The tables and figures in this document are excerpted from the Targeted Statewide Waste Characterization Study: Waste Disposal and Diversion Findings for Selected Industry Groups, California Integrated Waste Management Board Publication #341-06-006. The table and figure names and numbers match those in the full report. For other data and more information, see the [complete study](#) or the [Executive Summary](#), available at [www.ciwmb.ca.gov/Publications/default.asp?pubid=1182](http://www.ciwmb.ca.gov/Publications/default.asp?pubid=1182). This study used material types based on the CIWMB's standard 67 types with several additional types added. A list of the material types and their definitions used in this study can be found in Appendix C of the report.
