the recycling process. Recyclers may submit bids that include the sale of materials to renovators that meet applicable state and federal laws. MRC evaluates all proposals based on a combination of factors, including price, experience, recycling technology, capacity, geographic location and completeness of the RFP response.

Mattress Collector Incentive

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), **(k)**, (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (k) Establishment of a financial incentive to encourage parties to collect for recycling used mattresses discarded or illegally dumped in the state.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(k).

The Program provides a monetary incentive for California residents delivering discarded mattresses directly to MRC-designated incentive locations. This incentive:

- Reduces the burden of managing discarded mattresses at solid waste facilities (see **Illegally Dumped Mattresses**).
- Reduces the number of illegally dumped mattresses in California by creating a financial incentive to encourage residents to recycle, rather than dump discarded mattresses.

MRC consumer incentive payment locations pay the incentive by cash, check or other approved means. The incentive “will not undermine existing used mattress recycling, resale, refurbishing, and reuse operations that are in compliance with state and federal law” because it is less than the prices we are informed that renovators pay for used mattresses. MRC may change the terms of the incentive at any time depending on a variety of factors, including availability of funds and the volume of discarded mattresses collected in this manner. In addition, MRC may, based on experience, decide to vary the incentive level by geographic area. The incentive is promoted on MRC’s website in conjunction with a list of authorized California drop-off locations.

Residents may qualify for this incentive by dropping off mattresses at one of the Program’s contracted incentive locations. MRC regularly assesses resident participation in the incentive and considers whether and how to expand locations where the incentive is offered, including possible municipal or private waste sites. MRC notes, however, that most municipalities lack the ability or willingness to administer incentive pay-outs. Additional details about the consumer incentive are included in MRC’s annual reports.

Illegally Dumped Mattresses

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (l) Ensuring, to the maximum extent possible, that urban and rural local governments and participating permitted solid waste facilities and authorized solid waste operations that accept mattresses are provided with a mechanism for the recovery of illegally disposed used mattresses that is funded at no additional cost to the local government, solid waste facility, or solid waste operation.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(l).

In consultation with the Mattress Advisory Committee, the CalRecycle Illegal Dumping Task Force and other stakeholders, MRC developed the following strategy to mitigate illegal mattress dumping:

1. Intercept discarded mattresses before they are illegally dumped by:
 - a. providing California residents with no-cost retailer pickup of discarded mattresses when the retailer delivers a new mattress to a consumer,
 - b. encouraging no-cost drop-off options for state residents at designated mattress collection points throughout California, and
 - c. providing a financial incentive to encourage residents to deliver discarded units directly to recycling facilities.
2. Financially compensate participating local governments, permitted solid waste facilities or authorized solid waste operations that provide baseline data to help MRC and policymakers better understand the extent of illegal mattress dumping. (Illegally Dumped Mattress Collection Initiative).

Using this data, MRC, policymakers and participants can measure and document the extent to which illegal mattress dumping is occurring in each participant's geographic area and whether mitigation efforts are effective.
3. Work with technical experts to develop solutions and best practices to address illegal dumping, attended illegal dumping working groups and conferences, promote resources to consumers and collaborated on projects to expand education and outreach.
4. Provide compensation to fund pilot projects to mitigate illegal mattress dumping and communicate those findings to illegal dumping technical experts.

MRC has implemented these actions to proactively address the problem by encouraging the diversion of used mattresses to recyclers. However, MRC reassesses this strategy annually and considers if adjustments or additional activities are needed to further combat illegal dumping or respond to unanticipated increases in illegal dumping.

Illegally Dumped Mattress Collection Initiative

Scope: Throughout California, local government entities, solid waste operators, non-profits and others use existing funding sources and mechanisms to clean-up illegal dump sites which may contain various types of illegally dumped bulky items and solid waste. The costs incurred by these entities varies significantly based on geographic area (urban vs. rural), local labor costs, the type of truck used to haul the material and the number of units dumped at any one location. MRC recruits these collectors to provide data on the number and location of illegally dumped mattresses throughout the state. This program is called the Illegally Dumped Mattress Collection Initiative (IDMCI). MRC uses this data to evaluate the effectiveness of the above activities (including the amount and distribution of funding) annually.

Eligibility: Urban and rural local governments and participating permitted solid waste facilities and authorized entities that collect illegally dumped mattresses may apply in advance to participate in dumped mattress collection activities for which they are compensated by MRC. MRC does not require any participant to pay any of IDMCI's costs. Mattresses collected through bulky item and curbside mattress pick-up services are not eligible for reimbursement because they are not illegally dumped.

Application, Compensation and Recycling: To receive compensation for collecting illegally dumped mattresses, eligible entities must:

1. Apply to participate in the dumped mattress collection effort.
2. Explain applicant's role as an urban or rural local government, participating permitted solid waste facility, other governmental entity or other participating authorized solid waste operation that is eligible for compensation.
3. Provide evidence documenting the quantity, disposition and location of illegally dumped mattresses that applicant collected. MRC may also request other evidence as needed.
4. Provide an electronically signed statement attesting that the quantity of collected mattresses reported were illegally dumped and were not obtained through ordinary curbside or bulky item collection, from resident or other drop offs, or through other means.
5. MRC incentivizes participants to join the IDMCI by compensating them for

reporting illegally dumped units at a per unit rate for urban and rural entities. MRC uses the rural county definition set forth in the Public Resources Code Section 40184 (which in general defines a rural county as one that disposes of less than 200,000 tons of waste annually). In addition, units collected through IDMCI can be recycled through MRC's existing collection network (at no charge to the participant) even if the outer ticking layer is dirty or wet. MRC remits payment to each collector for all units reported during a calendar year. All requests for compensation are subject to verification and must be submitted to MRC within the designated time period.

MRC reviews the effectiveness of this effort annually and provides additional detail in each annual report. MRC continues to work with Illegal Dumping Task Forces and technical advisory committees to better understand the scope of the problem in California and how to prevent such conduct.

Service to Low-Income and Environmental Justice Communities

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (m) Developing strategies, in consultation with the California Environmental Protection Agency's Environmental Justice Task Force and other relevant parties, for collecting used mattresses for recycling in areas and communities that face unique challenges associated with proper waste management such as poverty, language barriers, and illegal mattress dumping.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(m). MRC recycles discarded mattresses from communities throughout California without bias or discrimination based on physical location or community economic demographics.

Using Program convenience data, units reported through the Illegally Dumped Mattress Collection Initiative and CalRecycle's CalEnviroScreen 3.0, MRC has focused network expansion and outreach efforts in areas where mattress recycling is less accessible or that experience high per capita rates of illegal mattress dumping.

MRC works with CalEPA's Environmental Justice Task Force and other groups to provide targeted collection events and establish new permanent collection sites in areas and communities that face unique challenges associated with proper waste management such

as poverty, language barriers, and illegal mattress dumping. California's Environmental Justice demographics are continually shifting. MRC provides a discussion and analysis of its service to low-income and Environmental Justice communities in each annual report.

No-Cost Drop Off and Compensation

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and (p) of section 42987.1 of the Public Resources Code.
- (F) Describe how consumers of mattresses in California will have a convenient opportunity to recycle and properly manage their used mattresses, including the number, location, and type of collection points in the program.

The Act - PRC Section 42987.1

- (o) A provision that allows an individual to drop off, at no charge, a mattress at a recycler, renovator, mattress recycling center, permitted solid waste facility, authorized solid waste operation, or other municipal facility that accepts mattresses consistent with state solid waste regulations, and that provides for the payment to a municipal or solid waste facility or operation that accepts mattresses an amount determined by the municipal or solid waste facility or operation and the mattress recycling organization to be reasonable for accepting, collecting, storing, transporting, and handling used mattresses.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(o). In addition, Section 18962(a)(2)(F) of the Regulations provides that MRC describe how California consumers of mattresses will have convenient opportunities to recycle and properly manage their used mattresses, which is also covered here.

As required by the Act, California residents may drop off their discarded mattresses at no charge at a participating "recycler, renovator, mattress recycling center, permitted solid waste facility, authorized solid waste operation, or other municipal facility that accepts mattresses consistent with state solid waste regulations." MRC posts on its consumer-focused website (ByeByeMattress.com) a list of such entities (as well as any other interested parties) that accept free drop-offs of discarded mattresses and that comply with state and federal law, along with their location and hours of operation.

To achieve Program convenience goals, MRC uses existing discarded mattress collection infrastructure (in the form of retailer take back and current solid waste collection mechanisms), supplemented as needed with local collection events and consumer incentive payment locations. Each of these used mattress collection channels is discussed in further detail as follows:

- A consumer's purchase of a new mattress often results in an old mattress being

discarded. The Act requires a mattress retailer to provide no-cost discarded mattress take back (offered by the retailer) when it delivers a new mattress to a consumer. This requirement provides a comprehensive mechanism for increasing the collection of discarded mattresses. To promote the recycling of these mattresses, MRC provides take-back resources to mattress retailers to help them comply with this requirement.

- In addition to the retailer take back requirement, many California residents live in a participating municipality that offers no-cost curbside collection or no-cost drop off locations. Participating municipalities then provide the mattresses they collect to recyclers.
- Participation by a municipality in the Program is voluntary, however. For residents whose municipal solid waste facility is not participating in the Program, MRC seeks to identify alternative drop-off options for area residents. These could include MRC-funded recycling events where residents may drop off their used mattresses free of charge.
- Finally, residents that do not participate in one of these collection channels may drop off their discarded mattresses at contracted recyclers or other appropriate MRC contracted facilities and may receive a collection incentive, as discussed above.

MRC provides a discussion and analysis of the Program convenient collection system in each annual report to CalRecycle.

MRC negotiates reasonable payments to be made to a municipal or solid waste facility or operation that agrees to accept discarded mattresses dropped off free of charge for accepting, collecting, storing, transporting, and handling such mattresses.

Impact of Article XIII C of California Constitution

The Regulations - 14 CCR Section 18962(a)(2)

- (B) Describe how the program will meet the requirements of subdivisions (d), (g), (i), (j), (k), (l), (m), (o), and **(p)** of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (p) Ensuring that the impact of Article XIII C of the California Constitution is addressed for local governments participating in the program.

Section 18962(a)(2)(B) of the Regulations provides that the Plan respond to Section 42987.1(p).

MRC understands that if a local government needs to increase the taxes, levies, charges or exactions that it collects from its residents related to the solid waste services it provides because MRC's proposed Plan, as directed by the Act, requires the local government to incur new costs, it may be necessary for that local government to comply with the requirements of Article XIII C of the California Constitution.

It is important to note that a local government's participation in MRC's Program is entirely voluntary. Therefore, to the extent that a local government would incur any additional costs by participating in MRC's Program, it may instead decline to participate in the Program, and thereby avoid incurring additional costs and triggering the impact of Article XIII C, if it so chooses.

In consultation with the Mattress Advisory Committee and other stakeholders, MRC has been cautious in developing this Plan to avoid imposing mandatory obligations on local governments beyond those described in the Act, and to promote policies that should reduce the number of discarded mattresses (including illegally dumped mattresses) that local governments handle. For example, to reduce the number of mattresses picked up by solid waste services that are owned or operated by local governments, MRC established processes for participating mattress retailers and large mattress purchasers (such as hotels, universities, military bases, etc.) to have their discarded mattresses delivered to MRC-contracted recyclers.

Additionally, California residents may deliver their discarded mattresses directly to recyclers and other facilities under contract with MRC free of charge. As discussed above, Section 42987.1(l) requires MRC also compensates entities that pick up illegally dumped mattresses and request compensation from MRC. MRC also negotiates payment agreements with solid waste facilities, authorized solid waste operations, and other municipal facilities that, in accordance with applicable solid waste regulations, voluntarily accept used mattresses dropped off by individuals. These payments

compensate these entities for accepting, collecting, storing, transporting and handling such discarded mattresses.

In none of these instances (or any other aspects of MRC's Plan), does MRC require local governments to incur any additional costs that could require them to increase the taxes, levies, charges or exactions that they collect from their residents related to solid waste services they provide, and as a result possibly trigger the requirements of Article XIII C of the California Constitution. Instead, each of these examples likely reduces local government expenses or generates revenue for local governments.

Performance Measurement

Section 18962(a)(5) of the Regulations requires that the Plan respond to Section 42987.1(f) and (h).

Performance Measurement

The Regulations - 14 CCR Section 18962(a)(5)

Include the requirements of subdivisions (f) and (h) of section 42987.1 of the Public Resources Code.

The Act - PRC Section 42987.1

- (f) The publishing of an annual report for each calendar year of operation.
- (h) A program performance measurement that shall collect program data for the purpose of the annual report. The information shall include the following:
 - 1) A methodology for estimating the amount of mattresses sold in the state and used mattresses available for collection in the state, and for quantifying the number of used mattresses collected and recycled in the state.
 - 2) A methodology for determining mattresses sold in the state by manufacturers and renovators of the mattress recycling organization.

Annual Report

Section 42987.1(f), requires MRC to publish an annual report. MRC submits its annual report by July 1st of each year, as required by Section 42990.1. Reports are published on both MattressRecyclingCouncil.org and CalRecycle's website.

Estimation Methodologies

Section 42987.1(h), requires that MRC estimate California mattresses sold, discarded, collected and recycled.

Methodology for 42987.1(h)(1)

1. **Estimating mattresses sold in California:** All retailers and other sellers of mattresses to California consumers must assess and remit the recycling charge monthly to MRC. MRC requires each retailer or seller to report to MRC both the actual number of mattresses it sold in California each month and the amount of the charge with regard to those mattresses. MRC uses this data, national mattress market forecasts prepared by the International Sleep Products Association and other relevant economic and market data to estimate future California sales of new, used and renovated mattresses and foundations. Additional details are found in MRC's annual budget submission to CalRecycle.

2. **Used mattresses available for collection:** MRC estimates the number of discarded units available for collection based in part on annual statistics reported to CalRecycle on the actual number of units landfilled, units renovated and recycled in the state, as well as additional factors. We also know that a new mattress sale often triggers a used mattress discard. Since a strong correlation exists between new units sold and discarded units, MRC also considers general economic trends that influence mattress sales (such as, unemployment rates, disposable income, housing market conditions, inflation, etc.), state population trends and consumer sentiment.

Over the long term, MRC anticipates that the quantity of mattresses discarded annually in the state will likely increase gradually.

3. **Used mattresses collected and recycled in the state:** MRC reports the number of used mattresses collected and recycled in the state based on actual recycling data reported annually to MRC (by its recyclers) and CalRecycle (by other recyclers). MRC publishes this information in its annual report.

Methodology for 42987.1(h)(2)

MRC uses actual sales data that retailers and other sellers must report monthly to MRC to determine the number of new, used and renovated mattresses and foundations sold in the state.

Financing Mechanism

Section 18962(a)(6) of the Regulations provides that the Plan respond to Section 42987.1(e).

Program Funding

The Regulations - 14 CCR Section 18962(a)(6)

Financing Mechanism. Includes the requirements of subdivisions (e) of section 42987.1 of the Public Resources Code, and audits per subdivision (b) of section 42990 of the Public Resources Code. A mattress recycling organization shall allocate revenues and expenses applicable to this program in accordance with Generally Accepted Accounting Principles (GAAP).

The Act - PRC Section 42987.1

- (e) 1) The establishment and administration of a means for funding the plan in a manner that distributes the mattress recycling organization's costs uniformly over all mattresses sold in the state.
- 2) The funding mechanism shall provide sufficient funding for the mattress recycling organization to carry out the plan, including the administrative, operational, and capital costs of the plan.

The Program is funded by a recycling charge collected on all mattresses sold for use in California. More specifically, Section 42988(b) requires that the charge fund Program operations over a multi-year period in a fiscally "prudent and responsible" manner. MRC sets the charge, based on its anticipated administrative, operational, and capital costs, subject to external audit and CalRecycle's approval. Retailers and other parties selling mattresses remit the charge directly to MRC as required by the Act.

Section 42989.1 of the Act was amended in 2025. Retailers may choose to visibly display the recycling charge separately on the "invoice, receipt, or functionally equivalent billing document provided by the seller to the consumer" for all units sold in California or a distributor, retailer, or seller may directly pay the applicable charge to MRC on behalf of the consumer or ultimate end user of the mattress if the distributor, retailer, or seller enters into a written agreement with MRC to remit the charge directly to MRC on behalf of the consumer. If the charge is visible, a description may be displayed in upper- or lower-case letters and is not required to be displayed in a specific font, provided the description is prominently displayed in English and is readable.

In accordance with the Act, the Plan describes the "mattress recycling charge." For purposes of the Program, MRC refers to the charge as a "Recycle Fee" in consumer education and outreach materials for the following reasons:

- “Recycle Fee” is currently used in MRC’s Connecticut and Rhode Island Programs. Having consistent text is beneficial for consumers, as well as national and online mattress retailers selling products in each state.
- If the charge is shown on the receipt or other sales documentation provided to customers at the time of sale, some mattress retailers have a limited number of characters that they can use on their sales receipt. “Recycle Fee” clearly describes the additional cost and is within the allocated number of characters.
- The term “Recycle Fee” best communicates to consumers the intent of the additional receipt line item.

The charge is collected on the following types of sales:

- Retailers choosing to have a visible charge at the point of sale must collect the charge at that time for all sales of mattresses and foundations and remit the charge to MRC.
- A distributor, retailer, or seller, who chooses to pay MRC directly on behalf of another entity and not have a visible charge at the point of sale, must enter into an agreement with MRC to do so and must still remit the charge directly to MRC on behalf of the customer.
- Online retailers have the same obligations as brick-and-mortar retailers for all mattresses and foundations sold for delivery in California, regardless of where the online retailer is located.
- Manufacturers of mattresses and foundations sold to California businesses including the hospitality industry, dormitories, hospitals, and prisons (also known as “contract” or “institutional” customers), must also remit the charge on such sales to MRC.

The charge must be assessed on each mattress and foundation sold. Each mattress and foundation is counted as an individual unit and the recycling charge must be applied separately to each. The charge is a single, flat rate regardless of the size, type, construction, or brand of mattress or foundation purchased. For example, if a consumer buys a mattress set that consists of one mattress and one foundation, the retailer would assess the charge for the mattress and for the foundation.

Section 42989(b)(2) of the Act provides MRC discretion to set “two different charges to accommodate mattress size differentials.” MRC has decided to set one flat rate charge for all mattress and foundations sizes and types. MRC reviews the impact of this decision annually. MRC notes that the International Sleep Products Association (ISPA) annually collects and publishes national mattress size sales data in its *Report of Sales and Trends*. MRC reviews ISPA annual data on sales of mattresses by size and implications for retailers in assessing whether to set two different charges based on size.

MRC may propose to revise the charge at most once each year, provided it gives the public not less than 180 days' notice prior to its implementation. If MRC provides notice that it intends to reduce the charge, the organization shall provide the department with information about how it will effectively implement the Program at the reduced charge.

MRC contracts with third parties that provide all necessary handling, storage, transportation and recycling services. Because most of these services occur in California, the Program is compliant with Section 42989(e) of the Act prioritizing the use of in-state processing while spending the majority of collected charges in the state of California.

To illustrate how MRC implements its plan, MRC provides the following 2026 budget to describe the costs of this Plan. When preparing its budgets, MRC allocates revenues and expenses in accordance with Generally Accepted Accounting Principles, as requested by Section 18962(a)(6) of the Regulations. MRC's capital costs represent a nominal amount of its budget and are limited to computers and related office equipment for MRC staff.

2026 Mattress Recycling Council California, LLC Budget

Category	2026 Proposed Budget
REVENUE:	
Recycling Charge Revenue (\$16.00/unit)	\$ 55,673,222
Late Fee Revenue	\$ 30,000
Total Revenue	\$ 55,703,222
EXPENSES:	
Operational Costs	
Collection and Container Costs	\$ 6,092,760
Illegally Dumped Mattress Collection Initiative	\$ 1,047,630
Total Transportation and Recycling	\$ 35,742,355
Total Operational Costs	\$ 42,882,745 (80.4% expense allocation)
Education and Outreach	
Advertising and Consumer Education	\$ 1,165,200
Other Education and Outreach Expenses	\$ 1,235,762
Total Education and Outreach	\$ 2,400,962 (4.5% expense allocation)
Total Research and Development	\$ 952,895 (1.8% expense allocation)
Total Program Administration	\$ 6,154,600 (11.5% expense allocation)
Legal Costs	\$ 189,766 (0.4% expense allocation)

Category	2026 Proposed Budget
CalRecycle Oversight Fees	\$ 721,000 (1.4% expense allocation)
Total Expenses	\$ 53,301,968
Operating Net Assets	\$ 2,401,254
Net Investment Return	\$ 500,000
Net Assets	\$ 2,901,254

The budget on which the charge is calculated includes the cost of an annual audit to be conducted by an independent certified public accountant as required by the Act. A detailed analysis of annual expenses by cost category is provided in MRC's California Used Mattress Recovery and Recycling Plan Budget, submitted to CalRecycle on July 1 of each year.

Education And Outreach

Section 18962(a)(7) of the Regulations provides that the Plan respond to Section 42987.1(n).

Education and Outreach

The Regulations - 14 CCR Section 18962(a)(7)

Describe education and outreach efforts as required by subdivision (n) of section 42987.1 of the Public Resources Code, including methods of distribution. The plan may also include a description of education and outreach efforts to all parties affected by the program and may include additional options available for consumers to dispose of their used mattresses, such as mattress renovation.

The Act - PRC Section 42987.1

- (n) Providing outreach efforts and education to consumers, manufacturers, and retailers, for the purpose of promoting the recycling of used mattresses and options available to consumers for the free dropoff or collection of used mattresses.

MRC's education and outreach efforts are targeted to consumers, the mattress industry, state officials, local leaders and other stakeholders. To reach these audiences, MRC developed industry- and consumer-facing brands.

The primary brand, Mattress Recycling Council, is used to:

- Educate the mattress industry about the state laws, Program mechanics and the legal obligations the industry must fulfill.
- Inform regulators and other policymakers about the performance of state Programs.
- Promote how and why to work with MRC to divert mattresses from landfill or combat illegal mattress dumping.
- Educate the collection network and recyclers about MRC's expectations for proper screening, stacking, loading and management of mattresses.
- Share its expertise and publish resources, research projects and outcomes.

The consumer-facing sub-brand, Bye Bye Mattress, is used to educate those looking to dispose of a mattress. Specifically:

- Residents learn about California's retailer take back obligation, their nearest drop-off location, as well as available bulky item curbside waste collectors that offer at least one free pickup each year.

- Businesses learn how to work with MRC to have their mattresses picked up and transported to a recycler or access available drop-off sites that will accept small and/or large loads.
- Both audiences learn about the mattress recycling charge and benefits of mattress recycling.

MRC's outreach efforts can be classified in these three categories:

- **Controlled:** MRC uses its own assets to provide and publish information (e.g., websites, social media, newsletters)
- **Paid:** MRC pays for the ability to distribute information and receive visibility (e.g., advertising or event sponsorships)
- **Offered:** MRC makes information or resources available to others to voluntarily distribute (e.g., a media release, point-of-sale material or toolkit)

MRC uses a comprehensive mix of these efforts to distribute information to consumer and industry audiences. The information encourages visiting one of three websites – ByeByeMattress.com, MattressRecyclingCouncil.org or MRCreporting.org.

MRC created ByeByeMattress.com to provide consumers with information about how and where to drop off used mattresses at no cost, retailers' take-back obligations and curbside collectors offering at least one free pickup each year. We promote this website through advertising campaigns, community festivals, local media, social media and direct marketing. MRC also works with retailers, municipalities, local officials, the media and stakeholders to distribute MRC-created information (i.e. flyers, posters, information cards, public service announcements, videos, pre-written articles and other types of content) to consumers.

MRC created MattressRecyclingCouncil.org to inform manufacturers and retailers about the Program and their obligations, as well as to house various documents MRC is required to publish. This website also contains important information for those that agree to collect, transport and recycle mattresses or are interested in doing so. Meanwhile, MRCreporting.org serves as the online portal that companies affected by the law must use to register with MRC, report their sales and remit the fee. MRC promotes these websites by advertising in industry publications, arranging media coverage, exhibiting and speaking at conferences, distributing newsletters and notices, conducting store visits, publishing information online and on social media. Examples of supporting materials we have created include brochures, information sheets, videos and advertisements.

Each year, MRC conducts at least one consumer and one industry survey to evaluate the effectiveness of our outreach. A statewide survey is used to measure consumer

awareness of mattress recycling, retailer take back and how to recycle mattresses. MRC uses the results to monitor awareness trends over time and identify in which demographics awareness is increasing or declining, which key messages consumers are retaining and how they learn about recycling or the Program. MRC also invites all registered companies in all program states to respond to a separate industry survey. MRC uses the feedback to evaluate awareness of state laws, knowledge of legal obligations, satisfaction with MRC's assistance and the effectiveness of the resources MRC provides. We use the responses to identify opportunities for improvement.

Throughout the year, MRC monitors how each element of its communication strategy performs by analyzing metrics appropriate for that element. For example:

- **Websites:** MRC tracks trends in website traffic and performance. We use data points including number of visitors, time on site, bounce rate, referring sources and page views to determine how to optimize the user experience and help the site's information be discovered by search browsers.
- **Social media:** MRC maintains a social media presence for both MRC and Bye Bye Mattress brands and uses data provided by social media platforms to monitor the size and growth of the audience and content performance. This information helps us create quality content and attract new followers.
- **Advertising:** MRC uses consumer and industry surveys to monitor awareness, as well as understand how these audiences are learning about the Program. MRC may also consider other data points that demonstrate if the ad resulted in an intended behavior (e.g. website traffic trends and page views, social media performance, or numbers of participants or applications submitted).
- **Digital newsletters and emails:** The number of subscribers, open rates and click-through-rates helps us determine effectiveness.
- **Media coverage:** MRC measures the impressions and advertising value of media coverage on an annual basis.
- **Events:** Overall event attendance, booth attendance and attendee feedback help us determine if we will attend or sponsor the event again in the future.

MRC uses survey results and data gathered on the performance of each element used in its communication strategy and adjusts as necessary. In its annual report to CalRecycle, MRC describes the outreach efforts used each calendar year and how it monitored the effectiveness of its communication strategy.

Consultative Processes

In designing the Program, MRC consulted stakeholders and the Mattress Advisory Committee as required by sections 18962(a)(4) and 18962(a)(8) of the Regulations.

Consultation Process With Stakeholders

The Regulations - 14 CCR Section 18962(a)(4)

Stakeholder Consultation Process per subdivision (C) of section 42987.1 and 42987.2 of the Public Resources Code.

The Act - PRC Sections 42987.1 and 42987.2

- 42987.1(c) A consultation process with affected stakeholders, including, but not limited to, local government representatives, recyclers, and solid waste industry representatives.
- 42987.2 In preparing the plan pursuant to Section 42987.1 and any updates to the plan pursuant to Section 42987.1.5, the mattress recycling organization shall consult with interested stakeholders, which shall include, but not be limited to, local government representatives, recyclers, and solid waste industry representatives.

MRC regularly meets with stakeholders throughout California to discuss the Plan's implementation and Program objectives. Participants in this process include municipalities, permitted solid waste facilities, authorized solid waste operations, environmental justice organizations, technical advisory committees, illegal dumping task forces, the California mattress advisory committee, state officials, recyclers, transporters and others.

MRC conducts regular discussions with stakeholders, appears at solid waste and mattress industry events and communicates regularly with Program participants as described in **Education and Outreach.**

Advisory Committee Report

The Regulations - 14 CCR Section 18962(a)(8)

Advisory Committee Report. Include the report by the mattress recycling organization advisory committee as required by subdivision (q) of section 42987.1 of the Public Resources Code. The mattress recycling organization's plan may include a description of how it addressed the points or recommendations raised in the advisory committee report.

The Act - PRC Section 42987.1

(q) A report from the advisory committee, established pursuant to paragraph (3) of subdivision (a) of Section 42987, which includes a summary of the consultative process between the advisory committee and the mattress recycling organization during the development of the plan, as well as any other information deemed pertinent by the advisory committee to maximizing the recovery and recycling of used mattresses in the state.

The advisory committee's 2025 report is included in **Appendix E**.

The Act requires MRC to consult the advisory committee at least once prior to submitting the Plan to CalRecycle. MRC consults with the advisory committee at least once annually related to the ongoing implementation of the plan, as well as any other information deemed pertinent by the advisory committee to maximize the recovery and recycling of used mattresses. MRC expresses its appreciation to the committee for its members' time, support and cooperation during the conception, implementation and evolution of the Program over the past decade.

Contingency Plan

Section 42987.1 of the Act requires the Plan to include a contingency plan.

Contingency Plan

The Act - PRC Section 42987.1

- (r) A contingency plan in the event the department decertifies the mattress recycling organization, or a mattress recycling plan expires, is disapproved, or is revoked. The contingency plan shall describe how the plan objectives can be carried out, in accordance with subdivision (c) of Section 42989.3, in the absence of a plan, either by the mattress recycling organization, or by the department through some entity such as an escrow company.

MRC's contingency plan is included in **Appendix F**.

Appendix A: Proof of Certification

Edmund G. Brown Jr., Governor

DEPARTMENT OF RESOURCES RECYCLING AND RECOVERY

1001 I STREET, SACRAMENTO, CALIFORNIA 95814 • WWW.CALRECYCLE.CA.GOV • (916) 322-4027

P.O. BOX 4025, SACRAMENTO, CALIFORNIA 95812

July 2, 2014

Ryan Trainer
President
Mattress Recycling Council
501 Wythe Street
Alexandria, VA 22314

Dear Mr. Trainer,

CalRecycle has received your letter dated July 1, 2014, requesting certification of the Mattress Recycling Council as the mattress recycling organization, pursuant to section 42987(a)(1) of the Used Mattress Recovery and Recycling Act. The mattress recycling organization, as defined in section 42986(h), must be, among other things, exempt from taxation under section 501(c)(3) or section 501(c)(6) of the Internal Revenue Code. In your letter you stated that the Mattress Recycling Council's application to be exempt from taxation under Internal Revenue Code section 501(c)(3) is still pending before the Internal Revenue Service. With the exception of the tax exempt status, CalRecycle finds the Mattress Recycling Council meets all of the requirements for certification; therefore, CalRecycle conditionally approves the Mattress Recycling Council's certification as the mattress recycling organization, pending approval by the Internal Revenue Service of non-profit status. Please submit a copy of the Mattress Recycling Council's non-profit status when it has been approved by the Internal Revenue Service.

We look forward to working with you and your members to make this program a success.

You may contact Ashley Harley at (916) 341-6075 if you have additional questions.

Sincerely,

A handwritten signature in purple ink, appearing to read "Carol Mortensen", is written over a faint, larger purple signature.

Carol Mortensen
Director

Appendix E: Advisory Committee Report

January 21, 2026

Mike O'Donnell
Chief Operating Officer
Mattress Recycling Council
501 Wythe St.
Alexandria, VA 22314

Subject: Plan Amendment Consultative Process

Dear Mr. O'Donnell,

The Mattress Recycling Council (MRC) conducted a consultative process that included the Mattress Recycling Advisory Committee in order to develop the Plan Amendment submitted December 15, 2025. Although the committee did not review the final document, its component parts were the product of an ongoing consultative process that met the legislative and regulatory requirements for participation.

In particular, the fee change, access for disadvantaged and rural communities, market development concerns for foam and other materials, were the subject of multiple contacts in an ongoing consultative process over the past two months.

In the coming year, the committee looks forward to ongoing discussions regarding implementation of this plan.

The following is our summary of the Consultative Process:

Through regular meetings, as well as email and telephone consultation or in-person contacts, members of the Mattress Recycling Advisory Committee provide input to staff and management of the MRC/MRO. These exchanges are brought to the full committee as agenda items in instances where a resolution is requested or a motion is needed for an official recommendation or action. Additionally, at its regular meetings, the committee includes informational items, updates, discussion items and motions for proposed actions, including the MRC/MRO in the discussion for the purpose of consultation. The Committee was impressed with regular updates from the MRC at the Committee meetings, especially the education components.

This letter was approved by a roll-call vote during the committee's 1-21-26 meeting.

Motion: David Goldstein. Second

Aye: David Goldstein, Don Franco, Michelle Williams, Steve Kelley

Nay: None

Abstain: None

Absent: Larry Sweetser

Thank you again for the excellent work of the Mattress Recycling Council.

Sincerely,

David Goldstein, Chairman

California Mattress Recycling Advisory Committee

Appendix F: Contingency Plan

April 30, 2020

Mattress Recycling Council California, LLC Contingency Plan

Contingency plan in the event that:

- I. The California Department of Resources Recycling and Recovery (Department) decertifies the Mattress Recycling Council California, LLC (MRC), or
- II. The mattress recycling plan (the plan) expires, is disapproved, or is revoked

I. The Department decertifies MRC

A. This may happen for one of two reasons

- i. MRC informs the Department in writing that it is no longer willing or able to serve as the mattress recycling organization (MRO), or
- ii. The Department finds that MRC has intentionally violated one or more provisions of Cal. Pub. Res. Code Chapter 388 in a manner that has materially impacted MRC's ability to substantially meet its obligations under MRC's approved mattress recycling plan or if the Department revokes that plan pursuant to Section 42993.2 of the Code.

B. Following decertification, the Department will:

- i. Establish a process and schedule that will, to the maximum extent possible, allow for an orderly transition of responsibility from MRC to a successor organization (SO).
- ii. Certify a SO pursuant to Pub. Res. Code § 42987.
- iii. If the Department revoked the existing plan, approve a successor plan or amendments to the existing plan proposed by the SO.
- iv. Decide whether to request MRC to provide transitional services until it has certified a SO and determined that the SO is prepared to assume all financial, statutory, contractual, and other legal responsibilities for implementing its obligations, and if so, for what time period it will require such transitional services.

C. If the Department requests that MRC provide transitional services and MRC accepts the request, MRC will, subject to the Department's approval:

- i. Continue to administer the program, providing transitional services that include:

1. managing contractors and other service providers;
2. paying third party transporters to move mattresses from consolidation sites (including public drop-off, planned collection events and large- volume pickups) to MRC contracted mattress recyclers;
3. paying contracted recyclers to process mattresses;
4. paying invoices and payrolls;
5. maintaining existing consumer drop-off incentives through reimbursements to parties contracted to pay the consumer incentive;
6. processing new and pending applications for, and make payments pursuant to, third parties participating in MRC's illegal dumping initiative;
7. collecting and verifying data that recyclers, renovators and others must report to MRC;
8. funding and managing previously approved and pending research projects;
9. receiving support services from MRC Inc. pursuant to the existing affiliation agreement between MRC Inc. and MRC;
10. providing regular reports to the Department on program operations, and
11. performing other financial and administrative duties in a manner necessary and appropriate to maintain the continuity of the program's operations during the transition process.

- ii. Continue to receive charges remitted pursuant to Section 42989.1.

MRC's transitional service period may not exceed 12 months, unless MRC agrees to provide those services for a longer period.

- D. If the Department decides not to request that MRC provide transitional services, or MRC declines to accept such a request by the Department:

- i. The Department may direct in writing that MRC establish a trust fund or escrow account and transfer all unexpended funds (which means charge revenue in MRC's accounts that MRC is not already obligated to pay pursuant to a contract, claim, or similar mechanism) into that fund or account within 30 days.

ii. The trust fund or escrow account shall:

1. accept charges that would have been remitted to MRC prior to its decertification,
2. make payments from the trust fund or escrow account as the Department directs in writing to implement the most recently approved plan, and
3. be subject to reasonable requirements that the Department may set until it certifies a SO.

iii. The Department may appoint an agent to administer the program temporarily pending the SO's certification. If requested by the Department, MRC shall seek to transfer operations of the California mattress recycling program to the Department or its agent in an orderly manner as directed by the Department. Operations to be transferred may include, but are not limited to the following:

1. managing contractors and other service providers;
2. paying third party transporters to move mattresses from consolidation sites (including public drop-off, planned collection events and large- volume pickups) to MRC contracted mattress recyclers;
3. paying contracted recyclers to process mattresses;
4. paying invoices and payrolls;
5. maintaining existing consumer drop-off incentives through reimbursements to parties contracted to pay the consumer incentive;
6. processing new and pending applications for, and make payments pursuant to, third parties participating in MRC's illegal dumping initiative;
7. collecting and verifying data that recyclers, renovators and others must report to MRC;
8. funding and managing previously approved and pending research projects;
9. providing regular reports to the Department on program operations, and
10. performing other financial and administrative duties in a manner necessary and appropriate to maintain the continuity of the program's operations during the transition process.

iv. The trustee or escrow agent shall transfer those funds as the Department directs to a certified SO.

- E. The process for transferring assets and liabilities from MRC to another entity will depend on whether the Department requests MRC to provide transitional services (and MRC agrees to do so).
- F. If MRC is providing transitional services, it will, within 30 days after being notified in writing by the Department that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program:
- i. Undertake the process for seeking to transfer to the SO all assets and liabilities, and all financial, statutory, contractual, and other legal rights and responsibilities, including, but not limited to the receipt of the charge remitted pursuant to Section 42989.1.
 - ii. The overarching goal of this transfer process is to maintain, to the extent practicable, the continuity of MRC's mattress processing capacity (in terms of MRC's existing mattress recyclers' operations and the services provided by MRC's other service providers, that are pending or underway prior to the start of the transition process). MRC's contractual and other legal rights and responsibilities include but are not limited to the following:
 - 1. contracts for services to maintain program registration functions (that is, maintaining lists of all manufacturers, distributors, retailers, and renovators participating in the program),
 - 2. agreements to process charge revenue receipts that retailers and other sellers remit to MRC,
 - 3. contracts for collecting, transporting and processing the discarded mattresses,
 - 4. a license to use various software programs required to implement and maintain various aspects of the program,
 - 5. contracts for various consulting services and functions (including communications and public relations, accounting and auditing, research),
 - 6. agreements to prepare analysis and content for use in MRC's annual reports,
 - 7. pending litigation, other disputes and claims involving MRC, etc.
 - iii. Among other things, the process for seeking to transfer these contractual and other legal rights and obligations to the SO may include novating existing contracts to replace MRC with the SO as one of the contracting parties. This process will commence within 30 days after the Department's notice that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program, but may require more than 30 days to complete, given the number of contracts that would require novation. In addition, it is unknown at this point whether all

contractors and service providers will agree to such novations. Some may decline to agree to transfer MRC's contractual rights and responsibilities to the SO.

- iv. MRC may transfer to the SO only those financial liabilities that the Department has approved for transfer (which Section 42989.3(3) of the Code defines as including, but not be limited to, notes payable, accounts payable, salaries payable, wages payable, interest payable, other accrued expenses payable, income taxes payable, customer deposits, vendor contracts, and any other contractual liabilities). Transferrable liabilities would include all administrative fees that the Department regularly charges MRC (including increased fees that may result from the Department's involvement in the transition process), but excludes civil or criminal liabilities, fines or penalties issued by the state. Other than the existing contractual and other legal rights and responsibilities summarized in point ii above, MRC's only financial liabilities at this time consist of current payables (that is, invoices for goods and services that MRC has received and booked, and that MRC expects to pay in the near term). At this time, we do not anticipate that this situation will change substantially in the foreseeable future. Within 30 days after being notified in writing by the Department that it has certified the SO and determined that the SO has assumed its responsibilities to administer and manage the program MRC would notify the Department which assets and liabilities MRC intends to transfer to the SO, but the exact timing of that transfer will depend on when the Department notifies MRC in writing which liabilities it approves for transfer. MRC will require a reasonable amount of time after it receives such written notification to effect such transfers.
- v. MRC will transfer to the SO information, software contracts and other data in its possession (including the lists of all manufacturers, distributors, retailers, and renovators participating in the program) and materials (for example, educational materials) that the SO will need to administer and operate the program.

G. If the Department decides not to request that MRC provide transitional services (or MRC declines to accept such a request by the Department), and the Department instead directs MRC to transfer its unexpended funds to a trust fund or escrow account, the above transfer process will be somewhat different as follows:

- i. MRC will have already transferred to the trust fund or escrow account MRC's legal rights and responsibilities concerning the receipt of the charge remitted pursuant to Section 42989.1 when that fund or account was established.
- ii. Within 30 days after the trust fund or escrow account is established, MRC will also undertake the process of seeking to transfer to the SO, if certified (or an agent appointed by the Department, if the SO has not

been certified) the remainder of the charge revenue in its accounts (that is, funds already obligated to pay pursuant to a contract, claim or similar mechanism that therefore were not transferred to the trust fund or escrow account initially) and all other assets and liabilities, and all financial, statutory, contractual, and other legal rights and responsibilities in the same manner as described in the preceding paragraph above with regard to the SO.

II. If the mattress recycling plan expires, or if the Department disapproves a successor plan or amendments to the existing plan, or revokes the existing plan:

- A. If MRC remains the MRO (that is, if the Department has not decertified MRC), MRC will seek to obtain the Department's approval of a successor plan or amendments to the existing plan.

Regardless of whether MRC, a SO, the Department or an agent appointed by the Department is administering and managing the program, the existing plan will remain in effect until the Department approves a successor plan or amendments to the existing plan.

- B. A manufacturer, renovator, retailer, or distributor that sells mattress in California to a consumer or to an ultimate end user may continue to do so without penalty until an approved successor plan (or amendments to the existing plan) go into effect if it continues to meet the applicable requirements of Pub. Res. Code Chapter 388, including, but not limited to, Section 42989.1 (regarding a seller's obligation to collect and remit the charge) and 42992 (regarding a retailer's take-back obligation).
- C. If the Department has not approved a successor plan (or amendments to the existing plan) within one year after decertifying MRC, the Department may modify the existing plan as it deems necessary, including, if a trust fund or escrow account has been established, to direct payments from that fund or account.

Appendix G: Collection Network Locations

This information is current as of November 5, 2025. To verify if a location is currently active, visit ByeByeMattress.com.

COLLECTION SITES

238 locations

These sites allow public drop off of mattresses during their hours of operation. Many sites also allow businesses access. Unit limits may apply. An appointment or proof of residency may be required. Visit [Bye ByeMattress.com](https://ByeByeMattress.com) for full details.
